§ 1.1081–2 *Purpose and scope of exception.* (a) The general rule is that the entire amount of gain or loss from the sale or exchange of property is to be recognized (see section 1002) and that the entire amount received as a dividend is to be included in gross income. (See sections 61 and 301.) Exceptions to the general rule are provided elsewhere in subchapters C and O of chapter 1, one of which is that made by section 1081 with respect to exchanges, sales, and distributions specifically described in section 1081. Section 1081 provides the extent to which gain or loss is not to be recognized on (1) the receipt of a distribution described in section 1081 (c) (2), or (2) an exchange or sale, or the receipt of a distribution, made in obedience to an order of the Securities and Exchange Commission, which is issued to effectuate the provisions of section 11 (b) of the Public Utility Holding Company Act of 1935 (15 U. S. C. 79k (b)). Section 331 provides that a distribution in liquidation of a corporation shall be treated as an exchange. Such distribution is to be treated as an exchange under the provisions of sections 1081 to 1083, inclusive. The order of the Securities and Exchange Commission must be one requiring or approving action which the Commission finds to be necessary or appropriate to effect a simplification or geographical integration of a particular public utility holding company system. For specific requirements with respect to an order of the Securities and Exchange Commission, see section 1081 (f).

(b) The requirements for nonrecognition of gain or loss as provided in section 1081 are precisely stated with respect to the following general types of transactions:

(1) The exchange that is provided for in section 1081 (a), in which stock or securities in a registered holding company or a majority-owned subsidiary company are exchanged for stock or securities.

(2) The exchange that is provided for in section 1081 (b), in which a registered holding company or an associate company of a registered holding company exchanges property for property.

(3) The distribution that is provided for in section 1081 (c) (1), in which stock or securities are distributed to a shareholder in a corporation which is a registered holding company or a majority-owned subsidiary company, or the distribution that is provided for in section 1081 (c) (2), in which a corporation distributes to a shareholder, rights to acquire common stock in a second corporation.

(4) The transfer that is provided for in section 1081 (d), in which a corporation which is a member of a system group transfers property to another member of the same system group.

Certain rules with respect to the receipt of nonexempt property on an exchange described in section 1081 (a) are prescribed in section 1081 (e).

(c) These exceptions to the general rule are to be strictly construed. Unless both the purpose and the specific requirements of sections 1081 to 1083, inclusive, are clearly met, the recognition of gain or loss upon the exchange, sale, or distribution will not be postponed under those sections. Moreover, even though a taxable transaction occurs in connection or simultaneously with a realization of gain or loss to which nonrecognition is accorded, nevertheless, nonrecognition will not be accorded to such taxable transaction. In other words, the provisions of section 1081 do not extend in any case to gain or loss other than that realized from and directly attributable to a disposition of property as such, or the receipt of a corporate distribution as such, in an exchange, sale, or distribution specifically described in section 1081.

(d) The application of the provisions of sections 1081 to 1083, inclusive, is intended to result only in postponing the

recognition of gain or loss until a disposition of property is made which is not covered by such provisions, and, in the case of an exchange or sale subject to the provisions of section 1081 (b), in the reduction of basis of certain property. The provisions of section 1082 with respect to the continuation of basis and the reduction in basis are designed to effect these results. Although the time of recognition may be shifted, there must be a true reflection of income in all cases, and it is intended that the provisions of sections 1081 to 1083, inclusive, shall not be construed or applied in such a way as to defeat this purpose.

§ 1.1081–3 *Exchanges of stock or securities solely for stock or securities.* The exchange, without the recognition of gain or loss, that is provided for in section 1081 (a) must be one in which stock or securities in a corporation which is a registered holding company or a majority-owned subsidiary company are exchanged solely for stock or securities other than stock or securities which constitute nonexempt property. An exchange is not within the provisions of section 1081 (a) unless the stock or securities transferred and those received are stock or securities as defined by section 1083 (f). The stock or securities which may be received without the recognition of gain or loss are not limited to stock or securities in the corporation from which they are received. An exchange within the provisions of section 1081 (a) may be a transaction between the holder of stock or securities and the corporation which issued the stock or securities. Also the exchange may be made by a holder of stock or securities with an associate company (i. e., a corporation in the same holding company system with the issuing corporation) which is a registered holding company or a majority-owned subsidiary company. In either case, the nonrecognition provisions of section 1081 (a) apply only to the holder of the stock or securities. However, the transferee corporation must be acting in obedience to an order of the Securities and Exchange Commission directed to such corporation, if no gain or loss is to be recognized to the holder of the stock or securities who makes the exchange with such corporation. See also section 1081 (b), in case the holder of the stock or securities is a registered holding company or an associate company of a registered holding company. An exchange is not within the provisions of section 1081 (a) if it is within the provisions of section 1081 (d), relating to transfers within a system group. For treatment when nonexempt property is received, see section 1081 (e); for further limitations, see section 1081 (f).

§ 1.1081–4 *Exchanges of property for property by corporations*—(a) *Application of section 1081 (b).* Section 1081 (b) applies only to the transfers specified therein with respect to which section 1081 (d) is inapplicable, and deals only with such transfers if gain is realized upon the sale or other disposition effected by such transfers. If loss is realized section 1081 (b) is inapplicable and the application of other provisions of subtitle A must be determined. See section 1081 (g). If section 1081 (b) is applicable, the other provisions of subchapters C and O relating to the nonrecognition of gain are inapplicable, and the conditions under which, and the extent to which, the realized gain is not recognized are set forth in paragraphs (b), (c), (d), (e), and (f) of this section.

(b) *Nonrecognition of gain; no nonexempt proceeds.* No gain is recognized to a transferor corporation upon the sale or other disposition of property transferred by such transferor corporation in exchange solely for property other than nonexempt property, as defined in section 1083 (c), but only if all of the following requirements are satisfied:

(1) The transferor corporation is, under the definition in section 1083 (b), a registered holding company or an associate company of a registered holding company;

(2) Such transfer is in obedience to an order of the Securities and Exchange Commission (as defined in section 1083 (a)) and such order satisfies the requirements of section 1081 (f);

(3) The transferor corporation has filed the required consent to the regulations under section 1082 (a) (2) (see paragraph (g) of this section); and

(4) The entire amount of the gain, as determined under section 1001, can be applied in reduction of basis under section 1082 (a) (2).

(c) *Nonrecognition of gain; nonexempt proceeds.* If the transaction would be within the provisions of paragraph (b) of this section if it were not for the fact that the property received in exchange consists in whole or in part of nonexempt property (as defined in section 1083 (e)), then no gain is recognized if such nonexempt property, or an amount equal to the fair market value of such nonexempt property at the time of the transfer,

(1) Is expended within the required 24-month period for property other than nonexempt property; or

(2) Is invested within the required 24-month period as a contribution to the capital, or as paid-in surplus, of another corporation;

but only if the expenditure or investment is made

(3) In accordance with an order of the Securities and Exchange Commission (as defined in section 1083 (a)) which satisfies the requirements of section 1081 (f) and which recites that such expenditure or investment by the transferor corporation is necessary or appropriate to the integration or simplification of the holding company system of which the transferor corporation is a member; and

(4) The required consent, waiver, and bond have been executed and filed. See paragraphs (g) and (h) of this section.

(d) *Recognition of gain in part; insufficient expenditure or investment in case of nonexempt proceeds.* If the transaction would be within the provisions of paragraph (c) of this section if it were not for the fact that the amount expended or invested is less than the fair market value of the nonexempt property received in exchange, then the gain, if any, is recognized, but in an amount not in excess of the amount by which the fair market value of such nonexempt property at the time of the transfer exceeds the amount so expended and invested.

(e) *Items treated as expenditures for the purpose of paragraphs (c) and (d) of this section.* For the purposes of paragraphs (c) and (d) of this section, the following are treated as expenditures for property other than nonexempt property:

(1) A distribution in cancellation or redemption (except a distribution having the effect of a dividend) of the whole or a part of the transferor's own stock (not acquired on the transfer);

(2) A payment in complete or partial retirement or cancellation of securities representing indebtedness of the transferor or a complete or partial retirement or cancellation of such securities which is a part of the consideration for the transfer; and

(3) If, on the transfer, a liability of the transferor is assumed, or property of the transferor is transferred subject to a liability, the amount of such liability.

(f) *Recognition of gain in part; inability to reduce basis.* If the transaction would be within the provisions of paragraph (b) or (c) of this section, if it were not for the fact that an amount of gain cannot be applied in reduction of basis under section 1082 (a) (2), then the gain, if any, is recognized, but in an amount not in excess of the amount which cannot be so applied in reduction of basis. If the transaction would be within the provisions of paragraph (d) of this section, if it were not for the fact that an amount of gain cannot be applied in reduction of basis under section 1082 (a) (2), then the gain, if any, is recognized, but in an amount not in excess of the aggregate of—

(1) The amount of gain which would be recognized under paragraph (d) of this section if there were no inability to reduce basis under section 1082 (a) (2); and

(2) The amount of gain which cannot be applied in reduction of basis under section 1082 (a) (2).

(g) *Consent to regulations under section 1082 (a) (2).* To be entitled to the benefits of the provisions of section 1081 (b), a corporation must file with its return for the taxable year in which the transfer occurs a consent to have the basis of its property adjusted under section 1082 (a) (2) (see § 1.1082–3), in accordance with the provisions of the regulations in effect at the time of filing of the return for the taxable year in which the transfer occurs. Such consent shall be made in duplicate on Form 982A in accordance with these regulations and instructions on the form or issued therewith.

(h) *Requirements with respect to expenditure or investment.* If the full amount of the expenditure or investment required for the application of paragraph (c) of this section has not been made by the close of the taxable year in which such transfer occurred, the taxpayer shall file with the return for such year

an application for the benefit of the 24-month period for expenditure and investment, reciting the nature and time of the proposed expenditure or investment. When requested by the district director of internal revenue, the taxpayer shall execute and file (at such time and in such form) such waiver of the statute of limitations with respect to the assessment of deficiencies (for the taxable year of the transfer and for all succeeding taxable years in any of which falls any part of the period beginning with the date of the transfer and ending 24 months thereafter) as the district director may specify, and such bond with such surety as the district director may require, in an amount not in excess of double the estimated maximum income tax which would be payable if the corporation does not make the required expenditure or investment within the required 24-month period.

§ 1.1081–5 *Distribution solely of stock or securities*—(a) *In general.* If, without any surrender of his stock or securities as defined in section 1083 (f), a shareholder in a corporation which is a registered holding company or a majority-owned subsidiary company receives stock or securities in such corporation or owned by such corporation, no gain to the shareholder will be recognized with respect to the stock or securities received by such shareholder which do not constitute nonexempt property, if the distribution to such shareholder is made by the distributing corporation in obedience to an order of the Securities and Exchange Commission directed to such corporation. A distribution is not within the provisions of section 1081 (c) (1) if it is within the provisions of section 1081 (d), relating to transfers within a system group. A distribution is also not within the provisions of section 1081 (c) (1) if it involves a surrender by the shareholder of stock or securities or a transfer by the shareholder of property in exchange for the stock or securities received by the shareholder. For further limitations, see section 1081 (f).

(b) *Special rule.* (1) If there is distributed to a shareholder in a corporation rights to acquire common stock in a second corporation, no gain to the shareholder from the receipt of the rights shall be recognized, but only if all the following requirements are met:

(i) The rights are received by the shareholder without the surrender by the shareholder of any stock in the distributing corporation,

(ii) Such distribution is in accordance with an arrangement forming a ground for an order of the Securities and Exchange Commission issued pursuant to section 3 of the Public Utility Holding Company Act of 1935 (15 U. S. C. 79c) that the distributing corporation is exempt from any provision or provisions of such Act, and

(iii) Before January 1, 1958, the distributing corporation disposes of all the common stock in the second corporation which it owns.

(2) The distributing corporation shall, as soon as practicable, notify the district director of internal revenue in whose district the corporation's income tax return and supporting data was filed (see § 1.1081–11 (g)), as to whether or not requirement (iii) of paragraph (b) (1) above has been met. If such requirement has not been met, the periods of limitation (sections 6501 and 6502) with respect to any deficiency, including interest and additions to the tax, resulting solely from the receipt of such rights to acquire stock, shall include one year immediately following the date of such notification; and assessment and collection shall be made notwithstanding any provisions of law or rule of law which would otherwise prevent such assessment and collection.

§ 1.1081–6 *Transfers within system group.* (a) The nonrecognition of gain or loss provided for in section 1081 (d) (1) is applicable to an exchange of property for other property (including money and other nonexempt property) between corporations which are all members of the same system group. The term "system group" is defined in section 1083 (d).

(b) Section 1081 (d) (1) also provides for nonrecognition of gain to a corporation which is a member of a system group if property (including money or other nonexempt property) is distributed to such corporation as a shareholder in a corporation which is a member of the same system group, without the surrender by such shareholder of stock or securities in the distributing corporation.

(c) As stated in § 1.1081–2, nonrecognition of gain or loss will not be accorded to a transaction not clearly provided for in sections 1081 to 1083, inclusive, even though such transaction occurs simultaneously or in connection wiht an exchange, sale, or distribution to which nonrecognition is specifically accorded. Therefore, nonrecognition will not be accorded to any gain or loss realized from the discharge, or the removal of the burden, of the pecuniary obligations of a member of a system group, even though such obligations are acquired upon a transfer or distribution specifically described in section 1081 (d) (1); but the fact that the acquisition of such obligations was upon a transfer or distribution specifically described in section 1081 (d) (1) will, because of the basis provisions of section 1082 (d), affect the cost to the member of such discharge or its equivalent. Thus, section 1081 (d) (1) does not provide for the nonrecognition of any gain or loss realized from the discharge of the indebtedness of a member of a system group as the result of the acquisition in exchange, sale, or distribution of its own bonds, notes, or other evidences of indebtedness which were acquired by another member of the same system group for a consideration less or more than the issuing price thereof (with proper adjustments for amortization of premiums or discounts).

(d) The provisions of paragraph (c) of this section may be illustrated by the following example:

Example. Suppose that the A Corporation and the B Corporation are both members of the same system group; that the A Corporation holds at a cost of $900 a bond issued by the B Corporation at par, $1,000; and that the A Corporation and the B Corporation enter into an exchange subject to the provisions of section 1081 (d) (1) in which the $1,000 bond of the B Corporation is transferred from the A Corporation to the B Corporation. The $900 basis reflecting the cost to the A Corporation which would have been the basis available to the B Corporation if the property transferred to it had been something other than its own securities (see § 1.1082–6) will, in this type of transaction, reflect the cost to the B Corporation of effecting a retirement of its own $1,000 bond. The $100 gain of the B Corporation reflected in the retirement will therefore be recognized.

(e) No exchange or distribution may be made without the recognition of gain or loss as provided for in section 1081 (d) (1), unless all the corporations which are parties to such exchange or distribution are acting in obedience to an order of the Securities and Exchange Commission. If an exchange or distribution is within the provisions of section 1081 (b) (1) and also may be considered to be within some other provisions of section 1081, it shall be considered that only the provisions of section 1081 (d) (1) apply and that the nonrecognition of gain or loss upon such exchange or distribution is by virtue of that section.

§ 1.1081–7 *Sale of stock or securities received upon exchange by members of system group.* (a) Section 1081 (d) (2) provides that to the extent that property received upon an exchange by corporations which are members of the same system group consists of stock or securities issued by the corporation from which such property was received, such stock or securities may, under certain specifically described circumstances, be sold to a party not a member of the system group, without the recognition of gain or loss to the selling corporation. The nonrecognition of gain or loss is limited, in the case of stock, to a sale of stock which is preferred as to both dividends and assets. The stock or securities must have been received upon an exchange with respect to which section 1081 (d) (1) operated to prevent recognition of gain or loss to any party to the exchange. Nonrecognition of gain or loss upon the sale of such stock or securities is permitted only if the proceeds derived from the sale are applied in retirement or cancellation of stock or securities of the selling corporation which were outstanding at the time the exchange was made. It is also essential to nonrecognition of gain or loss upon the sale that both the sale of the stock or securities and the application of the proceeds derived therefrom be made in obedience to an order of the Securities and Exchange Commission. If any part of the proceeds derived from the sale is not applied in making the required retirement or cancellation of stock or securities and if the sale is otherwise within the provisions of section 1081 (d) (2), the gain resulting from the sale shall be recognized, but in an amount not in excess of the proceeds which are not so applied. In any event, if the proceeds derived from the sale of the stock or securities exceed the fair market value of such stock or securities at the time of the exchange through which they were ac-

quired by the selling corporation, the gain resulting from the sale is to be recognized to the extent of such excess. Section 1081 (d) (2) does not provide for the nonrecognition of any gain resulting from the retirement of bonds, notes, or other evidences of indebtedness for a consideration less than the issuing price thereof. Also, that section does not provide for the nonrecognition of gain or loss upon the sale of any stock or securities received upon a distribution or otherwise than upon an exchange.

(b) The application of paragraph (a) of this section may be illustrated by the following example:

Example. The X Corporation and the Y Corporation, both of which make their income tax returns on a calendar year basis, are members of the same system group. As part of an exchange to which section 1081 (d) (1) is applicable the Y Corporation on June 1, 1954, issued to the X Corporation 1,000 shares of class A stock, preferred as to both dividends and assets. The fair market value of such stock at the time of issuance was $90,000 and its basis to the X Corporation was $75,000. On December 1, 1954, in obedience to an appropriate order of the Securities and Exchange Commission, the X Corporation sells all of such stock to the public for $100,000 and applies $95,000 of this amount to the retirement of its own bonds, which are outstanding on June 1, 1954. The remaining $5,000 is not used to retire any of the X Corporation's stock or securities. Of the total gain of $25,000 realized on the disposition of the Y Corporation stock, only $10,000 is recognized (the difference between the fair market value of the stock when acquired and the amount for which it was sold), since such amount is greater than the portion ($5,000) of the proceeds not applied to the retirement of the X Corporation's stock or securities. If in this example the stock acquired by the X Corporation had not been stock of the Y Corporation issued to the X Corporation or if it had been stock not preferred as to both dividends and assets, the full amount of the gain ($25,000) realized upon its disposition would have been recognized, regardless of what was done with the proceeds.

§ 1.1081–8 *Exchanges in which money or other nonexempt property is received.* (a) Under section 1081 (e) (1), if in any exchange (not within any of the provisions of section 1081 (d) in which stock or securities in a corporation which is a registered holding company or a majority-owned subsidiary are exchanged for stock or securities as provided for in section 1081 (a), there is received by the taxpayer money or other nonexempt property (in addition to property permitted to be received without recognition of gain), then—

(1) The gain, if any, to the taxpayer is to be recognized in an amount not in excess of the sum of the money and the fair market value of the other nonexempt property, but

(2) The loss, if any, to the taxpayer from such an exchange is not to be recognized to any extent.

(b) If money or other nonexempt property is received from a corporation in an exchange described in paragraph (a) of this section and if the distribution of such money or other nonexempt property by or on behalf of such corporation has the effect of the distribution of a taxable dividend, then, as provided in section 1081 (e) (2), there shall be taxed to each distributee (1) as a dividend, such an amount of the gain recognized on the exchange as is not in excess of the distributee's ratable share of the undistributed earnings and profits of the corporation accumulated after February 28, 1913, and (2) the remainder of the gain so recognized shall be taxed as a gain from the exchange of property.

§ 1.1081–9 *Requirements with respect to order of Securities and Exchange Commission.* The term "order of the Securities and Exchange Commission" is defined in section 1083 (a). In addition to the requirements specified in that definition, section 1081 (f) provides that, except in the case of a distribution described in section 1081 (c) (2), the provisions of section 1081 shall not apply to an exchange, expenditure, investment, distribution, or sale unless each of the following requirements is met:

(a) The order of the Securities and Exchange Commission must recite that the exchange, expenditure, investment, distribution, or sale is necessary or appropriate to effectuate the provisions of section 11 (b) of the Public Utility Holding Company Act of 1935 (15 U. S. C. 79k (b)).

(b) The order shall specify and itemize the stocks and securities and other property (including money) which are ordered to be acquired, transferred, received, or sold upon such exchange, acquisition, expenditure, distribution, or sale and, in the case of an investment, the investment to be made, so as clearly to identify such property.

(c) The exchange, acquisition, expenditure, investment, distribution, or sale shall be made in obedience to such order and shall be completed within the time prescribed in such order.

These requirements were not designed merely to simplify the administration of the provisions of section 1081, and they are not to be considered as pertaining only to administrative matters. Each one of the three requirements is essential and must be met if gain or loss is not to be recognized from the transaction.

§ 1.1081–10 *Nonapplication of other provisions of the Internal Revenue Code of 1954.* The effect of section 1081 (g) is that an exchange, sale, or distribution which is within section 1081 shall, with respect to the nonrecognition of gain or loss and the determination of basis, be governed only by sections 1081 to 1083, inclusive, the purpose being to prevent overlapping of the provisions of such sections and other provisions of subtitle A. In other words, if by virtue of section 1081 any portion of a person's gain or loss on any particular exchange, sale, or distribution is not to be recognized, then the gain or loss of such person shall be nonrecognized only to the extent provided in section 1081, regardless of what the result might have been if sections 1081 to 1083, inclusive, had not been enacted; and similarly, the basis in the hands of such person of the property received by him in such transaction shall be the basis provided by section 1082, regardless of what the basis of such property might have been under section 1011 if sections 1081 to 1083, inclusive, had not been enacted. On the other hand, if section 1081 does not provide for the nonrecognition of any portion of a person's gain or loss (whether or not such person is another party to the same transaction referred to above), then the gain or loss of such person shall be recognized or nonrecognized to the extent provided for by other provisions of subtitle A as if sections 1081 to 1083, inclusive, had not been enacted; and similarly, the basis in his hands of the property received by him in such transaction shall be the basis provided by other provisions of subtitle A as if sections 1081 to 1083, inclusive, had not been enacted.

§ 1.1081–11 *Records to be kept and information to be filed with returns.*—(a) *Exchanges; holders of stock or securities.* Every holder of stock or securities who receives stock or securities and other property (including money) upon an exchange shall, if the exchange is made with a corporation acting in obedience to an order of the Securities and Exchange Commission, file as a part of his income tax return for the taxable year in which the exchange takes place a complete statement of all facts pertinent to the nonrecognition of gain or loss upon such exchange, including—

(1) A clear description of the stock or securities transferred in the exchange, together with a statement of the cost or other basis of such stock or securities.

(2) The name and address of the corporation from which the stock or securities were received in the exchange.

(3) A statement of the amount of stock or securities and other property (including money) received from the exchange. The amount of each kind of stock or securities and other property received shall be set forth upon the basis of the fair market value thereof at the date of the exchange.

(b) *Exchanges; corporations subject to S. E. C. orders.* Each corporation which is a party to an exchange made in obedience to an order of the Securities and Exchange Commission directed to such corporation shall file as a part of its income tax return for its taxable year in which the exchange takes place a complete statement of all facts pertinent to the nonrecognition of gain or loss upon such exchange, including—

(1) A copy of the order of the Securities and Exchange Commission directed to such corporation, in obedience to which the exchange was made.

(2) A certified copy of the corporate resolution authorizing the exchange.

(3) A clear description of all property, including all stock or securities, transferred in the exchange, together with a complete statement of the cost or other basis of each class of property.

(4) The date of acquisition of any stock or securities transferred in the exchange, and, if any of such stock or securities were acquired by the corporation in obedience to an order of the Securities and Exchange Commission, a copy of such order.

(5) The name and address of all persons to whom any property was transferred in the exchange.

(6) If any property transferred in the exchange was transferred to another corporation, a copy of any order of the Securities and Exchange Commission directed to the other corporation, in obedience to which the exchange was made by such other corporation.

(7) If the corporation transfers any nonexempt property, the amount of the undistributed earnings and profits of the corporation accumulated after February 28, 1913, to the time of the exchange.

(8) A statement of the amount of stock or securities and other property (including money) received upon the exchange, including a statement of all distributions or other dispositions made thereof. The amount of each kind of stock or securities and other property received shall be stated on the basis of the fair market value value thereof at the date of the exchange.

(9) A statement showing as to each class of its stock the number of shares and percentage owned by any other corporation, the voting rights and voting power, and the preference (if any) as to both dividends and assets.

(10) The term "exchange" shall, wherever occurring in this paragraph, be read as "exchange, expenditure, or investment".

(c) *Distributions; shareholders.* Each shareholder who receives stock or securities or other property (including money) upon a distribution made by a corporation in obedience to an order of the Securities and Exchange Commission shall file as a part of his income tax return for the taxable year in which such distribution is received a complete statement of all facts pertinent to the nonrecognition of gain upon such distribution, including—

(1) The name and address of the corporation from which the distribution is received.

(2) A statement of the amount of stock or securities or other property received upon the distribution, including (in case the shareholder is a corporation) a statement of all distributions or other disposition made of such stock or securities or other property by the shareholder. The amount of each class of stock or securities and each kind of property shall be stated on the basis of the fair market value thereof at the date of the distribution.

(3) If the shareholder is a corporation, a statement showing as to each class of its stock the number of shares and percentage owned by a registered holding company or a majority-owned subsidiary company of a registered holding company, the voting rights and voting power, and the preference (if any) as to both dividends and assets.

(d) *Distributions; distributing corporations subject to S. E. C. orders.* Every corporation making a distribution in obedience to an order of the Securities and Exchange Commission shall file as a part of its income tax return for its taxable year in which the distribution is made a complete statement of all facts pertinent to the nonrecognition of gain to the distributee upon such distribution including—

(1) A copy of the order of the Securities and Exchange Commission, in obedience to which the distribution was made.

(2) A certified copy of the corporate resolution authorizing the distribution.

(3) A statement of the amount of stock or securities or other property (including money) distributed to each shareholder. The amount of each kind of stock or securities or other property shall be stated on the basis of the fair market value thereof at the date of the distribution.

(4) The date of acquisition of the stock or securities distributed, and, if any of such stock or securities were acquired by the distributing corporation in obedience to an order of the Securities and Exchange Commission, a copy of such order.

(5) The amount of the undistributed earnings and profits of the corporation accumulated after February 28, 1913, to the time of the distribution.

(6) A statement showing as to each class of its stock the number of shares and percentage owned by any other corporation, the voting rights and voting power, and the preference (if any) as to both dividends and assets.

(e) *Sales by members of system groups.* Each corporation which is a member of a system group and which in obedience to an order of the Securities and Exchange Commission sells stock or securities received upon an exchange (made in obedience to an order of the Securities and Exchange Commission) and applies the proceeds derived therefrom in retirement or cancellation of its own stock or securities shall file as a part of its income tax return for the taxable year in which the sale is made a complete statement of all facts pertaining to the nonrecognition of gain or loss upon such sale, including—

(1) A copy of the order of the Securities and Exchange Commission in obedience to which the sale was made.

(2) A copy of the order of the Securities and Exchange Commission in obedience to which the proceeds derived from the sale were applied in whole or in part in the retirement or cancellation of its stock or securities.

(3) A certified copy of the corporate resolutions authorizing the sale of the stock or securities and the application of the proceeds derived therefrom.

(4) A clear description of the stock or securities sold, including the name and address of the corporation by which they were issued.

(5) The date of acquisition of the stock or securities sold, together with a statement of the fair market value of such stock or securities at the date of acquisition, and a copy of all orders of the Securities and Exchange Commission in obedience to which such stock or securities were acquired.

(6) The amount of the proceeds derived from such sale.

(7) The portion of the proceeds of such sale which was applied in retirement or cancellation of its stock or securities, together with a statement showing how long such stock or securities were outstanding prior to retirement or cancellation.

(8) The issuing price of its stock or securities which were retired or canceled.

(f) *Section 1081 (c) (2) distributions; shareholders.* Each shareholder who receives a distribution described in section 1081 (c) (2) (concerning rights to acquire common stock) shall file as a part of his income tax return for the taxable year in which such distribution is received a complete statement of all the facts pertinent to the nonrecognition of gain upon such distribution, including—

(1) The name and address of the corporation from which the distribution is received.

(2) A statement of the amount of the rights received upon the distribution, stated on the basis of their fair market value at the date of the distribution.

(g) *Section 1081 (c) (2) distributions; distributing corporations.* Every corporation making a distribution described in section 1081 (c) (2) (concerning rights to acquire common stock) shall file as a part of its income tax return for its taxable year in which the distribution is made a complete statement of all facts pertinent to the nonrecognition of gain to the distributees upon such distribution including—

(1) A copy of the arrangement forming the basis for the issuance of the order by the Securities and Exchange Commission.

(2) A copy of the order issued by the Securities and Exchange Commission pursuant to section 3 of the Public Utility Holding Company Act of 1935.

(3) A certified copy of the corporate resolution authorizing the arrangement and the distribution.

(4) A statement of the amount of the rights distributed to each shareholder, stated on the basis of their fair market value at the date of the distribution.

(5) The date of acquisition of the stock with respect to which such rights are distributed, and, if any were acquired by the distributing corporation in obedience to an order of the Securities and Exchange Commission, a copy of such order.

(6) The amount of the undistributed earnings and profits of the distributing corporation accumulated after February 28, 1913, to the time of the distribution.

(h) *General requirements.* Permanent records in substantial form shall be kept by every taxpayer who participates in an exchange or distribution to which sections 1081 to 1083, inclusive, are applicable, showing the cost or other basis of the property transferred and the amount of stock or securities and other property (including money) received, in order to facilitate the determination of gain or loss from a subsequent disposition of such stock or securities and other property received on the exchange or distribution.

§ 1.1082 *Statutory provisions; basis of property acquired in exchanges and distributions made in obedience to orders of the Securities and Exchange Commission.*

SEC. 1082. *Basis for determining gain or loss.*—(a) *Exchanges generally.*—(1) *Exchanges subject to the provisions of section*

1081 (a) or (e). If the property was acquired on an exchange subject to the provisions of section 1081 (a) or (e), or the corresponding provisions of prior internal revenue laws, the basis shall be the same as in the case of the property exchanged, decreased in the amount of any money received by the taxpayer, and increased in the amount of gain or decreased in the amount of loss to the taxpayer that was recognized on such exchange under the law applicable to the year in which the exchange was made. If the property so acquired consisted in part of the type of property permitted by section 1081 (a) to be received without the recognition of gain or loss, and in part of nonexempt property, the basis provided in this subsection shall be allocated between the properties (other than money) received, and for the purpose of the allocation there shall be assigned to such nonexempt property (other than money) an amount equivalent to its fair market value at the date of the exchange. This subsection shall not apply to property acquired by a corporation by the issuance of its stock or securities as the consideration in whole or in part for the transfer of the property to it.

(2) *Exchanges subject to the provisions of section 1081 (b).* The gain not recognized on a transfer by reason of section 1081 (b) or the corresponding provisions of prior internal revenue laws shall be applied to reduce the basis for determining gain or loss on sale or exchange of the following categories of property in the hands of the transferor immediately after the transfer, and property acquired within 24 months after such transfer by an expenditure or investment to which section 1081 (b) relates on account of the acquisition of which gain is not recognized under such subsection, in the following order:

(A) Property of a character subject to the allowance for depreciation under section 167;

(B) Property (not described in subparagraph (A)) with respect to which a deduction for amortization is allowable under section 168 or 169;

(C) Property with respect to which a deduction for depletion is allowable under section 611 but not allowable under section 613;

(D) Stock and securities of corporations not members of the system group of which the transferor is a member (other than stock or securities of a corporation of which the transferor is a subsidiary);

(E) Securities (other than stock) of corporations which are members of the system group of which the transferor is a member (other than securities of the transferor or of a corporation of which the transferor is a subsidiary);

(F) Stock of corporations which are members of the system group of which the transferor is a member (other than stock of the transferor or of a corporation of which the transferor is a subsidiary);

(G) All other remaining property of the transferor (other than stock or securities of the transferor or of a corporation of which the transferor is a subsidiary).

The manner and amount of the reduction to be applied to particular property within any of the categories described in subparagraphs (A) to (G), inclusive, shall be determined under regulations prescribed by the Secretary or his delegate.

(3) *Basis in case of pre-1942 acquisition.* Notwithstanding the provisions of paragraph (1) or (2), if the property was acquired in a taxable year beginning before January 1, 1942, in any manner described in section 372 of the Internal Revenue Code of 1939 before its amendment by the Revenue Act of 1942, the basis shall be that prescribed in such section (before its amendment by such Act) with respect to such property.

(b) *Transfers to corporations.* If, in connection with a transfer subject to the provisions of section 1081 (a), (b), or (e) or the corresponding provisions of prior internal revenue laws, the property was acquired by a corporation, either as paid-in surplus or as a contribution to capital, or in consideration for stock or securities issued by the corporation receiving the property (including cases where part of the consideration for the transfer of such property to the corporation consisted of property or money in addition to such stock or securities), then the basis shall be the same as it would be in the hands of the transferor, increased in the amount of gain or decreased in the amount of loss recognized to the transferor on such transfer under the law applicable to the year in which the transfer was made.

(c) *Distributions of stock or securities.* If the stock or securities were received in a distribution subject to the provisions of section 1081 (c) or the corresponding provisions of prior internal revenue laws, then the basis in the case of the stock in respect of which the distribution was made shall be apportioned, under regulations prescribed by the Secretary or his delegate, between such stock and the stock or securities distributed.

(d) *Transfers within system group.* If the property was acquired by a corporation which is a member of a system group on a transfer or distribution described in section 1081 (d) (1), then the basis shall be the same as it would be in the hands of the transferor; except that if such property is stock or securities issued by the corporation from which such stock or securities were received and they were issued—

(1) As the sole consideration for the property transferred to such corporation, then the basis of such stock or securities shall be either—

(A) The same as in the case of the property transferred therefor, or

(B) The fair market value of such stock or securities at the time of their receipt, whichever is the lower; or

(2) As part consideration for the property transferred to such corporation, then the basis of such stock or securities shall be either—

(A) An amount which bears the same ratio to the basis of the property transferred as the fair market value of such stock or securities at the time of their receipt bears to the total fair market value of the entire consideration received, or

(B) The fair market value of such stock or securities at the time of their receipt, whichever is the lower.

§ 1.1082–1 *Basis for determining gain or loss.* (a) For determining the basis of property acquired in a taxable year beginning before January 1, 1942, in any manner described in section 372 of the Internal Revenue Code of 1939 prior to its amendment by the Revenue Act of 1942, see such section (before its amendment by such Act).

(b) If the property was acquired in a taxable year beginning after December 31, 1941, in any manner described in section 1082 (other than subsection (a) (2)), or section 372 (other than subsection (a) (2)) of the Internal Revenue Code of 1939 after its amendments, the basis shall be that prescribed in section 1082 with respect to such property. However, in the case of property acquired in a transaction described in section 1081 (c) (2), this paragraph is applicable only if the property was acquired in a distribution made in a taxable year subject to the Internal Revenue Code of 1954.

(c) Section 1082 makes provisions with respect to the basis of property acquired in a transfer in connection with which the recognition of gain or loss is prohibited by the provisions of section 1081 with respect to the whole or any part of the property received. In general, and except as provided in § 1.1082–3, it is intended that the basis for determining gain or loss pertaining to the property prior to its transfer, as well as the basis for determining the amount of depreciation or depletion deductible and the amount of earnings or profits available for distribution, shall continue notwithstanding the nontaxable conversion of the asset in form or its change in ownership. The continuance of the basis may be reflected in a shift thereof from one asset to another in the hands of the same owner, or in its transfer with the property from one owner into the hands of another. See also § 1.1081–2.

§ 1.1082–2 *Basis of property acquired upon exchanges under section 1081 (a) or (e).* (a) In the case of an exchange of stock or securities for stock or securities as described in section 1081 (a), if no part of the gain or loss upon such exchange was recognized under section 1081, the basis of the property acquired is the same as the basis of the property transferred by the taxpayer with proper adjustments to the date of the exchange.

(b) If, in an exchange of stock or securities as described in section 1081 (a), gain to the taxpayer was recognized under section 1081 (e) on account of the receipt of money, the basis of the property acquired is the basis of the property transferred (adjusted to the date of the exchange), decreased by the amount of money received and increased by the amount of gain recognized upon the exchange. If, upon such exchange, there were received by the taxpayer money and other nonexempt property (not permitted to be received without the recognition of gain), and gain from the transaction was recognized under section 1081 (e), the basis (adjusted to the date of the exchange) of the property transferred by the taxpayer, decreased by the amount of money received and increased by the amount of gain recognized, must be apportioned to and is the basis of the properties (other than money) received on the exchange. For the purpose of the allocation of such basis to the properties received, there must be assigned to the nonexempt property (other than money) an amount equivalent to its fair market value at the date of the exchange.

(c) Section 1081 (e) provides that no loss may be recognized on an exchange of stock or securities for stock or securities as described in section 1081 (a), although the taxpayer receives money or other nonexempt property from the transaction. However, the basis of the property (other than money) received by the taxpayer is the basis (adjusted to the date of the exchange) of the property transferred, decreased by the amount of money received. This basis must be apportioned to the properties received, and for this purpose there must be allocated to the nonexempt property (other than money) an amount of such basis equivalent to the fair market value of such nonexempt property at the date of the exchange.

(d) Section 1082 (a) does not apply in ascertaining the basis of property acquired by a corporation by the issuance of its stock or securities as the consideration in whole or in part for the transfer of the property to it. For the rule in such cases, see section 1082 (b).

(e) For purposes of this section, any reference to section 1081 shall be deemed to include a reference to corresponding provisions of prior internal revenue laws.

§ 1.1082–3 *Reduction of basis of property by reason of gain not recognized under section 1081 (b)—(a) Introductory.* In addition to the adjustments provided in section 1016 and other applicable provisions of chapter 1, and the regulations relating thereto, which are required to be made with respect to the cost or other basis of property, section 1082 (a) (2) provides that a further adjustment shall be made in any case in which there shall have been a nonrecognition of gain under section 1081 (b). Such further adjustment shall be made with respect to the basis of the property in the hands of the transferor immediately after the transfer and of the property acquired within 24 months after such transfer by an expenditure or investment to which section 1081 (b) relates, and on account of which expenditure or investment gain is not recognized. If the property is in the hands of the transferor imediately after the transfer, the time of reduction is the day of the transfer; in all other cases the time of reduction is the date of acquisition. The effect of applying an amount in reduction of basis of property under section 1081 (b) is to reduce by such amount the basis for determining gain upon sale or other disposition, the basis for determining loss upon sale or other disposition, the basis for depreciation and for depletion, and any other amount which the Internal Revenue Code of 1954 prescribes shall be the same as any of such bases. For the purposes of the application of an amount in reduction of basis under section 1081 (b), property is not considered as having a basis capable of reduction if—

(1) It is money, or

(2) If its adjusted basis for determining gain at the time the reduction is to be made is zero, or becomes zero at any time in the application of section 1081 (b).

(b) *General rule.* (1) Section 1082 (a) (2) sets forth seven categories of property, the basis of which for determining gain or loss shall be reduced in the order stated.

(2) If any of the property in the first category has a basis capable of reduction, the reduction must first be made before applying an amount in reduction of the basis of any property in the second or in a succeeding category, to each of which in turn a similar rule is applied.

(3) In the application of the rule to each category, the amount of the gain not recognized shall be applied to reduce the cost or other basis of all the property in the category as follows: The cost of other basis (at the time immediately after the transfer or, if the property is not then held but is thereafter acquired, at the time of such acquisition) of each unit of property in the first category shall be decreased (but the amount of the decrease shall not be more than the amount of the adjusted basis at such time for determining gain, determined without regard to this section) in an amount equal to such proportion of the unrecognized gain as the adjusted basis (for determining gain, determined without regard to this section) at such time of each unit of property of the taxpayer in that category bears to the aggregate of the adjusted basis (for determining gain, computed without regard to this section) at such time of all the property of the taxpayer in that category. When such adjusted basis of the property in the first category has been thus reduced to zero, a similar rule shall be applied, with respect to the portion of such gain which is unabsorbed in such reduction of the basis of the property in such category, in reducing the basis of the property in the second category. A similar rule with respect to the remaining unabsorbed gain shall be applied in reducing the basis of the property in the next succeeding category.

(c) *Special cases.* (1) With the consent of the Commissioner, the taxpayer may, however, have the basis of the various units of property within a particular category specified in section 1082 (a) (2) adjusted in a manner different from the general rule set forth in paragraph (b) of this section. Variations from such general rule may, for example, involve adjusting the basis of only certain units of the taxpayer's property within a given category. A request for variations from the general rule should be filed by the taxpayer with its income tax return for the taxable year in which the transfer of property has occurred.

(2) Agreement between the taxpayer and the Commissioner as to any variations from such general rule shall be effective only if incorporated in a closing agreement entered into under the provisions of section 7121. If no such agreement is entered into by the taxpayer and the Commissioner, then the consent filed on Form 982A shall (except as otherwise provided in this subparagraph) be deemed to be a consent to the application of such general rule, and such general rule shall apply in the determination of the basis of the taxpayer's property. If, however, the taxpayer specifically states on such form that it does not consent to the application of the general rule, then, in the absence of a closing agreement, the document filed shall not be deemed a consent within the meaning of section 1081 (b) (4).

§ 1.1082–4 *Basis of property acquired by corporation under section 1081 (a), 1081 (b), or 1081 (e) as contribution of capital or surplus, or in consideration for its own stock or securities.* If, in connection with an exchange of stock or securities for stock or securities as described in section 1081 (a), or an exchange of property for property as described in section 1081 (b), or an exchange as described in section 1081 (e), property is acquired by a corporation by the issuance of its stock or securities, the basis of such property shall be determined under section 1082 (b). If the corporation issued its stock or securities as part or sole consideration for the property acquired, the basis of the property in the hands of the acquiring corporation is the basis (adjusted to the date of the exchange) which the property would have had in hands of the transferor if the transfer had not been made, increased in the amount of gain or decreased in the amount of loss recognized under section 1081 to the transferor upon the transfer. If any property is acquired by a corporation from a shareholder as paid-in surplus, or from any person as a contribution to capital, the basis of the property to the corporation is the basis (adjusted to the date of acquisition) of the property in the hands of the transferor.

§ 1.1082–5 *Basis of property acquired by shareholder upon tax-free distribution under section 1081 (c) (1) or (2)—(a) Stock or securities.* If there was distributed to a shareholder in a corporation which is a registered holding company or a majority-owned subsidiary company, stock or securities (other than stock or securities which are nonexempt property), and if by virtue of section 1081 (c) (1) no gain was recognized to the shareholder upon such distribution, then the basis of the stock in respect of which the distribution was made must be apportioned between such stock and the stock or securities so distributed to the shareholder. The basis of the old shares and the stock or securities received upon the distribution shall be determined in accordance with the following rules:

(1) If the stock or securities received upon the distribution consist solely of stock in the distributing corporation and the stock received is all of substantially the same character and preference as the stock in respect of which the distribution is made, the basis of each share will be the quotient of the cost or other basis of the old shares of stock divided by the total number of the old and the new shares.

(2) If the stock or securities received upon the distribution are in whole or in part stock in a corporation other than the distributing corporation, or are in whole or in part stock of a character or preference materially different from the stock in respect of which the distribution is made, or if the distribution consists in whole or in part of securities other than stock, the cost or other basis of the stock in respect of which the distribution is made shall be apportioned between such stock and the stock or securities distributed in proportion, as nearly as may be, to the respective values of each class of stock or security, old and new, at the time of such distribution, and the basis of each share of stock or unit of security will be the quotient of the cost or other basis of the class of stock or security to which such share or unit belongs, divided by the number of shares or units in the class. Within the meaning of this subparagraph, stocks or securities in one corporation are different in class from stocks or securities in another corporation, and, in general, any material difference in character or preference or

terms sufficient to distinguish one stock or security from another stock or security, so that different values may properly be assigned thereto, will constitute a difference in class.

(b) *Stock rights.* If there was distributed to a shareholder in a corporation rights to acquire common stock in a second corporation, and if by virtue of section 1081 (c) (2) no gain was recognized to the shareholder upon such distribution, then the basis of the stock in respect of which the distribution was made must be apportioned between such stock and the stock rights so distributed to the shareholder. The basis of such stock and the stock rights received upon the distribution shall be determined in accordance with the following:

(1) The cost or other basis of the stock in respect of which the distribution is made shall be apportioned between such stock and the stock rights distributed, in proportion to the respective values thereof at the time the rights are issued.

(2) The basis for determining gain or loss from the sale of a right, or from the sale of a share of stock in respect of which the distribution is made, will be the quotient of the cost or other basis, properly adjusted, assigned to the rights or the stock, divided, as the case may be, by the number of rights acquired or by the number of shares of such stock held.

(c) *Cross reference.* As to the basis of stock or securities distributed by one member of a system group to another member of the same system group, see § 1.1082–6 below.

§ 1.1082–6 *Basis of property acquired under section 1082 (d) in transactions between corporations of the same system group.* (a) If property was acquired by a corporation which is a member of a system group, from a corporation which is a member of the same system group, upon a transfer or distribution described in section 1081 (d) (1), then as a general rule the basis of such property in the hands of the acquiring corporation is the basis which such property would have had in the hands of the transferor if the transfer or distribution had not been made. Except as otherwise indicated in this section, this rule will apply equally to cases in which the consideration for the property acquired consists of stock or securities, money, and other property, or any of them, but it is contemplated that an ultimate true reflection of income will be obtained in all cases, notwithstanding any peculiarities in form which the various transactions may assume. See the example in § 1.1081–6.

(b) An exception to the general rule is provided for in case the property acquired consists of stock or securities issued by the corporation from which such stock or securities were received. If such stock or securities were the sole consideration for the property transferred to the corporation issuing such stock or securities, then the basis of the stock or securities shall be (1) the same as the basis (adjusted to the time of the transfer) of the property transferred for such stock or securities, or (2) the fair market value of such stock or securities at the time of their receipt, whichever is the lower. If such stock or securities constituted only part consideration for the property transferred to the corporation issuing such stock or securities, then the basis shall be an amount which bears the same ratio to the basis of the property transferred as the fair market value of such stock or securities on their receipt bears to the total fair market value of the entire consideration received, except that the fair market value of such stock or securities at the time of their receipt shall be the basis therefor, if such value is lower than such amount.

(c) The application of paragraph (b) of this section may be illustrated by the following examples:

Example (1). Suppose the A Corporation has property with an adjusted basis of $600,000 and, in an exchange in which section 1081 (d) (1) is applicable, transfers such property to the B Corporation in exchange for a total consideration of $1,000,000, consisting of (1) cash in the amount of $100,000, (2) tangible property having a fair market value of $400,000 and an adjusted basis in the hands of the B Corporation of $300,000, and (3) stock or securities issued by the B Corporation with a par value and a fair market value as of the date of their receipt in the amount of $500,000. The basis to the B Corporation of the property received by it is $600,000, which is the adjusted basis of such property in the hands of the A Corporation. The basis to the A Corporation of the assets (other than cash) received by it is as follows: Tangible property, $300,000, the adjusted basis of such property to the B Corporation, the former owner; stock or securities issued by the B Corporation, $300,000, an amount equal to 500,000/1,000,000ths of $600,000.

Example (2). Suppose that in example (1) the property of the A Corporation transferred to the B Corporation had an adjusted basis of $1,100,000 instead of $600,000, and that all other factors in the example remain the same. In such case the basis to the A Corporation of the stock or securities in the B Corporation is $500,000, which was the fair market value of such stock or securities at the time of their receipt by the A Corporation, because this amount is less than the amount established as 500,000/1,000,000ths of $1,100,000 or $550,000.

§ 1.1083 *Statutory provisions; exchanges and distributions in obedience to orders of the Securities and Exchange Commission; definitions.*

SEC. 1083. *Definitions*—(a) *Order of Securities and Exchange Commission.* For purposes of this part, the term "order of the Securities and Exchange Commission" means an order issued after May 28, 1938, by the Securities and Exchange Commission which requires, authorizes, permits, or approves transactions described in such order to effectuate section 11 (b) of the Public Utility Holding Company Act of 1935 (49 Stat. 820; 15 U. S. C. 79k (b)), which has become or becomes final in accordance with law.

(b) *Registered holding company; holding company system; associate company.* For purposes of this part, the terms "registered holding company", "holding company system", and "associate company" shall have the meanings assigned to them by section 2 of the Public Utility Holding Company Act of 1935 (49 Stat. 804; 15 U. S. C. 79b (a)).

(c) *Majority-owned subsidiary company.* For purposes of this part, the term "majority-owned subsidiary company" of a registered holding company means a corporation, stock of which, representing in the aggregate more than 50 percent of the total combined voting power of all classes of stock of such corporation entitled to vote (not including stock which is entitled to vote only on default or nonpayment of dividends or other special circumstances) is owned wholly by such registered holding company, or partly by such registered holding company and partly by one or more majority-owned subsidiary companies thereof, or by one or more majority-owned subsidiary companies of such registered holding company.

(d) *System group.* For purposes of this part, the term "system group" means one or more chains of corporations connected through stock ownership with a common parent corporation if—

(1) At least 90 percent of each class of the stock (other than (A) stock which is preferred as to both dividends and assets, and (B) stock which is limited and preferred as to dividends but which is not preferred as to assets but only if the total value of such stock is less than 1 percent of the aggregate value of all classes of stock which are not preferred as to both dividends and assets) of each of the corporations (except the common parent corporation) is owned directly by one or more of the other corporations; and

(2) The common parent corporation owns directly at least 90 percent of each class of the stock (other than stock, which is preferred as to both dividends and assets) of at least one of the other corporations; and

(3) Each of the corporations is either a registered holding company or a majority-owned subsidiary company.

(e) *Nonexempt property.* For purposes of this part, the term "nonexempt property" means—

(1) Any consideration in the form of evidences of indebtedness owed by the transferor or a cancellation or assumption of debts or other liabilities of the transferor (including a continuance of encumbrances subject to which the property was transferred);

(2) Short-term obligations (including notes, drafts, bills of exchange, and bankers' acceptances) having a maturity at the time of issuance of not exceeding 24 months, exclusive of days of grace;

(3) Securities issued or guaranteed as to principal or interest by a government or subdivision thereof (including those issued by a corporation which is an instrumentality of a government or subdivision thereof);

(4) Stock or securities which were acquired from a registered holding company or an associate company of a registered holding company which acquired such stock or securities after February 28, 1938, unless such stock or securities (other than obligations described as nonexempt property in paragraph (1), (2), or (3)) were acquired in obedience to an order of the Securities and Exchange Commission or were acquired with the authorization or approval of the Securities and Exchange Commission under any section of the Public Utility Holding Company Act of 1935 (49 Stat. 820; 15 U. S. C. 79k (b));

(5) Money, and the right to receive money not evidenced by a security other than an obligation described as nonexempt property in paragraph (2) or (3).

(f) *Stock or securities.* For purposes of this part, the term "stock or securities" means shares of stock in any corporation, certificates of stock or interest in any corporation, notes, bonds, debentures, and evidences of indebtedness (including any evidence of an interest in or right to subscribe to or purchase any of the foregoing).

§ 1.1083–1 *Definitions*—(a) *Order of the Securities and Exchange Commission.* (1) An order of the Securities and Exchange Commission as defined in section 1083 (a) must be issued after May 28, 1938 (the date of the enactment of the Revenue Act of 1938), and must be issued under the authority of section 11 (b) or 11 (e) of the Public Utility Holding Company Act of 1935 (15 U. S. C. 79k (b), (e)), to effectuate the provisions of section 11 (b) of such Act. In all cases the order must become or have become final in accordance with law; i. e., it must be valid, outstanding, and not subject to further appeal. See further sections 1083 (a) and 1081 (f).

(2) Section 11 (b) of the Public Utility Holding Company Act of 1935 provides:

(b) It shall be the duty of the Commission, as soon as practicable after January 1, 1938:

(1) To require by order, after notice and opportunity for hearing, that each registered holding company, and each subsidiary company thereof, shall take such action as the Commission shall find necessary to limit the operations of the holding-company system of which such company is a part to a single integrated public-utility system, and to such other businesses as are reasonably incidental, or economically necessary or appropriate to the operations of such integrated public-utility system: *Provided, however,* That the Commission shall permit a registered holding company to continue to control one or more additional integrated public-utility systems, if, after notice and opportunity for hearing, it finds that—

(A) Each of such additional systems cannot be operated as an independent system without the loss of substantial economies which can be secured by the retention of control by such holding company of such system;

(B) All of such additional systems are located in one State, or in adjoining States, or in a contiguous foreign country; and

(C) The continued combination of such systems under the control of such holding company is not so large (considering the state of the art and the area or region affected) as to impair the advantages of localized management, efficient operation, or the effectiveness of regulation. The Commission may permit as reasonably incidental, or economically necessary or appropriate to the operations of one or more integrated public-utility systems the retention of an interest in any business (other than the business of a public-utility company as such) which the Commission shall find necessary or appropriate in the public interest or for the protection of investors or consumers and not detrimental to the proper functioning of such system or systems.

(2) To require by order, after notice and opportunity for hearing, that each registered holding company, and each subsidiary company thereof, shall take such steps as the Commission shall find necessary to ensure that the corporate structure or continued existence of any company in the holding-company system does not unduly or unnecessarily complicate the structure, or unfairly or inequitably distribute voting power among security holders, of such holding-company system. In carrying out the provisions of this paragraph the Commission shall require each registered holding company (and any company in the same holding-company system with such holding company) to take such action as the Commission shall find necessary in order that such holding company shall cease to be a holding company with respect to each of its subsidiary companies which itself has a subsidiary company which is a holding company. Except for the purpose of fairly and equitably distributing voting power among the security holders of such company, nothing in this paragraph shall authorize the Commission to require any change in the corporate structure or existence of any company which is not a holding company, or of any company whose principal business is that of a public-utility company. The Commission may by order revoke or modify any order previously made under this subsection, if, after notice and opportunity for hearing, it finds that the conditions upon which the order was predicated do not exist. Any order made under this subsection shall be subject to judicial review as provided in section 24.

(3) Section 11 (e) of the Public Utility Holding Company Act of 1935 provides:

(e) In accordance with such rules and regulations or order as the Commission may deem necessary or appropriate in the public interest or for the protection of investors or consumers, any registered holding company or any subsidiary company of a registered holding company may, at any time after January 1, 1936, submit a plan to the Commission for the divestment of control, securities, or other assets, or for other action by such company or any subsidiary company thereof for the purpose of enabling such company or any subsidiary company thereof to comply with the provisions of subsection (b). If, after notice and opportunity for hearing, the Commission shall find such plan, as submitted or as modified, necessary to effectuate the provisions of subsection (b) and fair and equitable to the persons affected by such plan, the Commission shall make an order approving such plan; and the Commission, at the request of the company, may apply to a court, in accordance with the provisions of subsection (f) of section 18, to enforce and carry out the terms and provisions of such plan. If, upon any such application, the court, after notice and opportunity for hearing, shall approve such plan as fair and equitable and as appropriate to effectuate the provisions of section 11, the court as a court of equity may, to such extent as it deems necessary for the purpose of carrying out the terms and provisions of such plan, take exclusive jurisdiction and possession of the company or companies and the assets thereof, wherever located; and the court shall have jurisdiction to appoint a trustee, and the court may constitute and appoint the Commission as sole trustee, to hold or administer, under the direction of the court and in accordance with the plan therefore approved by the court and the Commission, the assets so possessed.

(b) *Registered holding company, holding-company system, and associate company.* (1) Under section 5 of the Public Utility Holding Company Act of 1935 (15 U. S. C. 79e), any holding company may register by filing with the Securities and Exchange Commission a notification of registration, in such form as the Commission may by rules and regulations prescribe as necessary or appropriate in the public interest or for the protection of investors or consumers. A holding company shall be deemed to be registered upon receipt by the Securities and Exchange Commission of such notification of registration. As used in this part, the term "registereded holding company" means a holding company whose notification of registration has been so received and whose registration is still in effect under section 5 of the Public Utility Holding Company Act of 1935. Under section 2 (a) (7) of the Public Utility Holding Company Act of 1935 (15 U. S. C. 79b (a) (7)), a corporation is a holding company (unless it is declared not to be such by the Securities and Exchange Commission), if such corporation directly or indirectly owns, controls, or holds with power to vote 10 percent or more of the outstanding voting securities of a public-utility company (i. e., an electric utility company or a gas utility company as defined by such act) or of any other holding company. A corporation is also a holding company if the Securities and Exchange Commission determines, after notice and opportunity for hearing, that such corporation directly or indirectly exercises (either alone or pursuant to an arrangement or understanding with one or more other persons) such a controlling influence over the management or policies of any public-utility company (i. e., an electric utility company or a gas utility company as defined by such act) or holding company as to make it necessary or appropriate in the public interest or for the protection of investors or consumers that such corporation be subject to the obligations, duties, and liabilities imposed upon holding companies by the Public Utility Holding Company Act of 1935 (15 U. S. C. c. 2 C). An electric utility company is defined by section 2 (a) (3) of the Public Utility Holding Company Act of 1935 (15 U. S. C. 79b (a) (3)) to mean a company which owns or operates facilities used for the generation, transmission, or distribution of electrical energy for sale, other than sale to tenants or employees of the company operating such facilities for their own use and not for resale; and a gas utility company is defined by section 2 (a) (4) of such act (15 U. S. C. 79b (a) (4)), to mean a company which owns or operates facilities used for the distribution at retail (other than distribution only in enclosed portable containers, or distribution to tenants or employees of the company operating such facilities for their own use and not for resale) of natural or manufactured gas for heat, light, or power. However, under certain conditions the Securities and Exchange Commission may declare a company not to be an electric utility company or a gas utility company, as the case may be, in which event the company shall not be considered an electric utility company or a gas utility company.

(2) The term "holding company system" has the meaning assigned to it by section 2 (a) (9) of the Public Utility Holding Company Act of 1935 (15 U. S. C. 79b (a) (9)), and hence means any holding company, together with all its subsidiary companies (i. e., subsidiary companies within the meanig of section 2 (a) (8) of such act (15 U. S. C. 79b (a) (8)), which in general include all companies 10 percent of whose outstanding voting securities is owned directly or indirectly by such holding company and all mutual service companies of which such holding company or any subsidiary company thereof is a member company. The term "mutual service company" means a company approved as a mutual service company under section 13 of the Public Utility Holding Company Act of 1935 (15 U. S. C. 79m). The term "member company" is defined by section 2 (a) (14) of such act (15 U. S. C. 79b (a) (14)), to mean a company which is a member of an association or group of companies mutually served by a mutual service company.

(3) The term "associate company" has the meaning assigned to it by section 2 (a) (10) of the Public Utility Holding Company Act of 1935 (15 U. S. C. 79b (a) (10)), and hence an associate company of a company is any company in the same holding-company system with such company.

(c) *Majority-owned subsidiary company.* The term "majority-owned subsidiary company" is defined in section 1083 (c). Direct ownership by a registered holding company of more than 50 percent of the specified stock of another corporation is not necessary to constitute such corporation a majority-owned subsidiary company. To illustrate, if the H Corporation, a registered holding company, owns 51 percent of the common stock of the A Corporation and 31 percent of the common stock of the B Corporation, and the A Corporation owns 20 percent of the common stock of the B Corporation (the common stock in each case being the only stock entitled to vote), both the A Corporation and the B Corporation are majority-owned subsidiary companies.

(d) *System group.* The term "system group" is defined in section 1083 (d) to mean one or more chains of corporations connected through stock ownership with a common parent corporation, if at least 90 percent of each class of stock (other than (1) stock which is preferred as to both dividends and assets, and (2) stock which is limited and preferred as to dividends but which is not preferred as to assets but only if the total value of such stock is less than 1 percent of the aggregate value of all classes of stock which are not preferred as to both dividends and assets) of each of the corporations (except the common parent corporation) is owned directly by one or more of the other corporations, and if the common parent corporation owns directly at least 90 percent of each class of stock (other than stock preferred as to both dividends and assets) of at least one of the other corporations; but no corporation is a member of a system group unless it is either a registered holding company or a majority-owned subsidiary company. While the type of stock which must, for the purpose of this definition, be at least 90 percent owned may be different from the voting stock which must be more than 50 percent owned for the purpose of the definition of a majority-owned subsidiary company under section 1083 (c), as a general rule both types of ownership tests must be met under section 1083 (d), since a corporation, in order to be a member of a system group, must also be a registered holding company or a majority-owned subsidiary company.

(e) *Nonexempt property.* The term "nonexempt property" is defined by section 1083 (e) to include—

(1) The amount of any consideration in the form of a cancellation or assumption of debts or other liabilities of the transferor (including a continuance of encumbrances subject to which the property was transferred). To illustrate, if in obedience to an order of the Securities and Exchange Commission the X Corporation, a registered holding company, transfers property to the Y Corporation in exchange for property (not nonexempt property) with a fair market value of $500,000, the X Corporation receives $100,000 of nonexempt property, if for example—

(i) The Y Corporation cancels $100,000 of indebtedness owed to it by the X Corporation;

(ii) The Y Corporation assumes an indebtedness of $100,000 owed by the X Corporation to another company, the A Corporation; or

(iii) The Y Corporation takes over the property conveyed to it by the X Corporation subject to a mortgage of $100,000.

(2) Short-term obligations (including notes, drafts, bills of exchange, and bankers' acceptances) having a maturity at the time of issuance of not exceeding 24 months, exclusive of days of grace.

(3) Securities issued or guaranteed as to principal or interest by a government or subdivision thereof (including those issued by a corporation which is an instrumentality of a government or subdivision thereof).

(4) Stock or securities which were acquired from a registered holding company which acquired such stock or securities after February 28, 1938, or an associate company of a registered holding company which acquired such stock or securities after February 28, 1938, unless such stock or securities were acquired in obedience to an order of the Securities and Exchange Commission (as defined in section 1083 (a)) or were acquired with the authorization or approval of the Securities and Exchange Commission under any section of the Public Utility Holding Company Act of 1935, and are not nonexempt property within the meaning of section 1083 (e) (1), (2), or (3).

(5) Money, and the right to receive money not evidenced by a security other than an obligation described as nonexempt property in section 1083 (e) (2) or (3). The term "the right to receive money" includes, among other items, accounts receivable, claims for damages, and rights to refunds of taxes.

(f) *Stock or securities.* The term "stock or securities" is defined in section 1083 (f) for the purposes of sections 1081 to 1083, inclusive. As therein defined, the term includes voting trust certificates and stock rights or warrants.

WASH SALES OF STOCKS OR SECURITIES

§ 1.1091 *Statutory provisions; losses from wash sales of stocks or securities; basis.*

SEC. 1091. *Loss from wash sales of stock or securities*—(a) *Disallowance of loss deduction.* In the case of any loss claimed to have been sustained from any sale or other disposition of shares of stock or securities where it appears that, within a period beginning 30 days before the date of such sale or disposition and ending 30 days after such date, the taxpayer has acquired (by purchase or by an exchange on which the entire amount of gain or loss was recognized by law), or has entered into a contract or option so to acquire, substantially identical stock or securities, then no deduction for the loss shall be allowed under section 165 (c) (2); nor shall such deduction be allowed a corporation under section 165 (a) unless it is a dealer in stocks or securities, and the loss is sustained in a transaction made in the ordinary course of its business.

(b) *Stock acquired less than stock sold.* If the amount of stock or securities acquired (or covered by the contract or option to acquire) is less than the amount of stock or securities sold or otherwise disposed of, then the particular shares of stock or securities the loss from the sale or other disposition of which is not deductible shall be determined under regulations prescribed by the Secretary or his delegate.

(c) *Stock acquired not less than stock sold.* If the amount of stock or securities acquired (or covered by the contract or option to acquire) is not less than the amount of stock or securities sold or otherwise disposed of, then the particular shares of stock or securities the acquisition of which (or the contract or option to acquire which) resulted in the nondeductibility of the loss shall be determined under regulations prescribed by the Secretary or his delegate.

(d) *Unadjusted basis in case of wash sale of stock.* If the property consists of stock or securities the acquisition of which (or the contract or option to acquire which) resulted in the nondeductibility (under this section or corresponding provisions of prior internal revenue laws) of the loss from the sale or other disposition of substantially identical stock or securities, then the basis shall be the basis of the stock or securities so sold or disposed of, increased or decreased, as the case may be, by the difference, if any, between the price at which the property was acquired and the price at which such substantially identical stock or securities were sold or otherwise disposed of.

§ 1.1091–1 *Losses from wash sales of stock or securities.* (a) A taxpayer cannot deduct any loss claimed to have been sustained from the sale or other disposition of stock or securities if, within a period beginning 30 days before the date of such sale or disposition and ending 30 days after such date (referred to in this section as the 61-day period), he has acquired (by purchase or by an exchange upon which the entire amount of gain or loss was recognized by law), or has entered into a contract or option so to acquire, substantially identical stock or securities. However, this prohibition does not apply (1) in the case of a taxpayer, not a corporation, if the sale or other disposition of stock or securities is made in connection with the taxpayer's trade or business, or (2) in the case of a corporation, a dealer in stock or securities, if the sale or other disposition of stock or securities is made in the ordinary course of its business as such dealer.

(b) Where more than one loss is claimed to have been sustained within the taxable year from the sale or other disposition of stock or securities, the provisions of this section shall be applied to the losses in the order in which the stock or securities the disposition of which resulted in the respective losses were disposed of (beginning with the earliest disposition). If the order of disposition of stock or securities disposed of at a loss on the same day cannot be determined, the stock or securities will be considered to have been disposed of in the order in which they were originally acquired (beginning with the earliest acquisition).

(c) Where the amount of stock or securities acquired within the 61-day period is less than the amount of stock or securities sold or otherwise disposed of, then the particular shares of stock or securities the loss from the sale or other disposition of which is not deductible shall be those with which the stock or securities acquired are matched in accordance with the following rule: The stock or securities acquired will be matched in accordance with the order of their acquisition (beginning with the earliest acquisition) with an equal number of the shares of stock or securities sold or otherwise disposed of.

(d) Where the amount of stock or securities acquired within the 61-day period is not less than the amount of stock or securities sold or otherwise disposed of, then the particular shares of stock or securities the acquisition of which resulted in the nondeductibility of the loss shall be those with which the stock or securities disposed of are matched in accordance with the following rule: The stock or securities sold or otherwise disposed of will be matched with an equal number of the shares of stock or securities acquired in accordance with the order of acquisition (beginning with the earliest acquisition) of the stock or securities acquired.

(e) The acquisition of any share of stock or any security which results in the nondeductibility of a loss under the provisions of this section shall be disregarded in determining the deductibility of any other loss.

(f) The word "acquired" as used in this section means acquired by purchase or by an exchange upon which the entire amount of gain or loss was recognized by law, and comprehends cases where the taxpayer has entered into a contract or option within the 61-day period to acquire by purchase or by such an exchange.

(g) The following examples illustrate the application of this section:

Example (1). A, whose taxable year is the calendar year, on December 1, 1954, purchased 100 shares of common stock in the M Company for $10,000 and on December 15, 1954, purchased 100 additional shares for $9,000. On January 3, 1955, he sold the 100 shares purchased on December 1, 1954, for $9,000. Because of the provisions of section 1091, no loss from the sale is allowable as a deduction.

Example (2). A, whose taxable year is the calendar year, on September 21, 1954, purchased 100 shares of the common stock of the M Company for $5,000. On December 21, 1954, he purchased 50 shares of substantially identical stock for $2,750, and on December 27, 1954, he purchased 25 additional shares of such stock for $1,125. On January 3, 1955, he sold for $4,000 the 100 shares purchased on September 21, 1954. There is an indicated loss of $1,000 on the sale of the 100 shares. Since, within the 61-day period, A purchased 75 shares of substantially identical stock, the loss on the sale of 75 of the shares ($3,750−$3,000, or $750) is not allowable as a deduction because of the provisions of section 1091. The loss on the sale of the remaining 25 shares ($1,250−$1,000, or $250) is deductible subject to the limitations provided in sections 267 and 1211. The basis of the 50 shares purchased December 21, 1954, the acquisition of which resulted in the nondeductibility of the loss ($500) sustained on 50 of the 100 shares sold on January 3, 1955, is $2,500 (the cost of 50 of the shares sold on January 3, 1955) + $750 (the difference between the purchase price $2,750) of the 50 shares acquired on December 21, 1954, and the selling price ($2,000) of 50 of the shares sold on January 3, 1955, or $3,250. Similarly, the basis of the 25 shares purchased on December 27, 1954, the acquisition of which resulted in the nondeductibility of the loss ($250) sustained on 25 of the shares sold on January 3, 1955, is $1,250+$125, or $1,375. See § 1.1091–2.

Example (3). A, whose taxable year is the calendar year, on September 15, 1954, purchased 100 shares of the stock of the M Company for $5,000. He sold these shares on February 1, 1956, for $4,000. On each of the four days from February 15, 1956, to February 18, 1956, inclusive, he purchased 50 shares of substantially identical stock for $2,000. There is an indicated loss of $1,000 from the sale of the 100 shares on February 1, 1956, but, since within the 61-day period A purchased not less than 100 shares of substantially identical stock, the loss is not deductible. The particular shares of stock the purchase of which resulted in the nondeductibility of the loss are the first 100 shares purchased within such period, that is, the 50 shares purchased on February 15, 1956, and the 50 shares purchased on February 16, 1956. In determining the period for which the 50 shares purchased on February 15, 1956, and the 50 shares purchased on February 16, 1956, were held, there is to be included the period for which the 100 shares purchased on September 15, 1954, and sold on February 1, 1956, were held.

§ 1.1091–2 *Basis of stocks or securities acquired in "wash sales".* The application of section 1091 (d) may be illustrated by the following examples:

Example (1). A purchased a share of common stock of the X Corporation for $100 in 1935, which he sold January 15, 1955, for $80. On February 1, 1955, he purchased a share of common stock of the same corporation for $90. No loss from the sale is recognized under section 1091. The basis of the new share is $110; that is, the basis of the old share ($100) increased by $10, the excess of the price at which the new share was acquired ($90) over the price at which the old share was sold ($80).

Example (2). A purchased a share of common stock of the Y Corporation for $100 in 1935, which he sold January 15, 1955, for $80. On February 1, 1955, he purchased a share of common stock of the same corporation for $70. No loss from the sale is recognized under section 1091. The basis of the new share is $90; that is, the basis of the old share ($100) decreased by $10, the excess of the price at which the old share was sold ($80) over the price at which the new share was acquired ($70).

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[43 CFR Part 115]

REVESTED OREGON AND CALIFORNIA RAILROAD AND RECONVEYED COOS BAY WAGON ROAD GRANT LANDS IN OREGON

SALES AND APPRAISALS; ACTION ON BIDS

Notice is hereby given that pursuant to the authority vested in the Secretary of the Interior by the Act of August 28, 1937 (50 Stat. 874), it is proposed to amend the regulations governing the sale of timber on the O. & C. lands. A tentative draft of the proposed regulations, 43 CFR 115.39 (f) and 115.45 (3), is set forth below.

Interested persons may submit written comments, suggestions, or objections with respect to the proposed amendments, to the Director, Bureau of Land Management, Washington 25, D. C., within 30 days from the date of publication of this notice.

Upon receiving the recommendation of the Director, Bureau of Land Management, together with all responses received pursuant to this notice, the Secretary of the Interior will determine whether the proposed regulations, 43 CFR 115.39 (f) and 115.45 (3), as proposed to be amended should be adopted. Should the Secretary of the Interior decide that the proposed regulations be adopted they will be duly published in the FEDERAL REGISTER.

DOUGLAS MCKAY,
Secretary of the Interior.

NOVEMBER 25, 1955.

A new paragraph (f) is added to § 115.39; and paragraph (b) (3) of § 115.45 is amended, to read as follows:

§ 115.39 *Sales and appraisals.* • • •

(f) When the Director determines that good forest management requires the rapid removal of windthrown, insect-damaged, or fire-killed timber or other salvage material, he may waive any or all marketing area restrictions as to sales of any timber which may be classified as salvage in nature by the authorized officer. Salvage sales may include such minimum amounts of intermingled or adjacent green timber as are necessary to insure economic operations.

§ 115.45 *Action on bids.* • • •

(b) • • •

(3) Timber which has been determined by the authorized officer to be salvage in nature, which has been advertised as such, which has not been affected by a marketing area waiver issued under § 115.39 (f), and which is sold under the terms of this section because no bids were received within the time specified in the notice of sale, may be manufactured in any O. & C. marketing area which has been established by the Secretary of the Interior, or the Director, Bureau of Land Management.

[F. R. Doc. 55–9611; Filed, Nov. 30, 1955; 8:47 a. m.]

Bureau of Mines

[30 CFR Part 11]

[Schedule 13C]

SELF-CONTAINED BREATHING APPARATUS

TESTS FOR PERMISSIBILITY; FEES

Notice is hereby given that the Secretary of the Interior proposes to amend the regulations in this part governing tests and investigations leading to approval of self-contained breathing apparatus as indicated below. Interested persons may submit, in triplicate, written data, views, or arguments concerning the proposed amendment of the regulations to the Director, Bureau of Mines, U. S. Department of the Interior, Washington 25, D. C. All relevant material received not later than 30 days after this notice is published in the FEDERAL REGISTER will be considered in formulating the amendment of these regulations.

Part 11 would be amended as follows:

1. Section 11.2 (a) would be amended to read as follows:

§ 11.2 *Conditions under which self-contained breathing apparatus will be tested.* The conditions under which the Bureau of Mines will examine and test self-contained breathing apparatus to establish their permissibility follow:

(a) (1) Applications for inspection, examination, and testing shall be made in duplicate to the District Supervisor, Health and Safety District B, Bureau of Mines, 4800 Forbes Street, Pittsburgh 13, Pennsylvania, and shall be accompanied by (i) a check, bank draft, or money order (see § 11.13) payable to the order of the United States Bureau of Mines; (ii) a complete written description of the apparatus in duplicate; and (iii) a set of drawings in duplicate showing full details of construction of the apparatus. If an apparatus operates with a regenerator, the application shall be accompanied by a complete written description of the regenerator and a set of drawings showing full details of its construction, all in duplicate. The application shall state, among other things, whether the apparatus is ready to be marketed.

(2) Manufacturers or their representatives may visit or communicate with the Engineer in Charge of Breathing-Apparatus Testing, Bureau of Mines, 4800 Forbes Street, Pittsburgh 13, Pennsylvania to obtain criticism of proposed designs or to discuss the requirements covering the approval of self-contained breathing apparatus. No charge is made for such consultation.

2. Paragraphs (h) and (i) of § 11.2 would be deleted.

3. Paragraphs (j) and (k) of § 11.2 would become new paragraphs (h) and (i), respectively.

4. A new paragraph (j) would be inserted in § 11.2 to read as follows:

(j) No one shall be present during any part of the formal investigation, conducted by the Bureau, that leads to approval except the necessary Government personnel, representatives of the applicant, and such other persons as may be mutually agreed upon by the applicant and the bureau. When a self-contained breathing apparatus is approved as permissible, the Bureau will announce that such approval has been granted and may thereafter conduct from time to time, in its discretion, public demonstrations of the tests on approved self-contained breathing apparatus. Those who attend any part of the investigation, or any public demonstration, shall be present solely as observers; the conduct of the investigation and of any public demonstration shall be controlled wholly by the Bureau's personnel. Results of chemical analyses and all information contained in the drawings, specifications, and instructions shall be deemed confidential, and the Bureau will appropriately safeguard them against disclosure.

5. A new paragraph (k) would be inserted in § 11.2 to read as follows:

(k) After the Bureau has considered the results of the investigation and suitable drawings and specifications have been placed on file, the Bureau will supply the applicant with a formal written notification of approval or disapproval of the self-contained breathing apparatus. If the breathing apparatus meets all requirements of this part, the notification will not be accompanied by test data or detailed results of tests. If the apparatus fails to meet any requirements of this part, the notification will be accompanied by details of the failure, with a view to possible remedying of the defect or defects in self-contained breathing apparatus submitted for testing and approval in the future. Results of tests of self-contained breathing apparatus that fail to meet the requirements will not be made public by the Bureau.

6. Paragraphs (l) and (m) of § 11.2 would be deleted.

7. Paragraphs (n) and (o) of § 11.2 would become new paragraphs (l) and (m), respectively.

8. Subparagraph (1) of paragraph (e) of § 11.3 would be amended to read as follows:

(e) (1) For an apparatus in which the expired air is recirculated and in which a mouth-breathing device, a supply of compressed oxygen, and a separate regenerator are utilized, the regenerating material shall absorb carbon dioxide from the expired air to the extent that not more than 2½ percent of carbon dioxide is present in the inspired air at any time. The average carbon dioxide content shall not exceed 1 percent throughout the test, as determined by analyses of air samples obtained as close as practicable to the point of inspiration and at uniform time intervals.

9. A new paragraph (e) (2) would be inserted in § 11.3, as follows:

(2) For an apparatus in which expired air is recirculated and in which a facepiece, a supply of compressed oxygen, and a separate regenerator are utilized the regenerating material shall absorb carbon dioxide from the expired air to the extent that not more than 2½ percent of carbon dioxide is present in the inspired air at any time. The average carbon dioxide content shall not exceed 2 percent throughout the test, determined by analyses of air samples taken from within the facepiece as close as practicable to the nose and mouth of the wearer and at uniform time intervals. Air samples will be taken only when the wearer is inhaling.

10. Former paragraph (e) (2) of §11.3 would become (e) (3) and would be amended to read as follows:

(3) For an oxygen-generating apparatus utilizing a mouth-breathing device in which the expired air is recirculated and wherein a chemical change is effected so that carbon dioxide is absorbed concurrently with generation of oxygen within the oxygen generator, the absorbent shall absorb carbon dioxide from the expired air to the extent that not more than 2½ percent of carbon dioxide is present in the inspired air at any time. The average carbon dioxide content shall not exceed 1 percent throughout the test, as determined by analyses of air samples obtained as close as practicable to the point of inspiration and at uniform time intervals.

11. A new paragraph (e) (4) would be inserted in § 11.3, as follows:

(4) For an oxygen-generating apparatus utilizing a facepiece in which the expired air is recirculated and wherein a chemical change is effected so that carbon dioxide is absorbed concurrently with generation of oxygen within the oxygen generator, the absorbent shall absorb carbon dioxide from the expired air to the extent that not more than 2½ percent of carbon dioxide is present in the inspired air at any time. The average carbon dioxide content shall not exceed 2 percent throughout the test, determined by analyses of air samples taken from within the facepiece as close as practicable to the nose and mouth of the wearer and at uniform time intervals. Air samples shall be taken only when the wearer is inhaling.

12. Paragraph (q) of § 11.4 would be amended to read as follows:

(q) Apparatus equipped with a mouth-breathing device or a facepiece shall be provided with an adequate saliva or moisture trap and release valve at the exhalation side of the inhalation and exhalation valve assembly and shall be so designed that while the saliva or moisture trap and release valve are functioning, no atmosphere external thereto can be drawn into the apparatus during inhalation.

13. Subparagraph (2) of paragraph (s) of § 11.4 would be amended to read as follows:

(2) The eyepieces shall be of nonshatter type and located to provide a satisfactory field of vision for persons of widely varying facial dimensions and contours. Air or oxygen shall enter the facepiece and be directed across the eyepieces to reduce precipitation or accumulation of moisture. The lenses shall be treated with an effective fog-preventing solution that is nonirritating, odorless, and nonflammable.

14. New subparagraphs (5) and (6) would be added to paragraph(s) of § 11.4, as follows:

(5) A facepiece, used as a supplemental attachment complete with inhalation- and exhalation-valve assembly and breathing tubes, shall not exceed a total weight of 3 pounds.

(6) The facepiece shall be distinctively and permanently marked to identify it as a supplemental part of a specific type of self-contained breathing apparatus.

15. The first sentence of the 4th paragraph of § 11.5 would be amended to read as follows: "Samples of air from an apparatus in which air is recirculated and which utilizes a mouth-breathing device shall be taken from the inhalation side of the circulatory system as close as possible to the mouthpiece or face attachment. Samples of air from a regenerating- or recirculating-type apparatus utilizing a facepiece shall be taken from the interior of the facepiece as close as possible to the nose and mouth of the wearer and shall be taken only when the wearer is inhaling."

16. Section 11.13 would be amended to read as follows:

§ 11.13 *Fees for testing self-contained breathing apparatus.*

	Apparatus with separate regenerator	Oxygen-generating apparatus	Demand-type apparatus
Complete 2-hour self-contained breathing apparatus inspection and tests	$1,500	$1,500	$1,500
Complete 1-hour self-contained breathing apparatus inspection and tests	1,390	1,390	1,390
Complete ¾-hour self-contained breathing apparatus inspection and tests	1,390	1,390	1,390
Complete ½-hour self-contained breathing apparatus inspection and tests	1,390	1,390	1,390
Separate preliminary 2-hour apparatus inspection and tests	230	230	230
Separate preliminary 1-hour apparatus inspection and tests	230	230	230
Separate preliminary ¾-hour apparatus inspection and tests	230	230	230
Separate preliminary ½-hour apparatus inspection and tests	230	230	230
Separate supplementary facepiece assembly	230	230	------
Separate regenerator 2-hour apparatus inspection and tests	165	------	------
Separate regenerator 1-hour apparatus inspection and tests	165	------	------
Separate regenerator ¾-hour apparatus inspection and tests	165	------	------
Separate regenerator ½-hour apparatus inspection and tests	165	------	------
Special reducing valve inspection and tests, all models	165	165	165
Separate auxiliary parts inspection and tests, each part	110	110	110

Fees for testing unusually complicated types of self-contained breathing apparatus and for extensions of approval will be based on the actual cost of testing, as determined by the Bureau of Mines in advance; the applicant will be notified and the fees paid before the tests are begun.

17. Section 11.14 would be deleted.

DOUGLAS MCKAY,
Secretary of the Interior.

NOVEMBER 23, 1955.

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Part 903]

[Docket No. AO-10-A19]

MILK IN ST. LOUIS, MO., MARKETING AREA

DECISION WITH RESPECT TO PROPOSED MARKETING AGREEMENT AND PROPOSED ORDER AMENDING ORDER, AS AMENDED

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing proceedings to formulate marketing agreements and marketing orders (7 CFR Part 900), a public hearing was conducted at St. Louis, Missouri, on October 25, 1955.

Upon the basis of the evidence introduced at the hearing and the record, thereof, the Deputy Administrator, Agricultural Marketing Service, on November 18, 1955, filed with the Hearing Clerk, United States Department of Agriculture, his recommended decision with respect to issues of this proceeding. The recommended decision including notice of an opportunity to file written exceptions thereto was published in the FEDERAL REGISTER on November 19, 1955 (20 F. R. 8574).

The material issues, findings and conclusions, and general findings of the recommended decision (20 F. R. 8574; Doc. 55-9369) are hereby approved and adopted by this decision as is set forth in full herein.

Ruling on exceptions. Within the period reserved for exceptions, interested parties filed exceptions to certain of the findings, conclusions and actions recommended by the Deputy Administrator. In arriving at the findings, conclusions and regulatory provisions of this decision, each of such exceptions was carefully and fully considered in conjunction with the record evidence pertaining thereto. To the extent that the findings, conclusions, and actions decided upon herein are at variance with the exceptions, such exceptions are overruled.

Determination of representative period. The month of October 1955, is hereby determined to be the representative period for the purpose of ascertaining whether the issuance of an order amending the order, as amended, regulating the handling of milk in the St. Louis, Missouri, marketing area in the manner set forth in the attached amending order is approved or favored by producers who during such period were engaged in the production of milk for sale in the marketing area specified in such marketing order, as amended.

Marketing agreement and order. Annexed hereto and made a part hereof are two documents entitled respectively "Marketing Agreement Regulating the Handling of Milk in the St. Louis, Missouri, Marketing Area," and "Order Amending the Order as Amended, Regulating the Handling of Milk in the St. Louis, Missouri, Marketing Area", which have been decided upon as the detailed and appropriate means of effectuating the foregoing conclusions. These documents shall not become effective unless and until the requirements of § 900.14 of the rules of practice and procedure, as amended, governing proceedings to formulate marketing agreements and orders have been met.

It is hereby ordered, That all of this decision except the attached marketing agreement be published in the FEDERAL REGISTER. The regulatory provisions of said marketing agreement are identical with those contained in the attached Order which will be published with this decision.

This decision filed at Washington, D. C., this 25th day of November 1955.

[SEAL] EARL L. BUTZ,
Assistant Secretary of Agriculture.

Order[1] Amending the Order, as Amended, Regulating the Handling of Milk in the St. Louis, Missouri, Marketing Area

§ 903.0 *Findings and determinations.* The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and of the previously issued amendments thereto; and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (hereinafter referred to as the "act") (7 U. S. C. 601 et seq.), and the rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900) a public hearing was held upon certain proposed amendments to the tentative marketing agreement and to the order, as amended, regulating the handling of milk in the St. Louis, Missouri, marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order, as amended, and as hereby further amended, and all of the terms and conditions of said order, as amended, and as hereby further amended, will tend to effectuate the declared policy of the act:

(2) The parity prices of milk as determined pursuant to Section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the marketing area, and the minimum prices specified in the order, as amended, and as hereby further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(3) The said order, as amended, and as hereby further amended, regulates the handling of milk in the same manner as, and is applicable only to persons in the respective classes of industrial and commercial activity specified in a marketing agreement upon which hearings have been held.

Order relative to handling. It is therefore ordered, that on and after the effective date hereof the handling of milk in the St. Louis, Missouri, marketing area shall be in conformity to and in compliance with the terms and conditions of the aforesaid order, as amended, and as hereby further amended, and the

[1] This order shall not become effective unless and until the requirements of § 900.14 of the rules of practice and procedure, as amended, governing proceedings to formulate marketing agreements and orders have been met.

aforesaid order, as amended, is hereby further amended as follows:

1. Add to § 903.51 (a) (2) the following proviso: "*Provided*, That for the months of April 1956 through June 1956, such rates shall be 4 cents, and for all other months from the effective date hereof through August 1956 such rate shall be 5 cents."

2. Amend § 903.51 (a) (3) to read as follows:

(3) For each month calculate a utilization percentage by (i) dividing the net pounds of Class I milk disposed of from all pool plants (except non-Grade A milk disposed of outside the marketing area and allocated to other source milk) plus the Class I milk disposed of in the marketing area from nonpool plants, all for the 12-month period ending with the beginning of the preceding month, into the total pounds of producer milk during such 12-month period, (ii) multiplying by 100, (iii) adding or subtracting, respectively, any amount by which such result is greater or less than a comparable 12-month utilization percentage as computed for the third month preceding, and (iv) rounding the resultant figure to the nearest whole percent.

[F. R. Doc. 55–9629; Filed, Nov. 30, 1955; 8:50 a. m.]

[7 CFR Part 937]

[AO–264]

Celery Grown in Florida

DETERMINATIONS ON RESULTS OF REFERENDUM ON PROPOSED MARKETING ORDER

Pursuant to the Agricultural Marketing Agreement Act of 1937, as amended (48 Stat. 31, as amended; 7 U. S. C. 601 et seq.; 68 Stat. 906, 1047), and the applicable rules of practice and procedure governing proceedings to formulate marketing agreements and marketing orders (7 CFR Part 900; 19 F. R. 57), a public hearing was held at Winter Haven, Florida, on March 28–31, 1955, pursuant to notice thereof which was published in the Federal Register (20 F. R. 1217) upon proposed Marketing Agreement No. 124 and proposed Marketing Order No. 37 (hereinafter referred to as the "order") regulating the handling of celery grown in Florida. The recommended decision (20 F. R. 6171) of the Deputy Administrator, Agricultural Marketing Service, and the decision (20 F. R. 7997) of the Assistant Secretary of Agriculture setting forth a proposed marketing agreement and order as the appropriate and detailed means for effectuating the declared policy of the Agricultural Marketing Agreement Act of 1937, as amended, were published in the Federal Register on August 24, 1955, and October 25, 1955, respectively. The Assistant Secretary also issued an order (20 F. R. 8018) directing that a referendum be conducted among producers of celery grown in Florida to determine whether the requisite majority of such producers approve or favor the issuance of the proposed marketing order.

It is hereby determined, on the basis of the results of the referendum conducted pursuant to the aforesaid referendum order, that the issuance of the proposed marketing order regulating the handling of celery grown in Florida is approved or favored by only 47 percent of the producers who voted in the aforesaid referendum.

It is therefore determined that the proposed marketing order set forth in the Assistant Secretary's decision of October 20, 1955 (20 F. R. 8012), shall not be made effective.

Done at Washington, D. C., this 25th day of November 1955.

[SEAL] Earl L. Butz,
Assistant Secretary.

DEPARTMENT OF AGRICULTURE

Office of the Secretary

North Carolina

DISASTER ASSISTANCE; DELINEATION OF AREA AND DESIGNATION OF COUNTIES

Pursuant to Public Law 875, the President determined on August 13 and August 19, 1955, that major disasters occasioned by hurricanes existed in the State of North Carolina.

Pursuant to the authority delegated to me by the Administrator, Federal Civil Defense Administration (18 F. R. 4609; 19 F. R. 2148; 19 F. R. 5364; and 20 F. R. 4664), and for the purposes of section 2 (d) of Public Law 38, 81st Congress, as amended by Public Law 115, 83d Congress, and section 301 of Public Law 480, 83d Congress, the following named counties in the State of North Carolina were on November 23, 1955, determined to be the area affected by the major disasters of hurricanes for said purposes:

North Carolina

Onslow and Pender.

Done at Washington, D. C., this 25th day of November 1955.

[SEAL] True D. Morse,
Acting Secretary.

Utah

DISASTER ASSISTANCE; DELINEATION AND CERTIFICATION OF ADDITIONAL COUNTIES CONTAINED IN DROUGHT AREAS

Pursuant to Public Law 875, 81st Congress (42 U. S. C. 1855 et seq.), the President determined on October 19, 1954, that a major disaster occasioned by drought existed in the State of Utah.

Pursuant to the authority delegated to me by the Administrator, Federal Civil Defense Administration (18 F. R. 4609; 19 F. R. 2148; 19 F. R. 5364; and 20 F. R. 4664), and for the purposes of section 2 (d) of Public Law 38, 81st Congress, as amended by Public Law 115, 83d Congress, and section 301 of Public Law 480, 83d Congress, the Counties of Daggett, Emery, and a portion of Box Elder County, Utah, were on December 6, 1954, determined to be the area affected by the major disaster by drought. Pursuant to the aforesaid delegations, the delineation and certification of counties in the drought areas described above, is hereby amended by adding that part of Box Elder County north of the right-of-way of the Southern Pacific Railroad running through Lucin, Utah, and west of range 10.

Done at Washington, D. C., this 25th day of November 1955.

[SEAL] True D. Morse,
Acting Secretary.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Office of the Secretary

[Delegation 8–1 [1]]

Surplus Real Property and Related Personal Property

DELEGATION RELATING TO DISPOSAL AND UTILIZATION FOR HEALTH AND EDUCATIONAL PURPOSES

1. Each Regional Director, except the Regional Director in Region VIII, with respect to disposal and utilization for health and educational purposes of surplus real property and related personal property located within his jurisdiction, is authorized:

(a) To execute deeds, contracts of sale, and all instruments incident or corollary to the transfer of land and improvements thereon where the acquisition and improvement cost of the property was $150,000 or less;

(b) To execute instruments in modification of previous transfers where the acquisition and improvement cost of the land and improvements thereon involved in the modification action was $150,000 or less;

(c) To execute all instruments with respect to land and improvements thereon where the acquisition and improvement cost exceeded $150,000, where the Division of Surplus Property Utilization specifically authorizes closing of the transaction by the Regional Office;

(d) To execute all instruments relating to the transfer of improvements for removal and use away from the site; and

(e) To execute all modifying or retransfer instruments affecting improvements originally disposed of for removal and use away from the site.

2. The Regional Director of Region IX, with respect to property located within the states comprising Region VIII, shall exercise the authority as above delegated.

Dated: November 25, 1955.

[SEAL] M. B. Folsom,
Secretary.

[F. R. Doc. 55–9604; Filed, Nov. 30, 1955; 8:45 a. m.]

[1] Supersedes Delegation 8–1 dated February 8, 1951.

[Delegation 8–2 [1]]

Surplus Real Property and Related Personal Property

DELEGATION RELATING TO DISPOSAL AND UTILIZATION FOR HEALTH AND EDUCATIONAL PURPOSES

1. The surplus property utilization program representative in each region, except for Region I and VIII, is the Regional Property Coordinator. The Regional Property Coordinators in Region II and Region IX shall serve as program representatives in Region I and Region VIII, respectively.

2. Each Regional Property Coordinator, with respect to the disposal for health and educational purposes of surplus real property and related personal property within his jurisdiction, is authorized:

(a) To request and accept assignments from Federal agencies of:

(1) Improvements for removal and use away from the site; and

(2) Land and improvements thereon where the acquisition and improvement cost of the property was $150,000 or less;

(b) Consistent with the policies and procedures set forth in applicable regulations of the Department, to make determinations incident to the disposal of assigned property described in 2 (a) (1) and 2 (a) (2) above;

(c) To issue and execute licenses and interim permits affecting assigned property described in 2 (a) (1) and 2 (a) (2) above;

(d) To execute instruments of transfer relating to property described in 2 (a) (1) above;

(e) To execute instruments necessary to carry out actions incident or corollary to the health or educational transfer of property described in 2 (a) (2) above;

(f) Except for execution of instruments of conveyance to the health or educational transferee, to take all action with respect to land and improvements thereon where the acquisition and improvement cost exceeded $150,000, where the Division of Surplus Property Utilization specifically authorizes closing of the transaction by the Regional Office;

(g) Incident to the exercise of the authority hereinbefore provided, to receive remittances and performance guarantee deposits and bonds, to request refunds or payments, and to request forfeiture or release of performance bonds.

3. From the foregoing delegation there is reserved to the Division of Surplus Property Utilization authority to request and accept assignments of property from Federal agencies whose disposal authority is exempted from the provisions of the Federal Property and Administrative Services Act of 1949, as amended, by section 602 (d) thereof.

4. Each Regional Property Coordinator, with respect to property within his jurisdiction previously disposed of for health and educational purposes, is authorized:

(a) Consistent with the policies and procedures set forth in applicable regulations of the Department, to make determinations concerning the utilization and the enforcement of compliance with the terms and conditions of disposal of:

(1) Improvements for removal and use away from the site; and

(2) Land and improvements thereon where the acquisition and improvement cost of the property involved in the current action was $150,000 or less;

(b) To accept voluntary reconveyances and to effect reverter of title to land and improvements located thereon, without regard to acquisition cost;

(c) To report to General Services Administration revested properties excess to program requirements in accordance with applicable regulations;

(d) To take all action with respect to land and improvements thereon where the acquisition and improvement cost of the property involved in the current action exceeded $150,000, where the Division of Surplus Property Utilization specifically authorizes closing of the transaction by the Regional Office;

(e) To execute instruments necessary to carry out or incident to the exercise of the authority delegated in this paragraph;

(f) Incident to the exercise of the authority delegated in this paragraph, to receive remittances and performance guarantee deposits and bonds, to request refunds or payments, and to request forfeiture or release of performance bonds.

Dated: November 25, 1955.

[SEAL] M. B. Folsom,
Secretary.

[F. R. Doc. 55–9605; Filed, Nov. 30, 1955; 8:46 a. m.]

[Delegation 8–3]

Surplus Personal Property

DELEGATION RELATING TO ALLOCATION AND UTILIZATION FOR HEALTH AND EDUCATIONAL PURPOSES

1. The surplus property utilization program representative in each region, except for Regions I and VIII, is the Regional Property Coordinator. The Regional Property Coordinators in Region II and Region IX shall serve as program representatives in Region I and Region VIII, respectively.

2. Each Regional Property Coordinator, with respect to the allocation for donation for health and educational purposes of surplus personal property located within his jurisdiction, is authorized:

(a) To make determinations, consistent with the policies and procedures set forth in applicable regulations of the Department, concerning the usability of and need for surplus personal property by health or educational institutions;

(b) To allocate surplus personal property and to take all actions necessary to accomplish donation or transfer of property so allocated, consistent with the policies and procedures set forth in applicable regulations of the Department;

(c) To certify and assign individuals designated by State Agencies as State

[1] Supersedes Delegation 8–2 dated February 8, 1951.

representatives for the purpose of screening surplus personal property;

(d) To execute all instruments, documents and forms necessary to carry out or incident to exercise of any of the foregoing authority.

3. Each Regional Property Coordinator, with respect to personal property located within his jurisdiction previously donated for health and educational purposes, or transferred to State Agencies for subsequent donation for such purposes, is authorized:

(a) As limited by subparagraphs (b) and (c) hereof, to make determinations and take actions appropriate thereto, consistent with the policies and procedures set forth in applicable regulations of the Department, concerning the utilization of such property, including retransfer and the enforcement of compliance with terms and conditions which may have been imposed on and which are currently applicable to such property;

(b) To approve sales by State Agencies (1) where the acquisition cost of the items listed for sale does not exceed $25,000.00 and (2) as the Division of Surplus Property Utilization specifically directs;

(c) To approve destruction or abandonment of property in the custody of State Agencies after a determination in writing that the property has no commercial value or that the cost of care and handling would exceed the estimated proceeds from its sale, except that where the acquisition cost of the property was more than $1,000 (estimated if not known), the determination must be approved by the Division of Surplus Property Utilization;

(d) To execute instruments necessary to carry out or incident to the exercise of the authority delegated in this paragraph;

(e) Incident to the exercise of the authority delegated in this paragraph, to receive remittance and to request refunds or payments.

4. The authority herein delegated, or any part thereof, may be redelegated in writing to Assistant Regional Property Coordinators, Compliance Assistants, or Administrative Assistants.

Dated: November 25, 1955.

FEDERAL POWER COMMISSION

[Docket No. G-8646]

R. T. BOTELER

NOTICE OF APPLICATION AND DATE OF HEARING

NOVEMBER 25, 1955.

Take notice that R. T. Boteler (Applicant), an individual whose address is P. O. Box 1035, Jackson, Mississippi, filed as non-operator on March 21, 1955, an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, authorizing Applicant to render service as hereinafter described, subject to the jurisdiction of the Commission, all as more fully represented in the application which is on file with the Commission and open for public inspection.

Applicant proposes to sell natural gas in interstate commerce from production of 1¼ acres in Morgan and Norton Creosote No. 2 Unit, Pistol Ridge Field, Forrest and Pearl River Counties, Mississippi, to United Gas Pipe Line Company for resale.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on Wednesday, January 4, 1956, at 9:40 a. m., e. s. t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such application: *Provided, however,* That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of section 1.30 (c) (1) or (c) (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before December 14, 1955. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

[F. R. Doc. 55-9614; Filed, Nov. 30, 1955; 8:48 a. m.]

[Docket No. G-8650]

EVON A. FORD

NOTICE OF APPLICATION AND DATE OF HEARING

NOVEMBER 25, 1955.

Take notice that Evon A. Ford (Applicant), an individual whose address is P. O. Box 217, Taylorsville, Mississippi, filed as a non-operator on March 23, 1955, an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, authorizing Applicant to render service as hereinafter described, subject to the jurisdiction of the Commission, all as more fully represented in the application which is on file with the Commission and open for public inspection.

Applicant proposes to sell natural gas in interstate commerce from production of 40 acres of the 320-acre Morgan and Norton Entriken Gas Unit No. 1 and 80 acres of the 320-acre Sun Oil Company's Federal Creosote Gas Unit No. 1, both in Forrest County, Pistol Ridge-Maxie Field, Mississippi, to United Gas Pipe Line Company for resale.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on Wednesday, January 4, 1956, at 9:30 a. m., e. s. t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such application: *Provided, however,* That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of section 1.30 (c) (1) or (c) (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before December 14, 1955. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

[Docket No. G-8683]

SUN OIL CO.

NOTICE OF APPLICATION AND DATE OF HEARING

NOVEMBER 25, 1955.

Take notice that Sun Oil Company (Southwest Division), Applicant, a New Jersey corporation whose address is P. O. Box 2880, Dallas, Texas, filed on March 29, 1955, an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, authorizing Applicant to render service as hereinafter described, subject to the jurisdiction of the Commission, all as more fully represented in the application which is on file with the Commission and open for public inspection.

Applicant proposes to sell natural gas in interstate commerce from production of the 214 acre Robert F. Goehring et al. Lease, Cabeza Creek Field, Goliad County, Texas, to United Gas Pipe Line Company for resale.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on Wednesday, January 4, 1956, at 9:50 a. m., e. s. t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such application: *Provided, however,* That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of section 1.30 (c) (1) or (c) (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before December 14, 1955. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

SECURITIES AND EXCHANGE COMMISSION

[File No. 70-1850]

BELLOWS FALLS HYDRO-ELECTRIC CORP. ET AL.

NOTICE OF FILING OF AMENDMENT NO. 7 REQUESTING RELEASE OF JURISDICTION OVER CERTAIN ACCOUNTING MATTERS

NOVEMBER 25, 1955.

In the matter of Bellows Falls Hydro-Electric Corporation, Connecticut River Power Company, New England Power Company, New England Electric System.

Notice is hereby given that Amendment No. 7 to the joint application-declaration of the above-entitled companies has been filed with this Commission, pursuant to the Public Utility Holding Company Act of 1935, by New England Electric System ("NEES"), a registered holding company, and its subsidiary company, Bellows Falls Hydro-Electric Corporation ("Bellows"). By orders, dated July 13, 1948, and July 21, 1948, the Commission granted and permitted to become effective said application-declaration which related, among other things, to the sale by Bellows of its utility assets to New England Power Company, another subsidiary of NEES, all as more fully described in Holding Company Act Release No. 8348.

In said order of July 13, 1948, the Commission authorized NEES and Bellows to allocate consolidated Federal income taxes for the taxable year 1948, in the first instance, so that NEES would receive the full tax credit for the loss claimed to be sustained in connection with said sale and reserved jurisdiction with respect to "(a) the disposition of the proposed reserve account of NEES to be entitled 'Reserve Re Tax Allocation', (b) the disposition of the tax credit for the loss claimed to be sustained in connection with the sale by Bellows of its utility assets and to be included in the 1948 consolidated Federal income tax return of NEES and the participating companies, and (c) the disposition of the investment account of NEES in Bellows or any amount recorded therein."

Amendment No. 7 to said joint application-declaration states that final determination of the tax credit for the loss sustained in connection with said sale by Bellows has now been agreed upon with the United States Internal Revenue Service. NEES requests that this Commission (a) release jurisdiction with respect to the above-mentioned matters, (b) grant authority to allocate consolidated Federal income taxes for the taxable year 1948 in a manner other than permitted by Rule U-45 (b) (6), and (c) approve the accounting entries with respect to the disposition of NEES' investment in Bellows as set forth in Amendment No. 7. Bellows proposes that when said accounting entries have been affected, it will take the necessary steps to effect its dissolution.

NEES and Bellows request that the order of this Commission become effective upon issuance.

Notice is further given that any interested person may, not later than December 7, 1955, at 5:30 p. m., request the Commission in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law, if any, raised by said Amendment No. 7 which he desires to controvert, or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington 25, D. C. At any time after said date said application-declaration as further amended by said Amendment No. 7 may be granted or permitted to become effective as provided in Rule U-23 of the rules and regulations promulgated under the act, or the Commission may grant exemption from its rules as provided in Rules U-20 (a) and U-100, or take such other action as it may deem appropriate.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

INTERNATIONAL HYDRO-ELECTRIC SYSTEM

ORDER FIXING MAXIMUM ALLOWANCES FOR FEES AND EXPENSES TO CERTAIN REPRESENTATIVES OF PREFERRED AND CLASS A STOCKHOLDERS AND TO CERTAIN OTHER APPLICANTS

NOVEMBER 25, 1955.

The Commission by orders heretofore entered herein having approved Parts I, II, and III (as amended) of the Second Plan of Bartholomew A. Brickley, Trustee of International Hydro-Electric System ("IHES"), a registered holding company, filed pursuant to section 11 (d) of the Public Utility Holding Company Act of 1935, relating, among other things, to the retirement of the debentures and preferred stock of IHES and the election by the Class A stockholders of an Interim Board of Directors to formulate a plan for the conversion of said holding company into an investment company; and

The Commission in its said orders having reserved jurisdiction over the fees and expenses in connection therewith, for which provision was made in said plan; and

The Commission having, by order entered on January 11, 1955, approved the maximum amounts to be paid as fees and expenses to the representatives of the debenture holders; and

Applications for allowances of fees for services rendered to September 30, 1954, and reimbursement of expenses in said reorganization proceedings having been filed by representatives of the preferred and Class A stockholders and by various other applicants, and due notice and opportunity for hearing having been given with respect to certain of said applications which after negotiations with the applicants had been recommended by the Trustee for approval, and no request for hearing having been made and the Commission not having ordered a hearing with respect thereto; and

A hearing having been duly held on November 15, 1955, with respect to the remaining applications, following which two of such applications were amended pursuant to further negotiations between the applicants and the Trustee; and the Trustee having recommended that such amended applications be also approved; and

The Commission having considered the record and having this day issued its Memorandum Opinion with respect to the aforesaid applications as to which agreement has been reached with the Trustee; on the basis of said Memorandum Opinion and the applicable provisions of the Act and the Rules thereunder:

It is ordered, That the following fees and expenses be, and the same hereby are, approved as the maximum amounts that may be paid by the Trustee of International Hydro-Electric System for the services and expenses aforesaid:

Applicant and capacity	Fee	Expenses
Erwin N. Griswold, tax consultant employed by Trustee	$75,000.00	----------
LeBoeuf, Lamb & Leiby, special counsel employed by Trustee for work before New York Public Service Commission	42,500.00	$1,639.05
Hutchinson, Pierce, Atwood & Scribner, special counsel employed by Trustee, in connection with conveyance of ESNY properties	350.00	20.29
Ropes, Gray, Best, Coolidge & Rugg, special counsel to old Board of Directors	3,000.00	----------
Buchman & Buchman, counsel for preferred stockholders in Paper Company litigation	2,000.00	493.00
Preferred Stockholders Protective Committee: C. Shelby Carter and Ralph H. Baas, committeemen	7,000.00	[1] 1,318.94
Harold P. Seligson and Edmund Burke, Jr., counsel	[2] 80,000.00	8,566.02
J. Samuel Hartt, engineering adviser	37,000.00	6,984.58
Preferred Stockholders Group: William Stubenfield and Joseph D. Allen, committeemen	2,750.00	(3)
Percival E. Jackson, counsel	[4] 75,000.00	4,642.18
Equity Holding Corp.	----------	3,926.69
Estate of Franke Bailey	----------	3,926.69
William M. Greve	----------	3,926.69
Paul H. Todd, Class A stockholder	----------	[5] 69,712.50
Root, Ballantine, Bushby & Palmer and Purcell & Nelson, counsel (net)	[6] 180,133.33	----------
Drexel & Company, financial adviser	28,000.00	[7] 100.68
Sullivan and Sullivan, financial and engineering adviser	45,000.00	495.60

See footnotes at end of table.

Applicant and capacity	Fee	Expenses
S. Philip Cohen, counsel for certain Class A stockholders	2,500.00	720.40
Class A Stockholders Committee: James A. Davis, John M. McGrath and Anthony Shimko, committeemen	10,000.00	----------
Harold Barnett, secretary	3,000.00	----------
Nemerov & Shapiro, counsel	[8] 107,500.00	8,129.43
Theodore R. Mackoul, financial adviser	[9] 48,950.00	983.22
Total	849,683.33	115,585.96

[1] $500 advanced to Reis & Chandler was reimbursed by Equitable Holding Corporation, Estate of Frank Bailey, and William M. Greve, and the amount is included in their claims.

[2] In addition, Jackson received a fee of $10,000 from Equitable Holding Corporation, Estate of Frank Bailey, and William M. Greve, and the amount is included in their claims.

[3] This amount includes $44,866.67 advanced to counsel.

[4] This amount is exclusive of $44,866.67 advanced by Todd.

[5] Expenses of $15,397.77 were reimbursed by Todd and are included in his claim.

[6] Including $7,500 to be paid by Nemerov & Shapiro to Leo B. Mittelman, associate counsel.

[7] This amount is exclusive of $1,050 advanced by Nemerov & Shapiro and included in their claim for expenses.

It is further ordered, That, out of the aforesaid allowances to Nemerov & Shapiro, said firm shall pay to Leo B. Mittelman $7,500 in full consideration for his services herein, and that said firm shall reimburse those several stockholders who have made advances to it in the aggregate amount of $7,000.

By the Commission.

[File No. 24SF-2096]

JET URANIUM CORP.

ORDER TEMPORARILY SUSPENDING EXEMPTION, STATEMENT OF REASONS THEREFOR, AND NOTICE OF OPPORTUNITY FOR HEARING

NOVEMBER 25, 1955.

I. Jet Uranium Corp., Room 4, Cornet Building, Las Vegas, Nevada, having filed with the Commission on June 2, 1955, a notification on Form 1-A and an offering circular, and an amendment thereto on June 9, 1955, relating to an offering of 300,000 shares of $1 par value common stock at $1 per share, for the purpose of obtaining an exemption from the registration requirements of the Securities Act of 1933, as amended, pursuant to the provisions of section 3 (b) thereof and Regulation A promulgated thereunder; and

II. The Commission having been advised that an order was entered on October 11, 1955, in the United States District Court for the District of Nevada, permanently enjoining H. O. Hart, an officer, director and promoter of the issuer from further violations of the registration requirements of the Securities Act of 1933, as amended, in connection with the sale of securities of Tri-State Metals, Inc., and Great Western Metals Corporation; and

The Commission having reasonable cause to believe that the terms and conditions of Regulation A have not been complied with in that the issuer has been offering its securities in a jurisdiction not stated in the notification as a jurisdiction in which it is proposed to offer issuer's securities and the issuer failed to file, as required by Rule 221 of Regulation A, an advertisement relating to the offering which was published in behalf of the issuer on August 18, 1955, in the Santa Cruz Sentinel-News and which was not in conformance with Rule 220 of said Regulation.

III. *It is ordered*, Pursuant to Rule 223 (a) of the general rules and regulations under the Securities Act of 1933, as amended, that the exemption under Regulation A be, and it hereby is, temporarily suspended.

Notice is hereby given that any person having any interest in the matter may file with the Secretary of the Commission a written request for hearing; that, within 20 days after receipt of such request, the Commission will, or at any time upon its own motion may, set the matter down for hearing at a place to be designated by the Commission for the purpose of determining whether this order of suspension should be vacated or made permanent, without prejudice, however, to the consideration and presentation of additional matters at the hearing; and that notice of the time and place for said hearing will be promptly given by the Commission.

It is further ordered, That this Order and Notice shall be served upon Jet Uranium Corp., Room 4, Cornet Building, Las Vegas, Nevada, personally or by registered mail or by confirmed telegraphic notice and shall be published in the FEDERAL REGISTER.

By the Commission.

STANDARD POWER AND LIGHT CORP.

ORDER PERMITTING DECLARATION TO BECOME EFFECTIVE REGARDING PROPOSED SALE OF COMMON STOCK OF PUBLIC-UTILITY SUBSIDIARY AND PROPOSED CASH DISTRIBUTION OUT OF CAPITAL SURPLUS

NOVEMBER 25, 1955.

Standard Power and Light Corporation ("Standard Power"), a registered holding company, having filed with this Commission a declaration pursuant to section 12 of the Public Utility Holding Company Act of 1935 ("act") and Rules U-44 and U-46 promulgated thereunder regarding a proposal by Standard Power (a) to sell not more than 10,000 shares of common stock of Duquesne Light Company, a public-utility subsidiary of

Standard Power, either (i) on the New York Stock Exchange by means of ordinary brokers' transactions at prevailing market prices on the date or dates of sale or (ii) by negotiated sale, after inquiry among a limited number of prospective buyers, with a buyer or buyers who will agree to purchase for investment and not for resale to the public and at prevailing market prices on the New York Stock Exchange on the date or dates of sale, less a discount of not more than $0.50 per share; and (b) to make a cash distribution of $0.40 per share, in part out of earned surplus to the full extent thereof, which at September 30, 1955, amounted to $311,715.43, and the balance out of capital surplus which as of the same date amounted to $110,982,551.45, to each holder of record on December 5, 1955, of its outstanding 1,320,000 shares of common stock and 110,000 shares of common stock, Series B.

The declaration states that no State commission or Federal commission other than this Commission, has jurisdiction over the proposed transactions. Standard Power requests that the Commission's order herein become effective upon issuance.

Notice of the filing of the declaration having been duly given in the manner prescribed by Rule U-23 and no hearing having been ordered by or requested of the Commission; and the Commission finding that the applicable provisions of the act and the rules thereunder are satisfied and that the declaration should be permitted to become effective forthwith:

It is ordered, Pursuant to the applicable provisions of the act and the rules and regulations thereunder, that said declaration be, and it hereby is, permitted to become effective forthwith, subject to the terms and conditions prescribed by Rule U-24, and subject to the following additional terms and conditions:

That Standard Power shall accompany the cash distribution checks with a statement to the effect:

(1) That Standard Power filed a declaration with the Commission pursuant to Section 12 of the act and the Commission permitted the declaration to become effective without determining whether and to what extent the payment is being made out of capital or unearned surplus; and

(2) That the Commission's action in permitting the declaration to become effective is not to be construed as a determination by the Commission that all or any portion of such payment is or is not taxable to the recipients pursuant to the provisions of the Internal Revenue Code.

By the Commission.

PART 1—COVERAGE AND DEFINITIONS

PART 2—FILLING COMPETITIVE POSITIONS

PART 6—EXCEPTIONS FROM COMPETITIVE SERVICE

PART 9—SEPARATIONS, SUSPENSIONS, AND DEMOTIONS

PART 11—SPECIAL TRANSITIONAL AUTHORITIES

PART 22—APPEALS OF PREFERENCE ELIGIBLES UNDER VETERANS' PREFERENCE ACT OF 1944

MISCELLANEOUS AMENDMENTS

The amendments and additions to Parts 1, 2, 6, 9, 11, and 22, as set out below, have resulted from the issuance of Executive Order 10641 of October 26, 1955.

1. Paragraph (dd) is added to § 1.102 as follows:

§ 1.102 *Definitions.* As used in Parts 1 through 11 of the regulations in this chapter, the term: • • •

(dd) "Overseas" means outside the continental limits of the United States, but not in Alaska, Hawaii, the Isthmus of Panama, Puerto Rico, or the Virgin Islands.

2. Part 2 is amended as set out below.

§ 2.105 *Restriction as to members of family.* • • •

(b) The members of family restriction shall not apply to temporary appointment, to overseas limited appointment under § 2.308, to appointment in rare cases under § 2.305, or to conversion from career-conditional appointment to career appointment.

§ 2.204 *Certification for appointment.* • • •

(b) *Selective certification.* When there is no register appropriate as a whole for certification for filling a particular position, there may be certified selectively from the most nearly appropriate existing register the names of eligibles who are qualified for the particular position. Such eligibles shall be certified in the order of their ranking. The Commission may, when appropriate, rerate the eligibles on the register on the basis of the particular requirements of the position. Special overseas selection factors may also be used as a basis for selective certification from registers used for filling overseas positions.

• • • • •

§ 2.205 *Selection from certificates*—(a) *Order of selection.* An appointing officer shall, with sole reference to merit and fitness, make selection for the first vacancy from the highest three eligibles available for appointment on the certificate. For the second vacancy, he shall make selection from the three highest unselected and available eligibles on the certificate. Each succeeding vacancy shall be filled in like manner. An appointing officer shall not be required to consider any eligible (1) who has been considered by him for three separate appointments from the same or different certificates for the same position, or (2) to whose certification for the particular position he has made an objection which has been sustained by the Commission for any of the reasons stated in § 2.106. The Commission may also sustain an objection to certification of an otherwise qualified eligible for an overseas position on the basis of special overseas selection factors.

• • • • •

§ 2.302 *Temporary appointment in absence of eligibles.* • • •

(e) *Restrictions.* The restrictions of § 2.502 (b) through (j) on promotion shall be applied to temporary appointments under this section within one year after separation from any nontemporary appointment.

• • • • •

§ 2.308 *Overseas limited appointment*—(a) *Authorization of appointment.* Where it finds such appointments are in the public interest, the Commission may authorize agencies to make overseas limited appointments without competitive examination, to overseas positions in the competitive service.

(b) *Appointment of United States citizens recruited overseas.* The Commission hereby delegates to agencies, subject to prior agreement between the agency and the Commission, authority to give overseas limited appointments to United States citizens recruited overseas, unless there is an adequate and appro-

FEDERAL REGISTER

Published daily, except Sundays, Mondays, and days following official Federal holidays, by the Federal Register Division, National Archives and Records Service, General Services Administration, pursuant to the authority contained in the Federal Register Act, approved July 26, 1935 (49 Stat. 500, as amended; 44 U. S. C., ch. 8B), under regulations prescribed by the Administrative Committee of the Federal Register, approved by the President. Distribution is made only by the Superintendent of Documents, Government Printing Office, Washington 25, D. C.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $1.50 per month or $15.00 per year, payable in advance. The charge for individual copies (minimum 15 cents) varies in proportion to the size of the issue. Remit check or money order, made payable to the Superintendent of Documents, directly to the Government Printing Office, Washington 25, D. C.

The regulatory material appearing herein is keyed to the CODE OF FEDERAL REGULATIONS, which is published, under 50 titles, pursuant to section 11 of the Federal Register Act, as amended August 5, 1953. The CODE OF FEDERAL REGULATIONS is sold by the Superintendent of Documents. Prices of books and pocket supplements vary.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER, or the CODE OF FEDERAL REGULATIONS.

CFR SUPPLEMENTS
(For use during 1955)

The following Supplement is now available:

General Index ($1.25)

All of the Cumulative Pocket Supplements and revised books of the Code of Federal Regulations (as of January 1, 1955) are now available with the exception of Titles 1–3

Order from Superintendent of Documents, Government Printing Office, Washington 25, D. C.

priate register of eligibles resulting from an examination held in the locality where the vacancy exists.

(c) *Appointment of citizens recruited in the United States.* When the Commission determines that unusual or emergency conditions exist so that it is not feasible to appoint from a civil service register, it may authorize agencies to give overseas limited appointments to United States citizens recruited within the continental limits of the United States.

(d) *Duration of appointment.* (1) Persons appointed to continuing positions under this section shall be given overseas limited appointments of indefinite duration.

(2) When there is work of a temporary nature at the completion of which the services of an additional employee will not be required, overseas limited appointments shall be made for periods not to exceed one year. Such appointments, when made for periods of less than one year, may be extended for a period or periods not extending beyond one year from the date of the initial appointment.

(e) *Status and trial period.* Persons appointed under this section shall not thereby acquire a competitive status. They shall be required to serve a trial period of one (1) year when given overseas limited appointments of indefinite duration.

(f) *Requirements and restrictions.* The requirements and restrictions in § 2.302 (c), (d), and (e) shall be applied to all appointments under this section.

(g) *Salary step increases.* Employees serving under overseas limited appointments of indefinite duration in positions within the scope of the compensation schedules of the Classification Act of 1949, as amended, shall be eligible for periodic step increases in accordance with Subpart A of Part 25 of this chapter.

• • • • •

§ 2.501 *Agency authority*—(a) *Position change.* The Commission hereby delegates authority to agencies: • • •

(3) To promote, demote, or reassign employees serving under overseas limited appointment of indefinite duration to other positions to which initial appointments under § 2.308 are authorized.

• • • • •

§ 2.502 *Restrictions on position change or transfer to a higher grade or different line of work.* • • •

(b) *Applicability of restrictions.* (1) The restrictions on promotion in the following paragraphs shall also apply to transfer to a higher grade and appointment and reemployment at a higher grade within one (1) year after separation from any nontemporary appointment.

• • • • •

3. Section 6.101 (h) is amended as follows:

§ 6.101 *Entire executive civil service.* • • •

(h) Any position in a foreign country, or beyond the continental limits of the United States, when in the opinion of the Commission, appointment through competitive examination is impracticable, except as provided in paragraph (i) of this section, and except: Positions in Alaska, Hawaii, Puerto Rico, and the Virgin Islands; in the Immigration and Naturalization Service, all positions in Canada and Mexico, and continuing positions at GS–7 and above in Cuba; positions in the Bureau of Customs, Treasury Department, in foreign countries; General Accounting Office positions in foreign countries; positions in the International Field Offices of the Civil Aeronautics Administration, Department of Commerce; technical positions in foreign countries in the Internal Revenue Service, Treasury Department; positions in the Department of Defense, Army, Navy, and Air Force.

NOTE: The provisions for positions in the Departments of Defense, Army, Navy, and Air Force, is effective April 1, 1956.

4a. Section 9.102 (a) is amended as set out below.

§ 9.102 *Procedure in separating, suspending, or demoting employees.* (a) One of the following procedures shall be followed in connection with the removal, involuntary separation (except retirement for age or disability), furlough in excess of thirty (30) days, suspension, or involuntary demotion of any career, career-conditional, overseas limited of indefinite duration, or indefinite employee in a competitive position who is not serving a probationary or trial period, or any employee having a competitive status who occupies a position in Schedule B. The procedural requirements of this section shall not apply to any employee who is removed pursuant to instructions of the Commission.

b. Section 9.105 (a) is amended as set out below.

§ 9.105 *Procedure in displacing temporary, indefinite, and overseas limited employees.*

(a) Agencies shall separate temporary, indefinite, and overseas limited employees (classified in Tenure Group III under § 20.4 of this chapter) in response to a specific displacement order by the Commission or to comply with the provisions of the Commission's program to place separated career employees.

5a. Section 11.101 (a) and (c) is revised as follows:

§ 11.101 *Agency authority and general requirements for promotion, demotion, or reassignment of status quo and indefinite employees.* (a) The Commission hereby delegates authority to agencies to promote, demote, or reassign (1) status quo employees and (2) employees serving under indefinite appointments in competitive positions, subject to the restrictions on promotion in § 2.502 of this chapter. This authority shall not be used to move employees (1) from positions in which initial overseas limited appointments are authorized, to other positions, or (2) to positions in which initial overseas limited appointments are authorized from other positions.

• • • • •

(c) (1) Except for status quo employees who are serving overseas, the promotion, demotion, or reassignment of a status quo employee shall be indefinite unless he is changed back to his status quo position.

(2) A status quo employee serving overseas who is promoted, demoted, or reassigned shall have the tenure of an overseas limited employee unless he is changed back to his status quo position.

b. Section 11.201 (a) is revised as follows:

§ 11.201 *Agency authority and general requirements for noncompetitive indefinite appointments.* (a) The Commission hereby delegates authority to agencies to employ present or former indefinite Federal employees by noncompetitive indefinite appointment, subject to the following conditions:

(1) A present or former Federal employee without competitive status who last served under indefinite appointment in a competitive position and who has received a notice of separation because of reduction in force may be appointed in any agency, if he is selected not later than ninety (90) days after separation because of reduction in force.

(2) A former Federal employee without a competitive status who entered the military service while serving under an indefinite appointment in a competitive position may be appointed in any agency, if he is selected within ninety (90) days after his honorable separation from military service.

(3) A present or former Federal employee without competitive status who last served under indefinite appointment in a competitive position may be appointed in any agency, if he is unable to move with his office to a different locality and if he is selected for appointment after notification that the office is to move but not later than ninety (90) days after separation because of inability to move with his office.

This authority shall not be used for appointment to positions in which initial overseas limited appointments are authorized.

(R. S. 1753; sec. 2, 22 Stat. 403, as amended; 5 U. S. C. 631, 633)

6. Section 22.102 (a) is amended as set out below.

§ 22.102 *Employee coverage*—(a) *Employees covered.* The regulations in this part shall apply to any career, career-conditional, overseas limited or indefinite employee who has completed a probationary or trial period in a position in the competitive service, or to any employee who has completed one year of current continuous employment in a position outside the competitive service. Such employment may be in the service of any establishment, agency, bureau, administration, project, or department created by acts of Congress or Presidential order or in the service of the District of Columbia.

(Secs. 11, 19, 58 Stat. 390, 391; 5 U. S. C. 860, 868. Interpret or apply sec. 14, 58 Stat. 390, as amended; 5 U. S. C. 863)

UNITED STATES CIVIL SERVICE COMMISSION,
[SEAL] WM. C. HULL,
Executive Assistant.

TITLE 7—AGRICULTURE

Chapter VII—Commodity Stabilization Service (Farm Marketing Quotas and Acreage Allotments), Department of Agriculture

[Amdt. 1]

PART 722—COTTON

1956 CROP OF EXTRA LONG STAPLE COTTON; COUNTY ACREAGE ALLOTMENT

Basis and purpose. The purpose of this amendment is to establish the county acreage allotments for the 1956 crop of extra long staple cotton pursuant to sections 344 (e) and 347 (c) of the Agricultural Adjustment Act of 1938, as amended. Notice of the proposed establishment of such allotments was given on August 31, 1955 (20 F. R. 6388), pursuant to section 4 of the Administrative Procedure Act (5 U. S. C. 1003), and in the regulations issued pursuant to said notice it was provided in § 722.1316 (e) that that paragraph would be amended at a later date to include the county acreage allotment established for each county. Furthermore, farmers engaged in the production of extra long staple cotton in 1955 will determine in a

referendum to be held on December 13, 1955, whether marketing quotas will be in effect on the 1956 crop of extra long staple cotton. In order that county acreage allotments may be apportioned to farms and notices of individual farm acreage allotments mailed, insofar as practicable, so as to be received by farmers prior to the referendum, as required by section 362 of the Agricultural Adjustment Act of 1938, as amended, it is essential that this amendment be made effective as soon as possible. Accordingly, it is hereby determined and found that compliance with the notice and public procedure thereon and the 30-day effective date requirements of section 4 of the Administrative Procedure Act is impracticable, unnecessary, and contrary to the public interest, and the county acreage allotments contained herein shall be effective upon filing of this document with the Director, Division of the Federal Register.

Section 722.1316 (e) of the Regulations Pertaining to Acreage Allotments for the 1956 Crop of Extra Long Staple Cotton to States, Counties, and Farms (20 F. R. 8621) is amended to read as follows:

(e) *County acreage allotment.* The county acreage allotment shall be the sum of (1) the computed county acreage allotment determined under paragraph (b) of this section and (2) the acreages which are added to the computed county acreage allotment under subparagraphs (1) and (2) of paragraph (c) of this section. The county acreage allotment for each county is set out below. The amount of the acreage reserved by each county committee pursuant to § 722.1317 (b) is available for inspection by any interested person at the office of the county committee.

ARIZONA	*County allotments*
County:	
Cochise	68
Graham [1]	4,736
Maricopa	7,695

b. State acreage reserve for small farms, for new farms, for inequities, and for hardship cases	0
c. State allotment	18,433

[1] Indicates that the county acreage allotment will be apportioned among farms on the cropland basis in accordance with § 722.1317 (c). For all other counties listed in this paragraph, the Deputy Administrator has approved the recommendation of the county committee that the county acreage allotment be apportioned among farms on the historical basis in accordance with section 722.1317 (d). This paragraph may be amended at a later date to show changes in the method to be used by county committees in apportioning the county acreage allotment to farms.

PART 723—CIGAR-FILLER TOBACCO, AND CIGAR-FILLER AND BINDER TOBACCO

PROCLAMATIONS AND DETERMINATIONS

Proclamation of the national marketing quotas for cigar-filler tobacco for the 1956–57, 1957–58 and 1958–59 marketing years; announcement of the amounts of the national marketing quotas for cigar-filler tobacco and for cigar-filler and binder tobacco for the 1956–57 marketing year; and apportionment of the quotas for the 1956–57 marketing year among the several states.

Sec.
723.701 Basis and purpose.
723.702 Findings and determinations with respect to the national marketing quota for cigar-filler tobacco for the marketing year beginning October 1, 1956.
723.703 Findings and determinations with respect to the national marketing quota for cigar-filler and cigar-binder tobacco for the marketing year beginning October 1, 1956.

AUTHORITY: §§ 723.701 to 723.703 issued under sec. 375, 52 Stat. 66, 7 U. S. C. 1375. Interpret or apply secs. 301, 312, 313, 52 Stat. 38, as amended; 7 U. S. C. 1301, 1312, 1313.

§ 723.701 *Basis and purpose.* (a) Sections 723.701 to 723.703 are issued to announce the reserve supply level and the total supply of cigar-filler tobacco and cigar-filler and cigar-binder tobacco (exclusive of type 46 which has been designated (15 F. R. 8214) as a separate kind of tobacco) for the marketing year beginning October 1, 1955; to proclaim national marketing quotas for cigar-filler tobacco for the three succeeding marketing years beginning October 1, 1956; to establish the amounts of the national marketing quotas for cigar-filler tobacco and cigar-filler and cigar-binder tobacco for the marketing year beginning October 1, 1956; to establish the amounts of the national marketing quotas for cigar-filler tobacco and cigar-filler and cigar-binder tobacco for the marketing years beginning October 1, 1956, and to apportion the quotas among the several States. The findings and determinations by the Secretary contained in §§ 723.702 and 723.703 have been made on the basis of the latest available statistics of the Federal Government, and after due consideration of data, views, and recommendations received from cigar-filler tobacco and cigar-filler and cigar-binder tobacco producers and others as provided in a notice (20 F. R. 7918) given in accordance with the Administrative Procedure Act (5 U. S. C. 1003).

(b) Since the Agricultural Adjustment Act of 1938, as amended, requires the holding of a referendum of cigar-filler tobacco producers within 30 days after the issuance of a proclamation of the national marketing quotas for cigar-filler tobacco for the 1956–57, 1957–58, and 1958–59 marketing years to determine whether such producers favor marketing quotas and requires, insofar as practical, the mailing of notices of farm acreage allotments for the 1956–57 marketing year to farm operators prior to the date of the referendum, it is hereby found that compliance with the 30-day effective date provision of section 4 of the Administrative Procedure Act with respect to cigar-filler tobacco is impracticable and contrary to the public interest. Therefore, the proclamation of quotas and the announcement and apportionment of the national marketing quota for cigar-filler tobacco contained herein shall become effective upon the date of filing with the Director, Division of the Federal Register.

§ 723.702 *Findings and determinations with respect to the amount of the national marketing quota for cigar-filler tobacco for the marketing year beginning October 1, 1956* [1]—(a) *Reserve supply level.* The reserve supply level for cigar-filler tobacco is 138,800,000 pounds, calculated, as provided in the Agricultural Adjustment Act of 1938, as amended, from a normal year's domestic consumption of 47,500,000 pounds and a normal year's exports of 1,000,000 pounds.

(b) *Total supply.* The total supply of cigar-filler tobacco for the marketing year beginning October 1, 1955, is 153,400,000 pounds consisting of carryover of 112,900,000 pounds and estimated 1955 production of 40,500,000 pounds.

(c) *Carryover.* The estimated carryover of cigar-filler tobacco at the beginning of the marketing year for such tobacco beginning October 1, 1956, is 104,400,000 pounds calculated by subtracting the estimated disappearance for the marketing year beginning October 1, 1955, of 49,000,000 pounds from the total supply of such tobacco.

(d) *National marketing quota.* The marketing quota for cigar-filler tobacco previously proclaimed for the 1955–56 marketing year was disapproved by producers voting in a referendum, and national marketing quotas for the 1956–57, 1957–58, and 1958–59 marketing years are hereby proclaimed. The amount of cigar-filler tobacco which will make available during the marketing year beginning October 1, 1956, a supply of cigar-filler tobacco equal to the reserve supply level of such tobacco is 34,400,000 pounds and a national marketing quota of such amount is hereby proclaimed. It is determined, however, that a national marketing quota in the amount of 34,400,000 pounds would be inadequate to meet market demands during the 1956–57 marketing year and such amount is hereby increased by 10 percent. Therefore, the amount of the national marketing quota for cigar-filler tobacco which may be marketed during the marketing year beginning October 1, 1956, is 37,800,000 pounds.

(e) *Apportionment of the quota.* The national marketing quota proclaimed in paragraph (d) of this section is hereby apportioned among the several States pursuant to section 313 (a) of the Agricultural Adjustment Act of 1938, as amended, and converted into State acreage allotments in accordance with section 313 (g) of the act as follows:

State:	*Acreage allotment*
Kentucky	2
Maryland	1
Pennsylvania	24,328
Reserve [1]	246

[1] Acreage reserved for establishing allotments for new farms.

§ 723.703 *Findings and determinations with respect to the amount of the national marketing quota for cigar-filler and cigar-binder tobacco for the year beginning October 1, 1956* [1]—(a) *Reserve supply level.* The reserve supply level for cigar-filler and cigar-binder tobacco (exclusive of type 46 which has been designated (15 F. R. 8214) as a separate kind of tobacco) is 187,100,000 pounds, calculated, as provided in the Agricultural Adjustment Act of 1938, as amended, from a normal year's domestic consumption of 63,000,000 pounds and a normal year's exports of 3,000,000 pounds.

(b) *Total supply.* The total supply of cigar-filler and cigar-binder tobacco (exclusive of type 46) for the marketing year beginning October 1, 1955, is 192,900,000 pounds consisting of carryover of 139,800,000 pounds and estimated 1955 production of 53,100,000 pounds.

(c) *Carryover.* The estimated carryover of cigar-filler and cigar-binder tobacco (exclusive of type 46) at the beginning of the marketing year for such tobacco beginning October 1, 1956, is 131,100,000 pounds calculated by subtracting the estimated disappearance for the marketing year beginning October 1, 1955, of 61,800,000 pounds from the total supply of such tobacco.

(d) *National marketing quota.* The amount of cigar-filler and cigar-binder tobacco (exclusive of type 46) which will make available during the marketing year beginning October 1, 1956, a supply of cigar-filler and cigar-binder tobacco equal to the reserve supply level of such tobacco is 56,000,000 pounds, and a national marketing quota of such amount is hereby proclaimed. It is determined, however, that a national marketing quota in the amount of 56,000,000 pounds would be inadequate to meet market demands during the 1956–57 marketing year and such amount is hereby increased by 10 percent. Therefore, the amount of the national marketing quota for cigar-filler and cigar-binder tobacco (exclusive of type 46) in terms of the total quantity of such tobacco which may be marketed during the marketing year beginning October 1, 1956, is 61,600,000 pounds.

(e) *Apportionment of the quota.* The national marketing quota proclaimed in paragraph (d) of this section is hereby apportioned among the several States pursuant to section 313 (a) of the Agricultural Adjustment Act of 1938, as amended, and converted into State acreage allotments in accordance with section 313 (g) of the act as follows:

State:	*Acreage allotment*
Connecticut	10,149
Illinois	8
Indiana	2
Iowa	8
Massachusetts	5,136
Minnesota	253
New Hampshire	1
New York	191
Ohio	5,051
Pennsylvania	330
Vermont	8
Wisconsin	17,822
Reserve [1]	394

[1] Acreage reserved for establishing allotments for new farms.

Done at Washington, D. C., this 30th day of November 1955. Witness my hand and the seal of the Department of Agriculture.

[SEAL] TRUE D. MORSE,
Acting Secretary of Agriculture.

[F. R. Doc. 55-9690; Filed, Nov. 30, 1955; 12:30 p. m.]

PART 725—BURLEY AND FLUE-CURED TOBACCO

PROCLAMATIONS AND DETERMINATIONS

Proclamation of national marketing quotas for Burley tobacco for the 1956–57, 1957–58, and 1958–59 marketing years; announcement of the amount of the national marketing quota for Burley tobacco for the 1956–57 marketing year; and apportionment of the national marketing quota for Burley tobacco for the 1956–57 marketing year among the several States.

§ 725.705 *Basis and purpose.* (a) Sections 725.705 to 725.706 are issued (1) to proclaim national marketing quotas for Burley tobacco for the 1956–57, 1957–58 and 1958–59 marketing year; (2) to announce the reserve supply level and the total supply of Burley tobacco for the marketing year beginning October 1, 1955; (3) to establish the amount of the national marketing quota for Burley tobacco for the marketing year beginning October 1, 1956; and (4) to apportion the national marketing quota for

[1] Rounded to the nearest tenth of a million pounds.

Burley tobacco for the 1956–57 marketing year among the several States. The findings and determinations contained in §§ 725.705 to 725.706 have been made on the basis of the latest available statistics of the Federal Government, and after due consideration of data, views, and recommendations received from Burley tobacco producers and others as provided in a notice (20 F. R. 7918) given in accordance with the Administrative Procedure Act (5 U. S. C. 1003).

(b) Since the Agricultural Adjustment Act of 1938, as amended, requires the holding of a referendum of Burley tobacco producers within 30 days after the issuance of the proclamation of national marketing quotas for Burley tobacco for the 1956–57, 1957–58 and 1958–59 marketing years to determine whether such producers favor marketing quotas and requires, insofar as practical, the mailing of notices of farm acreage allotments for the 1956–57 marketing year to farmers prior to the date of the referendum, it is hereby found that compliance with the 30-day effective date provision of the Administrative Procedure Act is impractical and contrary to the public interest. Therefore the proclamation of national marketing quotas and the announcement and apportionment of the national marketing quota for Burley tobacco for the 1956–57 marketing year contained herein shall become effective upon the date of filing with the Director, Division of the Federal Register.

§ 725.706 *Findings and determinations with respect to the national marketing quota for Burley tobacco for the marketing year beginning October 1, 1956*[1]—(a) *Reserve supply level.* The reserve supply level for Burley tobacco is 1,606,000,000 pounds, calculated, as provided in the Agricultural Adjustment Act of 1938, as amended, from a normal year's domestic consumption of 535,000,000 pounds and a normal year's exports of 36,000,000 pounds.

(b) *Total supply.* The total supply of Burley tobacco for the marketing year beginning October 1, 1955, is 1,868,000,000 pounds consisting of carryover of 1,348,000,000 pounds and estimated 1955 production of 520,000,000 pounds.

(c) *Carryover.* The estimated carryover of Burley tobacco at the beginning of the marketing year for such tobacco beginning October 1, 1956, is 1,302,000,000 pounds calculated by subtracting the estimated disappearance for the marketing year beginning October 1, 1955, of 566,000,000 pounds from the total supply of such tobacco.

(d) *National marketing quota.* The 1955–56 marketing year is the last year of three consecutive years for which marketing quotas previously proclaimed for Burley tobacco will be in effect and therefore marketing quotas for the 1956–57, 1957–58 and 1958–59 marketing quotas for Burley tobacco are hereby proclaimed. The amount of Burley tobacco which will make available during the marketing year beginning October 1, 1956, a supply of Burley tobacco equal to the reserve supply level of such tobacco is 304,000,000 pounds and a national marketing quota of such amount is hereby proclaimed. It is determined, however, that a national marketing quota in the amount of 304,000,000 pounds would result in undue restriction of marketings during the 1956–57 marketing year and such amount is hereby increased by 20 percent. Therefore, the amount of the national marketing quota for Burley tobacco in terms of the total quantity of such tobacco which may be marketed during the marketing year beginning October 1, 1956, is 365,000,000 pounds.

(e) *Apportionment of the quota.* The national marketing quota proclaimed in paragraph (d) of this section is hereby apportioned among the several States pursuant to section 313 (a) of the Agricultural Adjustment Act of 1938, as amended, and converted into State acreage allotments in accordance with section 313 (g) of the act as follows:

State:	*Acreage allotment*
Alabama	25
Arkansas	44
Georgia	74
Illinois	5
Indiana	6,606
Kansas	81
Kentucky	170,444
Missouri	2,721
North Carolina	8,588
Ohio	8,493
Oklahoma	4
Pennsylvania	2
South Carolina	4
Tennessee	53,861
Texas	1
Virginia	9,322
West Virginia	2,422
Reserve[1]	658

[1] Acreage reserved for establishing allotments for new farms.

(Sec. 375, 52 Stat. 66; 7 U. S. C. 1375. Interprets or applies secs. 301, 312, 313, 52 Stat. 38, as amended; 7 U. S. C. 1301, 1312, 1313)

Done at Washington, D. C., this 30th day of November 1955. Witness my hand and the seal of the Department of Agriculture.

[SEAL] TRUE D. MORSE,
Acting Secretary of Agriculture.

[1] Rounded to the nearest million pounds.

PART 726—FIRE-CURED, DARK AIR-CURED, AND VIRGINIA SUN-CURED TOBACCO

PROCLAMATIONS AND DETERMINATIONS

Proclamation of national marketing quotas for Virginia sun-cured tobacco for the 1956–57, 1957–58 and 1958–59 marketing years; announcement of the amounts of the national marketing quotas for fire-cured, dark air-cured, and Virginia sun-cured tobacco for the 1956–57 marketing year; and apportionment of the quotas for the 1956–57 marketing year.

Sec.
726.701 Basis and purpose.
726.702 Findings and determinations with respect to the national marketing quota for fire-cured tobacco for the marketing year beginning October 1, 1956.
726.703 Findings and determinations with respect to the national marketing quota for dark air-cured tobacco for the marketing year beginning October 1, 1956.
726.704 Findings and determinations with respect to the national marketing quota for Virginia sun-cured tobacco for the marketing year beginning October 1, 1956.

AUTHORITY: §§ 726.701 to 726–704 issued under sec. 375, 52 Stat. 66, 7 U. S. C. 1375. Interpret or apply secs. 301, 312, 313, 52 Stat. 38, as amended, 7 U. S. C. 1301, 1312, 1313.

§ 726.701 *Basis and purpose.* (a) Sections 726.701 to 726.704 are issued (1) to proclaim national marketing quotas for Virginia sun-cured tobacco for the 1956–57, 1957–58 and 1958–59 marketing years; (2) to announce the reserve supply level and the total supply of fire-cured tobacco, dark air-cured tobacco, and Virginia sun-cured tobacco for the marketing year beginning October 1, 1955; (3) to establish the amounts of the national marketing quotas for fire-cured, dark air-cured, and Virginia sun-cured tobacco for the marketing year beginning October 1, 1956; and (4) to apportion the national marketing quotas for the 1956–57 marketing year among the several States. The findings and determinations contained in §§ 726.702 to 726.704 have been made on the basis of the latest available statistics of the Federal Government, and after due consideration of the data, views, and recommendations received from fire-cured, dark air-cured, and Virginia sun-cured tobacco producers and others as provided in a notice (20 F. R. 7918) given in accordance with the Administrative Procedure Act (5 U. S. C. 1003).

(b) Since the Agricultural Adjustment Act of 1938, as amended, requires the holding of a referendum of Virginia sun-cured tobacco producers within 30 days after the issuance of the proclamation of national marketing quotas for Virginia sun-cured tobacco for the 1956–57, 1957–58 and 1958–59 marketing years to determine whether such producers favor marketing quotas and requires, insofar as practicable, the mailing of notices of farm acreage allotments for the 1956–57 marketing year to farm operators prior to the date of the referendum, it is hereby found that compliance with the 30-day effective date provision of the Administrative Procedure Act with respect to Virginia sun-cured tobacco is impractical and contrary to the public interest. Therefore, the proclamation of quotas and the announcement and apportionment of the quota for Virginia sun-cured tobacco for the 1956–57 marketing year contained herein shall become effective upon the date of filing with the Director, Division of the Federal Register.

§ 726.702 *Findings and determinations with respect to the amount of the national marketing quota for fire-cured tobacco for the marketing year beginning October 1, 1956*[1]—(a) *Reserve supply level.* The reserve supply level for fire-cured tobacco is 172,600,000 pounds calculated as provided in the Agricultural Adjustment Act of 1938, as amended, from a normal year's domestic consumption of 37,000,000 pounds and a normal year's exports of 38,000,000 pounds.

(b) *Total supply.* The total supply of fire-cured tobacco for the marketing year beginning October 1, 1955, is 202,000,000 pounds consisting of carryover of 137,200,000 pounds and estimated 1955 production of 64,800,000 pounds.

(c) *Carryover.* The estimated carryover of fire-cured tobacco at the beginning of the marketing year for such tobacco beginning October 1, 1956, is 131,700,000 pounds calculated by subtracting the estimated disappearance for the marketing year beginning October 1, 1955, of 70,300,000 pounds from the total supply of such tobacco.

(d) *National marketing quota.* The amount of fire-cured tobacco which will make available during the marketing year beginning October 1, 1956, a supply of fire-cured tobacco equal to the reserve supply level of such tobacco is 40,900,000 pounds and a national marketing quota of such amount is hereby proclaimed. It is determined, however, that a national marketing quota in the amount of 40,900,000 pounds would result in undue restriction of marketings during the 1956–57 marketing year and such amount is hereby increased by 20 percent. Therefore, the amount of the national marketing quota for fire-cured tobacco in terms of the total quantity of such tobacco which may be marketed during the marketing year beginning October 1, 1956, is 49,100,000 pounds.

(e) *Apportionment of the quota.* The national marketing quota proclaimed in paragraph (d) of this section is hereby apportioned among the several States pursuant to section 313 (a) of the Agricultural Adjustment Act of 1938, as amended, and converted into State acreage allotments in accordance with section 313 (g) of the act as follows:

State:	*Acreage allotment*
Illinois	1
Kentucky	16,174
Tennessee	18,177
Virginia	8,296
Reserve[1]	107

[1] Acreage reserved for establishing allotments for new farms.

§ 726.703 *Findings and determinations with respect to the amount of the national marketing quota for dark air-cured tobacco for the marketing year beginning October 1, 1956*[1]—(a) *Reserve supply level.* The reserve supply for dark air-cured tobacco is 87,800,000 pounds calculated as provided in the Agricultural Adjustment Act of 1938, as amended, from a normal year's domestic consumption of 25,000,000 pounds and a normal year's exports of 9,000,000 pounds.

[1] Rounded to the nearest tenth of a million pounds.

(b) *Total supply.* The total supply of dark air-cured tobacco for the marketing year beginning October 1, 1955, is 107,100,000 pounds consisting of carryover of 76,800,000 pounds and estimated 1955 production of 30,300,000 pounds.

(c) *Carry-over.* The estimated carry-over of dark air-cured tobacco at the beginning of the marketing year for such tobacco beginning October 1, 1956, is 71,200,000 pounds calculated by subtracting the estimated disappearance for the marketing year beginning October 1, 1955, of 35,900,000 pounds from the total supply of such tobacco.

(d) *National marketing quota.* The amount of dark air-cured tobacco which will make available during the marketing year beginning October 1, 1956, a supply of dark air-cured tobacco equal to the reserve supply level of such tobacco is 16,600,000 pounds and a national marketing quota of such amount is hereby proclaimed. It is determined, however, that a national marketing quota in the amount of 16,600,000 pounds would result in undue restriction of marketings during the 1956–57 marketing year and such amount is hereby increased by 20 percent. Therefore, the amount of the national marketing quota for dark air-cured tobacco in terms of the total quantity of such tobacco which may be marketed during the marketing year beginning October 1, 1956, is 19,900,000 pounds.

(e) *Apportionment of the quota.* The national marketing quota proclaimed in paragraph (d) of this section is hereby apportioned among the several States pursuant to section 313 (a) of the Agricultural Adjustment Act of 1938, as amended, and converted into State acreage allotments in accordance with section 313 (g) of the act as follows:

State:	*Acreage allotment*
Kentucky	14,192
Tennessee	2,390
Indiana	50
Reserve[1]	42

[1] Acreage reserved for establishing allotments for new farms.

§ 726.704 *Findings and determinations with respect to the national marketing quota for Virginia sun-cured tobacco for the marketing year beginning October 1, 1956*[1]—(a) *Reserve supply level.* The reserve supply level for Virginia sun-cured tobacco is 10,141,000 pounds calculated as provided in the Agricultural Adjustment Act of 1938, as amended, from a normal year's domestic consumption of 3,200,000 pounds and a normal year's exports of 520,000 pounds.

(b) *Total supply.* The total supply of Virginia sun-cured tobacco for the marketing year beginning October 1, 1955, is 8,223,000 pounds consisting of a carryover of 4,128,000 pounds and estimated 1955 production of 4,095,000 pounds.

(c) *Carry-over.* The estimated carryover of Virginia sun-cured tobacco at the beginning of the marketing year for such tobacco beginning October 1, 1956, is 4,541,000 pounds calculated by subtracting the estimated disappearance for the marketing year beginning October 1, 1955, of 3,682,000 pounds from the total supply of such tobacco.

(d) *National marketing quota.* The 1955–56 marketing year is the last year of three consecutive years for which marketing quotas previously proclaimed for Virginia sun-cured tobacco will be in effect and therefore marketing quotas for the 1956–57, 1957–58 and 1958–59 marketing years are hereby proclaimed. The amount of Virginia sun-cured tobacco which will make available during the marketing year beginning October 1, 1956, a supply of Virginia sun-cured tobacco equal to the reserve supply level of such tobacco is 5,600,000 pounds and a national marketing quota of such amount is hereby proclaimed.

(e) *Apportionment of the quota.* Since Virginia sun-cured tobacco is grown only in the State of Virginia, the quota is apportioned only to that State under section 313 (a) of the Agricultural Adjustment Act of 1938, as amended. The national marketing quota proclaimed in paragraph (d) of this section, less 14,000 pounds reserved for establishing allotments for farms upon which no Virginia sun-cured tobacco has been grown within the past five years, becomes the State marketing quota for Virginia. The State marketing quota is hereby converted in accordance with section 313 (g) of the act into a State acreage allotment of 5,525 acres. Likewise, the reserve of 14,000 pounds for establishing allotments for new farms is hereby converted into 14 acres.

Done at Washington, D. C., this 30th day of November, 1955. Witness my hand and the seal of the Department of Agriculture.

[SEAL] TRUE D. MORSE,
Acting Secretary of Agriculture.

[1] Rounded to nearest thousand pounds.

PART 727—MARYLAND TOBACCO

PROCLAMATIONS AND DETERMINATIONS

Proclamation of national marketing quotas for Maryland tobacco for the 1956–57, 1957–58 and 1958–59 marketing years; announcement of the amount of the national marketing quota for Maryland tobacco for the 1956–57 marketing year; and apportionment of the quota for the 1956–57 marketing year among the several states.

§ 727.701 *Basis and purpose.* (a) Sections 727.701 and 727.702 are issued to announce the reserve supply level and the total supply of Maryland tobacco for the marketing year beginning October 1, 1955; to proclaim national marketing quotas for Maryland tobacco for the three succeeding marketing years beginning October 1, 1956; to establish the amount of the national marketing quota for Maryland tobacco for the marketing year beginning October 1, 1956; and to apportion such quota among the several States. The findings and determinations by the Secretary contained in § 727.702 have been made on the basis of the latest available statistics of the Federal Government, and after due con-

sideration of data, views, and recommendations received from Maryland tobacco producers and others as provided in a notice (20 F. R. 7918) given in accordance with the Administrative Procedure Act (5 U. S. C. 1003).

(b) Since the Agricultural Adjustment Act of 1938, as amended, requires the holding of a referendum of Maryland tobacco producers within 30 days after the issuance of the proclamation of national marketing quotas for the 1956–57, 1957–58 and 1958–59 marketing years to determine whether such producers favor marketing quotas and requires, insofar as practicable, the mailing of notices of farm acreage allotments for the 1956–57 marketing year to farm operators prior to the date of the referendum, it is hereby found that compliance with the 30-day effective date provision of the Administrative Procedure Act is impracticable and contrary to the public interest. Therefore, the proclamation of national marketing quotas and the announcement and apportionment of the quota for the 1956–57 marketing year contained herein shall become effective upon the date of filing with the Director, Division of the Federal Register.

§ 727.702 *Findings and determinations with respect to the amount of the national marketing quota for Maryland tobacco for the marketing year beginning October 1, 1956*[1]—(a) *Reserve supply level.* The reserve supply level for Maryland tobacco is 104,200,000 pounds, calculated, as provided in the Agricultural Adjustment Act of 1938, as amended, from a normal year's domestic consumption of 31,000,000 pounds and a normal year's export of 8,500,000 pounds.

(b) *Total supply.* The total supply of Maryland tobacco for the marketing year beginning October 1, 1955, is 111,200,000 pounds consisting of carryover of 75,500,000 pounds and estimated 1955 production of 35,700,000 pounds.

(c) *Carryover.* The estimated carryover of Maryland tobacco on January 1, 1957, is 72,600,000 pounds calculated by subtracting the estimated disappearance for the marketing year beginning October 1, 1955, of 38,600,000 pounds from the total supply of such tobacco.

(d) *National marketing quota.* The marketing quota previously proclaimed for Maryland tobacco for the 1955–56 marketing year is not in effect because of disapproval by producers in a referendum, and marketing quotas for the 1956–57, 1957–58 and 1958–59 marketing years are hereby proclaimed. The amount of Maryland tobacco which will make available during the marketing year, beginning October 1, 1956, a supply of Maryland tobacco equal to the reserve supply level of such tobacco is 31,600,000 pounds, and a national marketing quota of such amount is hereby proclaimed. It is determined, however, that a national marketing quota in the amount of 31,600,000 pounds would be inadequate to meet market demands during the 1956–57 marketing year and such amount is hereby increased by 20 percent. Therefore, the amount of the national marketing quota for Maryland tobacco in terms of the total quantity of tobacco which may be marketed during the marketing year beginning October 1, 1956, is 37,900,000 pounds.

(e) *Apportionment of the quota.* The national marketing quota proclaimed in paragraph (d) of this section is hereby apportioned among the several States pursuant to section 313 (a) of the Agricultural Adjustment Act of 1938, as amended, and converted into State acreage allotments in accordance with section 313 (g) of the act as follows:

State:	Acreage allotment
Maryland	45,629
Virginia	28
Delaware	1
Reserve[1]	115

[1] Acreage reserved for establishing allotments for new farms.

(Sec. 375, 52 Stat. 66, as amended; 7 U. S. C. 1375. Interprets or applies secs. 301, 312, 313, 52 Stat. 38, as amended; 7 U. S. C. 1301, 1312, 1313)

Done at Washington, D. C., this 30th day of November 1955. Witness my hand and the seal of the Department of Agriculture.

[SEAL] TRUE D. MORSE,
Acting Secretary of Agriculture.

TITLE 14—CIVIL AVIATION

Chapter I—Civil Aeronautics Board

[Civil Air Regs., Amdt. 40–20]

PART 40—SCHEDULED INTERSTATE AIR CARRIER CERTIFICATION AND OPERATION RULES

EMERGENCY AND EVACUATION EQUIPMENT AND PROCEDURES

Adopted by the Civil Aeronautics Board at its office in Washington, D. C., on the 28th day of November 1955.

Currently effective provisions of Part 40 of the Civil Air Regulations contain certain requirements for emergency and evacuation equipment and procedures. This amendment requires air carriers operating pursuant to Part 40 to make certain additional provisions with respect to emergency and evacuation equipment and procedures.

The necessity for these additional provisions was indicated following the Board's investigation of several air carrier accidents and they have been under consideration for some time. These matters were the substance of a notice of proposed rule making which was published in the FEDERAL REGISTER (17 F. R. 8022) and circulated as Civil Air Regulations Draft Release No. 52–26 dated August 29, 1952. As a result of comment received, it appeared desirable to arrange a meeting with representatives of industry to discuss particular issues. Such a meeting was held in Washington, D. C., on November 25, 1952, at which the general intent of each proposal was thoroughly discussed and specific changes in the wording of the rules were proposed.

As a result of comment received in response to Draft Release No. 52–26 and the discussions at the subsequent industry meeting, the proposals were revised and a new notice of proposed rule making was published in the FEDERAL REGISTER (18 F. R. 4744) and circulated as Civil Air Regulations Draft Release No. 53–15 dated August 10, 1953. Since a substantial lapse of time occurred following the issuance of Draft Release No. 53–15, and because of the changes made as a result of comment received on the revised proposals, the Board decided to publish the proposed rules again prior to taking any final action. Accordingly, the proposed rules were published in the FEDERAL REGISTER (20 F. R. 1016) and circulated as Civil Air Regulations Draft Release No. 55–5 dated February 10, 1955. The comment received in response thereto has been considered by the Board in the drafting of this amendment. The following are summaries of the regulatory changes made by this amendment:

1. *Means of emergency evacuation.* There are no requirements in Part 40 of the Civil Air Regulations for evacuation equipment to assist passengers in evacuating an airplane on the ground. Experience has shown, however, that in certain instances it is essential that some means be provided in addition to those required by the applicable airworthiness requirements. Accordingly, this amendment requires that at all emergency exits which are more than 6 feet from the ground means be provided to assist the occupants in descending from the airplane. At floor level exits approved as emergency exits, such means for emergency evacuation shall be a chute or an equivalent device which will be suitable for the rapid evacuation of passengers. The Board intends that this means shall be in a position for ready use during flight time (as defined by the Civil Air Regulations, "Flight Time" includes that time during which the airplane is taxiing) and so located that it will not create a hazard by obstructing any emergency exit. As an example, certain of the air carriers have already installed chutes immediately above exit doors or on brackets attached to the fuselage immediately adjacent to the doors. An approved chute so located is in a position for "ready use" within the meaning of the new section.

2. *Interior emergency exit markings.* At the present time § 40.178 (a) of Part 40 requires that emergency exits for airplanes carrying passengers be clearly marked as such with luminous paint in letters not less than ¾ inches high, such markings to be located either on or immediately adjacent to pertinent exits and readily visible to passengers. Location and method of operation of the handles are required to be marked with luminous paint. The Board does not consider that these requirements are adequate to ensure that in case of a crash landing or ditching at night the passengers and crew would be able to identify and operate emergency exits. This amendment, therefore, provides that for all air carrier passenger airplanes lights be installed so as to illuminate all emergency exits in such a manner as to attract the attention of the occupants of the airplane at night. It is further required that these lights be equipped with an integral energy supply system. Since Draft Release No. 55–5 was circulated, the Board has determined that a light designed only for manual operation, if designed to withstand the impact forces of a crash landing and continue operation, will serve as a suitable alternative to an automatic light to provide emergency lighting at those times when it is most likely to be needed. Accordingly, this amendment requires that these lights either (1) be designed to function automatically in the event of a crash landing and to continue to function thereafter and also be operable manually, or (2) be designed only for manual operation and also to continue to function after a crash landing. When such lights require manual operation to function, they must be turned on prior to each night take-off and landing. With respect to the automatic light, any approved system, whether it is designed to operate as a result of inertia forces or upon failure of the main electrical system, will be satisfactory as long as it meets the two requirements; namely, it will function automatically in the event of a crash landing and continue to function thereafter, and it is also operable manually.

The requirements for emergency exit markings in the airplane interior are deleted from § 40.178 and incorporated with modifications in § 40.173 (f). This latter section includes revised language which takes account of the new emergency exit lighting requirements.

3. *Equipment for extended overwater operations.* This amendment modifies and expands the current provisions to require scheduled air carriers in extended overwater operations to have on their airplanes suitable equipment in the form of life vests, life rafts, signaling devices, and survival kits. This equipment is required to be installed in conspicuously marked approved locations where it will be easily accessible in the event of ditching.

An intensive investigation of ditching operations, including tests of life-raft capacity, has recently been conducted by the Civil Aeronautics Administration and the United States Navy in cooperation with other government agencies and interested aeronautical organizations. The Board has been advised that analysis of the results of these tests has not yet been accomplished. Consequently, as indicated in Draft Release No. 55–5, pending development of satisfactory criteria of life-raft capacity, the Board is not taking any action at this time to require that such life rafts possess sufficient maximum capacity to accommodate all occupants in the event of a loss of one life raft of the largest capacity on board. In view of the foregoing, this amendment does not change the requirement that airplanes on extended overwater flights carry life rafts sufficient in number and of such rated capacity as to accommodate all occupants of the airplane.

The Board is also concerned by the lack of any current requirement that life jackets and life rafts be equipped with a means of illumination which would materially assist in the rescue of persons from the water at night. Although such a light is not yet available, the Board has recently been informed that progress is being made toward the development of a serviceable, reliable, lightweight, inexpensive light of indefinite shelf life, adaptable to such use. Therefore, the Board will consider further whether a means of illuminating life jackets and life rafts should be required when it has determined that developments are sufficiently mature to warrant such action.

4. *Assignment of emergency evacuation functions for each crew member.* This amendment requires each air carrier to assign emergency functions for each crew member to perform in the event of circumstances requiring emergency evacuation. The objective of this requirement is to assure that each crew member will know, and be able to perform, those basic functions which are necessary in order to accomplish an emergency evacuation. The "emergency" for which this rule requires each crew member to be prepared is that of evacuating the airplane. Although innumerable types of emergencies may arise in flight which may necessitate an emergency evacuation of an airplane, the Board is of the opinion that the procedures to be followed in evacuating an airplane remain limited in number. Therefore, it is considered reasonable, and it is the intent of this rule, to require that each crew member be prepared to perform emergency evacuation functions when necessitated by various general situations; for example, ditching, fire in flight, and landing gear collapse. This rule will not, of course, limit the authority of the pilot in command over crew members with respect to the assignment of duties under the particular conditions of an emergency.

The Board has always based its rules on the premise that wherever possible the air carrier should be responsible for assigning crew duties. It has been brought to the attention of the Board, however, that in certain instances crew duties are not sufficiently delineated and crew training programs are not sufficiently complete to provide proper coordination of the crew in the event of a crash landing or ditching. The Board considers that it is necessary to ensure that assigned crew duties are realistic, and do not, for example, require an individual to be assigned certain tasks which are not probable of accomplishment under the conditions anticipated. Therefore, these functions are required to be listed in the air carrier manual and all crew members must be made thoroughly familiar with them during both initial and recurrent training. In addition, the air carrier must show that the functions so assigned are practicable of accomplishment.

5. *Briefing of passengers.* This amendment requires each air carrier engaged in extended overwater operations to establish a procedure for orally briefing passengers in order to ensure that they will be familiar with the location and method of operation of life vests and emergency exits, and the location of life rafts. Such briefing must include a demonstration of donning life jackets.

The Board considers that it is in the public interest to attain the increased safety sought by these rules at the earliest opportunity. At the same time it recognizes that certain of the requirements involving physical changes to airplane structures and the procurement of additional equipment would be unduly burdensome unless an appropriate period of time for planning, procurement, and installation is allowed. Accordingly, a majority of these rules need not be complied with for approximately 18 months. However, the rules involving procedures only must be complied with in approximately 6 months.

Interested persons have been afforded an opportunity to participate in the making of this amendment, and due consideration has been given to all relevant matter presented. Since this amendment contains rules which need not be complied with for at least 6 months, it may be made effective immediately.

In consideration of the foregoing, the Civil Aeronautics Board hereby amends Part 40 of the Civil Air Regulations (14 CFR Part 40, as amended) effective November 28, 1955:

1. By amending § 40.173 by adding new paragraphs (e) and (f) to read as follows:

§ 40.173 *Emergency equipment for all operations.* * * *

(e) *Means for emergency evacuation.* After May 31, 1957, on all passenger-carrying airplanes, at all emergency exits which are more than 6 feet from the ground with the airplane on the ground and with the landing gear extended, means shall be provided to assist the occupants in descending from the airplane. At floor level exits approved as emergency exits, such means shall be a chute or equivalent device suitable for the rapid evacuation of passengers. During flight time this means shall be in a position for ready use: *Provided,* That the requirements of this paragraph do not apply to emergency exits over the wing where the greatest distance from the lower sill of the exit to the wing surface does not exceed 36 inches.

(f) *Interior emergency exit markings.* (1) After May 31, 1957, all emergency exits, their means of access, and their means of opening shall be marked conspicuously. The identity and location of emergency exits shall be recognizable from a distance equal to the width of the cabin. The location of the emergency exit operating handle and the instructions for opening shall be marked on or adjacent to the emergency exit and shall be readable from a distance of 30 inches by a person with normal eyesight.

(2) After May 31, 1957, for night operations, a source or sources of light, with an energy supply independent of the main lighting system, shall be installed to illuminate all emergency exit markings. Such lights shall be designed to function automatically in a crash landing and to continue to function thereafter and shall also be operable manually, or shall be designed only for manual operation and also to continue to function following a crash landing. When

such lights require manual operation to function, they shall be turned on prior to each night take-off and landing.

2. By amending § 40.178 to read as follows:

§ 40.178 *Exterior exit and evacuation markings for all operations.* Effective January 1, 1956, exterior surfaces of the airplane shall be marked to identify clearly all required emergency exits. When such exits are operable from the outside, markings shall consist of or include information indicating the method of opening.

3. By amending § 40.206 to read as follows:

§ 40.206 *Equipment for overwater operations.* (a) The following equipment shall be required for all extended overwater operations:

(1) Life vest or other adequate individual flotation device for each occupant of the airplane;

(2) Life rafts sufficient in number and of such rated capacity and buoyancy as to accommodate all occupants of the airplane;

(3) Suitable pyrotechnic signaling devices; and

(4) One portable emergency radio signaling device, capable of transmission on the appropriate emergency frequency or frequencies, which is not dependent upon the airplane power supply and which is self-buoyant and water-resistant.

(b) All required life rafts, life vests, and signaling devices shall be easily accessible in the event of a ditching without appreciable time for preparatory procedures. After May 31, 1957, this equipment shall be installed in conspicuously marked approved locations.

(c) After May 31, 1957, a survival kit, appropriately equipped for the route to be flown, shall be attached to each required life raft.

4. By adding a new § 40.267 to read as follows:

§ 40.267 *Assignment of emergency evacuation functions for each crew member.* After May 31, 1956, each air carrier shall assign all necessary emergency functions for each crew member to perform in the event of circumstances requiring emergency evacuation. The air carrier shall show that functions so assigned are practicable of accomplishment. These functions shall be described in the air carrier manual.

5. By adding a new § 40.370 to read as follows:

§ 40.370 *Briefing of passengers.* After May 31, 1956, each air carrier engaged in extended overwater operations shall assure that all passengers are briefed orally concerning the location and method of operation of life vests and emergency exits and the location of life rafts. The procedure to be followed in presenting this briefing shall be described in the air carrier manual. Such a briefing shall include a demonstration of the method of donning and inflating a life vest. Where the airplane proceeds directly over water after take-off, the briefing on location of the life vests and emergency exits shall be accomplished prior to take-off, and the remainder of the briefing shall be accomplished as soon thereafter as practicable. Where the airplane does not proceed directly over water after take-off, no part of the briefing need be accomplished prior to take-off but the entire briefing shall be accomplished prior to reaching the overwater portion of the flight.

(Sec. 205, 52 Stat. 984; 49 U. S. C. 425. Interpret or apply secs. 601, 604, 605, 52 Stat. 1007, 1010, as amended; 49 U. S. C. 551, 554, 555)

By the Civil Aeronautics Board.

[Civil Air Regs., Amdt. 41-8]

PART 41—CERTIFICATION AND OPERATION RULES FOR SCHEDULED AIR CARRIER OPERATIONS OUTSIDE THE CONTINENTAL LIMITS OF THE UNITED STATES

EMERGENCY AND EVACUATION EQUIPMENT AND PROCEDURES

Adopted by the Civil Aeronautics Board at its office in Washington, D. C., on the 28th day of November 1955.

Currently effective provisions of Part 41 of the Civil Air Regulations contain certain requirements for emergency and evacuation equipment and procedures. This amendment requires air carriers operating pursuant to Part 41 to make certain additional provisions with respect to emergency and evacuation equipment and procedures.

The necessity for these additional provisions was indicated following the Board's investigation of several air carrier accidents and they have been under consideration for some time. These matters were the substance of a notice of proposed rule making which was published in the FEDERAL REGISTER (17 F. R. 8022) and circulated as Civil Air Regulations Draft Release No. 52-26 dated August 29, 1952. As a result of comment received, it appeared desirable to arrange a meeting with representatives of industry to discuss particular issues. Such a meeting was held in Washington, D. C., on November 25, 1952, at which the general intent of each proposal was thoroughly discussed and specific changes in the wording of the rules were proposed.

As a result of comment received in response to Draft Release No. 52-26 and the discussions at the subsequent industry meeting, the proposals were revised and a new notice of proposed rule making was published in the FEDERAL REGISTER (18 F. R. 4744) and circulated as Civil Air Regulations Draft Release No. 53-15 dated August 10, 1953. Since a substantial lapse of time occurred following the issuance of Draft Release No. 53-15, and because of the changes made as a result of comment received on the revised proposals, the Board decided to publish the proposed rules again prior to taking any final action. Accordingly, the proposed rules were published in the FEDERAL REGISTER (20 F. R. 1016) and circulated as Civil Air Regulations Draft Release No. 55-5 dated February 10, 1955. The comment received in response thereto has been considered by the Board in the drafting of this amendment. The following are summaries of the regulatory changes made by this amendment:

1. *Means of emergency evacuation.* There are no requirements in Part 41 of the Civil Air Regulations for evacuation equipment to assist passengers in evacuating an airplane on the ground. Experience has shown, however, that in certain instances it is essential that some means be provided in addition to those required by the applicable airworthiness requirements. Accordingly, this amendment requires that at all emergency exits which are more than 6 feet from the ground means be provided to assist the occupants in descending from the airplane. At floor level exits approved as emergency exits, such means for emergency evacuation shall be a chute or an equivalent device which will be suitable for the rapid evacuation of passengers. The Board intends that this means shall be in a position for ready use during flight time (as defined by the Civil Air Regulations, "Flight Time" includes that time during which the airplane is taxiing) and so located that it will not create a hazard by obstructing any emergency exit. As an example, certain of the air carriers have already installed chutes immediately above exit doors or on brackets attached to the fuselage immediately adjacent to the doors. An approved chute so located is in a position for "ready use" within the meaning of the new section.

2. *Interior emergency exit markings.* At the present time Part 41 requires that emergency exists for airplanes carrying passengers be clearly marked as such with luminous paint in letters not less than ¾-inch high, such markings to be located either on or immediately adjacent to pertinent exists and readily visible to passengers. Location and method of operation of the handles are required to be marked with luminous paint. The Board does not consider that these requirements are adequate to ensure that in case of a crash landing or ditching at night the passengers and crew would be able to identify and operate emergency exits. This amendment, therefore, provides that for all air carrier passenger airplanes lights be installed so as to illuminate all emergency exists in such a manner as to attract the attention of the occupants of the airplane at night. It is further required that these lights be equipped with an integral energy supply system. Since Draft Release No. 55-5 was circulated, the Board has determined that a light designed only for manual operation, if designed to withstand the impact forces of a crash landing and continue operation, will serve as a suitable alternative to an automatic light to provide emergency lighting at those times when it is most likely to be needed. Accordingly, this amendment requires that these lights either (1) be designed to function automatically in the event of a crash landing and to continue to function

thereafter and also be operable manually, or (2) be designed only for manual operation and also to continue to function after a crash landing. When such lights require manual operation to function, they must be turned on prior to each night take-off and landing. With respect to the automatic light, any approved system, whether it is designed to operate as a result of inertia forces or upon failure of the main electrical system, will be satisfactory as long as it meets the two requirements; namely, it will function automatically in the event of a crash landing and continue to function thereafter, and it is also operable manually.

3. *Equipment for extended overwater operations.* This amendment modifies and expands the current provisions to require scheduled air carriers in extended overwater operations to have on their airplanes suitable equipment in the form of life vests, life rafts, signaling devices, and survival kits. This equipment is required to be installed in conspicuously marked approved locations where it will be easily accessible in the event of ditching.

An intensive investigation of ditching operations, including tests of life-raft capacity, has recently been conducted by the Civil Aeronautics Administration and the United States Navy in cooperation with other government agencies and interested aeronautical organizations. The Board has been advised that analysis of the results of these tests has not yet been accomplished. Consequently, as indicated in Draft Release No. 55-5, pending development of satisfactory criteria of life-raft capacity, the Board is not taking any action at this time to require that such life rafts possess sufficient maximum capacity to accommodate all occupants in the event of a loss of one life raft of the largest capacity on board. In view of the foregoing, this amendment does not change the requirement that airplanes on extended overwater flights carry life rafts sufficient in number and of such rated capacity as to accommodate all occupants of the airplane.

The Board is also concerned by the lack of any current requirement that life jackets and life rafts be equipped with a means of illumination which would materially assist in the rescue of persons from the water at night. Although such a light is not yet available, the Board has recently been informed that progress is being made toward the development of a serviceable, reliable, lightweight, inexpensive light of indefinite shelf life, adaptable to such use. Therefore, the Board will consider further whether a means of illuminating life jackets and life rafts should be required when it has determined that developments are sufficiently mature to warrant such action.

The Board has carefully studied the various proposals submitted with respect to a definition of extended overwater operation as applied to scheduled and irregular operations and considers that the distance of 50 miles is a reasonable measure of such operations. Since there may exist particular operations which would require or permit some flexibility in the administration of the rule, the Administrator is authorized to require the carriage of all of the prescribed equipment, or any item thereof, for any operation over water if he finds that the standards of safety appropriate for air carrier operations so require. The rule also permits the Administrator to determine, upon application of an air carrier, how much, if any, of the equipment will be required for each extended overwater operation. Unless otherwise specified by the Administrator, the equipment required herein will be carried in all extended overwater operations.

4. *Assignment of emergency evacuation functions for each crew member.* This amendment requires each air carrier to assign emergency functions for each crew member to perform in the event of circumstances requiring emergency evacuation. The objective of this requirement is to assure that each crew member will know, and be able to perform, those basic functions which are necessary in order to accomplish an emergency evacuation. The "emergency" for which this rule requires each crew member to be prepared is that of evacuating the airplane. Although innumerable types of emergencies may arise in flight which may necessitate an emergency evacuation of an airplane, the Board is of the opinion that the procedures to be followed in evacuating an airplane remain limited in number. Therefore, it is considered reasonable, and it is the intent of this rule, to require that each crew member be prepared to perform emergency evacuation functions when necessitated by various general situations; for example, ditching, fire in flight, and landing gear collapse. This rule will not, of course, limit the authority of the pilot in command over crew members with respect to the assignment of duties under the particular conditions of an emergency.

The Board has always based its rules on the premise that wherever possible the air carrier should be responsible for assigning crew duties. It has been brought to the attention of the Board, however, that in certain instances crew duties are not sufficiently delineated and crew training programs are not sufficiently complete to provide proper coordination of the crew in the event of a crash landing or ditching. The Board considers that it is necessary to ensure that assigned crew duties are realistic, and do not, for example, require an individual to be assigned certain tasks which are not probable of accomplishment under the conditions anticipated. Therefore, these functions are required to be listed in the air carrier manual and all crew members must be made thoroughly familiar with them during both initial and recurrent training. In addition, the air carrier must show that the functions so assigned are practicable of accomplishment.

5. *Briefing of passengers.* This amendment requires each air carrier engaged in extended overwater operations to establish a procedure for orally briefing passengers in order to ensure that they will be familiar with the location and method of operation of life vests and emergency exits, and the location of life rafts. Such briefing must include a demonstration of donning life jackets.

The Board considers that it is in the public interest to attain the increased safety sought by these rules at the earliest opportunity. At the same time it recognizes that certain of the requirements involving physical changes to airplane structures and the procurement of additional equipment would be unduly burdensome unless an appropriate period of time for planning, procurement, and installation is allowed. Accordingly, a majority of these rules need not be complied with for approximately 18 months. However, the rules involving procedures only must be complied with in approximately 6 months.

Interested persons have been afforded an opportunity to participate in the making of this amendment, and due consideration has been given to all relevant matter presented. Since this amendment contains rules which need not be complied with for at least 6 months, it may be made effective immediately.

In consideration of the foregoing, the Civil Aeronautics Board hereby amends Part 41 of the Civil Air Regulations (14 CFR Part 41, as amended) effective November 28, 1955:

1. By amending § 41.23 to read as follows:

§ 41.23 *Emergency and safety equipment.* After May 31, 1957, the equipment required in §§ 41.23b, 41.23c, and 41.23d shall be approved by the Administrator.

2. By adding new §§ 41.23b, 41.23c, and 41.23d to read as follows:

§ 41.23b *First-aid kits and emergency equipment.* Each airplane shall be equipped with a conveniently accessible first-aid kit adequate for the type of operation involved. Airplanes scheduled over routes requiring flights for long distances over uninhabited terrain must carry such additional emergency equipment as appropriate for the particular operation involved.

§ 41.23c *Equipment for overwater operations.* (a) The following equipment shall be required for all extended overwater operations: *Provided,* That the Administrator, after appropriate investigation, may require the carriage of all of the prescribed equipment, or any item thereof, for any operation over water, or upon application of an air carrier, permit deviation from these requirements for a particular extended overwater operation:

(1) Life vest or other adequate individual flotation device for each occupant of the airplane;

(2) Life rafts sufficient in number and of such rated capacity and buoyancy as to accommodate all occupants of the airplane;

(3) Suitable pyrotechnic signaling devices; and

(4) One portable emergency radio signaling device, capable of transmission on the appropriate emergency frequency or frequencies, which is not dependent upon the airplane power supply and

which is self-buoyant and water-resistant.

(b) All required life rafts, life vests, and signaling devices shall be easily accessible in the event of a ditching without appreciable time for preparatory procedures. After May 31, 1957 this equipment shall be installed in conspicuously marked locations approved by the Administrator.

(c) A survival kit, appropriately equipped for the route to be flown, shall be attached to each required life raft.

§ 41.23d *Emergency evacuation equipment*—(a) *Means for emergency evacuation.* After May 31, 1957, on all passenger-carrying airplanes, at all emergency exits which are more than 6 feet from the ground with the airplane on the ground and with the landing gear extended, means shall be provided to assist the occupants in descending from the airplane. At floor level exits approved as emergency exits, such means shall be a chute or equivalent device suitable for the rapid evacuation of passengers. During flight time this means shall be in a position for ready use: *Provided*, That the requirements of this paragraph do not apply to emergency exits over the wing where the greatest distance from the lower sill of the exit to the wing surface does not exceed 36 inches.

(b) *Interior emergency exit markings.* (1) After May 31, 1957, all emergency exits, their means of access, and their means of opening shall be marked conspicuously. The identity and location of emergency exits shall be recognizable from a distance equal to the width of the cabin. The location of the emergency exit operating handle and the instructions for opening shall be marked on or adjacent to the emergency exit and shall be readable from a distance of 30 inches by a person with normal eyesight.

(2) After May 31, 1957, for night operations, a source or sources of light, with an energy supply independent of the main lighting system, shall be installed to illuminate all emergency exit markings. Such lights shall be designed to function automatically in a crash landing and to continue to function thereafter and shall also be operable manually, or shall be designed only for manual operation and also to continue to function following a crash landing. When such lights require manual operation to function, they shall be turned on prior to each night take-off and landing.

3. By amending § 41.126 to read as follows:

§ 41.126 *Assignment of emergency evacuation functions for each crew member.* After May 31, 1956, each air carrier shall assign all necessary emergency functions for each crew member to perform in the event of circumstances requiring emergency evacuation. The air carrier shall show that functions so assigned are practicable of accomplishment. These functions shall be described in the air carrier manual.

4. By amending § 41.127 to read as follows:

§ 41.127 *Briefing of passengers.* After May 31, 1956, each air carrier engaged in extended overwater operations shall assure that all passengers are briefed orally concerning the location and method of operation of life vests and emergency exits and the location of life rafts. The procedure to be followed in presenting this briefing shall be described in the air carrier manual. Such a briefing shall include a demonstration of the method of donning and inflating a life vest. Where the airplane does not proceed directly over water after take-off, no part of the briefing need be accomplished prior to take-off but the entire briefing shall be accomplished prior to reaching the overwater portion of the flight.

5. By amending § 41.137 by adding the following definition in alphabetical order:

§ 41.137 *Definitions.* • • •

Extended overwater operation. An extended overwater operation shall be considered an operation over water conducted at a distance in excess of 50 miles from the nearest shore line.

(Sec. 205, 52 Stat. 984; 49 U. S. C. 425. Interpret or apply secs. 601, 604, 605, 52 Stat. 1007, 1010, as amended; 49 U. S. C. 551, 554, 555)

By the Civil Aeronautics Board.

[Civil Air Regs., Amdt. 42-6]

PART 42—IRREGULAR AIR CARRIER AND OFF-ROUTE RULES

EMERGENCY AND EVACUATION EQUIPMENT AND PROCEDURES

Adopted by the Civil Aeronautics Board at its office in Washington, D. C., on the 28th day of November 1955.

Currently effective provisions of Part 42 of the Civil Air Regulations contain certain requirements for emergency and evacuation equipment and procedures. This amendment requires air carriers operating pursuant to Part 42 to make certain additional provisions with respect to emergency and evacuation equipment and procedures.

The necessity for these additional provisions was indicated following the Board's investigation of several air carrier accidents and they have been under consideration for some time. These matters were the substance of a notice of proposed rule making which was published in the FEDERAL REGISTER (17 F. R. 8022) and circulated as Civil Air Regulations Draft Release No. 52-26 dated August 29, 1952. As a result of comment received, it appeared desirable to arrange a meeting with representatives of industry to discuss particular issues. Such a meeting was held in Washington, D. C., on November 25, 1952, at which the general intent of each proposal was thoroughly discussed and specific changes in the wording of the rules were proposed.

As a result of comment received in response to Draft Release No. 52-26 and the discussions at the subsequent industry meeting, the proposals were revised and a new notice of proposed rule making was published in the FEDERAL REGISTER (18 F. R. 4744) and circulated as Civil Air Regulations Draft Release No. 53-15 dated August 10, 1953. Since a substantial lapse of time occurred following the issuance of Draft Release No. 53-15, and because of the changes made as a result of comment received on the revised proposals, the Board decided to publish the proposed rules again prior to taking any final action. Accordingly, the proposed rules were published in the FEDERAL REGISTER (20 F. R. 1016) and circulated as Civil Air Regulations Draft Release No. 55-5 dated February 10, 1955. The comment received in response thereto has been considered by the Board in the drafting of this amendment. The following are summaries of the regulatory changes made by this amendment:

1. *Means of emergency evacuation.* There are no requirements in Part 42 of the Civil Air Regulations for evacuation equipment to assist passengers in evacuating an airplane on the ground. Experience has shown, however, that in certain instances it is essential that some means be provided in addition to those required by the applicable airworthiness requirements. Accordingly, this amendment requires that at all emergency exits which are more than 6 feet from the ground means be provided to assist the occupants in descending from the airplane. At floor level exits approved as emergency exits, such means for emergency evacuation shall be a chute or an equivalent device which will be suitable for the rapid evacuation of passengers. The Board intends that this means shall be in a position for ready use during flight time (as defined by the Civil Air Regulations, "Flight Time" includes that time during which the airplane is taxiing) and so located that it will not create a hazard by obstructing any emergency exit. As an example, certain of the air carriers have already installed chutes immediately above exit doors or on brackets attached to the fuselage immediately adjacent to the doors. An approved chute so located is in a position for "ready use" within the meaning of the new section.

2. *Interior emergency exit markings.* This amendment requires, in addition to markings, the installation of a light in all passenger-carrying large aircraft to eliminate all emergency exits in such a manner as to attract the attention of the occupants of the airplane at night. The object of this requirement is to ensure that in the case of a crash landing or ditching at night the passengers and crew will be able to identify and operate emergency exits. It is further required that these lights be equipped with an integral energy supply system. Since Draft Release No. 55-5 was circulated, the Board has determined that a light designed only for manual operation, if designed to withstand the impact forces of a crash landing and continue operation, will serve as a suitable alternative to an automatic light to provide emergency lighting at those times when it is most likely to be needed. Accordingly, this amendment requires that these lights either (1) be designed to function automatically in the event of a crash landing and to continue to function thereafter and also be operable manually, or (2) be designed only for manual operation and also to continue to function after a crash landing. When such lights require manual operation to function, they must be turned on prior to each night take-off and landing. With respect to the automatic light, any approved system, whether it is designed to operate as a result of inertia forces or upon failure of the main electrical system, will be satisfactory as long as it meets the two requirements; namely, it will function automatically in the event of a crash landing and continue to function thereafter, and it is also operable manually.

3. *Equipment for extended overwater operations.* This amendment modifies and expands the current provisions to require irregular air carriers in extended overwater operations to have on their airplanes suitable equipment in the form of life vests, life rafts, signaling devices, and survival kits. This equipment is required to be installed in conspicuously marked approved locations where it will be easily accessible in the event of ditching.

An intensive investigation of ditching operations, including tests of life-raft capacity, has recently been conducted by the Civil Aeronautics Administration and the United States Navy in cooperation with other government agencies and interested aeronautical organizations. The Board has been advised that analysis of the results of these tests has not yet been accomplished. Consequently, as indicated in Draft Release No. 55-5, pending development of satisfactory criteria of life-raft capacity, the Board is not taking any action at this time to require that such life rafts possess sufficient maximum capacity to accommodate all occupants in the event of a loss of one life raft of the largest capacity on board. In view of the foregoing, this amendment does not change the requirement that airplanes on extended overwater flights carry life rafts sufficient in number and of such rated capacity as to accommodate all occupants of the airplane.

The Board is also concerned by the lack of any current requirement that life jackets and life rafts be equipped with a means of illumination which would materially assist in the rescue of persons from the water at night. Although such a light is not yet available, the Board has recently been informed that progress is being made toward the development of a serviceable, reliable, lightweight, inexpensive light of indefinite shelf life, adaptable to such use. Therefore, the Board will consider further whether a means of illuminating life jackets and life rafts should be required when it has determined that developments are sufficiently mature to warrant such action.

The Board has carefully studied the various proposals submitted with respect to a definition of extended overwater operation as applied to scheduled and irregular operations and considers that the distance of 50 miles is a reasonable measure of such operations. Since there may exist particular operations which would require or permit some flexibility in the administration of the rule, the Administrator is authorized to require the carriage of all of the prescribed equipment, or any item thereof, for any operation over water if he finds that the standards of safety appropriate for air carrier operations so require. The rule also permits the Administrator to determine, upon application of an air carrier, how much, if any, of the equipment will be required for each extended overwater operation. Unless otherwise specified by the Administrator, the equipment required herein will be carried in all extended overwater operations.

4. *Assignment of emergency evacuation functions for each crew member.* This amendment requires each air carrier to assign emergency functions for each crew member to perform in the event of circumstances requiring emergency evacuation. The objective of this requirement is to assure that each crew member will know, and be able to perform, those basic functions which are necessary in order to accomplish an emergency evacuation. The "emergency" for which this rule requires each crew member to be prepared is that of evacuating the airplane. Although innumerable types of emergencies may arise in flight which may necessitate an emergency evacuation of an airplane, the Board is of the opinion that the procedures to be followed in evacuating an airplane remain limited in number. Therefore, it is considered reasonable, and it is the intent of this rule, to require that each crew member be prepared to perform emergency evacuation functions when necessitated by various general situations; for example, ditching, fire in flight, and landing gear collapse. This rule will not, of course, limit the authority of the pilot in command over crew members with respect to the assignment of duties under the particular conditions of an emergency.

The Board has always based its rules on the premise that wherever possible the air carrier should be responsible for assigning crew duties. It has been brought to the attention of the Board, however, that in certain instances crew duties are not sufficiently delineated and crew training programs are not sufficiently complete to provide proper coordination of the crew in the event of a crash landing or ditching. The Board considers that it is necessary to ensure that assigned crew duties are realistic, and do not, for example, require an individual to be assigned certain tasks which are not problable of accomplishment under the conditions anticipated. Therefore, these functions are required to be listed in the air carrier manual and all crew members must be made thoroughly familiar with them during both initial and recurrent training. In addition, the air carrier must show that the functions so assigned are practicable of accomplishment.

5. *Briefing of passengers.* This amendment requires each air carrier engaged in extended overwater operations to establish a procedure for orally briefing passengers in order to ensure that they will be familiar with the location and method of operation of life vests and emergency exits, and the location of life rafts. Such briefing must include a demonstration of donning life jackets.

The Board considers that it is in the public interest to attain the increased safety sought by these rules at the earliest opportunity. At the same time it recognizes that certain of the requirements involving physical changes to airplane structures and the procurement of additional equipment would be unduly burdensome unless an appropriate period of time for planning, procurement, and installation is allowed. Accordingly, a majority of these rules need not be complied with for approximately 18 months. However, the rules involving procedures only must be complied with in approximately 6 months.

Interested persons have been afforded an opportunity to participate in the making of this amendment, and due consideration has been given to all relevant matter presented. Since this amendment contains rules which need not be complied with for at least 6 months, it may be made effective immediately.

In consideration of the foregoing, the Civil Aeronautics Board hereby amends Part 42 of the Civil Air Regulations (14 CFR Part 42, as amended) effective November 28, 1955:

1. By amending § 42.1 by adding the following definition in alphabetical order:

§ 42.1 *Definitions.* • • •

Extended overwater operation. An extended overwater operation shall be considered an operation over water conducted at a distance in excess of 50 miles from the nearest shore line.

2. By amending § 42.24 to read as follows:

§ 42.24 *Emergency and safety equipment.* After May 31, 1957, the equipment required in §§ 42.24a, 42.24b, and 42.24c shall be approved.

3. By adding new §§ 42.24a, 42.24b, and 42.24c to read as follows:

§ 42.24a *First-aid kits and emergency equipment.* Each airplane shall be equipped with a conveniently accessible first-aid kit adequate for the type of operation involved. Airplanes operated over routes requiring flights for long distances over uninhabited terrain must carry such additional emergency equipment as appropriate for the particular operation involved.

§ 42.24b *Equipment for overwater operations.* (a) The following equipment shall be required for all extended overwater operations: *Provided*, That the Administrator, after appropriate investigation, may require the carriage of all of the prescribed equipment, or any item thereof, for any operation over water, or upon application of an air carrier, permit deviation from these requirements for a particular extended overwater operation:

(1) Life vest or other adequate individual flotation device for each occupant of the airplane;

(2) Life rafts sufficient in number and of such rated capacity and buoyancy as to accommodate all occupants of the airplane;

(3) Suitable pyrotechnic signaling devices; and

(4) One portable emergency radio signaling device, capable of transmission on the appropriate emergency frequency or frequencies, which is not dependent upon the airplane power supply and which is self-buoyant and water-resistant.

(b) All required life rafts, life vests, and signaling devices shall be easily accessible in the event of a ditching without appreciable time for preparatory procedures. After May 31, 1957, this equipment shall be installed in conspicuously marked approved locations.

(c) A survival kit, appropriately equipped for the route to be flown, shall be attached to each required life raft.

§ 42.24c *Emergency evacuation equipment*—(a) *Means for emergency evacuation.* After May 31, 1957, on all passenger-carrying airplanes, at all emergency exists which are more than 6 feet from the ground with the airplane on the ground and with the landing gear extended, means shall be provided to assist the occupants in descending from the airplane. At floor level exits approved as emergency exits, such means shall be a chute or equivalent device suitable for the rapid evacuation of passengers.. During flight time this means shall be in a position for ready use: *Provided*, That the requirements of this paragraph do not apply to emergency exits over the wing where the greatest distance from the lower sill of the exit to the wing surface does not exceed 36 inches.

(b) *Interior emergency exit markings.* (1) After May 31, 1957, all emergency exits of large aircraft, their means of access, and their means of opening shall be marked conspicuously. The identity and location of emergency exists shall be recognizable from a distance equal to the width of the cabin. The location of the emergency exit operating handle and the instructions for opening shall be marked on or adjacent to the emergency exit and shall be readable from a distance of 30 inches by a person with normal eyesight.

(2) After May 31, 1957, for night operations, a source or sources of light, with an energy supply independent of the main lighting system, shall be installed in large aircraft to illuminate all emergency exit markings. Such lights shall be designed to function automatically in a crash landing and to continue to function thereafter and shall also be operable manually, or shall be designed only for manual operation and also to continue to function following a crash landing. When such lights require manual operation to function, they shall be turned on prior to each night take-off and landing.

4. By adding a new § 42.49 to read as follows:

§ 42.49 *Assignment of emergency evacuation functions for each crew member.* After May 31, 1956, each air carrier shall assign all necessary emergency functions for each crew member to perform in the event of circumstances requiring emergency evacuation. The air carrier shall show that functions so assigned are practicable of accomplishment. These functions shall be described in the air carrier manual.

5. By amending § 42.59 to read as follows:

§ 42.59 *Briefing of passengers.* After May 31, 1956, each air carrier engaged in extended overwater operations shall assure that all passengers are briefed orally concerning the location and method of operation of life vests and emergency exits and the location of life rafts. The procedure to be followed in presenting this briefing shall be described in the air carrier manual. Such a briefing shall include a demonstration of the method of donning and inflating a life vest. Where the airplane proceeds directly over water after take-off, the briefing on location of the life vests and emergency exits shall be accomplished prior to take-off, and the remainder of the briefing shall be accomplished as soon thereafter as practicable. Where the airplane does not proceed directly over water after take-off, no part of the briefing need be accomplished prior to take-off but the entire briefing shall be accomplished prior to reaching the overwater portion of the flight.

Chapter II—Civil Aeronautics Administration, Department of Commerce

Subchapter A—Procedural Regulations

[Amdt. 2]

PART 410—DELEGATION OPTION PROCEDURES FOR CERTIFICATION OF SMALL AIRPLANES

DATA AND RECORDS

Appendix A to Title 1 was added in 20 F. R. 2217, April 8, 1955, to furnish a guide to show what non-Federal records must be kept, who must keep them, and how long they must be kept. Accordingly, 14 CFR Part 410 is amended as follows:

1. Section 410.39 (a) (1) is amended by adding a final sentence as follows: "This file shall be retained for the duration of the manufacturer's operation under the delegation option procedure."

2. Section 410.39 (a) (2) is amended by adding subdivisions (i), (ii), and (iii) as follows:

(i) A complete inspection record for each airplane produced according to serial number and data covering the processes and tests to which materials and parts are subjected. These records shall be retained for 2 years.

(ii) The report required to be submitted with the original application for the production certificate and amendments thereto. This report shall be retained for the duration of the manufacturer's operation under the delegation option procedure.

(iii) The factory inspection reports specified in § 410.33 (b) and (c). These factory inspection reports shall be retained for 2 years.

3. Section 410.39 (a) (3) is amended by adding a final sentence as follows: "This record shall be retained for the duration of the manufacturer's operation under the delegation option procedure."

(Sec. 205, 52 Stat. 984, as amended; 49 U. S. C. 425. Interpret or apply sec. 603, 52 Stat. 1009, as amended, sec. 310, 64 Stat. 1080; 49 U. S. C. 553, 460)

This amendment shall become effective December 15, 1955.

[SEAL] F. B. LEE,
Administrator of Civil Aeronautics.

PROPOSED RULE MAKING

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Part 941]

[Docket No. AO-101-20]

MILK IN CHICAGO, ILLINOIS, MARKETING AREA

NOTICE OF RECOMMENDED DECISION AND OPPORTUNITY TO FILE WRITTEN EXCEPTIONS WITH RESPECT TO PROPOSED AMENDMENT TO TENTATIVE MARKETING AGREEMENT, AND TO ORDER, AS AMENDED

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), notice is hereby given of the filing with the Hearing Clerk of this recommended decision of the Deputy Administrator, Agricultural Marketing Service, United States Department of Agriculture, with respect to a proposed amendment to the tentative marketing agreement and to the order, as amended, regulating the handling of milk in the Chicago, Illinois, marketing area. Interested parties may file written exceptions to this decision with the Hearing Clerk, United States Department of Agriculture, Washington 25, D. C., not later than the close of business the seventh day after publication of this decision in the FEDERAL REGISTER. Exceptions should be filed in quadruplicate.

Preliminary statement. The hearing, on the record of which the proposed

amendment to the tentative marketing agreement and to the order, as amended, was formulated, was conducted at Chicago, Illinois, on July 5–8, 1955 pursuant to notice thereof which was issued on June 14, 1955 (20 F. R. 4256) and June 28, 1955 (20 F. R. 4690).

The material issues on the record of the hearing were:

1. Whether Kankakee, Will County, and Lake County, all in Illinois, or portions thereof, should be added to the marketing area;

2. Class I price differentials;

3. General changes in accounting for milk, including use of a skim milk and butterfat system of accounting;

4. Special classification and price for milk used in the manufacture of American Cheese;

5. Revision of differential to producers with respect to milk received in the marketing area;

6. Revision of the base-excess method of paying producers, including changes in the calculation of bases, changes in base rules, and calculation of base and excess prices.

7. Allocation of class utilization to own farm production;

8. Application of the 70-cent differential added in the case of bulk Class I and Class II milk moved outside the surplus milk manufacturing area;

9. Pool plant approval on the basis of shipments to plants distributing in the marketing area; and

10. Establishment of order prices at locations where milk is transferred from the tank truck in which it was picked up at the producer's farm to another tank truck.

Findings and conclusions. The following findings and conclusions on the material issues are based upon evidence contained in the record of the hearing:

1. *Marketing area.* No change should be made in the marketing area. Proposals were made to add Kankakee County, Will County, and Lake County, all in Illinois, or parts thereof, to the marketing area. Parts of Will County and Lake County are now in the marketing area.

At the hearing, the proposals were supported only with respect to Crete Township in Will County, and the portion of Lake County not now in the marketing area.

It was testified, with respect to both of these areas for which inclusion was asked, that no additional milk would be regulated under the order. The reason given, in each case, for the additional area, was to include the proponent's plant in the marketing area, thus enabling the plant to pay the higher price applicable to milk received in the marketing area. It was explained that these operators experienced difficulty in holding producers in competition with plants in the marketing area.

Inasmuch as the difficulty brought out in testimony was only a matter of competition between regulated handlers for producers, this is not a basis for expanding the area of regulation. The additions to the marketing area are denied.

2. *Class I price differentials.* The Class I price differentials should be $1.10 for the months of August through November, and 80 cents in other months.

Proposals were made by producer associations to change the Class I price differentials in a manner which would raise the average level and reduce the seasonal range. One proposal was to make the differentials $1.10 in the months of August through November, and 90 cents in other months. Another proposal would establish a constant differential of $1.00 year around.

Testimony in support of these proposals was generally based on the following factors: reduced need for seasonal differentials because of the effect of the base-excess plan; increased costs of milk production; and the desire to lessen market problems producers feel to be associated with frequent changes in the Class I price.

Class I differentials now in the order are $1.10 per hundredweight for August through November, 90 cents for December through February, 70 cents for March through June, and 90 cents in July. The average of these differentials for the year is 90 cents. The effective level of the differentials is modified, however, by a supply-demand adjustment.

It is apparent that the proposal for a $1.00 differential a year around would raise the annual level by 10 cents per hundredweight. The proposal to have a 90-cent differential for December through July would raise the annual average 6⅔ cents.

An examination of supply and demand conditions does not show a need for an increase in the general level of the Class I price differentials in addition to what has occurred as the result of the automatic price adjustments based on the supply-demand ratio, and what may be expected similarly on the basis of any further changes in supply and demand. Since the beginning of the year, the supply-demand price adjustment has increased from a minus 24 cents per hundredweight to a minus 4 cents in November. (Official notice is taken in this connection of data published by the market administrator.)

The record shows that during the first five months of 1955, the volume of Class I sales had increased about 5 percent over a year earlier. In the same period, receipts from producers were down more than 6 percent. Effective August 1, this year the supply-demand ratio calculation was changed so that it would be more responsive to recent changes in supply and disposition. As a result, producers' prices are already affected by the improvement in utilization which has occurred this year.

Even with the changes in utilization already noted, data and testimony in the record indicate the market will continue to have an adequate supply under present price formulas. Accordingly, it is concluded no change should be made in the annual level of the Class I differentials.

Producer testimony on Class I differentials favored reducing the amount of seasonal variation in the differentials. It was contended that, with the base and excess plan in effect, a more moderate variation in the differentials would be appropriate. Handlers contended, however, that some seasonal variation is important so that they can maintain their competitive position with respect to sales in nearby markets.

It has been concluded herein that no change should be made in the annual level of the differentials. Nevertheless, a seasonal schedule of differentials with less variation could be devised. A schedule of differentials using 80 cents for the December–July period, and $1.10, as now, for the August–November period, would have the advantage of giving greater incentive under the base plan, and yet would retain some seasonal variation. With respect to sales outside the marketing area, handlers would benefit by reduced cost in January, February, July and December to the same amount as their cost would be increased in the months of March through June. It is concluded that this schedule should be adopted.

3. *Accounting.* No change should be made on the basis of this record in the system of accounting for milk.

Proposals were made on the record to change entirely or partially the order accounting system, from the present milk equivalent method, to a method which accounts for skim milk and butterfat separately.

It is apparent on the record that most interests in the milk trade are generally satisfied with the present system of accounting. Only one handler advocated a complete revision of the accounting system. One producer group proposed separate accounting for butterfat and nonfat solids in ice cream. The same group, however, as well as handlers of most of the milk, opposed a general change in the accounting system at this time. The change with respect to ice cream was also opposed by handlers. Apparently resistance to a complete change to butterfat and skim milk accounting arises largely from uncertainty among the trade as to what the effects would be on the cost of products.

It is apparent from the testimony that the problem involves appropriate pricing as well as accounting for the butterfat and nonfat components of these products. It is not feasible to accomplish this purpose without a change in accounting with respect to all utilizations. A partial change would unduly complicate the accounting. The same is true with respect to proposed changes in methods of reconciliation.

Under the circumstances, it is concluded no change should be made in the accounting system at this time.

4. *Cheese price formula.* Milk used in the manufacture of American Cheese should continue to be classified and priced the same as other uses in Class IV.

A proposal made by producer groups would establish a special class and price for milk used in American Cheese. The proposed formula price is the same as proposed at a previous hearing, June 1–4, 7–11, and 14–15, 1954. The proposal as made on the June 1954 record was denied in a decision issued November 23, 1954 (19 F. R. 7693).

The formula would establish a per hundredweight price for milk on the basis of the following calculations: 9.745

x the price of State Brand Cheddar Cheese on the Plymouth Exchange, plus 0.3 x the price of Grade A (92-score) butter at Chicago, less 46.8 cents.

A supplementary proposal was that this formula should also serve as an alternative for the basic formula price.

The immediate effect of using the proposed formula would be a reduced value for part of what is now Class IV milk. In 1953 it would have averaged eight cents lower, in 1954, about 14 cents lower, and in March 1955, 16 cents lower than the Class IV price. In some prior periods it would have yielded a higher price than the Class IV price.

Proponents of the new price formula argued that this price relationship would be reasonable, since they claimed that cheese factories are not able to pay as much as butter-powder operations under current conditions, including the effect of the price support program. However, much evidence in the record was in disagreement with this contention.

Data as to prices paid by cheese factories and creameries in the United States since the beginning of 1948 show that at times the cheese factories have overpaid the creameries, and at other times the reverse has been true. In general, the paying prices of the two types of operations have moved upward or downward together, with only a small percentage of difference.

On a regional basis, prices paid by cheese factories in the East North Central States (Wisconsin, Illinois, Indiana, Michigan and Ohio) have averaged as high as, or higher than, prices paid by creameries, in each of the four years 1950–54. Other data in the record showed, for a group of cheese plants in Wisconsin, paying prices at the same level in recent months as the Class IV price.

Besides the immediate effect the proposed formula would have in reducing the value of all producer milk, there would be a tendency to encourage additional manufacturing operations to enter the pool. This would reduce the uniform price to all producers. In view of these disadvantages to producers in general, there is a question as to what need would be served by establishing a separate price for milk used in American Cheese at a generally lower level than the present Class IV formula price.

Under a class utilization pricing system, a surplus price serves to assure producers a market for milk in excess of the regular requirements of the market. Such a price should not be lower than needed to accomplish this purpose, for otherwise producer returns are unnecessarily reduced. This record does not show the need for the proposed lower price.

5. *Differential in marketing area.* No change should be made in the location differential applied to milk received in the marketing area.

The differential, as now effective, is 10 cents per hundredweight over the 70-mile zone price, and applies to milk which moves directly from farms to plants in the marketing area. Of this 10-cent differential, four cents is a charge against the plant receiving the milk, and the other six cents is, in effect, a payment out of the market-wide pool.

A handler proposed that the part of the differential paid out of the pool should be eliminated. This is the same as a proposal made at a hearing in June 1954, and denied in the decision previously referred to herein, issued November 23, 1954.

It was argued at this hearing that the inner-market differential is not in accord with uniform pricing insofar as part of it is paid out of the pool. Testimony failed to show, however, that the differential is incompatible with uniform pricing of milk, according to the location of the plant where the milk is received, as provided in the Act.

Testimony on this proposal did not indicate that the situation had changed significantly from conditions shown in the June 1954 hearing, except with respect to milk picked up at farms in tank trucks and delivered to the marketing area without being received at a plant outside the marketing area. It was argued that this method of milk procurement was not anticipated at the time the differential was established, and has made the differential work differently from the way intended.

Record data show that bulk tank procurement of milk at the farm has continued to develop. A relatively new phase of this development has been the practice of reloading the milk from several trucks into a larger truck for movement to the marketing area. This method of milk assembly has extended the distance of the bulk movement of milk from farms to area plants. Such milk, under the terms of the order, is entitled to the inner-market differential. In another part of this decision it is concluded that the order should establish the price for such milk at the point of assembly; i. e., the point at which the milk is reloaded from several tank trucks into the truck which delivers the milk to the marketing area. Evidence did not show that there had been any significant change in milk received at plants in the marketing area, aside from milk which had been reloaded as described above.

6. *Base-excess plan*—(a) *Calculation of base and excess prices.* No change should be made in the method of calculation of the base and excess prices.

A proposal was made by some cooperative associations of producers to alter the base and excess prices by making the excess price the same as the Class IV price. No location differentials would apply to the excess price under this plan. The base price would then represent the remaining value of producer milk.

Under the base-excess plan now in effect, there is a fixed difference of 40 cents per hundredweight between the base and excess prices. Location differentials apply equally to both base and excess prices, and accordingly the 40-cent difference is maintained in all zones. The base-making period is September through November, and payment on base and excess is made only in the months of March through June.

Proponents of the plan to use the Class IV price as an excess price complained of the low excess price in outer zones of the milkshed under the present method. As an example, it was pointed out that the May 1955 excess price in the 21st zone was $2.56, as compared to the Class IV price of $2.93. It was indicated that this condition caused some withdrawal of excess milk from the pool. Nonpool manufacturing plants paid more than such excess price.

It is observed, however, that the average return to a producer in the 21st zone, including both his base and excess milk, is no different from what his average return would be without the base-excess plan, except insofar as his seasonal variation in production differs from the market-wide average of seasonal variation. It is also observed that the relation of the excess price to the Class IV price is affected by the level of market-wide utilization. A relatively low level of utilization reduces the excess price in relation to the Class IV price. In this connection, the 10-cent higher Class I differential for the base-paying months in 1956, decided upon in another part of this decision, will tend to improve the excess price in relation to the Class IV price. A similar improvement will result from the supply-demand ratio, as amended, effective August 1, 1955, if the same general level of utilization persists.

In the non-base payment months of July through February, producer location differentials apply alike to all milk. The similar application of location differentials in base payment months results in the same allocation of the value of pool milk with respect to location, as in other months. The record does not justify a greater allocation of such value to outer zones in these months (such as would result from the proposed plan) than would be the case without the base plan.

(b) *Calculation of bases.* The amount of base milk for producers who have not earned a base, or who relinquish an earned base, should be 65 percent of deliveries in March 1956, 60 percent of deliveries in April 1956, 55 percent in May and June 1956, and five percent less than these percentages in the same months of subsequent years. Producers should be allowed until January 15 to elect the option of relinquishing an earned base.

Order provisions allow a producer until December 31 of any year to decide whether he wishes to retain his earned base or take a base calculated the same as for a new producer. For the 1955 season, a new producer's base was calculated for the several months as follows: For March, 65 percent of his average daily deliveries in the month, for April, 60 percent, and for May and June, 55 percent. Beginning with 1956, new producer bases would be calculated as 10 percent less than the average percentage of base milk calculated for the same month of the previous year with respect to producers with earned bases.

Proposals were made to reduce or eliminate the opportunity for a producer to relinquish his earned base in favor of a new base. These proposals were directed towards giving a greater incentive for producers to earn a satisfactory base during the September-November base-earning period. The magnitude of the problem is shown by the fact that for 1955, there were 4,888 producers who relinquished their bases.

One proposal was made to eliminate the option to claim a new base after January 15, 1956. Another proposal was made to change the 10 percent deduction which would begin to be effective in 1956, to be instead a deduction of 15 percent effective for the base-paying period of 1957, and 20 percent in 1958 and subsequent years.

The present provisions of the order serve to allow producers who experience hardship in earning a base, the same opportunity for sharing in the market as a producer entering the market during the base-payment period. It would appear that this feature of the order could be retained, and yet not render the plan ineffective in giving incentive for earning a base. Testimony generally favored continuation of use of optional bases through the 1956 base-payment period. In this connection, since producers have had a year of experience in adjusting their production to the base-excess plan it is possible there will be less cause for relinquishing earned bases than last season. However, the manner in which optional bases would be computed for the March–June 1956 period would appear to be more liberal than used in the prior season. Since this condition would tend to lessen the effectiveness of the base plan, it is preferable to retain the fixed percentages of deliveries for the 1956 base-paying period to serve as the method for computing an optional base. For subsequent years, the amount of optional base allowed should be reduced, as producers will have had greater opportunity to adjust their production. Beginning with the 1957 base-paying period, the percentages of base milk allowed to new producers and as optional bases should be 60 percent of deliveries in March, 55 percent in April, and 50 percent in May and June.

It was proposed that the period for allowing a producer to relinquish an earned base be extended from December 31, this year, as now provided, to January 15, 1956. Such an extension would give producers additional time to submit a notice of adopting new producer status, without interfering with the operation or administration of the base-excess plan. It is concluded that this change should be adopted with respect to bases earned in 1955 and subsequent years.

(c) *Base rules.* The following changes should be made in base rules:

Producers with more than one farm should be allowed to establish a base for each farm and relinquish a base for one farm without doing so for his other farms; if more than one producer ships from a farm, one base should be computed for the farm, and be allocated to each producer according to his share in the sale of milk from the farm; provision should be made for division of a jointly held base; provision should be made to allow a producer to transfer credit towards establishment of a base in the same manner as he may transfer a base. The base rules should not be amended to allow a base to be earned on milk delivered to nonpool plants.

Testimony indicated that a number of producers with multiple farms found themselves at a disadvantage in that they could not relinquish a base and take the option of new producer status under the same circumstances as producers with a single farm. Present rules require that a producer with more than one farm must relinquish bases earned on all his farms, if he relinquishes the base on one farm. It was testified there would be little danger of manipulation if a producer were allowed to elect the optional base on each farm separately. The proposed change is adopted in the proposed amendment attached hereto.

An additional base rule was proposed by the Dairy Division with respect to farms where there are two or more producers. Under the proposal, each producer would share in the base, during March, April, May, and June, in the same proportion each month as he shares in the milk deliveries. This provision will serve to clarify administration of the base plan and should be adopted. Another provision proposed by the Dairy Division would allow producers having an interest in a jointly held base to divide the base upon notice to the market administrator within the month in which the division is effective. It would be provided, however, that if producers holding a joint base cease producing milk, and do not notify the market administrator of the terms of division, it shall be divided in the same proportion as they shared in milk deliveries during the base-making period, except that in the case of a partnership, the base shall be divided equally among the producers. This provision appears to be in accord with the experience in administration of the base plan, and will provide a specific method of division of bases.

An additional provision should be included to allow transfers of credit towards an earned base by a producer who discontinues shipping milk during the base-earning period.

It was proposed that a producer who has not earned a base on this market be allowed a base computed on his record of deliveries to another market.

Testimony in opposition to this proposal stressed the danger that dairy farmers, who in the short season sell in secondary markets where no base plans exist, might take advantage of such a provision to exploit the producer pool in this market during the base-payment months. There does not appear to be a real need for such a provision, inasmuch as a base allowance is provided for new producers.

7. *Allocation of own farm production.* The order should be changed to be explicit as to the method of prorating "own farm" production.

The order provides in § 941.45 (a) that a handler's own farm production be subtracted pro rata from the pounds of milk in each class. The method of prorating to each class is to assign the same percentage of this milk to each class as the handler's total utilization in such class is of his total receipts.

It was proposed by a handler, having own farm production, that the order be amended to provide a different method of proration. An exhibit presented at the hearing compared the present method of allocation with the proposed method. This exhibit shows that under the present method of allocating own farm production, the money value per hundredweight of the milk from a handler's own farm is equal to the money value per hundredweight of other milk which is pooled. The proposed method on the other hand gives different money values to own farm production and producer milk. This record does not support changing the relative values of own farm production and producer milk. Accordingly, it is concluded that the present method of prorating own farm production should be continued. The method should be explicitly set forth in the order.

8. *Price for sales outside the surplus milk manufacturing area.* No action relative to the provision for 70 cents additional Class I and Class II price on sales outside the surplus milk manufacturing area should be taken on this record. Before further action is taken, this year's experience with the provision needs to be evaluated.

On the basis of the hearing on August 24, 1955, this provision was amended to free week-end shipments from the provision for October and November 1955. Also this provision was set aside by suspension actions for September this year, and, subsequent to the amendment referred to, for November this year. The effects of such steps, as well as market experience with the provision this year, should become a part of the record of any hearing for considering whether beneficial effects can any longer reasonably be expected from this provision, and, if so, whether they might be enhanced by further amendment.

On this record, testimony in regard to this provision was conflicting. A few producer associations, arguing for its elimination, contended that it had become essentially detrimental to producers. Such argument was based on data showing changed conditions in the interstate and inter-regional trade in fluid milk, and in supply conditions of the Chicago area trade, and how the provision seems to have affected the marketing and prices of producer milk. Other parties, including most handlers as well as associations of producers representing the majority of producers, while admitting changed conditions as revealed by the data, supported the provision in its present or some modified form. Doubtless, evidence from this year's experience would contribute something to an appraisal of this provision. Since it will not again apply until next Fall, it may be examined in the light of this year's experience as well as its previous history.

9. *Pool plant approval.* The proposal to delete § 941.66 (c) is denied. No testimony was offered on this proposal.

10. *Pricing at reloading points.* Producer milk moved from the farm in a bulk tank truck and reloaded into another tank truck before entering a plant should be priced at the point of reloading.

A proposal was made on the record to establish order prices at locations where milk is reloaded, from the tank trucks which have brought the milk from farms, into a larger tank truck for movement to a plant. The proposal contemplated that the zone differentials, applicable in the case of milk reloaded in the manner described, would be the same as now applied in the case of plants, except that for milk reloaded in the marketing area the location differential would be four cents over the 70-mile zone price.

The evidence showed continued development of the practice of collecting milk from producers' farms in tank trucks. In March 1955, milk was obtained from 1398 producers in this manner as compared to 1040 in the prior November. Another recent development is the practice of transferring into a larger tank truck the loads from several trucks which have collected the milk from farms. Such reloading is accomplished without the milk entering a plant. It was testified that the health authority for Chicago has required that such transfers take place at approved facilities equipped for washing the tanks. In every case the reloading takes place at an established location.

The order now establishes minimum producer prices at the plant where the milk is first received. It is at this stage in the marketing process that milk received in cans, which currently represents most of the milk for the market, is accepted by the handler, and loses its identity as the milk of any particular producer. Plant prices are established throughout the supply area by the application of zone differentials based upon the cost of moving the milk to the market. The producer is thus assured of the order price, subject, of course to hauling and miscellaneous charges, at a plant with which he may establish a regular business connection. The same conditions apply to milk collected at farms in tank trucks and brought directly to a plant, except that such milk is accepted prior to arrival at the plant.

The development of reload points raises the problem as to whether, under present order provisions, the producer can be assured that his milk is similarly fully subject to order regulation, as in the case of milk moving directly to a plant. It is observed that the reloading operation makes it practically impossible for the individual farmer to know the actual plant destination of his milk. If producer prices under the order could be established at reload points, the producer would be assured of (1) a more definite association with the market, and (2) order prices for all of his milk moving to the reloading point.

It is apparent that milk transferred at a reload point has been accepted by the handler. The milk has already lost its identity, inasmuch as it has been commingled with other milk. Furthermore, the reloading operation provides a definite location for establishing a price, and the substantialness of the operation provides a basis for assigning responsibility for the milk under the order. For the handler, the reload point serves as a means of assembling loads for movement in large tank lots the same as milk moved from a receiving plant. The reload points have a regular association with the market in that they are operated primarily for supplying this market.

In view of the circumstances described, it appears that the function of a reload point is sufficiently similar to the function of pool plants as now defined so that a reload point may be considered to be a type of pool plant. Such a treatment of reload points under the order would mean that all qualified milk handled at the reload point would be producer milk. This appears to be a logical extension of the method of pricing now employed under the order, and it should be adopted.

General findings. (a) The tentative marketing agreement and the order, as amended and as hereby proposed to be further amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act;

(b) The parity prices of milk as determined pursuant to § 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply of and demand for milk in the marketing area, and the minimum prices specified in the tentative marketing agreement and in the order, as amended, and as hereby proposed to be further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk and be in the public interest; and

(c) The tentative marketing agreement and the order, as amended, and as hereby proposed to be further amended, will regulate the handling of milk in the same manner as, and will be applicable only to persons in the respective classes of industrial and commercial activity, specified in a marketing agreement upon which a hearing has been held.

Rulings. Briefs were filed on behalf of interested persons. The briefs contained suggested findings of facts, conclusions, and arguments with respect to the proposals considered at the hearing. Every point covered in the briefs was carefully examined along with the evidence in the record in making the findings and reaching the conclusions hereinbefore set forth. To the extent that the suggested findings and conclusions are inconsistent with the findings and conclusions contained herein, the request to make such findings or to reach such conclusions is denied.

Recommended marketing agreement and amendment to the order, as amended. The following amendment to the order, as amended, regulating the handling of milk in the Chicago, Illinois, marketing area, is recommended as the detailed and appropriate means by which the foregoing conclusions may be carried out. The recommended marketing agreement is not included in this decision because the regulatory provisions thereof would be identical with those contained in the order, as amended, and as hereby proposed to be further amended.

1. Add a new § 941.19 as follows:

§ 941.19 *Reload point.* "Reload point" means any location at which milk moved from the farm in a tank truck is reloaded into another truck before entering a plant.

2. Delete § 941.45 (a) and substitute the following:

(a) Subtract from the pounds in each class the pounds of milk received from a handler's own farm production as follows:

(1) Determine the total quantity of milk, skim milk, and 3.5 percent milk equivalent of the butterfat in cream received by the handler from all sources;

(2) Determine the percentage that the quantity of milk in each class, computed pursuant to § 941.44, is of the quantity of milk computed pursuant to subparagraph (1) of this paragraph;

(3) Multiply the pounds of milk in own farm production by the percentages computed in subparagraph (2) of this paragraph and subtract the resulting pounds from the pounds of milk in the respective class.

3. In § 941.65 (a) after the word "plant" insert a comma and the words "or reload point,".

4. In § 941.66 delete the words preceding paragraph (a) and substitute the following:

§ 941.66 *Pool plant.* "Pool plant" means any plant or reload point which receives milk from dairy farmers and which:

5. In § 941.69 (a) (1) delete the words "December 31" and insert the words "January 15 preceding the months in which the base applies,".

6. Delete § 941.69 (a) (2) and substitute the following:

(2) Any producer who has not earned a base by deliveries during the previous September, October and November, and any producer who elects to relinquish his base pursuant to subparagraph (1) of this paragraph, shall be allotted a base for each of the delivery periods of March, April, May and June equal to the following percentages of his average daily deliveries:

Month:	Percentage
March	60
April	55
May	50
June	50

Provided, That for March, April, May and June 1956, the percentages used shall be, respectively, 65, 60, 55 and 55.

7. Delete § 941.69 (b) (3) and substitute the following:

(3) Where two or more producers deliver milk from the same farm, the market administrator shall compute one base for each such farm, which base shall be jointly held in the names of the producers. During March, April, May and June, each producer having an interest in a jointly held base shall share the base during each delivery period in the same proportion as he shares in the milk deliveries in such delivery period.

8. Renumber § 941.69 (b) (4) as § 941.69 (b) (5) and insert a new subparagraph (4) as follows:

(4) A jointly held base may be divided among the producers having an interest in such base by notification in writing to the market administrator postmarked not later than the last day of the month during which the division is to be effective, such notification to specify the terms of division of base and bearing the signatures of all interested producers: *Provided*, That in the event producers holding a joint base cease producing milk from the same farm, and do not notify the market administrator of their agreed terms of division of base by letter postmarked not later than the last day of the month during which the division is effective, the market administrator shall divide the base among the producers in the same ratio as they shared in the milk deliveries during the base-making period, or if the base is held in the name of a partnership, it shall be divided equally among the interested producers.

9. In § 941.69 (b) insert subparagraph (6) as follows:

(6) Subject to the provisions set forth in subparagraph (2) of this paragraph, a producer who discontinues shipping milk to a pool plant during September, October or November may transfer to another producer credit for milk deliveries for base making purposes.

Issued at Washington, D. C., this 29th day of November, 1955.

[SEAL] ROY W. LENNARTSON,
Deputy Administrator.

NOTICES

DEPARTMENT OF THE TREASURY

Fiscal Service, Bureau of the Public Debt

[1955 Dept. Circular 971]

2⅝ PERCENT TREASURY CERTIFICATES OF INDEBTEDNESS OF SERIES D–1956

OFFERING OF CERTIFICATES

NOVEMBER 28, 1955.

I. *Offering of certificates.* 1. The Secretary of the Treasury, pursuant to the authority of the Second Liberty Bond Act, as amended, invites subscriptions from the people of the United States for certificates of indebtedness of the United States, designated 2⅝ percent Treasury Certificates of Indebtedness of Series D–1956, in exchange for 1¼ percent Treasury Certificates of Indebtedness of Series E–1955, maturing December 15, 1955, or 1¾ percent Treasury Notes of Series B–1955, maturing December 15, 1955. Exchanges will be made at par with an adjustment of interest as of December 1, 1955. The amount of the offering under this circular will be limited to the amount of maturing certificates and notes tendered in exchange and accepted. The books will be open only on November 28 through November 30 for the receipt of subscriptions for this issue.

2. In addition to the offering under this circular, holders of the maturing securities are offered the privilege of exchanging all or any part of such securities for 2⅞ percent Treasury Notes of Series A–1958, which offering is set forth in Department Circular No. 972, issued simultaneously with this circular.

II. *Description of certificates.* 1. The certificates will be dated December 1, 1955, and will bear interest from that date at the rate of 2⅝ percent per annum, payable with the principal at maturity on December 1, 1956. They will not be subject to call for redemption prior to maturity.

2. The income derived from the certificates is subject to all taxes imposed under the Internal Revenue Code of 1954. The certificates are subject to estate, inheritance, gift or other excise taxes, whether Federal or State, but are exempt from all taxation now or hereafter imposed on the principal or interest thereof by any State, or any of the possessions of the United States, or by any local taxing authority.

3. The certificates will be acceptable to secure deposits of public moneys. They will not be acceptable in payment of taxes.

4. Bearer certificates will be issued in denominations of $1,000, $5,000, $10,000, $100,000, $1,000,000, $100,000,000 and $500,000,000. The certificates will not be issued in registered form.

5. The certificates will be subject to the general regulations of the Treasury Department, now or hereafter prescribed, governing United States certificates.

III. *Subscription and allotment.* 1. Subscriptions will be received at the Federal Reserve Banks and Branches and at the Office of the Treasurer of the United States, Washington. Banking institutions generally may submit subscriptions for account of customers, but only the Federal Reserve Banks and the Treasury Department are authorized to act as official agencies.

2. The Secretary of the Treasury reserves the right to reject or reduce any subscription, and to allot less than the amount of certificates applied for; and any action he may take in these respects shall be final. Subject to these reservations, all subscriptions will be allotted in full. Allotment notices will be sent out promptly upon allotment.

IV. *Payment.* 1. Payment at par for certificates allotted hereunder must be made on or before December 8, 1955, or on later allotment, and may be made only in Treasury Certificates of Indebtedness of Series E-1955 or Treasury Notes of Series B-1955, maturing December 15, 1955, which will be accepted at par, and should accompany the subscription. Coupons dated December 15, 1955, must be *attached* to the certificates and notes when surrendered, and accrued interest from December 15, 1954, to December 1, 1955 ($12.02055 per $1,000) in the case of the certificates, and accrued interest from June 15, 1955, to December 1, 1955 ($8.0806 per $1,000) in the case of the notes, will be paid on December 8 following acceptance of the securities to be exchanged.

V. *General provisions.* 1. As fiscal agents of the United States, Federal Reserve Banks are authorized and requested to receive subscriptions, to make allotments on the basis and up to the amounts indicated by the Secretary of the Treasury to the Federal Reserve Banks of the respective Districts, to issue allotment notices, to receive payment for certificates allotted, to make delivery of certificates on full-paid subscriptions allotted, and they may issue interim receipts pending delivery of the definitive certificates.

2. The Secretary of the Treasury may at any time, or from time to time, prescribe supplemental or amendatory rules and regulations governing the offering, which will be communicated promptly to the Federal Reserve Banks.

[SEAL] W. RANDOLPH BURGESS,
Acting Secretary of the Treasury.

[F. R. Doc. 55-9662; Filed, Dec. 1, 1955; 8:47 a. m.]

[1955 Dept. Circular 972]

2⅞ PERCENT TREASURY NOTES OF SERIES A–1958

OFFERING OF NOTES

NOVEMBER 28, 1955.

I. *Offering of notes.* 1. The Secretary of the Treasury, pursuant to the authority of the Second Liberty Bond Act, as amended, invites subscriptions from the people of the United States for notes of the United States, designated 2⅞ percent Treasury Notes of Series A–1958, in exchange for 1¼ percent Treasury Certificates of Indebtedness of Series E–1955, maturing December 15, 1955, or 1¾ percent Treasury Notes of Series B–1955, maturing December 15, 1955. Exchanges will be made at par with an adjustment of interest as of December 1, 1955. The amount of the offering under this circular will be limited to the amount of maturing certificates and notes tendered in exchange and accepted. The books will be open only on November 28 through November 30 for the receipt of subscriptions for this issue.

2. In addition to the offering under this circular, holders of the maturing

securities are offered the privilege of exchanging all or any part of such securities for 2⅝ percent Treasury Certificates of Indebtedness of Series D–1956, which offering is set forth in Department Circular No. 971, issued simultaneously with this circular.

II. *Description of notes.* 1. The notes will be dated December 1, 1955, and will bear interest from that date at the rate of 2⅞ percent per annum, payable on a semiannual basis on June 15 and December 15, 1956, and thereafter on June 15 and December 15 in each year until the principal amount becomes payable. They will mature June 15, 1958, and will not be subject to call for redemption prior to maturity.

2. The income derived from the notes is subject to all taxes imposed under the Internal Revenue Code of 1954. The notes are subject to estate, inheritance, gift or other excise taxes, whether Federal or State, but are exempt from all taxation now or hereafter imposed on the principal or interest thereof by any State, or any of the possessions of the United States, or by any local taxing authority.

3. The notes will be acceptable to secure deposits of public moneys. They will not be acceptable in payment of taxes.

4. Bearer notes with interest coupons attached will be issued in denominations of $1,000, $5,000, $10,000, $100,000, $1,000,000, $100,000,000 and $500,000,000. The notes will not be issued in registered form.

5. The notes will be subject to the general regulations of the Treasury Department, now or hereafter prescribed, governing United States notes.

III. *Subscription and allotment.* 1. Subscriptions will be received at the Federal Reserve Banks and Branches and at the Office of the Treasurer of the United States, Washington. Banking institutions generally may submit subscriptions for account of customers, but only the Federal Reserve Banks and the Treasury Department are authorized to act as official agencies.

2. The Secretary of the Treasury reserves the right to reject or reduce any subscription, and to allot less than the amount of notes applied for; and any action he may take in these respects shall be final. Subject to these reservations, all subscriptions will be allotted in full. Allotment notices will be sent out promptly upon allotment.

IV. *Payment.* 1. Payment at par for notes allotted hereunder must be made on or before December 8, 1955, or on later allotment, and may be made only in Treasury Certificates of Indebtedness of Series E–1955 or Treasury Notes of Series B–1955, maturing December 15, 1955, which will be accepted at par, and should accompany the subscription. Coupons dated December 15, 1955, must be *attached* to the certificates and notes when surrendered, and accrued interest from December 15, 1954, to December 1, 1955 ($12.02055 per $1,000) in the case of the certificates, and accrued interest from June 15, 1955, to December 1, 1955 ($8.0806 per $1,000) in the case of the notes, will be paid on December 8 following acceptance of the securities to be exchanged.

V. *General provisions.* 1. As fiscal agents of the United States, Federal Reserve Banks are authorized and requested to receive subscriptions, to make allotments on the basis and up to the amounts indicated by the Secretary of the Treasury to the Federal Reserve Banks of the respective Districts, to issue allotment notices, to receive payment for notes allotted, to make delivery of notes on full-paid subscriptions allotted, and they may issue interim receipts pending delivery of the definitive notes.

2. The Secretary of the Treasury may at any time, or from time to time, prescribe supplemental or amendatory rules and regulations governing the offering, which will be communicated promptly to the Federal Reserve Banks.

[SEAL] W. RANDOLPH BURGESS,
Acting Secretary of the Treasury.

[F. R. Doc. 55–9663; Filed, Dec. 1, 1955; 8:47 a. m.]

DEPARTMENT OF THE INTERIOR

Bureau of Reclamation

COLORADO RIVER STORAGE AND YUMA PROJECTS, ARIZONA

ORDER OF REVOCATION

DECEMBER 16, 1954.

Pursuant to the authority delegated by Departmental Order No. 2765 of July 30, 1954, I hereby revoke Departmental Orders of July 2, 1902, September 30, 1904, and March 14, 1929, insofar as said orders affect the following described lands: *Provided, however,* That such revocation shall not affect the withdrawal of any other lands by said orders or affect any other orders withdrawing or reserving the lands hereinafter described.

GILA AND SALT RIVER MERIDIAN, ARIZONA

T. 9 S., R. 21 W.,
Sec. 4, all;
Sec. 5, N½, SE¼;
Secs. 6 to 9 incl., and 16 to 18 incl., all.
T. 9 S., R. 22 W.,
Sec. 2, S½;
Sec. 3, E½SE¼;
Sec. 9, E½SE¼, SW¼SE¼;
Secs. 10 to 15 incl., all;
Sec. 16, E½, SW¼;
Sec. 20, E½;
Secs. 21 to 28 incl., all;
Sec. 29, E½, E½NW¼, SW¼;
Sec. 30, S½SE¼;
Sec. 31, N½, N½SW¼, SE¼;
Secs. 32 to 36 incl., all.

The above area aggregates 20,250.48 acres.

FLOYD E. DOMINY,
Acting Assistant Commissioner.

[68233]

NOVEMBER 28, 1955.

I concur. The records of the Bureau of Land Management will be noted accordingly.

Portions of the released lands are school lands or have been patented. The following-described lands are vacant public domain:

GILA AND SALT RIVER MERIDIAN

T. 9 S., R. 21 W.,
Sec. 4, Lots 1, 2, 3, 4, S½N½, SE¼;
Sec. 5, Lots 1, 2, S½NE¼;
Sec. 6, Lots 3, 4, 5, SE¼NW¼;
Sec. 7, SE¼;
Sec. 8, SE¼;
Sec. 9, NW¼;
Sec. 17, E½, SW¼, S½NW¼;
Sec. 18, Lots 1, 2, 3, 4, SE¼, E½W½, S½NE¼.
T. 9 S., R. 22 W.,
Sec. 10, SE¼;
Sec. 12, SE¼SW¼;
Sec. 13;
Sec. 14, S½, E½NE¼, SW¼NE¼;
Sec. 22, NE¼, E½SE¼, SW¼SE¼, SE¼SW¼;
Secs. 23, 24, 25, 26 and 27;
Sec. 28, S½;
Sec. 29, W½NE¼, SE¼SE¼, NE¼SW¼;
Sec. 30, S½SE¼;
Secs. 33, 34 and 35.

The areas described aggregate 9,664.75 acres.

The restored lands are located on the Yuma Desert west of the Gila Mountains in southwestern Arizona. The topography in the southeastern portion of the area is quite rough and broken, becoming more level and open toward the north and west. The soil is principally sand of varying grades. Elevation ranges from about 200 to 375 feet above sea level, and vegetation consists of a sparse desert shrub association dominated by creosote bush. The climate is arid with approximately four inches of rain annually. None of the lands are considered suitable for agricultural development.

No application for the lands may be allowed under the homestead, desert-land, small tract, or any other nonmineral public-land law unless the lands have already been classified as valuable or suitable for such type of application, or shall be so classified upon the consideration of an application. Any application that is filed will be considered on its merits. The lands will not be subject to occupancy or disposition until they have been classified.

Subject to any valid existing rights and the requirements of applicable law, the lands are hereby opened to filing of applications, selections, and locations in accordance with the following:

a. Applications and selections under the nonmineral public-land laws may be presented to the Manager mentioned below, beginning on the date of this order. Such applications and selections will be considered as filed on the hour and respective dates shown for the various classes enumerated in the following paragraphs:

(1) Applications by persons having prior existing valid settlement rights, preference rights conferred by existing laws, or equitable claims subject to allowance and confirmation will be adjudicated on the facts presented in support of each claim or right. All applications presented by persons other than those referred to in this paragraph will be subject to the applications and claims mentioned in this paragraph.

(2) All valid applications under the Homestead, Desert Land, and Small Tract Laws by qualified veterans of World War II or of the Korean Conflict, and by others entitled to preference rights under the act of September 27, 1944 (58 Stat. 747; 43 U. S. C. 279–284, as amended), presented prior to 10:00 a. m. on January 3, 1955, will be considered as simultaneously filed at that hour. Rights under such preference right applications filed after that hour and before 10:00 a. m. on April 3, 1956, will be governed by the time of filing.

(3) All valid applications and selections under the nonmineral public-land laws, other than those coming under paragraphs (1) and (2) above, presented prior to 10:00 a. m. on April 3, 1956, will be considered as simultaneously filed at that hour. Rights under such applications and selections filed after that hour will be governed by the time of filing.

b. The lands have been open to applications and offers under the mineral-leasing laws and to location for metalliferous minerals. They will be open to location for non-metalliferous minerals under the United States mining laws beginning at 10:00 a. m. on April 3, 1956.

Persons claiming veterans preference rights must enclose with their applications proper evidence of military or naval service, preferably a complete photostatic copy of the certificate of honorable discharge. Persons claiming preference rights based upon valid settlement, statutory preference, or equitable claims must enclose properly corroborated statements in support of their claims. Detailed rules and regulations governing applications which may be filed pursuant to this notice can be found in Title 43 of the Code of Federal Regulations.

Inquiries concerning the lands shall be addressed to the Manager, Land Office, Bureau of Land Management, Phoenix, Arizona.

EDWARD WOOZLEY,
Director,
Bureau of Land Management.

[F. R. Doc. 55–9646; Filed, Dec. 1, 1955; 8:45 a. m.]

EXCHEQUER RESERVOIR PROJECT, CALIFORNIA

ORDER OF REVOCATION

FEBRUARY 24, 1955.

Pursuant to the authority delegated by Departmental Order No. 2765 of July 30, 1954 (19 F. R. 5004), I hereby revoke Departmental Order of November 16, 1932, in so far as said order affects the following described land: *Provided, however,* That such revocation shall not affect the withdrawal of any other lands by said order or affect any other orders withdrawing or reserving the land hereinafter described:

MOUNT DIABLO MERIDIAN, CALIFORNIA

T. 3 S., R. 15 E.,
Sec. 9, SE¼NE¼;
Sec. 35, SW¼SE¼.
T. 3 S., R. 16 E.,
Sec. 5, S½SW¼;
Sec. 6, Lots 5, 6, 7, NE¼SW¼, N½SE¼, SE¼SE¼;
Sec. 7, Lots 6, 7, 8, S½NE¼, NE¼NW¼;
Sec. 8, Lot 4;
Sec. 17, Lots 6, 7, NW¼NW¼;
Sec. 18, Lots 6, 7, NE¼, W½SE¼;
Sec. 20, SE¼NE¼;
Sec. 26, NW¼SW¼.

and by others entitled to preference rights under the act of September 27, 1944 (58 Stat. 747; 43 U. S. C. 279–284, as amended), presented prior to 10:00 a. m. on January 3, 1955, will be considered as simultaneously filed at that hour. Rights under such preference right applications filed after that hour and before 10:00 a. m. on April 3, 1956, will be governed by the time of filing.

(3) All valid applications and selections under the nonmineral public-land laws, other than those coming under paragraphs (1) and (2) above, presented prior to 10:00 a. m. on April 3, 1956, will be considered as simultaneously filed at that hour. Rights under such applications and selections filed after that hour will be governed by the time of filing.

b. The lands have been open to applications and offers under the mineral-leasing laws and to location for metalliferous minerals. They will be open to location for non-metalliferous minerals under the United States mining laws beginning at 10:00 a. m. on April 3, 1956.

Persons claiming veterans preference rights must enclose with their applications proper evidence of military or naval service, preferably a complete photostatic copy of the certificate of honorable discharge. Persons claiming preference rights based upon valid settlement, statutory preference, or equitable claims must enclose properly corroborated statements in support of their claims. Detailed rules and regulations governing applications which may be filed pursuant to this notice can be found in Title 43 of the Code of Federal Regulations.

Inquiries concerning the lands shall be addressed to the Manager, Land Office, Bureau of Land Management, Phoenix, Arizona.

EDWARD WOOZLEY,
Director,
Bureau of Land Management.

T. 4 S., R. 18 E.,
Sec. 21, NW¼NW¼.
T. 3 S., R. 17 E.,
Sec. 31, Lots 11, 12, 13, 14, 15.
T. 4 S., R. 17 E.,
Sec. 6, Lots 3, 4, 13.

The above area aggregates 1,524.83 acres.

E. G. NIELSEN,
Acting Commissioner.

[1476664]

NOVEMBER 28, 1955.

I concur. The records of the Bureau of Land Management will be noted accordingly.

The lands are withdrawn for power site purposes and are, therefore, not subject to the provisions of the act of September 27, 1944 (58 Stat. 747; 43 U. S. C. 279–284), as amended, granting preference rights to veterans of World War II, the Korean Conflict, and others.

EDWARD WOOZLEY,
Director,
Bureau of Land Management.

[F. R. Doc. 55–9647; Filed, Dec. 1, 1955; 8:45 a. m.]

MISSOURI RIVER BASIN PROJECT, COLORADO

ORDER OF REVOCATION

MAY 12, 1953.

Pursuant to the authority delegated by Departmental Order No. 2515 of April 7, 1949 (14 F. R. 1937), I hereby revoke Departmental Order of December 22, 1949, in so far as said order affects the following described land; *Provided, however,* That such revocation shall not affect the withdrawal of any other lands by said order or affect any other orders withdrawing or reserving the land hereinafter described:

SIXTH PRINCIPAL MERIDIAN, COLORADO

T. 5 S., R. 44 W.,
Sec. 14, Lots 12 and 13.

The above area aggregates 43.78 acres.

G. W. LINEWEAVER,
Assistant Commissioner.

[64708]

NOVEMBER 28, 1955.

I concur. The records of the Bureau of Land Management will be noted accordingly.

The land is situated approximately six miles south of Idalia, Colorado. These lands are not suitable for crop production due to shallow, sandy soils, low average annual precipitation and lack of water for irrigation.

No application for the lands may be allowed under the homestead, desert-land, small tract, or any other nonmineral public-land law unless the lands have already been classified as valuable or suitable for such type of application, or shall be so classified upon the consideration of an application. Any application that is filed will be considered on its merits. The lands will not be subject to occupancy or disposition until they have been classified.

Subject to any existing valid rights and the requirements of applicable law, the lands are hereby opened to filing of applications, selections, and locations in accordance with the following:

a. Applications and selections under the nonmineral public-land laws may be presented to the Manager mentioned below, beginning on the date of this order. Such applications, selections, and offers will be considered as filed on the hour and respective dates shown for the various classes enumerated in the following paragraphs:

(1) Applications by persons having prior existing valid settlement rights, preference rights conferred by existing laws, or equitable claims subject to allowance and confirmation will be adjudicated on the facts presented in support of each claim or right. All applications presented by persons other than those referred to in this paragraph will be subject to the applications and claims mentioned in this paragraph.

(2) All valid applications under the Homestead, Desert Land, and Small Tract Laws by qualified veterans of World War II or of the Korean Conflict, and by others entitled to preference rights under the act of September 27, 1944 (58 Stat. 747; 43 U. S. C. 279–284 as amended), presented prior to 10:00 a. m. on January 3, 1955, will be considered as simultaneously filed at that hour. Rights under such preference right applications filed after that hour and before 10:00 a. m. on April 3, 1956, will be governed by the time of filing.

(3) All valid applications and selections under the nonmineral public-land laws, other than those coming under paragraphs (1) and (2) above, presented prior to 10:00 a. m. on April 3, 1956, will be considered as simultaneously filed at that hour. Rights under such applications and selections filed after that hour will be governed by the time of filing.

The lands have been open to applications and offers under the mineral-leasing laws and to location for metalliferous minerals. They will be open to location for non-metalliferous minerals under the United States mining laws beginning at 10:00 a. m. on April 3, 1956.

Persons claiming veterans preference rights must enclose with their applications proper evidence of military or naval service, preferably a complete photostatic copy of the certificate of honorable discharge. Persons claiming preference rights based upon valid settlement, statutory preference, or equitable claims must enclose properly corroborated statements in support of their claims. Detailed rules and regulations governing applications which may be filed pursuant to this notice can be found in Title 43 of the Code of Federal Regulations.

Inquiries concerning the lands shall be addressed to the Manager, Land Office, Bureau of Land Management, Denver, Colorado.

EDWARD WOOZLEY,
Director,
Bureau of Land Management.

[F. R. Doc. 55–9648; Filed, Dec. 1, 1955; 8:45 a. m.]

Office of the Secretary

OUTER CONTINENTAL SHELF; GULF OF MEXICO

ADDITIONAL AREAS PLATTED FOR LEASING PURPOSES

Pursuant to 43 CFR 201.3 (b), the Bureau of Land Management has prepared additional maps to supplement the existing leasing maps for those portions of the outer Continental Shelf known as the High Island area off Texas and the West Cameron area off Louisiana. The purpose of these maps is solely and exclusively to make the additional areas available for leasing. The additional areas will be designated as the High Island Area, East Addition, which is platted on Bureau of Land Management Map Texas 7–A, and the West Cameron Area, West Addition, which is platted on Bureau of Land Management Map Louisiana 1–A. Maps Louisiana 1–A and Texas 7–A will be available for public distribution at the Bureau of Land Management, Washington 25, D. C., or at the local office of the Bureau of Land Management, 608 Masonic Temple Building, New Orleans, Louisiana by December 5, 1955.

Because there is an apparent controversy as to the location of the line dividing the States of Louisiana and Texas the area within which that conflict can possibly exist is not platted at this time.

The Federal adoptions of the Texas and Louisiana platting systems extend seaward from the outermost limits of all zones of controversy between those States and they are separated by a line which extends S. 11° 30′ E., true bearing, from a point at the center of the mouth of the Sabine River. The direction of this line was determined graphically in a position normal to the shore line by bisection of the angle of intersection, based upon the general direction of the shore for distances of 40 geographical miles east and west of the mouth of the Sabine River. The line so delineated is substantially equidistant from the shorelines to the full distance, if extended, to the limit of the outer Continental Shelf.

The line separating the two platting systems is solely for administrative use in leasing areas on the outer Continental Shelf. It is in no way to be construed as an executive determination or inference of the location of the boundary between the States of Louisiana and Texas and the method of tract designation used is intended to be and is an exception to the provisions of 43 CFR 201.3 by reason of the existing uncertainty respecting the position of that boundary nor is it intended as the projection of the States' boundaries which the President is required to determine under section 4 (a) (2) of the Outer Continental Shelf Lands Act for the purpose of fixing the areas for which the laws of Texas and the laws of Louisiana respectively are adopted and apply. This Department expressly disclaims any intent to determine or define either of these boundary lines.

DOUGLAS MCKAY,
Secretary of the Interior.

NOVEMBER 25, 1955.

DEPARTMENT OF AGRICULTURE

Commodity Stabilization Service

BURLEY TOBACCO MARKETING QUOTA REFERENDUM

The Secretary of Agriculture has duly proclaimed, pursuant to the provisions of the Agricultural Adjustment Act of 1938, as amended, national marketing quotas for burley tobacco for the marketing years beginning October 1, of 1956, 1957 and 1958. A referendum of farmers who were engaged in the production of the 1955 crop of burley tobacco will be held pursuant to the provisions of the Agricultural Adjustment Act of 1938, as amended, and applicable regulations to determine whether such farmers are in favor of or opposed to burley tobacco marketing quotas for the next three succeeding marketing years beginning October 1, 1956.

Registration. The operator on each farm on which burley tobacco was produced in 1955 should inform a county or community committeeman of the names and addresses of all persons sharing in the proceeds of such crop in order that their names may be listed on the register of eligible voters. The eligibility to vote of any person may be challenged if his name is not recorded on the registration list.

Eligibility to vote. 1. All persons engaged in the production of the 1955 crop of burley tobacco are eligible to vote in the referendum. Any person who shares in the proceeds of the 1955 crop of burley tobacco as owner (other than a landlord of a standing-rent or fixed-rent tenant), tenant, or share cropper, is considered as engaged in the production of such crop of tobacco in 1955.

2. If several members of the same family participate in the production of the 1955 crop of burley tobacco on a farm, the only member or members of such family who shall be eligible to vote shall be the member or members of the family who have an independent bona fide status as operator, share tenant, or share cropper, and are entitled as such to share in the proceeds of the 1955 crop.

3. No person shall be eligible to vote in any community other than the community in which he resides except as follows:

(a) Any person who resides in a community in which there is no polling place shall be eligible to vote at the polling place designated for the community nearest to the community in which he was engaged in the production of burley tobacco in 1955.

(b) Any person who does not reside in or who will not be present in the county in which he engaged in the production of burley tobacco in 1955 may obtain a ballot at the most conveniently located county committee office and may cast his ballot by signing his name thereto and mailing it so that the ballot reaches the county committee for the county in which he engaged in the production of tobacco in 1955 not later than the closing hour on the date of the referendum.

(c) Any person whose religious beliefs forbid his voting on the day of the referendum may, at any time within 5 days prior to the date of the referendum, obtain one ballot form from the county office of the county in which he is eligible to vote and cast his ballot by signing his name thereto and leaving it (in a sealed envelope, marked "absentee ballot") at the county office.

4. There shall be no voting by mail (except as provided in paragraph 3 above), by proxy, or by agent, but a duly authorized officer of a corporation, association, or other legal entity or a duly authorized member of a partnership, may cast its vote.

5. Persons who planted tobacco in the field in 1955 but did not harvest any tobacco on such acreage for any reason except neglect to farm the planted acreage shall be regarded as engaged in the production of tobacco in 1955 and therefore eligible to vote in the referendum. Any farmer who did not plant tobacco in the field shall not be eligible to vote.

6. No person (whether an individual, partnership, corporation, association, or other legal entity) shall be entitled to more than one vote in the referendum even though he may have been engaged in the production of tobacco on several farms in the same or in two or more communities, counties, or States in 1955.

7. In the event two or more persons were engaged in producing tobacco in 1955 not as members of a partnership but as tenants in common or joint tenants or as owners of community property, each such person shall be eligible to vote.

Time and place for balloting. The burley tobacco marketing quota referendum will be held on Thursday, December 29, 1955. The place of voting and the hours which the polls will be open for voting in each community will be announced by the ASC County Committee.

Done at Washington, D. C., this 30th day of November, 1955. Witness my hand and the seal of the Department of Agriculture.

[SEAL] TRUE D. MORSE,
Acting Secretary of Agriculture.

VIRGINIA SUN-CURED TOBACCO MARKETING QUOTA REFERENDUM

The Secretary of Agriculture has duly proclaimed, pursuant to the provisions of the Agricultural Adjustment Act of 1938, as amended, national marketing quotas for Virginia Sun-Cured tobacco for the marketing years beginning on October 1, of 1956, 1957 and 1958. A referendum of farmers who were engaged in the production of the 1955 crop of Virginia Sun-Cured tobacco will be held pursuant to the provisions of the Agricultural Adjustment Act of 1938, as amended, and applicable regulations to determine whether such farmers are in favor of or opposed to Virginia Sun-Cured tobacco marketing quotas for the next three succeeding marketing years beginning October 1, 1956.

Registration. The operator on each farm on which Virginia Sun-Cured tobacco was produced in 1955 should inform a county or community committeeman of the names and addresses of all persons sharing in the proceeds of such crop in order that their names may be listed on the register of eligible voters. The eligibility to vote of any person may be challenged if his name is not recorded on the registration list.

Eligibility to vote. 1. All persons engaged in the production of the 1955 crop of Virginia Sun-Cured tobacco are eligible to vote in the referendum. Any person who shares in the proceeds of the 1955 crop of Virginia Sun-Cured tobacco as owner (other than a landlord of a standing-rent or fixed-rent tenant), tenant, or sharecropper, is considered as engaged in the production of such crop of tobacco in 1955.

2. If several members of the same family participate in the production of the 1955 crop of Virginia Sun-Cured tobacco on a farm, the only member or members of such family who shall be eligible to vote shall be the member or members of the family who have an independent bona fide status as operator, share tenant, or sharecropper, and are entitled as such to share in the proceeds of the 1955 crop.

3. No person shall be eligible to vote in any community other than the community in which he resides except as follows:

(a) Any person who resides in a community in which there is no polling place shall be eligible to vote at the polling place designated for the community nearest to the community in which he was engaged in the production of Virginia Sun-Cured tobacco in 1955.

(b) Any person who does not reside in or who will not be present in the county in which he engaged in the production of Virginia Sun-Cured tobacco in 1955 may obtain a ballot at the most conveniently located county committee office and may cast his ballot by signing his name thereto and mailing it so that the ballot reaches the county committee for the county in which he engaged in the production of tobacco in 1955 not later than the closing hour on the date of the referendum.

(c) Any person whose religious beliefs forbid his voting on the day of the referendum may, at any time within 5 days prior to the date of the referendum, obtain one ballot form from the county office of the county in which he is eligible to vote and cast his ballot by signing his name thereto and leaving it (in a sealed envelope, marked "absentee ballot") at the county office.

4. There shall be no voting by mail (except as provided in par. 3 above), by proxy, or by agent, but a duly authorized officer of a corporation, association, or other legal entity or a duly authorized member of a partnership, may cast its vote.

5. Persons who planted tobacco in the field in 1955 but did not harvest any tobacco on such acreage for any reason except neglect to farm the planted acreage shall be regarded as engaged in the production of tobacco in 1955 and therefore eligible to vote in the referendum. Any farmer who did not plant tobacco in the field shall not be eligible to vote.

6. No person (whether an individual, partnership, corporation, association, or other legal entity) shall be entitled to more than one vote in the referendum even though he may have been engaged in the production of tobacco on several farms in the same or in two or more communities, counties, or States in 1955.

7. In the event two or more persons were engaged in producing tobacco in 1955 not as members of a partnership but as tenants in common or joint tenants or as owners of community property, each such person shall be eligible to vote.

Time and place for balloting. The Virginia Sun-Cured tobacco marketing quota referendum will be held on Thursday, December 29, 1955. The place of voting and the hours which the polls will be open for voting in each community will be announced by the ASC County Committee.

Done at Washington, D. C., this 30th day of November, 1955. Witness my hand and the seal of the Department of Agriculture.

CIGAR FILLER (TYPE 41) TOBACCO MARKETING QUOTA REFERENDUM

The Secretary of Agriculture has duly proclaimed, pursuant to the provisions of the Agricultural Adjustment Act of 1938, as amended, national marketing quotas for Cigar-Filler tobacco for the marketing years beginning on October 1, of 1956, 1957 and 1958. A referendum of farmers who were engaged in the production of the 1955 crop of Cigar-Filler tobacco will be held pursuant to the provisions of the Agricultural Adjustment Act of 1938, as amended, and applicable regulations to determine whether such farmers are in favor of or opposed to Cigar-Filler tobacco marketing quotas for the next three succeeding marketing years beginning October 1, 1956.

Registration. The operator on each farm on which Cigar-Filler tobacco was produced in 1955 should inform a county or community committeeman of the names and addresses of all persons sharing in the proceeds of such crop in order that their names may be listed on the register of eligible voters. The eligibility to vote of any person may be challenged if his name is not recorded on the registration list.

Eligibility to vote. 1. All persons engaged in the production of the 1955 crop of Cigar-Filler tobacco are eligible to vote in the referendum. Any person who shares in the proceeds of the 1955 crop of Cigar-Filler tobacco as owner (other than a landlord of a standing-rent or fixed-rent tenant), tenant, or share cropper, is considered as engaged in the production of such crop of tobacco in 1955.

2. If several members of the same family participate in the production of the 1955 crop of Cigar-Filler tobacco on a farm, the only member or members of such family who shall be eligible to vote shall be the member or members of the family who have an independent bona fide status as operator, share tenant, or share cropper, and are entitled as such to share in the proceeds of the 1955 crop.

3. No person shall be eligible to vote in any community other than the community in which he resides except as follows:

(a) Any person who resides in a community in which there is no polling place shall be eligible to vote at the polling place designated for the community nearest to the community in which he was engaged in the production of Cigar-Filler tobacco in 1955.

(b) Any person who does not reside in or who will not be present in the county in which he engaged in the production of Cigar-Filler tobacco in 1955 may obtain a ballot at the most conveniently located county committee office and may cast his ballot by signing his name thereto and mailing it so that the ballot reaches the county committee for the county in which he engaged in the production of tobacco in 1955 not later than the closing hour on the date of the referendum.

(c) Any person whose religious beliefs forbid his voting on the day of the referendum may, at any time within 5 days prior to the date of the referendum, obtain one ballot form from the county office of the county in which he is eligible to vote and cast his ballot by signing his name thereto and leaving it (in a sealed envelope, marked "absentee ballot") at the county office.

4. There shall be no voting by mail (except as provided in par. 3 above), by proxy, or by agent, but a duly authorized officer of a corporation, association, or other legal entity or a duly authorized member of a partnership, may cast its vote.

5. Persons who planted tobacco in the field in 1955 but did not harvest any tobacco on such acreage for any reason except neglect to farm the planted acreage shall be regarded as engaged in the production of tobacco in 1955 and therefore eligible to vote in the referendum. Any farmer who did not plant tobacco in the field shall not be eligible to vote.

6. No person (whether an individual, partnership, corporation, association, or other legal entity) shall be entitled to more than one vote in the referendum even though he may have been engaged in the production of tobacco on several farms in the same or in two or more communities, counties, or States in 1955.

7. In the event two or more persons were engaged in producing tobacco in 1955 not as members of a partnership but as tenants in common or joint tenants or as owners of community property, each such person shall be eligible to vote.

Time and place for balloting. The Cigar-Filler tobacco marketing quota referendum will be held on Thursday, December 29, 1955. The place of voting and the hours which the polls will be open for voting in each community will be announced by the ASC County Committee.

Done at Washington, D. C., this 30th day of November 1955. Witness my hand and the seal of the Department of Agriculture.

MARYLAND TOBACCO MARKETING QUOTA REFERENDUM

The Secretary of Agriculture has duly proclaimed, pursuant to the provisions of the Agricultural Adjustment Act of 1938, as amended, national marketing quotas for Maryland tobacco for the marketing years beginning on October 1, of 1956, 1957 and 1958. A referendum of farmers who were engaged in the production of the 1955 crop of Maryland tobacco will be held pursuant to the provisions of the Agricultural Adjustment Act of 1938, as amended, and applicable regulations to determine whether such farmers are in favor of or opposed to Maryland tobacco marketing quotas for the next three succeeding marketing years beginning October 1, 1956.

Registration. The operator on each farm on which Maryland tobacco was produced in 1955 should inform a county or community committeeman of the names and addresses of all persons sharing in the proceeds of such crop in order that their names may be listed on the register of eligible voters. The eligibility to vote of any person may be challenged if his name is not recorded on the registration list.

Eligibility to vote. 1. All persons engaged in the production of the 1955 crop of Maryland tobacco are eligible to vote in the referendum. Any person who shares in the proceeds of the 1955 crop of Maryland tobacco as owner (other than a landlord of a standing-rent or fixed-rent tenant), tenant, or share cropper, is considered as engaged in the production of such crop of tobacco in 1955.

2. If several members of the same family participate in the production of the 1955 crop of Maryland tobacco on a farm, the only member or members of such family who shall be eligible to vote shall be the member or members of the family who have an independent bona fide status as operator, share tenant, or share cropper, and are entitled as such to share in the proceeds of the 1955 crop.

3. No person shall be eligible to vote in any community other than the community in which he resides except as follows:

(a) Any person who resides in a community in which there is no polling place shall be eligible to vote at the polling place designated for the community nearest to the community in which he was engaged in the production of Maryland tobacco in 1955.

(b) Any person who does not reside in or who will not be present in the county in which he engaged in the production of Maryland tobacco in 1955 may obtain a ballot at the most conveniently located county committee office and may cast his ballot by signing his name thereto and mailing it so that the ballot reaches the county committee for the county in which he engaged in the production of tobacco in 1955 not later than the closing hour on the date of the referendum.

(c) Any person whose religious beliefs forbid his voting on the day of the referendum may, at any time within 5 days prior to the date of the referendum, obtain one ballot form from the county office of the county in which he is eligible to vote and cast his ballot by signing his name thereto and leaving it (in a sealed envelope, marked "absentee ballot") at the county office.

4. There shall be no voting by mail (except as provided in paragraph 3 above), by proxy, or by agent, but a duly authorized officer of a corporation, association, or other legal entity or a duly authorized member of a partnership, may cast its vote.

5. Persons who planted tobacco in the field in 1955 but did not harvest any tobacco on such acreage for any reason except neglect to farm the planted acreage shall be regarded as engaged in the production of tobacco in 1955 and therefore eligible to vote in the referendum. Any farmer who did not plant tobacco in the field shall not be eligible to vote.

6. No person (whether an individual, partnership, corporation, association, or other legal entity) shall be entitled to more than one vote in the referendum even though he may have been engaged in the production of tobacco on several farms in the same or in two or more communities, counties, or States in 1955.

7. In the event two or more persons were engaged in producing tobacco in 1955 not as members of a partnership but as tenants in common or joint tenants or as owners of community property, each such person shall be eligible to vote.

Time and place for balloting. The Maryland tobacco marketing quota referendum will be held on Thursday, December 29, 1955. The place of voting and the hours which the polls will be open for voting in each community will be announced by the ASC County Committee.

Done at Washington, D. C., this 30th day of November, 1955. Witness my hand and the seal of the Department of Agriculture.

FEDERAL POWER COMMISSION

[Docket No. G-9253 etc.]

MONTANA-DAKOTA UTILITIES CO. ET AL.

NOTICE OF APPLICATION, CONSOLIDATION OF PROCEEDINGS, AND DATE OF RESUMED HEARING

NOVEMBER 28, 1955.

In the matters of Montana-Dakota Utilities Co., Docket No. G-9253; Signal Oil and Gas Company, Docket No. G-9228; Amerada Petroleum Corporation, Docket No. G-9190.

Take notice that Amerada Petroleum Corporation (Amerada), a Delaware corporation with a principal office in Tulsa, Oklahoma, filed on August 1, 1955, an application for a certificate of public convenience and necessity, pursuant to section 7 of the Natural Gas Act, authorizing Amerada to make a proposed sale of natural gas in interstate commerce to Montana-Dakota Utilities Co., for resale, subject to the jurisdiction of the Commission, all as more fully represented in the application, on file with the Commission for public inspection. Amerada proposes to produce said natural gas from the Beaver Lodge, Tioga and Capa Fields, in Williams, Burke, Mountrail and McKinzie Counties, North Dakota, respectively.

Take further notice that (a), Montana-Dakota Utilities Co. (Montana-Dakota), a Delaware corporation with its principal place of business in Minneapolis, Minnesota, filed an application on August 23, 1955, and a supplement thereto on September 22, 1955, pursuant to Section 7 of the Natural Gas Act for a certificate of public convenience and necessity, authorizing the construction and operation of (1) approximately 41.8 miles of 12¾-inch O. D. natural-gas transmission pipeline extending from Tioga to Williston, North Dakota, (2) four lateral pipelines extending to Ray (8,000 feet of 3-inch), to Wheelock (2,100 feet of 2-inch), to Epping (1,000 feet of 2-inch), and to Springbrook (380 feet of 2-inch), all in North Dakota, and in which Montana-Dakota proposes to operate local distribution systems, and (3) authority to establish an emergency connection between the proposed Tioga-Williston interstate line, all as more fully described in the application and supplement on file with the Commission. Notice of said application has been duly published in the FEDERAL REGISTER on October 12, 1955 (20 F. R. 7619-20); and (b) Signal Oil and Gas Company (Signal), a Delaware corporation having its principal place of business in Los Angeles, California, filed an application on August 15, 1955, and a supplement thereto on August 26, 1955, pursuant to section 7 of the Natural Gas Act, for a certificate of public convenience and necessity authorizing Signal to sell natural gas to Montana-Dakota Utilities Co., asserted to be residue gas resulting from the processing of casing-head gas at its Tioga plant in Williams County, North Dakota, which will comprise 12.5 percent of the quantity of gas which Montana-Dakota may dispose of in Williston, North Dakota, and in Fairview, Sidney, Savage and Glendive, Montana, plus 12.5 percent of the quantity of gas which can be transported through Montana-Dakota's present facilities from Williston, North Dakota, to its Baker, Montana, storage reservoir in excess of the quantity disposed of in the above-mentioned towns, provided such total quantity shall not be less than 1935 Mcf daily. Notice of said application has been duly published in the FEDERAL REGISTER on October 12, 1955 (20 F. R. 7619). Pursuant to notice, the matter came on for hearing on November 14, 1955, at which time, due to intervention and protest of the Public Service Commission of the State of North Dakota, the matter was recessed to reconvene subject to further order of the Commission or further notice of the Secretary of the Commission.

These related matters should be heard on a consolidated record and disposed of as promptly as possible under the applicable rules and regulations of the Commission, and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, the Commission's rules of practice and procedure, and the order of the presiding examiner of November 14, 1955, recessing the hearing in Docket No. G-9228 until further order of the Commission or Secretary, hearings in the above proceedings will be held commencing December 19, 1955 at 10:00 a. m., e. s. t., in a hearing room, of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented therein.

Protests or petitions to intervene in Docket No. G-9190 may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) on or before December 9, 1955.

[SEAL] LEON M. FUQUAY,
Secretary.

Office of the Administrator

REGIONAL ADMINISTRATORS

DELEGATION OF AUTHORITY WITH RESPECT TO ADVANCES FOR PUBLIC WORKS PLANNING

1. Each Regional Administrator of the Housing and Home Finance Agency is hereby authorized to take the following actions, on behalf of the Housing and Home Finance Administrator, in connection with advances for public works planning authorized under section 702

of the Housing Act of 1954 (68 Stat. 641), as amended by section 112 of the Housing Amendments of 1955 (69 Stat. 641), 40 U. S. C. 462:

(a) Execute offers to public agencies for planning projects in amounts approved by the Community Facilities Commissioner;

(b) Amend or modify contracts resulting from acceptance of offers under subparagraph (a) above (except that any amendment or modification involving a substantial increase in the scope of a project or an increase in the amount of the Government advance shall not be executed until the prior approval thereof has been obtained from the Community Facilities Commissioner);

(c) Approve the planning data submitted by public agencies in accordance with contracts resulting from acceptance of offers under subparagraphs (a) or (b) above;

(d) Authorize payments under any contracts resulting from acceptance of offers under subparagraphs (a) or (b) above; and

(e) Redelegate to such officers or employees as he may select any of the authorities delegated in subparagraphs (c) and (d) above.

2. This delegation of authority supersedes the delegation to the Regional Representatives effective December 23, 1954 (19 F. R. 8830).

(Reorg. Plan No. 3 of 1947, 61 Stat. 954; 62 Stat. 1283 (1948), as amended by 64 Stat. 80 (1950), 12 U. S. C., 1952 ed. 1701c)

Effective as of the 2d day of December 1955.

ALBERT M. COLE,
Housing and Home Finance Administrator.

SECURITIES AND EXCHANGE COMMISSION

[File No. 70-3424]

AMERICAN GAS AND ELECTRIC CO.

ORDER PERMITTING EFFECTIVENESS TO DECLARATION IN RESPECT OF PROPOSED COMMON STOCK DIVIDEND

NOVEMBER 28, 1955.

American Gas and Electric Company ("American Gas"), a registered holding company, having filed with this Commission a declaration with an amendment thereto, pursuant to sections 6 (a) and 7 of the Public Utility Holding Company Act of 1935 ("act") regarding certain proposed transactions which are summarized as follows:

On October 26, 1955, the Board of Directors of American Gas, in addition to declaring a regular quarterly cash dividend of 50 cents per share to the holders of its $5 par value common stock, also declared a stock dividend at the rate of one share for each fifty shares of $5 par value common stock outstanding. This stock dividend is to be payable on January 10, 1956, to holders of record on December 9, 1955 (except upon shares held by nominees of American Gas for the exchange of Scrip Certificates representing fractional shares).

No fractional shares of common stock of American Gas are to be issued in connection with the stock dividend. American Gas proposes in lieu thereof to mail, on January 10, 1956, to each stockholder of record on December 9, 1955, who would otherwise be entitled to a fractional share, a letter advising such holder that arrangements have been made with Guaranty Trust Company of New York, Agent, pursuant to which such holder will be entitled during a period of 24 days, to instruct the Agent to take either of the following courses of action with respect to the fractional interest to which such holder would otherwise be entitled: (1) to consolidate such fractional interest into one full share of common stock upon payment by such holder to the Agent of the cost of the additional fractional interest required to effect such consolidation, or (2) to sell such fractional interest on behalf of such holder. The communication so mailed will further advise that if the Agent shall not have received instructions from such holder prior to the expiration of such period the fractional interest to which such holder would otherwise be entitled will be sold for the account of such holder. The Agent will be authorized to execute consolidation and sale requests received from time to time by matching the same upon the basis of the currently prevailing market price of shares of common stock of American Gas, as determined by the Agent in its discretion.

In the event that, at the expiration of the 24-day period, the Agent shall have received requests for consolidation calling for an aggregate number of shares of common stock of American Gas greater than the aggregate number of shares of common stock represented by all fractional interests, the Agent will acquire the necessary additional shares of common stock by purchases on the New York Stock Exchange or otherwise. In the event that, at the expiration of the period, after giving effect to all requests for consolidation and sale of fractional interests, there shall remain any of the aggregate number of shares of common stock represented by all fractional interests, the Agent will sell the balance upon the New York Stock Exchange or otherwise. Cash proceeds received by the Agent in respect of fractional interests which are sold will be remitted to the holders of shares of common stock of American Gas entitled thereto.

Interest in a fractional share will not entitle a stockholder to dividends or any other rights of a stockholder of American Gas with respect to such fractional interest.

The services of the Agent will be rendered without charge to stockholders effecting consolidations and dispositions of fractional interests.

The proposed common stock dividend will result in the issuance of an estimated 257,050 shares of $5 par value common stock. American Gas proposes to record the issuance by debiting its earned surplus with an assigned value of $45 per share, or an aggregate of $11,567,250, and by crediting its common stock capital account with the par value of $5 per share or a total of $1,285,250, and its Capital Surplus-Premium on Common Stock account with $40 per share, or a total of $10,282,000. At September 30, 1955, the earned surplus of American Gas amounted to $84,459,899.

American Gas proposes to pay the following estimated fees and expenses in connection with the proposed common stock dividend:

Federal issuance stamp taxes	$4,000.00
Federal New York State transfer taxes	1,200.00
New York Stock Exchange initial listing fee	650.00
Legal fees of Simpson Thacher & Bartlett, Counsel to American Gas	3,000.00
Printing Form U-1, Stock Exchange Listing Application, letters of transmittal, fractional interest forms, etc	2,000.00
Printing and engraving stock certificates	6,600.00
Fee of Guaranty Trust Co. of New York as Agent for dividend distribution	55,000.00
Registrar fees—Irving Trust Co	8,250.00
Mailing and postage	8,300.00
Miscellaneous expense	2,700.00
Total	91,700.00

Notice of the filing of said declaration having been duly given in the manner prescribed by Rule U-23 and no hearing having been ordered by or requested of the Commission; and the Commission finding that the applicable provisions of the act and the rules thereunder are satisfied and that there is no reason to make any adverse findings or to impose special conditions; that the fees and expenses set forth above are not unreasonable; and that the declaration as amended should be granted and permitted to become effective forthwith;

It is ordered, Pursuant to Rule U-23 and the applicable provisions of the act, that said declaration as amended be and the same hereby is permitted to become effective forthwith, subject to the terms and conditions contained in Rule U-24.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

ELECTRON TUBES AND COMPONENT PARTS

SUSPENSION OF ACTION ON COMPLAINT

NOVEMBER 21, 1955.

On November 16, 1955, the Tariff Commission suspended action on the complaint under section 337 of the Tariff Act of 1930 filed by Eitel-McCullough, Inc., San Bruno, California, alleging unfair methods of competition and unfair acts in the importation and sale in the United States of certain foreign electron tubes and component parts thereof. Notice of receipt of the complaint was issued by the Commission on July 22, 1955 (20 F. R. 5378).

The suspension of action on this complaint will continue until a final decision is rendered in the proceeding in the United States District Court for the District of Maryland, Civil Action No. 8348, Eitel-McCullough, Incorporated v. Wholesale Radio Parts Company, Incorporated, and Amperex Electronic Corporation.

I certify that the above action was taken by the United States Tariff Commission on November 16, 1955.

SECURITIES AND EXCHANGE COMMISSION

[File No. 70-3424]

AMERICAN GAS AND ELECTRIC CO.

ORDER PERMITTING EFFECTIVENESS TO DECLARATION IN RESPECT OF PROPOSED COMMON STOCK DIVIDEND

NOVEMBER 28, 1955.

American Gas and Electric Company ("American Gas"), a registered holding company, having filed with this Commission a declaration with an amendment thereto, pursuant to sections 6 (a) and 7 of the Public Utility Holding Company Act of 1935 ("act") regarding certain proposed transactions which are summarized as follows:

On October 26, 1955, the Board of Directors of American Gas, in addition to declaring a regular quarterly cash dividend of 50 cents per share to the holders of its $5 par value common stock, also declared a stock dividend at the rate of one share for each fifty shares of $5 par value common stock outstanding. This stock dividend is to be payable on January 10, 1956, to holders of record on December 9, 1955 (except upon shares held by nominees of American Gas for the exchange of Scrip Certificates representing fractional shares).

No fractional shares of common stock of American Gas are to be issued in connection with the stock dividend. American Gas proposes in lieu thereof to mail, on January 10, 1956, to each stockholder of record on December 9, 1955, who would otherwise be entitled to a fractional share, a letter advising such holder that arrangements have been made with Guaranty Trust Company of New York, Agent, pursuant to which such holder will be entitled during a period of 24 days, to instruct the Agent to take either of the following courses of action with respect to the fractional interest to which such holder would otherwise be entitled: (1) to consolidate such fractional interest into one full share of common stock upon payment by such holder to the Agent of the cost of the additional fractional interest required to effect such consolidation, or (2) to sell such fractional interest on behalf of such holder. The communication so mailed will further advise that if the Agent shall not have received instructions from such holder prior to the expiration of such period the fractional interest to which such holder would otherwise be entitled will be sold for the account of such holder. The Agent will be authorized to execute consolidation and sale requests received from time to time by matching the same upon the basis of the currently prevailing market price of shares of common stock of American Gas, as determined by the Agent in its discretion.

In the event that, at the expiration of the 24-day period, the Agent shall have received requests for consolidation calling for an aggregate number of shares of common stock of American Gas greater than the aggregate number of shares of common stock represented by all fractional interests, the Agent will acquire the necessary additional shares of common stock by purchases on the New York Stock Exchange or otherwise. In the event that, at the expiration of the period, after giving effect to all requests for consolidation and sale of fractional interests, there shall remain any of the aggregate number of shares of common stock represented by all fractional interests, the Agent will sell the balance upon the New York Stock Exchange or otherwise. Cash proceeds received by the Agent in respect of fractional interests which are sold will be remitted to the holders of shares of common stock of American Gas entitled thereto.

Interest in a fractional share will not entitle a stockholder to dividends or any other rights of a stockholder of American Gas with respect to such fractional interest.

The services of the Agent will be rendered without charge to stockholders effecting consolidations and dispositions of fractional interests.

The proposed common stock dividend will result in the issuance of an estimated 257,050 shares of $5 par value common stock. American Gas proposes to record the issuance by debiting its earned surplus with an assigned value of $45 per share, or an aggregate of $11,567,250, and by crediting its common stock capital account with the par value of $5 per share or a total of $1,285,250, and its Capital Surplus-Premium on Common Stock account with $40 per share, or a total of $10,282,000. At September 30, 1955, the earned surplus of American Gas amounted to $84,459,899.

American Gas proposes to pay the following estimated fees and expenses in connection with the proposed common stock dividend:

Federal issuance stamp taxes	$4,000.00
Federal New York State transfer taxes	1,200.00
New York Stock Exchange initial listing fee	650.00
Legal fees of Simpson Thacher & Bartlett, Counsel to American Gas	3,000.00
Printing Form U-1, Stock Exchange Listing Application, letters of transmittal, fractional interest forms, etc	2,000.00
Printing and engraving stock certificates	6,600.00
Fee of Guaranty Trust Co. of New York as Agent for dividend distribution	55,000.00
Registrar fees—Irving Trust Co	8,250.00
Mailing and postage	8,300.00
Miscellaneous expense	2,700.00
Total	91,700.00

Notice of the filing of said declaration having been duly given in the manner prescribed by Rule U-23 and no hearing having been ordered by or requested of the Commission; and the Commission finding that the applicable provisions of the act and the rules thereunder are satisfied and that there is no reason to make any adverse findings or to impose special conditions; that the fees and expenses set forth above are not unreasonable; and that the declaration as amended should be granted and permitted to become effective forthwith;

It is ordered, Pursuant to Rule U-23 and the applicable provisions of the act, that said declaration as amended be and the same hereby is permitted to become effective forthwith, subject to the terms and conditions contained in Rule U-24.

By the Commission.

Basis and purpose. This amendment is issued under section 205 (a) of the Sugar Act of 1948, as amended (7 U. S. C. 1100 et seq., hereinafter called the "act") for the purpose of revising Sugar Regulation 814.31 (19 F. R. 9326, 20 F. R. 3999) which allots the 1955 sugar quota for the Domestic Beet Sugar Area among persons who process domestic sugar beets into sugar.

In accordance with the provisions of the applicable rules of practice and procedure (7 CFR 801.1 et seq.) as amended (20 F. R. 1174) notice was given (20 F. R. 2820) and a hearing was held on May 6, 1955, to permit the taking of evidence on the basis of which the Secretary might revise the allotment of the 1955 sugar quota for the Domestic Beet Sugar Area for the purpose of allotting deficits in other area quotas or deficits in allotments declared by any allottee. Based on the evidence in the record of the allotment proceeding, a finding and conclusion was made in S. R. 814.31, Amendment 1, effective June 9, 1955 (20 F. R. 3999) that any quantities within allotments made therein which allottees were unable to fill should be reallotted to others able to supply the additional sugar in proportion to their allotments.

The Department was notified by The National Sugar Manufacturing Company and the Superior Sugar Refining Company that they will be unable to market in 1955, 1,338 and 1,070 short tons, raw value, respectively, of the allotments made to them in Sugar Regulation 814.31, Amendment 1, effective June 9, 1955, and The Great Western Sugar Company notified the Department that it would be unable to market in 1955 a quantity of sugar in excess of its 1955 allotment. The quantity released, amounting to 2,408 short tons, raw value, has been prorated to the other allottees, all of whom notified the Department that they will be able to market the additional quantities of sugar. The proration has been made on the basis of the allotments of such allottees as set forth in paragraph (a) of § 814.31, Amendment 1. The names of the allottees receiving additional prorations and the quantities prorated are set forth below:

Processors	Additional allotments	
	Short tons, raw value	100-pound bags beet sugar
Amalgamated Sugar Co., The	404	7,509
American Crystal Sugar Co.	450	8,416
Buckeye Sugars, Inc.	18	331
Franklin County Sugar Co.	18	331
Garden City Co., The	13	244
Great Lakes Sugar Co.	37	697
Holly Sugar Corp.	480	8,974
Lake Shore Sugar Co.	16	296
Layton Sugar Co.	14	255
Menominee Sugar Co.	9	174
Michigan Sugar Co.	103	1,917
Monitor Sugar Division of Robt. Gage Coal Co.	35	645
Spreckels Sugar Co.	352	6,578
Union Sugar Division, Consolidated Foods Corp.	139	2,596
Utah-Idaho Sugar Co.	320	5,977
Total	2,408	45,000

Because of the limited time remaining in the quota year to which the allotments apply, it is imperative that this amendment become effective at the earliest possible date in order to permit the continued orderly marketing of sugar. Accordingly, it is hereby found that compliance with the 30-day effective date requirements of the Administrative Procedure Act (60 Stat. 237) is impracticable and contrary to the public interest and consequently this amendment shall be effective when published in the FEDERAL REGISTER.

Pursuant to the authority vested in the Secretary of Agriculture by section 205 (a) of the Act, paragraph (a) of § 814.31, Amendment 1, is hereby further amended to read as follows:

§ 814.31 *Allotment of the 1955 sugar quota for Domestic Beet Sugar Area*—(a) *Allotments.* The 1955 sugar quota for the Domestic Beet Sugar Area is hereby allotted to the following persons

FEDERAL REGISTER

Published daily, except Sundays, Mondays, and days following official Federal holidays, by the Federal Register Division, National Archives and Records Service, General Services Administration, pursuant to the authority contained in the Federal Register Act, approved July 26, 1935 (49 Stat. 500, as amended; 44 U. S. C., ch. 8B), under regulations prescribed by the Administrative Committee of the Federal Register, approved by the President. Distribution is made only by the Superintendent of Documents, Government Printing Office, Washington 25, D. C.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $1.50 per month or $15.00 per year, payable in advance. The charge for individual copies (minimum 15 cents) varies in proportion to the size of the issue. Remit check or money order, made payable to the Superintendent of Documents, directly to the Government Printing Office, Washington 25, D. C.

The regulatory material appearing herein is keyed to the CODE OF FEDERAL REGULATIONS, which is published, under 50 titles, pursuant to section 11 of the Federal Register Act, as amended August 5, 1953. The CODE OF FEDERAL REGULATIONS is sold by the Superintendent of Documents. Prices of books and pocket supplements vary.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER, or the CODE OF FEDERAL REGULATIONS.

Chapter IX—Agricultural Marketing Service (Marketing Agreements and Orders), Department of Agriculture

[Navel Orange Reg. 63]

PART 914—NAVEL ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

LIMITATION OF HANDLING

§ 914.363 *Navel Orange Regulation 63*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 14, as amended (7 CFR Part 914; 19 F. R. 2941), regulating the handling of navel oranges grown in Arizona and designated part of California, effective September 22, 1953, under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and upon the basis of the recommendation and information submitted by the Navel Orange Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such navel oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The Navel Orange Administrative Committee held an open meeting on December 1, 1955, after giving due notice thereof, to consider supply and market conditions for navel oranges and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein was promptly submitted to the Department after such meeting was held; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such navel oranges; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period herein specified; and compliance with this section will not require any special preparation on the part of persons subject thereto which cannot be completed on or before the effective date hereof.

(b) *Order.* (1) The quantity of navel oranges grown in Arizona and designated part of California which may be handled during the period beginning at 12:01 a. m., P. s. t., December 4, 1955, and ending at 12:01 a. m., P. s. t., December 11, 1955, is hereby fixed as follows:

(i) District 1: 1,108,800 cartons;

(ii) District 2: 10,420 cartons;

(iii) District 3: Unlimited movement;

(iv) District 4: Unlimited movement.

(2) Navel oranges handled pursuant to the provisions of this section shall be subject to any size restrictions applicable thereto which have heretofore been issued on the handling of such oranges and which are effective during the period specified herein.

(3) As used in this section, "handled," "District 1," "District 2," "District 3," and "District 4" have the same meaning as when used in said amended marketing agreement and order; and "carton" means the standard one-half orange, grapefruit, or lemon box set forth as standard container number 58 in section 828.83, as amended, of the Agricultural Code of California.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Dated: December 2, 1955.

[SEAL] S. R. SMITH,
Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[Grapefruit Reg. 232]

PART 933—ORANGES, GRAPEFRUIT, AND TANGERINES GROWN IN FLORIDA

LIMITATION OF SHIPMENTS

§ 933.756 *Grapefruit Regulation 232*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 33, as amended (7 CFR Part 933), regulating the handling of oranges, grapefruit, and tangerines grown in the State of Florida, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and upon the basis of the recommendations of the committees established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments of grapefruit, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient; a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective not later than December 5, 1955. Shipments of grapefruit, grown in the State of Florida, are presently subject to regulation by grades and sizes, pursuant to the amended marketing agreement and order, and will so continue until December 5, 1955; the recommendation and supporting information for continued regulation subsequent to December 4, 1955, was promptly submitted to the Department after an open meeting of the Growers Administrative Committee on November 29; such meeting was held to consider recommendations for regulation, after giving due notice of such meeting, and interested persons were afforded an opportunity to submit their views at this meeting; the provisions of this section, including the effective time hereof, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such grapefruit; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period hereinafter set forth so as to provide for the continued regulation of the handling of grapefruit; and compliance with this section will not require any special preparation on the part of persons subject thereto which cannot be completed by the effective time hereof.

(b) *Order.* (1) During the period beginning at 12:01 a. m., e. s. t., December 5, 1955, and ending at 12:01 a. m., e. s. t., December 19, 1955, no handler shall ship:

(i) Any seeded grapefruit, grown in the State of Florida, which are not mature and do not grade at least U. S. No. 1 Russet;

(ii) Any seedless grapefruit, grown in Regulation Area I, which are not mature and do not grade at least U. S. No. 1 Russet;

(iii) Any seedless grapefruit, grown in Regulation Area II, which are not mature and do not grade at least U. S. No. 2;

(iv) Any seedless grapefruit, grown in Regulation Area II, which are mature and which grade U. S. No. 2 or U. S. No. 2 Bright unless such seedless grapefruit (*a*) are in the same container with seedless grapefruit which grade at least U. S. No. 1 Russet and (*b*) are not in excess of 50 percent, by count, of the number of all seedless grapefruit in such container;

(v) Any seeded grapefruit, grown in the State of Florida, which are of a size smaller than a size that will pack 70 grapefruit, packed in accordance with the requirements of a standard pack, in a standard nailed box; or

(vi) Any seedless grapefruit, grown in the State of Florida, which are of a size smaller than a size that will pack 96 grapefruit, packed in accordance with the requirements of a standard pack, in a standard nailed box.

(2) As used in this section, "handler," "ship," "Growers Administrative Committee," "Regulation Area I," and "Regulation Area II," shall have the same meaning as when used in said amended marketing agreement and order; the terms "U. S. No. 1 Russet," "U. S. No. 2," "U. S. No. 2 Bright," "standard pack," and "standard nailed box" shall have the same meaning as when used in the revised United States Standards for Florida Grapefruit (7 CFR 51.750–51.790); and the term "mature" shall have the same meaning as set forth in section 601.16 Florida Statutes, Chapters 26492 and 28090, known as the Florida Citrus Code of 1949, as supplemented by section 601.17 (Chapters 25149 and 28090) and also by section 601.18, as amended on June 2, 1955 (Chapter 29760).

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Dated: November 30, 1955.

[SEAL] FLOYD F. HEDLUND,
Acting Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[Orange Reg. 286]

PART 933—ORANGES, GRAPEFRUIT, AND TANGERINES GROWN IN FLORIDA

LIMITATION OF SHIPMENTS

§ 933.757 *Orange Regulation 286*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 33, as amended (7 CFR Part 933), regulating the handling of oranges, grapefruit, and tangerines grown in the State of Florida, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and upon the basis of the recommendations of the committees established under the aforesaid amended marketing agreement and order and upon other available information, it is hereby found that the limitation of shipments of all Florida oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient; a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective not later than December 5, 1955. Shipments of all oranges, grown in the State of Florida, are presently subject to regulation by grades and sizes, pursuant to the amended marketing agreement and order, and will so continue until December 5, 1955; the recommendation and supporting information for continued regulation subsequent to December 4, 1955, were promptly submitted to the Department after an open meeting of the Growers Administrative Committee on November 29; such meeting was held to consider recommendations for regulation, after giving due notice of such meeting, and interested persons were afforded an opportunity to submit their views at this meeting; the provisions of this section, including the effective time hereof, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient; a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective not later than December 5, 1955. Shipments of all oranges, grown in the State of Florida, are presently subject to regulation by grades and sizes, pursuant to the amended marketing agreement and order, and will so continue until December 5, 1955; the recommendation and supporting information for continued regulation subsequent to December 4, 1955, were promptly submitted to the Department after an open meeting of the Growers Administrative Committee on November 29; such meeting was held to consider recommendations for regulation, after giving due notice of such meeting, and interested persons were afforded an opportunity to submit their views at this meeting; the provisions of this section, including the effective time hereof, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such tangerines; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period hereinafter set forth so as to provide for the continued regulation of the handling of tangerines; and compliance with this section will not require any special preparation on the part of persons subject thereto which cannot be completed on or before the effective time hereof.

(b) *Order.* (1) During the period beginning at 12:01 a. m., e. s. t., December 5, 1955, and ending at 12:01 a. m., e. s. t., December 19, 1955, no handler shall ship:

(i) Any tangerines, grown in the State of Florida, that do not grade at least U. S. No. 1 Russet; or

(ii) Any tangerines, grown in the State of Florida, that are of a size smaller than the size that will pack 210 tangerines, packed in accordance with the requirements of a standard pack, in a half-standard box (inside dimensions 9½ x 9½ x 19⅛ inches; capacity 1,726 cubic inches).

(2) As used in this section, "handler," "ship," and "Growers Administrative Committee" shall have the same meaning as when used in said amended marketing agreement and order; and the terms "U. S. No. 1 Russet" and "standard pack" shall have the same meaning as when used in the revised United States Standards for Florida Tangerines (7 CFR 51.1810–51.1836).

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Dated: November 30, 1955.

[SEAL] FLOYD F. HEDLUND,
Acting Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[F. R. Doc. 55-9739; Filed, Dec. 2, 1955; 8:49 a. m.]

[Tangerine Reg. 163]

PART 933—ORANGES, GRAPEFRUIT, AND TANGERINES GROWN IN FLORIDA

LIMITATION OF SHIPMENTS

§ 933.758 *Tangerine Regulation 163*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 33, as amended (7 CFR Part 933), regulating the handling of oranges, grapefruit, and tangerines grown in the State of Florida, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and upon the basis of the recommendations of the committees established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments of tangerines, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient; a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective not later than December 5, 1955. Shipments of tangerines, grown in the State of Florida, are presently subject to regulation by grades and sizes, pursuant to the amended marketing agreement and order, and will so continue until December 5, 1955; the recommendation and supporting information for continued regulation subsequent to December 4, 1955, was promptly submitted to the Department after an open meeting of the Growers Administrative Committee on November 29; such meeting was held to consider recommendations for regulation, after giving due notice of such meeting, and interested persons were afforded an opportunity to submit their views at this meeting; the provisions of this section, including the effective time hereof, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such tangerines; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period hereinafter set forth so as to provide for the continued regulation of the handling of tangerines; and compliance with this section will not require any special preparation on the part of persons subject thereto which cannot be completed on or before the effective time hereof.

(b) *Order.* (1) During the period beginning at 12:01 a. m., e. s. t., December 5, 1955, and ending at 12:01 a. m., e. s. t., December 19, 1955, no handler shall ship:

(i) Any tangerines, grown in the State of Florida, that do not grade at least U. S. No. 1 Russet; or

(ii) Any tangerines, grown in the State of Florida, that are of a size smaller than the size that will pack 210 tangerines, packed in accordance with the requirements of a standard pack, in a half-standard box (inside dimensions 9½ x 9½ x 19⅛ inches; capacity 1,726 cubic inches).

(2) As used in this section, "handler," "ship," and "Growers Administrative Committee" shall have the same meaning as when used in said amended marketing agreement and order; and the terms "U. S. No. 1 Russet" and "standard pack" shall have the same meaning as when used in the revised United States Standards for Florida Tangerines (7 CFR 51.1810–51.1836).

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Dated: November 30, 1955.

[SEAL] FLOYD F. HEDLUND,
Acting Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[F. R. Doc. 55-9740; Filed, Dec. 2, 1955; 8:50 a. m.]

[Lemon Reg. 618]

PART 953—LEMONS GROWN IN CALIFORNIA AND ARIZONA

LIMITATIONS OF SHIPMENTS

§ 953.725 *Lemon Regulation 618*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 53, as amended (7 CFR Part 953; 20 F. R. 2913), regulating the handling of lemons grown in the State of California or in the State of Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and upon the basis of the recommendation and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of the quantity of such lemons which may be handled, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. Shipments of lemons, grown in the State of California or in the State of Arizona, are currently subject to regulation pursuant to said amended marketing agreement and order; the recommendation and supporting information for regulation during the period specified herein was promptly submitted to the Department after an open meeting of the Lemon Administrative Committee on November 30, 1955, such meeting was held, after giving due notice thereof to consider recommendations for regulation, and interested persons were afforded an opportunity to submit their views at this meeting; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such lemons; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period hereinafter specified; and compliance with this section will not require any special preparation on the part of persons subject thereto which cannot be completed by the effective time thereof.

(b) *Order.* (1) The quantity of lemons grown in the State of California or in the State of Arizona which may be handled during the period beginning at 12:01 a. m., P. s. t., December 4, 1955, and ending at 12:01 a. m., P. s. t., December 11, 1955, is hereby fixed as follows:

(i) District 1: Unlimited movement;

(ii) District 2: 158,100 cartons;

(iii) District 3: 13,950 cartons.

(2) As used in this section, "handled," "District 1," "District 2," and "District 3" have the same meaning as when used in the said amended marketing agreement and order; and "carton" means the standard one-half orange, grapefruit or lemon box set forth as standard container number 58 in section 828.83, as amended, of the Agricultural Code of California.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Dated: December 1, 1955.

[SEAL] S. R. SMITH,
Director, Fruit and Vegetable Division, Agricultural Marketing Service.

TITLE 29—LABOR

Chapter V—Wage and Hour Division, Department of Labor

PART 545—HOMEWORKERS IN NEEDLEWORK AND FABRICATED TEXTILE PRODUCTS INDUSTRY IN PUERTO RICO

PIECE RATES

On November 9, 1955, notice was published in the FEDERAL REGISTER (20 F. R. 8389) that the Administrator of the Wage and Hour Division, United States Department of Labor, proposed to amend 29 CFR, § 545.13, providing piece rates for the needlework and fabricated textile products industry in Puerto Rico (1) by the addition to Schedule A of piece rates applicable to the silk, rayon and nylon (except infants') underwear division, and (2) by the addition of Schedule E, containing the piece rates applicable to the general division. Interested persons were given 15 days to submit for consideration data, views or arguments pertaining to the proposed changes. No objections have been received.

Accordingly, pursuant to authority under section 6 (a) of the Fair Labor Standards Act of 1938, as amended (52 Stat. 1060, as amended; 29 U. S. C. 201 et seq.), § 545.13 is amended by the addition of the following piece rates:

§ 545.13 *Piece rates established in accordance with § 545.9.*

SCHEDULE A—PIECE RATE SCHEDULE FOR THE SILK, RAYON AND NYLON (EXCEPT INFANTS') DIVISION OF THE NEEDLEWORK AND FABRICATED TEXTILE PRODUCTS INDUSTRY IN PUERTO RICO

No.	Operation	Piece rates based on hourly rate of 25 cents	Unit of payment
	HAND-SEWING OPERATIONS[1]		
		Cents	
1	Arenilla (seed stitch), close, 1/8" squares	31.20	Per dozen squares.
2	Arenilla (seed stitch), scattered, 1/2" squares	15.60	Do.
3	Arrows, filled in, 1/4"	7.80	Per dozen.
4	Back stitch on yokes, armholes, etc	17.33	Per yard.
5	Basting bias with cord	8.58	Do.
6	Basting darts before sewing	9.04	Do.
7	Basting for fagoting	2.35	Do.
8	Basting hems, 1" to 6" wide	5.20	Do.
9	Basting lace	4.49	Do.
10	Basting waist lines, plackets and facings, 2 to 3 stitches per inch	3.26	Do.
11	Bias piping, joined, double, over 10 stitches per inch	10.40	Do.
12	Bias piping, joined, single, over 10 stitches per inch	13.00	Do.
13	Bias piping, second seam, joined, double, set flat on garment with running stitch.	15.66	Do.
14	Blanket stitch, folding included, 18 stitches per inch	29.46	Do.

[1] For description of operations included under "hand-sewing", see definitions in applicable section of wage order.

SCHEDULE A—PIECE RATE SCHEDULE FOR THE SILK, RAYON AND NYLON (EXCEPT INFANTS') DIVISION OF THE NEEDLEWORK AND FABRICATED TEXTILE PRODUCTS INDUSTRY IN PUERTO RICO—Con.

No.	Operation	Piece rates based on hourly rate of 25 cents	Unit of payment
	HAND-SEWING OPERATIONS[1]—continued	*Cents*	
79	Shirring and setting lace edging with hemming stitch on straight outline, material to be measured after shirring	11.32	Per yard.
80	Shoulder straps, set with buttonhole stitch 1½" x ¾", measured after turning, sewed on with hemming stitch, of bra	30.73	For dozen straps.
81	Size tickets set with hemming stitch, cutting tickets included	5.20	For dozen inches.
82	Smocking	22	For dozen stitches.
83	Snaps, sewing on, both sides	5.20	For dozen.
84	Solid cord stitch on gores and embroidery	24.44	For yard.
85	Solid cord stitch to sew on lace	22.10	Do.
86	Spiders, 4 legs	5.20	For dozen.
87	Stitches, 8 stitches per inch	19.16	Do.
88	Tacks, set for handling	2.60	Do.
89	Tucks, stamped, ½" to ¾" wide, up to 6" long	8.13	Do.
90	Tucks, pin, stamped, up to 7" long	8.57	Do.
91	Tucks, pin, unstamped, up to 6" long	10.40	Do.
	NON-HAND-SEWING OPERATIONS		
93	Cutting material under lace, or at seams, straight outline, following machine operations	2.68	Per yard.
94	Turning bolts, machine sewn, 2½" x ¾", measured after turning	11.17	Per dozen bolts.
95	Turning bolts, machine sewn, 60" x ¾", measured after turning	11.19	Do.
96	Turning shoulder pads, 5¼" long, with an unsewn slit, of 1" for turning	7.27	Per dozen pads.
97	Turning shoulder straps, 1½" x ¾", measured after turning	22.24	Per dozen straps.

[1] For description of operations included under "hand-sewing", see definitions in applicable section of wage order.

SCHEDULE E—PIECE RATE SCHEDULE FOR THE GENERAL DIVISION OF THE NEEDLEWORK AND FABRICATED TEXTILE PRODUCTS INDUSTRY IN PUERTO RICO[1]

No.	Operation	Piece rates based on hourly rate of 45 cents	Unit of Payment
	CROCHETING SHADE PULLS, NOT OVER 30 STITCHES PER RING		
207	Cotton thread	$1.41	Per gross.
208	Nylon thread	1.47	Do.

[1] The piece rates apply only to "hand-sewing" operations. For description of operations included under "hand-sewing", see definition in applicable section of wage order.

A wage order which fixed the minimum hourly wage rates to which these piece rates are related became effective October 6, 1955, and an order making final other proposed piece rates related to the same industry will become effective December 9, 1955. It is in the public interest for all piece rates in this industry to become effective simultaneously and as soon as possible after the applicable wage order establishing new minimum hourly wage rates.

I noticed in the proposed amendment, published in the November 9, 1955, issue of the FEDERAL REGISTER, my intention to find good cause to shorten the period prior to the effective date of any final order on the proposed amendment, in order to make the piece rates contained therein effective December 9, 1955. This statement of intention afforded persons affected 30 days in which to prepare for the effective date of this amendment, and, therefore, I find that it is contrary to the public interest and not practicable to delay its effective date, and this amendment shall become effective December 9, 1955.

(Secs. 6, 11, 52 Stat. 1062, 1066, as amended; 29 U. S. C. 206, 211)

Signed at Washington, D. C., this 1st day of December 1955.

NEWELL BROWN,
Administrator, Wage and Hour Division, United States Department of Labor.

[F. R. Doc. 55-9748; Filed, Dec. 2, 1955; 8:50 a. m.]

TITLE 26—INTERNAL REVENUE, 1954

Chapter I—Internal Revenue Service, Department of the Treasury

Subchapter A—Income Tax

[T. D. 6152]

PART 1—INCOME TAX: TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1953

CORPORATE DISTRIBUTIONS AND ADJUSTMENTS

On December 11, 1954, notice of proposed rule making regarding the regulations under Parts I to IV, inclusive, and Part VI of Subchapter C of Chapter 1 of the Internal Revenue Code of 1954 was published in the FEDERAL REGISTER (19 F. R. 8237). After consideration of such relevant suggestions as were presented by interested persons regarding the proposals, the following regulations are hereby adopted:

Part I—Distributions by corporations. The rules in §§ 1.301 to 1.318–4 are to be applied in connection with the provisions of Part I, sections 301 through 318. For rules relating to the effective date of §§ 1.301 to 1.318–4 and to the application of §§ 1.301 to 1.318–4 to years subject to the Internal Revenue Code of 1939, see Part VI (§§ 1.391 to 1.395–1).

Part II—Corporate liquidations. The rules in §§ 1.331 to 1.346–3 are to be applied in connection with the provisions of Part II, sections 331 through 346. For rules relating to the effective date of §§ 1.331 to 1.346–3 and to the application of §§ 1.331 to 1.346–3 to years subject to the Internal Revenue Code of 1939, see Part VI (§§ 1.391 to 1.395–1).

Part III—Corporate organizations and reorganizations. The rules in §§ 1.351 to 1.368–3 are to be applied in connection with the provisions of Part III, sections 351 through 368. For rules relating to the effective date of §§ 1.351 to 1.368–3 and to the application of §§ 1.351 to 1.368–3 to years subject to the Internal Revenue Code of 1939, see Part VI (§§ 1.391 to 1.395–1).

Part IV—Insolvency reorganizations. The rules in §§ 1.371 to 1.373–3 are to be applied in connection with the provisions of Part IV, sections 371 through 373. For rules relating to the effective date of §§ 1.371 to 1.373–3 and to the application of §§ 1.371 to 1.373–3 to years subject to the Internal Revenue Code of 1939, see Part VI (§§ 1.391 to 1.395–1).

Part VI—Effective date of subchapter C. The rules in §§ 1.391 to 1.395–1 are to be applied in connection with the provisions of Part VI, sections 391 through 395.

CORPORATE DISTRIBUTIONS AND ADJUSTMENTS

DISTRIBUTIONS BY CORPORATIONS

Effects on Recipients

Sec.
1.301 Statutory provisions; distributions by corporations; distributions of property.
1.301–1 Rules applicable with respect to distributions of money and other property.
1.302 Statutory provisions; distributions in redemption of stock.
1.302–1 General.
1.302–2 Redemptions not taxable as dividends.
1.302–3 Substantially disproportionate redemption.
1.302–4 Termination of shareholder's interest.
1.303 Statutory provisions; distributions in redemption of stock to pay death taxes.
1.303–1 General.
1.303–2 Requirements.
1.303–3 Application of other sections.
1.304 Statutory provisions; redemption through use of related corporations.
1.304–1 General.
1.304–2 Acquisition by related corporation (other than subsidiary).
1.304–3 Acquisition by a subsidiary.
1.305 Statutory provisions; distributions of stock and stock rights.
1.305–1 Stock dividends.
1.305–2 Election of shareholders as to medium of payment.
1.305–3 Distributions in discharge of preference dividends.
1.306 Statutory provisions; dispositions of certain stock.
1.306–1 General.
1.306–2 Exceptions.
1.306–3 Section 306 stock defined.
1.307 Statutory provisions; basis of stock and stock rights acquired in distribution.
1.307–1 General.
1.307–2 Exception.

Effects on Corporation

1.311 Statutory provisions; taxability of corporation on distribution.
1.311–1 General.
1.312 Statutory provisions; effect on earnings and profits.
1.312–1 Adjustment to earnings and profits reflecting distributions by corporations.
1.312–2 Distributions of inventory assets.
1.312–3 Liabilities.
1.312–4 Examples of adjustments provided in section 312 (c).
1.312–5 Special rule for partial liquidations and certain redemptions.
1.312–6 Earnings and profits.
1.312–7 Effect on earnings and profits of gain or loss realized after February 28, 1913.
1.312–8 Effect on earnings and profits of receipt of tax-free distributions requiring adjustment or allocation of basis of stock.
1.312–9 Adjustments to earnings and profits reflecting increase in value accrued before March 1, 1913.
1.312–10 Allocation of earnings in certain corporate separations.
1.312–11 Effect on earnings and profits of certain other tax-free exchanges and tax-free distributions.
1.312–12 Distributions of proceeds of loans guaranteed by the United States.

Definitions; Constructive Ownership of Stock

1.316 Statutory provisions; dividend defined.
1.316–1 Dividends.
1.316–2 Sources of distribution in general.
1.317 Statutory provisions; other definitions.
1.317–1 Property defined.
1.318 Statutory provisions; constructive ownership of stock.
1.318–1 Constructive ownership of stock; introduction.
1.318–2 Application of general rules.
1.318–3 Estates, trusts, and options.
1.318–4 Constructive family ownership.

CORPORATE LIQUIDATIONS

Effects on Recipients

1.331 Statutory provisions; gain or loss to shareholders in corporate liquidations.
1.331–1 Corporate liquidations.
1.332 Statutory provisions; complete liquidations of subsidiaries.
1.332–1 Distributions in liquidation of subsidiary corporation; general.
1.332–2 Requirements for nonrecognition of gain or loss.
1.332–3 Liquidations completed within one taxable year.
1.332–4 Liquidations covering more than one taxable year.
1.332–5 Distributions in liquidation as affecting minority interests.
1.332–6 Records to be kept and information to be filed with return.
1.332–7 Indebtedness of subsidiary to parent.
1.333 Statutory provisions; election as to recognition of gain in certain liquidations.
1.333–1 Corporate liquidation in some one calendar month.
1.333–2 Qualified electing shareholder.
1.333–3 Making and filing of written elections.
1.333–4 Treatment of gain.
1.333–5 Records to be kept and information to be filed with return.
1.334 Statutory provisions; corporate liquidations; basis of property received in liquidations.
1.334–1 Basis of property received in liquidations.
1.334–2 Property received in liquidation under section 333.

Effects on Corporation

1.336 Statutory provisions; general rule.
1.336–1 General rule on liquidation of corporation.
1.337 Statutory provisions; gain or loss on sales or exchanges in connection with certain liquidations.
1.337–1 General.
1.337–2 Sales or exchanges within the scope of section 337.
1.337–3 Property defined.
1.337–4 Limitation of gain.
1.337–5 Information to be filed with return.
1.338 Statutory provisions; effect on earnings and profits.

Collapsible Corporations; Foreign Personal Holding Companies

1.341 Statutory provisions; collapsible corporations.
1.341–1 Collapsible corporations; in general.
1.341–2 Definitions.
1.341–3 Presumptions.
1.341–4 Limitations on application of section.
1.341–5 Application of section.
1.342 Statutory provisions; liquidation of certain foreign personal holding companies.
1.342–1 General.

Definition

1.346 Statutory provisions; partial liquidation defined.
1.346–1 Partial liquidation.
1.346–2 Treatment of certain redemptions.
1.346–3 Effect of certain sales.

CORPORATE ORGANIZATIONS AND REORGANIZATIONS

1.351 Statutory provisions; transfer to corporation controlled by transferor.
1.351–1 Transfer to corporation controlled by transferor.
1.351–2 Receipt of property.
1.351–3 Records to be kept and information to be filed.

Effects on Shareholders and Security Holders

Sec.
1.354 Statutory provisions; exchanges of stock and securities in certain reorganizations.
1.354–1 Exchanges of stock and securities in certain reorganizations.
1.355 Statutory provisions; distribution of stock and securities of a controlled corporation.
1.355–1 Distribution of stock and securities of controlled corporation.
1.355–2 Limitations.
1.355–3 Non prorata distributions, etc.
1.355–4 Active conduct of a trade or business.
1.355–5 Records to be kept and information to be filed.
1.356 Statutory provisions; receipt of additional consideration.
1.356–1 Receipt of additional consideration in connection with an exchange.
1.356–2 Receipt of additional consideration not in connection with an exchange.
1.356–3 Rules for treatment of securities as "other property".
1.356–4 Exchanges for section 306 stock.
1.356–5 Transactions involving gift or compensation.
1.357 Statutory provisions; assumption of liability.
1.357–1 Assumption of liability.
1.357–2 Liabilities in excess of basis.
1.358 Statutory provisions; basis to distributees.
1.358–1 Basis to distributees.
1.358–2 Allocation of basis among nonrecognition property.
1.358–3 Treatment of assumption of liabilities.
1.358–4 Exception.

Effects on Corporation

1.361 Statutory provisions; nonrecognition of gain or loss to corporations.
1.361–1 Nonrecognition of gain or loss to corporations.
1.362 Statutory provisions; basis to corporations.
1.362–1 Basis to corporations.
1.362–2 Certain contributions to capital.
1.363 Statutory provisions; effect on earnings and profits.

Special Rule; Definitions

1.367 Statutory provisions; foreign corporations.
1.367–1 Foreign corporations.
1.368 Statutory provisions; definitions relating to corporate reorganizations.
1,368–1 Purpose and scope of exception of reorganization exchanges.
1.368–2 Definition of terms.
1.368–3 Records to be kept and information to be filed with returns.

INSOLVENCY REORGANIZATIONS

1.371 Statutory provisions; insolvency reorganizations; reorganization in certain receivership and bankruptcy proceedings.
1.371–1 Exchanges by corporations.
1.371–2 Exchanges by security holders.
1.372 Statutory provisions; insolvency reorganizations; basis in connection with certain receivership and bankruptcy proceedings.
1.372–1 Corporations.
1.373 Statutory provisions; insolvency reorganizations; loss not recognized in certain railroad reorganizations.
1.373–1 Nonrecognition of loss upon transfer of property of railroad corporation.
1.373–2 Property acquired by railroad corporation in a receivership or railroad reorganization proceeding.
1.373–3 Property acquired by electric railway corporation in corporate reorganization proceeding.

EFFECTIVE DATE OF SUBCHAPTER C

1.391 Statutory provisions; effective date of Part I.
1.391–1 Effective date of Part I of subchapter C.
1.392 Statutory provisions; effective date of Part II.
1.392–1 Effective date of Part II of subchapter C.
1.393 Statutory provisions; effective dates of Parts III and IV.
1.393–1 Effective dates of Parts III and IV of subchapter C.
1.393–2 Special rule with respect to certain plans of reorganization arising in 1954.
1.393–3 Making and filing of elections.
1.395 Statutory provisions; special rules for application of subchapter C.
1.395–1 Special rules for application of subchapter C.

AUTHORITY: §§ 1.301 to 1.395–1 issued under sec. 7805, 68A Stat. 917; 26 U. S. C. 7805.

CORPORATE DISTRIBUTIONS AND ADJUSTMENTS

DISTRIBUTIONS BY CORPORATIONS

Effects on Recipients

§ 1.301 *Statutory provisions; distributions by corporations; distributions of property.*

SEC. 301. *Distributions of property*—(a) *In general.* Except as otherwise provided in this chapter, a distribution of property (as defined in section 317 (a)) made by a corporation to a shareholder with respect to its stock shall be treated in the manner provided in subsection (c).

(b) *Amount distributed*—(1) *General rule.* For purposes of this section, the amount of any distribution shall be—

(A) *Noncorporate distributees.* If the shareholder is not a corporation, the amount of money received, plus the fair market value of the other property received.

(B) *Corporate distributees.* If the shareholder is a corporation, the amount of money received, plus whichever of the following is the lesser:

(i) The fair market value of the other property received; or

(ii) The adjusted basis (in the hands of the distributing corporation immediately before the distribution) of the other property received, increased in the amount of gain to the distributing corporation which is recognized under subsection (b) or (c) of section 311.

(2) *Reduction for liabilities.* The amount of any distribution determined under paragraph (1) shall be reduced (but not below zero) by—

(A) The amount of any liability of the corporation assumed by the shareholder in connection with the distribution, and

(B) The amount of any liability to which the property received by the shareholder is subject immediately before, and immediately after, the distribution.

(3) *Determination of fair market value.* For purposes of this section, fair market value shall be determined as of the date of the distribution.

(c) *Amount taxable.* In the case of a distribution to which subsection (a) applies—

(1) *Amount constituting dividend.* That portion of the distribution which is a dividend (as defined in section 316) shall be included in gross income.

(2) *Amount applied against basis.* That portion of the distribution which is not a dividend shall be applied against and reduce the adjusted basis of the stock.

(3) *Amount in excess of basis*—(A) *In general.* Except as provided in subparagraph (B), that portion of the distribution which is not a dividend, to the extent that it exceeds the adjusted basis of the stock, shall be treated as gain from the sale or exchange of property.

(B) *Distributions out of increase in value accrued before March 1, 1913.* That portion of the distribution which is not a dividend, to the extent that it exceeds the adjusted basis of the stock and to the exent that it is out of increase in value accrued before March 1, 1913, shall be exempt from tax.

(d) *Basis.* The basis of property received in a distribution to which subsection (a) applies shall be—

(1) *Noncorporate distributees.* If the shareholder is not a corporation, the fair market value of such property.

(2) *Corporate distributees.* If the shareholder is a corporation, whichever of the following is the lesser:

(A) The fair market value of such property; or

(B) The adjusted basis (in the hands of the distributing corporation immediately before the distribution) of such property, increased in the amount of gain to the distributing corporation which is recognized under subsection (b) or (c) of section 311.

(e) *Exception for certain distributions by personal service corporations.* Any distribution made by a corporation, which was classified as a personal service corporation under the provisions of the Revenue Act of 1918 or the Revenue Act of 1921, out of its earnings or profits which were taxable in accordance with the provisions of section 218 of the Revenue Act of 1918 (40 Stat. 1070), or section 218 of the Revenue Act of 1921 (42 Stat. 245), shall be exempt from tax to the distributees.

(f) *Special rules.* (1) For distributions in redemption of stock, see section 302.

(2) For distributions in partial or complete liquidation, see part II (sec. 331 and following).

(3) For distributions in corporate organizations and reorganizations, see part III (sec. 351 and following).

(4) For partial exclusion from gross income of dividends received by individuals, see section 116.

§ 1.301–1 *Rules applicable with respect to distributions of money and other property*—(a) *General.* Section 301 provides the general rule for treatment of distributions on or after June 22, 1954, of property by a corporation to a shareholder with respect to its stock. The term "property" is defined in section 317 (a). Such distributions, except as otherwise provided in this chapter, shall be treated as provided in section 301 (c). Under section 301 (c), distributions may be included in gross income, applied against and reduce the adjusted basis of the stock, treated as gain from the sale or exchange of property, or (in the case of certain distributions out of increase in value accrued before March 1, 1913) may be exempt from tax. The amount of the distributions to which section 301 applies is determined in accordance with the provisions of section 301 (b). The basis of property received in a distribution to which section 301 applies is determined in accordance with the provisions of section 301 (d). Accordingly, except as otherwise provided in this chapter, a distribution on or after June 22, 1954, of property by a corporation to a shareholder with respect to its stock shall be included in gross income to the extent the amount distributed is considered a dividend under section 316. For examples of distributions treated otherwise, see sections 116, 301 (c) (2), 301 (c) (3) (B), 301 (e), 302 (b), 303, and 305. See also Part II (relating to distributions in partial or complete liquidation), Part III (relating to corporate organizations and reorganizations), and Part IV (relating to insolvency reorganizations) of subchapter C.

(b) *Time of inclusion in gross income and of determination of fair market value.* A distribution made by a corporation to its shareholders shall be included in the gross income of the distributees when the cash or other property is unqualifiedly made subject to their demands. However, if such distribution is a distribution other than in cash, the fair market value of the property shall be determined as of the date of distribution without regard to whether such date is the same as that on which the distribution is includible in gross income. For example, if a corporation distributes a taxable dividend in property (the adjusted basis of which exceeds its fair market value on December 31, 1955) on December 31, 1955, which is received by, or unqualifiedly made subject to the demand of, its shareholders on January 2, 1956, the amount to be included in the gross income of the shareholders will be the fair market value of such property on December 31, 1955, although such amount will not be includible in the gross income of the shareholders until January 2, 1956.

(c) *Application of section to shareholders.* Section 301 is not applicable to an amount paid by a corporation to a shareholder unless the amount is paid to the shareholder in his capacity as such.

(d) *Distributions of property to corporate shareholders.* If property (other than money and other than the obligations of the distributing corporation) is distributed in kind to a shareholder which is a corporation and the fair market value of such property is greater than the adjusted basis in the hands of the distributing corporation, only the adjusted basis of such property (determined immediately before the distribution and increased for any gain recognized to the distributing corporation under section 311 (b) and (c)) shall be taken into account under section 301 (c). Thus, in such a case, the amount of such a dividend in kind under section 301 (c) (1) may not exceed such adjusted basis. Similarly, in such cases where the distribution is not out of earnings and profits, the amount of the reduction in basis of the shareholder's stock and the amount of any gain resulting from such distribution are determined by reference to the adjusted basis of the property distributed. If the property distributed is money, the amount of the distribution shall be the amount of such money. If the property distributed consists of the obligations of the distributing corporation, or stock of the distributing corporation treated as property under section 305 (b), or rights to acquire such stock treated as property under section 305 (b), the amount of such distribution shall be an amount equal to the fair market value of such obligations, stock, or rights. For special rule as to certain distributions of property received by a domestic corporation from a foreign corporation, see section 902 (d).

(e) *Adjusted basis.* In determining the adjusted basis of property distributed in the hands of the distributing corporation immediately before the distribution for purposes of section 301 (b) (1) (B) (ii) and (d) (2) (B), the basis to be used shall be the basis for determining gain upon a sale or exchange.

(f) *Examples.* The application of section 301 may be illustrated by the following examples:

Example (1). On January 1, 1955, A, an individual owned all of the stock of Corporation M with an adjusted basis of $2,000. During 1955, A received distributions from Corporation M totaling $30,000, consisting of $10,000 in cash and listed securities having a basis in the hands of Corporation M and a fair market value on the date distributed of $20,000. Corporation M's taxable year is the calendar year. As of December 31, 1954, Corporation M had earnings and profits accumulated after February 28, 1913, in the amount of $26,000, and it had no earnings and profits and no deficit for 1955. Of the $30,000 received by A, $26,000 will be treated as an ordinary dividend; the remaining $4,000 will be applied against the adjusted basis of his stock; the $2,000 in excess of the adjusted basis of his stock will either be treated as gain from the sale or exchange of property (under section 301 (c) (3) (A)) or, if out of increase in value accrued before March 1, 1913, will (under section 301 (c) (3) (B)) be exempt from tax. If A subsequently sells his stock in Corporation M, the basis for determining gain or loss on the sale will be zero.

Example (2). The facts are the same as in Example 1 with the exceptions that the shareholder of Corporation M is Corporation W and that the securities which were distributed had an adjusted basis to Corporation M of $15,000. The distribution received by Corporation W totals $25,000 consisting of $10,000 in cash and securities with an adjusted basis of $15,000. The total $25,000 will be treated as a dividend to Corporation W since the earnings and profits of Corporation M ($26,000) are in excess of the amount of the distribution.

Example (3). Corporation X owns timber land which it acquired prior to March 1, 1913, at a cost of $50,000 with $5,000 allocated as the separate cost of the land. On March 1, 1913, this property had a fair market value of $150,000 of which $135,000 was attributable to the timber and $15,000 to the land. All of the timber was cut prior to 1955 and the full appreciation in the value thereof, $90,000 ($135,000−$45,000), realized through depletion allowances based on March 1, 1913, value. None of this surplus from realized appreciation had been distributed. In 1955, Corporation X sold the land for $20,000 thereby realizing a gain of $15,000. Of this gain, $10,000 is due to realized appreciation in value which accrued before March 1, 1913 ($15,000−$5,000). Of the gain of $15,000, $5,000 is taxable. Therefore, at December 31, 1955, Corporation X had a surplus from realized appreciation in the amount of $100,000. It had no accumulated earnings and profits and no deficit at January 1, 1955. The net earnings for 1955 (including the $5,000 gain on the sale of the land) were $20,000. During 1955, Corporation X distributed $75,000 to its stockholders. Of this amount, $20,000 will be treated as a dividend. The remaining $55,000, which is a distribution of realized appreciation, will be applied against and reduce the adjusted basis of the shareholders' stock. If any part of the $55,000 is in excess of the adjusted basis of a shareholder's stock, such part will be exempt from tax.

(g) *Reduction for liabilities.* For the purpose of section 301 (a), the amount of any distribution shall be reduced by—

(1) The amount of any liability of the corporation assumed by the shareholder in connection with the distribution, and

(2) The amount of any liability to which the property received by the shareholder is subject immediately before and immediately after the distribution.

Such reduction, however, shall not cause the amount of the distribution to be reduced below zero.

(h) *Basis.* The basis of property received in the distribution to which section 301 applies shall be—

(1) If the shareholder is not a corporation, the fair market value of such property;

(2) If the shareholder is a corporation—

(i) In the case of a distribution of the obligations of the distributing corporation or of the stock of such corporation or rights to acquire such stock (if such stock or rights are treated as property under section 305 (b)), the fair market value of such obligations, stock, or rights;

(ii) In the case of the distribution of any other property, whichever of the following is the lesser—

(*a*) The fair market value of such property; or

(*b*) The adjusted basis (in the hands of the distributing corporation immediately before the distribution) of such property increased in the amount of gain to the distributing corporation which is recognized under section 311 (b) (relating to distributions of LIFO inventory) or under section 311 (c) (relating to distributions of property subject to liabilities in excess of basis).

(j) *Transfers for less than fair market value.* If property is transferred by a corporation to a shareholder which is not a corporation for an amount less than its fair market value in a sale or exchange, such shareholder shall be treated as having received a distribution to which section 301 applies. In such case, the amount of the distribution shall be the difference between the amount paid for the property and its fair market value. If property is transferred in a sale or exchange by a corporation to a shareholder which is a corporation, for an amount less than its fair market value and also less than its adjusted basis, such shareholder shall be treated as having received a distribution to which section 301 applies, and—

(1) Where the fair market value of the property equals or exceeds its adjusted basis in the hands of the distributing corporation the amount of the distribution shall be the excess of the adjusted basis over the amount paid for the property;

(2) Where the fair market value of the property is less than its adjusted basis in the hands of the distributing corporation, the amount of the distribution shall be the excess of such fair market value over the amount paid for the property.

In all cases, the earnings and profits of the distributing corporation shall be decreased by the excess of the basis of the property in the hands of the distributing corporation over the amount received therefor. In computing gain or loss from the subsequent sale of such property, its basis shall be the amount paid for the property increased by the amount of the distribution.

(k) *Application of rule respecting transfers for less than fair market value.* The application of paragraph (j) of this section may be illustrated by the following example:

Example. On January 1, 1955, A, an individual shareholder of Corporation X, purchased property from that corporation for $20. The fair market value of such property was $100, and its basis in the hands of Corporation X was $25. The amount of the distribution determined under section 301 (b) is $80. If A were a corporation, the amount of the distribution would be $5, the excess of the basis of the property in the hands of Corporation X over the amount received therefor. The basis of such property to Corporation A would be $25. If the basis of the property in the hands of Corporation X were $10, the corporate shareholder, A, would not receive a distribution. The basis of such property to Corporation A would be $20. Whether or not A is a corporation, the excess of the amount paid over the basis of the property in the hands of Corporation X ($20 over $10) would be a taxable gain to Corporation X.

(l) *Transactions treated as distributions.* A distribution to shareholders with respect to their stock is within the terms of section 301 although it takes place at the same time as another transaction if the distribution is in substance a separate transaction whether or not connected in a formal sense. This is most likely to occur in the case of a recapitalization, a reincorporation, or a merger of a corporation with a newly organized corporation having substantially no property. For example, if a corporation having only common stock outstanding, exchanges one share of newly issued common stock and one bond in the principal amount of $10 for each share of outstanding common stock, the distribution of the bonds will be a distribution of property (to the extent of their fair market value) to which section 301 applies, even though the exchange of common stock for common stock may be pursuant to a plan of reorganization under the terms of section 368 (a) (1) (E) (recapitalization) and even though the exchange of common stock for common stock may be tax free by virtue of section 354.

(m) *Cancellation of indebtedness.* The cancellation of indebtedness of a shareholder by a corporation shall be treated as a distribution of property.

(n) *Cross references.* For certain rules relating to adjustments to earnings and profits and for determining the extent to which a distribution is a dividend, see sections 312 and 316 and regulations thereunder.

§ 1.302 *Statutory provisions; distributions in redemption of stock.*

SEC. 302. *Distributions in redemption of stock*—(a) *General rule.* If a corporation redeems its stock (within the meaning of section 317 (b)), and if paragraph (1), (2), (3), or (4) of subsection (b) applies, such redemption shall be treated as a distribution in part or full payment in exchange for the stock.

(b) *Redemptions treated as exchanges*—(1) *Redemptions not equivalent to dividends.* Subsection (a) shall apply if the redemption is not essentially equivalent to a dividend.

(2) *Substantially disproportionate redemption of stock*—(A) *In general.* Subsection (a) shall apply if the distribution is substantially disproportionate with respect to the shareholder.

(B) *Limitation.* This paragraph shall not apply unless immediately after the redemption the shareholder owns less than 50 percent of the total combined voting power of all classes of stock entitled to vote.

(C) *Definitions.* For purposes of this paragraph, the distribution is substantially disproportionate if—

(i) The ratio which the voting stock of the corporation owned by the shareholder immediately after the redemption bears to all of the voting stock of the corporation at such time,

is less than 80 percent of—

(ii) The ratio which the voting stock of the corporation owned by the shareholder immediately before the redemption bears to all of the voting stock of the corporation at such time.

For purposes of this paragraph no distribution shall be treated as substantially disproportionate unless the shareholder's ownership of the common stock of the corporation (whether voting or nonvoting) after and before redemption also meets the 80 percent requirement of the preceding sentence. For purposes of the preceding sentence, if there is more than one class of common stock, the determinations shall be made by reference to fair market value.

(D) *Series of redemptions.* This paragraph shall not apply to any redemption made pursuant to a plan the purpose or effect of which is a series of redemptions resulting in a distribution which (in the aggregate) is not substantially disproportionate with respect to the shareholder.

(3) *Termination of shareholder's interest.* Subsection (a) shall apply if the redemption is in complete redemption of all of the stock of the corporation owned by the shareholder.

(4) *Stock issued by railroad corporations in certain reorganizations.* Subsection (a) shall apply if the redemption is of stock issued by a railroad corporation (as defined in section 77 (m) of the Bankruptcy Act, as amended) pursuant to a plan of reorganization under section 77 of the Bankruptcy Act.

(5) *Application of paragraphs.* In determining whether a redemption meets the requirements of paragraph (1), the fact that such redemption fails to meet the requirements of paragraph (2), (3), or (4) shall not be taken into account. If a redemption meets the requirements of paragraph (3) and also the requirements of paragraph (1), (2), or (4), then so much of subsection (c) (2) as would (but for this sentence) apply in respect of the acquisition of an interest in the corporation within the 10-year period beginning on the date of the distribution shall not apply.

(c) *Constructive ownership of stock*—(1) *In general.* Except as provided in paragraph (2) of this subsection, section 318 (a) shall apply in determining the ownership of stock for purposes of this section.

(2) *For determining termination of interest.* (A) In the case of a distribution described in subsection (b) (3), section 318 (a) (1) shall not apply if—

(i) Immediately after the distribution the distributee has no interest in the corporation (including an interest as officer, director, or employee), other than an interest as a creditor,

(ii) The distributee does not acquire any such interest (other than stock acquired by bequest or inheritance) within 10 years from the date of such distribution, and

(iii) The distributee, at such time and in such manner as the Secretary or his delegate by regulations prescribes, files an agreement to notify the Secretary or his delegate of any acquisition described in clause (ii) and to retain such records as may be necessary for the application of this paragraph.

If the distributee acquires such an interest in the corporation (other than by bequest or inheritance) within 10 years from the date of the distribution, then the periods of limitation provided in sections 6501 and 6502 on the making of an assessment and the collection by levy or a proceeding in court shall, with respect to any deficiency (including interest and additions to the tax) resulting from such acquisition, include one year immediately following the date on which the distributee (in accordance with regulations prescribed by the Secretary or his delegate) notifies the Secretary or his delegate of such acquisition; and such assessment and collection may be made notwithstanding any provision of law or rule of law which otherwise would prevent such assessment and collection.

(B) Subparagraph (A) of this paragraph shall not apply if—

(i) Any portion of the stock redeemed was acquired, directly or indirectly, within the 10-year period ending on the date of the distribution by the distributee from a person the ownership of whose stock would (at the time of distribution) be attributable to the distributee under section 318 (a), or

(ii) Any person owns (at the time of the distribution) stock the ownership of which is attributable to the distributee under section 318 (a) and such person acquired any stock in the corporation, directly or indirectly, from the distributee within the 10-year period ending on the date of the distribution, unless such stock so acquired from the distributee is redeemed in the same transaction.

The preceding sentence shall not apply if the acquisition (or, in the case of clause (ii), the disposition) by the distributee did not have as one of its principal purposes the avoidance of Federal income tax.

(d) *Redemptions treated as distributions of property.* Except as otherwise provided in this subchapter, if a corporation redeems its stock (within the meaning of section 317 (b)), and if subsection (a) of this section does not apply, such redemption shall be treated as a distribution of property to which section 301 applies.

(e) *Cross references.* For special rules relating to redemption—

(1) *Death taxes.* Of stock to pay death taxes, see section 303.

(2) *Section 306 stock.* Of section 306 stock, see section 306.

(3) *Liquidations.* Of stock in partial or complete liquidation, see section 331.

§ 1.302–1 *General.* (a) Under section 302 (d), unless otherwise provided in subchapter C, a distribution in redemption of stock shall be treated as a distribution of property to which section 301 applies if the distribution is not within any of the provisions of section 302 (b). A distribution in redemption of stock shall be considered a distribution in part or full payment in exchange for the stock under section 302 (a) provided paragraph (1), (2), (3), or (4) of section 302 (b) applies. Section 318 (a) (relating to constructive ownership of stock) applies to all redemptions under section 302 except that in the termination of a shareholder's interest certain limitations are placed on the application of section 318 (a) (1) by section 302 (c) (2). The term "redemption of stock" is defined in section 317 (b). Section 302 does not apply to that portion of any distribution which qualifies as a distribution in partial liquidation under section 346. For special rules relating to redemption of stock to pay death taxes see section 303. For special rules relating to redemption of section 306 stock see section 306. For special rules relating to redemption of stock in partial or complete liquidation see section 331.

(b) If, in connection with a partial liquidation under the terms of section 346, stock is redeemed in an amount in excess of the amount specified by section 331 (a) (2), section 302 (b) shall first apply as to each shareholder to which it is applicable without limitation because of section 331 (a) (2). That portion of the total distribution which is used in all redemptions from specific shareholders which are within the terms of section 302 (a) shall be excluded in determining the application of sections 346 and 331 (a) (2). For example, Corporation X has $50,000 which is attributable to the sale of one of two active businesses and which, if distributed in redemption of stock, would qualify as a partial liquidation under the terms of section 346 (b). Corporation X distributes $60,000 to its shareholders in redemption of stock, $20,000 of which is in redemption of all of the stock of shareholder A within the meaning of section 302 (b) (3). The $20,000 distributed in redemption of the stock of shareholder A will be excluded in determining the application of sections 346 and 331 (a) (2). The entire $60,000 will be treated as in part or full payment for stock ($20,000 qualifying under section 302 (a) and $40,000 qualifying under sections 346 and 331 (a) (2)).

§ 1.302–2 *Redemptions not taxable as dividends.* (a) The fact that a redemption fails to meet the requirements of paragraph (2), (3) or (4) of section 302 (b) shall not be taken into account in determining whether the redemption is not essentially equivalent to a dividend under section 302 (b) (1). See, however, paragraph (b) of this section. For example, if a shareholder owns only nonvoting stock of a corporation which is not section 306 stock and which is limited and preferred as to dividends and in liquidation, and one-half of such stock is redeemed, the distribution will ordinarily meet the requirements of paragraph (1) of section 302 (b) but will not meet the requirements of paragraph (2), (3) or (4) of such section. The determination of whether or not a distribution is within the phrase "essentially equivalent to a dividend" (that is, having the same effect as a distribution without any redemption of stock) shall be made without regard to the earnings and profits of the corporation at the time of the distribution. For example, if A owns all the stock of a corporation and the corporation redeems part of his stock at a time when it has no earnings and profits, the distribution shall be treated as a distribution under section 301 pursuant to section 302 (d).

(b) The question whether a distribution in redemption of stock of a shareholder is not essentially equivalent to a dividend under section 302 (b) (1) depends upon the facts and circumstances of each case. One of the facts to be considered in making this determination is the constructive stock ownership of such shareholder under section 318 (a). All distributions in pro rata redemptions of a part of the stock of a corporation generally will be treated as distributions under section 301 if the corporation has only one class of stock outstanding. However, for distributions in partial liquidation, see section 346. The redemption of all of one class of stock (except section 306 stock) either at one time or in a series of redemptions generally will be considered as a distribution under section 301 if all classes of stock outstanding at the time of the redemption are held in the same proportion. Distribution in redemption of stock may be treated as distributions under section 301 regardless of the provisions of the stock certificate and regardless of whether all stock being redeemed was acquired by the stockholders from whom the stock was redeemed by purchase or otherwise. In every case in which a shareholder transfers stock to the corporation which issued such stock in exchange for property, the facts and circumstances shall be reported on his return except as provided in § 1.331–1 (d). See sections 346 (a) and 6043 for requirements relating to returns by corporations.

(c) In any case in which an amount received in redemption of stock is treated as a distribution of a dividend, proper adjustment of the basis of the remaining stock will be made with respect to the stock redeemed. The following examples illustrate the application of this rule:

Example (1). A, an individual, purchased all of the stock of Corporation X for $100,000. In 1955 the corporation redeems half of the stock for $150,000, and it is determined that this amount constitutes a dividend. The remaining stock of Corporation X held by A has a basis of $100,000.

Example (2). H and W, husband and wife, each own half of the stock of Corporation X. All of the stock was purchased by H for $100,000 cash. In 1950 H gave one-half of the stock to W, the stock transferred having a value in excess of $50,000. In 1955 all of the stock of H is redeemed for $150,000, and it is determined that the distribution to H in redemption of his shares constitutes the distribution of a dividend. Immediately after the transaction, W holds the remaining stock of Corporation X with a basis of $100,000.

Example (3). The facts are the same as in Example (2) with the additional facts that the outstanding stock of Corporation X consists of 1,000 shares and all but 10 shares of the stock of H is redeemed. Immediately after the transaction, H holds 10 shares of the stock of Corporation X with a basis of $50,000, and W holds 500 shares with a basis of $50,000.

§ 1.302–3 *Substantially disproportionate redemption.* (a) Section 302 (b) (2) provides for the treatment of an amount received in redemption of stock as an amount received in exchange for such stock if—

(1) Immediately after the redemption the shareholder owns less than 50 percent of the total combined voting power of all classes of stock as provided in section 302 (b) (2) (B),

(2) The redemption is a substantially disproportionate redemption within the meaning of section 302 (b) (2) (C), and

(3) The redemption is not pursuant to a plan described in section 302 (b) (2) (D).

Section 318 (a) (relating to constructive ownership of stock) shall apply both in making the disproportionate redemption test and in determining the percentage of stock ownership after the redemption. The requirements under section 302 (b) (2) shall be applied to each shareholder separately and shall be applied only with respect to stock which is issued and outstanding in the hands of the shareholders. Section 302 (b) (2) only applies to a redemption of voting stock or to a redemption of both voting stock and other stock. Section 302 (b) (2) does not apply to the redemption solely of nonvoting stock (common or preferred). However, if a redemption is treated as an exchange to a particular shareholder under the terms of section 302 (b) (2), such section will apply to the simultaneous redemption of nonvoting preferred stock (which is not section 306 stock) owned by such shareholder and such redemption will also be treated as an exchange. Generally, for purposes of this section, stock which does not have voting rights until the happening of an event, such as a default in the payment of dividends on preferred stock, is not voting stock until the happening of the specified event. Subsection 302 (b) (2) (D) provides that a redemption will not be treated as substantially disproportionate if made pursuant to a plan the purpose or effect of which is a series of redemptions which result in the aggregate in a distribution which is not substantially disproportionate. Whether or not such a plan exists will be determined from all the facts and circumstances.

(b) The application of paragraph (a) of this section is illustrated by the following example:

Example. Corporation M has outstanding 400 shares of common stock of which A, B, C and D each own 100 shares or 25 percent. No stock is considered constructively owned by A, B, C or D under section 318. Corporation M redeems 55 shares from A, 25 shares from B, and 20 shares from C. For the redemption to be disproportionate as to any shareholder, such shareholder must own after the redemptions less than 20 percent (80 percent of 25 percent) of the 300 shares of stock then outstanding. After the redemptions, A owns 45 shares (15 percent), B owns 75 shares (25 percent), and C owns 80 shares (26⅔ percent). The distribution is disproportionate only with respect to A.

§ 1.302–4 *Termination of shareholder's interest.* Section 302 (b) (3) provides that a distribution in redemption of all of the stock of the corporation owned by a shareholder shall be treated as a distribution in part or full payment in exchange for the stock of such shareholder. In determining whether all of the stock of the shareholder has been redeemed, the general rule of section 302

(c) (1) requires that the rules of constructive ownership provided in section 318 (a) shall apply. Section 302 (c) (2), however, provides that section 318 (a) (1) (relating to constructive ownership of stock owned by members of a family) shall not apply where the specific requirements of section 302 (c) (2) are met. The following rules shall be applicable in determining whether the specific requirements of section 302 (c) (2) are met:

(a) The agreement specified in section 302 (c) (2) (A) (iii) shall be in the form of a separate statement in duplicate signed by the distributee and attached to his return timely filed for the year in which the distribution described in section 302 (b) (3) occurs. The agreement shall recite that the distributee has not acquired any interest in the corporation (as described in section 302 (c) (2) (A) (i)) since such distribution, and that he agrees to notify the district director of internal revenue for the district in which such return is filed of any acquisition of such an interest in the corporation within 30 days after such acquisition if such acquisition occurs within 10 years from the date of such distribution.

(b) The distributee who files an agreement under section 302 (c) (2) (A) (iii) shall retain copies of income tax returns and any other records indicating fully the amount of tax which would have been payable had the redemption been treated as a distribution subject to section 301.

(c) If stock of a parent corporation is redeemed, subparagraph (A) relating to acquisition of an interest in the corporation within 10 years after termination shall be applied with reference to an interest both in the parent corporation and any subsidiary of such parent corporation. If stock of a parent corporation is sold to a subsidiary in a transaction described in section 304, subparagraph (A) shall be applicable to the acquisition of an interest in such subsidiary corporation or in the parent corporation. If stock of a subsidiary corporation is redeemed, subparagraph (A) shall be applied with reference to an interest both in such subsidiary corporation and its parent. Such subparagraph shall also be applied with respect to an interest in a corporation which is a successor corporation to the corporation the interest in which has been terminated.

(d) For the purpose of section 302 (c) (2) (A) (i), a person will be considered to be a creditor only if the rights of such person with respect to the corporation are not greater or broader in scope than necessary for the enforcement of his claim. Such claim must not in any sense be proprietary and must not be subordinate to the claims of general creditors. An obligation in the form of a debt may thus constitute a proprietary interest. For example, if under the terms of the instrument the corporation may discharge the principal amount of its obligation to a person by payments, the amount or certainty of which are dependent upon the earnings of the corporation, such a person is not a creditor of the corporation. Furthermore, if under the terms of the instrument the rate of purported interest is dependent upon earnings, the holder of such instrument may not, in some cases, be a creditor.

(e) In the case of a distributee to whom section 302 (b) (3) is applicable, who is a creditor after such transaction, the acquisition of the assets of the corporation in the enforcement of the rights of such creditor shall not be considered an acquisition of an interest in the corporation for purposes of section 302 (c) (2) unless stock of the corporation, its parent corporation, or, in the case of a redemption of stock of a parent corporation, of a subsidiary of such corporation is acquired.

(f) In determining whether an entire interest in the corporation has been terminated under section 302 (b) (3), under all circumstances paragraphs (2), (3), and (4) of section 318 (a) (relating to constructive ownership of stock) shall be applicable.

(g) Section 302 (c) (2) (B) provides that section 302 (c) (2) (A) shall not apply—

(1) If any portion of the stock redeemed was acquired directly or indirectly within the 10-year period ending on the date of the distribution by the distributee from a person, the ownership of whose stock would (at the time of distribution) be attributable to the distributee under section 318 (a), or

(2) If any person owns (at the time of the distribution) stock, the ownership of which is attributable to the distributee under section 318 (a), such person acquired any stock in the corporation directly or indirectly from the distributee within the 10-year period ending on the date of the distribution, and such stock so acquired from the distributee is not redeemed in the same transaction,

unless the acquisition (described in (1) above) or the disposition by the distributee (described in (2) above) did not have as one of its principal purposes the avoidance of Federal income tax. A transfer of stock by the transferor, within the 10-year period ending on the date of the distribution, to a person whose stock would be attributable to the transferor shall not be deemed to have as one of its principal purposes the avoidance of Federal income tax merely because the transferee is in a lower income tax bracket than the transferor.

§ 1.303 *Statutory provisions; distributions in redemption of stock to pay death taxes.*

SEC. 303. *Distributions in redemption of stock to pay death taxes*—(a) *In general.* A distribution of property to a shareholder by a corporation in redemption of part or all of the stock of such corporation which (for Federal estate tax purposes) is included in determining the gross estate of a decedent, to the extent that the amount of such distribution does not exceed the sum of—

(1) The estate, inheritance, legacy, and succession taxes (including any interest collected as a part of such taxes) imposed because of such decedent's death, and

(2) The amount of funeral and administration expenses allowable as deductions to the estate under section 2053 (or under section 2106 in the case of the estate of a decedent nonresident, not a citizen of the United States),

shall be treated as a distribution in full payment in exchange for the stock so redeemed.

(b) *Limitations on application of subsection* (a)—(1) *Period for distribution.* Subsection (a) shall apply only to amounts distributed after the death of the decedent and—

(A) Within the period of limitations provided in section 6501 (a) for the assessment of the Federal estate tax (determined without the application of any provision other than section 6501 (a)), or within 90 days after the expiration of such period, or

(B) If a petition for redetermination of a deficiency in such estate tax has been filed with the Tax Court within the time prescribed in section 6213, at any time before the expiration of 60 days after the decision of the Tax Court becomes final.

(2) *Relationship of stock to decedent's estate*—(A) *In general.* Subsection (a) shall apply to a distribution by a corporation only if the value (for Federal estate tax purposes) of all of the stock of such corporation which is included in determining the value of the decedent's gross estate is either—

(i) More than 35 percent of the value of the gross estate of such decedent, or

(ii) More than 50 percent of the taxable estate of such decedent.

(B) *Special rule for stock of two or more corporations.* For purposes of the 35 percent and 50 percent requirements of subparagraph (A), stock of two or more corporations, with respect to each of which there is included in determining the value of the decedent's gross estate more than 75 percent in value of the outstanding stock, shall be treated as the stock of a single corporation. For the purpose of the 75 percent requirement of the preceding sentence, stock which, at the decedent's death, represents the surviving spouse's interest in property held by the decedent and the surviving spouse as community property shall be treated as having been included in determining the value of the decedent's gross estate.

(c) *Stock with substituted basis.* If—

(1) A shareholder owns stock of a corporation (referred to in this subsection as "new stock") the basis of which is determined by reference to the basis of stock of a corporation (referred to in this subsection as "old stock"),

(2) The old stock was included (for Federal estate tax purposes) in determining the gross estate of a decedent, and

(3) Subsection (a) would apply to a distribution of property to such shareholder in redemption of the old stock,

then, subject to the limitation specified in subsection (b) (1), subsection (a) shall apply in respect of a distribution in redemption of the new stock.

§ 1.303–1 *General.* Section 303 provides that in certain cases a distribution in redemption of stock, the value of which is included in determining the value of the gross estate of a decedent, shall be treated as a distribution in full payment in exchange for the stock so redeemed.

§ 1.303–2 *Requirements.* (a) Section 303 applies only where the distribution is with respect to stock of a corporation the value of whose stock in the gross estate of the decedent for Federal estate tax purposes is an amount in excess of (1) 35 percent of the value of the gross estate of such decedent, or (2) 50 percent of the taxable estate of such decedent. For the purposes of such 35 percent and 50 percent requirements, stock of two or more corporations shall be treated as the stock of a single corporation if more than 75 percent in value of the outstanding

stock of each such corporation is included in determining the value of the decedent's gross estate. For the purpose of the 75 percent requirement, stock which, at the decedent's death, represents the surviving spouse's interest in community property shall be considered as having been included in determining the value of the decedent's gross estate.

(b) For the purpose of section 303 (b) (2) (A) (i), the term "gross estate" means the gross estate as computed in accordance with section 2031 (or, in the case of the estate of a decedent nonresident not a citizen of the United States, in accordance with section 2103). For the purpose of section 303 (b) (2) (A) (ii), the term "taxable estate" means the taxable estate as computed in accordance with section 2051 (or, in the case of the estate of a decedent nonresident not a citizen of the United States, in accordance with section 2106).

(c) (1) In determining whether the estate of the decedent is comprised of stock of a corporation of sufficient value to satisfy the percentage requirements of section 303 (b) (2) (A) and section 303 (b) (2) (B), the total value, in the aggregate, of all classes of stock of the corporation includible in determining the value of the gross estate is taken into account. A distribution under section 303 (a) may be in redemption of the stock of the corporation includible in determining the value of the gross estate, without regard to the class of such stock.

(2) The above may be illustrated by the following example:

Example. The gross estate of the decedent has a value of $1,000,000, the taxable estate is $700,000, and the sum of the death taxes and funeral and administration expenses is $275,000. Included in determining the gross estate of the decedent is stock of three corporations which, for Federal estate tax purposes, is valued as follows:

Corporation A:	
Common stock	$100,000
Preferred stock	100,000
Corporation B:	
Common stock	50,000
Preferred stock	350,000
Corporation C:	
Common stock	200,000

The stock of Corporation A and Corporation C included in the estate of the decedent constitutes all of the outstanding stock of both corporations. The stock of Corporation A and the stock of Corporation C, treated as the stock of a single corporation under section 303 (b) (2) (B), has a value in excess of $350,000 (35 percent of the gross estate or 50 percent of the taxable estate). Likewise, the stock of Corporation B has a value in excess of $350,000. The distribution by one or more of the above corporations, within the period prescribed in section 303 (b) (1), of amounts not exceeding, in the aggregate, $275,000, in redemption of preferred stock or common stock of such corporation or corporations, will be treated as in full payment in exchange for the stock so redeemed.

(d) If stock includible in determining the value of the gross estate of a decedent is exchanged for new stock, the basis of which is determined by reference to the basis of the old stock, the redemption of the new stock will be treated the same under section 303 as the redemption of the old stock would have been. Thus section 303 shall apply with respect to a distribution in redemption of stock received by the estate of a decedent (1) in connection with a reorganization under section 368, (2) in a distribution or exchange under section 355 (or so much of section 356 as relates to section 355), (3) in an exchange under section 1036 or (4) in a distribution to which section 305 (a) applies. Similarly, a distribution in redemption of stock will qualify under section 303, notwithstanding the fact that the stock redeemed is section 306 stock to the extent that the conditions of section 303 are met.

(e) Section 303 applies to distributions made after the death of the decedent and (1) before the expiration of the 3-year period of limitations for the assessment of estate tax provided in section 6501 (a) (determined without the application of any provisions of law extending or suspending the running of such period of limitations), or within 90 days after the expiration of such period, or (2) if a petition for redetermination of a deficiency in such estate tax has been filed with the Tax Court within the time prescribed in section 6213, at any time before the expiration of 60 days after the decision of the Tax Court becomes final. The extension of the period of distribution provided in section 303 (b) (1) (B) has reference solely to bona fide contests in the Tax Court and will not apply in the case of a petition for redetermination of a deficiency which is initiated solely for the purpose of extending the period within which section 303 would otherwise be applicable.

(f) While section 303 will most frequently have application in the case where stock is redeemed from the executor or administrator of an estate, the section is also applicable to distributions in redemption of stock included in the decedent's gross estate and held at the time of the redemption by any person who acquired the stock by any of the means comprehended by Part III, Subchapter A, Chapter 11 of Subtitle B, including the heir, legatee, or donee of the decedent, a surviving joint tenant, surviving spouse, appointee, or taker in default of appointment, or a trustee of a trust created by the decedent. Thus section 303 may apply with respect to a distribution in redemption of stock from a donee to whom the decedent has transferred stock in contemplation of death where the value of such stock is included in the decedent's gross estate under section 2035. Similarly, section 303 may apply to the redemption of stock from a beneficiary of the estate to whom an executor has distributed the stock pursuant to the terms of the will of the decedent. However, section 303 is not applicable to the case where stock is redeemed from a stockholder who has acquired the stock by gift or purchase from any person to whom such stock has passed from the decedent. Nor is section 303 applicable to the case where stock is redeemed from a stockholder who has acquired the stock from the executor in satisfaction of a specific monetary bequest.

(g) The total application of section 303 with respect to stock included in the gross estate of any decedent can never exceed the sum of the amount of the estate, inheritance, legacy, and succession taxes (including any interest collected as a part of such taxes) imposed because of the decedent's death and the amount of funeral and administration expenses allowable as deductions to the estate. In determining whether the total distributions in redemption of such stock made within the period of time prescribed in section 303 (b) (1) exceed the amount of such taxes, interest, and expenses, account shall be taken of all such distributions without regard to whether any distribution would be treated as a dividend were it not for section 303.

(h) For the purpose of section 303, the Federal estate tax or any other estate, inheritance, legacy, or succession tax shall be ascertained after the allowance of any credit, relief, discount, refund, remission or reduction of tax.

§ 1.303–3 *Application of other sections.* (a) The sole effect of section 303 is to exempt from tax as a dividend a distribution to which such section is applicable when made in redemption of stock includible in a decedent's gross estate. Such section does not, however, in any other manner affect the principles set forth in sections 302 and 306. Thus, if stock of a corporation is owned equally by A, B, and the C Estate, and the corporation redeems one-half of the stock of each shareholder, the determination of whether the distributions to A and B are essentially equivalent to dividends shall be made without regard to the effect which section 303 may have upon the taxability of the distribution to the C Estate.

(b) See section 304 relative to redemption of stock through the use of related corporations.

§ 1.304 *Statutory provisions; redemption through use of related corporations.*

SEC. 304. *Redemption through use of related corporations*—(a) *Treatment of certain stock purchases*—(1) *Acquisition by related corporation (other than subsidiary).* For purposes of sections 302 and 303, if—

(A) One or more persons are in control of each of two corporations, and

(B) In return for property, one of the corporations acquires stock in the other corporation from the person (or persons) so in control,

then (unless paragraph (2) applies) such property shall be treated as a distribution in redemption of the stock of the corporation acquiring such stock. In any such case, the stock so acquired shall be treated as having been transferred by the person from whom acquired, and as having been received by the corporation acquiring it, as a contribution to the capital of such corporation.

(2) *Acquisition by subsidiary.* For purposes of sections 302 and 303, if—

(A) In return for property, one corporation acquires from a shareholder of another corporation stock in such other corporation, and

(B) The issuing corporation controls the acquiring corporation,

then such property shall be treated as a distribution in redemption of the stock of the issuing corporation.

(b) *Special rules for application of subsection* (a)—(1) *Rule for determinations under section 302* (b). In the case of any acquisition of stock to which subsection (a) of this section applies, determinations as to whether the acquisition is, by reason of section 302 (b), to be treated as a dis-

tribution in part or full payment in exchange for the stock shall be made by reference to the stock of the issuing corporation. In applying section 318 (a) (relating to constructive ownership of stock) with respect to section 302 (b) for purposes of this paragraph, section 318 (a) (2) (C) shall be applied without regard to the 50 percent limitation contained therein.

(2) *Amount constituting dividend*—(A) *Where subsection (a) (1) applies.* In the case of any acquisition of stock to which paragraph (1) (and not paragraph (2)) of subsection (a) of this section applies, the determination of the amount which is a dividend shall be made solely by reference to the earnings and profits of the acquiring corporation.

(B) *Where subsection (a) (2) applies.* In the case of any acquisition of stock to which subsection (a) (2) of this section applies, the determination of the amount which is a dividend shall be made as if the property were distributed by the acquiring corporation to the issuing corporation and immediately thereafter distributed by the issuing corporation.

(c) *Control*—(1) *In general.* For purposes of this section, control means the ownership of stock possessing at least 50 percent of the total combined voting power of all classes of stock entitled to vote, or at least 50 percent of the total value of shares of all classes of stock. If a person (or persons) is in control (within the meaning of the preceding sentence) of a corporation which in turn owns at least 50 percent of the total combined voting power of all stock entitled to vote of another corporation, or owns at least 50 percent of the total value of the shares of all classes of stock of another corporation, then such person (or persons) shall be treated as in control of such other corporation.

(2) *Constructive ownership.* Section 318 (a) (relating to the constructive ownership of stock) shall apply for purposes of determining control under paragraph (1). For purposes of the preceding sentence, section 318 (a) (2) (C) shall be applied without regard to the 50 percent limitation contained therein.

§ 1.304–1 *General.* Section 304 is applicable where a shareholder sells stock of one corporation to a related corporation as defined in section 304. Such sales shall be treated as redemptions subject to sections 302 and 303.

§ 1.304–2 *Acquisition by related corporation (other than subsidiary).* (a) If a corporation, in return for property, acquires stock of another corporation from one or more persons and the person or persons from whom the stock was acquired were in control of both such corporations before the acquisition, then such property shall be treated as received in redemption of stock of the acquiring corporation. The stock received by the acquiring corporation shall be treated as a contribution to the capital of such corporation and shall have the same basis in its hands as it had in the hands of the transferor. The transferor's basis for his stock in the acquiring corporation shall be increased by the basis of stock surrendered by him. (But see below for subsequent reductions of basis in certain cases. As to each person transferring stock, the amount received shall be treated as a distribution of property under section 302 (d), unless as to such person such amount is to be treated as received in exchange for the stock under the terms of section 302 (a) or section 303. In applying section 302 (b), reference shall be had to the shareholder's ownership of stock in the issuing corporation and not to his ownership of stock in the acquiring corporation (except for purposes of applying section 318 (a)). In determining control and applying section 302 (b), section 318 (a) (relating to the constructive ownership of stock) shall be applied without regard to the 50 percent limitation in section 318 (a) (2) (C). A series of redemptions referred to in section 302 (b) (2) (D) shall include acquisitions by either of the corporations of stock of the other and stock redemptions by both corporations. If section 302 (d) applies to the surrender of stock by a shareholder, his basis for his stock in the acquiring corporation after the transaction (increased as above stated) shall not be decreased except as provided in section 301. If section 302 (d) does not apply, the property received shall be treated as received in a distribution in payment in exchange for stock of the acquiring corporation under section 302 (a), which stock has a basis equal to the amount by which the shareholder's basis for his stock in the acquiring corporation was increased on account of the contribution to capital as provided for above. Accordingly, such amount shall be applied in reduction of the shareholder's basis for his stock in the acquiring corporation. Thus, the basis of each share of the shareholder's stock in the acquiring corporation will be the same as the basis of such share before the entire transaction. The holding period of the stock which is considered to have been redeemed shall be the same as the holding period of the stock actually surrendered.

(b) In any case in which two or more persons, in the aggregate, control two corporations, section 304 (a) (1) will apply to sales by such persons of stock in either corporation to the other (whether or not made simultaneously) provided the sales by each of such persons are related to each other. The determination of whether the sales are related to each other shall be dependent upon the facts and circumstances surrounding all of the sales. For this purpose, the fact that the sales may occur during a period of one or more years (such as in the case of a series of sales by persons who together control each of such corporations immediately prior to the first of such sales and immediately subsequent to the last of such sales) shall be disregarded, provided the other facts and circumstances indicate related transactions.

(c) The application of section 304 (a) (1) may be illustrated by the following examples:

Example (1). Corporation X and Corporation Y each have outstanding 100 shares of common stock. One-half of the stock of each corporation is owned by an individual, A, and one-half by another individual, B, who is unrelated to A. A sells 40 shares of Corporation X stock to Corporation Y for $50,000, such stock having an adjusted basis of $10,000 to A. After the sale, A is considered as owning Corporation X stock as follows:

(i) 10 shares directly.

(ii) 45 shares constructively since by virtue of his 50 percent ownership of Y, he constructively owns 50 percent of the 40 shares owned directly by Corporation Y, and 50 percent of the 50 shares attributed to Corporation Y because they are owned by Y's stockholder, B.

Since after the sale A owns a total of more than 50 percent of the voting power of all the outstanding stock of Corporation X, the transfer is not "substantially disproportionate" as to him as provided in section 302 (b) (2). Under these facts, section 302 (b) (1) is not applicable and the entire $50,000 is, therefore, treated as a dividend to A to the extent of the earnings and profits of Corporation Y. The basis of the Corporation X stock to Corporation Y is $10,000, its adjusted basis to A. The amount of $10,000 is added to the basis of the stock of Corporation Y in the hands of A.

Example (2). Corporation X and Corporation Y each have outstanding 100 shares of common stock. A, an individual, owns one-half the stock of each corporation, B owns one-half the stock of Corporation X, and C owns one-half the stock of Corporation Y. A, B, and C are unrelated. A sells 30 shares of the stock of Corporation X to Corporation Y for $50,000, such stock having an adjusted basis of $10,000 to him. After the sale, A is considered as owning 35 shares of the stock of Corporation X (20 shares directly and 15 constructively because one-half of the 30 shares owned by Corporation Y are attributed to him). Since before the sale, he owned 50 percent of the stock of Corporation X and after the sale he owned directly and constructively only 35 percent of such stock, the redemption is substantially disproportionate as to him pursuant to the provisions of section 302 (b) (2). He, therefore, realizes a gain of $40,000 ($50,000 minus $10,000). If the stock surrendered is a capital asset, such gain is long-term or short-term capital gain depending on the period of time that such stock was held. The basis to A for the stock of Corporation Y is not changed as a result of the entire transaction. The basis to Corporation Y for the stock of Corporation X is $10,000, the basis of the transferor.

Example (3). Corporation X and Corporation Y each have outstanding 100 shares of common stock. H, an individual, W, his wife, S, his son, and G, his grandson, each own 25 shares of stock of each corporation. H sells all of his 25 shares of stock of Corporation X to Corporation Y. Since both before and after the transaction H owned directly and constructively 100 percent of the stock of Corporation X, the amount received by him for his stock of Corporation X is treated as a dividend to him to the extent of the earnings and profits of Corporation Y.

§ 1.304–3 *Acquisition by a subsidiary.* (a) If a subsidiary acquires stock of its parent corporation from a shareholder of the parent corporation, the acquisition of such stock shall be treated as though the parent corporation had redeemed its own stock. For the purpose of this section, a corporation is a parent corporation if it meets the 50 percent ownership requirements of section 304 (c). The determination whether the amount received shall be treated as an amount received in payment in exchange for the stock shall be made by applying section 303, or by applying section 302 (b) with reference to the stock of the issuing parent corporation. If such distribution would have been treated as a distribution of property (pursuant to section 302 (d)) under section 301, the entire amount of the selling price of the stock shall be treated as a dividend to the seller to the extent

of the earnings and profits of the parent corporation determined as if the distribution had been made to it of the property that the subsidiary exchanged for the stock. In such cases, the transferor's basis for his remaining stock in the parent corporation will be determined by including the amount of the basis of the stock of the parent corporation sold to the subsidiary.

(b) Section 304 (a) (2) may be illustrated by the following example:

Example. Corporation M has outstanding 100 shares of common stock which are owned as follows: B, 75 shares, C, son of B, 20 shares, and D, daughter of B, 5 shares. Corporation M owns the stock of Corporation X. B sells his 75 shares of Corporation M stock to Corporation X. Under section 302 (b) (3) this is a termination of B's entire interest in Corporation M and the full amount received from the sale of his stock will be treated as payment in exchange for this stock, provided he fulfills the requirements of section 302 (c) (2) (relating to an acquisition of an interest in the corporations).

§ 1.305 *Statutory provisions; distributions of stock and stock rights.*

SEC. 305. *Distributions of stock and stock rights*—(a) *General rule.* Except as provided in subsection (b), gross income does not include the amount of any distribution made by a corporation to its shareholders, with respect to the stock of such corporation, in its stock or in rights to acquire its stock.

(b) *Distributions in lieu of money.* Subsection (a) shall not apply to a distribution by a corporation of its stock (or rights to acquire its stock), and the distribution shall be treated as a distribution of property to which section 301 applies—

(1) To the extent that the distribution is made in discharge of preference dividends for the taxable year of the corporation in which the distribution is made or for the preceding taxable year; or

(2) If the distribution is, at the election of any of the shareholders (whether exercised before or after the declaration thereof), payable either—

(A) In its stock (or in rights to acquire its stock), or

(B) In property.

(c) *Cross references.* For special rules—

(1) Relating to the receipt of stock and stock rights in corporate organizations and reorganizations, see part III (sec. 351 and following).

(2) In the case of a distribution which results in a gift, see section 2501 and following.

(3) In the case of a distribution which has the effect of the payment of compensation, see section 61 (a) (1).

§ 1.305–1 *Stock dividends.* Under section 305, a distribution made by a corporation to its shareholders in its stock or in rights to acquire its stock shall not be included in gross income except as provided in section 305 (b). If the distribution of stock or rights to acquire stock is received in discharge of preference dividends, to the extent that such distribution is not taxable pursuant to section 305, such stock, whether or not preferred stock, or such rights may be section 306 stock within the meaning of section 306 (c). A distribution made by a corporation to its shareholders in its stock or rights to acquire its stock which would not otherwise be included in gross income by reason of section 305 shall not be so treated merely because such distribution was made out of treasury stock or consisted of rights to acquire treasury stock. A right to acquire stock is an option to buy unissued or treasury stock of the corporation issuing the right. See section 307 for rules as to basis of stock and stock rights acquired in a distribution.

§ 1.305–2 *Election of shareholders as to medium of payment.* (a) If any shareholder has the right to an election or option with respect to whether a distribution shall be made either in money or any other property, or in stock or rights to acquire stock of the distributing corporation, then, with respect to all shareholders, the distribution of stock or rights to acquire stock shall be considered as a distribution of property to which section 301 applies regardless of—

(1) Whether the distribution is actually made in whole or in part in stock or in stock rights;

(2) Whether the election or option is exercised or exercisable before or after the declaration of the distribution;

(3) Whether the declaration of the dividend provides that payment will be made in one medium unless the shareholder specifically requests payment in the other; or

(4) Whether all or part of the shareholders have the election.

(b) The application of the above rule may be illustrated by the following example:

Example. Corporation X declared a dividend payable in additional shares of its common stock to the holders of its outstanding common stock on the basis of two additional shares for each share held on the record date but with the provision that, at the election of any shareholder made within a specified period prior to the distribution date, he may receive one additional share for each share held on the record date plus $12 principal amount of securities of Corporation Y owned by Corporation X. The fair market value of the stock of Corporation X on the distribution date was $10 per share. The fair market value of $12 principal amount of securities of Corporation Y on the distribution date was $11 but such securities had a cost basis to Corporation X of $9. The distribution of the second share of stock of Corporation X to those shareholders who do not elect to receive securities of Corporation Y will constitute a distribution of property to which section 301 applies whether such shareholders are individuals or corporations. The amount of the distribution to which section 301 applies will be $10 per share of stock of Corporation X held on the record date (the fair market value of the stock of Corporation X on the distribution date). The distribution of securities of Corporation X in lieu of the second share of stock of Corporation X to the shareholders of Corporation X, whether individuals or corporations, who elect to receive such securities, will also constitute a distribution of property to which section 301 applies. Thus, in the case of the individual shareholders of Corporation X who elect to receive such securities, the amount of the distribution to which section 301 applies will be $11 per share of stock of Corporation X held on the record date (the fair market value of the $12 principal amount of securities of Corporation Y on the distribution date). In the case of the corporate shareholders of Corporation X electing to receive such securities, the amount of the distribution to which section 301 applies will be $9 per share of stock of Corporation X held on the record date (the basis of the securities of Corporation Y in the hands of Corporation X). The receipt by either an individual or corporate shareholder of the one additional share of stock of Corporation X (with respect to which no election applies) for each share held will not result in a distribution of property to such shareholder to which section 301 is applicable.

§ 1.305–3 *Distributions in discharge of preference dividends.* A distribution made by a corporation to its shareholders in its stock or in rights to acquire its stock shall be treated as a distribution of property to which section 301 applies to the extent that the distribution is made in discharge of preference dividends for the taxable year of the corporation in which the distribution is made made or for the preceding taxable year.

§ 1.306 *Statutory provisions; dispositions of certain stock.*

SEC. 306. *Dispositions of certain stock*—(a) *General rule.* If a shareholder sells or otherwise disposes of section 306 stock (as defined in subsection (c))—

(1) *Dispositions other than redemptions.* If such disposition is not a redemption (within the meaning of section 317 (b))—

(A) The amount realized shall be treated as gain from the sale of property which is not a capital asset. This subparagraph shall not apply to the extent that—

(i) The amount realized, exceeds

(ii) Such stock's ratable share of the amount which would have been a dividend at the time of distribution if (in lieu of section 306 stock) the corporation had distributed money in an amount equal to the fair market value of the stock at the time of distribution.

(B) Any excess of the amount realized over the sum of—

(i) The amount treated under subparagraph (A) as gain from the sale of property which is not a capital asset, plus

(ii) The adjusted basis of the stock,

shall be treated as gain from the sale of such stock.

(C) No loss shall be recognized.

(2) *Redemption.* If the disposition is a redemption, the amount realized shall be treated as a distribution of property to which section 301 applies.

(b) *Exceptions.* Subsection (a) shall not apply—

(1) *Termination of shareholder's interest*—(A) *Not in redemption.* If the disposition—

(i) Is not a redemption;

(ii) Is not, directly or indirectly, to a person the ownership of whose stock would (under section 318 (a)) be attributable to the shareholder; and

(iii) Terminates the entire stock interest of the shareholder in the corporation (and for purposes of this clause, section 318 (a) shall apply).

(B) *In redemption.* If the disposition is a redemption and section 302 (b) (3) applies.

(2) *Liquidations.* If the section 306 stock is redeemed in a distribution in partial or complete liquidation to which part II (sec. 331 and following) applies.

(3) *Where gain or loss is not recognized.* To the extent that, under any provision of this subtitle, gain or loss to the shareholder is not recognized with respect to the disposition of the section 306 stock.

(4) *Transactions not in avoidance.* If it is established to the satisfaction of the Secretary or his delegate—

(A) That the distribution, and the disposition or redemption, or

(B) In the case of a prior or simultaneous disposition (or redemption) of the stock with respect to which the section 306 stock disposed of (or redeemed) was issued, that the disposition (or redemption) of the section 306 stock,

was not in pursuance of a plan having as one of its principal purposes the avoidance of Federal income tax.

(c) *Section 306 stock defined*—(1) *In general.* For purposes of this subchapter, the term "section 306 stock" means stock which meets the requirements of subparagraph (A), (B), or (C) of this paragraph.

(A) *Distributed to seller.* Stock (other than common stock issued with respect to common stock) which was distributed to the shareholder selling or otherwise disposing of such stock if, by reason of section 305 (a), any part of such distribution was not includible in the gross income of the shareholder.

(B) *Received in a corporate reorganization or separation.* Stock which is not common stock and—

(i) Which was received, by the shareholder selling or otherwise disposing of such stock, in pursuance of a plan of reorganization (within the meaning of section 368 (a)), or in a distribution or exchange to which section 355 (or so much of section 356 as relates to section 355) applied, and

(ii) With respect to the receipt of which gain or loss to the shareholder was to any extent not recognized by reason of part III, but only to the extent that either the effect of the transaction was substantially the same as the receipt of a stock dividend, or the stock was received in exchange for section 306 stock.

For purposes of this section, a receipt of stock to which the foregoing provisions of this subparagraph apply shall be treated as a distribution of stock.

(C) *Stock having transferred or substituted basis.* Except as otherwise provided in subparagraph (B), stock the basis of which (in the hands of the shareholder selling or otherwise disposing of such stock) is determined by reference to the basis (in the hands of such shareholder or any other person) of section 306 stock.

(2) *Exception where no earnings and profits.* For purposes of this section, the term "section 306 stock" does not include any stock no part of the distribution of which would have been a dividend at the time of the distribution if money had been distributed in lieu of the stock.

(d) *Stock rights.* For purposes of this section—

(1) Stock rights shall be treated as stock, and

(2) Stock acquired through the exercise of stock rights shall be treated as stock distributed at the time of the distribution of the stock rights, to the extent of the fair market value of such rights at the time of the distribution.

(e) *Convertible stock.* For purposes of subsection (c)—

(1) If section 306 stock was issued with respect to common stock and later such section 306 stock is exchanged for common stock in the same corporation (whether or not such exchange is pursuant to a conversion privilege contained in the section 306 stock), then (except as provided in paragraph (2)) the common stock so received shall not be treated as section 306 stock; and

(2) Common stock with respect to which there is a privilege of converting into stock other than common stock (or into property), whether or not the conversion privilege is contained in such stock, shall not be treated as common stock.

(f) *Source of gain.* The amount treated under subsection (a) (1) (A) as gain from the sale of property which is not a capital asset shall, for purposes of part I of subchapter N (sec. 861 and following, relating to determination of sources of income), be treated as derived from the same source as would have been the source if money had been received from the corporation as a dividend at the time of the distribution of such stock. If under the preceding sentence such amount is determined to be derived from sources within the United States, such amount shall be considered to be fixed or determinable annual or periodical gains, profits, and income within the meaning of section 871 (a) or section 881 (a), as the case may be.

(g) *Change in terms and conditions of stock.* If a substantial change is made in the terms and conditions of any stock, then, for purposes of this section—

(1) The fair market value of such stock shall be the fair market value at the time of the distribution or at the time of such change, whichever such value is higher;

(2) Such stock's ratable share of the amount which would have been a dividend if money had been distributed in lieu of stock shall be determined as of the time of distribution or as of the time of such change, whichever such ratable share is higher; and

(3) Subsection (c) (2) shall not apply unless the stock meets the requirements of such subsection both at the time of such distribution and at the time of such change.

(h) *Stock received in distributions and reorganizations to which 1939 Code applied.* If stock—

(1) Was received in a distribution or reorganization to which the Internal Revenue Code of 1939 (or the corresponding provisions of prior law) applied,

(2) Such stock would have been section 306 stock if this Code applied to such distribution or reorganization, and

(3) Such stock is disposed of or redeemed on or after June 22, 1954,

then the foregoing subsections of this section shall not apply in respect of such disposition or redemption. The extent to which such disposition or redemption shall be treated as a dividend shall be determined as if the Internal Revenue Code of 1939 (as modified by the provisions of this Code other than the foregoing subsections of this section) continued to apply in respect of such disposition or redemption.

§ 1.306–1 *General.* (a) Section 306 provides, in general, that the proceeds from the sale or redemption of certain stock (referred to as "section 306 stock") shall be treated either as gain from the sale of property which is not a capital asset, or as a distribution of property to which section 301 applies. Section 306 stock is defined in section 306 (c) and is usually preferred stock received either as a nontaxable dividend or in a transaction in which no gain or loss is recognized. Section 306 (b) lists certain circumstances in which the special rules of section 306 (a) shall not apply.

(b) (1) If a shareholder sells or otherwise disposes of section 306 stock (other than by redemption or within the exceptions listed in section 306 (b)), the entire proceeds received from such disposition shall be treated as gain from the sale of property not a capital asset to the extent that the fair market value of the stock sold, on the date distributed to the shareholder, would have been a dividend to such shareholder had the distributing corporation distributed cash in lieu of stock. Any excess of the amount received over the sum of the amount treated as ordinary income plus the adjusted basis of the stock disposed of, shall be treated as gain from the sale of a capital asset or noncapital asset as the case may be. No loss shall be recognized. While the amount of earnings and profits at the time of the distribution is one of the measures of the amount to be treated as ordinary income, no reduction of earnings and profits results from any disposition of stock other than a redemption. The term "disposition" under section 306 (a) (1) includes, among other things, pledges of stock under certain circumstances, particularly where the pledgee can look only to the stock itself as its security.

(2) Section 306 (a) (1) may be illustrated by the following examples:

Example (1). On December 15, 1954, A and B owned equally all of the stock of Corporation X which files its income tax return on a calendar year basis. On that date Corporation X distributed pro rata 100 shares of preferred stock as a dividend on its outstanding common stock. On December 15, 1954, the preferred stock had a fair market value of $10,000. On December 31, 1954, the earnings and profits of Corporation X were $20,000. The 50 shares of preferred stock so distributed to A had an allocated basis to him of $10 per share or a total of $500 for the 50 shares. Such shares had a fair market value of $5,000 when issued. A sold the 50 shares of preferred stock on July 1, 1955, for $6,000. Of this amount $5,000 will be treated as gain from the sale of property which is not a capital asset; $500 ($6,000 minus $5,500) will be treated as gain from the sale of a capital or noncapital asset as the case may be.

Example (2). The facts are the same as in Example 1 except that A sold his 50 shares of preferred stock for $5,100. Of this amount $5,000 will be treated as gain from the sale of property which is not a capital asset. No loss will be allowed. There will be added back to the basis of the common stock of Corporation X with respect to which the preferred stock was distributed, $400, the allocated basis of $500 reduced by the $100 received.

Example (3). The facts are the same as in example 1 except that A sold 25 of his shares of preferred stock for $2,600. Of this amount $2,500 will be treated as gain from the sale of property which is not a capital asset. No loss will be allowed. There will be added back to the basis of the common stock of Corporation X with respect to which the preferred stock was distributed, $400, the allocated basis of $500 reduced by the $100 received.

(c) The entire amount received by a shareholder from the redemption of section 306 stock shall be treated as a distribution of property under section 301. In the case of a redemption, the amount of the earnings and profits of the distributing corporation at the time the section 306 stock was distributed is immaterial. See also section 303 (relating to distribution in redemption of stock to pay death taxes).

§ 1.306–2 *Exception.* (a) If a shareholder terminates his entire stock interest in a corporation,

(1) By a sale or other disposition within the requirements of section 306 (b) (1) (A), or

(2) By redemption under section 302 (b) (3), (through the application of section 306 (b) (1) (B)),

the amount received from such disposition shall be treated as an amount received in part or full payment for the stock sold or redeemed. In the case of a sale, only the stock interest need be terminated. In determining whether an entire stock interest has been terminated under section 306 (b) (1) (A), all of the provisions of section 318 (a) (relating to constructive ownership of

stock) shall be applicable. In determining whether a shareholder has terminated his entire interest in a corporation by a redemption of his stock under section 302 (b) (3), all of the provisions of section 318 (a) shall be applicable unless the shareholder meets the requirements of section 302 (c) (2) (relating to termination of all interest in the corporation). If the requirements of section 302 (c) (2) are met, section 318 (a) (1) (relating to members of a family) shall be inapplicable. Under all circumstances paragraphs (2), (3), and (4) of section 318 (a) shall be applicable.

(b) Section 306 (a) does not apply to—

(1) Redemptions of section 306 stock pursuant to a partial or complete liquidation of a corporation to which part II (section 331 and following) applies.

(2) Exchanges of section 306 stock solely for stock in connection with a reorganization or in an exchange under section 351, 355, or section 1036 (relating to exchanges of stock for stock in the same corporation) to the extent that gain or loss is not recognized to the shareholder as the result of the exchange of the stock (see § 1.306–3 (d) relative to the receipt of other property), and

(3) A disposition or redemption, if it is established to the satisfaction of the Commissioner that the distribution, and the disposition or redemption, was not in pursuance of a plan having as one of its principal purposes the avoidance of Federal income tax. However, in the case of a prior or simultaneous disposition (or redemption) of the stock with respect to which the section 306 stock disposed of (or redeemed) was issued, it is not necessary to establish that the distribution was not in pursuance of such a plan. For example, in the absence of such a plan and of any other facts, the first sentence of this subparagraph would be applicable to the case of dividends and isolated dispositions of section 306 stock by minority shareholders. Similarly, in the absence of such a plan and of any other facts, if a shareholder received a distribution of 100 shares of section 306 stock on his holdings of 100 shares of voting common stock in a corporation and sells his voting common stock before he disposes of his section 306 stock, the subsequent disposition of his section 306 stock would not ordinarily be considered a disposition one of the principal purposes of which is the avoidance of Federal income tax.

§ 1.306–3 *Section 306 stock defined.* (a) For the purpose of Subchapter C the term "section 306 stock" means stock which meets the requirements of section 306 (c) (1). Any class of stock distributed to a shareholder in a transaction in which no amount is includible in the income of the shareholder or no gain or loss is recognized may be section 306 stock, provided the distributing corporation has earnings and profits at the time of distribution and for this purpose the total amount of the earnings and profits is immaterial. However, except as provided in section 306 (g), if the distributing corporation has no earnings and profits at the time of distribution, pursuant to section 306 (c) (2), the stock distributed will not constitute section 306 stock.

(b) For the purpose of section 306, rights to acquire stock shall be treated as stock. Such rights shall not be section 306 stock if no part of the distribution would have been a dividend if money had been distributed in lieu of such rights. If money distributed in lieu of such rights would have been a dividend, the amount referred to in section 306 (a) (1) (A) (ii) shall be determined as of the time of the distribution of such rights. When stock is acquired by the exercise of rights which are section 306 stock, the stock acquired is section 306 stock, and the amount referred to in section 306 (a) (1) (A) (ii) is determined by reference to the date of distribution of the rights.

(c) Section 306 (c) (1) (A) provides that section 306 stock is any stock (other than common issued with respect to common) distributed to the shareholder selling or otherwise disposing thereof if, under section 305 (a) (relating to distributions of stock and stock rights) any part of the distribution was not included in the gross income of the distributee. Common stock received as a stock dividend will not be considered as section 306 stock unless such dividend is (1) distributed with respect to stock which is not common stock, and (2) is not taxable upon receipt. For example, common stock distributed in payment of arrearages on preferred stock dividends may be section 306 stock unless the common stock is taxable under section 305 (b) (1). Thus, where part of the distribution is in payment of the dividends for the current and preceding year on preferred stock and part of the distribution relates to arrearages of such stock, only that part of the distribution applying to arrearages will be treated as section 306 stock. For example, if 100 shares of common stock are distributed in payment of all dividends due on preferred stock which relates to arrearages on such stock, applying to the current and immediately preceding year's dividends and nine-tenths to arrearages, only nine-tenths of each share may be section 306 stock.

(d) Section 306 (c) (1) (B) includes in the definition of section 306 stock any stock except common stock, which is received by a shareholder in connection with a reorganization under section 368 or in a distribution or exchange under section 355 (or so much of section 356 as relates to section 355) provided the effect of the transaction is substantially the same as the receipt of a stock dividend, or the stock is received in exchange for section 306 stock. If, in a transaction to which section 356 is applicable, a shareholder exchanges section 306 stock for stock and money or other property, the entire amount of such money and of the fair market value of the other property (not limited to the gain recognized) shall be treated as a distribution of property to which section 301 applies. Common stock received in exchange for section 306 stock in a recapitalization shall not be considered section 306 stock. Ordinarily, section 306 stock includes stock which is not common stock received in pursuance of a plan of reorganization (within the meaning of section 368 (a)) or received in a distribution or exchange to which section 355 (or so much of section 356 as relates to section 355) applies if cash received in lieu of such stock would have been treated as a dividend under section 356 (a) (2) or would have been treated as a distribution to which section 301 applies by virtue of section 356 (b) or section 302 (d). The application of the preceding sentence is illustrated by the following examples:

Example (1). Corporation A, having only common stock outstanding, is merged in a statutory merger (qualifying as a reorganization under section 368 (a)) with Corporation B. Pursuant to such merger, the shareholders of Corporation A received both common and preferred stock in Corporation B. The preferred stock received by such shareholders is section 306 stock.

Example (2). X and Y each own one-half of the 2,000 outstanding shares of preferred stock and one-half of the 2,000 outstanding shares of common stock of Corporation C. Pursuant to a reorganization within the meaning of section 368 (a) (1) (E) (recapitalization) each shareholder exchanges his preferred stock for preferred stock of a new issue which is not substantially different from the preferred stock previously held. Unless the preferred stock exchanged was itself section 306 stock the preferred stock received is not section 306 stock.

(e) Section 306 (c) (1) (C) includes in the definition of section 306 stock any stock (except as provided in section 306 (c) (1) (B)) the basis of which in the hands of the person disposing of such stock, is determined by reference to section 306 stock held by such shareholder or any other person. Under this subparagraph common stock can be section 306 stock. Thus, if a person owning section 306 stock in Corporation A transfers it to Corporation B which is controlled by him in exchange for common stock of Corporation B in a transaction to which section 351 is applicable, the common stock so received by him would be section 306 stock and subject to the provisions of section 306 (a) on its disposition. In addition, the section 306 stock transferred is section 306 stock in the hands of Corporation B, the transferee. Section 306 stock transferred by gift remains section 306 stock in the hands of the donee. Stock received in exchange for section 306 stock under section 1036 (a) (relating to exchange of stock for stock in the same corporation) or under so much of section 1031 (b) as relates to section 1036 (a) becomes section 306 stock and acquires, for purposes of section 306, the characteristics of the section 306 stock exchanged. The entire amount of the fair market value of the other property received in such transaction shall be considered as received upon a disposition (other than a redemption) to which section 306 (a) applies. Section 306 stock ceases to be so classified if the basis of such stock is determined by reference to its fair market value on the date of the decedent-stockholder's death or the optional valuation date under section 1014.

(f) If section 306 stock which was distributed with respect to common stock, is exchanged for common stock in the same corporation (whether or not such exchange is pursuant to a conversion privilege contained in section 306 stock), such common stock shall not be section 306

stock. This subparagraph applies to exchanges not coming within the purview of section 306 (c) (1) (B). Common stock which is convertible into stock other than common stock or into property, shall not be considered common stock. It is immaterial whether the conversion privilege is contained in the stock or in some type of collateral agreement.

(g) If there is a substantial change in the terms and conditions of any stock, then, for the purpose of this section—

(1) The fair market value of such stock shall be the fair market value at the time of distribution or the fair market value at the time of such change, whichever is higher;

(2) Such stock's ratable share of the amount which would have been a dividend if money had been distributed in lieu of stock shall be determined as of the time of distribution or as of the time of such change, whichever ratable share is higher; and

(3) Section 306 (c) (2) shall be inapplicable if there would have been a dividend to any extent if money had been distributed in lieu of the stock either at the time of the distribution or at the time of such change.

(h) When section 306 stock is disposed of, the amount treated under section 306 (a) (1) (A) as gain from the sale of property which is not a capital asset will, for the purposes of Part I of Subchapter N, be treated as derived from the same source as would have been the source if money had been received from the corporation as a dividend at the time of the distribution of such stock. If the amount is determined to be derived from sources within the United States, the amount shall be considered to be fixed or determinable annual or periodic gains, profits, and income within the meaning of section 871 (a) or section 881 (a), relating, respectively, to the tax on nonresident alien individuals and on foreign corporations not engaged in business in the United States.

(i) Section 306 shall be inapplicable to stock received before June 22, 1954, and to stock received on or after June 22, 1954, in transactions subject to the provisions of the 1939 Code. See § 1.391–1.

§ 1.307 *Statutory provisions; basis of stock and stock rights acquired in distribution.*

SEC. 307. *Basis of stock and stock rights acquired in distribution*—(a) *General rule.* If a shareholder in a corporation receives its stock or rights to acquire its stock (referred to in this subsection as "new stock") in a distribution to which section 305 (a) applies, then the basis of such new stock and of the stock with respect to which it is distributed (referred to in this section as "old stock"), respectively, shall, in the shareholder's hands, be determined by allocating between the old stock and the new stock the adjusted basis of the old stock. Such allocation shall be made under regulations prescribed by the Secretary or his delegate.

(b) *Exception for certain stock rights*—(1) *In general.* If—

(A) A corporation distributes rights to acquire its stock to a shareholder in a distribution to which section 305 (a) applies, and

(B) The fair market value of such rights at the time of the distribution is less than 15 percent of the fair market value of the old stock at such time,

then subsection (a) shall not apply and the basis of such rights shall be zero, unless the taxpayer elects under paragraph (2) of this subsection to determine the basis of the old stock and of the stock rights under the method of allocation provided in subsection (a).

(2) *Election.* The election referred to in paragraph (1) shall be made in the return filed within the time prescribed by law (including extensions thereof) for the taxable year in which such rights were received. Such election shall be made in such manner as the Secretary or his delegate may by regulations prescribe, and shall be irrevocable when made.

(c) *Cross Reference.* For basis of stock and stock rights distributed before June 22, 1954, see section 1052.

§ 1.307–1 *General.* (a) If a shareholder receives stock or stock rights as a distribution on stock previously held and under section 305 such distribution is not includible in gross income then, except as provided in section 307 (b) and § 1.307–2, the basis of the stock with respect to which the distribution was made shall be allocated between the old and new stocks or rights in proportion to the fair market values of each on the date of distribution. If a shareholder receives stock or stock rights as a distribution on stock previously held and pursuant to section 305 part of the distribution is not includible in gross income, then (except as provided in section 307 (b) and § 1.307–2) the basis of the stock with respect to which the distribution is made shall be allocated between (1) the old stock and (2) that part of the new stock or rights which is not includible in gross income, in proportion to the fair market values of each on the date of distribution. The date of distribution in each case shall be the date the stock or the rights are distributed to the stockholder and not the record date. The general rule will apply with respect to stock rights only if such rights are exercised or sold.

(b) The application of paragraph (a) of this section is illustrated by the following example:

Example. A taxpayer in 1947 purchased 100 shares of common stock at $100 per share and in 1954 by reason of the ownership of such stock acquired 100 rights entitling him to subscribe to 100 additional shares of such stock at $90 a share. Immediately after the issuance of the rights, each of the shares of stock in respect of which the rights were acquired had a fair market value, ex-rights, of $110 and the rights had a fair market value of $19 each. The basis of the rights and the common stock for the purpose of determining the basis for gain or loss on a subsequent sale or exercise of the rights or a sale of the old stock is computed as follows:

100 (shares) × $100 = $10,000, cost of old stock (stock in respect of which the rights were acquired).

100 (shares) × $110 = $11,000, market value of old stock.

100 (rights) × $19 = $1,900, market value of rights.

$\frac{11,000}{12,900}$ of $10,000 = $8,527.13, cost of old stock apportioned to such stock.

$\frac{1,900}{12,900}$ of $10,000 = $1,472.87, cost of old stock apportioned to rights.

If the rights are sold, the basis for determining gain or loss will be $14.7287 per right. If the rights are exercised, the basis of the new stock acquired will be the subscription price paid therefor ($90) plus the basis of the rights exercised ($14.7287 each) or $104.7287 per share. The remaining basis of the old stock for the purpose of determining gain or loss on a subsequent sale will be $85.2713 per share.

§ 1.307–2 *Exception.* The basis of rights to buy stock which are excluded from gross income under section 305 (a), shall be zero if the fair market value of such rights on the date of distribution is less than 15 percent of the fair market value of the old stock on that date, unless the shareholder elects to allocate part of the basis of the old stock to the rights as provided in § 1.307–1 (a). The election shall be made by a shareholder with respect to all the rights received by him in a particular distribution in respect of all the stock of the same class owned by him in the issuing corporation at the time of such distribution. Such election to allocate basis to rights shall be in the form of a statement attached to the shareholder's return for the year in which the rights are received. This election, once made, shall be irrevocable with respect to the rights for which the election was made. Any shareholder making such an election shall retain a copy of the election and of the tax return with which it was filed, in order to substantiate the use of an allocated basis upon a subsequent disposition of the stock acquired by exercise.

Effects on Corporation

§ 1.311 *Statutory provisions; taxability of corporations on distribution.*

SEC. 311. *Taxability of corporation on distribution*—(a) *General rule.* Except as provided in subsections (b) and (c) of this section and section 453 (d), no gain or loss shall be recognized to a corporation on the distribution, with respect to its stock, of—

(1) Its stock (or rights to acquire its stock), or

(2) Property.

(b) *LIFO inventory*—(1) *Recognition of gain.* If a corporation inventorying goods under the method provided in section 472 (relating to last-in, first-out inventories) distributes inventory assets (as defined in paragraph (2) (A)), then the amount (if any) by which—

(A) The inventory amount (as defined in paragraph (2) (B)) of such assets under a method authorized by section 471 (relating to general rule for inventories), exceeds

(B) The inventory amount of such assets under the method provided in section 472,

shall be treated as gain to the corporation recognized from the sale of such inventory assets.

(2) *Definitions.* For purposes of paragraph (1)—

(A) *Inventory assets.* The term "inventory assets" means stock in trade of the corporation, or other property of a kind which would properly be included in the inventory of the corporation if on hand at the close of the taxable year.

(B) *Inventory amount.* The term "inventory amount" means, in the case of inventory assets distributed during a taxable year, the amount of such inventory assets determined as if the taxable year closed at the time of such distribution.

(3) *Method of determining inventory amount.* For purposes of this subsection, the inventory amount of assets under a method authorized by section 471 shall be determined—

(A) If the corporation uses the retail method of valuing inventories under section 472, by using such method, or

(B) If subparagraph (A) does not apply, by using cost or market, whichever is lower.

(c) *Liability in excess of basis.* If—

(1) A corporation distributes property to a shareholder with respect to its stock,

(2) Such property is subject to a liability, or the shareholder assumes a liability of the corporation in connection with the distribution, and

(3) The amount of such liability exceeds the adjusted basis (in the hands of the distributing corporation) of such property,

then gain shall be recognized to the distributing corporation in an amount equal to such excess as if the property distributed had been sold at the time of the distribution. In the case of a distribution of property subject to a liability which is not assumed by the shareholder, the amount of gain to be recognized under the preceding sentence shall not exceed the excess, if any, of the fair market value of such property over its adjusted basis.

§ 1.311–1 *General.* (a) Except as provided in subsections (b) and (c) of section 311 and section 453 (d) (relating to installment obligations) no gain or loss is recognized to a corporation on the distribution, with respect to its stock, of stock, or rights to acquire its stock, or property (regardless of the fact that such property may have appreciated or depreciated in value since its acquisition by the corporation). However, the proceeds of the sale of property in form made by a shareholder receiving such property in kind from the corporation may be imputed to the corporation if, in fact, the corporation made the sale. Moreover, where property is distributed by a corporation, which distribution is in effect an anticipatory assignment of income, such income may be taxable to the corporation. The term "distributions with respect to its stock" includes distributions made in redemption of stock (other than distributions in complete or partial liquidations). See, however, paragraph (e) for distributions to which section 311 does not apply. For the rule respecting the taxation of a corporation making a distribution of property in partial or complete liquidation, see section 336.

(b) In any case in which a corporation distributes with respect to its stock assets which have been part of an inventory, the value of which has been computed for income tax purposes under the method provided in section 472 (relating to last-in, first-out inventories), such corporation shall—

(1) Compute the amount of its inventory under the method provided in section 472 immediately prior to the distribution and immediately after such distribution;

(2) Compute the difference between the two amounts described in (1) of this paragraph;

(3) Compute the amount of its inventory under the method authorized by section 471 (relating to general rule for inventories) immediately prior to the distribution and immediately after such distribution;

(4) Compute the difference between the two amounts determined under (3) of this paragraph.

If the amount computed under (4) of this paragraph is in excess of the amount computed under (2) of this paragraph, then such excess shall be included in the income of the corporation for the year in which such distribution occurs. In any case in which a corporation distributes assets which have been a part of an inventory whose value has been computed for income tax purposes under the method provided in section 472, such corporation shall on the date of distribution record a specific statement of the amount of its inventory under each of the applicable methods for use in the determination of the amount of income includible under section 311.

(c) The following example illustrates the application of section 311 (b):

Example. Corporation R, a manufacturing corporation inventorying goods under the method provided in section 472, distributes 200 units of its inventory assets to its shareholders on November 15, 1955. Immediately before the distribution, the corporation held 300 identical inventory units at the following basis determined by reference to the value computed by using the LIFO method and the value computed by using the FIFO method, in the order of acquisition:

Number of units	Basis LIFO	Number of units	Basis FIFO
a. 100	$1,000	100	$4,000
b. 100	2,000	50	2,500
c. 50	1,000	50	2,500
d. 50	2,000	100	6,000

The amount includible in income pursuant to section 311 (b) is $4,000 computed as follows:

(1) Inventory before distribution under FIFO method (a, b, c and d)	$15,000	
(2) Inventory under FIFO method immediately after distribution (d)	6,000	
(3) Difference (FIFO basis of inventory distributed)		$9,000
(4) Inventory before distribution under LIFO method (a, b, c and d)	$6,000	
(5) Inventory under LIFO method immediately after distribution (a)	1,000	
(6) Difference (LIFO basis of inventory distributed)		5,000
(7) Amount includible in income under section 311 (b)		4,000

(d) Section 311 (c) provides in general for the inclusion in the income of a corporation, on a distribution of property by such corporation to its shareholders, of an amount equal to the excess of a liability over the basis of the property distributed. Thus, section 311 (c) applies where the property distributed is subject to a liability or where the shareholder assumes a liability of the corporation in connection with the distribution. For example, if property which is a capital asset having an adjusted basis to the distributing corporation of $100 and a fair market value of $1,000 (but subject to a liability of $900) is distributed to a shareholder, such distribution is taxable (as long-term or short-term gain, as the case may be) to the corporation to the extent of the excess of the liability ($900) over the adjusted basis ($100) or $800. However, if in the preceding example the fair market value of the property distributed were $800, the amount taxable to the corporation is limited to the excess of the fair market value of the property ($800) over its adjusted basis ($100) or $700. If the property subject to a liability were not a capital asset in the hands of the distributing corporation, the gain would be taxable as gain from the sale of a noncapital asset. The holding period of assets so distributed shall be determined as if such property were sold on the date of the distribution.

(e) (1) Section 311 is limited to distributions which are made by reason of the corporation-stockholder relationship. Section 311 does not apply to transactions between a corporation and a shareholder in his capacity as debtor, creditor, employee, or vendee, where the fact that such debtor, creditor, employee, or vendee is a shareholder is incidental to the transaction. Thus, if the corporation receives its own stock as consideration upon the sale of property by it, or in satisfaction of indebtedness to it, the gain or loss resulting is to be computed in the same manner as though the payment had been made in any other property.

(2) The following examples illustrate the application of subparagraph (1):

Example (1). Corporation A has a claim against Corporation B for damages for loss of profits due to patent infringement. Corporation B satisfies such claim by surrendering shares of the stock of Corporation A to Corporation A. The fair market value of such stock is includible in the gross income of Corporation A.

Example (2). Corporation C, a corporation engaged in the manufacture and sale of automobiles, sells an automobile to individual X, and receives in payment therefor shares of the stock of Corporation C. The transaction will be treated in the same manner as if an amount of cash equal to the fair market value of such stock had been received by Corporation C.

§ 1.312 *Statutory provision; effect on earnings and profits.*

SEC. 312. *Effect on earnings and profits*—(a) *General rule.* Except as otherwise provided in this section, on the distribution of property by a corporation with respect to its stock, the earnings and profits of the corporation (to the extent thereof) shall be decreased by the sum of—

(1) The amount of money,

(2) The principal amount of the obligations of such corporation, and

(3) The adjusted basis of the other property,

so distributed.

(b) *Certain inventory assets*—(1) *In general.* On the distribution by a corporation, with respect to its stock, of inventory assets (as defined in paragraph (2) (A)) the fair market value of which exceeds the adjusted basis thereof, the earnings and profits of the corporation—

(A) Shall be increased by the amount of such excess; and

(B) Shall be decreased by whichever of the following is the lesser:

(i) The fair market value of the inventory assets distributed, or

(ii) The earnings and profits (as increased under subparagraph (A)).

(2) *Definitions*—(A) *Inventory assets.* For purposes of paragraph (1), the term "inventory assets" means—

(i) Stock in trade of the corporation, or other property of a kind which would properly be included in the inventory of the corporation if on hand at the close of the taxable year;

(ii) Property held by the corporation primarily for sale to customers in the ordinary course of its trade or business; and

(iii) Unrealized receivables or fees, except receivables from sales or exchanges of assets other than assets described in this subparagraph.

(B) *Unrealized receivables or fees.* For purposes of subparagraph (A) (iii), the term "unrealized receivables or fees" means, to the extent not previously includible in income under the method of accounting used by the corporation, any rights (contractual or otherwise) to payment for—

(i) Goods delivered, or to be delivered, to the extent that the proceeds therefrom would be treated as amounts received from the sale or exchange of property other than a capital asset, or

(ii) Services rendered or to be rendered.

(c) *Adjustments for liabilities, etc.* In making the adjustments to the earnings and profits of a corporation under subsection (a) or (b), proper adjustment shall be made for—

(1) The amount of any liability to which the property distributed is subject,

(2) The amount of any liability of the corporation assumed by a shareholder in connection with the distribution, and

(3) Any gain to the corporation recognized under subsection (b) or (c) of section 311.

(d) *Certain distributions of stock and securities*—(1) *In general.* The distribution to a distributee by or on behalf of a corporation of its stock or securities, of stock or securities in another corporation, or of property, in a distribution to which this Code applies, shall not be considered a distribution of the earnings and profits of any corporation—

(A) If no gain to such distributee from the receipt of such stock or securities, or property, was recognized under this Code, or

(B) If the distribution was not subject to tax in the hands of such distributee by reason of section 305 (a).

(2) *Prior distributions.* In the case of a distribution of stock or securities, or property, to which section 115 (h) of the Internal Revenue Code of 1939 (or the corresponding provision of prior law) applied, the effect on earnings and profits of such distribution shall be determined under such section 115 (h), or the corresponding provision of prior law, as the case may be.

(3) *Stock or securities.* For purposes of this subsection, the term "stock or securities" includes rights to acquire stock or securities.

(e) *Special rule for partial liquidations and certain redemptions.* In the case of amounts distributed in partial liquidation (whether before, on, or after June 22, 1954) or in a redemption to which section 302 (a) or 303 applies, the part of such distribution which is properly chargeable to capital account shall not be treated as a distribution of earnings and profits.

(f) *Effect on earnings and profits of gain or loss and of receipt of tax-free distributions*—(1) *Effect on earnings and profits of gain or loss.* The gain or loss realized from the sale or other disposition (after February 28, 1913) of property by a corporation—

(A) For the purpose of the computation of the earnings and profits of the corporation, shall (except as provided in subparagraph (B)) be determined by using as the adjusted basis the adjusted basis (under the law applicable to the year in which the sale or other disposition was made) for determining gain, except that no regard shall be had to the value of the property as of March 1, 1913; but

(B) For purposes of the computation of the earnings and profits of the corporation for any period beginning after February 28, 1913, shall be determined by using as the adjusted basis the adjusted basis (under the law applicable to the year in which the sale or other disposition was made) for determining gain.

Gain or loss so realized shall increase or decrease the earnings and profits to, but not beyond, the extent to which such a realized gain or loss was recognized in computing taxable income under the law applicable to the year in which such sale or disposition was made. Where, in determining the adjusted basis used in computing such realized gain or loss, the adjustment to the basis differs from the adjustment proper for the purpose of determining earnings and profits, then the latter adjustment shall be used in determining the increase or decrease above provided. For purposes of this subsection, a loss with respect to which a deduction is disallowed under section 1091 (relating to wash sales of stock or securities), or the corresponding provision of prior law, shall not be deemed to be recognized.

(2) *Effect on earnings and profits of receipt of tax-free distributions.* Where a corporation receives (after February 28, 1913) a distribution from a second corporation which (under the law applicable to the year in which the distribution was made) was not a taxable dividend to the shareholders of the second corporation, the amount of such distribution shall not increase the earnings and profits of the first corporation in the following cases:

(A) No such increase shall be made in respect of the part of such distribution which (under such law) is directly applied in reduction of the basis of the stock in respect of which the distribution was made; and

(B) No such increase shall be made if (under such law) the distribution causes the basis of the stock in respect of which the distribution was made to be allocated between such stock and the property received (or such basis would, but for section 307 (b), be so allocated).

(g) *Earnings and profits—increase in value accrued before March 1, 1913.* (1) If any increase or decrease in the earnings and profits for any period beginning after February 28, 1913, with respect to any matter would be different had the adjusted basis of the property involved been determined without regard to its March 1, 1913, value, then, except as provided in paragraph (2), an increase (properly reflecting such difference) shall be made in that part of the earnings and profits consisting of increase in value of property accrued before March 1, 1913.

(2) If the application of subsection (f) to a sale or other disposition after February 28, 1913, results in a loss which is to be applied in decrease of earnings and profits for any period beginning after February 28, 1913, then, notwithstanding subsection (f) and in lieu of the rule provided in paragraph (1) of this subsection, the amount of such loss so to be applied shall be reduced by the amount, if any, by which the adjusted basis of the property used in determining the loss exceeds the adjusted basis computed without regard to the value of the property on March 1, 1913, and if such amount so applied in reduction of the decrease exceeds such loss, the excess over such loss shall increase that part of the earnings and profits consisting of increase in value of property accrued before March 1, 1913.

(h) *Earnings and profits of personal service corporations.* In the case of a personal service corporation subject for any taxable year to supplement S of the Internal Revenue Code of 1939, an amount equal to the undistributed supplement S net income of the personal service corporation for its taxable year shall be considered as paid in as of the close of such taxable year as paid-in surplus or as a contribution to capital, and the accumulated earnings and profits as of the close of such taxable year shall be correspondingly reduced, if such amount or any portion thereof is required to be included as a dividend in the gross income of the shareholders.

(i) *Allocation in certain corporate separations.* In the case of a distribution or exchange to which section 355 (or so much of section 356 as relates to section 355) applies, proper allocation with respect to the earnings and profits of the distributing corporation and the controlled corporation (or corporations) shall be made under regulations prescribed by the Secretary or his delegate.

(j) *Distribution of proceeds of loan insured by the United States*—(1) *In general.* If a corporation distributes property with respect to its stock, and if, at the time of the distribution—

(A) There is outstanding a loan to such corporation which was made, guaranteed, or insured by the United States (or by any agency or instrumentality thereof), and

(B) The amount of such loan so outstanding exceeds the adjusted basis of the property constituting security for such loan,

then the earnings and profits of the corporation shall be increased by the amount of such excess and (immediately after the distribution) shall be decreased by the amount of such excess. For purposes of subparagraph (B) of the preceding sentence, the adjusted basis of the property at the time of distribution shall be determined without regard to any adjustment under section 1016 (a) (2) (relating to adjustment for depreciation, etc.). For purposes of this paragraph, a commitment to make, guarantee, or insure a loan shall be treated as the making, guaranteeing, or insuring of a loan.

(2) *Effective date.* Paragraph (1) shall apply only with respect to distributions made on or after June 22, 1954.

§ 1.312–1 *Adjustment to earnings and profits reflecting distributions by corporations.* (a) In general, on the distribution of property by a corporation with respect to its stock, its earnings and profits (to the extent thereof) shall be decreased by—

(1) The amount of money,

(2) The principal amount of the obligations of such corporation issued in such distribution, and

(3) The adjusted basis of other property.

For special rule with respect to distributions to which section 312 (e) applies, see § 1.312–5.

(b) The adjustment provided in section 312 (a) (3) and (a) (3) of this section with respect to a distribution of property (other than money or its own obligations) shall be made notwithstanding the fact that such property has appreciated or depreciated in value since acquisition.

(c) The application of paragraphs (a) and (b) of this section may be illustrated by the following examples:

Example (1). Corporation A distributes to its sole shareholder property with a value of $10,000 and a basis of $5,000. It has $12,500 in earnings and profits. The reduction in earnings and profits by reason of such distribution is $5,000. Such is the reduction even though the amount of $10,000 is includible in the income of the shareholder (other than a corporation) as a dividend.

Example (2). The facts are the same as in example (1) above except that the property has a basis of $15,000 and the earnings and profits of the corporation are $20,000. The reduction in earnings and profits is $15,000. Such is the reduction even though only the amount of $10,000 is includible in the income of the shareholder as a dividend.

(d) In the case of a distribution of stock or rights to acquire stock a portion of which is includible in income by reason of section 305 (b), the earnings and profits shall be reduced by the fair market value of such portion. No reduction shall be made if a distribution of stock or rights to acquire stock is not includible in income under the provisions of section 305.

(e) No adjustment shall be made in the amount of the earnings and profits of the issuing corporation upon a disposition of section 306 stock unless such disposition is a redemption.

§ 1.312–2 *Distribution of inventory assets.* Section 312 (b) provides for the increase and the decrease of the earnings and profits of a corporation which distributes with respect to its stock, inventory assets as defined in section 312 (b) (2), where the fair market value of such assets exceeds their adjusted basis. The rules provided in section 312 (b) (relating to distributions of certain inventory assets) shall be applicable without regard to the method used in computing inventories for the purpose of the computation of taxable income. Section 312 (b) does not apply to distributions described in section 312 (e).

§ 1.312–3 *Liabilities.* The amount of any reductions in earnings and profits described in section 312 (a) or (b) shall be (a) reduced by the amount of any liability to which the property distributed was subject and by the amount of any other liability of the corporation assumed by the shareholder in connection with such distribution, and (b) increased by the amount of gain recognized to the corporation under section 311 (b) or (c).

§ 1.312–4 *Examples of adjustments provided in section 312 (c).* The adjustments provided in section 312 (c) may be illustrated by the following examples:

Example (1). On December 2, 1954, Corporation X distributed to its sole shareholder, A, an individual, as a dividend in kind a vacant lot which was not an inventory asset. On that date, the lot had a fair market value of $5,000 and was subject to a mortgage of $2,000. The adjusted basis of the lot was $3,100. The amount of the earnings and profits was $10,000. The amount of the dividend received by A is $3,000 ($5,000, the fair market value, less $2,000, the amount of the mortgage) and the reduction in the earnings and profits of Corporation X is $1,100 ($3,100, the basis, less $2,000, the amount of mortgage).

Example (2). The facts are the same as in example (1) above with the exception that the amount of the mortgage to which the property was subject was $4,000. The amount of the dividend received by A is $1,000, and there is no reduction in the earnings and profits of the corporation as a result of the distribution (disregarding such reduction as may result from an increase in tax to Corporation X because of gain resulting from the distribution). There is a gain of $900 recognized to Corporation X, the difference between the basis of the property ($3,100) and the amount of the mortgage ($4,000), under section 311 (c) and an increase in earnings and profits of $900.

Example (3). Corporation A, having accumulated earnings and profits of $100,000, distributed in kind to its shareholders, not in liquidation, inventory assets which had a basis to it on the "Life" method (section 472) of $46,000 and on the basis of cost or market (section 471) of $50,000. The inventory had a fair market value of $55,000 and was subject to a liability of $35,000. This distribution results in a net decrease in earnings and profits of Corporation A of $11,000, (without regard to any tax on Corporation A) computed as follows:

"Fifo" basis of inventory	$50,000	
Less: "Lifo" basis of inventory	46,000	
Gain recognized—addition to earnings and profits (section 311 (b))		$4,000
Adjustment to earnings and profits required by section 312 (b) (1) (A):		
Fair market value of inventory	$55,000	
Less: "Lifo" basis plus adjustment under section 311 (b)	50,000	
		5,000
Total increase in earnings and profits		9,000
Decrease in earnings and profits—under section 312 (b) (1) (B) (i)	$55,000	
Less: Liability assumed	35,000	
Net amount of distribution (decrease in earnings)		20,000
Net decrease in earnings and profits		11,000

§ 1.312–5 *Special rule for partial liquidations and certain redemptions.* The part of the distribution properly chargeable to capital account within the provisions of section 312 (e) shall not be considered a distribution of earnings and profits within the meaning of section 301 for the purpose of determining taxability of subsequent distributions by the corporation.

§ 1.312–6 *Earnings and profits.* (a) In determining the amount of earnings and profits (whether of the taxable year, or accumulated since February 28, 1913, or accumulated before March 1, 1913) due consideration must be given to the facts, and, while mere bookkeeping entries increasing or decreasing surplus will not be conclusive, the amount of the earnings and profits in any case will be dependent upon the method of accounting properly employed in computing taxable income (or net income, as the case may be). For instance, a corporation keeping its books and filing its income tax returns under subchapter E on the cash receipts and disbursements basis may not use the accrual basis in determining earnings and profits; a corporation computing income on the installment basis as provided in section 453 shall, with respect to the installment transactions, compute earnings and profits on such basis; and an insurance company subject to taxation under section 831 shall exclude from earnings and profits that portion of any premium which is unearned under the provisions of section 832 (b) (4) and which is segregated accordingly in the unearned premium reserve.

(b) Among the items entering into the computation of corporate earnings and profits for a particular period are all income exempted by statute, income not taxable by the Federal Government under the Constitution, as well as all items includible in gross income under section 61 or corresponding provisions of prior revenue acts. Gains and losses within the purview of section 1002 or corresponding provisions of prior revenue acts are brought into the earnings and profits at the time and to the extent such gains and losses are recognized under that section. Interest on State bonds and certain other obligations, although not taxable when received by a corporation, is taxable to the same extent as other dividends when distributed to shareholders in the form of dividends.

(c) (1) In the case of a corporation in which depletion or depreciation is a factor in the determination of income, the only depletion or depreciation deductions to be considered in the computation of the total earnings and profits are those based on cost or other basis without regard to March 1, 1913, value. In computing the earnings and profits for any period beginning after February 28, 1913, the only depletion or depreciation deductions to be considered are those based on (i) cost or other basis, if the depletable or depreciable asset was acquired subsequent to February 28, 1913, or (ii) adjusted cost or March 1, 1913, value, whichever is higher, if acquired before March 1, 1913. Thus, discovery or percentage depletion under all revenue acts for mines and oil and gas wells is not to be taken into consideration in computing the earnings and profits of a corporation. Similarly, where the basis of property in the hands of a corporation is a substituted basis, such basis, and not the fair market value of the property at the time of the acquisition by the corporation, is the basis for computing depletion and depreciation for the purpose of determining earnings and profits of the corporation.

(2) The application of subparagraph (1) of this paragraph may be illustrated by the following example:

Example. Oil producing property which A had acquired in 1949 at a cost of $28,000 was transferred to Corporation Y in December 1951, in exchange for all of its capital stock. The fair market value of the stock and of the property as of the date of the transfer was $247,000. Corporation Y, after four years' operation, effected in 1955 a cash distribution to A in the amount of $165,000. In determining the extent to which the earnings and profits of Corporation Y available for dividend distributions have been increased as the result of production and sale of oil, the depletion to be taken into account is to be computed upon the basis of $28,000 established in the nontaxable exchange in 1951 regardless of the fair market value of the property or of the stock issued in exchange therefor.

(d) A loss sustained for a year before the taxable year does not affect the earnings and profits of the taxable year.

However, in determining the earnings and profits accumulated since February 28, 1913, the excess of a loss sustained for a year subsequent to February 28, 1913, over the undistributed earnings and profits accumulated since February 28, 1913, and before the year for which the loss was sustained, reduces surplus as of March 1, 1913, to the extent of such excess. If the surplus as of March 1, 1913, was sufficient to absorb such excess, distributions to shareholders after the year of the loss are out of earnings and profits accumulated since the year of the loss to the extent of such earnings.

(e) With respect to the effect on the earnings and profits accumulated since February 28, 1913, of distributions made on or after January 1, 1916, and before August 6, 1917, out of earnings or profits accumulated before March 1, 1913, which distributions were specifically declared to be out of earnings and profits accumulated before March 1, 1913, see section 31 (b) of the Revenue Act of 1916, as amended by section 1211 of the Revenue Act of 1917.

§ 1.312–7 *Effect on earnings and profits of gain or loss realized after February 28, 1913.* (a) In order to determine the effect on earnings and profits of gain or loss realized from the sale or other disposition (after February 28, 1913) of property by a corporation, section 312 (f) (1) prescribed certain rules for—

(1) The computation of the total earnings and profits of the corporation of most frequent application in determining invested capital; and

(2) The computation of earnings and profits of the corporation for any period beginning after February 28, 1913, of most frequent application in determining the source of dividend distributions.

Such rules are applicable whenever under any provision of this subtitle it is necessary to compute either the total earnings and profits of the corporation or the earnings and profits for any period beginning after February 28, 1913. For example, since the earnings and profits accumulated after February 28, 1913, or the earnings and profits of the taxable year, are earnings and profits for a period beginning after February 28, 1913, the determination of either must be in accordance with the rules herein prescribed for the ascertainment of earnings and profits for any period beginning after February 28, 1913. Under subparagraph (1) of this paragraph, such gain or loss is determined by using the adjusted basis (under the law applicable to the year in which the sale or other disposition was made) for determining gain, but disregarding value as of March 1, 1913. Under subparagraph (2) of this paragraph, there is used such adjusted basis for determining gain, giving effect to the value as of March 1, 1913, whenever applicable. In both cases the rules are the same as those governing depreciation and depletion in computing earnings and profits (see § 1.312–6). Under both subparagraphs (1) and (2) of this paragraph, the adjusted basis is subject to the limitations of the third sentence of section 312 (f) (1) requiring the use of adjustments proper in determining earnings and profits. The proper adjustments may differ under (A) and (B) of the first sentence of section 312 (f) (1) depending upon the basis to which the adjustments are to be made. If the application of (B) of the first sentence of section 312 (f) (1) results in a loss and if the application of (A) of such sentence to the same transaction reaches a different result, then the loss under (B) of such first sentence will be subject to the adjustment thereto required by section 312 (g) (2). (See § 1.312–9).

(b) (1) The gain or loss so realized increases or decreases the earnings and profits to, but not beyond, the extent to which such gain or loss was recognized in computing taxable income (or net income, as the case may be) under the law applicable to the year in which such sale or disposition was made. As used in this paragraph, the term "recognized" has reference to that kind of realized gain or loss which is recognized for income tax purposes by the statute applicable to the year in which the gain or loss was realized. For example, see section 356. A loss (other than a wash sale loss with respect to which a deduction is disallowed under the provisions of section 1091 or corresponding provisions of prior revenue laws) may be recognized though not allowed as a deduction (by reason, for example, of the operation of sections 267 and 1211 and corresponding provisions of prior revenue laws) but the mere fact that it is not allowed does not prevent decrease in earnings and profits by the amount of such disallowed loss. Wash sale losses, however, disallowed under section 1091 and corresponding provisions of prior revenue laws, are deemed nonrecognized losses and do not reduce earnings or profits. The "recognized" gain or loss for the purpose of computing earnings and profits is determined by applying the recognition provisions to the realized gain or loss computed under the provisions of section 312 (f) (1) as distinguished from the realized gain or loss used in computing taxable income (or net income, as the case may be).

(2) The application of subparagraph (1) of this paragraph may be illustrated by the following examples:

Example (1). Corporation X on January 1, 1952, owned stock in Corporation Y which it had acquired from Corporation Y in December 1951, in an exchange transaction in which no gain or loss was recognized. The adjusted basis to Corporation X of the property exchanged by it for the stock in Corporation Y was $30,000. The fair market value of the stock in Corporation Y when received by Corporation X was $930,000. On April 9, 1955, Corporation X made a cash distribution of $900,000 and, except for the possible effect of the transaction in 1951, had no earnings or profits accumulated after February 28, 1913, and had no earnings or profits for the taxable year. The amount of $900,000 representing the excess of the fair market value of the stock of Corporation Y over the adjusted basis of the property exchanged therefor was not recognized gain to Corporation X under the provisions of section 112 of the Internal Revenue Code of 1939. Accordingly, the earnings and profits of Corporation X are not increased by $900,000, the amount of the gain realized but not recognized in the exchange, and the distribution was not a taxable dividend. The basis in the hands of Corporation Y of the property acquired by it from Corporation X is $30,000. If such property is thereafter sold by Corporation Y, gain or loss will be computed on such basis of $30,000, and earnings and profits will be increased or decreased accordingly.

Example (2). On January 2, 1910, Corporation M acquired nondepreciable property at a cost of $1,000. On March 1, 1913, the fair market value of such property in the hands of Corporation M was $2,200. On December 31, 1952, Corporation M transfers such property to Corporation N in exchange for $1,900 in cash and all Corporation N's stock, which has a fair market value of $1,100. For the purpose of computing the total earnings and profits of Corporation M, the gain on such transaction is $2,000 (the sum of $1,900 in cash and stock worth $1,100 minus $1,000, the adjusted basis for computing gain, determined without regard to March 1, 1913, value), $1,900 of which is recognized under section 356, since this was the amount of money received, although for the purpose of computing net income the gain is only $800 (the sum of $1,900 in cash and stock worth $1,100, minus $2,200, the adjusted basis for computing gain determined by giving effect to March 1, 1913, value). Such earnings and profits will therefore be increased by $1,900. In computing the earnings and profits of Corporation M for any period beginning after February 28, 1913, however, the gain arising from the transaction, like the taxable gain, is only $800, all of which is recognized under section 112 (c) of the Internal Revenue Code of 1939, the money received being in excess of such amount. Such earnings and profits will therefore be increased by only $800 as a result of the transaction. For increase in that part of the earnings and profits consisting of increase in value of property accrued before, but realized on or after March 1, 1913, see § 1.312–9.

Example (3). On July 31, 1955, Corporation R owned oil-producing property acquired after February 28, 1913, at a cost of $200,000, but having an adjusted basis (by reason of taking percentage depletion) of $100,000 for determining gain. However, the adjusted basis of such property to be used in computing gain or loss for the purpose of earnings and profits is, because of the provisions of the third sentence of section 312 (f) (1), $150,000. On such day Corporation R transferred such property to Corporation S in exchange for $25,000 in cash and all of the stock of Corporation S, which had a fair market value of $100,000. For the purpose of computing taxable income, Corporation R has realized a gain of $25,000 as a result of this transaction, all of which is recognized under section 356. For the purpose of computing earnings and profits, however, Corporation R has realized a loss of $25,000, none of which is recognized owing to the provisions of section 356 (c). The earnings and profits of Corporation R are therefore neither increased nor decreased as a result of the transaction. The adjusted basis of the Corporation S stock in the hands of Corporation R for purposes of computing earnings and profits, however, will be $125,000 (though only $100,000 for the purpose of computing taxable income), computed as follows:

Basis of property transferred	$200,000
Less money received on exchange	25,000
Plus gain or minus loss recognized on exchange	None
Basis of stock	175,000
Less adjustments (same as those used in determining adjusted basis of property transferred)	50,000
Adjusted basis of stock	125,000

If, therefore, Corporation R should subsequently sell the Corporation S stock for $100,000, a loss of $25,000 will again be realized for the purpose of computing earnings and profits, all of which will be recognized and will be applied to decrease the earnings and profits of Corporation R.

(c) (1) The third sentence of section 312 (f) (1) provides for cases in which the adjustments, prescribed in section 1016, to the basis indicated in (A) or (B), as the case may be, of the first sentence of section 312 (f) (1), differ from the adjustments to such basis proper for the purpose of determining earnings or profits. The adjustments provided by such third sentence reflect the treatment provided by § 1.312–6 relative to cases where the deductions for depletion and depreciation in computing taxable income (or net income, as the case may be) differ from the deductions proper for the purpose of computing earnings and profits.

(2) The effect of the third sentence of section 312 (f) (1) may be illustrated by the following examples:

Example (1). Corporation X purchased on January 2, 1931, an oil lease at a cost of $10,000. The lease was operated only for the years 1931 and 1932. The deduction for depletion in each of the years 1931 and 1932 amounted to $2,750, of which amount $1,750 represented percentage depletion in excess of depletion based on cost. The lease was sold in 1955 for $15,000. Under section 1016 (a) (2), in determining the gain or loss from the sale of the property, the basis must be adjusted for cost depletion of $1,000 in 1931 and percentage depletion of $2,750 in 1932. However, the adjustment of such basis, proper for the determination of earnings and profits, is $1,000 for each year, or $2,000. Hence, the cost is to be adjusted only to the extent of $2,000, leaving an adjusted basis of $8,000 and the earnings and profits will be increased by $7,000, and not by $8,750. The difference of $1,750 is equal to the amount by which the percentage depletion for the year 1932 ($2,750) exceeds the depletion on cost for that year ($1,000) and has already been applied in the computation of earnings and profits for the year 1932 by taking into account only $1,000 instead of $2,750 for depletion in the computation of such earnings and profits. (See § 1.316–1.)

Example (2). If, in example (1), above, the property, instead of being sold, is exchanged in a transaction described in section 1031 for like property having a fair market value of $7,750 and cash of $7,250, then the increase in earnings and profits amounts to $7,000, that is, $15,000 ($7,750 plus $7,250) minus the basis of $8,000. However, in computing taxable income of Corporation X, the gain is $8,750, that is, $15,000 minus $6,250 ($10,000 less depletion of $3,750), of which only $7,250 is recognized because the recognized gain cannot exceed the sum of money received in the transaction. See section 1031 (b) and the corresponding provisions of prior revenue laws. If, however, the cash received was only $2,250 and the value of the property received was $12,750, then the increase in earnings and profits would be $2,250, that amount being the gain recognized under section 1031.

(d) For adjustment and allocation of the earnings and profits of the transferor as between the transferor and the transferee in cases where the transfer of property by one corporation to another corporation results in the nonrecognition in whole or in part of gain or loss, see § 1.312–10; and see section 381 for earnings and profits of successor corporations in certain transactions.

§ 1.312–8 *Effect on earnings and profits of receipt of tax-free distributions requiring adjustment or allocation of basis of stock.* (a) In order to determine the effect on earnings and profits, where a corporation receives (after February 28, 1913) from a second corporation a distribution which (under the law applicable to the year in which the distribution was made) was not a taxable dividend to the shareholders of the second corporation, section 312 (f) prescribes certain rules. It provides that the amount of such distribution shall not increase the earnings and profits of the first or receiving corporation in the following cases: (1) No such increase shall be made in respect of the part of such distribution which (under the law applicable to the year in which the distribution was made) is directly applied in reduction of the basis of the stock in respect of which the distribution was made and (2) no such increase shall be made if (under the law applicable to the year in which the distribution was made) the distribution causes the basis of the stock in respect of which the distribution was made to be allocated between such stock and the property received (or such basis would but for section 307 (b) be so allocated). Where, therefore, the law (applicable to the year in which the distribution was made, as, for example, a distribution in 1934 from earnings and profits accumulated before March 1, 1913) requires that the amount of such distribution shall be applied against and reduce the basis of the stock with respect to which the distribution was made, there is no increase in the earnings and profits by reason of the receipt of such distribution. Similarly, where there is received by a corporation a distribution from another corporation in the form of a stock dividend and the law applicable to the year in which such distribution was made requires the allocation, as between the old stock and the stock received as a dividend, of the basis of the old stock (or such basis would but for section 307 (b) be so allocated), then there is no increase in the earnings and profits by reason of the receipt of such stock dividend even though such stock dividend constitutes income within the meaning of the sixteenth amendment to the Constitution.

(b) The principles set forth in paragraph (a) of this section may be illustrated by the following examples:

Example (1). Corporation X in 1955 distributed to Corporation Y, one of its shareholders, $10,000 which was out of earnings or profits accumulated before March 1, 1913, and did not exceed the adjusted basis of the stock in respect of which the distribution was made. This amount of $10,000 was, therefore, a tax-free distribution and under the provisions of section 301 (c) (2) must be applied against and reduce the adjusted basis of the stock in respect of which the distribution was made. The earnings and profits of Corporation Y are not increased by reason of the receipt of this distribution.

Example (2). Corporation Z in 1955 had outstanding common and preferred stock of which Corporation Y held 100 shares of the common and no preferred. The stock had a cost basis to Corporation Y of $100 per share, or a total cost of $10,000. In December of that year it received a dividend of 100 shares of the preferred stock of Corporation Z. Such distribution is a stock dividend which, under section 305, was not taxable and was accordingly not included in the gross income of Corporation Y. The original cost of $10,000 is allocated to the 200 shares of Corporation Z none of which has been sold or otherwise disposed of by Corporation Y. See section 307 and § 1.307–1. The earnings and profits of Corporation Y are not increased by reason of the receipt of such stock dividend.

§ 1.312–9 *Adjustments to earnings and profits reflecting increase in value accrued before March 1, 1913.* (a) In order to determine, for the purpose of ascertaining the source of dividend distributions, that part of the earnings and profits which is represented by increase in value of property accrued before, but realized on or after, March 1, 1913, section 312 (g) prescribes certain rules.

(b) (1) Section 312 (g) (1) sets forth the general rule with respect to computing the increase to be made in that part of the earnings and profits consisting of increase in value of property accrued before, but realized on or after, March 1, 1913.

(2) The effect of section 312 (g) (1) may be illustrated by the following examples:

Example (1). Corporation X acquired nondepreciable property before March 1, 1913, at a cost of $10,000. Its fair market value as of March 1, 1913, was $12,000 and it was sold in 1955 for $15,000. The increase in earnings and profits from the value as of March 1, 1913, representing earnings and profits accumulated since February 28, 1913, is $3,000. If the basis is determined without regard to the value as of March 1, 1913, there would be an increase in earnings and profits of $5,000. The difference of $2,000 ($5,000 minus $3,000) represents the increase to be made in that part of the earnings and profits of Corporation X consisting of the increase in value of property accrued before, but realized on or after, March 1, 1913.

Example (2). Corporation Y acquired depreciable property in 1908 at a cost of $100,000. Assuming no additions or betterments, and that the depreciation sustained before March 1, 1913, was $10,000, the adjusted cost as of that date was $90,000. Its fair market value as of March 1, 1913, was $94,000 and on February 28, 1955, it was sold for $25,000. For the purpose of determining gain from the sale, the basis of the property is the fair market value of $94,000 as of March 1, 1913, adjusted for depreciation for the period subsequent to February 28, 1913, computed on such fair market value. If the amount of the depreciation deduction allowed after February 28, 1913, and properly allowable for each of such years to the date of the sale in 1955 is the aggregate sum of $81,467, the adjusted basis for determining gain in 1955 ($94,000 less $81,467) is $12,533 and the gain would be $12,467 ($25,000 less $12,533). The increase in earnings and profits accumulated since February 28, 1913, by reason of the sale, based on the value as of March 1, 1913, adjusted for depreciation is $12,467. If the depreciation since February 28, 1913, had been based on the adjusted cost of $90,000 ($100,000 less $10,000) instead of the March 1, 1913, value of $94,000, the depreciation sustained from that date to the date of sale would have been $78,000 instead of $81,467 and the actual gain on the sale based on the cost of $100,000 adjusted by depreciation on such cost to $12,000 ($100,000 reduced by the

sum of $10,000 and $78,000) would be $13,000 ($25,000 less $12,000). If the adjusted basis of the property was determined without regard to the value as of March 1, 1913, there would be an increase in earnings and profits of $13,000. The difference of $533 ($13,000 minus $12,467) represents the increase to be made in that part of the earnings and profits of Corporation Y consisting of the increase in value of property accrued before, but realized on or after, March 1, 1913 (assuming that the proper increase in such surplus had been made each year for the difference between depreciation based on cost and the depreciation based on March 1, 1913, value). Thus, the total increase in that part of earnings and profits consisting of the increase in value of property accrued before, but realized on or after, March 1, 1913, is $4,000 ($94,000 less $90,000).

(c) (1) Section 312 (g) (2) is an exception to the general rule in section 312 (g) (1) and also operates as a limitation on the application of section 312 (f). It provides that, if the application of part (B) of the first sentence of section 312 (f) (1) to a sale or other disposition after February 28, 1913, results in a loss which is to be applied in decrease of earnings and profits for any period beginning after February 28, 1913, then, notwithstanding section 312 (f) and in lieu of the rule provided in section 312 (g) (1), the amount of such loss so to be applied shall be reduced by the amount, if any, by which the adjusted basis of the property used in determining the loss, exceeds the adjusted basis computed without regard to the fair market value of the property on March 1, 1913. If the amount so applied in reduction of the loss exceeds such loss, the excess over such loss shall increase that part of the earnings and profits consisting of increase in value of property accrued before, but realized on or after March 1, 1913.

(2) The application of section 312 (g) (2) may be illustrated by the following examples:

Example (1). Corporation Y acquired nondepreciable property before March 1, 1913, at a cost of $8,000. Its fair market value as of March 1, 1913, was $13,000, and it was sold in 1955 for $10,000. Under (B) of the first sentence of section 312 (f) (1) the adjusted basis would be $13,000 and there would be a loss of $3,000. The application of (B) of the first sentence of section 312 (f) (1) would result in a loss from the sale in 1955 to be applied in decrease of earnings and profits for that year. Section 312 (g) (2), however, applies and the loss of $3,000 is reduced by the amount by which the adjusted basis of $13,000 exceeds the cost of $8,000 (the adjusted basis computed without regard to the value on March 1, 1913), namely, $5,000. The amount of the loss is, accordingly, reduced from $3,000 to zero and there is no decrease in earnings and profits of Corporation Y for the year 1955 as a result of the sale. The amount applied in reduction of the decrease, namely, $5,000, exceeds $3,000. Accordingly, as a result of the sale the excess of $2,000 increases that part of the earnings and profits of Corporation Y consisting of increase in value of property accrued before, but realized on or after March 1, 1913.

Example (2). Corporation Z acquired nondepreciable property before March 1, 1913, at a cost of $10,000. Its fair market value as of March 1, 1913, was $12,000, and it was sold in 1955 for $8,000. Under (B) of the first sentence of section 312 (f) (1) the adjusted basis would be $12,000 and there would be a loss of $4,000. The application of (B) of the first sentence of section 312 (f) (1) would result in a loss from the sale in 1955 to be applied in decrease of earnings and profits for that year. Section 312 (g) (2), however, applies and the loss of $4,000 is reduced by the amount by which the adjusted basis of $12,000 exceeds the cost of $10,000 (the adjusted basis computed without regard to the value on March 1, 1913), namely, $2,000. The amount of the loss is, accordingly, reduced from $4,000 to $2,000, and the decrease in earnings and profits of Corporation Z for the year 1955 as a result of the sale is $2,000 instead of $4,000. The amount applied in reduction of the decrease, namely, $2,000, does not exceed $4,000. Accordingly, as a result of the sale there is no increase in that part of the earnings and profits of Corporation Z consisting of increase in value of property accrued before, but realized on or after March 1, 1913.

§ 1.312–10 *Allocation of earnings in certain corporate separations.* (a) If one corporation transfers part of its assets constituting an active trade or business to another corporation in a transaction to which section 368 (a) (1) (D) applies and immediately thereafter the stock and securities of the controlled corporation are distributed in a distribution or exchange to which section 355 (or so much of section 356 as relates to section 355) applies, the earnings and profits of the distributing corporation immediately before the transaction shall be allocated between the distributing corporation and the controlled corporation. In the case of a newly created controlled corporation, such allocation generally shall be made in proportion to the fair market value of the business or businesses (and interests in any other properties) retained by the distributing corporation and the business or businesses (and interests in any other properties) of the controlled corporation immediately after the transaction. In a proper case, allocation shall be made between the distributing corporation and the controlled corporation in proportion to the net basis of the assets transferred and of the assets retained or by such other method as may be appropriate under the facts and circumstances of the case. The term "net basis" means the basis of the assets less liabilities assumed or liabilities to which such assets are subject. The part of the earnings and profits of the taxable year of the distributing corporation in which the transaction occurs allocable to the controlled corporation shall be included in the computation of the earnings and profits of the first taxable year of the controlled corporation ending after the date of the transaction.

(b) If a distribution or exchange to which section 355 applies (or so much of section 356 as relates to section 355) is not in pursuance of a plan meeting the requirements of a reorganization as defined in section 368 (a) (1) (D), the earnings and profits of the distributing corporation shall be decreased by the lesser of the following amounts:

(1) The amount by which the earnings and profits of the distributing corporation would have been decreased if it had transferred the stock of the controlled corporation to a new corporation in a reorganization to which section 368 (a) (1) (D) applied and immediately thereafter distributed the stock of such new corporation or,

(2) The net worth of the controlled corporation. (For this purpose the term "net worth" means the sum of the bases of all of the properties plus cash minus all liabilities.)

If the earnings and profits of the controlled corporation immediately before the transaction are less than the amount of the decrease in earnings and profits of the distributing corporation (including a case in which the controlled corporation has a deficit) the earnings and profits of the controlled corporation, after the transaction, shall be equal to the amount of such decrease. If the earnings and profits of the controlled corporation immediately before the transaction are more than the amount of the decrease in the earnings and profits of the distributing corporation, they shall remain unchanged.

(c) In no case shall any part of a deficit of a distributing corporation within the meaning of section 355 be allocated to a controlled corporation.

§ 1.312–11 *Effect on earnings and profits of certain other tax-free exchanges and tax-free distributions.* (a) (1) If property is transferred by one corporation to another corporation within the provisions of section 351, no allocation of earnings and profits shall be made between the transferor and transferee by reason of such transfer. The preceding sentence may not apply when such transfer immediately follows or immediately precedes either a reorganization under section 368 or a liquidation under section 332 to which section 334 (b) (2) does not apply. See § 1.312–10 for allocation of earnings and profits upon the distribution of the stock of a controlled corporation in a transaction subject to section 355 or so much of section 356 as relates to section 355.

(2) The following example will illustrate the application of paragraph (a) (1) of this section:

Example. Corporation A transfers half of its assets subject to half of its liabilities to Corporation B in exchange for all of its stock. Such stock is not distributed by Corporation A. The transaction is not followed or preceded by a reorganization or a liquidation. No allocation of earnings and profits from Corporation A to Corporation B shall be made.

(b) The general rule provided in section 316 that every distribution is made out of earnings or profits to the extent thereof and from the most recently accumulated earnings or profits does not apply to:

(1) The distribution, in pursuance of a plan of reorganization, by or on behalf of a corporation a party to the reorganization, or in a transaction subject to section 355, to its shareholders—

(i) Of stock or securities in such corporation or in another corporation a party to the reorganization in any taxable year beginning before January 1, 1934, without the surrender by the distributees of stock or securities in such corporation (see section 112 (g) of the Revenue Act of 1932); or

(ii) Of stock (other than preferred stock) in another corporation which is a party to the reorganization without the surrender by the distributees of stock in the distributing corporation if the distribution occurs after October 20, 1951, and is subject to section 112 (b) (11) of the Internal Revenue Code of 1939; or

(iii) Of stock or securities in such corporation or in another corporation a party to the reorganization in any taxable year beginning before January 1, 1939, or on or after such date, in exchange for its stock or securities in a transaction to which section 112 (b) (3) of the Internal Revenue Code of 1939 was applicable; or

(iv) Of stock or securities in such corporation or in another corporation in exchange for its stock or securities in a transaction subject to section 354 or 355,

if no gain to the distributees from the receipt of such stock or securities was recognized by law.

(2) The distribution in any taxable year (beginning before January 1, 1939, or on or after such date) of stock or securities, or other property or money, to a corporation in complete liquidation of another corporation, under the circumstances described in section 112 (b) (6) of the Revenue Act of 1936, the Revenue Act of 1938, of the Internal Revenue Code of 1939, or section 332.

(3) The distribution in any taxable year (beginning after December 31, 1939), of stock or securities, or other property or money, in the case of an exchange or distribution described in section 371 of the Internal Revenue Code of 1939 or in section 1081 (relating to exchanges and distributions in obedience to orders of the Securities and Exchange Commission), if no gain to the distributee from the receipt of such stock, securities, or other property or money was recognized by law.

(4) A stock dividend which was not subject to tax in the hands of the distributee because either it did not constitute income to him within the meaning of the sixteenth amendment to the Constitution or because exempt to him under section 115 (f) of the Revenue Act of 1934 or a corresponding provision of a prior Revenue Act, or section 305.

(5) The distribution, in a taxable year of the distributee beginning after December 31, 1931, by or on behalf of an insolvent corporation, in connection with a section 112 (b) (10) reorganization under the Internal Revenue Code of 1939, or in a transaction subject to section 371, of stock or securities in a corporation organized or made use of to effectuate the plan of reorganization, if under section 112 (1) of the Internal Revenue Code of 1939 or section 371 no gain to the distributee from the receipt of such stock or securities was recognized by law.

(c) A distribution described in subparagraph (1), (2), (3), (4), or (5) of paragraph (b) does not diminish the earnings or profits of any corporation. In such cases, the earnings or profits remain intact and available for distribution as dividends by the corporation making such distribution, or by another corporation to which the earnings or profits are transferred upon such reorganization or other exchange. In the case, however, of amounts distributed in liquidation (other than a tax-free liquidation or reorganization described in subparagraph (1), (2), (3), or (5) of paragraph (b)) the earnings or profits of the corporation making the distribution are diminished by the portion of such distribution properly chargeable to earnings or profits accumulated after February 28, 1913, after first deducting from the amount of such distribution the portion thereof, allocable to capital account.

(d) For the purposes of this section, the terms "reorganization" and "party to the reorganization", shall, for any taxable year beginning before January 1, 1934, have the meanings assigned to such terms in section 112 of the Revenue Act of 1932; for any taxable year beginning after December 31, 1933, and before January 1, 1936, have the meanings assigned to such terms in section 112 of the Revenue Act of 1934; for any taxable year beginning after December 31, 1935, and before January 1, 1938, have the meanings assigned to such terms in section 112 of the Revenue Act of 1936; for any taxable year beginning after December 31, 1937; and before January 1, 1939, have the meanings assigned to such terms in section 112 of the Revenue Act of 1938; and for any taxable year beginning after December 31, 1938, and ending before June 22, 1954, providing no election is made under section 393 (b) (2) of the Internal Revenue Code of 1954, have the meanings assigned to such terms in section 213 (b) of the Revenue Act of 1939.

§ 1.312–12 *Distributions of proceeds of loans guaranteed by the United States.* (a) The provisions of section 312 (j) are applicable with respect to a loan, any portion of which is guaranteed by an agency of the United States Government without regard to the percentage of such loan subject to such guarantee.

(b) The application of section 312 (j) is illustrated by the following example:

Example. Corporation A borrowed $1,000,000 for the purpose of construction of an apartment house, the cost and adjusted basis of which was $900,000. This loan was guaranteed by an agency of the United States Government. One year after such loan was made and after the completion of construction of the building (but before such corporation had received any income) it distributed $100,000 cash to its shareholders. The earnings and profits of the taxable year of such corporation are increased (pursuant to section 312 (j)) by $100,000 immediately prior to such distribution and are decreased by $100,000 immediately after such distribution. Such decrease, however, does not reduce the earnings and profits below zero. Two years later, it has no accumulated earnings and has earnings of the taxable year of $100,000. Before it has made any payments on the loan, it distributes $200,000 to its shareholders. The earnings and profits of the taxable year of the corporation ($100,000) are increased by $100,000, the excess of the amount of the guaranteed loan over the adjusted basis of the apartment house (calculated without adjustment for depreciation). The entire amount of each distribution is treated as a distribution out of earnings and profits and, accordingly, as a taxable dividend.

Definitions; Constructive Ownership of Stock

§ 1.316 *Statutory provisions; dividend defined.*

SEC. 316. *Dividend Defined*—(a) *General rule.* For purposes of this subtitle, the term "dividend" means any distribution of property made by a corporation to its shareholders—

(1) Out of its earnings and profits accumulated after February 28, 1913, or

(2) Out of its earnings and profits of the taxable year (computed as of the close of the taxable year without diminution by reason of any distributions made during the taxable year), without regard to the amount of the earnings and profits at the time the distribution was made.

Except as otherwise provided in this subtitle, every distribution is made out of earnings and profits to the extent thereof, and from the most recently accumulated earnings and profits. To the extent that any distribution is, under any provision of this subchapter, treated as a distribution of property to which section 301 applies, such distribution shall be treated as a distribution of property for purposes of this subsection.

(b) *Special rules*—(1) *Certain insurance company dividends.* The definition in subsection (a) shall not apply to the term "dividend" as used in sections 803 (e), 821 (a) (2), 823 (2), and 832 (c) (11) (where the reference is to dividends of insurance companies paid to policyholders.)

(2) *Distributions by personal holding companies.* In the case of a corporation which—

(A) Under the law applicable to the taxable year in which the distribution is made, is a personal holding company (as defined in section 542), or

(B) For the taxable year in respect of which the distribution is made under section 563 (b) (relating to dividends paid after the close of the taxable year), or section 547 (relating to deficiency dividends), or the corresponding provisions of prior law, is a personal holding company under the law applicable to such taxable year,

the term "dividend" also means any distribution of property (whether or not a dividend as defined in subsection (a)) made by the corporation to its shareholders, to the extent of its undistributed personal holding company income (determined under section 545 without regard to distributions under this paragraph) for such year.

§ 1.316–1 *Dividends.* (a) (1) The term "dividend" for the purpose of subtitle A (except when used in section 803 (e), section 821 (a) (2), section 823 (2), and section 832 (c) (11) where the reference is to dividends of insurance companies paid to policyholders) comprises any distribution of property as defined in section 317 in the ordinary course of business, even though extraordinary in amount, made by a domestic or foreign corporation to its shareholders out of either—

(i) Earnings and profits accumulated since February 28, 1913, or

(ii) Earnings and profits of the taxable year computed without regard to the amount of the earnings and profits (whether of such year or accumulated since February 28, 1913) at the time the distribution was made.

The earnings and profits of the taxable year shall be computed as of the close of such year, without diminution by reason of any distributions made during the taxable year. For the purpose of deter-

mining whether a distribution constitutes a dividend, it is unnecessary to ascertain the amount of the earnings and profits accumulated since February 28, 1913, if the earnings and profits of the taxable year are equal to or in excess of the total amount of the distributions made within such year.

(2) Where a corporation distributes property to its shareholders on or after June 22, 1954, the amount of the distribution which is a dividend to them may not exceed the earnings and profits of the distributing corporation.

(3) The rule of (2) above may be illustrated by the following example:

Example. X and Y, individuals, each own one-half of the stock of Corporation A which has earnings and profits of $10,000. Corporation A distributes property having a basis of $6,000 and a fair market value of $16,000 to its shareholders, each shareholder receiving property with a basis of $3,000 and with a fair market value of $8,000 in a distribution to which section 301 applies. The amount taxable to each shareholder as a dividend under section 301 (c) is $5,000.

(b) In the case of a corporation which, under the law applicable to the taxable year in which a distribution is made, is a personal holding company or which, for the taxable year in respect of which a distribution is made under section 563, relating to dividends paid within 2½ months after the close of the taxable year, or section 547 (relating to deficiency dividends), or corresponding provisions of a prior income-tax law, was under the applicable law a personal holding company, the term "dividend," in addition to the meaning set forth in the first sentence of section 316, also means a distribution to its shareholders as follows: A distribution within a taxable year of the corporation, or of a shareholder, is a dividend to the extent of the corporation's undistributed personal holding company income (determined under section 545 without regard to distributions under section 316 (b) (2)) for the taxable year in which, or, in the case of a distribution under section 563 or section 547, the taxable year in respect of which, the distribution was made.

(c) Except as provided in section 316 (b) (1), the term "dividend" includes any distribution of property to shareholders to the extent made out of accumulated or current earnings and profits. See, however, section 331 (relating to distributions in complete or partial liquidation), section 301 (e) (relating to distributions by personal service corporations), section 302 (b) (relating to redemptions treated as amounts received from the sale or exchange of stock), and section 303 (relating to distributions in redemption of stock to pay death taxes). See also section 305 (b) for certain distributions of stock or stock rights treated as distributions of property.

(d) The application of section 316 may be illustrated by the following examples:

Example (1). At the beginning of the calendar year 1955, Corporation M had an operating deficit of $200,000 and the earnings and profits for the year amounted to $100,000. Beginning on March 16, 1955, the corporation made quarterly distributions of $25,000 during the taxable year to its shareholders. Each distribution is a taxable dividend in full, irrespective of the actual or the pro rata amount of the earnings and profits on hand at any of the dates of distribution, since the total distributions made during the year ($100,000) did not exceed the total earnings and profits of the year ($100,000).

Example (2). At the beginning of the calendar year 1955, Corporation N, a personal holding company, had no accumulated earnings and profits. During that year it made no earnings and profits but, due to the disallowance of certain deductions, its undistributed personal holding company income (determined under section 545 without regard to distributions under section 316 (b) (2)) was $16,000. It distributed to shareholders on December 15, 1955, $15,000, and on February 1, 1956, $1,000, the latter amount being claimed as a deduction under section 563 in its personal holding company schedule for 1955 filed with its return for 1955 on March 15, 1956. Both distributions are taxable dividends in full, since they do not exceed the undistributed personal holding company income (determined without regard to such distributions) for 1955, the taxable year in which the distribution of $15,000 was made and with respect to which the distribution of $1,000 was made. It is immaterial whether Corporation N is a personal holding company for the taxable year 1956 or whether it had any income for that year.

Example (3). In 1959, a deficiency in personal holding company tax was established against Corporation O for the taxable year 1955 in the amount of $35,500 based on an undistributed personal holding company income of $42,000. Corporation O complied with the provisions of section 547 and in December 1959 distributed $42,000 to its stockholders as "deficiency dividends." The distribution of $42,000 is a taxable dividend since it does not exceed $42,000 (the undistributed personal holding company income for 1955, the taxable year with respect to which the distribution was made). It is immaterial whether Corporation O is a personal holding company for the taxable year 1959 or whether it had any income for that year.

Example (4). At the beginning of the taxable year 1955, Corporation P, a personal holding company, had a deficit in earnings and profits of $200,000. During that year it made earnings and profits of $90,000. For that year, however, it had an undistributed personal holding income (determined under section 545 without regard to distributions under section 316 (b) (2)) of $80,000. During such taxable year it distributed to its shareholders $100,000. The distribution of $100,000 is a taxable dividend to the extent of $90,000 since its earnings and profits for that year, $90,000, exceed $80,000, the undistributed personal holding company income determined without regard to such distribution.

§ 1.316–2 *Sources of distribution in general.* (a) For the purpose of income taxation every distribution made by a corporation is made out of earnings and profits to the extent thereof and from the most recently accumulated earnings and profits. In determining the source of a distribution, consideration should be given first, to the earnings and profits of the taxable year; second, to the earnings and profits accumulated since February 28, 1913, only in the case where, and to the extent that, the distributions made during the taxable year are not regarded as out of the earnings and profits of that year; third, to the earnings and profits accumulated before March 1, 1913, only after all the earnings and profits of the taxable year and all the earnings and profits accumulated since February 28, 1913, have been distributed; and, fourth, to sources other than earnings and profits only after the earnings and profits have been distributed.

(b) If the earnings and profits of the taxable year (computed as of the close of the year without diminution by reason of any distributions made during the year and without regard to the amount of earnings and profits at the time of the distribution) are sufficient in amount to cover all the distributions made during that year, then each distribution is a taxable dividend. See § 1.316–1. If the distributions made during the taxable year consist only of money and exceed the earnings and profits of such year, then that proportion of each distribution which the total of the earnings and profits of the year bears to the total distributions made during the year shall be regarded as out of the earnings and profits of that year. The portion of each such distribution which is not regarded as out of earnings and profits of the taxable year shall be considered a taxable dividend to the extent of the earnings and profits accumulated since February 28, 1913, and available on the date of the distribution. In any case in which it is necessary to determine the amount of earnings and profits accumulated since February 28, 1913, and the actual earnings and profits to the date of a distribution within any taxable year (whether beginning before January 1, 1936, or, in the case of an operating deficit, on or after that date) cannot be shown, the earnings and profits for the year (or accounting period, if less than a year) in which the distribution was made shall be prorated to the date of the distribution not counting the date on which the distribution was made.

(c) The provisions of the section may be illustrated by the following example:

Example. At the beginning of the calendar year 1955, Corporation M had $12,000 in earnings and profits accumulated since February 28, 1913. Its earnings and profits for 1955 amounted to $30,000. During the year it made quarterly cash distributions of $15,000 each. Of each of the four distributions made, $7,500 (that portion of $15,000 which the amount of $30,000, the total earnings and profits of the taxable year, bears to $60,000, the total distributions made during the year) was paid out of the earnings and profits of the taxable year; and of the first and second distributions, $7,500 and $4,500, respectively, were paid out of the earnings and profits accumulated after February 28, 1913, and before the taxable year, as follows:

Distributions during 1955		Portion out of earnings and profits of the taxable year	Portion out of earnings accumulated since Feb. 28, 1913, and before the taxable year	Taxable amount of each distribution
Date	Amount			
March 10	$15,000	$7,500	$7,500	$15,000
June 10	15,000	7,500	4,500	12,000
September 10	15,000	7,500	----------	7,500
December 10	15,000	7,500	----------	7,500
Total amount taxable as dividends				42,000

(d) Any distribution by a corporation out of earnings and profits accumulated before March 1, 1913, or out of increase in value of property accrued before March 1, 1913 (whether or not realized by sale or other disposition, and, if realized, whether before, on, or after March 1, 1913), is not a dividend within the meaning of subtitle A.

(e) A reserve set up out of gross income by a corporation and maintained for the purpose of making good any loss of capital assets on account of depletion or depreciation is not a part of surplus out of which ordinary dividends may be paid. A distribution made from a depletion or a depreciation reserve based upon the cost or other basis of the property will not be considered as having been paid out of earnings and profits, but the amount thereof shall be applied against and reduce the cost or other basis of the stock upon which declared. If such a distribution is in excess of the basis, the excess shall be taxed as a gain from the sale or other disposition of property as provided in section 301 (c) (3) (A). A distribution from a depletion reserve based upon discovery value to the extent that such reserve represents the excess of the discovery value over the cost or other basis for determining gain or loss, is, when received by the shareholders, taxable as an ordinary dividend. The amount by which a corporation's percentage depletion allowance for any year exceeds depletion sustained on cost or other basis, that is, determined without regard to discovery or percentage depletion allowances for the year of distribution or prior years, constitutes a part of the corporation's "earnings and profits accumulated after February 28, 1913," within the meaning of section 316, and, upon distribution to shareholders, is taxable to them as a dividend. A distribution made from that portion of a depletion reserve based upon a valuation as of March 1, 1913, which is in excess of the depletion reserve based upon cost, will not be considered as having been paid out of earnings and profits, but the amount of the distribution shall be applied against and reduce the cost or other basis of the stock upon which declared. See section 301. No distribution, however, can be made from such a reserve until all the earnings and profits of the corporation have first been distributed.

§ 1.317 *Statutory provisions; other definitions.*

SEC. 317. *Other definitions*—(a) *Property.* For purposes of this part, the term "property" means money, securities, and any other property; except that such term does not include stock in the corporation making the distribution (or rights to acquire such stock).

(b) *Redemption of stock.* For purposes of this part, stock shall be treated as redeemed by a corporation if the corporation acquires its stock from a shareholder in exchange for property, whether or not the stock so acquired is cancelled, retired, or held as treasury stock.

§ 1.317–1 *Property defined.* The term "property", for purposes of Part 1 of subchapter C, means any property (including money, securities, and indebtedness to the corporation) other than stock, or rights to acquire stock, in the corporation making the distribution.

§ 1.318 *Statutory provisions; constructive ownership of stock.*

SEC. 318. *Constructive ownership of stock*—(a) *General rule.* For purposes of those provisions of this subchapter to which the rules contained in this section are expressly made applicable—

(1) *Members of family*—(A) *In general.* An individual shall be considered as owning the stock owned, directly or indirectly, by or for—

(i) His spouse (other than a spouse who is legally separated from the individual under a decree of divorce or separate maintenance), and

(ii) His children, grandchildren and parents.

(B) *Effect of adoption.* For purposes of subparagraph (A) (ii), a legally adopted child of an individual shall be treated as a child of such individual by blood.

(2) *Partnerships, estates, trusts and corporations*—(A) *Partnerships and estates.* Stock owned, directly or indirectly, by or for a partnership or estate shall be considered as being owned proportionately by its partners or beneficiaries. Stock owned, directly or indirectly, by or for a partner or a beneficiary of an estate shall be considered as being owned by the partnership or estate.

(B) *Trusts.* Stock owned, directly or indirectly, by or for a trust shall be considered as being owned by its beneficiaries in proportion to the actuarial interest of such beneficiaries in such trust. Stock owned, directly or indirectly, by or for a beneficiary of a trust shall be considered as being owned by the trust, unless such beneficiary's interest in the trust is a remote contingent interest. For purposes of the preceding sentence, a contingent interest of a beneficiary in a trust shall be considered remote if, under the maximum exercise of discretion by the trustee in favor of such beneficiary, the value of such interest, computed actuarially, is 5 percent or less of the value of the trust property. Stock owned, directly or indirectly, by or for any portion of a trust of which a person is considered the owner under subpart E of Part I of subchapter J (relating to grantors and others treated as substantial owners) shall be considered as being owned by such person; and such trust shall be treated as owning the stock owned, directly or indirectly, by or for that person. This subparagraph shall not apply with respect to any employees' trust described in section 401 (a) which is exempt from tax under section 501 (a).

(C) *Corporations.* If 50 percent or more in value of the stock in a corporation is owned, directly or indirectly, by or for any person, then—

(i) Such person shall be considered as owning the stock owned, directly or indirectly, by or for that corporation, in that proportion which the value of the stock which such person so owns bears to the value of all the stock in such corporation; and

(ii) Such corporation shall be considered as owning the stock owned, directly or indirectly, by or for that person.

(3) *Options.* If any person has an option to acquire stock, such stock shall be considered as owned by such person. For purposes of this paragraph, an option to acquire such an option, and each one of a series of such options, shall be considered as an option to acquire such stock.

(4) *Constructive ownership as actual ownership*—(A) *In general.* Except as provided in subparagraph (B), stock constructively owned by a person by reason of the application of paragraph (1), (2), or (3) shall, for purposes of applying paragraph (1), (2), or (3), be treated as actually owned by such person.

(B) *Members of family.* Stock constructively owned by an individual by reason of the application of paragraph (1) shall not be treated as owned by him for purposes of again applying paragraph (1) in order to make another the constructive owner of such stock.

(C) *Option rule in lieu of family rule.* For purposes of this paragraph, if stock may be considered as owned by an individual under paragraph (1) or (3), it shall be considered as owned by him under paragraph (3).

(b) *Cross references.* For provisions to which the rules contained in subsection (a) apply, see—

(1) Section 302 (relating to redemption of stock);

(2) Section 304 (relating to redemption by related corporations);

(3) Section 306 (b) (1) (A) (relating to disposition of section 306 stock);

(4) Section 334 (b) (3) (C) (relating to basis of property received in certain liquidations of subsidiaries); and

(5) Section 382 (a) (3) (relating to special limitations on net operating loss carryovers).

§ 1.318–1 *Constructive ownership of stock; introduction.* (a) For the purposes of certain provisions of subchapter C, section 318 (a) provides that stock owned by a taxpayer includes stock constructively owned by such taxpayer under the rules set forth in such section. An individual is considered to own the stock owned, directly or indirectly, by or for his spouse (other than a spouse who is legally separated from the individual under a decree of divorce or separate maintenance), and by or for his children, grandchildren, and parents. Under section 318 (a) (2) constructive ownership rules are established for partnerships and partners, estates and beneficiaries, trusts and beneficiaries, and corporations and stockholders. If any person has an option to acquire stock, such stock is considered as owned by such person. The term "option" includes an option to acquire such an option and each of a series of such options. The rules of section 318 (a) are applicable to the following sections:

(1) Section 302 (relating to redemption of stock);

(2) Section 304 (relating to redemption by related corporations);

(3) Section 306 (b) (1) (A) (relating to disposition of section 306 stock);

(4) Section 334 (b) (3) (C) (relating to basis of property received in certain liquidations of subsidiaries); and

(5) Section 382 (a) (3) (relating to special limitations on net operating loss carryovers).

Stock constructively owned by a person by reason of the application of paragraph (1), (2), or (3) of section 318 (a) is, for purposes of applying paragraph (1), (2), or (3) treated as actually owned by such person, except as provided in section 318 (a) (4) (B) and § 1.318–4.

(b) In applying section 318 (a) to determine the stock ownership of any person for any one purpose—

(1) A corporation shall not be considered to own its own stock by reason of section 318 (a) (2) (C) (ii),

(2) In any case in which an amount of stock owned by any person may be included in the computation more than one time—

(i) Such stock shall be used in such computation only once, and

(ii) Such stock shall be used in such computation in the manner in which it will impute to the person concerned the largest total stock ownership, and

(3) In determining the 50 percent requirement of section 318 (a) (2) (C) all of the stock owned actually and constructively by the person concerned shall be aggregated.

§ 1.318–2 *Application of general rules.* (a) The application of paragraph (b) of § 1.318–1 may be illustrated by the following examples:

Example (1). H, an individual, owns all of the stock of Corporation A. Corporation A is not considered to own the stock owned by H in Corporation A.

Example (2). A owns 40 percent of the Brown Corporation and 50 percent of the Green Corporation. Under section 318 (a) (2) (C), the stock ownership of A in the Brown Corporation will be limited to 40 percent of such stock. No amount of the stock of the Brown Corporation considered to be owned by the Green Corporation under section 318 (a) (2) (C) (ii) will be considered as owned by A under section 318 (a) (2) (C) (i) since, under § 1.318–1 (b) (2) (i), the same stock shall not be taken into account twice in the same computation, and pursuant to § 1.318–1 (b) (2) (ii), the amount of stock must be computed as if actually owned by A since this will impute to him the largest total stock ownership. The same result will follow if A is a fifty percent beneficiary of a trust or a fifty percent partner in a partnership rather than a 50 percent shareholder of the Green Corporation.

Example (3). Two unrelated individuals, A and B, own stock of a corporation, and are also the beneficiaries of a trust or estate or the members of a partnership. In determining the stock constructively owned by A, the trust, estate or partnership is considered as actually owning the stock owned by B.

Example (4). H, an individual, his wife, W, and his son, S, each own one-third of the stock of the Green Corporation. For purposes of determining the amount of stock owned by H, W, or S for the purpose of section 318 (a) (2) (C), the amount of stock held by the other members of the family shall be added pursuant to § 1.318–1 (b) (3) above in applying the 50 percent requirement of such section. H, W, or S, as the case may be, is for this purpose deemed to own 100 percent of the stock of the Green Corporation.

(b) The application of section 318 (a) (1), relating to members of a family, may be illustrated by the following example:

Example. An individual, H, his wife, W, his son, S, and his grandson (S's son), G, own the 100 outstanding shares of stock of a corporation, each owning 25 shares. H, W, and S are each considered as owning 100 shares. G is considered as owning only 50 shares, that is, his own and his father's.

(c) The application of section 318 (a) (2) relating to partnerships, trusts and corporations may be illustrated by the following examples:

Example (1). A, an individual, has a 50 percent interest in a partnership. The partnership owns 50 of the 100 outstanding shares of stock of a corporation, the remaining 50 shares being owned by A. The partnership is considered as owning 100 shares. A is considered as owning 75 shares.

Example (2). A testamentary trust owns 25 of the outstanding 100 shares of stock of a corporation. A, an individual, who holds a vested remainder in the trust having a value, computed actuarially equal to 4 percent of the value of the trust property, owns the remaining 75 shares. Since the interest of A in the trust is a vested interest rather than a contingent interest (whether or not remote), the trust is considered as owning 100 shares. A is considered as owning 76 shares.

Example (3). The facts are the same as in (2), above, except that A's interest in the trust is a contingent remainder. A is considered as owning 76 shares. However, since A's interest in the trust is a remote contingent interest, the trust is not considered as owning any of the shares owned by A.

Example (4). A and B, unrelated individuals, own 70 percent and 30 percent, respectively, in value of the stock of Corporation M. Corporation M owns 50 of the 100 outstanding shares of stock of Corporation O, the remaining 50 shares being owned by A. Corporation M is considered as owning 100 shares of Corporation O, and A is considered as owning 85 shares.

Example (5). A and B, unrelated individuals, own 70 percent and 30 percent, respectively, of the stock of Corporation M. A, B and Corporation M all own stock of Corporation O. Since B owns less than 50 percent in value of the stock of Corporation M, neither B nor Corporation M constructively owns the stock of Corporation O owned by the other. However, for the purpose of section 304 (b) (1), 304 (c) (2), and 382 (a) (3), section 318 (a) (2) (C) is applied without regard to the 50 percent limitation contained therein, and for such purposes, B constructively owns the stock of Corporation O owned by Corporation M, and Corporation M constructively owns the stock of Corporation O owned by B. Therefore, for such purpose, in determining the stock constructively owned by A, Corporation M is treated as actually owning the stock of Corporation O owned by B.

§ 1.318–3 *Estates, trusts, and options.* (a) For the purpose of applying section 318 (a) relating to estates, property of a decedent shall be considered as owned by his estate if such property is subject to administration by the executor or adminstrator for the purpose of paying claims against the estate and expenses of administration notwithstanding that, under local law, legal title to such property vests in the decedent's heirs, legatees or devisees immediately upon death. The term "beneficiary" includes any person entitled to receive property of a decedent pursuant to a will or pursuant to laws of descent and distribution. A person shall no longer be considered a beneficiary of an estate when all the property to which he is entitled has been received by him, when he no longer has a claim against the estate arising out of having been a beneficiary, and when there is only a remote possibility that it will be necessary for the estate to seek the return of property or to seek payment from him by contribution or otherwise to satisfy claims against the estate or expenses of administration. When, pursuant to the preceding sentence, a person ceases to be a beneficiary, stock owned by him shall not thereafter be considered owned by the estate, and stock owned by the estate shall not thereafter be considered owned by him. The application of section 318 (a) relating to estates may be illustrated by the following examples:

Example (1). A decedent's estate owns 50 of the 100 outstanding shares of stock of Corporation X. The remaining shares are owned by three unrelated individuals, A, B, and C, who together own the entire interest in the estate. A owns 12 shares of stock of Corporation X directly and is entitled to 50 percent of the estate. B owns 18 shares directly and has a life estate in the remaining 50 percent of the estate. C owns 20 shares directly and also owns the remainder interest after B's life estate. Under these circumstances, the estate is considered as owning 80 shares of the stock of Corporation X; 50 shares directly, 12 shares constructively through A, and 18 shares constructively through B. A is considered as owning 46 shares of the stock of Corporation X; 12 shares directly and 34 shares constructively (50 percent of the 50 shares owned directly by the estate and 50 percent of the 18 shares owned constructively by the estate through B). B is considered as owning 49 shares of the stock of Corporation X; 18 shares directly and 31 shares constructively (50 percent of the 50 shares owned directly by the estate and 50 percent of the 12 shares owned constructively by the estate through A). C is considered as owning 20 shares directly and no shares constructively. C is not considered a beneficiary of the estate under section 318 (a) since he has no direct present interest in the property held by the estate nor in the income produced by such property.

Example (2). Under the will of A, Blackacre is left to B for life, remainder to C, an unrelated individual. The residue of the estate consisting of stock of a corporation is left to D. B and D are beneficiaries of the estate under section 318 (a). C is not considered a beneficiary since he has no direct present interest in Blackacre nor in the income produced by such property. The stock owned by the estate is considered as owned proportionately by B an D.

(b) For the purpose of section 318 (a) (2) (B) stock owned by a trust will be considered as being owned by its beneficiaries only to the extent of the interest of such beneficiaries in the trust. Accordingly, the interest of income beneficiaries, remainder beneficiaries, and other beneficiaries will be computed on an actuarial basis. Thus, if a trust owns 100 percent of the stock of Corporation A, and if, on an actuarial basis, W's life interest in the trust is 15 percent, Y's life interest is 25 percent, and Z's remainder interest is 60 percent, under this provision W will be considered to be the owner of 15 percent of the stock of Corporation A, Y will be considered to be the owner of 25 percent of such stock, and Z will be considered to be the owner of 60 percent of such stock.

(c) The application of section 318 (a) relating to options may be illustrated by the following example:

Example. A and B, unrelated individuals, own all of the 100 outstanding shares of stock of a corporation, each owning 50 shares. A has an option to acquire 25 of B's shares and has an option to acquire a further option to acquire the remaining 25 of B's shares. A is considered as owning the entire 100 shares of stock of the corporation.

§ 1.318–4 *Constructive family ownership.* An exception concerning the treatment of constructive ownership as actual ownership is provided in section 318 (a) (4) (B) with respect to stock constructively owned by reason of ownership by a member of a family. This exception is intended to make clear that unless the stock is directly attributable to the individual whose stock ownership is in question, the constructive ownership rules of section 318 (a) (1) are not applicable. Thus, for example, if F and his two sons, A and B, each own one-third of the stock of a corporation, under section 318 (a) (1), A is treated as owning constructively the stock owned by his father but is not treated as owning the stock owned by B. Section 318 (a) (4) (B) prevents the attribution of the stock of one brother through the father to the other brother, an attribution beyond the scope of section 318 (a) (1) directly.

CORPORATE LIQUIDATIONS

Effects on Recipients

§ 1.331 *Statutory provisions; gain or loss to shareholders in corporate liquidations.*

SEC. 331. *Gain or loss to shareholders in corporate liquidations*—(a) *General rule*—(1) *Complete liquidations.* Amounts distributed in complete liquidation of a corporation shall be treated as in full payment in exchange for the stock.

(2) *Partial liquidations.* Amounts distributed in partial liquidation of a corporation (as defined in section 346) shall be treated as in part or full payment in exchange for the stock.

(b) *Nonapplication of section 301.* Section 301 (relating to effects on shareholder of distributions of property) shall not apply to any distribution of property in partial or complete liquidation.

(c) *Cross references.* (1) For general rule for determination of the amount of gain or loss to the distributee, see section 1001.

(2) For general rule for determination of the amount of gain or loss recognized, see section 1002.

§ 1.331–1 *Corporate liquidations.* (a) Section 331 contains rules governing the extent to which gain or loss is recognized to a shareholder receiving a distribution in complete or partial liquidation of a corporation. Under section 331 (a) (1), it is provided that amounts distributed in complete liquidation of a corporation shall be treated as in full payment in exchange for the stock. Under section 331 (a) (2), it is provided that amounts distributed in partial liquidation of a corporation shall be treated as in full or part payment in exchange for the stock. For this purpose, the term "partial liquidation" shall have the meaning ascribed in section 346. If section 331 is applicable to the distribution of property by a corporation, section 301 (relating to the effects on a shareholder of distributions of property) has no application.

(b) The gain or loss to a shareholder from a distribution in partial or complete liquidation is to be determined under section 1001 by comparing the amount of the distribution with the cost or other basis of the stock. The gain or loss will be recognized to the extent provided in section 1002 and will be subject to the provisions of sections 1201–1223.

(c) A liquidation which is followed by a transfer to another corporation of all or part of the assets of the liquidating corporation or which is preceded by such a transfer may, however, have the effect of the distribution of a dividend or of a transaction in which no loss is recognized and gain is recognized only to the extent of "other property." See sections 301 and 356.

(d) In every case in which a shareholder transfers stock in exchange for property to the corporation which issued such stock, the facts and circumstances shall be reported on his return unless the property is part of a distribution made pursuant to a corporate resolution reciting that the distribution is made in liquidation of the corporation and the corporation is completely liquidated and dissolved within one year after the distribution. See section 6043 for requirements relating to returns by corporations.

(e) The provisions of this section may be illustrated by the following example:

Example. A, an individual who makes his income tax returns on the calendar year basis, owns 20 shares of stock of the P Corporation, a domestic corporation, 10 shares of which were acquired in 1951 at a cost of $1,500 and the remainder of 10 shares in December 1954 at a cost of $2,900. He receives in April 1955 a distribution of $250 per share in complete liquidation, or $2,500 on the 10 shares acquired in 1951, and $2,500 on the 10 shares acquired in December 1954. The gain of $1,000 on the shares acquired in 1951 is a long-term capital gain to be treated as provided in sections 1201 through 1223. The loss of $400 on the shares acquired in 1954 is a short-term capital loss to be treated as provided in sections 1201 through 1223.

§ 1.332 *Statutory provisions; complete liquidations of subsidiaries.*

SEC. 332. *Complete liquidations of subsidiaries*—(a) *General rule.* No gain or loss shall be recognized on the receipt by a corporation of property distributed in complete liquidation of another corporation.

(b) *Liquidations to which section applies.* For purposes of subsection (a), a distribution shall be considered to be in complete liquidation only if—

(1) The corporation receiving such property was, on the date of the adoption of the plan of liquidation, and has continued to be at all times until the receipt of the property, the owner of stock (in such other corporation) possessing at least 80 percent of the total combined voting power of all classes of stock entitled to vote and the owner of at least 80 percent of the total number of shares of all other classes of stock (except nonvoting stock which is limited and preferred as to dividends); and either

(2) The distribution is by such other corporation in complete cancellation or redemption of all its stock, and the transfer of all the property occurs within the taxable year; in such case the adoption by the shareholders of the resolution under which is authorized the distribution of all the assets of such corporation in complete cancellation or redemption of all its stock shall be considered an adoption of a plan of liquidation, even though no time for the completion of the transfer of the property is specified in such resolution; or

(3) Such distribution is one of a series of distributions by such other corporation in complete cancellation or redemption of all its stock in accordance with a plan of liquidation under which the transfer of all the property under the liquidation is to be completed within 3 years from the close of the taxable year during which is made the first of the series of distributions under the plan, except that if such transfer is not completed within such period, or if the taxpayer does not continue qualified under paragraph (1) until the completion of such transfer, no distribution under the plan shall be considered a distribution in complete liquidation.

If such transfer of all the property does not occur within the taxable year, the Secretary or his delegate may require of the taxpayer such bond, or waiver of the statute of limitations on assessment and collection, or both, as he may deem necessary to insure, if the transfer of the property is not completed within such 3-year period, or if the taxpayer does not continue qualified under paragraph (1) until the completion of such transfer, the assessment and collection of all income taxes then imposed by law for such taxable year or subsequent taxable years, to the extent attributable to property so received. A distribution otherwise constituting a distribution in complete liquidation within the meaning of this subsection shall not be considered as not constituting such a distribution merely because it does not constitute a distribution or liquidation within the meaning of the corporate law under which the distribution is made; and, for purposes of this subsection a transfer of property of such other corporation to the taxpayer shall not be considered as not constituting a distribution (or one of a series of distributions) in complete cancellation or redemption of all the stock of such other corporation, merely because the carrying out of the plan involves (A) the transfer under the plan to the taxpayer by such other corporation of property, not attributable to shares owned by the taxpayer, on an exchange described in section 361, and (B) the complete cancellation or redemption under the plan, as a result of exchanges described in section 354, of the shares not owned by the taxpayer.

(c) *Special rule for indebtedness of subsidiary to parent.* If—

(1) A corporation is liquidated and subsection (a) applies to such liquidation, and

(2) On the date of the adoption of the plan of liquidation, such corporation was indebted to the corporation which meets the 80 percent stock ownership requirements specified in subsection (b),

then no gain or loss shall be recognized to the corporation so indebted because of the transfer of property in satisfaction of such indebtedness.

§ 1.332–1 *Distributions in liquidation of subsidiary corporation; general.* Under the general rule prescribed by section 331 for the treatment of distributions in liquidation of a corporation, amounts received by one corporation in complete liquidation of another corporation are treated as in full payment in exchange for stock in such other corporation, and gain or loss from the receipt of such amounts is to be determined as provided in section 1001. Section 332 excepts from the general rule property received, under certain specifically described circumstances, by one corporation as a distribution in complete liquidation of the stock of another corporation and provides for the nonrecognition of gain or loss in those cases which meet the statutory requirements. Section 367 places a limitation on the application of section 332 in the case of foreign corporations. See section 334 (b) for the basis for determining gain or loss from the subsequent sale of property received upon complete liquidations such as described in this section. See section 453 (d) (4) (A) relative to distribution of installment obligations by subsidiary.

§ 1.332–2 *Requirements for nonrecognition of gain or loss.* (a) The nonrecognition of gain or loss is limited to

the receipt of such property by a corporation which is the actual owner of stock (in the liquidating corporation) possessing at least 80 percent of the total combined voting power of all classes of stock entitled to vote and the owner of at least 80 percent of the total number of shares of all other classes of stock (except nonvoting stock which is limited and preferred as to dividends). The recipient corporation must have been the owner of the specified amount of such stock on the date of the adoption of the plan of liquidation and have continued so to be at all times until the receipt of the property. If the recipient corporation does not continue qualified with respect to the ownership of stock of the liquidating corporation and if the failure to continue qualified occurs at any time prior to the completion of the transfer of all the property, the provisions for the nonrecognition of gain or loss do not apply to any distribution received under the plan.

(b) Section 332 applies only to those cases in which the recipient corporation receives at least partial payment for the stock which it owns in the liquidating corporation. If section 332 is not applicable, see section 165 (g) relative to allowance of losses on worthless securities.

(c) To constitute a distribution in complete liquidation within the meaning of section 332, the distribution must be (1) made by the liquidating corporation in complete cancellation or redemption of all of its stock in accordance with a plan of liquidation, or (2) one of a series of distributions in complete cancellation or redemption of all its stock in accordance with a plan of liquidation. Where there is more than one distribution, it is essential that a status of liquidation exist at the time the first distribution is made under the plan and that such status continue until the liquidation is completed. Liquidation is completed when the liquidating corporation and the receiver or trustees in liquidation are finally divested of all the property (both tangible and intangible). A status of liquidation exists when the corporation ceases to be a going concern and its activities are merely for the purpose of winding up its affairs, paying its debts, and distributing any remaining balance to its shareholders. A liquidation may be completed prior to the actual dissolution of the liquidating corporation. However, legal dissolution of the corporation is not required. Nor will the mere retention of a nominal amount of assets for the sole purpose of preserving the corporation's legal existence disqualify the transaction. (See § 39.22 (a)-20 of Regulations 118 (26 CFR (1939), 1953 revision, § 39.22 (a)-20).)

(d) If a transaction constitutes a distribution in complete liquidation within the meaning of the Internal Revenue Code of 1954 and satisfies the requirements of section 332, it is not material that it is otherwise described under the local law. If a liquidating corporation distributes all of its property in complete liquidation and if pursuant to the plan for such complete liquidation a corporation owning the specified amount of stock in the liquidating corporation receives property constituting amounts distributed in complete liquidation within the meaning of the Code and also receives other property attributable to shares not owned by it, the transfer of the property to the recipient corporation shall not be treated, by reason of the receipt of such other property, as not being a distribution (or one of a series of distributions) in complete cancellation or redemption of all of the stock of the liquidating corporation within the meaning of section 332, even though for purposes of those provisions relating to corporate reorganizations the amount received by the recipient corporation in excess of its ratable share is regarded as acquired upon the issuance of its stock or securities in a tax-free exchange as described in section 361 and the cancellation or redemption of the stock not owned by the recipient corporation is treated as occurring as a result of a tax-free exchange described in section 354.

(e) The application of these rules may be illustrated by the following example:

Example. On September 1, 1954, the M Corporation had outstanding capital stock consisting of 3,000 shares of common stock, par value $100 a share, and 1,000 shares of preferred stock, par value $100 a share, which preferred stock was limited and preferred as to dividends and had no voting rights. On that date, and thereafter until the date of dissolution of the M Corporation, the O Corporation owned 2,500 shares of common stock of the M Corporation. By statutory merger consummated on October 1, 1954, pursuant to a plan of liquidation adopted on September 1, 1954, the M Corporation was merged into the O Corporation, the O Corporation under the plan issuing stock which was received by the other holders of the stock of the M Corporation. The receipt by the O Corporation of the properties of the M Corporation is a distribution received by the O Corporation in complete liquidation of the M Corporation within the meaning of section 332, and no gain or loss is recognized as the result of the receipt of such properties.

§ 1.332-3 *Liquidations completed within one taxable year.* If in a liquidation completed within one taxable year pursuant to a plan of complete liquidation, distributions in complete liquidation are received by a corporation which owns the specified amount of stock in the liquidating corporation and which continues qualified with respect to the ownership of such stock until the transfer of all the property within such year is completed (see § 1.332-2 (a)), then no gain or loss shall be recognized with respect to the distributions received by the recipient corporation. In such case no waiver or bond is required of the recipient corporation under section 332.

§ 1.332-4 *Liquidations covering more than one taxable year.* (a) If the plan of liquidation is consummated by a series of distributions extending over a period of more than one taxable year, the nonrecognition of gain or loss with respect to the distributions in liquidation shall, in addition to the requirements of § 1.332-2, be subject to the following requirements:

(1) In order for the distribution in liquidation to be brought within the exception provided in section 332 to the general rule for computing gain or loss with respect to amounts received in liquidation of a corporation, the entire property of the corporation shall be transferred in accordance with a plan of liquidation, which plan shall include a statement showing the period within which the transfer of the property of the liquidating corporation to the recipient corporation is to be completed. The transfer of all the property under the liquidation must be completed within three years from the close of the taxable year during which is made the first of the series of distributions under the plan.

(2) For each of the taxable years which falls wholly or partly within the period of liquidation, the recipient corporation shall, at the time of filing its return, file with the district director of internal revenue a waiver of the statute of limitations on assessment. The waiver shall be executed on such form as may be prescribed by the Commissioner and shall extend the period of assessment of all income and profits taxes for each such year to a date not earlier than one year after the last date of the period for assessment of such taxes for the last taxable year in which the transfer of the property of such liquidating corporation to the controlling corporation may be completed in accordance with section 332. Such waiver shall also contain such other terms with respect to assessment as may be considered by the Commissioner to be necessary to insure the assessment and collection of the correct tax liability for each year within the period of liquidation.

(3) For each of the taxable years which falls wholly or partly within the period of liquidation, the recipient corporation may be required to file a bond, the amount of which shall be fixed by the district director of internal revenue. The bond shall contain all terms specified by the Commissioner, including provisions unequivocally assuring prompt payment of the excess of income and profits taxes (plus penalty, if any, and interest) as computed by the district director without regard to the provisions of sections 332 and 334 (b) over such taxes computed with regard to such provisions, regardless of whether such excess may or may not be made the subject of a notice of deficiency under section 6212 and regardless of whether it may or may not be assessed. Any bond required under section 332 shall have such surety or sureties as the Commissioner may require. However, see 6 U. S. C. 15, providing that where a bond is required by law or regulations, in lieu of surety or sureties there may be deposited bonds or notes of the United States. Only surety companies holding certificates of authority from the Secretary as acceptable sureties on Federal bonds will be approved as sureties. The bonds shall be executed in triplicate so that the Commissioner, the taxpayer, and the surety or the depositary may each have a copy. On and after September 1, 1953, the functions of the Commissioner with respect to such bonds shall be performed by the district director of internal revenue for the internal revenue district in which the return was filed and any bond filed on or after such date shall be filed with such district director.

(b) Pending the completion of the liquidation, if there is a compliance with subparagraphs (1), (2), and (3) of paragraph (a) of this section and § 1.332-2 with respect to the nonrecognition of gain or loss, the income and profits tax liability of the recipient corporation for each of the years covered in whole or in part by the liquidation shall be determined without the recognition of any gain or loss on account of the receipt of the distributions in liquidation. In such determination, the basis of the property or properties received by the recipient corporation shall be determined in accordance with section 334 (b). However, if the transfer of the property is not completed within the three-year period allowed by section 332 or if the recipient corporation does not continue qualified with respect to the ownership of stock of the liquidating corporation as required by that section, gain or loss shall be recognized with respect to each distribution and the tax liability for each of the years covered in whole or in part by the liquidation shall be recomputed without regard to the provisions of section 332 or section 334 (b) and the amount of any additional tax due upon such recomputation shall be promptly paid.

§ 1.332-5 *Distributions in liquidation as affecting minority interests.* Upon the liquidation of a corporation in pursuance of a plan of complete liquidation, the gain or loss of minority shareholders shall be determined without regard to section 332, since it does not apply to that part of distributions in liquidation received by minority shareholders.

§ 1.332-6 *Records to be kept and information to be filed with return.* (a) Permanent records in substantial form shall be kept by every corporation receiving distributions in complete liquidation within the exception provided in section 332 showing the information required by this section to be submitted with its return. The plan of liquidation must be adopted by each of the corporations parties thereto; and the adoption must be shown by the acts of its duly constituted responsible officers, and appear upon the official records of each such corporation.

(b) For the taxable year in which the liquidation occurs, or, if the plan of liquidation provides for a series of distributions over a period of more than one year, for each taxable year in which a distribution is received under the plan the recipient must file with its return a complete statement of all facts pertinent to the nonrecognition of gain or loss, including—

(1) A certified copy of the plan for complete liquidation, and of the resolutions under which the plan was adopted and the liquidation was authorized, together with a statement under oath showing in detail all transactions incident to, or pursuant to, the plan.

(2) A list of all the properties received upon the distribution, showing the cost or other basis of such properties to the liquidating corporation at the date of distribution and the fair market value of such properties on the date distributed.

(3) A statement of any indebtedness of the liquidating corporation to the recipient corporation on the date the plan of liquidation was adopted and on the date of the first liquidating distribution. If any such indebtedness was acquired at less than face value, the cost thereof to the recipient corporation must also be shown.

(4) A statement as to its ownership of all classes of stock of the liquidating corporation (showing as to each class the number of shares and percentage owned and the voting power of each share) as of the date of the adoption of the plan of liquidation, and at all times since, to and including the date of the distribution in liquidation. The cost or other basis of such stock and the date or dates on which purchased must also be shown.

§ 1.332-7 *Indebtedness of subsidiary to parent.* If section 332 (a) is applicable to the receipt of the subsidiary's property in complete liquidation, then no gain or loss shall be recognized to the subsidiary upon the transfer of such properties even though some of the properties are transferred in satisfaction of the subsidiary's indebtedness to its parent. However, any gain or loss realized by the parent corporation on such satisfaction of indebtedness, shall be recognized to the parent corporation at the time of the liquidation. For example, if the parent corporation purchased its subsidiary's bonds at a discount and upon liquidation of the subsidiary the parent corporation receives payment for the face amount of such bonds, gain shall be recognized to the parent corporation. Such gain shall be measured by the difference between the cost or other basis of the bonds to the parent and the amount received in payment of the bonds.

§ 1.333 *Statutory provisions; election as to recognition of gain in certain liquidations.*

SEC. 333. *Election as to recognition of gain in certain liquidations*—(a) *General rule.* In the case of property distributed in complete liquidation of a domestic corporation (other than a collapsible corporation to which section 341 (a) applies), if—

(1) The liquidation is made in pursuance of a plan of liquidation adopted on or after June 22, 1954, and

(2) The distribution is in complete cancellation or redemption of all the stock, and the transfer of all the property under the liquidation occurs within some one calendar month,

then in the case of each qualified electing shareholder (as defined in subsection (c)) gain on the shares owned by him at the time of the adoption of the plan of liquidation shall be recognized only to the extent provided in subsections (e) and (f).

(b) *Excluded corporation.* For purposes of this section, the term "excluded corporation" means a corporation which at any time between January 1, 1954, and the date of the adoption of the plan of liquidation, both dates inclusive, was the owner of stock possessing 50 percent or more of the total combined voting power of all classes of stock entitled to vote on the adoption of such plan.

(c) *Qualified electing shareholders.* For purposes of this section, the term "qualified electing shareholder" means a shareholder (other than an excluded corporation) of any class of stock (whether or not entitled to vote on the adoption of the plan of liquidation) who is a shareholder at the time of the adoption of such plan, and whose written election to have the benefits of subsection (a) has been made and filed in accordance with subsection (d), but—

(1) In the case of a shareholder other than a corporation, only if written elections have been so filed by shareholders (other than corporations) who at the time of the adoption of the plan of liquidation are owners of stock possessing at least 80 percent of the total combined voting power (exclusive of voting power possessed by stock owned by corporations) of all classes of stock entitled to vote on the adoption of such plan of liquidation; or

(2) In the case of a shareholder which is a corporation, only if written elections have been so filed by corporate shareholders (other than an excluded corporation) which at the time of the adoption of such plan of liquidation are owners of stock possessing at least 80 percent of the total combined voting power (exclusive of voting power possessed by stock owned by an excluded corporation and by shareholders who are not corporations) of all classes of stock entitled to vote on the adoption of such plan of liquidation.

(d) *Making and filing of elections.* The written elections referred to in subsection (c) must be made and filed in such manner as to be not in contravention of regulations prescribed by the Secretary or his delegate. The filing must be within 30 days after the date of the adoption of the plan of liquidation.

(e) *Noncorporate shareholders.* In the case of a qualified electing shareholder other than a corporation—

(1) There shall be recognized, and treated as a dividend, so much of the gain as is not in excess of his ratable share of the earnings and profits of the corporation accumulated after February 28, 1913, such earnings and profits to be determined as of the close of the month in which the transfer in liquidation occurred under subsection (a) (2), but without diminution by reason of distributions made during such month; but by including in the computation thereof all amounts accrued up to the date on which the transfer of all the property under the liquidation is completed; and

(2) There shall be recognized, and treated as short-term or long-term capital gain, as the case may be, so much of the remainder of the gain as is not in excess of the amount by which the value of that portion of the assets received by him which consists of money, or of stock or securities acquired by the corporation after December 31, 1953, exceeds his ratable share of such earnings and profits.

(f) *Corporate shareholders.* In the case of a qualified electing shareholder which is a corporation, the gain shall be recognized only to the extent of the greater of the two following—

(1) The portion of the assets received by it which consists of money, or of stock or securities acquired by the liquidating corporation after December 31, 1953; or

(2) Its ratable share of the earnings and profits of the liquidating corporation accumulated after February 28, 1913, such earnings and profits to be determined as of the close of the month in which the transfer in liquidation occurred under subsection (a) (2), but without diminution by reason of distributions made during such month; but by including in the computation thereof all amounts accrued up to the date on which the transfer of all the property under the liquidation is completed.

§ 1.333-1 *Corporate liquidation in some one calendar month*—(a) *In general.* Section 333 provides a special rule, in the case of certain specifically de-

scribed complete liquidations of domestic corporations (other than collapsible corporations to which section 341 (a) applies) occurring within some one calendar month, for the treatment of gain on the shares of stock owned by qualified electing shareholders at the time of the adoption of the plan of liquidation. The effect of such section is in general to postpone the recognition of that portion of a qualified electing shareholder's gain on the liquidation which would otherwise be recognized and which is attributable to appreciation in the value of certain corporate assets unrealized by the corporation at the time such assets are distributed in complete liquidation. Only qualified electing shareholders are entitled to the benefits of section 333. The determination of who is a qualified electing shareholder is to be made under section 333 (c). For the basis of property received on such liquidations, see section 334 (c). Section 333 has no application to collapsible corporations. See section 341 (b) for definition of collapsible corporations.

(b) *Type of liquidation.* (1) The liquidation must be in pursuance of a plan of liquidation adopted on or after June 22, 1954. The plan must be adopted before the first distribution under the liquidation occurs. The 1954 Code requires that the transfer of all the property, both tangible and intangible, of the corporation to its shareholders shall occur entirely within some one calendar month. This requirement will be considered to have been complied with if cash is set aside under arrangements for the payment, after the close of such month, of unascertained or contingent liabilities and expenses, and such arrangements are made in good faith and the amount set aside is reasonable. It is not necessary that the month in which the transfer occurs must fall within the taxable or calendar year in which the plan of liquidation is adopted. Though it is not necessary that the corporation dissolve in the month of liquidation, it is essential that a status of liquidation exist at the time the first distribution is made under the plan and that such status continue to the date of dissolution of the corporation. A status of liquidation exists when the corporation ceases to be a going concern and its activities are merely for the purpose of winding up its affairs, paying its debts, and distributing any remaining balance to its shareholders.

(2) If a transaction constitutes a distribution in complete liquidation within the meaning of the 1954 Code and satisfies the requirements of section 333, it is immaterial that it is otherwise described under the local law.

§ 1.333–2 *Qualified electing shareholder.* (a) No corporate shareholder may be a qualified electing shareholder if at any time between January 1, 1954 and the date of the adoption of the plan of liquidation, both dates inclusive, it is the owner of stock of the liquidating corporation possessing 50 percent or more of the total combined voting power of all classes of stock entitled to vote upon the adoption of the plan of liquidation. All other shareholders are divided into two groups for the purpose of determining whether they are qualified electing shareholders: (1) shareholders other than corporations, and (2) corporate shareholders.

(b) Any shareholder of either of such two groups, whether or not the stock he owns is entitled to vote on the adoption of the plan of liquidation, is a qualified electing shareholder if:

(1) His written election to be governed by the provisions of section 333, which cannot be withdrawn or revoked, has been made and filed as prescribed in § 1.333–3; and

(2) Like elections have been made and filed by owners of stock possessing at least 80 percent of the total combined voting power of all classes of stock owned by shareholders of the same group at the time of, and entitled to vote upon, the adoption of the plan of liquidation, whether or not the shareholders making such elections actually realize gain upon the cancellation or redemption of such stock upon the liquidation.

(c) The application of this section may be illustrated by the following example:

Example. The R Corporation has outstanding 20 shares of common stock on July 1, 1954, at the time of the adoption of a plan of liquidation within the provisions of section 333, each entitled to one vote upon the adoption of such plan of liquidation. At that time ten of such shares are owned by the S Corporation, two each by the X Corporation and the Y Corporation, one by the Z Corporation, and one each by A, B, C, D, and E, individuals. There are also outstanding at such time two shares of preferred stock, not entitled to vote on liquidation, one share being owned by F, an individual, and one share by the P Corporation. The S Corporation, being a corporate shareholder and the owner of 50 percent of the voting stock, may not be a qualified electing shareholder under any circumstances. In order for any other corporate shareholder to be a qualified electing shareholder, it is necessary that the X Corporation and the Y Corporation file their written elections to be governed by section 333. If this is done, the P Corporation will also be a qualified electing shareholder if it has filed a like election. Similarly, in the case of the individual shareholders, some combination of four of the individual holders of the common stock must have filed their written elections, before any individual shareholder may be considered a qualified electing shareholder, but if this is done, F will also be a qualified electing shareholder if he has filed a like election.

(d) An election to be governed by the provisions of section 333 relates to the treatment of gain realized upon the cancellation or redemption of stock upon liquidation. Such election, therefore, can be made only by or on behalf of the person by whom gains, if any, will be realized. Thus, the shareholder who may make such election must be the actual owner of stock and not a mere record holder, such as a nominee.

(e) A shareholder is entitled to make an election relative to the gain only on stock owned by him at the time of the adoption of the plan of liquidation. The election is personal to the shareholder making it and does not follow such stock into the hands of a transferee.

§ 1.333–3 *Making and filing of written elections.* An election to be governed by section 333 shall be made on Form 964 (revised) in accordance with the instructions printed thereon and with this section. The original and one copy shall be filed by the shareholder with the district director of internal revenue with whom the final income tax return of the corporation will be filed. The elections must be filed within 30 days after the adoption of the plan of liquidation. Under no circumstances shall section 333 be applicable to any shareholders who fail to file their elections within the 30-day period prescribed. An election shall be considered as timely filed if it is placed in the mail on or before midnight of the 30th day after the adoption of the plan of liquidation, as shown by the postmark on the envelope containing the written election or as shown by other available evidence of the mailing date. Another copy of the election shall be attached to and made a part of the shareholder's income tax return for his taxable year in which the transfer of all the property under the liquidation occurs.

§ 1.333–4 *Treatment of gain—(a) Computation of gain.* As in the case of shareholders generally, amounts received by qualified electing shareholders are treated as in full payment in exchange for their stock, as provided in section 331 and gain from the receipt of such amounts is determined as provided in section 1001. Gain or loss must be computed separately on each share of stock owned by a qualified electing shareholder at the time of the adoption of the plan of liquidation. The limited recognition and special treatment accorded by section 333 applies only to the gain on such shares of stock upon which gain was realized and not to net gain computed by setting off losses realized on some shares against gain on others. Since section 333 applies only to gain recognized, losses realized on the liquidation will be allowable only in the year of liquidation even though Forms 964 (revised) have been filed by those shareholders who realize only losses. Such filings may be necessary to fulfill the 80 percent requirement (under section 332 (b)) so that these shareholders who realize gain may qualify under this section.

(b) *Recognition of gain.* Pursuant to section 333 only so much of the gain on each share of stock owned by a qualified electing shareholder at the time of the adoption of the plan of liquidation is recognized as does not exceed the greater of the following:

(1) Such share's ratable share of the earnings and profits of the corporation accumulated after February 28, 1913, computed as of the last day of the month of liquidation, without diminution by reason of distributions made during such month, and including in such computation all items of income and expense accrued up to the date on which the transfer of all the property under the liquidation is completed; or

(2) Such share's ratable share of the sum of the amount of money received by such shareholder on shares of the same class and the fair market value of all the stock or securities so received which were acquired by the liquidating corporation after December 31, 1953. The mere replacement after December 31, 1953 of lost or destroyed certificates or instruments acquired on or before December 31, 1953, or the mere conversion of certificates or instruments into certificates or instruments of larger or smaller denominations will not constitute an acquisition within the meaning of the phrase "acquired after December 31, 1953." Nor will such an acquisition result from the issuance after December 31, 1953 of certificates of stock in connection with a subscription made and accepted on or before December 31, 1953.

(c) *Treatment of recognized gain.* (1) In the case of a qualified electing shareholder other than a corporation, that part of the recognized gain on a share of stock owned at the time of the adoption of the plan of liquidation which is not in excess of his ratable share of the earnings and profits of the liquidating corporation accumulated after February 28, 1913, determined as provided in section 333 (e) (1), is treated as a dividend. It retains its character as a dividend for all tax purposes. The remainder of the gain which is recognized is treated as a short-term or long-term capital gain, as the case may be. In the case of a qualified electing shareholder which is a corporation, the entire amount of the gain which is recognized is treated as a short-term or long-term capital gain, as the case may be.

(2) The application of subparagraph (1) of this paragraph may be illustrated by the following example:

Example. (i) X Corporation has only one class of stock outstanding, owned in equal amounts by three shareholders. The basis of the stock owned by each shareholder is $50, each having bought his stock in a single block prior to the date of the adoption of a plan of liquidation conforming to the requirements of section 333. One of the shareholders is an individual; two are corporations. All are "qualified electing shareholders".

(ii) X Corporation has earnings and profits accumulated after February 28, 1913, of $60 (computed as provided in section 333). Its assets consist of (*a*) cash of $75, (*b*) stock and securities acquired after December 31, 1953, having a fair market value of $90, and (*c*) other property having a fair market value of $240. In October 1954, all of these assets are distributed to the shareholders pro rata in complete liquidation of the corporation, as provided in section 333. Each shareholder thus receives $135 in cash and property, and has $85 gain.

(iii) $55 of each shareholder's gain is recognized since such amount represents the sum of (*a*) the cash received by him and (*b*) the fair market value of the stock and securities received by him which were acquired by the X Corporation after December 31, 1953, and is greater than his ratable share of the earnings and profits ($20). The remainder of each shareholder's gain ($30) is not recognized.

(iv) In the case of the corporate shareholders the entire amount of the recognized gain ($55) is treated as capital gain. In the case of the individual shareholder, $20, being the amount of the shareholder's ratable share of the earnings and profits, is recognized and treated as a dividend, and $35, being the difference between the shareholder's ratable share of the earnings and profits and the sum of the cash and stock and securities received by him, is treated as a short-term or long-term capital gain, as the case may be.

(v) If the basis of each shareholder's stock had been $100, instead of $50, each of the corporate shareholders would be taxed on only $35 as capital gain and the individual shareholder would be taxed on $20 as a dividend and on only $15 as capital gain, since the total amount taxed is limited to the amount of gain realized by the shareholder upon the cancellation or redemption of his stock.

§ 1.333–5 *Records to be kept and information to be filed with return.* (a) Permanent records in substantial form shall be kept by every qualified electing shareholder receiving distributions in complete liquidation of a domestic corporation. Such shareholder must file with his income tax return for his taxable year in which the liquidation occurs a statement of all facts pertinent to the recognition and treatment of the gain realized by him upon the shares of stock owned by him at the time of the adoption of the plan of liquidation, including:

(1) A statement of his stock ownership in the liquidating corporation as of the date of the distribution, showing the number of shares of each class owned on such date and the cost or other basis of each such share;

(2) A list of all the property, including money, received upon the distribution, showing the fair market value of each item of such property other than money on the date distributed and stating what items, if any, consist of stock or securities acquired by the liquidating corporation after December 31, 1953.

(3) A statement of his ratable share of the earnings and profits of the liquidating corporation accumulated after February 28, 1913, computed without diminution by reason of distributions made during the month of liquidation; and

(4) A copy of such shareholder's written election to be governed by the provisions of section 333. (See § 1.333–3.)

(b) For information to be filed by the liquidating corporation, see section 6043.

§ 1.334 *Statutory provisions; corporate liquidations; basis of property received in liquidations.*

SEC. 334. *Basis of property received in liquidations*—(a) *General rule.* If property is received in a distribution in partial or complete liquidation (other than a distribution to which section 333 applies), and if gain or loss is recognized on receipt of such property, then the basis of the property in the hands of the distributee shall be the fair market value of such property at the time of the distribution.

(b) *Liquidation of subsidiary*—(1) *In general.* If property is received by a corporation in a distribution in complete liquidation of another corporation (within the meaning of section 332 (b)), then, except as provided in paragraph (2), the basis of the property in the hands of the distributee shall be the same as it would be in the hands of the transferor. If property is received by a corporation in a transfer to which section 332 (c) applies, and if paragraph (2) of this subsection does not apply, then the basis of the property in the hands of the transferee shall be the same as it would be in the hands of the transferor.

(2) *Exception.* If property is received by a corporation in a distribution in complete liquidation of another corporation (within the meaning of section 332 (b)), and if—

(A) The distribution is pursuant to a plan of liquidation adopted—

(i) On or after June 22, 1954, and

(ii) Not more than 2 years after the date of the transaction described in subparagraph (B) (or, in the case of a series of transactions, the date of the last such transaction); and

(B) Stock of the distributing corporation possessing at least 80 percent of the total combined voting power of all classes of stock entitled to vote, and at least 80 percent of the total number of shares of all other classes of stock (except nonvoting stock which is limited and preferred as to dividends), was acquired by the distributee by purchase (as defined in paragraph (3)) during a period of not more than 12 months,

then the basis of the property in the hands of the distributee shall be the adjusted basis of the stock with respect to which the distribution was made. For purposes of the preceding sentence, under regulations prescribed by the Secretary or his delegate, proper adjustment in the adjusted basis of any stock shall be made for any distribution made to the distributee with respect to such stock before the adoption of the plan of liquidation, for any money received, for any liabilities assumed or subject to which the property was received, and for other items.

(3) *Purchase defined.* For purposes of paragraph (2) (B), the term "purchase" means any acquisition of stock, but only if—

(A) The basis of the stock in the hands of the distributee is not determined (i) in whole or in part by reference to the adjusted basis of such stock in the hands of the person from whom acquired, or (ii) under section 1014 (a) (relating to property acquired from a decedent),

(B) The stock is not acquired in an exchange to which section 351 applies, and

(C) The stock is not acquired from a person the ownership of whose stock would, under section 318 (a), be attributed to the person acquiring such stock.

(4) *Distributee defined.* For purposes of this subsection, the term "distributee" means only the corporation which meets the 80 percent stock ownership requirements specified in section 332 (b).

(c) *Property received in liquidation under section 333.* If—

(1) Property was acquired by a shareholder in the liquidation of a corporation in cancellation or redemption of stock, and

(2) With respect to such acquisition—

(A) Gain was realized, but

(B) As the result of an election made by the shareholder under section 333, the extent to which gain was recognized was determined under section 333,

then the basis shall be the same as the basis of such stock cancelled or redeemed in the liquidation, decreased in the amount of any money received by the shareholder, and increased in the amount of gain recognized to him.

§ 1.334–1 *Basis of property received in liquidations*—(a) *In general.* Section 334 sets forth rules prescribing the basis of property received in a distribution in partial or complete liquidation of a corporation. The general rule of section 334 is set forth in section 334 (a) to the effect that if property is received in a distribution in partial or complete liquidation and if gain or loss is recognized on the receipt of such property, then the basis of the property in the hands of the distributee shall be the fair market value of such property at the time of the distribution. Such general rule has no application to a liquidation to

which section 332 or section 333 applies. See section 334 (b) and (c).

(b) *Transferor's basis.* Unless section 334 (b) (2) and subsection (c) of this section apply, property received by a parent corporation in a complete liquidation to which section 332 is applicable shall, under section 334 (b) (1), have the same basis in the hands of the parent as its adjusted basis in the hands of the subsidiary. The rule stated above is applicable even though the subsidiary was indebted to the parent on the date the plan of liquidation was adopted and part of such property was received in satisfaction of such indebtedness in a transfer to which section 332 (c) is applicable.

(c) *Application of stock basis to property.* If section 334 (b) (2) applies to a complete liquidation to which section 332 is applicable, then property received by a parent corporation in such complete liquidation shall have a basis determined by reference to the basis of the stock of the subsidiary corporation with respect to which it is received. In general, section 334 (b) (2) will be applicable to a distribution in complete liquidation of a subsidiary corporation if the parent corporation purchased, within the meaning of section 334 (b) (3) and during a period of not more than twelve months, 80 percent or more of the stock (other than nonvoting stock which is limited and preferred as to dividends) of the subsidiary corporation and then adopted a plan of liquidation (on or after June 22, 1954) not more than two years after the date on which the stock ownership requirement was met. The application of section 334 (b) (2) is subject to the following rules:

(1) Property received with reference to stock owned immediately before the liquidation by the parent corporation is the only property to which section 334 (b) (2) is applicable. The section is not applicable to property received with respect to debt or other claims. The basis of the stock used in determining the basis of the assets is the total basis of all stock held by the parent corporation whether or not such stock was acquired by purchase and whether or not such stock is the stock acquired during the period to which reference is made in section 334 (b) (2) (A).

(2) The date of adoption of a plan of liquidation is determined under section 332 (b) (2).

(3) (i) In the case of a series of purchases of stock, the two-year period specified in section 334 (b) (2) (A) shall begin on the day following the date of the last such purchase if the amount of stock specified in section 334 (b) (2) (B) is purchased during the preceding 12 months.

(ii) Application of the rule prescribed in subparagraph (3) (i) may be illustrated by the following examples:

Example (1). Twenty percent of the stock of Corporation A is purchased on each of the following dates: April 1, 1954, June 30, 1954, September 30, 1954, December 31, 1954, and April 1, 1955. Although 80 percent of the stock of Corporation A has been purchased as of December 31, 1954, the date of the last transaction of the series of transactions described in section 334 (b) (2) (B) is April 1, 1955, and therefore the two-year period shall begin on April 2, 1955.

Example (2). The facts are the same as in example (1) except that the last purchase is made on July 1, 1955. Since the date of the last transaction of the series of transactions described in section 334 (b) (2) (B) is December 31, 1954, the two-year period shall begin on January 1, 1955.

(4) For the purpose of section 334 (b) (2) only, the following adjustments shall be made to the adjusted basis of the subsidiary's stock in the hands of the parent:

(i) Such adjusted basis shall be reduced by the amount of all distributions received by the parent from the subsidiary during the period beginning on the day on which the stock used in determining the applicability of section 334 (b) (2) was purchased (or if such stock was purchased on more than one day, on the day of the earliest purchase of the stock so used) and ending when the plan of liquidation is adopted.

(ii) In order to apply the rule of (i) the amount of a distribution in kind shall be whichever of the following is the greater:

(*a*) The amount described in section 301 (b) (1) (B) (ii) (regardless of the amount of the distribution under section 301 (b)), or

(*b*) The portion of the adjusted basis of the stock allocable to the property so distributed.

(iii) The reduction provided in (i) shall be made whether or not such distributions were taxable to the parent as ordinary dividends.

(iv) The reduction provided in (i) shall not be made—

(*a*) To the extent that a reduction in the adjusted basis of the stock is required by section 301 (c) (2); or

(*b*) To the extent that such distributions of the subsidiary are out of earnings and profits of the period beginning on the date of purchase and ending upon the date of the last distribution in liquidation.

(v) The adjusted basis of the subsidiary's stock held by the parent with respect to which the distributions in liquidation are made (reduced as in (i))—

(*a*) Shall be increased—

(*1*) By the amount of any unsecured liabilities assumed by the parent, and

(*2*) By the portion of the subsidiary's earnings and profits (less the amount of any distributions therefrom) of the period beginning on the date of purchase and ending upon the date of the last distribution in liquidation attributable to the stock of the subsidiary held by the parent.

(*b*) Shall be decreased—

(*1*) By the amount of any cash and its equivalent received, and

(*2*) By the portion of the subsidiary's deficit in earnings and profits of the period beginning on the date of purchase and ending upon the date of the last distribution in liquidation attributable to the stock of the subsidiary held by the parent.

(vi) For the purpose of (v) (*a*) (*2*) and (*b*) (*2*)—

(*a*) With respect to property held on the date of purchase and property held on the date additional stock, if any, is acquired any gain or loss from sales or exchanges of such property (whether tangible or intangible) and any other items determined by reference to basis of such property shall be computed by substituting for such basis a new basis determined by reference to the part of the adjusted basis of the stock allocable to such property.

(*b*) The part of the adjusted basis of stock allocable to such property for the purpose of (*a*) shall be the basis of the stock held on the date of purchase or on the date of a later acquisition of stock allocated among the assets held on such date on the basis of their net fair market values on such date,

(c) In order to prevent distortion in the adjusted basis of the stock—

(*1*) Transactions (including distributions, liquidations, and reorganizations) involving a corporation the affairs of which the subsidiary controls at any time after the date of purchase through ownership of stock (whether or not the subsidiary owns a majority of the stock of such corporation) may be disregarded in whole or in part, and

(*2*) Tax-free reorganizations involving the subsidiary may be disregarded in whole or in part, and

(*d*) In the case of a subsidiary using the cash receipts and disbursements method of accounting, the earnings and profits of such subsidiary shall be computed for the period specified in (v) (*a*) (*2*) and (*b*) (*2*) as if such subsidiary had used an accrual method of accounting prior to such period.

(vii) For the purposes of subdivisions (iv), (v), and (vi) the expression "the date of purchase" means the date of the transaction described in section 334 (b) (2) (B) (or, in the case of a series of transactions, the date of the last such transaction), determined without regard to subparagraph (6) (iii).

(viii) In the case of a distribution by the subsidiary of property directly or indirectly acquired by the subsidiary through a direct or indirect contribution to capital by the parent, the basis of such property to the parent shall be the same as if such contribution had not been made and the adjusted basis of the stock shall not be increased or decreased because of such contribution and distribution. Except as provided in the preceding sentence, the amount of the adjusted basis of the stock adjusted as provided in this paragraph shall be allocated as basis among the various assets received (except cash and its equivalent) both tangible and intangible (whether or not depreciable or amortizable). Ordinarily, such allocation shall be made in proportion to the net fair market values of such assets on the date received (the net fair market value of an asset being its fair market value less any specific mortgage or pledge to which it is subject). To that portion of the basis thus determined, for each property against which there is a lien, should be added the amount of such lien. Where more than one property is covered by the same lien, the amount of the lien should be divided among the properties, allocating to each that portion of the lien which the fair market value of such property bears to the total fair market value of the properties covered by the same lien. Whether the mortgage indebtedness is assumed by the parent or the property is taken subject to the mortgage is immaterial. The basis of the property received shall be zero if the cash and its equivalent received is equal to or in excess of the adjusted basis of the stock.

(5) The application of the rules prescribed in (4) may be illustrated by the following examples:

Example (1). Corporation A bought all of the stock of Corporation B for $1,000 on January 1, 1955. The only asset of Corporation B was a building having a basis of $100. On July 1, 1955, such building was sold for $1,050. The amount received was invested in another building immediately thereafter. On December 30, 1955, Corporation B was liquidated under section 332 in a transaction in which the basis of the assets in the hands of the recipient corporation was determined under section 334 (b) (2). The basis of the stock of Corporation B in the hands of Corporation A is increased by $50 pursuant to § 1.334–1 (c) (4) (v) and (vi). The basis of the building received by Corporation A upon the liquidation of Corporation B is $1,050.

Example (2). The facts are the same as in example (1) except that the sale price of the building sold was $750. The basis of the building in the hands of Corporation A upon liquidation is $750.

(6) For the purposes of section 334 (b) (2) the term "purchase" means any acquisition of stock, but only if—

(i) The basis of stock in the hands of the distributee is not determined either in whole or in part by reference to the adjusted basis of stock in the hands of the person from whom acquired, or under section 1014 (a) (relating to property acquired from the decedent);

(ii) The stock is not acquired in an exchange to which section 351 applies; and

(iii) The stock is not acquired from a person the ownership of whose stock would, under section 318 (a), be attributed to the person acquiring such stock. However, if a corporation acquires stock pursuant to an option to buy such stock from a person who, without regard to such option, is not a person the ownership of whose stock would, under section 318 (a), be attributed to such corporation, such stock shall be considered to have been purchased on the date of the acquisition of such option, if such option is exercised on or before the last day of a period of 12 months beginning on the day of the earliest purchase of stock (including the stock subject to such option) used in determining the applicability of section 334 (b) (2) and for this purpose the stock with respect to which the option was exercised shall be deemed to have been purchased on the date such option was acquired.

(7) Section 334 (b) does not apply to minority shareholders. The basis of property, other than cash, received by such shareholders shall be determined under section 334 (a), 334 (c) or 358.

§ 1.334–2 *Property received in liquidation under section 333.* The basis of assets (other than money) acquired by stockholders in a liquidation upon which the amount of gain recognized was limited under section 333 shall be the same as the basis of the shares of stock redeemed or cancelled, decreased in the amount of any money received and increased in the amount of gain recognized and the amount of the unsecured liabilities assumed by the stockholders. The amount thus arrived at should be allocated to the various assets received on the basis of their net fair market values (the net fair market value of an asset is its fair market value less any specific mortgage or pledge to which it is subject). To that portion of the basis thus determined, for each property against which there is a lien, should be added the amount of such lien. Where more than one property is covered by the same lien, the amount of the lien should be divided among the properties, allocating to each that portion of the lien that the fair market value of such property bears to the total market value of the properties covered by the same lien. Whether the mortgage indebtedness is assumed by the shareholders or the property is taken subject to the mortgage is immaterial. The application of this section may be illustrated by the following example:

Example. The X corporation distributed all its property in complete liquidation during the month of October 1954 pursuant to the provisions of section 333. A, an individual, and a qualifying electing shareholder, received, in cancellation or redemption of 100 shares of stock owned by him at the time of the adoption of the plan of liquidation, $1,000 in cash, property (other than stock or securities acquired by the corporation after December 31, 1953) with a fair market value of $22,000 subject to a lien of $1,000, and stock acquired by the liquidating corporation after December 31, 1953 with a fair market value of $4,000. A, also assumed a $2,000 liability of the liquidating corporation. The basis of the shares owned by A was $120 per share or $12,000. A's ratable share of the earnings and profits of the X corporation accumulated after February 28, 1913 (computed as provided in section 333) was $2,500. His gain is $12,000, but under section 333 only $5,000 of this gain is recognized, $2,500 thereof being taxed as a dividend. The basis of all the property other than money received by A is $19,000, computed as follows:

Adjusted basis of stock cancelled or redeemed	$12,000
Less: money received	1,000
Remainder	11,000
Liability assumed	2,000
Specific lien against property (other than stock)	1,000
Gain recognized	5,000
Basis of property acquired	19,000

The basis, excluding the specific lien attached to the property, ($19,000 less $1,000, $18,000) will be apportioned among the classes of property other than money received as follows: $21,000/$25,000 of $18,000 or $15,120 to the property other than stock; $4,000/$25,000 of $18,000 or $2,880 to the stock. The basis of the property other than stock, $15,120, must be increased by the amount of the specific lien attached thereto, $1,000, making a total basis for such property of $16,120.

Effects on Corporation

§ 1.336 *Statutory provisions; general rule.*

SEC. 336. *General rule.* Except as provided in section 453 (d) (relating to disposition of installment obligations), no gain or loss shall be recognized to a corporation on the distribution of property in partial or complete liquidation.

§ 1.336–1 *General rule on liquidation of corporation.* Except as provided in section 453 (d), no gain or loss is recognized to a corporation on the distribution by it of property in kind in partial or complete liquidation (regardless of the fact that such property may have appreciated or depreciated in value since its acquisition by the corporation). However, gain or loss is recognized to a corporation on all sales by it, whether directly or indirectly (as through trustees or a receiver), except as provided in section 337 (relating to sales or exchanges in connection with certain liquidations). See sections 61, 6036, 6155 (a), 6161 (c), 6503 (b), 6601, 6871, 6872 and 6873.

§ 1.337 *Statutory provisions; gain or loss on sales or exchanges in connection with certain liquidations.*

SEC. 337. *Gain or loss on sales or exchanges in connection with certain liquidations—*(a) *General rule.* If—

(1) A corporation adopts a plan of complete liquidation on or after June 22, 1954, and

(2) Within the 12-month period beginning on the date of the adoption of such plan, all of the assets of the corporation are distributed in complete liquidation, less assets retained to meet claims,

then no gain or loss shall be recognized to such corporation from the sale or exchange by it of property within such 12-month period.

(b) *Property defined—*(1) *In general.* For purposes of subsection (a), the term "property" does not include—

(A) Stock in trade of the corporation, or other property of a kind which would properly be included in the inventory of the corporation if on hand at the close of the taxable year, and property held by the corporation primarily for sale to customers in the ordinary course of its trade or business,

(B) Installment obligations acquired in respect of the sale or exchange (without regard to whether such sale or exchange occurred before, on, or after the date of the adoption of the plan referred to in subsection (a)) of stock in trade or other property described in subparagraph (A) of this paragraph, and

(C) Installment obligations acquired in respect of property (other than property described in subparagraph (A)) sold or exchanged before the date of the adoption of such plan of liquidation.

(2) *Nonrecognition with respect to inventory in certain cases.* Notwithstanding paragraph (1) of this subsection, if substantially all of the property described in subparagraph (A) of such paragraph (1) which is attributable to a trade or business of the corporation is, in accordance with this section, sold or exchanged to one person in one transaction, then for purposes of subsection (a) the term "property" includes—

(A) Such property so sold or exchanged, and

(B) Installment obligations acquired in respect of such sale or exchange.

(c) *Limitations—*(1) *Collapsible corporations and liquidations to which section 333 applies.* This section shall not apply to any sale or exchange—

(A) Made by a collapsible corporation (as defined in section 341 (b)), or

(B) Following the adoption of a plan of complete liquidation, if section 333 applies with respect to such liquidation.

(2) *Liquidations to which section 332 applies.* In the case of a sale or exchange fol-

lowing the adoption of a plan of complete liquidation, if section 332 applies with respect to such liquidation, then—

(A) If the basis of the property of the liquidating corporation in the hands of the distributee is determined under section 334 (b) (1), this section shall not apply; or

(B) If the basis of the property of the liquidating corporation in the hands of the distributee is determined under section 334 (b) (2), this section shall apply only to that portion (if any) of the gain which is not greater than the excess of (i) that portion of the adjusted basis (adjusted for any adjustment required under the second sentence of section 334 (b) (2)) of the stock of the liquidating corporation which is allocable, under regulations prescribed by the Secretary or his delegate, to the property sold or exchanged, over (ii) the adjusted basis, in the hands of the liquidating corporation, of the property sold or exchanged.

§ 1.337–1 *General.* Except as provided in sections 337 (c) and 392 (b), if a corporation distributes all of its assets in complete liquidation within 12 months after the adoption of a plan of liquidation, which plan must be adopted on or after June 22, 1954, no gain or loss shall be recognized from the sale of property (as defined in section 337 (b)) during such 12-month period. For this purpose such sales may be made before the adoption of the plan of liquidation if made on the same day such plan is adopted. All assets (less assets retained to meet claims), both tangible and intangible, must be distributed within the 12-month period. Any assets retained after the expiration of the 12-month period for the payment of claims (including unascertained or contingent liabilities or expenses) must be specifically set apart for that purpose and must be reasonable in amount in relation to the items involved. The 12-month period shall begin on the date of adoption of the plan determined as provided in § 1.337–2 (b) and no extension of such period can be granted. See section 453 (d) (4) (B) relative to nonrecognition of gain on the distribution of certain installment obligations. Sales or exchanges made by a collapsible corporation (as defined in section 341 (b)) are excluded from the operation of section 337 by section 337 (c). Accordingly, section 337 does not apply to any sale or exchange of property whenever the distribution of such property in partial or complete liquidation to the shareholders in lieu of such sale or exchange would have resulted in the taxation of the gain from such distribution in the manner provided in section 341 (a) as to any shareholder or would have resulted in the taxation of the gain in such manner, but for the application of section 341 (d). Likewise, section 337 does not apply to sales or exchanges made by a corporation if such corporation is liquidated in a transaction to which section 333 is applicable, or in a transaction to which section 332 applies (except to the extent provided in section 337 (c) (2) (B)). Section 392 (b) provides special rules with respect to the recognition of gain or loss upon certain sales made by a liquidating corporation during 1954 and 1955.

§ 1.337–2 *Sales or exchanges within the scope of section 337.* (a) Provided the other conditions of section 337 are met, sales or exchanges which occur on or after the date on which the plan of complete liquidation is adopted and within the 12-month period thereafter are subject to the provisions of such section. The date on which a sale occurs depends primarily upon the intent of the parties to be gathered from the terms of the contract and the surrounding circumstances. In ascertaining whether a sale or exchange occurs on or after the date on which the plan of complete liquidation is adopted, the fact that negotiations for sale may have been commenced, either by the corporation or its shareholders, or both shall be disregarded. Moreover, an executory contract to sell is to be distinguished from a contract of sale. Ordinarily, a sale has not occurred when a contract to sell has been entered into but title and possession of the property have not been transferred and the obligation of the seller to sell or the buyer to buy is conditional.

(b) Ordinarily the date of the adoption of a plan of complete liquidation by a corporation is the date of adoption by the shareholders of the resolution authorizing the distribution of all the assets of the corporation (other than those retained to meet claims) in redemption of all of its stock. Where the corporation sells substantially all of its property of the type defined in section 337 (b) prior to the date of adoption by the shareholders of such resolution, then the date of the adoption of the plan of complete liquidation by such corporation is the date of the adoption by the shareholders of such resolution and gain or loss will be recognized with respect to such sales. Where no substantial part of the property of the type defined in section 337 (b) has been sold by the corporation prior to the date of adoption by the shareholders of such resolution, the date of the adoption of the plan of complete liquidation by such corporation is the date of adoption by the shareholders of such resolution and no gain or loss will be recognized on sales of such property on or after such date, if all the corporate assets (other than those retained to meet claims) are distributed in liquidation to the shareholders within 12 months after the date of the adoption of such resolution. In all other cases the date of the adoption of the plan of liquidation shall be determined from all the facts and circumstances. Section 337 shall not apply in any case in which all of the corporate assets (other than those retained to meet claims) are not distributed to the shareholders within 12 months after the date of the adoption of a resolution by the shareholders authorizing the distribution of all the corporate assets in redemption of all the corporate stock. A corporation will be considered to have distributed all of its property other than assets retained to meet claims even though it has retained an amount of cash equal to its known liabilities and liquidating expenses plus an amount of cash set aside under arrangements for the payment after the close of the 12-month period of unascertained or contingent liabilities and contingent expenses. Such arrangements for payment must be made in good faith, the amount set aside must be reasonable, and no amount may be set aside to meet claims of shareholders with respect to their stock. If it is established to the satisfaction of the Commissioner that there are shareholders who cannot be located, a distribution in liquidation includes a transfer to a State official, trustee, or other person authorized by law to receive distributions for the benefit of such shareholders. For the purposes of this paragraph "property of the type defined in section 337 (b)" means property upon the sale of which section 337 (a) may provide for the nonrecognition of gain or loss upon sale or exchange during a 12-month period, including property described in subparagraph (A) of section 337 (b) (1) if sold or exchanged at any time under the conditions set forth in section 337 (b) (2) and including installment obligations acquired in respect of such sale or exchange.

§ 1.337–3 *Property defined.* (a) Except as provided in section 337 (b) (2) and this section, the term "property" as used in section 337 (a) and § 1.337–1 does not include, (1) stock in trade of the corporation, or other property of a kind which would properly be included in the inventory of the corporation if on hand at the close of the taxable year and property held by the corporation primarily for sale to customers in the ordinary course of its trade or business (hereinafter for purposes of section 337 referred to as "inventory"), (2) installment obligations acquired at any time from the sale or exchange of inventory, or (3) installment obligations acquired from the sale or exchange of property (other than inventory) prior to the adoption of the plan of liquidation. With the exceptions listed above, the term "property" includes all assets owned by a corporation.

(b) Except as provided in paragraph (c) of this section, if substantially all of the inventory is sold or exchanged to one person in one transaction, then for the purpose of section 337 (a) the term "property" shall include:

(1) The inventory so sold or exchanged, and

(2) Installment obligations acquired in such sale or exchange.

For this purpose, the term "substantially all" means substantially all of the inventory at the time of the sale and includes inventory subject to liabilities, specific or otherwise. Section 337 (b) (2) shall be inapplicable if the inventory so sold is replaced by like inventory, or by a new kind of inventory.

(c) The term "property" in the case of a corporation which is engaged in two or more distinct businesses shall include the inventory of any one of such trades or businesses if substantially all of the inventory attributable to such trade or business is sold or exchanged to one person in one transaction. If installment obligations are received upon such a sale, such obligations are also included within the meaning of the term "property".

(d) This section may be illustrated by the following examples:

Example (1). Corporation A operates a grocery store at one location and a hardware store at another. Neither store handles items similar to those handled by the other. Both stores are served by a common warehouse. Pursuant to a plan of liquidation adopted by the corporation, the grocery store and all of its inventory, including that part of its inventory held in the warehouse, are sold to one person in one transaction. Thereafter, and within 12 months after the adoption of the plan of liquidation, all of the assets of the corporation are distributed to the shareholders. No gain or loss will be recognized upon the sale of all of the assets attributable to the grocery business, including the inventory items.

Example (2). Corporation B operates two department stores, one in the downtown business district and the other in a suburban shopping center. Both handle the same items and are served by a common warehouse which contains an amount of inventory items equal to the total of that in both stores. The part of the inventory in the warehouse which is attributable to each store cannot be clearly determined. Pursuant to a plan of liquidation adopted by the corporation, the assets of the suburban store, including the inventory held in such store, but not including any portion of the inventory held in the warehouse, are sold to one person in one transaction. Thereafter, and within 12 months after the adoption of the plan of liquidation, all of the assets of the corporation are distributed to the shareholders. No gain or loss will be recognized with respect to the sale of the property other than the inventory, but gain or loss will be recognized upon the sale of the inventory.

Example (3). The facts are the same as in example (2) except that the part of the inventory in the warehouse which is attributable to the suburban store can be clearly determined and both the inventory held in the store and that part of the inventory in the warehouse attributable to such store are sold. No gain or loss will be recognized upon the sale of the inventory.

§ 1.337–4 *Limitation of gain.* (a) Section 337 (c) (2) (B) provides a limitation upon the amount of gain not recognized where a corporation sells or exchanges property pursuant to a plan of complete liquidation (and such property, if distributed, would take the basis of the stock held by the distributee pursuant to the provisions of section 334 (b) (2) (relating to plans of liquidation adopted within 2 years after purchase of the stock)). The amount of gain not recognized shall not be greater than the excess of (1) that portion of the adjusted basis (further adjusted as provided in the second sentence of section 334 (b) (2) and in § 1.334–1 (c)) of the stock of the liquidating corporation in the hands of its parent corporation allocable to the property sold or exchanged over (2) the adjusted basis of such property in the hands of the liquidating corporation.

(b) Paragraph (a) of this section may be illustrated by the following example:

Example. Corporation A owns more than 80 percent of the stock of Corporation B, which it purchased for $10,000. All of the assets of Corporation B, having a total basis of $4,000 are sold for $12,000. The portion of the realized gain of $8,000 which is not recognized is $6,000, computed as follows:

Basis of stock allocable to property sold	$10,000
Basis of property sold	4,000
Excess (not recognized)	6,000

In general, where section 337 (c) (2) (B) is applicable and where the gain realized from the sale of property is greater than the excess of the selling price of the property over the basis of the stock allocable to the property sold, the amount of gain to be recognized from such sale is equal to such excess. In the above example, the $2,000 gain representing the excess of the selling price of $12,000 over the basis of the stock allocable to the property sold ($10,000) would be recognized to the liquidating corporation.

(c) For the purpose of this section only, the basis (adjusted as described in (a) of this section) of the liquidating corporation's stock in the hands of its parent corporation on the date of the first sale of property, shall be allocated to the assets of the liquidating corporation (unreduced by any amount applicable to minority interests) on the basis of the fair market value of such assets (see § 1.334–1 (c)), both tangible and intangible, on the date the first property is sold by the liquidating corporation. The allocation then made shall remain unchanged for the purpose of determining recognized gain upon subsequent sales of property by the liquidating corporation unless the stock ownership of the parent corporation changes. In the event of such a change, a new allocation shall be made at the time of the next sale of property thereafter. The new allocation shall be made on the basis of the fair market value of the liquidating corporation's assets on the date of such sale.

§ 1.337–5 *Information to be filed with return.* There must be attached to the return of the liquidating corporation, the following information:

(a) A copy of the minutes of the stockholders' meeting at which the plan of liquidation was formally adopted, including a copy of the plan of liquidation.

(b) A statement of the assets sold after the adoption of the plan of liquidation including the dates of such sales. If section 337 (c) (2) (B), relating to limited nonrecognition of gain on sales by subsidiaries, is applicable, this statement must include a computation of the total gain and of the gain not recognized under this section.

(c) Information as to the date of the final liquidating distribution.

(d) A statement of the assets, if any, retained to pay liabilities and the nature of the liabilities.

§ 1.338 *Statutory provisions; effect on earnings and profits.*

SEC. 338. *Effect on earnings and profits.* For special rule relating to the effect on earnings and profits of certain distributions in partial liquidation, see section 312 (e).

Collapsible Corporations; Foreign Personal Holding Companies

§ 1.341 *Statutory provisions; collapsible corporations.*

SEC. 341. *Collapsible corporations—(a) Treatment of gain to shareholders.* Gain from—

(1) The sale or exchange of stock of a collapsible corporation,

(2) A distribution in partial or complete liquidation of a collapsible corporation, which distribution is treated under this part as in part or full payment in exchange for stock, and

(3) A distribution made by a collapsible corporation which, under section 301 (c) (3) (A), is treated, to the extent it exceeds the basis of the stock, in the same manner as a gain from the sale or exchange of property,

to the extent that it would be considered (but for the provisions of this section) as gain from the sale or exchange of a capital asset held for more than 6 months shall, except as provided in subsection (d), be considered as gain from the sale or exchange of property which is not a capital asset.

(b) *Definitions—(1) Collapsible corporation.* For purposes of this section, the term "collapsible corporation" means a corporation formed or availed of principally for the manufacture, construction, or production of property, for the purchase of property which (in the hands of the corporation) is property described in paragraph (3), or for the holding of stock in a corporation so formed or availed of, with a view to—

(A) The sale or exchange of stock by its shareholders (whether in liquidation or otherwise), or a distribution to its shareholders, before the realization by the corporation manufacturing, constructing, producing, or purchasing the property of a substantial part of the taxable income to be derived from such property, and

(B) The realization by such shareholders of gain attributable to such property.

(2) *Production or purchase of property.* For purposes of paragraph (1), a corporation shall be deemed to have manufactured, constructed, produced, or purchased property, if—

(A) It engaged in the manufacture, construction, or production of such property to any extent,

(B) It holds property having a basis determined, in whole or in part, by reference to the cost of such property in the hands of a person who manufactured, constructed, produced, or purchased the property, or

(C) It holds property having a basis determined, in whole or in part, by reference to the cost of property manufactured, constructed, produced, or purchased by the corporation.

(3) *Section 341 assets.* For purposes of this section, the term "section 341 assets" means property held for a period of less than 3 years which is—

(A) Stock in trade of the corporation, or other property of a kind which would properly be included in the inventory of the corporation if on hand at the close of the taxable year;

(B) Property held by the corporation primarily for sale to customers in the ordinary course of its trade or business;

(C) Unrealized receivables or fees, except receivables from sales of property other than property described in this paragraph; or

(D) Property described in section 1231 (b) (without regard to any holding period therein provided), except such property which is or has been used in connection with the manufacture, construction, production, or sale of property described in subparagraph (A) or (B).

In determining whether the 3-year holding period specified in this paragraph has been satisfied, section 1223 shall apply, but no such period shall be deemed to begin before the completion of the manufacture, construction, production, or purchase.

(4) *Unrealized receivables.* For purposes of paragraph (3) (C), the term "unrealized receivables or fees" means, to the extent not previously includible in income under the method of accounting used by the corporation, any rights (contractual or otherwise) to payment for—

(A) Goods delivered, or to be delivered, to the extent the proceeds therefrom would be treated as amounts received from the sale or exchange of property other than a capital asset, or

(B) Services rendered or to be rendered.

(c) *Presumption in certain cases.*—(1) *In general.* For purposes of this section, a corporation shall, unless shown to the contrary, be deemed to be a collapsible corporation if (at the time of the sale or exchange, or the distribution, described in subsection (a)) the fair market value of its section 341 assets (as defined in subsection (b) (3)) is—

(A) 50 percent or more of the fair market value of its total assets, and

(B) 120 percent or more of the adjusted basis of such section 341 assets.

Absence of the conditions described in subparagraphs (A) and (B) shall not give rise to a presumption that the corporation was not a collapsible corporation.

(2) *Determination of total assets.* In determining the fair market value of the total assets of a corporation for purposes of paragraph (1) (A), there shall not be taken into account—

(A) Cash,

(B) Obligations which are capital assets in the hands of the corporation (and governmental obligations described in section 1221 (5)), and

(C) Stock in any other corporation.

(d) *Limitations on application of section.* In the case of gain realized by a shareholder with respect to his stock in a collapsible corporation, this section shall not apply—

(1) Unless, at any time after the commencement of the manufacture, construction, or production of the property, or at the time of the purchase of the property described in subsection (b) (3) or at any time thereafter, such shareholder (A) owned (or was considered as owning) more than 5 percent in value of the outstanding stock of the corporation, or (B) owned stock which was considered as owned at such time by another shareholder who then owned (or was considered as owning) more than 5 percent in value of the outstanding stock of the corporation;

(2) To the gain recognized during a taxable year, unless more than 70 percent of such gain is attributable to the property so manufactured, constructed, produced, or purchased; and

(3) To gain realized after the expiration of 3 years following the completion of such manufacture, construction, production, or purchase.

For purposes of paragraph (1), the ownership of stock shall be determined in accordance with the rules prescribed in paragraphs (1), (2), (3), (5), and (6) of section 544 (a) (relating to personal holding companies); except that, in addition to the persons prescribed by paragraph (2) of that section, the family of an individual shall include the spouses of that individual's brothers and sisters (whether by the whole or half blood) and the spouses of that individual's lineal descendants.

§ 1.341–1 *Collapsible corporations; in general.* Subject to the limitations contained in § 1.341–4, the entire gain from (a) the actual sale or exchange of stock of a collapsible corporation, (b) amounts distributed in complete or partial liquidation of a collapsible corporation which are treated, under section 331 as payment in exchange for stock, and (c) a distribution made by a collapsible corporation which, under section 301 (c) (3), is treated, to the extent it exceeds the basis of the stock, in the same manner as a gain from the sale or exchange of property, shall be considered as gain from the sale or exchange of property which is not a capital asset.

§ 1.341–2 *Definitions.*—(a) *Determination of collapsible corporation.* (1) A collapsible corporation is defined by section 341 (b) (1) to be a corporation formed or availed of principally (i) for the manufacture, construction, or production of property, (ii) for the purchase of property which (in the hands of the corporation) is property described in section 341 (b) (3), or (iii) for the holding of stock in a corporation so formed or availed of, with a view to (*a*) the sale or exchange of stock by its shareholders (whether in liquidation or otherwise), or a distribution to its shareholders, prior to the realization by the corporation manufacturing, constructing, producing, or purchasing the property of a substantial part of the taxable income to be derived from such property, and (*b*) the realization by such shareholders of gain attributable to such property. See § 1.341–5 for a description of the facts which will ordinarily be considered sufficient to establish whether or not a corporation is a collapsible corporation under the rules of this section. See § 1.341–5 (d) for examples of the application of section 341.

(2) Under section 341 (b) (1) the corporation must be formed or availed of with a view to the action therein described, that is, the sale or exchange of its stock by its shareholders, or a distribution to them prior to the realization by the corporation manufacturing, constructing, producing, or purchasing the property of a substantial part of the taxable income to be derived from such property, and the realization by the shareholders of gain attributable to such property. This requirement is satisfied in any case in which such action was contemplated by those persons in a position to determine the policies of the corporation, whether by reason of their owning a majority of the voting stock of the corporation or otherwise. The requirement is satisfied whether such action was contemplated, unconditionally, conditionally, or as a recognized possibility. If the corporation was so formed or availed of, it is immaterial that a particular shareholder was not a shareholder at the time of the manufacture, construction, production, or purchase of the property, or if a shareholder at such time, did not share in such view. Any gain of such a shareholder on his stock in the corporation shall be treated in the same manner as gain of a shareholder who did share in such view. The existence of a bona fide business reason for doing business in the corporate form does not, by itself, negate the fact that the corporation may also have been formed or availed of with a view to the action described in section 341 (b).

(3) A corporation is formed or availed of with a view to the action described in section 341 (b) if the requisite view existed at any time during the manufacture, production, construction, or purchase referred to in that section. Thus, if the sale, exchange, or distribution is attributable solely to circumstances which arose after the manufacture, construction, production, or purchase (other than circumstances which reasonably could be anticipated at the time of such manufacture, construction, production, or purchase), the corporation shall, in the absence of compelling facts to the contrary, be considered not to have been so formed or availed of. However, if the sale, exchange or distribution is attributable to circumstances present at the time of the manufacture, construction, production, or purchase, the corporation shall, in the absence of compelling facts to the contrary, be considered to have been so formed or availed of.

(4) The property referred to in section 341 (b) is that property or the aggregate of those properties with respect to which the requisite view existed. In order to ascertain the property or properties as to which the requisite view existed, reference shall be made to each property as to which, at the time of the sale, exchange, or distribution referred to in section 341 (b) there has not been a realization by the corporation manufacturing, constructing, producing, or purchasing the property of a substantial part of the taxable income to be derived from such property. However, where any such property is a unit of an integrated project involving several properties similar in kind, the determination whether the requisite view existed shall be made only if a substantial part of the taxable income to be derived from the project has not been realized at the time of the sale, exchange, or distribution, and in such case the determination shall be made by reference to the aggregate of the properties constituting the single project.

(5) A corporation shall be deemed to have manufactured, constructed, produced, or purchased property if it (i) engaged in the manufacture, construction, or production of property to any extent, or (ii) holds property having a basis determined, in whole or in part, by reference to the cost of such property in the hands of a person who manufactured, constructed, produced, or purchased the property, or (iii) holds property having a basis determined, in whole or in part, by reference to the cost of property manufactured, constructed, produced, or purchased by the corporation. Thus, under subdivision (i) of this subparagraph, for example, a corporation need not have originated nor have completed the manufacture, construction, or production of the property. Under subdivision (ii) of this subparagraph, for example, if an individual were to transfer property constructed by him to a corporation in exchange for all of the capital stock of such corporation, and such transfer qualifies under section 351, then the corporation would be deemed to have constructed the property, since the basis of the property in the hands of the corporation would, under section 362 be determined by reference to the basis of the property in the hands of the individual. Under subdivision (iii) of this subparagraph, for example, if a corporation were to exchange property constructed by it for property of like kind constructed by another person, and such exchange qualifies under section 1031 (a), then the corporation would be deemed to have constructed the property received by it in the exchange, since the basis of the property received by it in the exchange would, under section 1031 (d), be determined by reference to the basis of the property constructed by the corporation.

(6) In determining whether a corporation is a collapsible corporation by reason of the purchase of property, it is immaterial whether the property is purchased from the shareholders of the corporation or from persons other than such shareholders. The property, however, must be property which, in the hands of the corporation, is property of a kind described in section 341 (b) (3). The determination whether property is of a kind described in section 341 (b) (3) shall be made without regard to the fact that the corporation is formed or availed of with a view to the action described in section 341 (b) (1).

(7) Section 341 is applicable whether the shareholder is an individual, a trust, an estate, a partnership, a company, or a corporation.

(b) *Section 341 assets.* For the purposes of this section, the term "section 341 assets" means the following listed property if held for less than 3 years:

(1) Stock in trade of the corporation, or other property of a kind which would properly be included in the inventory of the corporation if on hand at the close of the taxable year.

(2) Property held primarily for sale to customers in the ordinary course of a trade or business.

(3) Property used in a trade or business as defined in section 1231 (b) and held for less than 3 years, except property that is or has been used in connection with the manufacture, construction, production or sale of property described above in (1) and (2).

(4) Unrealized receivables or fees pertaining to property listed in this paragraph. The term "unrealized receivables or fees" means any rights (contractual or otherwise) to payment for property listed in (1), (2), and (3) above which has been delivered or is to be delivered and rights to payments for services rendered or to be rendered, to the extent such rights have not been included in the income of the corporation under the method of accounting used by it. In determining whether the assets referred to in this paragraph have been held for 3 years, the time such assets were held by a transferor shall be taken into consideration (section 1223). However, no such period shall begin before the date the manufacture, construction, production, or purchase of such assets is completed.

§ 1.341–3 *Presumptions.* (a) Unless shown to the contrary a corporation shall be considered to be a collapsible corporation if at the time of the transactions described in § 1.341–1 the fair market value of the section 341 assets held by it constitutes 50 percent or more of the fair market value of its total assets and the fair market value of the section 341 assets is 120 percent or more of the adjusted basis of such assets. In determining the fair market value of the total assets, cash, obligations which are capital assets in the hands of the corporation, governmental obligations, and stock in any other corporation shall not be taken into consideration. The failure of a corporation to meet the requirements of this paragraph, shall not give rise to the presumption that the corporation was not a collapsible corporation.

(b) The following example will illustrate the application of this section:

Example. A corporation, filing its income tax returns on the accrual basis, on July 31, 1955, owned assets with the following fair market values: Cash, $175,000; note receivable held for investment, $130,000; stocks of other corporations, $545,000; rents receivable, $15,000; and a building constructed by the corporation in 1953 and held thereafter as rental property, $750,000. The adjusted basis of the building on that date was $600,000. The only debt outstanding was a $500,000 mortgage on the building. On July 31, 1955, the corporation liquidated and distributed all of its assets to its shareholders. In computing whether the fair market value of the section 341 assets (only the building) is 50 percent or more of the fair market value of the total assets, the cash, note receivable, and stocks of other corporations are not taken into account in determining the value of the total assets, with the result that the fair market value of the total assets was $765,000 ($750,000 (building) plus $15,000 (rents receivable)). Therefore, the value of the building is 98 percent of the total assets ($750,000÷$765,000). The value of the building is also 125 percent of the adjusted basis of the building ($750,000÷$600,000). In view of the above facts, there arises a presumption that the corporation is a collapsible corporation.

§ 1.341–4 *Limitations on application of section.*—(a) *General.* This section shall apply only to the extent that the recognized gain of a shareholder upon his stock in a collapsible corporation would be considered, but for the provisions of this section, as gain from the sale or exchange of a capital asset held for more than six months. Thus, if a taxpayer sells at a gain stock of a collapsible corporation which he had held for six months or less, this section would not, in any event, apply to such gain. Also, if it is determined, under provisions of law other than section 341, that a sale or exchange at a gain of stock of a collapsible corporation which has been held for more than six months results in ordinary income rather than long-term capital gain, then this section (including the limitations contained herein) has no application whatsoever to such gain.

(b) *Stock ownership rules.* (1) This section shall apply in the case of gain realized by a shareholder upon his stock in a collapsible corporation only if the shareholder, at any time after the actual commencement of the manufacture, construction, or production of the property, or at the time of the purchase of the property described in section 341 (b) (3) or at any time thereafter, (i) owned, or was considered as owning, more than 5 percent in value of the outstanding stock of the corporation, or (ii) owned stock which was considered as owned at such time by another shareholder who then owned, or was considered as owning, more than 5 percent in value of the outstanding stock of the corporation.

(2) The ownership of stock shall be determined in accordance with the rules prescribed by section 544 (a) (1), (2), (3), (5), and (6), except that, in addition to the persons prescribed by section 544 (a) (2), the family of an individual shall include the spouses of that individual's brothers and sisters, whether such brothers and sisters are by the whole or the half blood, and the spouses of that individual's lineal descendants.

(3) For the purpose of this limitation, treasury stock shall not be considered as outstanding stock.

(4) It is possible, under this limitation, that a shareholder in a collapsible corporation may have gain upon his stock in that corporation treated differently from the gain of another shareholder in the same collapsible corporation.

(c) *Seventy-percent rule.* (1) This section shall apply to the gain recognized during a taxable year upon the stock in a collapsible corporation only if more than 70 percent of such gain is attributable to the property referred to in section 341 (b) (1). If more than 70 percent of such gain is so attributable, then all of such gain is subject to this section, and, if 70 percent or less of such gain is so attributable, then none of such gain is subject to this section.

(2) For the purpose of this limitation, the gain attributable to the property referred to in section 341(b(1) is the excess of the recognized gain of the shareholder during the taxable year upon his stock in the collapsible corporation over the recognized gain which the shareholder would have if the property had not been manufactured, constructed, produced, or purchased. In the case of gain on a distribution in partial liquidation or a distribution described in section 301 (c) (3) (A), the gain attributable to the property shall not be less than an amount which bears the same ratio to the gain on such distribution as the gain which would be attributable to the property if there had been a complete liquidation at the time of such distribution bears to the total gain which would have resulted from such complete liquidation.

(3) Gain may be attributable to the property referred to in section 341 (b) (1) even though such gain is represented by an appreciation in the value of property other than that manufactured, constructed, produced, or purchased. Where, for example, a corporation owns a tract of land and the development of one-half of the tract increases the value of the other half, the gain attributable to the developed half of the tract includes the increase in the value of the other half.

(4) The following example will illustrate the application of the 70 percent rule:

Example: On January 2, 1954, A formed the Z Corporation and contributed $1,000,000 cash in exchange for all of the stock thereof. The Z Corporation invested $400,000 in one project for the purpose of building and selling residential houses. As of December 31, 1954, the residential houses in this project were all sold, resulting in a profit of $100,000 (after taxes). Simultaneously with the development of the first project and in connection with a second and separate project the Z Corporation invested $600,000 in land for the purpose of subdividing such land into lots suitable for sale as home sites and distributing such lots in liquidation before the realization by the corporation of a substantial part of the taxable income to be realized from this second project. As of

December 31, 1954, Corporation Z had derived $60,000 in profits (after taxes) from the sale of some of the lots. On January 2, 1955, the Z Corporation made a distribution in complete liquidation to shareholder A who received:

(i) $560,000 in cash and notes, and

(ii) Lots having a fair market value of $940,000. The gain recognized to shareholder A upon the liquidation is $500,000 ($1,500,000 minus $1,000,000). The gain which would have been recognized to A if the second project had not been undertaken is $100,000 ($1,100,000 minus $1,000,000). Therefore, the gain attributable to the second project which is property referred to in section 341 (b) (1), is $400,000 ($500,000 minus $100,000). Since this gain ($400,000) is more than 70 percent of the entire gain ($500,000) recognized to A on the liquidation, the entire gain so recognized is gain subject to section 341 (a).

(d) *Three-year rule.* This section shall not apply to that portion of the gain of a shareholder that is realized more than three years after the actual completion of the manufacture, construction, production, or purchase of the property to which such portion is attributable.

§ 1.341–5 *Application of section.* (a) Whether or not a corporation is a collapsible corporation shall be determined under the rules of § 1.341–2 and § 1.341–3 on the basis of all the facts and circumstances in each particular case. The following paragraphs of this section set forth those facts which will ordinarily be considered sufficient to establish that a corporation is or is not a collapsible corporation. The facts set forth in the following paragraphs of this section are not exclusive of other facts which may be controlling in any particular case. For example, if the facts in paragraph (b) of this section, but not the facts in paragraph (c) of this section, are present, the corporation may nevertheless not be a collapsible corporation if there are other facts which clearly establish that the rules of § 1.341–2 and § 1.341–3 are not satisfied. Similarly, if the facts in paragraph (c) of this section are present, the corporation may nevertheless be a collapsible corporation if there are other facts which clearly establish that the corporation was formed or availed of in the manner described in § 1.341–2 and § 1.341–3 or if the facts in paragraph (c) of this section are not significant by reason of other facts, such as the fact that the corporation is subject to the control of persons other than those who were in control immediately prior to the manufacture, construction, production, or purchase of the property. See § 1.341–4 for provisions which make section 341 inapplicable to certain shareholders of collapsible corporations.

(b) The following facts will ordinarily be considered sufficient (except as otherwise provided in paragraph (a) of this section and paragraph (c) of this section) to establish that a corporation is a collapsible corporation:

(1) A shareholder of the corporation sells or exchanges his stock, or receives a liquidating distribution, or a distribution described in section 301 (c) (3) (A),

(2) Upon such sale, exchange, or distribution, such shareholder realizes gain attributable to the property described in subparagraphs (4) and (5) of this paragraph, and

(3) At the time of the manufacture, construction, production, or purchase of the property described in subparagraphs (4) and (5) of this paragraph, such activity was substantially in relation to the other activities of the corporation which manufactured, constructed, produced, or purchased such property.

The property referred to in subparagraphs (2) and (3) of this paragraph is that property or the aggregate of those properties which meet the following two requirements:

(4) The property is manufactured, constructed, or produced by the corporation or by another corporation stock of which is held by the corporation, or is property purchased by the corporation or by such other corporation which (in the hands of the corporation holding such property) is property described in section 341 (b) (3), and

(5) At the time of the sale, exchange, or distribution described in subparagraph (1) of this paragraph, the corporation which manufactured, constructed, produced, or purchased such property has not realized a substantial part of the taxable income to be derived from such property.

In the case of property which is a unit of an integrated project involving several properties similar in kind, the rules of this subparagraph shall be applied to the aggregate of the properties constituting the single project rather than separately to such unit. Under the rules of this subparagraph, a corporation shall be considered a collapsible corporation by reason of holding stock in other corporations which manufactured, constructed, produced, or purchased the property only if the activity of the corporation in holding stock in such other corporations is substantial in relation to the other activities of the corporation.

(c) The absence of any of the facts set forth in paragraph (b) of this section or the presence of the following facts will ordinarily be considered sufficient (except as otherwise provided in paragraph (a) of this section) to establish that a corporation is not a collapsible corporation:

(1) In the case of a corporation subject to the rules of paragraph (b) of this section only by reason of the manufacture, construction, production, or purchase (either by the corporation or by another corporation the stock of which is held by the corporation) of property which is property described in section 341 (b) (3) (A) and (B), the amount (both in quantity and value) of such property is not in excess of the amount which is normal—

(i) For the purpose of the business activities of the corporation which manufactured, constructed, produced, or purchased the property if such corporation has a substantial prior business history involving the use of such property and continues in business, or

(ii) For the purpose of an orderly liquidation of the business if the corporation which manufactured, constructed, produced, or purchased such property has a substantial prior business history involving the use of such property and is in the process of liquidation.

(2) In the case of a corporation subject to the rules of paragraph (b) of this section with respect to the manufacture, construction, or production (either by the corporation or by another corporation the stock of which is held by the corporation) of property, the amount of the unrealized taxable income from such property is not substantial in relation to the amount of the taxable income realized (after the completion of a material part of such manufacture, construction, or production, and prior to the sale, exchange, or distribution referred to in paragraph (b) (1) of this section) from such property and from other property manufactured, constructed, or produced by the corporation.

(d) The following examples will illustrate the application of this section:

Example (1). (i) On January 2, 1954, A formed the W Corporation and contributed $50,000 cash in exchange for all of the stock thereof. The W Corporation borrowed $900,000 from a bank and used $800,000 of such sum in the construction of an apartment house on land which it purchased for $50,000. The apartment house was completed on December 31, 1954. On December 31, 1954, the corporation, having determined that the fair market value of the apartment house separate and apart from the land, was $900,000, made a distribution (permitted under the applicable State law) to A of $100,000. At this time, the fair market value of the land was $50,000. As of December 31, 1954, the corporation has not realized any earnings and profits. In 1955, the corporation began the operation of the apartment house and received rentals therefrom. The corporation has since continued to own and operate the building. The corporation reported on the basis of the calendar year and cash receipts and disbursements.

(ii) Since A received a distribution and realized a gain attributable to the building constructed by the corporation, since, at the time of such distribution, the corporation has not realized a substantial part of the taxable income to be derived from such building, and since the construction of the building was a substantial activity of the corporation, the W Corporation is considered a collapsible corporation under § 1.341–5 (b). The provisions of section 341 (d) do not prohibit the application of section 341 (a). Therefore, the distribution, if and to the extent that it may be considered long-term capital gain rather than ordinary income without regard to section 341, will be considered ordinary income under section 341 (a).

(iii) In the event of the existence of additional facts and circumstances in the above case, the corporation, notwithstanding the above facts, might not be considered a collapsible corporation. See §§ 1.341–2 and 1.341–5 (a).

Example (2). (i) On January 2, 1954, B formed X Corporation and became its sole shareholder. In August 1954, the corporation completed construction of an office building. It immediately sold this building at a gain of $50,000, included this entire gain in its return for 1954, and distributed this entire gain (less taxes) to B. In June 1955, the corporation completed construction of a second office building. In August 1955, B sold the entire stock of X Corporation at a gain of $12,000, which gain is attributable to the second building.

(ii) X Corporation is a collapsible corporation under section 341 (b) for the following reasons: The gain realized through the sale of the stock of X Corporation was attributable to the second office building; the construction of that building was a substantial activity of X Corporation during the time of construction and, at the time of sale, the corporation had not realized a substantial part of the taxable income to be derived from such building. Since the provisions of section 341 (d) do not prohibit the application of section 341 (a) to B, the gain of $12,000 to B is, accordingly, considered ordinary income.

Example (3). The facts are the same as in example (2), except that the following facts are shown: B was the president of the X Corporation and active in the conduct of its business. The second building was constructed as the first step in a project of the X Corporation for the development for rental purposes of a large suburban center involving the construction of several buildings by the corporation. The sale of the stock by B was caused by his retiring from all business activity as a result of illness arising after the second building was constructed. Under these additional facts, the corporation is not considered a collapsible corporation. See §§ 1.341–2 and 1.341–5 (a).

Example (4). (i) On January 2, 1948, C formed the Y Corporation and became the sole shareholder thereof. The Y Corporation has been engaged solely in the business of producing motion pictures and licensing their exhibition. On January 2, 1955, C sold all of the stock of the Y Corporation at a gain. The Y Corporation has produced one motion picture each year since its organization and before January 2, 1955, it has realized a substantial part of the taxable income to be derived from each of its motion pictures except the last one made in 1954. This last motion picture was completed September 1, 1954. As of January 2, 1955, no license had been made for its exhibition. The fair market value on January 2, 1955, of this last motion picture exceeds the cost of its production by $50,000. A material part of the production of this last picture was completed on January 1, 1954, and between that date and January 2, 1955, the corporation had realized taxable income of $500,000 from other motion pictures produced by it. The corporation has consistently distributed to its shareholder its taxable income when received (after adjustment for taxes).

(ii) Although the corporation is within paragraph (b) of this section with respect to the production of property, the amount of the unrealized income from such property ($50,000) is not substantial in relation to the amount of the income realized, after the completion of a material part of the production of such property and prior to sale of the stock, from such property and other property produced by the corporation ($500,000). Accordingly, the Y Corporation is within paragraph (c) (2) of this section, and is not considered a collapsible corporation.

Example (5). The facts are the same as in example (4) except that C sold all of his stock to D on February 1, 1954. On January 2, 1955, D sold all of the Y Corporation stock at a gain, the gain being attributable to the picture completed September 1, 1954, and not released by the corporation for exhibition. In view of the change of control of the corporation, the provisions of paragraph (c) (2) of this section are not significant at the time of the sale by D, and the Y Corporation would be considered a collapsible corporation on January 2, 1955. See §§ 1.341–2 and 1.341–5 (a).

§ 1.342 *Statutory provisions; liquidation of certain foreign personal holding companies.*

SEC. 342. *Liquidation of certain foreign personal holding companies*—(a) *In general.* If any distribution—

(1) Is, within the meaning of the Internal Revenue Code of 1939, a distribution in partial liquidation or in complete liquidation (including any one of a series of distributions made by the corporation in complete cancellation or redemption of all its stock) and

(2) Is made by a foreign corporation which, with respect to any taxable year beginning on or before, and ending after, August 26, 1937, was a foreign personal holding company, and with respect to which a United States group (as defined in section 552 (a) (2)) existed after August 26, 1937, and before January 1, 1938,

then the distribution shall be treated as a distribution in full or part payment in exchange for the stock, and the amount of the gain recognized (determined under section 1002 without regard to this part) resulting from such distribution shall be considered as a gain from the sale or exchange of a capital asset held for not more than 6 months.

(b) *Special rule for certain liquidations before 1956.* Subsection (a) shall not apply in the case of a series of distributions in complete liquidation described in subsection (a) if—

(1) The first distribution is made on or after June 22, 1954, and

(2) The final distribution is made before January 1, 1956;

and the amount of the gain recognized (determined under section 1002 without regard to this part) resulting from such distributions shall be considered as a gain from the sale or exchange of a capital asset, or of property which is not a capital asset, as the case may be.

§ 1.342–1 *General.* The determination of whether a foreign corporation was a foreign personal holding company with respect to a taxable year beginning on or before, and ending after August 26, 1937, shall be made under section 331 of the Revenue Act of 1936 and the regulations thereunder. For the purpose of section 342 (a), a liquidation may be completed before the actual dissolution of the liquidating corporation. However, no liquidation shall be considered as completed until the liquidating corporation and the receiver (or trustees in liquidation) are finally divested of all the property, whether tangible or intangible.

Definition

§ 1.346 *Statutory provisions; partial liquidation defined.*

SEC. 346. *Partial liquidation defined*—(a) *In general.* For purposes of this subchapter, a distribution shall be treated as in partial liquidation of a corporation if—

(1) The distribution is one of a series of distributions in redemption of all of the stock of the corporation pursuant to a plan; or

(2) The distribution is not essentially equivalent to a dividend, is in redemption of a part of the stock of the corporation pursuant to a plan, and occurs within the taxable year in which the plan is adopted or within the succeeding taxable year, including (but not limited to) a distribution which meets the requirements of subsection (b).

For purposes of section 562 (b) (relating to the dividends paid deduction) and section 6043 (relating to information returns), a partial liquidation includes a redemption of stock to which section 302 applies.

(b) *Termination of a business.* A distribution shall be treated as a distribution described in subsection (a) (2) if the requirements of paragraphs (1) and (2) of this subsection are met.

(1) The distribution is attributable to the corporation's ceasing to conduct, or consists of the assets of, a trade or business which has been actively conducted throughout the 5-year period immediately before the distribution, which trade or business was not acquired by the corporation within such period in a transaction in which gain or loss was recognized in whole or in part.

(2) Immediately after the distribution the liquidating corporation is actively engaged in the conduct of a trade or business, which trade or business was actively conducted throughout the 5-year period ending on the date of the distribution and was not acquired by the corporation within such period in a transaction in which gain or loss was recognized in whole or in part.

Whether or not a distribution meets the requirements of paragraphs (1) and (2) of this subsection shall be determined without regard to whether or not the distribution is pro rata with respect to all of the shareholders of the corporation.

(c) *Treatment of certain redemptions.* The fact that, with respect to a shareholder, a distribution qualifies under section 302 (a) (relating to redemptions treated as distributions in part or full payment in exchange for stock) by reason of section 302 (b) shall not be taken into account in determining whether the distribution, with respect to such shareholder, is also a distribution in partial liquidation of the corporation.

§ 1.346–1 *Partial liquidation*—(a) *General.* This section defines a partial liquidation. If amounts are distributed in partial liquidation such amounts are treated under section 331 (a) (2) as received in part or full payment in exchange for the stock. A distribution is treated as in partial liquidation of a corporation if—

(1) The distribution is one of a series of distributions in redemption of all of the stock of the corporation pursuant to a plan of complete liquidation, or

(2) The distribution—

(i) Is not essentially equivalent to a dividend,

(ii) Is in redemption of a part of the stock of the corporation pursuant to a plan, and

(iii) Occurs within the taxable year in which the plan is adopted or within the succeeding taxable year.

An example of a distribution which will qualify as a partial liquidation under paragraph (2) and section 346 (a) is a distribution resulting from a genuine contraction of the corporate business such as the distribution of unused insurance proceeds recovered as a result of a fire which destroyed part of the business causing a cessation of a part of its activities. On the other hand, the distribution of funds attributable to a reserve for an expansion program which has been abandoned does not qualify as a partial liquidation within the meaning of section 346 (a). A distribution to which section 355 applies (or so much of section 356 as relates to section 355) is not a distribution in partial liquidation within the meaning of section 346 (a).

(b) *Special requirements on termination of business.* A distribution which occurs within the taxable year in which the plan is adopted or within the succeeding taxable year and which meets

the requirements of subsection (b) of section 346 falls within subparagraph (2) of paragraph (a) of this section and within section 346 (a) (2). The requirements which a distribution must meet to fall within subsection (b) of section 346 are:

(1) Such distribution is attributable to the corporation's ceasing to conduct, or consists of assets of, a trade or business which has been actively conducted throughout the five-year period immediately before the distribution, which trade or business was not acquired by the corporation within such period in a transaction in which gain or loss was recognized in whole or in part, and

(2) Immediately after such distribution by the corporation it is actively engaged in the conduct of a trade or business, which trade or business was actively conducted throughout the five-year period ending on the date of such distribution and was not acquired by the corporation within such period in a transaction in which gain or loss was recognized in whole or in part.

A distribution shall be treated as having been made in partial liquidation pursuant to section 346 (b) if it consists of the proceeds of the sale of the assets of a trade or business which has been actively conducted for the five-year period and has been terminated, or if it is a distribution in kind of the assets of such a business, or if it is a distribution in kind of some of the assets of such a business and of the proceeds of the sale of the remainder of the assets of such a business. In general, a distribution which will qualify under section 346 (b) may consist of, but is not limited to—

(i) Assets (other than inventory or property described in (ii)) used in the trade or business throughout the five-year period immediately before the distribution (for this purpose an asset shall be considered used in the trade or business during the period of time the asset which it replaced was so used), or

(ii) Proceeds from the sale of assets described in (i), and, in addition,

(iii) The inventory of such trade or business or property held primarily for sale to customers in the ordinary course of business, if—

(a) The items constituting such inventory or such property were substantially similar to the items constituting such inventory or property during the five-year period immediately before the distribution, and

(b) The quantity of such items on the date of distribution was not substantially in excess of the quantity of similar items regularly on hand in the conduct of such business during such five-year period,

or

(iv) Proceeds from the sale of inventory or property described in (iii), if such inventory or property is sold in bulk in the course of termination of such trade or business and if with respect to such inventory the conditions of (a) and (b) of (iii) would have been met had such inventory or property been distributed on the date of such sale.

(c) *Active conduct of a trade or business.* For the purpose of section 346 (b) (1), a corporation shall be deemed to have actively conducted a trade or business immediately before the distribution, if—

(1) In the case of a business the assets of which have been distributed in kind, the business was operated by such corporation until the date of distribution, or

(2) In the case of a business the proceeds of the sale of the assets of which are distributed, such business was actively conducted until the date of sale and the proceeds of such sale were distributed as soon thereafter as reasonably possible.

The term "active conduct of a trade or business" shall have the same meaning in this section as in § 1.355–1 (c).

§ 1.346–2 *Treatment of certain redemptions.* If a distribution in a redemption of stock qualifies as a distribution in part or full payment in exchange for the stock under both section 302 (a) and this section, then only this section shall be applicable. None of the limitations of section 302 shall be applicable to such redemption.

§ 1.346–3 *Effect of certain sales.* The determination of whether assets sold in connection with a partial liquidation are sold by the distributing corporation or by the shareholder is a question of fact to be determined under the facts and circumstances of each case.

CORPORATE ORGANIZATIONS AND REORGANIZATIONS

§ 1.351 *Statutory provisions; transfer to corporation controlled by transferor.*

SEC. 351. *Transfer to corporation controlled by transferor*—(a) *General rule.* No gain or loss shall be recognized if property is transferred to a corporation by one or more persons solely in exchange for stock or securities in such corporation and immediately after the exchange such person or persons are in control (as defined in section 368 (c)) of the corporation. For purposes of this section, stock or securities issued for services shall not be considered as issued in return for property.

(b) *Receipt of property.* If subsection (a) would apply to an exchange but for the fact that there is received, in addition to the stock or securities permitted to be received under subsection (a), other property or money, then—

(1) Gain (if any) to such recipient shall be recognized, but not in excess of—

(A) The amount of money received, plus

(B) The fair market value of such other property received; and

(2) No loss to such recipient shall be recognized.

(c) *Special rule.* In determining control, for purposes of this section, the fact that any corporate transferor distributes part or all of the stock which it receives in the exchange to its shareholders shall not be taken into account.

(d) *Cross references.* (1) For special rule where another party to the exchange assumes a liability, or acquires property subject to a liability, see section 357.

(2) For the basis of stock, securities, or property received in an exchange to which this section applies, see sections 358 and 362.

(3) For special rule in the case of an exchange described in this section but which results in a gift, see section 2501 and following.

(4) For special rule in the case of an exchange described in this section but which has the effect of the payment of compensation by the corporation or by a transferor, see section 61 (a) (1).

§ 1.351–1 *Transfer to corporation controlled by transferor.* (a) (1) Section 351 (a) provides, in general, for the nonrecognition of gain or loss upon the transfer by one or more persons of property to a corporation solely in exchange for stock or securities in such corporation if, immediately after the exchange, such person or persons are in control of the corporation to which the property was transferred. As used in section 351, the phrase "one or more persons" includes individuals, trusts, estates, partnerships, associations, companies, or corporations (see section 7701 (a) (1)). To be in control of the transferee corporation, such person or persons must own immediately after the transfer stock possessing at least 80 percent of the total combined voting power of all classes of stock entitled to vote and at least 80 percent of the total number of shares of all other classes of stock of such corporation (see section 368 (c)). In determining control under this section, the fact that any corporate transferor distributes part or all of the stock which it receives in the exchange to its shareholders shall not be taken into account. The phrase "immediately after the exchange" does not necessarily require simultaneous exchanges by two or more persons, but comprehends a situation where the rights of the parties have been previously defined and the execution of the agreement proceeds with an expedition consistent with orderly procedure. For purposes of this section—

(i) Stock or securities issued for services rendered or to be rendered to or for the benefit of the issuing corporation will not be treated as having been issued in return for property, and

(ii) Stock or securities issued for property which is of relatively small value in comparison to the value of the stock and securities already owned (or to be received for services) by the person who transferred such property, shall not be treated as having been issued in return for property if the primary purpose of the transfer is to qualify under this section the exchanges of property by other persons transferring property.

For the purpose of section 351, stock rights or stock warrants are not included in the term "stock or securities."

(2) The application of section 351 (a) is illustrated by the following examples:

Example (1). C owns a patent right worth $25,000 and D owns a manufacturing plant worth $75,000. C and D organize the R Corporation with an authorized capital stock of $100,000. C transfers his patent right to the R Corporation for $25,000 of its stock and D transfers his plant to the new corporation for $75,000 of its stock. No gain or loss to C or D is recognized.

Example (2). B owns certain real estate which cost him $50,000 in 1930, but which has a fair market value of $200,000 in 1955. He transfers the property to the N Corporation in 1955 for 78 percent of each class of stock of the corporation having a fair market value of $200,000, the remaining 22 percent of the stock of the corporation having been issued by the corporation in 1940 to other persons for cash. B realized a taxable gain of $150,000 on this transaction.

Example (3). E, an individual, owns property with a basis of $10,000 but which has a fair market value of $18,000. E also had rendered services valued at $2,000 to Corporation F. Corporation F has outstanding 100 shares of common stock all of which are held by G. Corporation F issues 400 shares of its common stock (having a fair market value of $20,000) to E in exchange for his property worth $18,000 and in compensation for the services he has rendered worth $2,000. Since immediately after the transaction, E owns 80 percent of the outstanding stock of Corporation F, no gain is recognized upon the exchange of the property for the stock. However, E realized $2,000 of ordinary income as compensation for services rendered to Corporation F.

(b) (1) Where property is transferred to a corporation by two or more persons in exchange for stock or securities, as described in paragraph (a) of this section, it is not required that the stock and securities received by each be substantially in proportion to his interest in the property immediately prior to the transfer. However, where the stock and securities received are received in disproportion to such interest, the entire transaction will be given tax effect in accordance with its true nature, and in appropriate cases the transaction may be treated as if the stock and securities had first been received in proportion and then some of such stock and securities had been used to make gifts (section 2501 and following), to pay compensation (section 61 (a) (1)), or to satisfy obligations of the transferor of any kind.

(2) The application of paragraph (b) (1) of this section may be illustrated as follows:

Example (1). Individuals A and B, father and son, organize a corporation with 100 shares of common stock to which A transfers property worth $8,000 in exchange for 20 shares of stock, and B transfers property worth $2,000 in exchange for 80 shares of stock. No gain or loss will be recognized under section 351. However, if it is determined that A in fact made a gift to B, such gift will be subject to tax under section 2501 and following. Similarly, if B had rendered services to A (such services having no relation to the assets transferred or to the business of the corporation) and the disproportion in the amount of stock received constituted the payment of compensation by A to B, B will be taxable upon the fair market value of the 60 shares of stock received as compensation for services rendered, and A will realize gain or loss upon the difference between the basis to him of the 60 shares and their fair market value at the time of the exchange.

Example (2). Individuals C and D each transferred, to a newly organized corporation, property having a fair market value of $4,500 in exchange for the issuance by the corporation of 45 shares of its capital stock to each transferor. At the same time, the corporation issued to E, an individual, 10 shares of its capital stock in payment for organizational and promotional services rendered by E for the benefit of the corporation. E transferred no property to the corporation. C and D were under no obligation to pay for E's services. No gain or loss is recognized to C or D. E received compensation taxable as ordinary income to the extent of the fair market value of the 10 shares of stock received by him.

§ 1.351–2 *Receipt of property.* (a) If an exchange would be within the provisions of section 351 (a) if it were not for the fact that the property received in exchange consists not only of property permitted by such subsection to be received without the recognition of gain, but also of other property or money, then the gain, if any, to the recipient shall be recognized, but in an amount not in excess of the sum of such money and the fair market value of such other property. No loss to the recipient shall be recognized.

(b) See section 357 and the regulations pertaining to that section for applicable rules as to the treatment of liabilities as "other property" in cases subject to section 351, where another party to the exchange assumes a liability, or acquires property subject to a liability.

(c) See sections 358 and 362 and the regulations pertaining to those sections for applicable rules with respect to the determination of the basis of stock, securities, or other property received in exchanges subject to section 351.

(d) See Part I of subchapter C and regulations pertaining to that part (§§ 1.301 to 1.318–4) for applicable rules with respect to the taxation of dividends where a distribution by a corporation of its stock or securities in connection with an exchange subject to section 351 (a) has the effect of the distribution of a taxable dividend.

§ 1.351–3 *Records to be kept and information to be filed.* (a) Every person who received the stock or securities of a controlled corporation, or other property as part of the consideration, in exchange for property under section 351, shall file with his income tax return for the taxable year in which the exchange is consummated a complete statement of all facts pertinent to such exchange, including—

(1) A description of the property transferred, or of his interest in such property, together with a statement of the cost or other basis thereof, adjusted to the date of transfer.

(2) With respect to stock of the controlled corporation received in the exchange, a statement of,—

(i) The kind of stock and preferences, if any;

(ii) The number of shares of each class received; and

(iii) The fair market value per share of each class at the date of the exchange.

(3) With respect to securities of the controlled corporation received in the exchange, a statement of—

(i) The principal amount and terms; and

(ii) The fair market value at the date of exchange.

(4) The amount of money received, if any.

(5) With respect to other property received—

(i) A complete description of each separate item;

(ii) The fair market value of each separate item at the date of exchange; and

(iii) In the case of a corporate shareholder, the adjusted basis of the other property in the hands of the controlled corporation immediately before the distribution of such other property to the corporate shareholder in connection with the exchange.

(6) With respect to liabilities of the transferors assumed by the controlled corporation, a statement of—

(i) The nature of the liabilities;

(ii) When and under what circumstances created;

(iii) The corporate business reason for assumption by the controlled corporation; and

(iv) Whether such assumption eliminates the transferor's primary liability.

(b) Every such controlled corporation shall file with its income tax return for the taxable year in which the exchange is consummated—

(1) A complete description of all the property received from the transferors.

(2) A statement of the cost or other basis thereof in the hands of the transferors adjusted to the date of transfer.

(3) The following information with respect to the capital stock of the controlled corporation—

(i) The total issued and outstanding capital stock immediately prior to and immediately after the exchange, with a complete description of each class of stock;

(ii) The classes of stock and number of shares issued to each transferor in the exchange, and the number of shares of each class of stock owned by each transferor immediately prior to and immediately after the exchange, and

(iii) The fair market value of the capital stock as of the date of exchange which was issued to each transferor.

(4) The following information with respect to securities of the controlled corporation—

(i) The principal amount and terms of all securities outstanding immediately prior to and immediately after the exchange,

(ii) The principal amount and terms of securities issued to each transferor in the exchange, with a statement showing each transferor's holdings of securities of the controlled corporation immediately prior to and immediately after the exchange,

(iii) The fair market value of the securities issued to the transferors on the date of the exchange, and

(iv) A statement as to whether the securities issued in the exchange are subordinated in any way to other claims against the controlled corporation.

(5) The amount of money, if any, which passed to each of the transferors in connection with the transaction.

(6) With respect to other property which passed to each transferor—

(i) A complete description of each separate item;

(ii) The fair market value of each separate item at the date of exchange, and

(iii) In the case of a corporate transferor, the adjusted basis of each separate item in the hands of the controlled corporation immediately before the distribution of such other property to the corporate transferor in connection with the exchange.

(7) The following information as to the transferor's liabilities assumed by the controlled corporation in the exchange—

(i) The amount and a description thereof,

(ii) When and under what circumstances created, and

(iii) The corporate business reason or reasons for assumption by the controlled corporation.

(c) Permanent records in substantial form shall be kept by every taxpayer who participates in the type of exchange described in section 351, showing the information listed above, in order to facilitate the determination of gain or loss from a subsequent disposition of stock or securities and other property, if any, received in the exchange.

Effects on Shareholders and Security Holders

§ 1.354 *Statutory provisions; exchanges of stock and securities in certain reorganizations.*

SEC. 354. *Exchanges of stock and securities in certain reorganizations*—(a) *General rule*—(1) *In general.* No gain or loss shall be recognized if stock or securities in a corporation a party to a reorganization are, in pursuance of the plan of reorganization, exchanged solely for stock or securities in such corporation or in another corporation a party to the reorganization.

(2) *Limitation.* Paragraph (1) shall not apply if—

(A) The principal amount of any such securities received exceeds the principal amount of any such securities surrendered, or

(B) Any such securities are received and no such securities are surrendered.

(3) *Cross reference.* For treatment of the exchange if any property is received which is not permitted to be received under this subsection (including an excess principal amount of securities received over securities surrendered), see section 356.

(b) *Exception*—(1) *In general.* Subsection (a) shall not apply to an exchange in pursuance of a plan of reorganization within the meaning of section 368 (a) (1) (D), unless—

(A) The corporation to which the assets are transferred acquires substantially all of the assets of the transferor of such assets; and

(B) The stock, securities, and other properties received by such transferor, as well as the other properties of such transferor, are distributed in pursuance of the plan of reorganization.

(2) *Cross reference.* For special rules for certain exchanges in pursuance of plans of reorganization within the meaning of section 368 (a) (1) (D), see section 355.

(c) *Certain railroad reorganizations.* Notwithstanding any other provision of this subchapter, subsection (a) (1) (and so much of section 356 as relates to this section) shall apply with respect to a plan of reorganization (whether or not a reorganization within the meaning of section 368 (a)) for a railroad approved by the Interstate Commerce Commission under section 77 of the Bankruptcy Act, or under section 20b of the Interstate Commerce Act, as being in the public interest.

§ 1.354–1 *Exchanges of stock and securities in certain reorganizations.* (a) Section 354 provides that under certain circumstances no gain or loss is recognized to a shareholder who surrenders his stock in exchange for other stock or to a security holder who surrenders his securities in exchange for stock. Section 354 also provides that under certain circumstances a security holder may surrender securities and receive securities in the same principal amount or in a lesser principal amount without the recognition of gain or loss to him. The exchanges to which section 354 applies must be pursuant to a plan of reorganization as provided in section 368 (a) and the stock and securities surrendered as well as the stock and securities received must be those of a corporation which is a party to the reorganization. Section 354 does not apply to exchanges pursuant to a reorganization described in section 368 (a) (1) (D) unless the transferor corporation—

(1) Transfers all or substantially all of its assets to a single corporation, and

(2) Distributes all of its remaining properties (if any) and the stock, securities and other properties received in the exchange to its shareholders or security holders in pursuance of the plan of reorganization. The fact that properties retained by the transferor corporation, or received in exchange for the properties transferred in the reorganization, are used to satisfy existing liabilities not represented by securities and which were incurred in the ordinary course of business before the reorganization does not prevent the application of section 354 to an exchange pursuant to a plan of reorganization defined in section 368 (a) (1) (D).

(b) Except in the case described in subsection (c), section 354 is not applicable to an exchange of stock or securities if a greater principal amount of securities is received than the principal amount of securities the recipient surrenders, or if securities are received and the recipient surrenders no securities. See, however, section 356 and regulations pertaining to such section. See also section 306 with respect to the receipt of preferred stock in a transaction to which section 354 is applicable.

(c) An exchange of stock or securities shall be subject to section 354 (a) (1) even though—

(1) Such exchange is not pursuant to a plan of reorganization described in section 368 (a), and

(2) The principal amount of the securities received exceeds the principal amount of the securities surrendered or if securities are received and no securities are surrendered—

if such exchange is pursuant to a plan of reorganization for a railroad corporation as defined in section 77 (m) of the Bankruptcy Act and is approved by the Interstate Commerce Commission under section 77 of such act or under section 20b of the Interstate Commerce Act as being in the public interest. Section 354 is not applicable to such exchanges if there is received property other than stock or securities. See, however, section 356 and regulations pertaining to such section.

(d) The rules of section 354 may be illustrated by the following examples:

Example (1). Pursuant to a reorganization under section 368 (a) to which Corporations T and W are parties, A, a shareholder in Corporation T, surrenders all his common stock in Corporation T in exchange for common stock of Corporation W. No gain or loss is recognized to A.

Example (2). Pursuant to a reorganization under section 368 (a) to which Corporations X and Y (which are not railroad corporations) are parties, B, a shareholder in Corporation X, surrenders all his stock in X for stock and securities in Y. Section 354 does not apply to this exchange. See, however, section 356.

Example (3). C, a shareholder in Corporation Z (which is not a railroad corporation), surrenders all his stock in Corporation Z in exchange for securities in Corporation Z. Whether or not this exchange is in connection with a recapitalization under section 368 (a) (1) (E), section 354 does not apply. See, however, section 302.

(e) For the purpose of section 354, stock rights or stock warrants are not included in the term "stock or securities".

§ 1.355 *Statutory provisions; distribution of stock and securities of a controlled corporation.*

SEC. 355. *Distribution of stock and securities of a controlled corporation*—(a) *Effect on distributees*—(1) *General rule.* If—

(A) A corporation (referred to in this section as the "distributing corporation")—

(i) Distributes to a shareholder, with respect to its stock, or

(ii) Distributes to a security holder, in exchange for its securities,

solely stock or securities of a corporation (referred to in this section as "controlled corporation") which it controls immediately before the distribution,

(B) The transaction was not used principally as a device for the distribution of the earnings and profits of the distributing corporation or the controlled corporation or both (but the mere fact that subsequent to the distribution stock or securities in one or more of such corporations are sold or exchanged by all or some of the distributees (other than pursuant to an arrangement negotiated or agreed upon prior to such distribution) shall not be construed to mean that the transaction was used principally as such a device),

(C) The requirements of subsection (b) (relating to active businesses) are satisfied, and

(D) As part of the distribution, the distributing corporation distributes—

(i) All of the stock and securities in the controlled corporation held by it immediately before the distribution, or

(ii) An amount of stock in the controlled corporation constituting control within the meaning of section 368 (c), and it is established to the satisfaction of the Secretary or his delegate that the retention by the distributing corporation of stock (or stock and securities) in the controlled corporation was not in pursuance of a plan having as one of its principal purposes the avoidance of Federal income tax,

then no gain or loss shall be recognized to (and no amount shall be includible in the income of) such shareholder or security holder on the receipt of such stock or securities.

(2) *Non pro rata distributions, etc.* Paragraph (1) shall be applied without regard to the following:

(A) Whether or not the distribution is pro rata with respect to all of the shareholders of the distributing corporation.

(B) Whether or not the shareholder surrenders stock in the distributing corporation, and

(C) Whether or not the distribution is in pursuance of a plan of reorganization (within the meaning of section 368 (a) (1) (D)).

(3) *Limitation.* Paragraph (1) shall not apply if—

(A) The principal amount of the securities in the controlled corporation which are received exceeds the principal amount of the securities which are surrendered in connection with such distribution, or

(B) Securities in the controlled corporation are received and no securities are surrendered in connection with such distribution.

For purposes of this section (other than paragraph (1) (D) of this subsection) and so much of section 356 as relates to this section, stock of a controlled corporation acquired by the distributing corporation by reason of any transaction which occurs within 5 years of the distribution of such stock and in which gain or loss was recognized in whole or in part, shall not be treated as stock of such controlled corporation, but as other property.

(4) *Cross reference.* For treatment of the distribution if any property is received which is not permitted to be received under this subsection (including an excess principal amount of securities received over securities surrendered), see section 356.

(b) *Requirements as to active business*—(1) *In general.* Subsection (a) shall apply only if either—

(A) The distributing corporation, and the controlled corporation (or, if stock of more than one controlled corporation is distributed, each of such corporations), is engaged immediately after the distribution in the active conduct of a trade or business, or

(B) Immediately before the distribution, the distributing corporation had no assets other than stock or securities in the controlled corporations and each of the controlled corporations is engaged immediately after the distribution in the active conduct of a trade or business.

(2) *Definition.* For purposes of paragraph (1), a corporation shall be treated as engaged in the active conduct of a trade or business if and only if—

(A) It is engaged in the active conduct of a trade or business, or substantially all of its assets consist of stock and securities of a corporation controlled by it (immediately after the distribution) which is so engaged,

(B) Such trade or business has been actively conducted throughout the 5-year period ending on the date of the distribution,

(C) Such trade or business was not acquired within the period described in subparagraph (B) in a transaction in which gain or loss was recognized in whole or in part, and

(D) Control of a corporation which (at the time of acquisition of control) was conducting such trade or business—

(i) Was not acquired directly (or through one or more corporations) by another corporation within the period described in subparagraph (B), or

(ii) Was so acquired by another corporation within such period, but such control was so acquired only by reason of transactions in which gain or loss was not recognized in whole or in part, or only by reason of such transactions combined with acquisitions before the beginning of such period.

§ 1.355–1 *Distribution of stock and securities of controlled corporation*—(a) *Application of section.* Section 355 provides for the separation, without recognition of gain or loss to the shareholders and security holders, of two or more existing businesses formerly operated, directly or indirectly, by a single corporation. It applies only to the separation of existing businesses which have been in active operation for at least five years, and which, in general, have been owned for at least five years by the corporation making the distribution of stock or of stock and securities. Section 355 does not apply to the division of a single business. For the purpose of section 355, stock rights or stock warrants are not included in the term "stock and securities".

(b) *Types of separations.* Section 355 is concerned with two general types of separations of businesses. The first is the distribution of the stock of an existing corporation. The second is the distribution of the stock of a new corporation which stock was received in exchange for the assets of a business previously operated by the distributing corporation. In both cases, this section contemplates the continued operation of the businesses existing prior to the separation.

(c) *Active business.* Section 355 is not applicable unless the controlled corporation and the distributing corporation are each engaged in the active conduct of a trade or business. For specific rules in this connection see section 355 (b) (1) and (2). Without regard to such rules, for purposes of section 355, a trade or business consists of a specific existing group of activities being carried on for the purpose of earning income or profit from only such group of activities, and the activities included in such group must include every operation which forms a part of, or a step in, the process of earning income or profit from such group. Such group of activities ordinarily must include the collection of income and the payment of expenses. It does not include—

(1) The holding for investment purposes of stock, securities, land or other property, including casual sales thereof (whether or not the proceeds of such sales are reinvested),

(2) The ownership and operation of land or buildings all or substantially all of which are used and occupied by the owner in the operation of a trade or business, or

(3) A group of activities which, while a part of a business operated for profit, are not themselves independently producing income even though such activities would produce income with the addition of other activities or with large increases in activities previously incidental or insubstantial.

(d) The following examples illustrate the application of the rules described in paragraph (c) of this section:

Example (1). Corporation A is engaged in the manufacture and sale of soap and detergents and owns investment securities. It proposes to place the investment securities in a new corporation and distribute the stock of such new corporation to its shareholders. The holding of investment securities does not constitute a trade or business.

Example (2). Corporation B is engaged in the business of manufacturing and selling hats in its own factory building. It proposes to transfer the factory building to a new corporation and distribute the stock of such new corporation to its shareholders. The activities in connection with the manufacturing of hats constitute a trade or business; but the operation of the factory building does not.

Example (3). Corporation C, a bank, owns an eleven-story downtown office building, the ground floor of which is occupied by it in the conduct of its banking business and the remaining ten floors of which it rents to various tenants. The ten floors are rented, managed and maintained by the real estate department of the bank. It is proposed to transfer the building to a new corporation and distribute the stock of such new corporation to the bank's shareholders. The activities in connection with banking constitute a trade or business as do also the activities in connection with the rental of the building.

Example (4). Corporation D, a bank, owns a two-story building in a suburban area, the ground floor and approximately one-half of the second floor of which is occupied by it in the conduct of its banking business. The remainder of the second floor is rented as storage space to a neighboring retail merchant. It is proposed to transfer the building to a new corporation and distribute the stock of such new corporation to the bank's shareholders. With respect to the rental of part of the second floor of its building, the bank is not engaged in the active conduct of a trade or business, such activity being only incidental to its banking business.

Example (5). Corporation E is engaged in the manufacture and sale of wood products. In connection with such manufacturing, it maintains a research department for its own use. It proposes to transfer the research department to a new corporation after which it will engage the services of the new corporation on a contract basis. The activities of the research department do not constitute a trade or business.

Example (6). Corporation F owns and rents an office building and owns vacant land. It proposes to transfer the vacant land to a new corporation and distribute the stock of such new corporation to its shareholders. The holding of the vacant land does not constitute a trade or business.

Example (7). Corporation G owns land on which it engages in the ranching business. Oil has been discovered in the area and it is apparent that oil may be found under the land on which the ranching activities are maintained. Corporation G has engaged in no activities in connection with the mineral rights. It proposes to transfer the mineral rights to a new corporation and distribute the stock of such new corporation to its shareholders. Corporation G is not engaged in an active trade or business with respect to the mineral rights.

Example (8). Corporation H manufactures and sells ice cream at a plant in State X and at a plant in State Y. Corporation H proposes to transfer the plant and related activities in State Y to a new corporation and distribute the stock of such new corporation to its shareholders. The activities in each State constitute a trade or business.

Example (9). Corporation I manufactures and sells ice cream in State X. It purchases land and constructs a new plant in State Y. After manufacturing and selling operations have commenced at the new plant, it proposes to transfer it to a new corporation and distribute the stock of such new corporation to its shareholders. The activities at the new plant constitute a trade or business which, however, has been in existence only since such activities began.

Example (10). Corporation J has owned and operated a men's retail clothing store in the downtown area of the City of R for seven years and has also owned and operated a men's retail clothing store in the suburban area of the City of R for nine years. The manager of each store directs its operations and makes the necessary purchases. No common warehouse is maintained. Corporation J proposes to transfer the store building, fixtures, and inventory of the suburban store to a new corporation and distribute the stock of such new corporation to the shareholders of Corporation J. The activities of each store constitute a trade or business which has been in existence for more than five years.

Example (11). Corporation K processes and sells meat products. It is proposed to separate the selling from the manufacturing activities by forming a separate corporation, L, to handle sales. Corporation K will transfer to Corporation L certain

physical assets pertaining to the sales function plus cash for working capital in exchange for the capital stock of Corporation L which will be distributed to the shareholders of Corporation K. Since the manufacturing and selling operations constitute only one integrated business, neither Corporation K nor Corporation L will be continuing the active conduct of a trade or business formerly conducted by Corporation K.

Example (12). Corporation M is engaged in the manufacture and sale of steel and steel products. In addition, Corporation M owns and operates a coal mine for the sole purpose of supplying its coal requirements in the manufacture of steel. It is proposed to transfer the coal mine to a new corporation and distribute the stock of such new corporation to the shareholders of Corporation M. The activities of Corporation M in connection with the operation of the coal mine do not constitute a trade or business, since such activities are not themselves independently producing income although a part of the business operated for profit.

Example (13). Corporation N manufactures steel containers for oil and oil products at a plant in State X and at a plant in State Y. Pursuant to a sales contract with Corporation O, Corporation N sells its entire product to Corporation O. Corporation N proposes to transfer the plant and related activities in State Y, together with that portion of the sales contract with Corporation O applicable to the sales of that plant to a new corporation and distribute the stock of such new corporation to its shareholders. The activities in each State constitute a trade or business before and after the transfer to the new corporation.

Example (14). Corporation P manufactures and sells steel containers for oil and oil products at a plant in State X and at a plant in State Y. Corporation P makes all of its sales through its wholly-owned subsidiary pursuant to a sales contract, by virtue of which the subsidiary acts either as principal or sales agent for Corporation P. Corporation P proposes to transfer the plant and related activities in State Y, together with that portion of the sales contract applicable to the sales of that plant to a new corporation and distribute the stock of such new corporation to its shareholders. The activities in each State constitute a trade or business before and after the transfer to the new corporation.

Example (15). Corporation Q manufactures electrical products at a plant in State X and at a plant in State Y. The sales of the electrical products produced by each plant are made by the corporation's sales office located at the plant in State X. Corporation Q proposes to transfer the plant and related activities in State Y, together with that portion of the facilities and personnel of the sales office allocable to the sales of the plant in State Y to a new corporation and distribute the stock of such new corporation to its shareholders. The activities in each state constitute a trade or business before and after the transfer to the new corporation.

Example (16). Corporation R manufactures and sells automobiles and operates an executive dining room primarily for the convenience of its executives. The dining room is managed and operated as a separate unit and the executives are charged for their meals. Corporation R derives a profit from the operation of the dining room. The activities connected with the executive dining room do not constitute a trade or business.

(e) For further examples of businesses operated by one corporation, see § 1.337–3 (d).

§ 1.355–2 *Limitations*—(a) *Property distributed.* The property distributed must consist solely of stock or stock and securities of a controlled corporation. If additional property (including an excess principal amount of securities received over securities surrendered) is received, see section 356.

(b) *Distribution of earnings and profits.* (1) The transaction must not have been used principally as a device for the distribution of the earnings and profits of the distributing corporation or of the controlled corporation or of both. If, pursuant to an arrangement negotiated or agreed upon prior to the distribution of stock or securities of the controlled corporation, part or all of the stock or securities of either corporation are sold or exchanged after the distribution, such sale or exchange will be evidence that the transaction was used principally as a device for the distribution of the earnings and profits of the distributing corportion or of the controlled corporation, or both. However, if the rules respecting continuity of interest contained in paragraph (c) of this section are not met, section 355 will not apply. If a sale of such stock or securities is made after the distribution and is not pursuant to an arrangement negotiated or agreed upon prior to the distribution, the mere fact of such sale is not determinative that the transactions was used principally as a device for the distribution of earnings and profits, but such fact will be evidence that the transaction was used principally as such a device.

(2) A sale is pursuant to an arrangement agreed upon prior to the distribution when enforcible rights to buy or to sell exist before such distribution. In any case in which a sale or exchange was discussed by the buyer and the seller before the distribution, but enforcible rights to buy or to sell did not exist before such distribution, the question whether an arrangement was negotiated within the meaning of section 355 (a) (1) (B) shall be determined from all the facts and circumstances.

(3) In determining whether a transaction was used principally as a device for the distribution of the earnings and profits of the distributing corporation or of the controlled corporation or both, consideration will be given to all of the facts and circumstances of the transaction. In particular, consideration will be given to the nature, kind and amount of the assets of both corporations (and corporations controlled by them) immediately after the transaction. The fact that at the time of the transaction substantially all of the assets of each of the corporations involved are and have been used in the active conduct of trades or businesses which meet the requirements of section 355 (b) will be considered evidence that the transaction was not used principally as such a device.

(c) *Business purpose.* The distribution by a corporation of stock or securities of a controlled corporation to its shareholders with respect to its own stock or to its security holders in exchange for its own securities will not qualify under section 355 where carried out for purposes not germane to the business of the corporation. The principal reason for this requirement is to limit the application of section 355 to certain specified distributions or exchanges with respect to the stock or securities of controlled corporations incident to such readjustment of corporate structures as is required by business exigencies and which, in general, effect only a readjustment of continuing interests in property under modified corporate forms. Section 355 contemplates a continuity of the entire business enterprise under modified corporate forms and a continuity of interest in all or part of such business enterprise on the part of those persons who, directly or indirectly, were the owners of the enterprise prior to the distribution or exchange. All the requisites of business and corporate purposes described under § 1.368 must be met to exempt a transaction from the recognition of gain or loss under this section.

(d) *Stock and securities distributed.* The distributing corporation must distribute—

(1) All of the stock and securities of the controlled corporation which it owns, or

(2) At least an amount of the stock which constitutes control as defined in section 368 (c). In such case all, or any part, of the securities of the controlled corporation may be distributed.

Where a part of either the stock or securities is retained under (2), it must be established to the satisfaction of the Commissioner that such retention was not in pursuance of a plan having as one of its principal purposes the avoidance of Federal income tax. Ordinarily, the business reasons (as distinguished from the desire to make a distribution of the earnings and profits) which support a distribution of stock and securities of a controlled corporation under paragraph (c) of this section will require the distribution of all of the stock and securities. If the distribution of all of the stock and securities of a controlled corporation would be treated to any extent as a distribution of "other property" under section 356, this fact does not tend to establish that the retention of any of such stock and securities is not in pursuance of a plan having as one of its principal purposes the avoidance of Federal income tax.

(e) *Principal amount of securities.* (1) Section 355 (a) (1) is not applicable if the principal amount of securities received exceeds the principal amount of securities surrendered or if securities are received and no securities are surrendered. In such cases, see section 356.

(2) If only stock is received in a transaction to which section 355 is applicable, the principal amount of securities surrendered, if any, and the par or stated value of stock is not relevant to the application of such section. For example: All of the stock of Corporation A is owned by X, an individual, and securities in the principal amount of $100,000 which were issued by Corporation A are owned by Y, an individual. Corporation A distributes all of the stock of a controlled corporation to Y in exchange for his securities. The par or stated value of the stock of the controlled corporation is $150,000. No gain or loss is recognized to Y upon the receipt of the stock of the controlled corporation.

(f) *Period of ownership.* (1) For the purposes of determining whether gain or loss will be recognized upon a distribution, stock of a controlled corporation acquired (in a transaction in which gain or loss is recognized, in whole or in part) within five years of the date of the distribution of such stock is treated as "other property." Section 355 does not apply to a transaction which includes a distribution of such stock. See section 356. The stock so acquired is "stock", however, for the purpose of the requirements respecting the distribution of stock of such controlled corporation provided in section 355 (a) (1) (D).

(2) Paragraph (f) (1) of this section may be illustrated by the following example:

Example. Corporation A has held 85 of the 100 outstanding shares of the stock of Corporation B for more than five years on the date of distribution. Six months before such date, it purchased 10 shares of such stock. If all of the stock of the controlled corporation owned by Corporation A is distributed, section 355 is not applicable to such distribution since the 10 shares would represent "other property." See, however, section 356. If, however, for proper business reasons it is decided to retain some of the stock of Corporation B, then the determination of the amount of such stock which must be distributed under section 355 (a) (1) (D) in order to constitute a distribution to which section 355 is applicable must be made by reference to all of the stock of the controlled corporation including the 10 shares acquired six months before such date and the 5 shares owned by others. Similarly, if, by the use of any agency, the distributing corporation acquires stock of the controlled corporation within five years of the date of distribution, for example, where another subsidiary purchases such stock, such stock will be treated as "other property." If Corporation A had held only 75 of the 100 outstanding shares of stock of Corporation B for more than five years on the date of distribution and had purchased the remaining 25 shares six months before such date, neither section 355 nor section 356 would be applicable.

(g) *Active businesses.* The rules of section 355 (b) and § 1.355–4, relating to active businesses, must be satisfied.

§ 1.355–3 *Non pro rata distributions, etc.* (a) The rule of section 355 (a) (1) prescribing that gain or loss will not be recognized applies whether or not the distribution is pro rata with respect to the interests of all the shareholders in the distributing corporation provided all other requirements of section 355 are satisfied. For example, if two individuals, A and B, own all of the stock of Corporation X which operates two active businesses, one business may be transferred to a new corporation in exchange for all of its stock and such stock distributed to either A or B in exchange for all of his stock of Corporation X. Similarly, if, in the above example, only a part of the stock of the new corporation is transferred to one of the shareholders in exchange for all of his stock of Corporation X and the balance of such stock is distributed to the other shareholder (whether or not such other shareholder surrenders stock in Corporation X), no gain or loss will be recognized. The same rule will be applicable if the stock of an existing controlled corporation is distributed to the shareholders even though such distribution is not pursuant to a plan of reorganization. Section 355 does not apply, however, if the substance of the transaction is merely an exchange between shareholders or security holders of stock or securities in one corporation for stock or securities in another corporation. For example, if two individuals, C and D, each own directly fifty percent of the stock of Corporation M and fifty percent of the stock of Corporation N, section 355 would not apply to a transaction in which C and D transfer all of their stock in Corporation M and Corporation N to a new corporation, P, for all of the stock of Corporation P, and Corporation P then distributes the stock of Corporation M to C and the stock of Corporation N to D.

(b) The stock of the controlled corporation which is distributed may consist of either common or preferred stock. See, however, section 306 with respect to the receipt of preferred stock in a transaction to which section 355 is applicable.

(c) The rule of section 355 (a) (1) prescribing that gain or loss will not be recognized applies whether or not the shareholder surrenders stock in the distributing corporation and whether or not the distribution is in pursuance of a plan of reorganization (within the meaning of section 368 (a) (1) (D)).

§ 1.355–4 *Active conduct of a trade or business.* (a) A distribution of stock or securities of a controlled corporation is subject to section 355 (a) only, if:

(1) The distributing corporation and the controlled corporation are each engaged in the active conduct of a trade or business immediately after the distribution of stock or securities of the controlled corporation; or

(2) Immediately before the distribution the distributing corporation had no assets other than stock or securities in the controlled corporations and each of the controlled corporations is engaged in the active conduct of a trade or business immediately after the distribution. In connection with the requirement of "no assets" a de minimis rule is applicable.

(3) These rules are illustrated by the following examples:

Example (1). Corporation A, prior to the distribution, operates an active business and owns all of the stock of Corporation B which also is engaged in the active conduct of a business. Corporation A distributes all of the stock of Corporation B to its shareholders, and both continue the operations of their separate businesses. The active business requirement of section 355 (b) (1) (A) is satisfied.

Example (2). The facts are the same as in example 1, except that Corporation A transfers all of its assets except the stock of Corporation B to a new corporation in exchange for all of its stock and transfers the stock of both controlled corporations to its shareholders. The active business requirement of section 355 (b) (1) (B) is satisfied.

(b) (1) Section 355 (b) (2) provides rules for determining whether any corporation is treated as engaged in the active conduct of a trade or business for purposes of ascertaining whether the distributing corporation and the controlled corporation meet the requirements of section 355 (b) (1). Under section 355 (b) (2) (A), a corporation is treated as engaged in the active conduct of a trade or business if it is itself engaged in such a trade or business or if substantially all of its assets consist of the stock and securities of a corporation or corporations controlled by it (immediately after the distribution) each of which is engaged in the active conduct of a trade or business. Regardless of whether the determination is based upon a corporation's own conduct of a trade or business or on the basis of its ownership of the stock of a corporation or corporations which conduct a trade or business, such trade or business must have been actively conducted for the five-year period ending on the date of distribution of the stock and securities of the controlled corporation the stock of which was distributed as provided in section 355 (b) (2) (B). Furthermore, such trade or business must not have been acquired by either corporation during such five-year period unless it was acquired in a transaction in which gain or loss was not recognized (section 355 (b) (2) (C)). In addition, under section 355 (b) (2) (D), such business must not have been indirectly acquired during such five-year period by means of the acquisition of control of another corporation in a transaction in which gain or loss was recognized. Thus, section 355 (b) (2) (D) requires that during the five-year period during which the trade or business must be actively conducted, such business cannot have been acquired, directly or indirectly, through another corporation by such other corporation or any of its predecessors in interest in a transaction in which gain or loss was recognized in whole or in part.

(2) Paragraph (b) (1) of this section may be illustrated by the following example:

Example. In 1956, Corporation B, having cash and other liquid assets and engaged in only one active business purchases all of the stock of Corporation A, also engaged in a single active business. Later in the same year, Corporation B in a "downstairs" statutory merger merges into Corporation A. In 1958, Corporation A places the assets of the active business formerly operated by Corporation B in a new subsidiary X. A distribution of the stock of Corporation X to the stockholders of Corporation A is not within the terms of section 355, since one of the active businesses had, in effect, been purchased less than five years prior to the distribution.

(3) For the purpose of determining whether such trade or business has been actively conducted throughout the five-year period described in section 355 (b) (2), the fact that during such five-year period such trade or business underwent change (for example, by the addition of new or the dropping of old products, changes in production capacity, and the like) shall be disregarded provided the changes are not of such a character as to constitute the acquisition of a new or different business.

§ 1.355–5 *Records to be kept and information to be filed.* (a) Every corporation that makes a distribution of stock or securities of a controlled corporation, as described in section 355, shall attach to its return for the year of the distribution a detailed statement setting forth such data as may be appropriate in order to show compliance with the provisions of such section.

(b) Every taxpayer who receives a distribution of stock or securities of a corporation that was controlled by a corporation in which he holds stock or securities shall attach to his return for the year in which such distribution is received a detailed statement setting forth such data as may be appropriate in order to show the applicability of section 355. Such statement shall include, but shall not be limited to, a description of the stock and securities surrendered (if any) and received, and the names and addresses of all of the corporations involved in the transaction.

§ 1.356 *Statutory provisions; receipt of additional consideration.*

SEC. 356. *Receipt of additional consideration*—(a) *Gain on exchanges*—(1) *Recognition of gain.* If—

(A) Section 354 or 355 would apply to an exchange but for the fact that

(B) The property received in the exchange consists not only of property permitted by section 354 or 355 to be received without the recognition of gain but also of other property or money,

then the gain, if any, to the recipient shall be recognized, but in an amount not in excess of the sum of such money and the fair market value of such other property.

(2) *Treatment as dividend.* If an exchange is described in paragraph (1) but has the effect of the distribution of a dividend, then there shall be treated as a dividend to each distributee such an amount of the gain recognized under paragraph (1) as is not in excess of his ratable share of the undistributed earnings and profits of the corporation accumulated after February 28, 1913. The remainder, if any, of the gain recognized under paragraph (1) shall be treated as gain from the exchange of property.

(b) *Additional consideration received in certain distributions.* If—

(1) Section 355 would apply to a distribution but for the fact that

(2) The property received in the distribution consists not only of property permitted by section 355 to be received without the recognition of gain, but also of other property or money,

then an amount equal to the sum of such money and the fair market value of such other property shall be treated as a distribution of property to which section 301 applies.

(c) *Loss.* If—

(1) Section 354 would apply to an exchange, or section 355 would apply to an exchange or distribution, but for the fact that

(2) The property received in the exchange or distribution consists not only of property permitted by section 354 or 355 to be received without the recognition of gain or loss, but also of other property or money,

then no loss from the exchange or distribution shall be recognized.

(d) *Securities as other property.* For purposes of this section—

(1) *In general.* Except as provided in paragraph (2), the term "other property" includes securities.

(2) *Exceptions*—(A) *Securities with respect to which nonrecognition of gain would be permitted.* The term "other property" does not include securities to the extent that, under section 354 or 355, such securities would be permitted to be received without the recognition of gain.

(B) *Greater principal amount in section 354 exchange.* If—

(i) In an exchange described in section 354 (other than subsection (c) thereof), securities of a corporation a party to the reorganization are surrendered and securities of any corporation a party to the reorganization are received, and

(ii) The principal amount of such securities received exceeds the principal amount of such securities surrendered,

then, with respect to such securities received, the term "other property" means only the fair market value of such excess. For purposes of this subparagraph and subparagraph (C), if no securities are surrendered, the excess shall be the entire principal amount of the securities received.

(C) *Greater principal amount in section 355 transaction.* If, in an exchange or distribution described in section 355, the principal amount of the securities in the controlled corporation which are received exceeds the principal amount of the securities in the distributing corporation which are surrendered, then, with respect to such securities received, the term "other property" means only the fair market value of such excess.

(e) *Exchanges for section 306 stock.* Notwithstanding any other provision of this section, to the extent that any of the other property (or money) is received in exchange for section 306 stock, an amount equal to the fair market value of such other property (or the amount of such money) shall be treated as a distribution of property to which section 301 applies.

(f) *Transactions involving gift or compensation.* For special rules for a transaction described in section 354, 355, or this section, but which—

(1) Results in a gift, see section 2501 and following, or

(2) Has the effect of the payment of compensation, see section 61 (a) (1).

§ 1.356–1 *Receipt of additional consideration in connection with an exchange.* (a) If in any exchange to which the provisions of section 354 or section 355 would apply except for the fact that there is received by the shareholders or the security holders other property (in addition to property permitted to be received without recognition of gain, by such sections) or money, then—

(1) The gain, if any, to the taxpayer shall be recognized in an amount not in excess of the sum of the money and the fair market value of the other property, but,

(2) The loss, if any, to the taxpayer from the exchange or distribution shall not be recognized to any extent.

(b) If the distribution of such other property or money by or on behalf of a corporation has the effect of the distribution of a dividend, then there shall be chargeable to each distributee (either an individual or a corporation)—

(1) As a dividend, such an amount of the gain recognized as is not in excess of the distributee's ratable share of the undistributed earnings and profits of the corporation accumulated after February 28, 1913, and

(2) As a gain from the exchange of property, the remainder of the gain so recognized.

(c) The rules of this section may be illustrated by the following examples:

Example (1). In an exchange to which the provisions of section 356 apply and to which section 354 would apply but for the receipt of property not permitted to be received without the recognition of gain or loss, A (either an individual or a corporation), received the following in exchange for a share of stock having an adjusted basis to him of $85:

One share of stock worth	$100
Cash	25
Other property (basis $25) fair market value	50
Total fair market value of consideration received	175
Adjusted basis of stock surrendered in exchange	85
Total gain	90
Gain to be recognized, limited to cash and other property received	75
A's pro rata share of earnings and profits accumulated after February 28, 1913 (taxable dividend)	30
Remainder to be treated as a gain from the exchange of property	45

Example (2). If, in example (1), A's stock had an adjusted basis to him of $200, he would have realized a loss of $25 on the exchange, which loss would not be recognized.

(d) Section 301 (b) (1) (B) and section 301 (d) (2) do not apply to a distribution of "other property" to a corporate shareholder if such distribution is within the provisions of section 356.

(e) See § 1.301–1 (l) for certain transactions which are not within the scope of section 356.

§ 1.356–2 *Receipt of additional consideration not in connection with an exchange.* (a) If, in a transaction to which section 355 would apply except for the fact that a shareholder (individual or corporate) receives property permitted by section 355 to be received without the recognition of gain, together with other property or money, without the surrender of any stock or securities of the distributing corporation, then the sum of the money and the fair market value of the other property as of the date of the distribution shall be treated as a distribution of property to which the rules of section 301 (other than section 301 (b) and section 301 (d)) apply. See section 358 for determination of basis of such other property.

(b) The rule under paragraph (a) of this section may be illustrated by the following examples:

Example (1). Individuals A and B each own 50 of the 100 outstanding shares of common stock of Corporation X. Corporation X owns all of the stock of Corporation Y, 100 shares. Corporation X distributes to each shareholder 50 shares of the stock of Corporation Y plus $100 cash without requiring the surrender of any shares of its own stock. The $100 cash received by each is treated as a distribution of property to which the rules of section 301 apply.

Example (2). If, in the above example, Corporation X distributes 50 shares of stock of Corporation Y to A and 30 shares of such stock plus $100 cash to B without requiring the surrender of any of its own stock, the amount of cash received by B is treated as a distribution of property to which the rules of section 301 apply.

§ 1.356–3 *Rules for treatment of securities as "other property."* (a) As a general rule, for purposes of section 356, the term "other property" includes securities. However, it does not include securities permitted under section 354 or section 355 to be received tax free. Thus, when securities are surrendered in a transaction to which section 354 or section 355 is applicable, the characterization of the securities received as "other property" does not include securities received where the principal amount of such securities does not exceed the principal amount of securities surrendered in the transaction. If a greater principal amount of securities is received in an exchange described in section 354 (other than subsection (c) thereof) or section 355 over the principal amount of securities surrendered, the term "other property" includes the fair market value of such excess principal amount as of the date of the exchange. If no securities are surrendered in exchange, the term "other property" includes the fair market value, as of the date of receipt, of the entire principal amount of the securities received.

(b) The following examples illustrate the application of the above rules:

Example (1). A, an individual, exchanged 100 shares of stock for 100 shares of stock and a security in the principal amount of $1,000 with a fair market value of $990. The amount of $990 is treated as "other property."

Example (2). B, an individual, exchanged 100 shares of stock and a security in the principal amount of $1,000 for 300 shares of stock and a security in the principal amount of $1,500. The security had a fair market value on the date of receipt of $1,575. The fair market value of the excess principal amount, or $525, is treated as "other property."

Example (3). C, an individual, exchanged a security in the principal amount of $1,000 for 100 shares of stock and a security in the principal amount of $900. No part of the security received is treated as "other property."

Example (4). D, an individual, exchanged a security in the principal amount of $1,000 for 100 shares of stock and a security in the principal amount of $1,200 with a fair market value of $1,100. The fair market value of the excess principal amount, or $183.33, is treated as "other property."

Example (5). E, an individual, exchanged a security in the principal amount of $1,000 for another security in the principal amount of $1,200 with a fair market value of $1,080. The fair market value of the excess principal amount, or $180, is treated as "other property."

Example (6). F, an individual, exchanged a security in the principal amount of $1,000 for two different securities each in the principal amount of $750. One of the securities had a fair market value of $750, the other had a fair market value of $600. One-third of the fair market value of each security ($250 and $200) is treated as "other property."

§ 1.356–4 *Exchanges for section 306 stock.* If, in a transaction to which section 356 is applicable, other property or money is received in exchange for section 306 stock, an amount equal to the fair market value of the property plus the money, if any, shall be treated as a distribution of property to which section 301 is applicable. The determination of whether section 306 stock is surrendered for other property (including money) is a question of fact to be decided under all of the circumstances of each case. Ordinarily, the other property (including money) received will first be treated as received in exchange for any section 306 stock owned by a shareholder prior to such transaction. For example, if a shareholder who owns a share of common stock (having a basis to him of $100) and a share of preferred stock which is section 306 stock (having a basis to him of $100) surrenders both shares in a transaction to which section 356 is applicable for one share of common stock having a fair market value of $80 and one $100 bond having a fair market value of $100, the bond will be deemed received in exchange for the section 306 stock and it will be treated as a distribution to which section 301 is applicable to the extent of its entire fair market value ($100).

§ 1.356–5 *Transactions involving gift or compensation.* With respect to transactions described in sections 354, 355, or 356, but which—

(a) Result in a gift, see section 2501 and following, and the regulations pertaining thereto, or

(b) Have the effect of the payment of compensation, see section 61 (a) (1), and the regulations pertaining thereto.

§ 1.357 *Statutory provisions; assumption of liability.*

SEC. 357. *Assumption of liability*—(a) *General rule.* Except as provided in subsections (b) and (c), if—

(1) The taxpayer receives property which would be permitted to be received under section 351, 361, or 371 without the recognition of gain if it were the sole consideration, and

(2) As part of the consideration, another party to the exchange assumes a liability of the taxpayer, or acquires from the taxpayer property subject to a liability,

then such assumption or acquisition shall not be treated as money or other property, and shall not prevent the exchange from being within the provisions of section 351, 361, or 371, as the case may be.

(b) *Tax avoidance purpose*—(1) *In general.* If, taking into consideration the nature of the liability and the circumstances in the light of which the arrangement for the assumption or acquisition was made, it appears that the principal purpose of the taxpayer with respect to the assumption or acquisition described in subsection (a)—

(A) Was a purpose to avoid Federal income tax on the exchange, or

(B) If not such purpose, was not a bona fide business purpose,

then such assumption or acquisition (in the total amount of the liability assumed or acquired pursuant to such exchange) shall, for purposes of section 351, 361, or 371 (as the case may be), be considered as money received by the taxpayer on the exchange.

(2) *Burden of proof.* In any suit or proceeding where the burden is on the taxpayer to prove such assumption or acquisition is not to be treated as money received by the taxpayer, such burden shall not be considered as sustained unless the taxpayer sustains such burden by the clear preponderance of the evidence.

(c) *Liabilities in excess of basis*—(1) *In general.* In the case of an exchange—

(A) To which section 351 applies, or

(B) To which section 361 applies by reason of a plan of reorganization within the meaning of section 368 (a) (1) (D),

if the sum of the amount of the liabilities assumed, plus the amount of the liabilities to which the property is subject, exceeds the total of the adjusted basis of the property transferred pursuant to such exchange, then such excess shall be considered as a gain from the sale or exchange of a capital asset or of property which is not a capital asset, as the case may be.

(2) *Exceptions.* Paragraph (1) shall not apply to any exchange to which—

(A) Subsection (b) (1) of this section applies, or

(B) Section 371 applies.

§ 1.357–1 *Assumption of liability*—(a) *General rule.* Section 357 (a) does not affect the rule that liabilities assumed are to be taken into account for the purpose of computing the amount of gain or loss realized under section 1001 upon an exchange. Section 357 (a) provides, subject to the exceptions and limitations specified in section 357 (b) and (c), that—

(1) Liabilities assumed are not to be treated as "other property or money" for the purpose of determining the amount of realized gain which is to be recognized under sections 351, 361, or 371, if the transactions would, but for the receipt of "other property or money" have been exchanges of the type described in any one of such sections; and

(2) If the only type of consideration received by the transferor in addition to that permitted to be received by sections 351, 361, or 371, consists of an assumption of liabilities, the transaction, if otherwise qualified, will be deemed to be within the provisions of sections 351, 361, or 371.

(b) *Application of general rule.* The application of paragraph (a) of this section may be illustrated by the following example:

Example. A, an individual, transfers to a controlled corporation property with an adjusted basis of $10,000 in exchange for stock of the corporation with a fair market value of $8,000, $3,000 cash, and the assumption by the corporation of indebtedness of A amounting to $4,000. A's gain is $5,000, computed as follows:

Stock received, fair market value	$8,000
Cash received	3,000
Liability assumed by transferee	4,000
Total consideration received	15,000
Less: Adjusted basis of property transferred	10,000
Gain realized	5,000

Assuming that the exchange falls within section 351 as a transaction in which the gain to be recognized is limited to "other property or money" received, the gain recognized to A will be limited to the $3,000 cash received, since, under the general rule of section 357 (a), the assumption of the $4,000 liability does not constitute "other property."

(c) *Tax avoidance purpose.* The benefits of section 357 (a) do not extend to any exchange involving an assumption of liabilities where it appears that the principal purpose of the taxpayer with respect to such assumption was to avoid Federal income tax on the exchange, or, if not such purpose, was not a bona fide business purpose. In such cases, the total amount of liabilities assumed or acquired pursuant to such exchange (and not merely a particular liability with respect to which the tax avoidance purpose existed) shall, for the

purpose of determining the amount of gain to be recognized upon the exchange in which the liabilities are assumed or acquired, be treated as money received by the taxpayer upon the exchange. Thus, if in the example set forth in paragraph (b) of this section, the principal purpose of the assumption of the $4,000 liability was to avoid tax on the exchange, or was not a bona fide business purpose, then the amount of gain recognized would be $5,000. In any suit or proceeding where the burden is on the taxpayer to prove that an assumption of liabilities is not to be treated as "other property or money" under section 357, which is the case if the Commissioner determines that the taxpayer's purpose with respect thereto was a purpose to avoid Federal income tax on the exchange or was not a bona fide business purpose, and the taxpayer contests such determination by litigation, the taxpayer must sustain such burden by the clear preponderance of the evidence. Thus, the taxpayer must prove his case by such a clear preponderance of all the evidence that the absence of a purpose to avoid Federal income tax on the exchange, or the presence of a bona fide business purpose, is unmistakable.

§ 1.357–2 *Liabilities in excess of basis.* (a) Section 357 (c) provides in general that in an exchange to which section 351 (relating to a transfer to a corporation controlled by the transferor) is applicable, or to which section 361 (relating to the nonrecognition of gain or loss to corporations) is applicable by reason of a section 368 (a) (1) (D) reorganization, if the sum of the amount of liabilities assumed plus the amount of liabilities to which the property is subject, exceeds the total of the adjusted basis of the property transferred pursuant to such exchange, then such excess shall be considered as a gain from the sale or exchange of a capital asset or of property which is not a capital asset as the case may be. Thus, if an individual transfers, under section 351, properties having a total basis in his hands of $20,000, one of which has a basis of $10,000 but is subject to a mortgage of $30,000, to a corporation controlled by him, such individual will be subject to tax with respect to $10,000, the excess of the amount of the liability over the total adjusted basis of all the properties in his hands. The same result will follow whether or not the liability is assumed by the transferee. The determination of whether a gain resulting from the transfer of capital assets is long or short-term capital gain shall be made by reference to the holding period to the transferor of the assets transferred. An exception to the general rule of section 357 (c) is made (1) for any exchange as to which under section 357 (b) (relating to assumption of liabilities for tax avoidance purposes) the entire amount of the liabilities is treated as money received, and (2) for an exchange to which section 371 (relating to reorganizations in certain receivership and bankruptcy proceedings) is applicable.

(b) The application of paragraph (a) of this section may be illustrated by the following examples:

Example (1). If all such assets transferred are capital assets and if half the assets (ascertained by reference to their fair market value at the time of the transfer) have been held for less than 6 months and the remaining half for more than 6 months, half the excess of the amount of the liability over the total of the adjusted basis of the property transferred pursuant to the exchange shall be treated as short-term capital gain, and the remaining half shall be treated as long-term capital gain.

Example (2). If half of the assets (ascertained by reference to their fair market value at the time of the transfer) transferred are capital assets and half are assets other than capital assets, then half of the excess of the amount of the liability over the total of the adjusted basis of the property transferred pursuant to the exchange shall be treated as capital gain, and the remaining half shall be treated as gain from the sale or exchange of assets other than capital assets.

§ 1.358 *Statutory provisions; basis to distributees.*

SEC. 358. *Basis to distributees*—(a) *General rule.* In the case of an exchange to which section 351, 354, 355, 356, 361 or 371 (b) applies—

(1) *Nonrecognition property.* The basis of the property permitted to be received under such section without the recognition of gain or loss shall be the same as that of the property exchanged—

(A) Decreased by—

(i) The fair market value of any other property (except money) received by the taxpayer, and

(ii) The amount of any money received by the taxpayer, and

(B) Increased by—

(i) The amount which was treated as a dividend, and

(ii) The amount of gain to the taxpayer which was recognized on such exchange (not including any portion of such gain which was treated as a dividend).

(2) *Other property.* The basis of any other property (except money) received by the taxpayer shall be its fair market value.

(b) *Allocation of basis*—(1) *In general.* Under regulations prescribed by the Secretary or his delegate, the basis determined under subsection (a) (1) shall be allocated among the properties permitted to be received without the recognition of gain or loss.

(2) *Special rule for section 355.* In the case of an exchange to which section 355 (or so much of section 356 as relates to section 355) applies, then in making the allocation under paragraph (1) of this subsection, there shall be taken into account not only the property so permitted to be received without the recognition of gain or loss, but also the stock or securities (if any) of the distributing corporation which are retained, and the allocation of basis shall be made among all such properties.

(c) *Section 355 transactions which are not exchanges.* For purposes of this section, a distribution to which section 355 (or so much of section 356 as relates to section 355) applies shall be treated as an exchange, and for such purposes the stock and securities of the distributing corporation which are retained shall be treated as surrendered, and received back, in the exchange.

(d) *Assumption of liability.* Where, as part of the consideration to the taxpayer, another party to the exchange assumed a liability of the taxpayer or acquired from the taxpayer property subject to a liability, such assumption or acquisition (in the amount of the liability) shall, for purposes of this section, be treated as money received by the taxpayer on the exchange.

(e) *Exception.* This section shall not apply to property acquired by a corporation by the issuance of its stock or securities as consideration in whole or in part for the transfer of the property to it.

§ 1.358–1 *Basis to distributees.* (a) In the case of an exchange or distribution to which section 354, 355, or 371 (b) applies in which, under the law applicable to the year in which the exchange is made, only nonrecognition property is received, the sum of the basis of all of the stock and securities in the corporation whose stock and securities are exchanged or with respect to which the distribution is made, held immediately after the transaction, plus the basis of all stock and securities received in the transaction shall be the same as the basis of all the stock and securities in such corporation held immediately before the transaction allocated in the manner described in section § 1.358–2. In the case of an exchange to which section 351 or 361 applies in which, under the law applicable to the year in which the exchange was made, only nonrecognition property is received, the basis of all the stock and securities received in the exchange shall be the same as the basis of all property exchanged therefor. If in an exchange or distribution to which section 351, 356, 361, or 371 (b) applies both nonrecognition property and "other property" are received, the basis of all the property except "other property" held after the transaction shall be determined as described in the preceding two sentences decreased by the sum of the money and the fair market value of the "other property" (as of the date of the transaction) and increased by the sum of the amount treated as a dividend (if any) and the amount of the gain recognized on the exchange, but the term "gain" as here used does not include any portion of the recognized gain that was treated as a dividend. The basis of the "other property" is its fair market value as of the date of the transaction.

(b) The application of paragraph (a) of this section may be illustrated by the following example:

Example. A purchased a share of stock in Corporation X in 1935 for $150. Since that date he has received distributions out of other than earnings and profits (as defined in section 316) totalling $60, so that his adjusted basis for the stock is $90. In a transaction qualifying under section 356, A exchanged this share for one share in Corporation Y, worth $100, cash in the amount of $10, and other property with a fair market value of $30. The exchange had the effect of the distribution of a dividend. A's ratable share of the earnings and profits of Corporation X accumulated after February 28, 1913, was $5. A realized a gain of $50 on the exchange, but the amount recognized is limited to $40, the sum of the cash received and the fair market value of the other property. Of the gain recognized, $5 is taxable as a dividend, and $35 as a gain from the exchange of property. The basis to A of the one share of stock of Corporation Y is $90, that is, the adjusted basis of the one share of stock of Corporation X ($90), decreased by the sum of the cash received ($10) and the fair market value of the other property received ($30) and increased by the sum of the amount treated as a dividend ($5) and the amount treated as a gain from the exchange of property ($35). The basis of the other property received is $30.

§ 1.358–2 *Allocation of basis among nonrecognition property.* (a) (1) As used in this paragraph the term "stock" means stock which is not "other property" under section 356 or 371 (b), stock with respect to which a distribution is made, and, in the case of a surrender of part of the stock of a particular class, the retained part of such stock. The term "securities" means securities (including, where appropriate, fractional parts of securities) which are not "other property" under section 356 or 371 (b) and in the case of a surrender of part of the securities of a particular class, the retained part of such securities. Stock, or securities, as the case may be, which differ either because they are in different corporations or because the rights attributable to them differ (although they are in the same corporation) are considered different classes of stock or securities, as the case may be, for purposes of this section.

(2) If as the result of an exchange or distribution under the terms of section 354, 355, 356 or 371 (b) a shareholder who owned stock of only one class before the transaction owns stock of two or more classes after the transaction, then the basis of all the stock held before the transaction (as adjusted under § 1.358–1) shall be allocated among the stock of all classes (whether or not such stock was received in the transaction) held immediately after the transaction in proportion to the fair market values of the stock of each class.

(3) If as the result of an exchange under the terms of section 354, 355, 356 or 371 (b) a security holder who owned only securities, all of one class, before the transaction, owns securities or stock of more than one class, or owns both stock and securities, then the basis of all the securities held before the transaction (as adjusted under § 1.358–1) shall be allocated among all the stock and securities (whether or not received in the transaction) held immediately after the transaction in proportion to the fair market values of the stock of each class and the securities of each class.

(4) In every case in which, before the transactions, a person owned stock of more than one class or securities of more than one class or owned both stock and securities, a determination must be made, upon the basis of all the facts, of the stock or securities received with respect to stock and securities of each class held (whether or not surrendered). The allocation described in subparagraph (2) of this paragraph shall be separately made as to the stock of each class with respect to which there is an exchange or distribution and the allocation described in subparagraph (3) of this paragraph shall be separately made with respect to the securities of each class, part or all of which are surrendered in the exchange.

(5) Notwithstanding the provisions of subparagraphs (2), (3) and (4) of this paragraph, in any case in which a plan of recapitalization under section 368 (a) (1) (E) provides that each holder of stock or securities of a particular class shall have an option to surrender some or none of such stock or securities in exchange for stock or securities, and a shareholder or security holder exchanges an identifiable part of his stock or securities, the basis of the part of the stock or securities retained shall remain unchanged and shall not be taken into account in determining the basis of the stock or securities received.

(b) (1) As used in this paragraph the term "stock" refers only to stock which is not "other property" under section 351 or 361 and the term "securities" refers only to securities which are not "other property" under section 351 or 361.

(2) If in an exchange to which section 351 or 361 applies property is transferred to a corporation and the transferor receives stock or securities of more than one class or receives both stock and securities, then the basis of the property transferred (as adjusted under § 1.358–1) shall be allocated among all of the stock and securities received in proportion to the fair market values of the stock of each class and the securities of each class.

(c) The application of paragraphs (a) and (b) of this section may be illustrated by the following examples:

Example (1). A, an individual, owns stock in Corporation X with an adjusted basis of $1,000. In a transaction qualifying under section 356 (so far as such section relates to section 354), he exchanged this stock for 20 shares of stock of Corporation Y worth $1,200 and securities of Corporation Y worth $400. A realizes a gain of $600 of which $400 is recognized. The adjusted basis in A's hands of each share of the stock of Corporation Y is $50 determined by allocating the basis of the stock of Corporation X ratably to the stock of Corporation Y received in the exchange. The securities of Corporation Y have a basis in the hands of A of $400.

Example (2). B, an individual, owns a security in the principal amount of $10,000 with a basis of $5,000. In a transaction to which section 354 is applicable, he exchanges this security for four securities in the principal amount of $750 each, worth $800 each, four securities in the principal amount of $750 each, worth $600 each, class A common stock worth $1,000, and class B common stock worth $400. B realizes a gain of $2,000 none of which is recognized. The basis of his original security, $5,000, will be allocated 32/70ths to the four securities worth $800, 24/70ths to the four securities worth $600, 10/70ths to the class A common stock, and 4/70ths to the class B common stock.

Example (3). C, an individual, owns stock of Corporation Y with a basis of $5,000 and owns a security issued by Corporation Y in the principal amount of $5,000 with a basis of $5,000. In a transaction to which section 354 is applicable, he exchanges the stock of Corporation Y for stock of Corporation Z with a value of $6,000, and he exchanges the security of Corporation Y for stock of Corporation Z worth $1,500 and a security of Corporation Z in the principal amount of $4,500 worth $4,500. No gain is recognized to C on either exchange. The basis of the stock of Corporation Z received for the stock of Corporation Y is $5,000. The bases of the stock and security of Corporation Z received in exchange for the security of Corporation Y are $1,250 and $3,750, respectively.

Example (4). D, an individual, owns stock in Corporation M with a basis of $15,000, worth $40,000, and owns a security issued by Corporation M in the principal amount of $5,000 with a basis of $4,000. In a transaction qualifying under section 356 (so far as such section relates to section 355), he exchanges the security of Corporation M for a security of Corporation O (a controlled corporation) in the principal amount of $5,000, worth $5,000, and exchanges one-half of his stock of Corporation M for stock of Corporation O worth $15,000 and a security of Corporation O in the principal amount of $5,000, worth $5,000. All of the stock and securities of Corporation O are distributed pursuant to the transaction. D realizes a gain of $12,500 on the exchange of the stock of Corporation M for the stock and security of Corporation O of which $5,000 is recognized. D also realizes a gain of $1,000 on the exchange of a security of Corporation M for a security of Corporation O, none of which is recognized. The basis of his stock of Corporation M held before the transaction is allocated 20/35ths to the stock of Corporation M held after the transaction and 15/35ths to the stock of Corporation O. The basis of the security of Corporation O received in exchange for his security of Corporation M is $4,000, the basis of the security of Corporation M exchanged. The basis of the security of Corporation O received with respect to D's stock of Corporation M is $5,000, its fair market value.

§ 1.358–3 *Treatment of assumption of liabilities.* (a) For purposes of section 358, where a party to the exchange assumes a liability of a distributee or acquires from him property subject to a liability, the amount of such liability is to be treated as money received by the distributee upon the exchange, whether or not the assumption of liabilities resulted in a recognition of gain or loss to the taxpayer under the law applicable to the year in which the exchange was made.

(b) The application of paragraph (a) of this section may be illustrated by the following examples:

Example (1). A, an individual, owns property with an adjusted basis of $100,000 on which there is a purchase money mortgage of $25,000. On December 1, 1954, A organizes Corporation X to which he transfers the property in exchange for all the stock of Corporation X and the assumption by Corporation X of the mortgage. The capital stock of the Corporation X has a fair market value of $150,000. Under sections 351 and 357, no gain or loss is recognized to A. The basis in A's hands of the stock of Corporation X is $75,000, computed as follows:

Adjusted basis of property transferred	$100,000
Less: Amount of money received (amount of liabilities assumed)	25,000
Basis of Corporation X stock to A	75,000

Example (2). A, an individual, owns property with an adjusted basis of $25,000 on which there is a mortgage of $50,000. On December 1, 1954, A organizes Corporation X to which he transfers the property in exchange for all the stock of Corporation X and the assumption by Corporation X of the mortgage. The stock of Corporation X has a fair market value of $50,000. Under sections 351 and 357, gain is recognized to A in the amount of $25,000. The basis in A's hands of the stock of Corporation X is zero, computed as follows:

Adjusted basis of property transferred	$25,000
Less: Amount of money received (amount of liabilities)	−50,000
Plus: Amount of gain recognized to taxpayer	25,000
Basis of Corporation X stock to A	0

§ 1.358–4 *Exception.* Section 358 does not apply in determining the basis of property acquired by a corporation by the issuance of its stock or securities (or by the issuance of stock or securities of another corporation which is in control of such corporation) as the consideration in whole or in part for the transfer of the property to it. See section 362 and the regulations pertaining to that section for rules relating to basis to corporations of property acquired in such cases.

Effects on Corporation

§ 1.361 *Statutory provisions; nonrecognition of gain or loss to corporations.*

SEC. 361. *Nonrecognition of gain or loss to corporations*—(a) *General rule.* No gain or loss shall be recognized if a corporation a party to a reorganization exchanges property, in pursuance of the plan of reorganization, solely for stock or securities in another corporation a party to the reorganization.

(b) *Exchanges not solely in kind*—(1) *Gain.* If subsection (a) would apply to an exchange but for the fact that the property received in exchange consists not only of stock or securities permitted by subsection (a) to be received without the recognition of gain, but also of other property or money, then—

(A) If the corporation receiving such other property or money distributes it in pursuance of the plan of reorganization, no gain to the corporation shall be recognized from the exchange, but

(B) If the corporation receiving such other property or money does not distribute it in pursuance of the plan of reorganization, the gain, if any, to the corporation shall be recognized, but in an amount not in excess of the sum of such money and the fair market value of such other property so received, which is not so distributed.

(2) *Loss.* If subsection (a) would apply to an exchange but for the fact that the property received in exchange consists not only of property permitted by subsection (a) to be received without the recognition of gain or loss, but also of other property or money, then no loss from the exchange shall be recognized.

§ 1.361–1 *Nonrecognition of gain or loss to corporations.* Section 361 provides the general rule that no gain or loss shall be recognized if a corporation, a party to a reorganization, exchanges property in pursuance of the plan of reorganization solely for stock or securities in another corporation, a party to the reorganization. This provision includes only stock and securities received in connection with a reorganization defined in section 368 (a). It also includes nonvoting stock and securities in a corporation, a party to a reorganization, received in a transaction to which section 368 (a) (1) (C) is applicable only by reason of section 368 (a) (2) (B).

§ 1.362 *Statutory provisions; basis to corporations.*

SEC. 362. *Basis to corporations*—(a) *Property acquired by issuance of stock or as paid-in surplus.* If property was acquired on or after June 22, 1954, by a corporation—

(1) In connection with a transaction to which section 351 (relating to transfer of property to corporation controlled by transferor) applies, or

(2) As paid-in surplus or as a contribution to capital,

then the basis shall be the same as it would be in the hands of the transferor, increased in the amount of gain recognized to the transferor on such transfer.

(b) *Transfers to corporations.* If property was acquired by a corporation in connection with a reorganization to which this part applies, then the basis shall be the same as it would be in the hands of the transferor, increased in the amount of gain recognized to the transferor on such transfer. This subsection shall not apply if the property acquired consists of stock or securities in a corporation a party to the reorganization, unless acquired by the issuance of stock or securities of the transferee as the consideration in whole or in part for the transfer.

(c) *Special rule for certain contributions to capital*—(1) *Property other than money.* Notwithstanding subsection (a) (2), if property other than money—

(A) Is acquired by a corporation, on or after June 22, 1954, as a contribution to capital, and

(B) Is not contributed by a shareholder as such, then the basis of such property shall be zero.

(2) *Money.* Notwithstanding subsection (a) (2), if money—

(A) Is received by a corporation, on or after June 22, 1954, as a contribution to capital, and

(B) Is not contributed by a shareholder as such, then the basis of any property acquired with such money during the 12-month period beginning on the day the contribution is received shall be reduced by the amount of such contribution. The excess (if any) of the amount of such contribution over the amount of the reduction under the preceding sentence shall be applied to the reduction (as of the last day of the period specified in the preceding sentence) of the basis of any other property held by the taxpayer. The particular properties to which the reductions required by this paragraph shall be allocated shall be determined under regulations prescribed by the Secretary or his delegate.

§ 1.362–1 *Basis to corporations.* Section 362 provides, as a general rule, that if property was acquired on or after June 22, 1954, by a corporation in connection with (a) a transaction to which section 351 (relating to transfer of property to corporation controlled by transferor) applies, (b) as paid-in surplus or as a contribution to capital, or (c) in connection with a reorganization to which Part III of Subchapter C applies, then the basis shall be the same as it would be in the hands of the transferor, increased in the amount of gain recognized to the transferor on such transfer. Section 362 does not apply if the property acquired consists of stock or securities in a corporation a party to the reorganization, unless acquired by the issuance of stock or securities of the transferee as the consideration in whole or in part for the transfer. (See also § 1.362–2.)

§ 1.362–2 *Certain contributions to capital.* The following rules shall be used in the application of section 362 (c):

(a) Property deemed to be acquired with contributed money shall be that property, if any, the acquisition of which was the purpose motivating the contribution;

(b) In the case of an excess of the amount of money contributed over the cost of the property deemed to be acquired with such money (as defined in paragraph (a) of this section) such excess shall be applied to the reduction of the basis (but not below zero) of other properties held by the corporation, on the last day of the 12-month period beginning on the day the contribution is received, in the following order—

(1) All property of a character subject to an allowance for depreciation (not including any properties as to which a deduction for amortization is allowable),

(2) Property with respect to which a deduction for amortization is allowable,

(3) Property with respect to which a deduction for depletion is allowable under section 611 but not under section 613, and

(4) All other remaining properties.

The reduction of the basis of each of the properties within each of the above categories shall be made in proportion to the relative bases of such properties.

(c) With the consent of the Commissioner, the taxpayer may, however, have the basis of the various units of property within a particular category adjusted in a manner different from the general rule set forth in paragraph (b) of this section. Variations from such rule may, for example, involve adjusting the basis of only certain units of the taxpayer's property within a given category. A request for variations from the general rule should be filed by the taxpayer with its return for the taxable year for which the transfer of the property has occurred.

§ 1.363 *Statutory provisions; effect on earnings and profits.*

SEC. 363. *Effect on earnings and profits.* For rules relating to the effect on earnings and profits of transactions to which this part applies, see sections 312 and 381.

Special Rule; Definitions

§ 1.367 *Statutory provisions; foreign corporations.*

SEC. 367. *Foreign corporations.* In determining the extent to which gain shall be recognized in the case of any of the exchanges described in section 332, 351, 354, 355, 356, or 361, a foreign corporation shall not be considered as a corporation unless, before such exchange, it has been established to the satisfaction of the Secretary or his delegate that such exchange is not in pursuance of a plan having as one of its principal purposes the avoidance of Federal income taxes. For purposes of this section, any distribution described in section 355 (or so much of section 356 as relates to section 355) shall be treated as an exchange whether or not it is an exchange.

§ 1.367–1 *Foreign corporations.* Whether any one of the exchanges or distributions described in section 332, 351, 354, 355, 356, or 361, involving a foreign corporation, is in pursuance of a plan having as one of its principal purposes the avoidance of Federal income tax, is a question of fact. In any such case if a taxpayer desires to establish that an exchange or distribution is not in pursuance of such a plan, a statement under oath of the facts and circumstances relating to the plan under which the exchange or distribution is to be made, together with a copy of the plan, shall be forwarded to the Commissioner of Internal Revenue, Washington 25, D. C., for a ruling. A letter setting forth the Commissioner's determination will be mailed to the taxpayer. If the Commissioner determines that the exchange or distribution is not in pursuance of a plan having as one of its principal purposes the avoidance of Federal income tax, the taxpayer should retain a copy of the Commissioner's letter as authority for treating the foreign corporation as a corporation in determining the extent to which gain is recognized from the exchange or distribution. If the transaction is not carried out in accordance with the plan submitted, the Commissioner's approval will not render the transaction tax-free.

§ 1.368 *Statutory provisions; definitions relating to corporate reorganizations.*

SEC. 368. *Definitions relating to corporate reorganizations*—(a) *Reorganization*—(1) *In general.* For purposes of parts I and II and this part, the term "reorganization" means—

(A) A statutory merger or consolidation;

(B) The acquisition by one corporation, in exchange solely for all or a part of its voting stock, of stock of another corporation if, immediately after the acquisition, the acquiring corporation has control of such other corporation (whether or not such acquiring corporation had control immediately before the acquisition);

(C) The acquisition by one corporation, in exchange solely for all or a part of its voting stock (or in exchange solely for all or a part of the voting stock of a corporation which is in control of the acquiring corporation), of substantially all of the properties of another corporation, but in determining whether the exchange is solely for stock the assumption by the acquiring corporation of a liability of the other, or the fact that property acquired is subject to a liability, shall be disregarded;

(D) A transfer by a corporation of all or a part of its assets to another corporation if immediately after the transfer the transferor, or one or more of its shareholders (including persons who were shareholders immediately before the transfer), or any combination thereof, is in control of the corporation to which the assets are transferred; but only if, in pursuance of the plan, stock or securities of the corporation to which the assets are transferred are distributed in a transaction which qualifies under section 354, 355, or 356;

(E) A recapitalization; or

(F) A mere change in identity, form, or place of organization, however effected.

(2) *Special rules relating to paragraph (1)—(A) Reorganizations described in both paragraph (1) (C) and paragraph (1) (D).* If a transaction is described in both paragraph (1) (C) and paragraph (1) (D), then, for purposes of this subchapter, such transaction shall be treated as described only in paragraph (1) (D).

(B) *Additional consideration in certain paragraph (1) (C) cases.* If—

(i) One corporation acquires substantially all of the properties of another corporation,

(ii) The acquisition would qualify under paragraph (1) (C) but for the fact that the acquiring corporation exchanges money or other property in addition to voting stock, and

(iii) The acquiring corporation acquires, solely for voting stock described in paragraph (1) (C), property of the other corporation having a fair market value which is at least 80 percent of the fair market value of all of the property of the other corporation,

then such acquisition shall (subject to subparagraph (A) of this paragraph) be treated as qualifying under paragraph (1) (C). Solely for the purpose of determining whether clause (iii) of the preceding sentence applies, the amount of any liability assumed by the acquiring corporation, and the amount of any liability to which any property acquired by the acquiring corporation is subject, shall be treated as money paid for the property.

(C) *Transfers of assets to subsidiaries in certain paragraph (1) (A) and (1) (C) cases.* A transaction otherwise qualifying under paragraph (1) (A) or paragraph (1) (C) shall not be disqualified by reason of the fact that part or all of the assets which were acquired in the transaction are transferred to a corporation controlled by the corporation acquiring such assets.

(b) *Party to a reorganization.* For purposes of this part, the term "a party to a reorganization" includes—

(1) A corporation resulting from a reorganization, and

(2) Both corporations, in the case of a reorganization resulting from the acquisition by one corporation of stock or properties of another.

In the case of a reorganization qualifying under paragraph (1) (C) of subsection (a), if the stock exchanged for the properties is stock of a corporation which is in control of the acquiring corporation, the term "a party to a reorganization" includes the corporation so controlling the acquiring corporation. In the case of a reorganization qualifying under paragraph (1) (A) or (1) (C) of subsection (a) by reason of paragraph (2) (C) of subsection (a), the term "a party to a reorganization" includes the corporation controlling the corporation to which the acquired assets are transferred.

(c) *Control.* For purposes of part I (other than section 304), part II, and this part, the term "control" means the ownership of stock possessing at least 80 percent of the total combined voting power of all classes of stock entitled to vote and at least 80 percent of the total number of shares of all other classes of stock of the corporation.

§ 1.368–1 *Purpose and scope of exception of reorganization exchanges*—(a) *Reorganizations.* As used in the regulations under Parts I, II, and III of subchapter C of the Internal Revenue Code of 1954 (§§ 1.301 to 1.368–3) the terms "reorganization" and "party to a reorganization" mean only a reorganization or a party to a reorganization as defined in subsections (a) and (b) of section 368. With respect to insolvency reorganizations, see part IV of subchapter C of the Internal Revenue Code of 1954.

(b) *Purpose.* Under the general rule, upon the exchange of property, gain or loss must be accounted for if the new property differs in a material particular, either in kind or in extent, from the old property. The purpose of the reorganization provisions of the Internal Revenue Code is to except from the general rule certain specifically described exchanges incident to such readjustments of corporate structures made in one of the particular ways specified in the Code, as are required by business exigencies and which effect only a readjustment of continuing interest in property under modified corporate forms. Requisite to a reorganization under the Code are a continuity of the business enterprise under the modified corporate form, and (except as provided in section 368 (a) (1) (D)) a continuity of interest therein on the part of those persons who, directly or indirectly, were the owners of the enterprise prior to the reorganization. The Code recognizes as a reorganization the amalgamation (occurring in a specified way) of two corporate enterprises under a single corporate structure if there exists among the holders of the stock and securities of either of the old corporations the requisite continuity of interest in the new corporation, but there is not a reorganization if the holders of the stock and securities of the old corporation are merely the holders of short-term notes in the new corporation. In order to exclude transactions not intended to be included, the specifications of the reorganization provisions of the law are precise. Both the terms of the specifications and their underlying assumptions and purposes must be satisfied in order to entitle the taxpayer to the benefit of the exception from the general rule. Accordingly, under the Code, a short-term purchase money note is not a security of a party to a reorganization, an ordinary dividend is to be treated as an ordinary dividend, and a sale is nevertheless to be treated as a sale even though the mechanics of a reorganization have been set up.

(c) *Scope.* The nonrecognition of gain or loss is prescribed for two specifically described types of exchanges, viz: The exchange that is provided for in section 354 (a) (1) in which stock or securities in a corporation, a party to a reorganization, are, in pursuance of a plan of reorganization, exchanged for the stock or securities in a corporation, a party to the same reorganization; and the exchange that is provided for in section 361 (a) in which a corporation, a party to a reorganization, exchanges property, in pursuance of a plan of reorganization, for stock or securities in another corporation, a party to the same reorganization. Section 368 (a) (1) limits the definition of the term "reorganization" to six kinds of transactions and excludes all others. From its context, the term "a party to a reorganization" can only mean a party to a transaction specifically defined as a reorganization by section 368 (a). Certain rules respecting boot received in either of the two types of exchanges provided for in section 354 (a) (1) and section 361 (a) are prescribed in sections 356, 357, and 361 (b). A special rule respecting a transfer of property with a liability in excess of its basis is prescribed in section 357 (c). Under section 367 a limitation is placed on all these provisions by providing that except under specified conditions foreign corporations shall not be deemed within their scope. The provisions of the Internal Revenue Code referred to in this paragraph are inapplicable unless there is a plan of reorganization. A plan of reorganization must contemplate the bona fide execution of one of the transactions specifically described as a reorganization in section 368 (a) and for the bona fide consummation of each of the requisite acts under which nonrecognition of gain is claimed. Such transaction and such acts must be an ordinary and necessary incident of the conduct

of the enterprise and must provide for a continuation of the enterprise. A scheme, which involves an abrupt departure from normal reorganization procedure in connection with a transaction on which the imposition of tax is imminent, such as a mere device that puts on the form of a corporate reorganization as a disguise for concealing its real character, and the object and accomplishment of which is the consummation of a preconceived plan having no business or corporate purpose, is not a plan of reorganization.

§ 1.368–2 *Definition of terms.* (a) The application of the term "reorganization" is to be strictly limited to the specific transactions set forth in section 368 (a). The term does not embrace the mere purchase by one corporation of the properties of another corporation, for it imports a continuity of interest on the part of the transferor or its shareholders in the properties transferred. If the properties are transferred for cash and deferred payment obligations of the transferee evidenced by short-term notes, the transaction is a sale and not an exchange in which gain or loss is not recognized.

(b) The words "statutory merger or consolidation" refer to a merger or consolidation effected pursuant to the corporation laws of the United States or a State or Territory or the District of Columbia.

(c) In order to qualify as a "reorganization" under section 368 (a) (1) (B), the acquisition by the acquiring corporation of stock of another corporation must be in exchange solely for all or a part of the voting stock of the acquiring corporation, and the acquiring corporation must be in control of the other corporation immediately after the transaction. If, for example, Corporation X, in one transaction exchanges nonvoting preferred stock or bonds in addition to all or a part of its voting stock in the acquisition of stock of Corporation Y, the transaction is not a reorganization under section 368 (a) (1) (B). The acquisition of stock of another corporation by the acquiring corporation solely for its voting stock is permitted tax-free even though the acquiring corporation already owns some of the stock of the other corporation. Such an acquisition is permitted tax-free in a single transaction or in a series of transactions taking place over a relatively short period of time such as 12 months. For example, Corporation A purchased 30 percent of the common stock of Corporation W (the only class of stock outstanding) for cash in 1939. On March 1, 1955, Corporation A offers to exchange its own voting stock for all the stock of Corporation W tendered within 6 months from the date of the offer. Within the 6 months' period Corporation A acquires an additional 60 percent of the stock of Corporation W solely for its own voting stock, so that it owns 90 percent of the stock of Corporation W. No gain or loss is recognized with respect to the exchanges of stock of Corporation A for stock of Corporation W. For this purpose, it is immaterial whether such exchanges occurred before Corporation A acquired control (80 percent) of Corporation W or after such control was acquired. If Corporation A had acquired 80 percent of the stock of Corporation W for cash in 1939, it could likewise acquire some or all of the remainder of such stock solely in exchange for its own voting stock without recognition of gain or loss.

(d) In order to qualify as a reorganization under section 368 (a) (1) (C), the transaction must be one described in subparagraph (1) or (2) below:

(1) One corporation must acquire substantially all the properties of another corporation solely in exchange for all or a part of its own voting stock, or solely in exchange for all or a part of the voting stock of a corporation which is in control of the acquiring corporation. For example, Corporation P owns all the stock of Corporation A. All the properties of Corporation W are transferred to Corporation A either solely in exchange for voting stock of Corporation P or solely in exchange for less than 80 percent of the voting stock of Corporation A. Either of such transactions constitutes a reorganization under section 368 (a) (1) (C). However, if the properties of Corporation W are acquired in exchange for voting stock of both Corporation P and Corporation A, the transaction will not constitute a reorganization under section 368 (a) (1) (C). In determining whether the exchange meets the requirement of "solely for voting stock", the assumption by the acquiring corporation of liabilities of the transferor corporation, or the fact that property acquired from the transferor corporation is subject to a liability, shall be disregarded. Though such an assumption does not prevent an exchange from being solely for voting stock for the purposes of the definition of a reorganization contained in section 368 (a) (1) (C), it may in some cases, however, so alter the character of the transaction as to place the transaction outside the purposes and assumptions of the reorganization provisions. Section 368 (a) (1) (C) does not prevent consideration of the effect of an assumption of liabilities on the general character of the transaction but merely provides that the requirement that the exchange be solely for voting stock is satisfied if the only additional consideration is an assumption of liabilities.

(2) One corporation—

(i) Must acquire substantially all of the properties of another corporation in such manner that the acquisition would qualify under (1) above, but for the fact that the acquiring corporation exchanges money, or other property in addition to such voting stock, and

(ii) Must acquire solely for voting stock (either of the acquiring corporation or of a corporation which is in control of the acquiring corporation) properties of the other corporation having a fair market value which is at least 80 percent of the fair market value of all the properties of the other corporation.

(3) For the purposes of subparagraph (2) (ii) only, a liability assumed or to which the properties are subject is considered money paid for the properties. For example, Corporation A has properties with a fair market value of $100,000 and liabilities of $10,000. In exchange for these properties, Corporation Y transfers its own voting stock, assumes the $10,000 liabilities, and pays $8,000 in cash. The transaction is a reorganization even though a part of the properties of Corporation A is acquired for cash. On the other hand, if the properties of Corporation A worth $100,000, were subject to $50,000 in liabilities, an acquisition of all the properties, subject to the liabilities, for any consideration other than solely voting stock would not qualify as a reorganization under this section since the liabilities alone are in excess of 20 percent of the fair market value of the properties. If the transaction would qualify under either (1) or (2) above and also under section 368 (a) (1) (D), such transaction shall not be treated as a reorganization under section 368 (a) (1) (C).

(e) A "recapitalization", and therefore a reorganization, takes place if, for example:

(1) A corporation with $200,000 par value of bonds outstanding, instead of paying them off in cash, discharges them by issuing preferred shares to the bondholders;

(2) There is surrendered to a corporation for cancellation 25 percent of its preferred stock in exchange for no par value common stock;

(3) A corporation issues preferred stock, previously authorized but unissued, for outstanding common stock;

(4) An exchange is made of a corporation's outstanding preferred stock, having certain priorities with reference to the amount and time of payment of dividends and the distribution of the corporate assets upon liquidation, for a new issue of such corporation's common stock having no such rights;

(5) An exchange is made of an amount of a corporation's outstanding preferred stock with dividends in arrears for a similar amount of a corporation's preferred stock plus an amount of stock (preferred or common) with respect to the amount of dividends in arrears. However, if such an exchange is made solely for the purpose of effecting the payment of dividends for the current and immediately preceding taxable years upon the preferred stock exchanged, an amount equal to the value of the stock issued in lieu of such dividends shall be treated as a distribution to which section 305 (b) (1) is applicable.

(f) The term "a party to a reorganization" includes a corporation resulting from a reorganization, and both corporations, in a transaction qualifying as a reorganization where one corporation acquires stock or properties of another corporation. A corporation remains a party to the reorganization although it transfers all or part of the assets acquired to a controlled subsidiary. A corporation controlling an acquiring corporation is a party to the reorganization when the stock of such controlling corporation is used in the acquisition of properties. Both corporations are parties to the reorganization if, under statutory authority, Corporation A is merged into Corporation B. All three of the corporations are parties to the reorganization if, pursuant to statutory authority, Corporation C and Corporation D are consolidated into Corporation E. Both corporations are parties to the reorganization if Corporation F transfers substantially all its assets to Corporation G in exchange for all or a part of the voting stock of Corporation G. All three corporations are parties to the reorganization if Corporation H transfers substantially all its assets to Corporation K in exchange for all or a part of the voting stock of Corporation L, which is in control of Corporation K. Both corporations are parties to the reorganization if Corporation M transfers all or a part of its assets to Corporation N in exchange for all or a part of the stock and securities of Corporation N, but only if (1) immediately after such transfer, Corporation M, or one or more of its shareholders (including persons who were shareholders immediately before such transfer), or any combination thereof, is in control of Corporation N, and (2) in pursuance of the plan, the stock and securities of Corporation N are transferred or distributed by Corporation M in a transaction in which gain or loss is not recognized under section 354 or 355, or is recognized only to the extent provided in section 356. Both Corporation O and Corporation P, but not Corporation S, are parties to the reorganization if Corporation O acquires stock of Corporation P from Corporation S in exchange solely for a part of the voting stock of Corporation O, if (1) the stock of Corporation P does not constitute substantially all of the assets of Corporation S, (2) Corporation S is not in control of Corporation O immediately after the acquisition, and (3) Corporation O is in control of Corporation P immediately after the acquisition.

(g) The term "plan of reorganization" has reference to a consummated transaction specifically defined as a reorganization under section 368 (a). The term is not to be construed as broadening the definition of "reorganization" as set forth in section 368 (a), but is to be taken as limiting the nonrecognition of gain or loss to such exchanges or distributions as are directly a part of the transaction specifically described as a reorganization in section 368 (a). Moreover, the transaction, or series of transactions, embraced in a plan of reorganization must not only come within the specific language of section 368 (a), but the readjustments involved in the exchanges or distributions effected in the consummation thereof must be undertaken for reasons germane to the continuance of the business of a corporation a party to the reorganization. Section 368 (a) contemplates genuine corporate reorganizations which are designed to effect a readjustment of continuing interests under modified corporate forms.

(h) As used in section 368, as well as in other provisions of the Internal Revenue Code, if the context so requires, the conjunction "or" denotes both the conjunctive and the disjunctive, and the singular includes the plural. For example, the provisions of the statute are complied with if "stock and securities" are received in exchange as well as if "stock or securities" are received.

§ 1.368–3 *Records to be kept and information to be filed with returns.* (a) The plan of reorganization must be adopted by each of the corporations parties thereto; and the adoption must be shown by the acts of its duly constituted responsible officers, and appear upon the official records of the corporation. Each corporation, a party to a reorganization, shall file as a part of its return for its taxable year within which the reorganization occurred a complete statement of all facts pertinent to the nonrecognition of gain or loss in connection with the reorganization, including:

(1) A certified copy of the plan of reorganization, together with a statement under oath or affirmation showing in full the purposes thereof and in detail all transactions incident to, or pursuant to, the plan.

(2) A complete statement of the cost or other basis of all property, including all stock or securities, transferred incident to the plan.

(3) A statement of the amount of stock or securities and other property or money received from the exchange, including a statement of all distributions or other disposition made thereof. The amount of each kind of stock or securities and other property received shall be stated on the basis of the fair market value thereof at the date of the exchange.

(4) A statement of the amount and nature of any liabilities assumed upon the exchange, and the amount and nature of any liabilities to which any of the property acquired in the exchange is subject.

(b) Every taxpayer, other than a corporation a party to the reorganization, who receives stock or securities and other property or money upon a tax-free exchange in connection with a corporate reorganization shall incorporate in his income tax return for the taxable year in which the exchange takes place a complete statement of all facts pertinent to the nonrecognition of gain or loss upon such exchange including:

(1) A statement of the cost or other basis of the stock or securities transferred in the exchange, and

(2) A statement in full of the amount of stock or securities and other property or money received from the exchange, including any liabilities assumed upon the exchange, and any liabilities to which property received is subject. The amount of each kind of stock or securities and other property (other than liabilities assumed upon the exchange) received shall be set forth upon the basis of the fair market value thereof at the date of the exchange.

(c) Permanent records in substantial form shall be kept by every taxpayer who participates in a tax-free exchange in connection with a corporate reorganization showing the cost or other basis of the transferred property and the amount of stock or securities and other property or money received (including any liabilities assumed on the exchange, or any liabilities to which any of the properties received were subject), in order to facilitate the determination of gain or loss from a subsequent disposition of such stock or securities and other property received from the exchange.

INSOLVENCY REORGANIZATIONS

§ 1.371 *Statutory provisions; insolvency reorganizations; reorganization in certain receivership and bankruptcy proceedings.*

SEC. 371. *Reorganization in certain receivership and bankruptcy proceedings*—(a) *Exchanges by corporations*—(1) *In general.* No gain or loss shall be recognized if property of a corporation (other than a railroad corporation, as defined in section 77 (m) of the Bankruptcy Act (49 Stat. 922; 11 U. S. C. 205)) is transferred in pursuance of an order of the court having jurisdiction of such corporation—

(A) In a receivership, foreclosure, or similar proceeding, or

(B) In a proceeding under chapter X of the Bankruptcy Act (52 Stat. 883–905; 11 U. S. C., chapter 10) or the corresponding provisions of prior law,

to another corporation organized or made use of to effectuate a plan of reorganization approved by the court in such proceeding, in exchange solely for stock or securities in such other corporation.

(2) *Gain from exchanges not solely in kind.* If an exchange would be within the provisions of paragraph (1) if it were not for the fact that the property received in exchange consists not only of stock or securities permitted by paragraph (1) to be received without the recognition of gain, but also of other property or money, then—

(A) If the corporation receiving such other property or money distributes it in pursuance of the plan of reorganization, no gain to the corporation shall be recognized from the exchange, but

(B) If the corporation receiving such other property or money does not distribute it in pursuance of the plan of reorganization, the gain, if any, to the corporation shall be recognized, but in an amount not in excess of the sum of such money and the fair market value of such other property so received, which is not so distributed.

(b) *Exchanges by security holders*—(1) *In general.* No gain or loss shall be recognized on an exchange consisting of the relinquishment or extinguishment of stock or securities in a corporation the plan of reorganization of which is approved by the court in a proceeding described in subsection (a), in consideration of the acquisition solely of stock or securities in a corporation organized or made use of to effectuate such plan of reorganization.

(2) *Gain from exchanges not solely in kind.* If an exchange would be within the provisions of paragraph (1) if it were not for the fact that the property received in exchange consists not only of property permitted by paragraph (1) to be received without the recognition of gain, but also of other property or money, then the gain, if any, to the recipient shall be recognized, but in an amount not in excess of the sum of such money and the fair market value of such other property.

(c) *Loss from exchanges not solely in kind.* If an exchange would be within the provisions of subsection (a) (1) or (b) (1) if it were not for the fact that the property received in exchange consists not only of property permitted by subsection (a) (1) or (b) (1) to be received without the recognition of gain or loss, but also of other property or money, then no loss from the exchange shall be recognized.

(d) *Assumption of liabilities.* In the case of a transaction involving an assumption of a liability or the acquisition of property subject to a liability, the rules provided in section 357 shall apply.

§ 1.371–1 *Exchanges by corporations*—(a) *Exchange solely for stock or securities.* (1) Section 371 (a) (1) provides for the nonrecognition of gain or loss by a corporation upon certain exchanges made in connection with the reorganization of an insolvent corporation. The section does not apply to a railroad corporation as defined in section 77 (m) of the Bankruptcy Act (49 Stat. 922; 11 U. S. C. 205). In order to qualify as a section 371 (a) reorganization, the transaction must satisfy the express statutory requirements as well as the underlying assumptions and purposes for which the exchange is excepted from the general rule requiring the recognition of gain or loss upon the exchange of property.

(2) Section 371 (a) (1) applies only with respect to a reorganization effected in one of two specified types of court proceedings: (i) Receivership, foreclosure, or similar proceedings, or (ii) corporate reorganization proceedings under Chapter X of the Bankruptcy Act (52 Stat. 883–905; 11 U. S. C. c. 10). The specific statutory requirements are the transfer of property of a corporation, in pursuance of an order of the court having jurisdiction of the corporation in such proceeding, to another corporation organized or made use of to effectuate a plan of reorganization approved by the court in such proceeding, in exchange solely for stock or securities in such other corporation. If the consideration for the transfer consists of other property or money as well as stock and securities, see sections 371 (a) (2) and 371 (c). As to the assumption of liabilities in an exchange described in section 371 (a), see section 371 (d).

(3) The application of section 371 (a) (1) is to be strictly limited to a transaction of the character set forth in such section. Hence, the section is inapplicable unless there is a bona fide plan of reorganization approved by the court having jurisdiction of the proceeding and the transfer of the property of the insolvent corporation is made pursuant to such plan. It is unnecessary that the transfer be a direct transfer from the insolvent corporation; it is sufficient if the transfer is an integral step in the consummation of the reorganization plan approved by the court. By its terms, the section has no application to a reorganization consummated by adjustment of the capital or debt structure of the insolvent corporation without the transfer of its assets to another corporation.

(4) As used in section 371 (a) (1), the term "reorganization" is not controlled by the definition of "reorganization" contained in section 368. However, certain basic requirements, implicit in the statute, which are essential to a reorganization under section 368, are likewise essential to qualify a transaction as a reorganization under section 371 (a) (1). Among these requirements are a continuity of the business enterprise under the modified corporate form and a continuity of interest therein on the part of those persons who were the owners of the enterprise prior to the reorganization. Thus, the nonrecognition accorded by section 371 (a) (1) applies only to a genuine reorganization as distinguished from a liquidation and sale of property to either new or old interests supplying new capital and discharging the obligations of the old corporation. For the purpose of determining whether the requisite continuity of interest exists, the interest of creditors who have, by appropriate legal steps, obtained effective command of the property of an insolvent corporation is considered as the equivalent of a proprietary interest. But the mere possibility of a proprietary interest is not its equivalent. In general, any transaction will be subject to nonrecognition of gain or loss as prescribed by section 371 (a) (1) where the property is transferred to a corporation and the stock and securities of such corporation are transferred to persons who were shareholders or creditors of the transferor corporation as if such stock or securities had been transferred to such persons as shareholders pursuant to the nonrecognition provisions of Part III of subchapter C. The determinative and controlling factors are the corporation's insolvency and the effective command by the creditors over its property. The term "insolvent" as used herein refers to insolvency at any time during the course of the proceeding referred to in section 371 (a) (1), either in the sense of excess of liabilities over assets or in the sense of inability to meet obligations as they mature.

(5) A short-term purchase money note is not a security within the meaning of this section, and the transfer of the properties of the insolvent corporation for cash and deferred payment obligations of the transferee evidenced by short-term notes is a sale and not an exchange.

(b) *Exchange for stock or securities and other property or money.* If an exchange would be within the provisions of section 371 (a) (1) if it were not for the fact that the consideration for the transfer of the property of the insolvent corporation consists not only of stock or securities but also of other property or money, then, as provided in section 371 (a) (2), if the other property or money received by the corporation is distributed by it pursuant to the plan of reorganization, no gain to the corporation will be recognized. Property is distributed within the meaning of this section if it is paid over or distributed to shareholders or creditors who have by appropriate legal steps obtained effective command of the property of the corporation. If the other property or money received by the corporation is not distributed by it pursuant to the plan of reorganization, the gain, if any, to the corporation from the exchange will be recognized in an amount not in excess of the sum of money and the fair market value of the other property so received which is not distributed. In either case no loss from the exchange will be recognized (see section 371 (c)).

(c) *Records to be kept and information to be filed.* (1) Each corporation a party to a section 371 (a) reorganization shall furnish a complete statement of all facts pertinent to the nonrecognition of gain or loss in connection with the exchange, including:

(i) A certified copy of the plan of reorganization approved by the court in the proceeding, together with a statement showing in full the purposes thereof and in detail all transactions incident, or pursuant, to the plan;

(ii) A complete statement of the cost or other basis of all property, including all stock or securities, transferred incident to the plan;

(iii) A statement of the amount of stock or securities and other property or money received in the exchange, including a statement of all distributions or other disposition made thereof. The amount of each kind of stock or securities or other property shall be stated on the basis of the fair market value thereof at the date of the exchange;

(iv) A statement of the amount and nature of any liabilities assumed upon the exchange.

The information required by this section shall be filed as a part of the corporation's return for its taxable year within which the reorganization occurred.

(2) Permanent records in substantial form must be kept by every taxpayer who participates in a tax-free exchange in connection with a corporate reorganization showing the cost or other basis of the transferred property and the amount of stock or securities and other property or money received (including any liabilities assumed upon the exchange), in order to facilitate the determination of gain or loss from a subsequent disposition of such stock or securities and other property received from the exchange.

§ 1.371–2 *Exchanges by security holders*—(a) *In general.* (1) Section 371 (b) prescribes the rules relative to the recognition of gain or loss upon certain exchanges made by the holders of stock or securities of an insolvent corporation in connection with a reorganization described in section 371 (a). Under section 371 (b) (1), no gain or loss shall be recognized if, pursuant to the plan of reorganization, stock or securities in the insolvent corporation are exchanged solely for stock or securities in the corporation organized or made use of to effectuate such plan. If, in addition to such stock or securities, other property or money is received upon such exchange, gain is recognized to the extent of such other property or money (section 371 (b) (2)), but no loss is recognized (section 371 (c)). As to the basis of the stock or securities or other property acquired upon an exchange under section 371 (b), see section 358.

(2) By thus characterizing as an exchange, and regarding as a single taxable event, the event or series of events resulting in the relinquishment or extinguishment of the stock or securities in the old corporation and the acquisition in consideration thereof, in whole or in part, of stock or securities in the new corporation, the Internal Revenue Code secures uniformity of treatment for the participating security holders, regardless of the particular steps or the procedural devices by which such exchange is effected. Thus, the transaction which qualified as a reorganization under section 371 (a) may take one of several forms. In a typical creditors' reorganization there may be a transfer of the property of the old corporation to its bondholders, or the bondholders' committee, upon surrender of the bonds, followed by the transfer of such property to the new corporation in consideration of stock in the latter; or there may be a transfer of the bonds to the new corporation in exchange for its stock or securities, followed by the transfer of the property of the old corporation in consideration of the surrender of its bonds. In either event, section 371 (b) treats the result to the participating security holders as an exchange of the securities of the old corporation for securities of the new corporation. In order, however, to qualify as an exchange under section 371 (b) the various events resulting in the relinquishment or extinguishment of the old securities and the acquisition of the new securities must be embraced within the plan of reorganization and must be undertaken for reasons germane to the plan. If the event, or series of events, qualifies as an exchange under section 371 (b), no antecedent event necessarily a component of the relinquishment or extinguishment of the securities of the old corporation in consideration of the acquisition of the securities of the new corporation shall be considered a transaction or event having consequences for income tax purposes.

(b) *Exchange solely for stock or securities.* Section 371 (b) (1) provides that no gain or loss shall be recognized upon an exchange consisting of the relinquishment or extinguishment of stock or securities in an insolvent corporation described in section 371 (a), in consideration of the acquisition solely of stock or securities in a corporation organized or made use of to effectuate the plan of reorganization. As used in this section, the term security does not include a short-term note.

(c) *Exchanges for stock or securities and other property or money.* If an exchange would be within section 371 (b) (1) if it were not for the fact that the property received in the exchange consists not only of stock or securities in the corporation organized or made use of to effectuate the plan of reorganization, but also of other property or money, then

(1) As provided in section 371 (b) (2), the gain, if any, to the taxpayer will be recognized in an amount not in excess of the sum of money and the fair market value of the other property. The gain so recognized shall be treated as capital gain.

(2) The loss, if any, to the taxpayer from such an exchange is not to be recognized to any extent (see section 371 (c)).

(d) *Records to be kept and information to be filed.* (1) Every taxpayer who receives stock or securities and other property or money upon an exchange described in section 371 (b) in connection with a corporate reorganization, must furnish a complete statement of all facts pertinent to the recognition or nonrecognition of gain or loss upon such exchange, including—

(i) A statement of the cost or other basis of the stock or securities transferred in the exchange, and

(ii) A statement in full of the amount of stock or securities and other property or money received from the exchange, including any liability assumed upon the exchange. The amount of each kind of stock or securities and other property (other than liabilities assumed upon the exchange) received shall be set forth upon the basis of the fair market value thereof at the date of the exchange.

The statement shall be incorporated in the taxpayer's income tax return for the taxable year in which the exchange occurs.

(2) Permanent records in substantial form shall be kept by every taxpayer who participates in an exchange described in section 371 (b), showing the cost or other basis of the transferred property and the amount of stock or securities and other property or money received (including any liabilities assumed upon the exchange), in order to facilitate the determination of gain or loss from a subsequent disposition of such stock or securities and other property received from the exchange.

§ 1.372 *Statutory provisions; insolvency reorganization; basis in connection with certain receivership and bankruptcy proceedings.*

SEC. 372. *Basis in connection with certain receivership and bankruptcy proceedings*—(a) *Corporation.* If property was acquired by a corporation in a transfer to which—

(1) Section 371 (a) applies,

(2) So much of section 371 (c) as relates to section 371 (a) (1) applies, or

(3) The corresponding provisions of prior law apply,

then notwithstanding the provisions of section 270 of the Bankruptcy Act (54 Stat. 709; 11 U. S. C. 670), the basis in the hands of the acquiring corporation shall be the same as it would be in the hands of the corporation whose property was so acquired, increased in the amount of gain recognized to the corporation whose property was so acquired under the law applicable to the year in which the acquisition occurred, and such basis shall not be adjusted under section 1017 by reason of a discharge of indebtedness in pursuance of the plan of reorganization under which such transfer was made.

(b) *Stock or security holder.* For basis of stock or securities acquired under section 371 (b), see section 358.

§ 1.372–1 *Corporations.* (a) If, as the result of a transaction described in section 371, so much of section 371 (c) as relates to section 371 (a), or the corresponding provisions of prior law, the property of an insolvent corporation is transferred, in pursuance of a plan of reorganization, to a corporation organized or made use of to effectuate such plan, the basis of such property in the hands of the acquiring corporation is the same as it would be in the hands of the insolvent corporation, increased in the amount of gain recognized upon such transfer under the law applicable to the year in which the transfer was made. In any such case, the adjustments to basis provided by section 270 of the Bankruptcy Act (54 Stat. 709; 11 U. S. C. 670), or section 1017 of the Internal Revenue Code of 1954, shall not be made in respect of any indebtedness cancelled pursuant to the plan of reorganization under which the transfer was made. If the transaction falls within the provisions of section 372 (a), the basis of the property involved shall be determined pursuant to such provisions, notwithstanding that the transaction might otherwise fall within another basis provision.

(b) The provisions of section 372 (a) are applicable in the determination of basis for all taxable years beginning after December 31, 1933, except that the basis so determined shall not be given effect in the determination of the tax liability for any taxable year beginning prior to January 1, 1943. With the exception indicated, the basis so prescribed is applicable from the date of acquisition of such property. For example, the provisions of section 1016 relating to adjusted basis shall be applied as if section 372 (a) were a part of the Internal Revenue Code of 1939 and prior internal revenue laws applicable to all taxable years beginning after December 31, 1933. Hence, in determining the amount of the adjustments for depreciation, depletion, etc., under the provisions of section 1016 (a) (2), the "amount allowable" is the amount computed with reference to the basis provided in section 372 (a).

(c) The effect of the application of section 372 (a) may be illustrated by the following examples:

Example (1). On January 1, 1935, the Y Corporation, a taxpayer making its returns on the calendar year basis, acquired depreciable property from the X Corporation as the result of a transaction described in section 372 (a). On January 1, 1935, the property had, in the hands of the X Corporation, a basis of $200,000, an adjusted basis of $150,000, a fair market value as of January 1, 1935, of $80,000, and an estimated remaining life of 20 years. The 1935 transaction was treated as a taxable exchange and, accordingly, the Y Corporation claimed and was allowed depreciation in the amount of $4,000 for each of the eight taxable years 1935 through 1942, inclusive. For each of the twelve taxable years 1943 through 1954, inclusive, the Y Corporation claimed and was allowed depreciation in the amount of $7,500. On December 31, 1954, the property was sold for $10,000 cash. The amount of the gain realized upon the sale is computed as follows:

Basis to X Corporation		$200,000
Adjustment for depreciation in the hands of X Corporation (sec. 1016)		50,000
Adjusted basis for depreciation in the hands of both X and Y Corporations (sec. 372 (b))		150,000
Deduct:		
Depreciation allowable in amount of $7,500 per year (1/20 of $150,000) for 8 years, from Jan. 1, 1935, through Dec. 31, 1942	$60,000	
Depreciation allowable Jan. 1, 1943, to Dec. 31, 1954 (12 years at $7,500)	90,000	
		150,000
Adjusted basis for computing gain or loss		0
Sale price		10,000
Gain realized		10,000

For the taxable year 1943 and succeeding taxable years, the Y Corporation is entitled to deductions for depreciation in respect of such property in the amounts of $7,500 in the determination of its tax liabilities for such years. But no change in the tax liability is authorized for preceding taxable years by reason of the difference between the $7,500 depreciation allowable and the $4,000 deduction previously allowed.

Example (2). Assume the same facts as in example (1), except that the property acquired by the Y Corporation had a fair market value as of January 1, 1935, of $180,000, instead of $80,000, and the Y Corporation claimed and was allowed depreciation in the amount of $9,000 for each of the eight taxable years 1935 to 1942, inclusive, and in the amount of $6,500 for the taxable years 1943 to 1954, inclusive. In such case, the amount of the gain realized upon the sale of the property would be computed as follows:

Adjusted basis for depreciation in the hands of Y Corporation as computed in example (1)		$150,000
Deduct:		
Depreciation allowed in the amount of $9,000 per year for 8 years Jan. 1, 1935 to Dec. 31, 1942	$72,000	
Depreciation allowable Jan. 1, 1943, to Dec. 31, 1954, inclusive (12 times $6,500)	78,000	
		150,000
Adjusted basis for computing gain or loss		0
Sale price		10,000
Gain realized		10,000

No change in the tax liability is authorized for taxable years preceding 1943 by reason of the difference between the $7,500 depreciation allowable and the $9,000 deduction previously allowed.

§ 1.373 *Statutory provisions; insolvency reorganizations; loss not recognized in certain railroad reorganizations.*

SEC. 373. *Loss not recognized in certain railroad reorganizations*—(a) *Nonrecognition of loss.* No loss shall be recognized if property of a railroad corporation, as defined in section 77 (m) of the Bankruptcy Act (49 Stat. 922; 11 U. S. C. 205), is transferred in pursuance of an order of the court having jurisdiction of such corporation—

(1) In a receivership proceeding, or

(2) In a proceeding under section 77 of the Bankruptcy Act,

to a railroad corporation (as defined in section 77 (m) of the Bankruptcy Act) organized or made use of to effectuate a plan of reorganization approved by the court in such proceeding.

(b) *Basis.* (1) *Railroad corporations.* If the property of a railroad corporation (as defined in section 77 (m) of the Bankruptcy Act) was acquired after December 31, 1938, in pursuance of an order of the court having jurisdiction of such corporation—

(A) In a receivership proceeding, or

(B) In a proceeding under section 77 of the Bankruptcy Act, and the acquiring corporation is a railroad corporation (as defined in section 77 (m) of the Bankruptcy Act) organized or made use of to effectuate a plan of reorganization approved by the court in such proceeding, the basis shall be the same as it would be in the hands of the railroad corporation whose property was so acquired.

(2) *Property acquired by street, suburban, or interurban electric railway corporation.* If the property of any street, suburban, or interurban electric railway corporation engaged as a common carrier in the transportation of persons or property in interstate commerce was acquired after December 31, 1934, in pursuance of an order of the court having jurisdiction of such corporation in a proceeding under section 77B of the Bankruptcy Act (48 Stat. 912), and the acquiring corporation is a street, suburban, or interurban electric railway engaged as a common carrier in the transportation of persons or property in interstate commerce, organized or made use of to effectuate a plan of reorganization approved by the court in such proceeding, then, notwithstanding the provisions of section 270 of the Bankruptcy Act (52 Stat. 904; 11 U. S. C. 670), the basis shall be the same as it would be in the hands of the corporation whose property was so acquired.

§ 1.373–1 *Nonrecognition of loss upon transfer of property of railroad corporation.* (a) For the purpose of section 373 (a), it is unnecessary that the transfer be a direct transfer by the corporation undergoing reorganization or that such reorganization constitute a reorganization within the meaning of section 368 (a) since that section does not apply to part IV of subchapter C. It is sufficient if the transfer is made in pursuance of an order of the court and is an integral step in the consummation of a plan of reorganization approved by the court having jurisdiction of the proceeding. If these conditions are satisfied, no loss is recognized to the transferor upon the ultimate transfer of the property, or to the transferor upon any intermediate transfer.

(b) Section 373 (a) applies only to a transfer resulting in a loss and has no application if the transfer therein described results in a gain.

(c) See section 354 (c) relative to exchanges by stock or security holders.

§ 1.373–2 *Property acquired by railroad corporation in a receivership or railroad reorganization proceeding.* (a) Section 373 (b) (1) sets forth certain conditions under which the basis of property acquired by a railroad corporation is the same as it would have been in the hands of the railroad corporation whose property was acquired. For the purpose of section 373 (b) (1), it is unnecessary that the acquisition in question be a direct transfer from the corporation undergoing reorganization or that such reorganization constitute a reorganization within the meaning of section 368 (a) since that section does not apply to part IV of subchapter C. It is sufficient if the acquisition is in pursuance of an order of the court and is an integral step in the consummation of a reorganization plan approved by the court having jurisdiction of the proceeding.

(b) If the conditions of section 373 (b) (1) are satisfied, then for the purpose of determining basis, the provisions of section 373 (b) (1) only shall apply, notwithstanding that the transaction might also fall within another basis provision.

§ 1.373–3 *Property acquired by electric railway corporation in corporate reorganization proceeding.* Subject to the limitations and conditions set forth in section 373 (b) (2), if the reorganization under section 77B of the Bankruptcy Act, 48 Stat. 912, of an electric railway corporation results in the acquisition of the property of such corporation by another corporate entity, the basis of such property in the hands of the acquiring corporation is the same as it would be in the hands of the old corporation. It is requisite to the application of the section that both corporations be street, suburban, or interurban electric railway corporations engaged in the transportation of persons or property in interstate commerce, and that the acquisition is in pursuance of an order of the court and is an integral step in the consummation of a reorganization plan approved by the court having jurisdiction of the proceeding. If section 373 (b) (2) applies, section 270 of the Bankruptcy Act (11 U. S. C. 670), relating to the adjustment of basis by reason of the cancellation or reduction of indebtedness in a corporate reorganization proceeding, is inapplicable. Moreover, if the transaction is within the provisions of section 373 (b) (2) and may also be considered to be within any other basis provision, then the provisions of section 373 (b) (2) only shall apply.

EFFECTIVE DATE OF SUBCHAPTER C

§ 1.391 *Statutory provisions; effective date of Part I.*

SEC. 391. *Effective date of Part I.* Except as otherwise provided in this subchapter, part I shall take effect on June 22, 1954. Section 306 shall apply only with respect to dispositions (or redemptions) occurring on or after June 22, 1954.

§ 1.391–1 *Effective date of part I of subchapter C.* Pursuant to section 395 and regulations thereunder, the provisions of part I of subchapter C shall be effective with respect to the described transactions which occur on or after June 22, 1954, and with respect to section 306 (relating to the disposition or redemption of "section 306 stock"), such section shall apply only to stock which is received in a transaction subject to the Internal Revenue Code of 1954, and which is disposed of or redeemed after June 22, 1954. Generally, stock issued after June 22, 1954, will be section 306 stock if such stock comes within the definition set forth in section 306 (c). However, stock which otherwise qualifies within the definition set forth in section 306 is not section 306 stock if it is issued pursuant to a reorganization which by reason of the application of section 393 (b) and section 395 is governed by the provisions of the Internal Revenue Code of 1939 without amendment by the Internal Revenue Code of 1954. In addition, stock which otherwise qualifies within the definition set forth in section 306 (c) is not section 306 stock if it is issued pursuant to a reorganization which by reason of an election under section 393 (b) (2) is governed by the provisions of the Internal Revenue Code of 1939 without amendment by the Internal Revenue Code of 1954.

§ 1.392 *Statutory provisions; effective date of Part II.*

SEC. 392. *Effective date of Part II*—(a) *General rule.* Except as otherwise provided in this subchapter, part II shall apply with respect to a plan of liquidation only if the first distribution in pursuance of such plan occurs on or after June 22, 1954. Section 341 shall apply only with respect to sales, exchanges, and distributions on or after June 22, 1954.

(b) *Special rule for certain sales during 1954*—(1) *Nonrecognition of gain or loss.* If—

(A) All of the assets of a corporation (less assets retained to meet claims) are distributed before January 1, 1955, in complete liquidation of such corporation; and

(B) The corporation elects (at such time and in such manner as the Secretary or his delegate may by regulations prescribe) to have this subsection apply,

then no gain or loss shall be recognized to such corporation from the sale or exchange by it of property during the calendar year 1954.

(2) *Certain provisions of section 337 made applicable.* For purposes of paragraph (1)—

(A) The term "property" has the meaning given to such term by section 337 (b); except that any determination required by section 337 (b) to be made by reference to the date of the adoption of the plan of liquidation shall be made by reference to January 1, 1954; and

(B) The limitations of section 337 (c) shall apply.

For purposes of section 453 (d) (4) (B) (relating to disposition of installment obligations), nonrecognition of gain or loss under paragraph (1) of this subsection shall be treated as nonrecognition of gain or loss under section 337.

(3) *Plans of liquidation adopted after December 31, 1953 and before June 22, 1954.* If the plan of complete liquidation was adopted after December 31, 1953, and before June 22, 1954, then, at the election of the corporation (made at such time and in such manner as the Secretary or his delegate may by regulations prescribe)—

(A) The 12-month period beginning on the date of the adoption of such plan shall be (i) the period for distribution (in lieu of the requirement in paragraph (1) (A) of this subsection that the assets be distributed before January 1, 1955), and (ii) the period during which, by reason of paragraph (1) of this subsection, gain or loss to the corporation is not recognized (in lieu of nonrecognition of gain or loss during the calendar year 1954); and

(B) Notwithstanding paragraph (2) (A) of this subsection, any determination required by section 337 (b) to be made by reference to the date of the adoption of the plan of liquidation shall be made by reference to such date (and not by reference to January 1, 1954).

§ 1.392–1 *Effective date of part II of subchapter C*—(a) *General.* Section 392 provides the general rule that Part II of Subchapter C, relating to liquidations shall be applicable only if the first distribution in pursuance of any plan of liquidation occurs on or after June 22, 1954. For this purpose, the date of adoption of the plan of liquidation is not material, except as provided in such part.

(b) *Certain sales in 1954.* Section 392 (b) provides special rules with respect to nonrecognition of gain or loss upon certain sales or exchanges of property in connection with liquidations completed during the calendar year 1954 and in connection with plans of liquidation adopted after December 31, 1953, and before June 22, 1954.

(c) *Election.* Any election provided in section 392 (b) shall be made by attaching to the return of the liquidating corporation for the year in which falls the date of the final liquidating distribution, a statement indicating its election with respect to section 392 (b) or, in any case in which the final return of the corporation was filed on or before December 11, 1954, the date of publication of the notice of proposed rule making, within 90 days after the date of final promulgation of these regulations by filing such a statement with the proper district director of internal revenue for association with the final return. If such a statement is not attached to the return for such year or, in any case in which the final return of the corporation was filed on or before December 11, 1954, is not filed with the proper district director of internal revenue within the time prescribed herein, the provisions of section 392 (b) shall not be applicable.

§ 1.393 *Statutory provisions; effective dates of Parts III and IV.*

SEC. 393. *Effective dates of Parts III and IV*—(a) *General rule.* Except as otherwise provided in this subchapter, parts III and IV shall take effect on June 22, 1954.

(b) *Special rules for plans of reorganization*—(1) *In general.* Except as provided in paragraphs (2) and (3), parts III and IV shall apply only in respect of plans of reorganization adopted on or after June 22, 1954. For purposes of this paragraph and paragraphs (2) and (3), a plan to make a transfer to a controlled corporation described in section 351, or a plan to make an exchange or distribution which is described in section 355 (or so much of section 356 as relates to section 355) shall be treated as a plan of reorganization.

(2) *Election to have 1939 Code apply.* If—

(A) A plan of reorganization was submitted to the Secretary or his delegate before June 22, 1954, but such plan was not adopted before such date,

(B) The Secretary or his delegate issues (whether before, on, or after such date) a ruling with respect to such plan, and

(C) The corporations which are parties to the reorganization elect (at such time and in such manner as the Secretary or his delegate may by regulations prescribe) to have this paragraph apply,

then, if such reorganization is completed in accordance with the plan so submitted, the tax treatment of such reorganization (as to the corporations which are parties to the reorganization and as to their shareholders and security holders) shall be determined under the Internal Revenue Code of 1939 (in accordance with the contents of such ruling) and not under this Code.

(3) *Election to have 1954 Code apply.* If—

(A) A plan of reorganization—

(i) Was adopted after March 1, 1954, and before June 22, 1954, or

(ii) Was adopted before June 22, 1954, in pursuance of a court order and all distributions under the plan occur after March 1, 1954, and before July 1, 1954, and

(B) The corporations which are parties to the reorganization elect (at such time and in such manner as the Secretary or his delegate may by regulations prescribe) to have this paragraph apply,

then the tax treatment of such reorganization (as to the corporations which are parties to the reorganization and as to their shareholders and security holders) shall be determined under this Code and not under the Internal Revenue Code of 1939.

§ 1.393–1 *Effective dates of parts III and IV of subchapter C.* Section 393 provides the general rule that Part III of Subchapter C, relating to corporate reorganizations, and Part IV of Subchapter C, relating to certain insolvency reorganizations, shall take effect on June 22, 1954.

§ 1.393–2 *Special rule with respect to certain plans of reorganization arising in 1954.* (a) For the purpose of section 393 (b) (1)—

(1) If a corporation has adopted a plan of reorganization as there described before June 22, 1954, it may, if no action has been taken with respect to such plan which would constitute a realization of income or loss (whether or not recognized), and if no conveyance, exchange or distribution has been made by the corporation, rescind by proper corporate action and adopt such plan or another plan of reorganization after June 22, 1954, if all other corporations, parties to such reorganization, likewise rescind and readopt after such date.

(2) A corporation shall be considered to have adopted a plan of reorganization on the date on which a resolution of the board of directors is passed, adopting such plan or recommending its adoption to the shareholders, or upon the date of adoption of the plan of reorganization by the shareholders of such corporation, whichever is earlier.

(b) For the purpose of section 393 (b) (2)—

(1) A plan of reorganization shall be deemed to have been submitted before June 22, 1954, if such plan was filed before such date, with any office of the Internal Revenue Service with a request for a ruling as to the tax treatment thereof,

(2) A ruling with respect to such plan shall be a ruling letter signed by an official authorized to issue rulings in the office of the Assistant Commissioner (Technical) in the National Office of the Internal Revenue Service,

(3) Any such ruling issued shall be conclusive as to the law applicable to the transaction under the Internal Revenue Code of 1939 and for this purpose such Code shall be deemed not to be amended by the provisions of Parts III and IV,

(4) A plan of reorganization shall be deemed to have been filed on the date it is placed in the mail as shown by the postmark on the envelope containing such request for ruling or as shown by other available evidence of the mailing date, if the envelope is properly addressed and the proper postage affixed.

(c) For the purpose of section 393 (b) (3), a plan of reorganization shall be considered to have been adopted by a corporation after March 1, 1954, and before June 22, 1954, if between such dates either the plan was adopted by the shareholders or a resolution of a board of directors was passed adopting the plan or recommending its adoption to the shareholders.

§ 1.393–3 *Making and filing of elections.* The elections provided for in sub-

section (b) (2) and (b) (3) of section 393 shall be executed in the same manner as is required in the case of the income tax returns of the taxpayers. Where more than one corporation is involved in the transaction, all such corporations shall join in making the election, except that a corporation which was not in existence on June 22, 1954, shall not be required to make an election (unless it is the only corporation involved in the transaction). It will be sufficient if the corporations in existence on June 22, 1954, make the election for themselves and for the corporation to be organized after that date pursuant to the plan of reorganization, but such election shall be binding on the new corporation when it is formed and on the holders of its stock and securities. The elections are to be filed with the district director of internal revenue in the district in which the returns of the corporations are filed. The filing is to be accomplished by attaching the election (or certified copy thereof if more than one corporation is involved) to the tax return for the year in which the transaction took place. Furthermore, a copy of such election is to be attached to the income tax return of each shareholder or security holder who made exchanges, or received distributions, pursuant to the plan, for the year in which the transaction took place or, in any case in which the copy of the election is not received by such shareholder or security holder until after the due date for filing the return for the year in which the transaction took place, the copy of the election shall be filed with the proper district director of internal revenue for association with the return of such shareholder or security holder. The elections filed with the corporation returns must be accompanied by all relevant data pertaining to the transaction and by certified copies of the resolution of the directors authorizing the election. An election once made and filed by the corporations that are parties to the reorganization shall be irrevocable both as to the corporations involved and as to the holders of their stock and securities. Permanent records of all relevant data shall be kept by every taxpayer for whom an election was filed under section 393 (b), in order to facilitate the determination of gain or loss from a subsequent disposition of stock or securities or other property acquired in the transaction in respect of which the election was filed.

§ 1.395 *Statutory provisions; special rules for application of subchapter C.*

SEC. 395. *Special rules for application of this subchapter*—(a) *Taxable years affected.* Any provision of this subchapter the applicability of which is stated in terms of a specific date shall apply with respect to taxable years ending after such date. Each provision shall, in the case of a taxable year subject to the Internal Revenue Code of 1939, be deemed to be included in the Internal Revenue Code of 1939, but shall apply only to taxable years ending after such specific date.

(b) *Repeal and continuance of Internal Revenue Code of 1939.* To the extent that the provisions of this subchapter supersede the provisions of the Internal Revenue Code of 1939, such provisions of the Internal Revenue Code of 1939 are hereby repealed. The provisions of the Internal Revenue Code of 1939 shall continue to apply with respect to transactions for which rules are provided in this subchapter until such rules take effect.

§ 1.395–1 *Special rules for application of subchapter C.* (a) In general, under section 7851, the provisions of subchapter C are applicable to any taxable year beginning after December 31, 1953, which ends after August 16, 1954, the date of the enactment of the Internal Revenue Code of 1954. The applicable date of each provision with respect to such year is stated either in connection therewith or in sections 391 through 394. The years to which this subchapter is applicable will include the calendar year 1954, and all fiscal years beginning in 1954 and ending after August 16, 1954. All years beginning before January 1, 1954, and ending either before, on or after August 16, 1954, are subject to the Internal Revenue Code of 1939. All taxable years beginning after December 31, 1953, and ending before August 16, 1954, are also subject to the Internal Revenue Code of 1939.

(b) If there is included in the return for a taxable year subject to the Internal Revenue Code of 1939 items to which the provisions of this subchapter would be applicable if such years were subject to the Internal Revenue Code of 1954, such items shall be reported pursuant to the requirements of this subchapter if the transactions giving rise to such items occurred after the applicable dates specified. The determination in this case of the proper tax treatment shall be made by substituting the applicable provisions of subchapter C for the provisions of the Internal Revenue Code of 1939 which would otherwise be applicable thereto. For example, if a complete liquidation of a corporation occurs and if such liquidation would have been subject to the provisions of section 332 had the Internal Revenue Code of 1954 been applicable then section 332 of this Code shall be deemed to have superseded section 112 (b) (6) of the Internal Revenue Code of 1939. If such transaction occurred prior to the applicable date, then the provisions of the Internal Revenue Code of 1939 alone are applicable. If there is included in the return for a taxable year subject to the Internal Revenue Code of 1954 items to which the provisions of this subchapter would be applicable, except for the applicable dates specified, such items shall be reported pursuant to the requirements of the Internal Revenue Code of 1939 applicable to such transactions. For example, the tax treatment of a complete liquidation of a corporation described in section 332 will be determined not by section 332 but pursuant to the rules of section 112 (b) (6) of the Internal Revenue Code of 1939. If such liquidation occurred after June 21, 1954, only section 332 shall be applicable.

[SEAL] O. GORDON DELK,
Acting Commissioner of Internal Revenue.

Approved: November 25, 1955.

H. CHAPMAN ROSE,
Acting Secretary of the Treasury.

TITLE 20—EMPLOYEES' BENEFITS

Chapter V—Bureau of Employment Security, Department of Labor

PART 604—POLICIES OF THE UNITED STATES EMPLOYMENT SERVICE

SERVICE TO MINORITY GROUPS

Pursuant to the authority vested in me by section 12, 48 Stat. 117, as amended, 29 U. S. C. 49k, Reorganization Plan No. 2 of 1949 and by delegation from the Secretary of Labor, this part is amended in the manner set forth below. The amendment deletes the reference to Executive Order 9980 and substitutes a reference to the superseding Executive Order 10590.

1. Paragraph (c) of § 604.8 is amended to read as follows:

(c) To assist the United States Civil Service Commission in effectuating Executive Order 10590 by disregarding nonperformance factors of race, color, religion, or national origin in the recruitment, selection, and referral of workers on job orders from Federal establishments.

(Sec. 12, 48 Stat. 117; 29 U. S. C. 49k)

Signed at Washington, D. C., this 29th day of November 1955.

ROBERT C. GOODWIN,
Director, Bureau of Employment Security.

[F. R. Doc. 55–9745; Filed, Dec. 2, 1955; 8:50 a. m.]

TITLE 25—INDIANS

Chapter I—Bureau of Indian Affairs, Department of the Interior

Subchapter R—Leases and Sale of Minerals, Restricted Indian Lands

PART 183—LEASING OF RESTRICTED LANDS OF MEMBERS OF FIVE CIVILIZED TRIBES, OKLAHOMA, FOR MINING

PART 186—LEASING OF TRIBAL LANDS FOR MINING

PART 189—LEASING OF CERTAIN RESTRICTED ALLOTTED INDIAN LANDS FOR MINING

PART 195—LEASING OF LANDS IN CROW INDIAN RESERVATION, MONTANA, FOR MINING

ROYALTY RATES FOR MINERALS OTHER THAN OIL AND GAS

1. The regulations in this subchapter are amended as follows:

§ 183.23 *Royalty rates for minerals other than oil and gas.* Unless otherwise authorized by the Commissioner of Indian Affairs, the minimum rates for minerals other than oil and gas shall be as follows:

(a) For substances other than gold, silver, copper, lead, zinc, tungsten, coal, asphaltum and allied substances, oil, and gas, the lessee shall pay quarterly or as otherwise provided in the lease, a royalty of not less than 10 percent of the value, at the nearest shipping point, of all ores, metals, or minerals marketed.

(b) For gold and silver the lessee shall pay quarterly or as otherwise provided in the lease, a royalty of not less than 10 percent to be computed on the value of bullion as shown by mint returns after deducting forwarding charges to the point of sale; and for copper, lead, zinc, and tungsten, a royalty of not less than 10 percent to be computed on the value of ores and concentrates as shown by reduction returns after deducting freight charges to the point of sale. Duplicate returns shall be filed by the lessee with the Superintendent within 10 days after the ending of the quarter or other period specified in the lease within which such returns are made: *Provided, however,* That the lessee shall pay a royalty of not less than 10 percent of the value of the ore or concentrates sold at the mine unless otherwise provided in the lease.

(c) For coal the lessee shall pay quarterly or as otherwise provided in the lease, a royalty of not less than 10 cents per ton of 2,000 pounds of mine run, or coal as taken from the mine, including what is commonly called "slack."

(d) For asphaltum and allied substances the lessee shall pay quarterly or as otherwise provided in the lease, a royalty of not less than 10 cents per ton of 2,000 pounds on crude material or not less than 60 cents per ton on refined substances.

(Sec. 2, 35 Stat. 312, sec. 18, 41 Stat. 426, sec. 1, 45 Stat. 495, sec. 1, 47 Stat. 777; 25 U. S. C. 356)

§ 186.15 *Royalty rates for minerals other than oil and gas.* Unless otherwise authorized by the Commissioner of Indian Affairs, the minimum rates for minerals other than oil and gas shall be as follows:

(a) For substances other than gold, silver, copper, lead, zinc, tungsten, coal, asphaltum and allied substances, oil, and gas, the lessee shall pay quarterly or as otherwise provided in the lease, a royalty of not less than 10 percent of the value, at the nearest shipping point, of all ores, metals, or minerals marketed.

(b) For gold and silver the lessee shall pay quarterly or as otherwise provided in the lease, a royalty of not less than 10 percent to be computed on the value of bullion as shown by mint returns after deducting forwarding charges to the point of sale; and for copper, lead, zinc, and tungsten, a royalty of not less than 10 percent to be computed on the value of ores and concentrates as shown by reduction returns after deducting freight charges to the point of sale. Duplicate returns shall be filed by the lessee with the Superintendent within 10 days after the ending of the quarter or other period specified in the lease within which such returns are made: *Provided, however,* That the lessee shall pay a royalty of not less than 10 percent of the value of the ore or concentrates sold at the mine unless otherwise provided in the lease.

(c) For coal the lessee shall pay quarterly or as otherwise provided in the lease, a royalty of not less than 10 cents per ton of 2,000 pounds of mine run, or coal as taken from the mine, including what is commonly called "slack."

(d) For asphaltum and allied substances the lessee shall pay quarterly or as otherwise provided in the lease, a royalty of not less than 10 cents per ton of 2,000 pounds on crude material or not less than 60 cents per ton on refined substances.

(35 Stat. 783; 25 U. S. C. 396)

§ 189.18 *Royalty rates for minerals other than oil and gas.* Unless otherwise authorized by the Commissioner of Indian Affairs, the minimum rates for minerals other than oil and gas shall be as follows:

(a) For substances other than gold, silver, copper, lead, zinc, tungsten, coal, asphaltum and allied substances, oil, and gas, the lessee shall pay quarterly or as otherwise provided in the lease, a royalty of not less than 10 percent of the value, at the nearest shipping point, of all ores, metals, or minerals marketed.

(b) For gold and silver the lessee shall pay quarterly or as otherwise provided in the lease, a royalty of not less than 10 percent to be computed on the value of bullion as shown by mint returns after deducting forwarding charges to the point of sale; and for copper, lead, zinc, and tungsten, a royalty of not less than 10 percent to be computed on the value of ores and concentrates as shown by reduction returns after deducting freight charges to the point of sale. Duplicate returns shall be filed by the lessee with the Superintendent within 10 days after the ending of the quarter or other period specified in the lease within which such returns are made: *Provided, however,* That the lessee shall pay a royalty of not less than 10 percent of the value of the ore or concentrates sold at the mine unless otherwise provided in the lease.

(c) For coal the lessee shall pay quarterly or as otherwise provided in the lease, a royalty of not less than 10 cents per ton of 2,000 pounds of mine run, or coal as taken from the mine, including what is commonly called "slack."

(d) For asphaltum and allied substances the lessee shall pay quarterly or as otherwise provided in the lease, a royalty of not less than 10 cents per ton of 2,000 pounds on crude material or not less than 60 cents per ton on refined substances.

(Secs. 16, 17, 48 Stat. 987, 988, sec. 9, 49 Stat. 1968, sec. 4, 52 Stat. 348; 25 U. S. C. 396d, 476, 477, 509)

§ 195.17 *Royalty rates for minerals other than oil and gas.* Unless otherwise authorized by the Commissioner of Indian Affairs, the minimum rates for minerals other than oil and gas shall be as follows:

(a) For substances other than gold, silver, copper, lead, zinc, tungsten, coal, asphaltum and allied substances, oil, and gas, the lessee shall pay quarterly or as otherwise provided in the lease, a royalty of not less than 10 percent of the value, at the nearest shipping point, of all ores, metals, or minerals marketed.

(b) For gold and silver the lessee shall pay quarterly or as otherwise provided in the lease, a royalty of not less than 10 percent to be computed on the value of bullion as shown by mint returns after deducting forwarding charges to the point of sale; and for copper, lead, zinc, and tungsten, a royalty of not less than 10 percent to be computed on the value of ores and concentrates as shown by reduction returns after deducting freight charges to the point of sale. Duplicate returns shall be filed by the lessee with the Superintendent within 10 days after the ending of the quarter or other period specified in the lease within which such returns are made: *Provided, however,* That the lessee shall pay a royalty of not less than 10 percent of the value of the ore or concentrates sold at the mine unless otherwise provided in the lease.

(c) For coal the lessee shall pay quarterly or as otherwise provided in the lease, a royalty of not less than 10 cents per ton of 2,000 pounds of mine run, or coal as taken from the mine, including what is commonly called "slack."

(d) For asphaltum and allied substances the lessee shall pay quarterly or as otherwise provided in the lease, a royalty of not less than 10 cents per ton of 2,000 pounds on crude material or not less than 60 cents per ton on refined substances.

(Sec. 6, 41 Stat. 753; 44 Stat. 659)

DOUGLAS MCKAY,
Secretary of the Interior.

NOVEMBER 28, 1955.

TITLE 43—PUBLIC LANDS: INTERIOR

Chapter I—Bureau of Land Management, Department of the Interior

Appendix—Public Land Orders

[Public Land Order 1256]

[Oregon 03141]

OREGON

WITHDRAWING PUBLIC LANDS FOR USE OF DEPARTMENT OF THE ARMY IN CONNECTION WITH DALLES DAM PROJECT

By virtue of the authority vested in the President and pursuant to Executive Order No. 10355 of May 26, 1952, it is ordered as follows:

Subject to valid existing rights, the following-described public lands in Oregon are hereby withdrawn from all forms of appropriation under the public-land laws, including the mining and the mineral-leasing laws, and reserved for use of the Department of the Army in connection with The Dalles Dam Project:

WILLAMETTE MERIDIAN

T. 2 N., R. 16 E.,
Sec. 7, lot 1;
Sec. 9, that part of lots 1 and 2 lying north of a line described as follows: Beginning at the point of intersection of the west line of said lot 2 with the south boundary of the right of way of the Oregon-Washington Railroad and Navigation Company, said point being 1,300 feet north of the southwest corner of said lot 2; thence northeasterly following the south boundary of said railroad right of way 150 feet to a point that is 65 feet northerly from the center line of the Columbia River Highway; thence northeasterly, parallel with and 65 feet northerly from the center line of said highway, 180 feet to a point opposite Engineer's Station 234+50 of said high-

way; thence S. 10° 53' E. 25 feet to a point that is opposite and 40 feet northwesterly from Engineer's Station 234+50; thence northeasterly, parallel with and 40 feet northwesterly from the center line of said highway, 965 feet to a point on the south boundary of the right of way of the Oregon-Washington Railroad and Navigation Company; thence easterly, following the south boundary of the right of way of said railroad, a distance of 1,430 feet, more or less, to a point on the east line of said lot 1 from which point the quarter section corner common to Sections 9 and 10 in said township and range bears south 1,867 feet;

Sec. 10, that part of lot 2 lying north of a line described as follows: Beginning at the point of intersection of the west line of said lot 2 with the south boundary of the right of way of the Oregon-Washington Railroad and Navigation Company, said point being 1,867 feet north of the quarter section corner common to sections 9 and 10 in said township and range; thence easterly, following the south boundary of the right of way of said railroad, a distance of 185 feet, more or less, to a point approximately 90 feet southerly, when measured radially, from the center line survey for the relocation of the railroad of the Oregon-Washington Railroad and Navigation Company; thence S. 7° 46' E. 10 feet, more or less, to a point opposite and 100 feet distant southerly from said center line at Engineer's Station LR 3488+18.20 P. C. C.; thence S. 42° 00' E. 335 feet to a point that is 150 feet southerly, when measured at right angles, from the center line survey for the relocation of the Columbia River Highway at Engineer's Station LH 0+00 P. S.; thence easterly, from a tangent which bears S. 88° 59' 13" E., concentric with and 150 feet southerly from the center line of said highway, said center line being an increasing Standard Highway spiral to the left (a–0.4), a distance of 382.37 feet through an angle of 2° 48' 48" to a point opposite Engineers' Station LH 3+75.00 P. S. C.; thence easterly, concentric with and 150 feet southerly from said highway center line survey, on a curve to the left having a radius of 3,819.72 feet a distance of 600 feet more or less, to a point on the east line of said lot 2 from which point the southeast corner of said lot 2 bears south 453 feet more or less;

Sec. 18, that part of lots 4 and 5 described as follows: Beginning at a point that is 200 feet southeasterly, when measured at right angles, from the center line survey for the relocation of the Columbia River Highway at Engineer's Station LH: 1966+62.82 P. T., from which point a mound of stones in fence corner marking the quarter section corner common to Sections 17 and 18 in said township and range bears N. 70° 35' 35" E. a distance of 5,043.03 feet; thence N. 40° 07' 57" W. 50 feet to a point opposite and 150 feet distant southeasterly from Station LH: 1966+62.82 P. T.; thence southwesterly, from a tangent which bears S. 49° 52' 03" W., concentric with and 150 feet southeasterly from the center line survey, said center line being an increasing Standard Highway spiral to the left (a–0.2), a distance of 248.36 feet through an angle of 0° 37' 30" to a point opposite Station LH: 1964+12.82 P. C. S.; thence southwesterly concentric with and 150 feet southeasterly from the said center line survey, on a curve to the left having a radius of 11,309.16 feet, a distance of 1,100 feet more or less, to a point on the west line of said lot 5; thence northerly on the said west line a distance of 615 feet, more or less, to a point on the line of ordinary high water on the left bank of the Columbia River; thence northeasterly along the line of ordinary high water on the said left bank a distance of 2,350 feet, more or less, to a point on the east line of said lot 4; thence southerly on the said east line a distance of 560 feet, more or less, to a point on a line which bears N. 49° 52' 03" E. from the point of beginning; thence S. 49° 52' 03" W., parallel with and 200 feet southeasterly from the center line survey for the relocation of the Columbia River Highway, a distance of 978 feet, more or less, to the point of beginning.

The tracts described contain 55.37 acres.

This order shall take precedence over but not otherwise affect the withdrawal for power purposes made by Power Site Classification No. 378 of February 10, 1948.

WESLEY A. D'EWART,
Assistant Secretary of the Interior.

NOVEMBER 28, 1955.

[Public Land Order 1257]

[New Mexico 020780]

NEW MEXICO

WITHDRAWING RESERVED MINERALS IN PATENTED LANDS WITHIN SANDIA BASE OF THE DEPARTMENT OF THE ARMY

By virtue of the authority vested in the President and pursuant to Executive Order No. 10355 of May 26, 1952, it is ordered as follows:

Subject to valid existing rights, the minerals reserved to the United States in patented lands in the following-described areas within the Sandia Base of the Department of the Army in New Mexico are hereby withdrawn from disposition under the mining and mineral-leasing laws:

NEW MEXICO PRINCIPAL MERIDIAN

T. 9 N., R. 3 E.,
Secs. 1 and 12;
Sec. 13, N½N½.
T. 9 N., R. 4 E.,
Secs. 1 to 32, inclusive;
Sec. 33, S½N½, S½;
Secs. 34, 35, and 36.
T. 10 N., R. 4 E.,
Sec. 29, S½S½N½, S½;
Sec. 30, S½S½NW¼, S½;
Sec. 31, E½, NW¼;
Sec. 32, all, except 3.67 acres in the NE¼NE¼SE¼ comprising water reservoir of the City of Albuquerque.

The areas described aggregate approximately 26,201.65 acres.

WESLEY A. D'EWART,
Assistant Secretary of the Interior.

NOVEMBER 29, 1955.

TITLE 49—TRANSPORTATION

Chapter I—Interstate Commerce Commission

Subchapter C—Carriers by Water

[Ex Parte No. 152]

PART 315—EXEMPTION OF CONTRACT CARRIER OPERATIONS

CHARTERING OF VESSELS TO UNITED STATES

At a session of the Interstate Commerce Commission, Division 4, held at its office in Washington, D. C., on the 18th day of November A. D. 1955.

It appearing that by order of April 17, 1942, 49 CFR 315.3, under section 302 (e) of the Interstate Commerce Act, the Commission, Division 4, upon representations made to it by the Administrator of the then War Shipping Administration, exempted persons engaged in the chartering of vessels to the United States Government or any department or agency thereof for use by the Government in the transportation of its own property in interstate or foreign commerce, from the requirements of part III of the act until further order of the Commission;

It further appearing that by order of May 18, 1955, the said division reopened the proceeding for further consideration and invited any interested party to file with the Commission a memorandum or brief containing its views on the question whether or not the exemption heretofore issued should be revoked, and whether a hearing with respect thereto is desired;

It further appearing that memoranda and briefs have been filed by Pacific American Steamship Association on behalf of certain intercoastal carriers, members thereof, by American Merchant Marine Institute, Inc., an association representing the owners of a majority of the privately owned ocean-going steamship vessels operated under the American Flag, by Luckenbach Steamship Company, Inc., and Pope & Talbot, Inc., intercoastal water carriers and by the United States Maritime Administration;

And it further appearing that upon consideration of the record in this proceeding, and of statements of fact and contentions advanced in the memoranda and briefs filed by the parties, the application of the second sentence of section 302 (e) of the act to persons engaged in furnishing for compensation (under charter, lease, or other agreement) vessels to the United States Government, or departments or agencies thereof, for use by said government in the transportation of its own property, is necessary in order to effectuate the national transportation policy as declared in the act; and that the exemption provided by the regulations embraced in said order of April 17, 1942, should be revoked and set aside; and good cause appearing therefor:

It is ordered, That:

Section 315.3 *Chartering of vessels to the United States* be, and it is hereby revoked and set aside. (Issued under authority of section 302 (e), 54 Stat. L. 932, 49 U. S. C. 903.)

It is further ordered, That this order shall take effect on March 6, 1956.

And it is further ordered, That copy of this order be served on the following:

Chief of Naval Operations,
Military Sea Transport Service,
Department of Defense,
Washington, D. C.

Maritime Administration,
Department of Commerce,
Washington, D. C.

and that notice of this order be given to the public by posting copies thereof in the office of the Secretary of the Interstate Commerce Commission, Washington, D. C., and by filing with the Division of the Federal Register.

(54 Stat. 933; 49 U. S. C. 904. Interprets or applies 54 Stat. 931, as amended; 49 U. S. C. 903)

By the Commission, Division 4.

[SEAL] HAROLD D. McCOY,
Secretary.

[F. R. Doc. 55–9688; Filed, Dec. 2, 1955; 8:47 a. m.]

Subchapter D—Freight Forwarders

[Ex Parte No. 159]

PART 405—SURETY BONDS AND POLICIES OF INSURANCE

MISCELLANEOUS AMENDMENTS

In the matter of security for protection of the public as provided in part IV of the Interstate Commerce Act, and of rules and regulations governing filing and approval of surety bonds, policies of insurance, qualifications as a self-insurer, or other securities and agreements by freight forwarders subject to part IV of the act.

At a session of the Interstate Commerce Commission, Division 1, held at its office in Washington, D. C., on the 14th day of November A. D. 1955.

The matter of revision of certain sections contained in our rules and regulations governing the filing and approval of surety bonds, policies of insurance, qualifications as a self-insurer, or other securities and agreements prescribed pursuant to sections 403 (c) and (d) of the Interstate Commerce Act (49 CFR Part 405) being under consideration, and

It appearing that a notice, dated August 24, 1955, to the effect that certain revisions of the said rules and regulations were to be given consideration, was published in the FEDERAL REGISTER on September 9, 1955 (20 F. R. 6661), pursuant to the provisions of section 4 of the Administrative Procedure Act; and that, no written arguments, opinions or statements of facts concerning the matter having been submitted, and no oral hearing being deemed necessary, revision of the said rules and regulations and of certain forms prescribed pursuant thereto is deemed justified and necessary;

It is ordered, That the titles and texts of §§ 405.8 (b–1), 405.8 (f) and 405.10 (c) be, and the same are hereby, deleted in their entirety.

It is further ordered, That § 405.6 *Insurance Companies* (b) *Financial Resources* be amended by inserting the words "and surety" following the second word, "insurance", therein.

It is further ordered, That §§ 405.2, 405.4, 405.6 (a), 405.8, (except for note at end), 405.9 and 405.10 be revised so as to read as follows:

§ 405.2 *General requirements*—(a) *Cargo.* No freight forwarder shall engage or continue in service subject to part IV of the Interstate Commerce Act unless and until there shall have been filed with and accepted by the Commission a surety bond, certificate of insurance, qualifications as a self-insurer or other securities or agreements, in the amounts hereinafter prescribed, for loss of or damage to property with respect to which said freight forwarder performs service subject to part IV of the Act.

(b) *Public liability and property damage.* No freight forwarder shall engage or continue in the performance of transfer, collection and delivery service subject to part IV of the Interstate Commerce Act unless and until there shall have been filed with and accepted by the Commission a surety bond, certificate of insurance, qualifications as a self-insurer, or other securities or agreements, in the amounts hereinafter prescribed, conditioned to pay any final judgment recovered against such freight forwarder on account of bodily injuries to or death of any person, or loss of or damage to property, except property referred to in paragraph (a) of this section, resulting from the negligent operation, maintenance, or use of motor vehicles operated by or under its direction and control in the performance of transfer, collection or delivery service.

§ 405.4 *Surety bonds*—(a) *Surety companies.* Each surety bond filed with the Commission shall be for the full limits of liability provided in § 405.3. Only corporations or companies approved by the Commission may qualify to act as surety.

§ 405.6 *Insurance and surety companies*—(a) *State authority and designation of agent.* No certificate of insurance or surety bond will be accepted by the Commission under the rules and regulations in this part unless written or issued by an insurance or surety company legally authorized to issue policies of the type indicated by such certificate, or surety bonds, as the case may be, in each state in which the freight forwarder is authorized to perform service under part IV of the Interstate Commerce Act, and such company fully complies with paragraph (b) of this section: *Provided, however*, That in lieu of the licensing requirement with respect to any state except that in which the freight forwarder has its principal place of business or domicile, the insurance or surety company may file with the Commission a designation in writing of the name and post office address of a person in each state upon whom process issued by or under the authority of any court having jurisdiction of the subject matter may be served in any proceeding at law or equity brought against such company. Such designation may from time to time be changed by like designation similarly filed, but shall be maintained during the effectiveness of any certificate of insurance or surety bond issued by the company, and thereafter with respect to any claims arising during the effectiveness of such certificate or bond.

§ 405.8 *Forms and procedure*—(a) *Forms.* Endorsements for policies of insurance, surety bonds, certificates of insurance, applications to qualify as a self-insurer or for approval of other securities or agreements, notices of cancellation and notices to rescind cancellation or reinstate policies of insurance and surety bonds must be in accordance with any forms prescribed and approved by the Commission.

CROSS REFERENCE: For list of forms prescribed, see note following this section.

(b) *Procedure.* Certificates of insurance, surety bonds, notices of cancellation and notices to rescind cancellation or reinstate policies of insurance or surety bonds must be filed with the Commission in triplicate.

(c) *Names.* Certificates of insurance and surety bonds shall be issued in the full and correct name, including the trade name, if any, of the individual, partnership, corporation, or other person to whom or which the permit under part IV of the Interstate Commerce Act is issued or is to be issued. In the case of a partnership all partners shall be named.

(d) *Cancellation.* Certificates of insurance, surety bonds and other securities and agreements shall not be canceled or withdrawn until after 30 days' notice in writing has first been given by the insurance company or companies, surety or sureties, freight for-

warder, or other party thereto, as the case may be, to the Commission at its office in Washington, D. C., which period of 30 days shall commence to run from the date such notice is actually received at the office of the Commission. However, such certificates of insurance, surety bonds and other securities and agreements may be canceled prior to the expiration of the said 30 days if, on or before the date notice of cancellation is received, a replacement filing acceptable to the Commission shall have been received, such replacement being effective on or before the effective date of such cancellation. No cancellation may become effective before the date of receipt of such notice by the Commission.

(e) *Rescinder and reinstatement.* Surety bonds, certificates of insurance, and other securities and agreements on file with the Commission which have been canceled may be reinstated or a notice of cancellation may be rescinded by filing with the Commission a form prescribed for that purpose.

§ 405.9 *Acceptance and revocation by Commission.* The Commission may at any time refuse to accept or may revoke its acceptance of any surety bond, certificate of insurance, qualifications as a self-insurer or other securities or agreements if, in its judgment, such security does not comply with these rules or, for any reason, fails to provide satisfactory or adequate protection for the public.

§ 405.10 *Fiduciaries*—(a) *Interpretations.* The terms "insured" and "principal" as used in certificates of insurance, surety bonds, notices of cancellation, and notices to rescind cancellation or reinstate policies of insurance and surety bonds filed by or on behalf of freight forwarders under these rules shall be construed to include not only the freight forwarder named in such certificate, bond or notice, but also the fiduciary of such freight forwarder. The coverage of fiduciaries herein provided for shall attach at the moment of succession of such fiduciaries.

(b) *Span of security coverage.* The coverage furnished under the provisions of this rule on behalf of a fiduciary shall not apply subsequent to the effective date of other insurance, or other security, filed with and accepted by the Commission in behalf of such fiduciary. After the coverage provided in this rule shall have been in effect 30 days, it may be canceled or withdrawn within the succeeding period of 30 days by the insurer, the insured, the surety, or the principal upon 10 days' notice in writing to the Commission at its office in Washington, D. C., which period of 10 days shall commence to run from the date such notice is actually received by the Commission. After such coverage has been in effect for a total of 60 days, it may be canceled or withdrawn only in accordance with § 405.8 (d).

It is further ordered, That, the list of prescribed forms appearing in the editorial note to § 405.8 be amended by deleting therefrom the following:

FF 35-B. Notice Reinstating Freight Forwarder Policy of Insurance;

FF 44. Notice Reinstating Freight Forwarder Surety Bond;

and by substituting in lieu of FF 35-A and FF 36-A the following:

FF 35-A (Revised). Notice to Rescind Cancellation or Reinstate Freight Forwarder Policy of Insurance;

FF 36-A (Revised). Notice to Rescind Cancellation or Reinstate Freight Forwarder Surety Bond;

and also that the orders of the Commission dated December 7, 1944, and June 5, 1951, be vacated insofar as they apply to the approval and use of Forms FF 35-B and FF 44; and that Forms FF 35-A (Revised) and FF 36-A (Revised), copies of which are attached hereto[1] and made a part hereof, be and they are hereby adopted and prescribed for appropriate use by or in behalf of freight forwarders subject to part IV of the act;

And it is further ordered, That this order shall be effective December 31, 1955, and shall continue in effect until the further order of the Commission.

Notice of this order shall be given to the general public by depositing a copy thereof in the office of the Secretary of the Commission, Washington, D. C., and by filing a copy with the Director, Division of the Federal Register.

(56 Stat. 285; 49 U. S. C. 1003)

By the Commission, Division 1.

[SEAL] HAROLD D. McCOY, *Secretary.*

PROPOSED RULE MAKING

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Part 55]

GRADING AND INSPECTION OF EGG PRODUCTS

NOTICE OF PROPOSED RULE MAKING

Notice is hereby given that the United States Department of Agriculture is considering the issuance of an amendment to the regulations governing the grading and inspection of egg products (7 CFR Part 55), issued pursuant to the authority contained in the Agricultural Marketing Act of 1946 (60 Stat. 1087; 7 U. S. C. 1621 et seq.). The proposed amendment will implement Public Law 272, 84th Congress, 1st Session, approved August 9, 1955, amending the aforesaid act, by designating the certificates, memoranda, marks and other identifications and devices for making such marks or identifications, with respect to inspection, class, grade, quality, size, or condition, that are official for the purposes of said act. The proposal also makes a minor change in the sanitary requirements dealing with the procedures for washing eggs prior to breaking.

All persons who desire to submit written data, views, or arguments in connection with this amendment should file the same in triplicate with the Chief of the Standardization and Marketing Practices Branch, Poultry Division, Agricultural Marketing Service, United States Department of Agriculture, Room 2095, South Building, Washington 25, D. C., not later than 10 days after publication hereof in the FEDERAL REGISTER.

The proposed amendment is as follows:

1. Delete paragraph (q) of § 55.2 *Terms defined.*

2. Add a new § 55.2a, to read as follows:

§ 55.2a *Designation of official certificates, memoranda, marks, other identifications, and devices for purposes of the Agricultural Marketing Act.* Subsection 203 (h) of the Agricultural Marketing Act of 1946, as amended by Public Law 272, 84th Congress, provides criminal penalties for various specified offenses relating to official certificates, memoranda, marks or other identifications, and devices for making such marks or identifications, issued or authorized under section 203 of the said act, and certain misrepresentations concerning the inspection or grading of agricultural products under said section. For the purposes of said subsection and the provisions in this part, the terms listed below shall have the respective meanings specified:

(a) "Official certificate" means any form of certification, either written or printed, used under this part to certify with respect to the inspection, class, grade, quality, size, quantity, or condition of products (including the compliance of products with applicable specifications).

(b) "Official memorandum" means any initial record of findings made by an authorized person in the process of grading, inspecting, or sampling pursuant to this part, any processing or plant-operation report made by an authorized person in connection with grading, inspecting, or sampling under this part, and any report made by an authorized person of services performed pursuant to this part.

(c) "Official mark" means the grade mark, inspection mark, combined form of inspection and grade mark, and any other mark, or any variations in such marks, approved by the Administrator and authorized to be affixed to any product, or affixed to or printed on the packaging material of any product, stating that the product was graded or inspected or both, or indicating the appropriate U. S. grade or condition of the product, or for the purpose of maintaining the identity of products graded or inspected or both under this part, including but not limited to those set forth in §§ 55.36 through 55.38.

(d) "Official identification" means any United States (U. S.) standard designation of class, grade, quality, size, quantity, or condition specified in this part or any symbol, stamp, label, or seal indicating that the product has been officially graded or inspected and/or indicating the class, grade, quality, size, quantity, or condition of the product approved by the Administrator and authorized to be affixed to any product, or affixed to or printed on the packaging material of any product.

(e) "Official device" means a stamping appliance, branding device, stencil, printed label, or any other mechanically or manually operated tool that is approved by the Administrator for the purpose of applying any official mark or other identification to any product or the packaging material thereof.

3. Change the first sentence of paragraph (a) of § 55.30 *Denial of service,* to read as follows: "(a) The following acts or practices and those set forth in § 55.2a, or the causing thereof, may be deemed sufficient cause for the debarment, by the Administrator, of any person, including any agents, officers, subsidiaries, or affiliates of such person from any or all benefits of the act for a specified period, after notice and opportunity for hearing has been accorded him:"

4. Add the words "or the act" at the end of the first sentence of paragraph (a) (3) of § 55.30 *Denial of service.*

5. Change paragraph (b) of § 55.81 *Egg washing operations,* to read as follows:

(b) Shell eggs with adhering dirt shall be washed, rinsed with a water spray and dried. Such eggs may be immersed in or sprayed with a bactericidal solution immediately following the water rinse and thereafter dried prior to breaking: *Provided,* That, if other than hypochlorites are used for the bactericidal treatment, the eggs shall again be rinsed prior to drying and breaking.

(60 Stat. 1087; 7 U. S. C. 1621 et seq.)

Issued at Washington, D. C., this 30th day of November 1955.

[SEAL] ROY W. LENNARTSON, *Deputy Administrator, Agricultural Marketing Service.*

[F. R. Doc. 55-9699; Filed, Dec. 2, 1955; 8:47 a. m.]

[1] Filed as part of original document.

[7 CFR Part 56]

GRADING AND INSPECTION OF SHELL EGGS AND UNITED STATES STANDARDS, GRADES AND WEIGHT CLASSES FOR SHELL EGGS

NOTICE OF PROPOSED RULE MAKING

Notice is hereby given that the United States Department of Agriculture is considering the issuance of an amendment to the regulations governing the grading and inspection of shell eggs and United States standards, grades and weight classes for shell eggs (7 CFR Part 56) issued pursuant to the authority contained in the Agricultural Marketing Act of 1946 (60 Stat 1087; 7 U. S. C. 1621 et seq.). The proposed amendment will implement Public Law 272, 84th Congress, 1st Session, approved August 9, 1955, amending the aforesaid act by designating the certificates, memoranda, marks and other identifications, and devices for making such marks or identifications, with respect to inspection, class, grade, quality, size, or condition, that are official for the purposes of said act. The proposal also includes minor changes with respect to the information which is required in the grade mark, and changes the language in the U. S. wholesale grades for shell eggs in the interest of clarity.

All persons who desire to submit written data, views or arguments in connection with this amendment should file the same in triplicate with the Chief of the Standardization and Marketing Practices Branch, Poultry Division, Agricultural Marketing Service, United States Department of Agriculture, Room 2095, South Building, Washington 25, D. C., not later than ten days after publication hereof in the FEDERAL REGISTER.

The proposed amendment is as follows:

1. Delete paragraph (p) of §56.2 *Terms defined.*

2. Add a new § 56.2a, to read as follows:

§ 56.2a *Designation of official certificates, memoranda, marks, other identifications and devices for purposes of the Agricultural Marketing Act.* Subsection 203 (h) of the Agricultural Marketing Act of 1946, as amended by Public Law 272, 84th Congress, provides criminal penalties for various specified offenses relating to official certificates, memoranda, marks or other identifications, and devices for making such marks or identifications, issued or authorized under section 203 of said act, and certain misrepresentations concerning the inspection or grading of agricultural products under said section. For the purposes of said subsection and the provisions in this part, the terms listed in this section shall have the respective meanings specified:

(a) "Official certificate" means any form of certification, either written or printed, used under this part to certify with respect to the inspection, class, grade, quality, size, quantity, or condition of products (including the compliance of products with applicable specifications).

(b) "Official memorandum" means any initial record of findings made by an authorized person in the process of grading, inspecting, or sampling pursuant to this part, any processing or plant-operation report made by an authorized person in connection with grading, inspecting, or sampling under this part, and any report made by an authorized person of services performed pursuant to this part.

(c) "Official mark" means the grade mark, inspection mark, combined form of inspection and grade mark, and any other mark, or any variations in such marks, approved by the Administrator and authorized to be affixed to any product, or affixed to or printed on the packaging material of any product, stating that the product was graded or inspected or both, or indicating the appropriate U. S. grade or condition of the product, or for the purpose of maintaining the identity of products graded or inspected or both under this part, including but not limited to, those set forth in § 56.38.

(d) "Official identification" means any United States (U. S.) standard designation of class, grade, quality, size, quantity, or condition specified in this part or any symbol, stamp, label, or seal indicating that the product has been officially graded or inspected and/or indicating the class, grade, quality, size, quantity, or condition of the product approved by the Administrator and authorized to be affixed to any product, or affixed to or printed on the packaging material of any product.

(e) "Official device" means a stamping appliance, branding device, stencil, printed label, or any other mechanically or manually operated tool that is approved by the Administrator for the purpose of applying any official mark or other identification to any product or the packaging material thereof.

3. Change the first sentence of paragraph (a) in § 56.31 *Denial of service,* to read as follows: "The following acts or practices and those set forth in § 56.2a or the causing thereof, may be deemed sufficient cause for the debarment, by the Administrator, of any person, including any agents, officers, subsidiaries, or affiliates of such person from any or all benefits of the act for a specified period after notice and opportunity for hearing has been accorded him:"

4. Add the words "or the act" at the end of the first sentence of paragraph (a) (3) of § 56.31 *Denial of service.*

5. Change § 56.38 *Form of grade mark,* with the exception of Figures 1 and 2, to read as follows:

§ 56.38 *Form of grade mark.* The grade mark permitted to be used to officially identify cartons containing one dozen shell eggs, which are graded pursuant to the regulations in this part, shall be contained in a shield of the form and design indicated in examples in Figures 1 and 2 of this section. The information (including the form and arrangement of its wording) which is to be included in such marks shall be: (1) The letters "U. S. D. A."; (2) the U. S. grade, such as, "U. S. A Grade"; (3) one of the following phrases: "Graded Under Federal-State Supervision", "Graded Under U. S. and State Supervision", or a term of similar import, and (4) the size or weight class of the product, such as, "Large": *Provided,* That, the size may be omitted from the grade mark if it appears prominently on the main panel of the carton. The grade mark shall be printed on the carton or on a label used to seal the carton. When the size or weight class is included as a part of the grade mark the form of such mark shall be as indicated in Figure 1 of this section

and when the size or weight class designation is not included in the grade mark the form of the grade mark shall be as indicated in Figure 2 of this section. The grade mark shall also include the plant number of the official plant where the product was packed if the appropriate plant number does not appear elsewhere on the packaging material.

In addition, the date the eggs were graded shall be stamped either on the grade mark used to seal the carton or applied in a legible manner elsewhere on the carton. Such date of grading shall be expressed as the month and day or as the consecutive day of the year. The grade mark shall be not less than 1⅛ inches in height and should not exceed 1¾ inches in height. The size of the letters designating the grade shall be not less than ¼ inch in height. The size of the print and the arrangement of the other information within the shield shall be in approximately the same proportion as shown in the examples in Figures 1 and 2 of this section.

6. Change § 56.226 *Grades*, to read as follows:

§ 56.226 *Grades.* (a) "U. S. Specials --% AA Quality" shall consist of eggs of which at least 20 percent are AA Quality; and the actual percentage of AA Quality eggs shall be stated in the grade name. Within the maximum of 80 percent which may be below AA Quality, not more than 7.5 percent may be B Quality, C Quality, Dirties or Checks in any combination and not more than 2.0 percent may be Loss.

(b) "U. S. Extras --% A Quality" shall consist of eggs of which at least 20 percent are not less than A Quality; and the actual total percentage of A Quality and better quality eggs shall be stated in the grade name. Within the maximum of 80 percent which may be below A Quality, not more than 11.7 percent may be C Quality, Dirties, or Checks in any combination, and not more than 3.0 percent may be Loss.

(c) "U. S. Standards --% B Quality" shall consist of eggs of which at least 20 percent are not less than B Quality; and the actual total percentage of B Quality and better quality eggs shall be stated in the grade name. Within the maximum of 80 percent which may be below B Quality, not more than 11.7 percent may be Dirties or Checks in any combination, and not more than 4 percent may be Loss.

(d) "U. S. Trades --% C Quality" shall consist of eggs of which at least 83.3 percent are not less than C Quality; and the actual total percentage of C Quality and better quality eggs shall be stated in the grade name. Within the maximum of 16.7 percent which may be below C Quality not more than 11.7 percent may be Dirties or Checks in any combination and not more than 5 percent may be Loss.

(e) "U. S. Dirties" shall consist of eggs that are Dirty and shall contain not more than 11.7 percent Checks and not more than 5 percent Loss.

(f) "U. S. Checks" shall consist of eggs that are Checks and shall contain not more than 5 percent Loss.

(g) "No grade" means eggs of possible edible quality that fail to meet the requirements of an official U. S. Grade or that have been contaminated by smoke, chemicals, or other foreign material that has seriously affected the character, appearance, or flavor of the eggs.

7. Change § 56.227 *Summary of grades*, to read as follows:

§ 56.227 *Summary of grades.* A summary of the United States Wholesale Grades for Shell Eggs follows as Table I of this section:

TABLE I—SUMMARY OF UNITED STATES WHOLESALE GRADES FOR SHELL EGGS

Wholesale grade designation	Minimum percentage of eggs of specific qualities required [1]				Maximum tolerance permitted (lot average)				
	AA Quality	A Quality or better	B Quality or better	C Quality or better	B Quality, C Quality, Dirties, and Checks	C Quality, Dirties, and Checks	Dirties and Checks	Checks	Loss
					Percent	Percent	Percent	Percent	Percent [2]
U. S. Specials--% AA Quality. [2]	20	Balance	None permitted except for tolerances.		7.5				2
U. S. Extras--% A Quality [2]		20	Balance	None permitted except for tolerances.		11.7			3
U. S. Standards--% B Quality. [2]			20	Balance			11.7		4
U. S. Trades --% C Quality. [2]				83.3			11.7		5
U. S. Dirties --%									5
U. S. Checks								11.7	5

[1] Substitution of eggs possessing higher qualities for those possessing lower specified qualities is permitted.
[2] The actual total percentage must be stated in the grade name.

(60 Stat. 1087; 7 U. S. C. 1621 et seq.)

Issued at Washington, D. C., this 30th day of November 1955.

[SEAL] ROY W. LENNARTSON,
Deputy Administrator,
Agricultural Marketing Service.

FEDERAL COMMUNICATIONS COMMISSION

[47 CFR Part 16]

[Docket No. 11549; FCC 55-1146]

LAND TRANSPORTATION RADIO SERVICES

NOTICE OF PROPOSED RULE MAKING

In the matter of amendment to part 16 of the Commission's rules and regulations to effectuate the Commission's CONELRAD Plan for the Land Transportation Radio Services.

1. The Commission has before it the approved CONELRAD Plan for the Land Transportation Radio Services. This plan was developed in cooperation with licensees, the Department of Defense and the Office of Defense Mobilization and representatives of government and industry concerned. In order to put this plan into effect it is necessary to modify Part 16 of the Commission's rules and regulations as set forth below.

2. These proposed amendments are promulgated by authority of sections 303 (r) and 606 (c) of the Communications Act of 1934 as amended and Executive Order No. 10312 signed by the President December 10, 1951.

3. Any interested party who is of the opinion that the proposed amendment should not be adopted or should not be adopted in the form set forth herein may file on or before December 30, 1955, a written statement or brief setting forth his comments. Comments in support of the proposed amendment may also be filed on or before the same date. Comments or briefs in reply to the original comments may be filed within one week from the last day for filing said original comments or briefs. No additional comments may be filed unless (1) specifically requested by the Commission, or (2) good cause for the filing of such additional comments is established. The Commission will consider all such comments that are submitted before taking action in this matter, and, if any comments appear to warrant the holding of a hearing or oral argument, a notice of the time and place of such hearing or oral argument will be given.

4. In accordance with the provisions of § 1.764 of the Commission's rules and regulations, an original and 14 copies of all statements, briefs, or comments shall be furnished the Commission.

Adopted: November 23, 1955.

Released: November 28, 1955.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

It is proposed to amend Part 16 of the Commission's rules by adding the following new subpart.

SUBPART L—CONELRAD

§ 16.601 *Scope and objective.* (a) This subpart applies to all radio stations in the Land Transportation Radio Services located within the Continental United States, and is for the purpose of providing for the alerting and operation of radio stations in these services during periods of air attack or imminent threat thereof.

(b) The objective of these CONELRAD rules is to minimize the navigational aid that an enemy might obtain from the electromagnetic radiations from radio stations in the Land Transportation Radio Services, while simultaneously providing for a continued radio service under controlled conditions when such operation is essential to the public welfare.

§ 16.602 *Alerting.* (a) All radio stations in the Land Transportation Radio Services licensed by the Federal Communications Commission are responsible for making provisions to receive the CONELRAD Radio Alert and the CONELRAD Radio All Clear. (As used herein the term "licensed by" includes every form of authority issued by FCC pursuant to which a radio station may be operated, including construction permits, station licenses, temporary authorizations, etc.).

(b) The CONELRAD Radio Alert will be initiated by the Commanding Officer of the Air Division (Defense) or higher military authority.

(c) A Land Transportation mobile radio system, including fixed stations associated therewith, and fixed service systems where applicable, may, if desired, be alerted at a single point, normally the control point or the control center of the system. The control point thus receiving the Radio Alert will be responsible for the dissemination of the CONELRAD Radio Alert to all stations integrated into the single radio system and insuring that all associated stations execute CONELRAD requirements immediately.

(d) The provision of an adequate receiver to monitor a standard, FM or TV broadcast station, either by aural or by automatic means, during the hours of service of the radio station in the Land Transportation Radio Service, will be considered compliance with the requirements of paragraph (a) of this section. Other means of receiving the CONELRAD Radio Alert may be authorized by the Federal Communications Commission in special cases.

(e) Base, fixed or mobile stations in the Land Transportation Radio Services not directly receiving the CONELRAD Radio Alert must use caution in returning to the air after an "out of service" period, to insure that a CONELRAD Radio Alert is not in progress before making any transmissions.

NOTE: Every standard, FM and TV broadcast station will be notified of the Radio Alert by telephone calls or by radio broadcasts. Immediately upon receipt of the Radio Alert, each standard, FM and TV broadcast station will proceed as follows on its normally assigned frequency:

(1) Discontinue the normal program in progress.
(2) Cut the transmitter carrier for approximately five seconds. (Sound carrier only for TV stations.)
(3) Return the carrier to the air for approximately five seconds.
(4) Cut the transmitter carrier for approximately five seconds.
(5) Return carrier to the air.
(6) Broadcast 1,000 cycle (approximately) steady state tone for fifteen seconds.
(7) Broadcast the CONELRAD Radio Alert message as follows: "We interrupt our normal program to cooperate in security and Civil Defense measures as requested by the United States Government. This is a CONELRAD Radio Alert. Normal broadcasting will now be discontinued for an indefinite period. Civil Defense information will be broadcast in most areas at 640 and 1240 on your regular radio receiver."
(8) The CONELRAD Radio Alert message will then be repeated.

§ 16.603 *Operation during a CONELRAD Radio Alert.* (a) Radio stations in the Land Transportation Radio Services, upon receipt of a CONELRAD Radio Alert, will interrupt any communications in progress, may make a brief announcement, leave the air and maintain radio silence for the duration of the Radio Alert, except for limited transmissions handled in accordance with the following restrictions unless otherwise ordered by the Federal Communications Commission:

(1) No transmissions shall be made unless they are of extreme emergency affecting the national safety or the safety of people and property.

(2) All transmissions shall be as short as possible and the stations' carrier shall be removed from the air during periods of no message transmission.

(3) No station identification shall be given either by announcement of regularly assigned call signals or by announcement of geographical location. If identification is necessary to carry on a specially authorized service, the use of tactical calls or codes will be authorized.

§ 16.604 *Special conditions.* Certain radio stations or systems, licensed in the Land Transportation Radio Services, may be specially authorized by the Federal Communications Commission to operate in a manner not provided in these rules, if such operation is essential to the public welfare.

§ 16.605 *Radio all clear.* The Radio All Clear will be initiated only by the Air Division (Defense) Commander or higher military authority and will be disseminated over the same channels as the CONELRAD Radio Alert. Broadcast stations will transmit the CONELRAD "All Clear" message on normally assigned frequencies as follows:

"CONELRAD Radio All Clear, Resume normal operation.
I repeat—
"CONELRAD Radio All Clear. Resume normal operation."

Radio stations and systems licensed in the Land Transportation Radio Services may resume normal operations when the Radio All Clear message is received, unless otherwise restricted by order of the Federal Communications Commission.

§ 16.606 *Tests.* Tests of the CONELRAD alerting and operating systems of the Land Transportation Radio Services may be conducted at appropriate intervals. Reports of the results of such tests may be required in a form to be prescribed by the Commission.

§ 16.607 *Log entries.* Appropriate entries of all CONELRAD tests, drills and operations shall be made in the station log.

[F. R. Doc. 55-9681; Filed, Dec. 2, 1955; 8:46 a. m.]

[47 CFR Part 18]

[Docket No. 11442]

INDUSTRIAL, SCIENTIFIC AND MEDICAL SERVICE

ACCEPTANCE PROCEDURE FOR INDUSTRIAL HEATING EQUIPMENT

In the matter of amendment of Part 18 to establish a type acceptance procedure for industrial heating equipment and in general to reorganize the regulations applicable to industrial heating equipment.

The Commission having under consideration a Notice of Proposed Rule Making in the above-entitled matter adopted on July 6, 1955, providing that written comments in connection therewith be filed by interested parties on or before August 15, 1955; and

It appearing that as a result of a petition filed by Westinghouse Electric Corporation the time for filing comments was extended to November 15, 1955; and

It further appearing that the Commission, having received several requests for additional time within which to submit comments to Item 6 of the Appendix to the above-entitled proposed rule making, issued an order on November 4, 1955, extending the date for filing comments with respect to this item from November 15, 1955, to May 15, 1956; and

It further appearing that the General Electric Company has submitted a petition requesting that the time for filing replies to the comments which were submitted on or before November 15, 1955, in the above-entitled proceeding be extended from November 30, 1955, to December 10, 1955. The General Electric Company stated that it would be unable to secure adequate review of the comments filed in opposition to the Commission's proposal and prepare a considered reply in the time allotted; and

It further appearing that the public interest would be served by granting the additional time requested by the petitioner;

It is ordered, This 29th day of November 1955 that the General Electric Company petition is granted and the date for filing replies to the comments with respect to Items 1–5 of the Appendix of the above-entitled proposed rule making is hereby extended to December 10, 1955.

Released: November 29, 1955.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

[F. R. Doc. 55-9712; Filed, Dec. 2, 1955; 8:49 a. m.]

NOTICES

DEPARTMENT OF THE INTERIOR

Bureau of Reclamation

[No. 57]

KLAMATH PROJECT, OREGON AND CALIFORNIA TULE LAKE DIVISION, PARTS 1 AND 2

NOTICE EXTENDING DEVELOPMENT PERIOD AND THE DATE FOR PAYMENT OF CERTAIN CHARGES

NOVEMBER 28, 1955.

In connection with this Public Notice, the following should be noted:

A. Since the issuance on August 25, 1955, of Public Notice No. 56, Tule Lake Division, Part 1, the negotiation of a joint liability repayment contract with the Tule Lake Irrigation District which District includes most of the entered and unentered public lands of the Tule Lake Division, has been intensified and brought to a successful conclusion. The proposed contract will supersede and take the place of the individual water right ccntracts referred to in Public Notice No. 56.

B. The Secretary of the Interior on November 9, 1955, approved as to form a draft of repayment contract (Draft 10/17/55; Rev. W. O. 11/4/55) proposed to be entered into with the Tule Lake Irrigation District.

C. The Board of Directors of the Tule Lake Irrigation District has approved the form of the proposed contract referred to in B above, and has indicated that it will submit the contract for approval of the District landowners at an election to be held for that purpose in the immediate future and further will urge the Ditrict landowners to vote favorably on the contract.

D. Before the proposed contract can be executed on behalf of the District, the landowners must vote favorably on the contract and, pursuant to California law, certain other legal processes must be completed. Before the contract can be executed on behalf of the United States, the contract must be submitted to the Congress for legislative approval pursuant to Section 7 of the Reclamation Project Act of 1939.

E. Inasmuch as District Board action approving the form of the proposed contract has greatly enhanced the possibility of there being a valid executed repayment contract with the Tule Lake Irrigation District before the end of the 1956 irrigation season and in order to permit adequate time to complete the actions prerequisite to obtaining such an executed contract, and to provide a basis for the continuance of water deliveries to certain lands of the Tule Lake Division, it is desirable that Public Notices Nos. 55 and 56 be amended by the issuance of the Public Notice which follows:

1. Public Notice No. 56, dated August 25, 1955, establishes a date of December 1, 1955, for the payment of certain construction charges. The date for the initial installment due under this Notice is advanced from December 1, 1955, to December 1, 1956, and all other dates are accordingly advanced 1 year.

2. The development period established for certain lands of Tule Lake Division, Parts 1 and 2 in Public Notice No. 55, which is to expire on December 31, 1955, is hereby extended to November 30, 1956.

[SEAL] FRED G. AANDAHL,
Assistant Secretary of the Interior.

Office of the Secretary

[Order No. 2583, Amdt. 13]

LANDS AND RESOURCES: BUREAU OF LAND MANAGEMENT

DELEGATION OF AUTHORITY

NOVEMBER 28, 1955.

Order No. 2583, as amended (15 F. R. 5643, 6997; 16 F. R. 6805; 17 F. R. 7513, 10486; 18 F. R. 161, 3446, 5715; 19 F. R. 1021, 1937, 2555, 5919, and 6126), is further amended as follows:

1. Section 2.13 is amended to read:

SEC. 2.13 *Roads.* Matters involving the acquisition of rights-of-way and roads under the Act of July 26, 1955 (69 Stat. 374), including purchases after clearance with the Department of Justice but not including recommendations to the Attorney General for condemnation proceedings; also the approval of projects for the construction of roads to provide access to the timber on public lands subject to that act.

2. Section 2.45 is amended to read:

SEC. 2.45 *Mining claims.* Claims pursuant to the General Mining Laws and laws supplemental thereto, and 43 CFR Parts 69, 185, and 186.

3. Paragraph (a) of section 2.72 is amended to read:

SEC. 2.72 *Rights-of-way.* (a) Right-of-way permits and easements over public and acquired lands, including revested Oregon and California Railroad and reconveyed Coos Bay Wagon Road grant lands in Oregon, and over reservations other than Indian reservations, when authorized by law, and rights-of-way over the Outer Continental Shelf pursuant to 43 CFR Part 202. However, only the Secretary of the Interior may issue an order, pursuant to 43 CFR 244.9 (m), requiring the discontinuance, without liability or expense to the United States, of the use of a right-of-way for the purpose granted.

[SEAL] DOUGLAS MCKAY,
Secretary of the Interior.

[1375265]

COLORADO, WYOMING, UTAH

MODIFYING DEPARTMENTAL ORDERS OF MAY 29, 1930, WHICH CONSTRUED OIL SHALE WITHDRAWALS MADE BY EXECUTIVE ORDER NO. 5327 OF APRIL 15, 1930

The three orders of the Secretary of the Interior dated May 29, 1930, construing Executive Order No. 5327 of April 15, 1930, entitled "Withdrawal of Public Oil Shale Deposits and Lands Containing Same for Classification", in part to apply to all lands which were indicated upon maps of the States of Colorado, Utah, and Wyoming, as oil shale lands, upon the margin of which maps the said orders were endorsed, are hereby modified to the extent necessary to provide that a classification by the Geological Survey, heretofore or hereafter made, of any of the lands delineated upon the maps, as being in fact non-oil shale in character, shall constitute an amendment, as of the date of the classification, of the order or orders of May 29, 1930, and an exclusion of the lands from the area or areas delineated upon such maps.

[SEAL] DOUGLAS MCKAY,
Secretary of the Interior.

Office of the Secretary

TRANSFER OF CERTAIN FUNCTIONS AMONG DEPARTMENTAL AGENCIES

Pursuant to the authority contained in section 161, Revised Statutes (5 U. S. C. 22) and Reorganization Plan No. 2 of 1953, sections 200, 300, and 400 of the Secretary's order of December 24, 1953 (19 F. R. 74), are amended and supplemented (1) to assign to the Agricultural Research Service the use, administration and disposition under Title III of the Bankhead-Jones Farm Tenant Act (7 U. S. C. 1010–1012) and the related provisions of Title IV thereof of lands heretofore transferred or hereafter transferred with the approval of the Assistant Secretary; (2) to except the administration of the Brooksville Nursery in Hernando County, Florida, from the Title III functions assigned to the Soil Conservation Service; and (3) to exclude the administration of the Title III lands heretofore or hereafter transferred to the Agricultural Research Service from the functions assigned to the Forest Service, and to read as follows:

1. SEC. 200. *Assignment of functions.*
• • •

1. The use, administration and disposition under Title III of the Bankhead-Jones Farm Tenant Act (7 U. S. C. 1010–1012) and the related provisions of Title IV thereof of lands which have heretofore been transferred or which hereafter may be transferred by agreement between the interested agencies with the approval of the Assistant Secretary.

2. SEC. 300. *Assignment of functions.*
• • •

h. The use, administration and disposition under Title III of the Bankhead-Jones Farm Tenant Act (7 U. S. C. 1010–1012), of lands under the administration of this Department including the custodianship of lands under lease to States and local agencies, except as otherwise assigned in 9 AR 200–1 and 400–e.

3. SEC. 400. *Assignment of functions.*
• • •

e. The use, administration and disposition under Title III of the Bankhead-Jones Farm Tenant Act (7 U. S. C. 1010–1012) and the related provisions of Title IV thereof of the nursery projects designated and described in Executive Order No. 10516 of January 26, 1954 (19 F. R. 467).

Done at Washington, D. C., this 29th day of November 1955.

[SEAL] E. L. PETERSON,
Assistant Secretary of Agriculture.

DEPARTMENT OF LABOR

Wage and Hour Division

[Administrative Order 452]

REPRESENTATIVE OF EMPLOYEES ON SPECIAL INDUSTRY COMMITTEES

NOTICE OF RESIGNATION AND APPOINTMENT

Lewis C. Harkins of Silver Spring, Maryland, having resigned as representative of the employees on Special Industry Committees Nos. 18-C and 18-D for Puerto Rico, the Secretary of Labor, pursuant to authority under the Fair Labor Standards Act of 1938, as amended, (52 Stat. 1060, as amended; 29 U. S. C. 201 et seq.), hereby appoints Samuel Baron of Washington, D. C., to serve in his stead as a representative of the employees on such Committees.

Signed at Washington, D. C., this 30th day of November 1955.

JAMES P. MITCHELL,
Secretary of Labor.

[Docket Nos. 11551, 11552; FCC 55-1156]

RADIO KYNO, VOICE OF FRESNO (KYNO) AND WRATHER-ALVAREZ BROADCASTING, INC. (KFMB)

ORDER DESIGNATING APPLICATIONS FOR CONSOLIDATED HEARING ON STATED ISSUES

In re applications of Amelia Schuler, Lester Eugene Chenault and Bert Williamson, d/b as Radio KYNO, The Voice of Fresno (KYNO), Fresno, California, Docket No. 11551, File No. BP-9511; Wrather-Alvarez Broadcasting, Inc. (KFMB), San Diego, California, Docket No. 11552, File No. BP-9794; for construction permits.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 23d day of November 1955;

The Commission having under consideration the above-entitled applications for construction permits by Radio KYNO, The Voice of Fresno, to change the facilities of Station KYNO, Fresno, California, from operation on 1300 kilocycles with a power of 1 kilowatt, directional antenna, unlimited time, to operation on 540 kilocycles with a power of 1 kilowatt, directional antenna, daytime only; and by Wrather-Alvarez Broadcasting, Inc. to change the facilities of Station KFMB, San Diego, California, from operation with a directional antenna day and night to operation with a directional antenna nighttime only on 540 kilocycles with a power of 5 kilowatts, unlimited time;

It appearing that each of the applicants is legally, technically, financially and otherwise qualified, except as may appear from the issues specified below, to operate its station as proposed, but that operation by both stations as proposed would involve mutual interference; that the operation of Station KYNO as proposed would involve interference to Station KSFO, San Francisco, California, and the proposed directional antenna system may not meet the minimum efficiency requirements of the Commission's Standards of Good Engineering Practice, and the site photograph does not show sufficient detail from which a determination can be made of whether the proposed site is satisfactory; and the proposed operation of Station KFMB would cause interference to Station KBAK, Bakersfield, California; and

It further appearing that pursuant to section 309 (b) of the Communications Act of 1934, as amended, the subject applicants were advised by letters dated December 10, 1954, and August 23, 1955, of the aforementioned deficiencies and that the Commission was unable to conclude that a grant of either application would serve the public interest; and

It further appearing that a timely reply was filed by each of the applicants; and

It further appearing that in a letter dated July 27, 1955, Station KBAK, Bakersfield, California, agreed to accept the interference which would be caused to it by the proposed operation of Station KFMB, in consideration of KFMB's accepting from any future proposal of KBAK interference not in excess of that which would result from 1 kilowatt, nondirectional operation of KBAK; however this agreement cannot operate to preclude the Commission from considering the effect of this interference in its evaluation of the KFMB proposal; and

It further appearing that in a letter dated September 6, 1955, Station KSFO requested that the application of Station KYNO be designated for hearing on grounds of the above-described interference; and

It further appearing that while Station KFMB in letters dated September 22, October 7 and October 27, 1955, requested an extension of time to November 28, 1955, in which to reply to the Commission's letter of August 23, 1955, and complete a projected agreement with Station KYNO whereby it would accept the interference caused to it by KFMB's proposal, such an agreement, upon proper motion, can be made a part of the record in the proceeding herein provided for; and

It further appearing that the Commission, after consideration of the foregoing, is of the opinion that a hearing is necessary;

It is ordered, That pursuant to section 309 (b) of the Communications Act of 1934, as amended, the said applications are designated for hearing in a consolidated proceeding, at a time and place to be specified in a subsequent order, upon the following issues:

1. To determine the areas and populations which may be expected to gain or lose primary service from the proposed operation of Stations KYNO and KFMB and the availability of other primary service to such areas and populations.

2. To determine whether the proposed operations of Stations KYNO and KFMB would involve mutual interference and, if so, the nature and extent thereof, the areas and populations affected thereby and the availability of other primary service to such areas and populations.

3. To determine whether the proposed operation of Station KYNO would involve objectionable interference with Station KSFO, San Francisco, California, or any other existing station, and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other primary service to such areas and populations.

4. To determine whether the directional antenna system proposed by Station KYNO would meet the minimum efficiency requirements of the Commission's Standards of Good Engineering Practice.

5. To determine whether the site proposed by Station KYNO would be satisfactory.

6. To determine whether the proposed operation of Station KFMB would cause interference to Station KBAK, Bakersfield, California, or any other existing station, and, if so, the nature and extent thereof, the areas and populations affected thereby and the availability of other primary service to such areas and populations.

7. To determine in light of section 307 (b) of the Communications Act of 1934, as amended, which of the operations proposed in the above-entitled applications would better provide a fair, efficient and equitable distribution of radio service.

8. To determine, in light of the evidence adduced pursuant to the foregoing issues, which, if either, of the applications should be granted.

It is further ordered, That the issues in the above-entitled proceeding may be enlarged by the Examiner on his own motion or on petition properly filed by a party to the proceeding and upon sufficient allegations of fact in support thereof, by the addition of the following issue: To determine whether funds available to the applicant will give reasonable assurance that the proposal set forth in the application will be effectuated.

It is further ordered, That San Francisco Broadcasters, Inc., and Bakersfield Broadcasting Co., licensees of Stations KSFO, San Francisco, California, and KBAK, Bakersfield, California, respectively, are made parties to the proceeding.[1]

It is further ordered, That the above-described request by Station KFMB for extension of time to November 28, 1955, in which to further reply to the Commission's letter of August 23, 1955, is denied.

Released: November 28, 1955.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

[F. R. Doc. 55-9683; Filed, Dec. 2, 1955; 8:46 a. m.]

[Docket Nos. 11553, 11554; FCC 55-1157]

HAZARD BROADCASTING CORP. AND PERRY COUNTY BROADCASTING CO.

ORDER DESIGNATING APPLICATIONS FOR CONSOLIDATED HEARING ON STATED ISSUES

In re applications of Hazard Broadcasting Corporation, Hazard, Kentucky, Docket No. 11553, File No. BP-9726; Claude P. Stephens and Frank L. Jones, d/b as Perry County Broadcasting Company, Hazard, Kentucky, Docket No. 11554, File No. BP-9840; for construction permits.

At a session of the Federal Communications Commission held at its offices in

[1] The license of Station KBAK has been assigned to Paschall, Tullis and Hearne, and the call letters have been changed from KBAK to KAFY.

Washington, D. C., on the 23d day of November 1955;

The Commission having under consideration the above-entitled applications of the Hazard Broadcasting Corporation and Claude P. Stephens and Frank L. Jones, d/b as Perry County Broadcasting Company, each for a construction permit for a new standard broadcast station to operate on 1390 kilocycles with a power of 5 kilowatts, daytime only, at Hazard, Kentucky; and

It appearing that each of the applicants is legally, technically, financially and otherwise qualified, except as may appear from the issues specified below, to construct and operate its proposed station but that operation of both stations as proposed would result in mutually destructive interference; and that the operation proposed by the Perry County Broadcasting Company may be in contravention of the provisions of § 3.35 of the Commission's Rules on multiple ownership; and

It further appearing that pursuant to section 309 (b) of the Communications Act of 1934, as amended, the subject applicants were advised by letters dated July 5 and September 29, 1955, of the aforementioned deficiencies and that the Commission was unable to conclude that a grant of either application would be in the public interest; and

It further appearing that timely replies were received from each of the applicants; and

It further appearing that in pleadings filed on August 31 and October 18, 1955, by the Hazard Broadcasting Corporation it was contended that the proposal of the Perry County Broadcasting Company would be in contravention of the provisions of § 3.35 of the Commission's rules on multiple ownership because Frank L. Jones, a partner in the latter company, was an officer, director and stockholder of Station WTCW, Whitesburg, Kentucky until February, 1955 and is a brother-in-law of Kenneth J. Crosthwait, the majority stockholder of the KY-VA Broadcasting Corp., licensee of Station WTCW; and that Frank L. Jones is employed by WCTW as a salesman; that the 2 mv/m contours of the operation proposed by the Perry County Broadcasting Company and Station WTCW would overlap; and that the application was in fact filed on behalf of Kenneth J. Crosthwait; and

It further appearing that in a letter filed on October 28, 1955, by the Perry County Broadcasting Company it was stated that "There will be no joint operations of any nature [with WTCW], and except to the extent that Frank L. Jones may on occasion wish the benefit of his brother-in-law's counsel on operating problems, there will be no direct or indirect association between the two and the operation or control of their respective stations" and that accordingly no contravention of § 3.35 of the Commission's Rules would obtain; and that the application was not filed on behalf of Kenneth J. Crosthwait; and

It further appearing that after consideration of the foregoing the Commission is of the opinion that a hearing is necessary;

It is ordered, That pursuant to section 309 (b) of the Communications Act of 1934, as amended, the said applications are designated for hearing in a consolidated proceeding, at a time and place to be specified in a subsequent order, upon the following issues:

1. To determine the areas and populations which would receive primary service from each of the proposed operations, and the availability of other primary service to such areas and populations.

2. To determine whether a grant of the application of the Perry County Broadcasting Company would be in contravention of the provision of § 3.35 of the Commission's Rules on multiple ownership because of overlap with Station WTCW, Whitesburg, Kentucky; and WKYV, Harlan, Kentucky.

3. To determine which of the operations proposed in the above-entitled applications would better serve the public interest in the light of the evidence adduced under the foregoing issues and record made with respect to the significant differences between the applicants as to:

(a) The background and experience of each of the above-named applicants to own and operate its proposed station.

(b) The proposals of each of the above-named applicants with respect to the management and operation of the proposed stations.

(c) The programming service proposed in each of the above-mentioned applications.

4. To determine, in light of the evidence adduced pursuant to the foregoing issues, which, if either of the applications should be granted.

It is further ordered, That the issues in the above-entitled proceeding may be enlarged by the Examiner on his own motion or on petition properly filed by a party to the proceeding and upon sufficient allegations of fact in support thereof, by the addition of the following issue: To determine whether funds available to the applicant will give reasonable assurance that the proposal set forth in the application will be effectuated.

Released: November 28, 1955.

[Docket Nos. 11555, 11556; FCC 55-1158]

JOHN F. SHEA AND GREENVILLE BROADCASTING CORP. (WGYV)

ORDER DESIGNATING APPLICATIONS FOR CONSOLIDATED HEARING ON STATED ISSUES

In re applications of John F. Shea, Montgomery, Alabama, Docket No. 11555, File No. BP-9947; Greenville Broadcasting Corporation (WGYV), Greenville, Alabama, Docket No. 11556, File No. BP-9953; for construction permits.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 23d day of November 1955;

The Commission having under consideration the above-entitled applications of John F. Shea for a construction permit for a new standard broadcast station to operate on 1370 kilocycles with a power of one kilowatt, daytime only, at Montgomery, Alabama; and Greenville Broadcasting Corporation to change the facilities of Station WGYV, Greenville, Alabama, from operation on 1400 kilocycles with a power of 250 watts, unlimited time, to operate on 1380 kilocycles with a power of one kilowatt daytime only;

It appearing that each of the applicants is legally, technically, financially and otherwise qualified, except as may appear from the issues specified below, to operate its proposed station, but that the operation of both stations as proposed would result in mutually prohibitive interference; and

It further appearing that, pursuant to section 309 (b) of the Communications Act of 1934, as amended, the subject applicants were advised by letter dated October 3, 1955, of the aforementioned deficiency and that the Commission was unable to conclude that a grant of either application would serve the public interest; and

It further appearing that a timely reply was filed by each of the applicants; and

It further appearing that the Commission, after consideration of the replies, is of the opinion that a hearing is necessary;

It is ordered, That, pursuant to section 309 (b) of the Communications Act of 1934, as amended, the said applications are designated for hearing in a consolidated proceeding, at a time and place to be specified in a subsequent order, upon the following issues:

1. To determine the areas and populations which would receive primary service from the proposed operation of John F. Shea and the availability of other primary service to such areas and populations.

2. To determine areas and populations that would gain or lose service from the proposed operation of Station WGYV and the availability of other primary service to such areas and populations.

3. To determine in the light of section 307 (b) of the Communications Act of 1934, as amended, which of the operations proposed in the above-entitled applications would better provide a fair, efficient and equitable distribution of radio service.

4. To determine, in the light of the evidence adduced pursuant to the foregoing issues, which, if either, of the applications should be granted.

It is further ordered, That the issues in the above-entitled proceeding may be enlarged by the Examiner on his own motion or on petition properly filed by a party to the proceeding and upon sufficient allegations of fact in support thereof, by the addition of the following issue: To determine whether funds available to the applicant will give reasonable assurance that the proposal set forth in the application will be effectuated.

Released: November 29, 1955.

COLUMBIA-MT. PLEASANT AND SPRING HILL RADIO CORP. AND SAVANNAH BROADCASTING CO.

ORDER CONTINUING HEARING

In re applications of Columbia-Mt. Pleasant and Spring Hill Radio Corporation, Columbia, Tennessee, Docket No. 11444, File No. BP-9557; S. Q. Hanna, tr/as The Savannah Broadcasting Company, Savannah, Tennessee, Docket No. 11445, File No. BP-9697; for construction permits.

The Hearing Examiner having under consideration the applications in the above-entitled proceeding, on which a hearing is now scheduled to be held on December 5, 1955; and

It appearing that there are now pending before the Commission en banc (1) a petition by the Chief of the Broadcast Bureau requesting the dismissal with prejudice of the application of S. Q. Hanna tr/as The Savannah Broadcasting Company, and a reply in opposition thereto by that applicant; and (2) a petition by Columbia-Mt. Pleasant and Spring Hill Radio Corporation for reconsideration and grant of its application, a motion to strike the said petition by The Savannah Broadcasting Company, and related pleadings; and

It further appearing that a grant of either of the above petitions would obviate the necessity for the presently scheduled hearing;

It is ordered, This 28th day of November 1955, by the Hearing Examiner, on his own motion, that the hearing in the above-entitled proceeding be, and it is hereby, continued without date.

NIAGARA BROADCASTING SYSTEM (WNIA)

ORDER CONTINUING HEARING

In re application of Gordon P. Brown, tr/as Niagara Broadcasting System (WNIA), Cheektowaga, New York, Docket No. 11404, File No. BMP-6773; for modification of permit to extend completion date.

The Hearing Examiner having under consideration a petition, filed by applicant on November 23, 1955, for continuance of the hearing now scheduled for November 29, 1955, until January 10, 1956, on the grounds that petitioner's co-counsel and prospective witness in the matter is ill, and that there is now pending before the Commission a further petition for reconsideration of the Commission's action designating for hearing petitioner's application for modification of construction permit;

It appearing that counsel for the Broadcast Bureau does not oppose the requested continuance;

It is ordered, This 28th day of November 1955, that the petition for continuance is granted and the hearing is continued from November 29, 1955 to Tuesday, January 10, 1956 at 10:00 a.m. in the offices of the Commission, Washington, D. C.

[Docket Nos. 8730, 8840; FCC 55-1166]

WWSW, INC., AND PITTSBURGH RADIO SUPPLY HOUSE, INC.

MEMORANDUM OPINION AND ORDER REOPENING RECORD AND DESIGNATING FOR FURTHER HEARING ON SPECIFIED ISSUES

In re applications of WWSW, Inc., Pittsburgh, Pennsylvania, Docket No. 8730, File No. BPCT-254; Pittsburgh Radio Supply House, Inc., Pittsburgh, Pennsylvania, Docket No. 8840, File No. BPCT-345; for television construction permits.

1. Following the grant of WWSW's application herein, Telecasting filed with the Commission on August 22, 1955 a document entitled Petition Protesting Grant and for Reconsideration and Rehearing. WWSW, Pittsburgh Radio Supply House, the Broadcast Bureau and petitioner have filed numerous documents[1] treating on the points raised by the petition. The protest has already been disposed of by denial for the reasons detailed in our Memorandum Opinion and Order released September 23, 1955 (FCC 55-968, Mimeo No. 22964). The petition for reconsideration and rehearing and for a stay of the effective date of the grant to WWSW remain to be decided.[2] For the reasons which we will set forth, we propose to grant reconsideration and rehearing, to allow Telecasting to participate in the hearing, and to deny the request for a stay.

2. Our reconsideration of the grant, particularly in the light of the merger contract, convinces us that further hearing on issues which we will specify is necessary. Embodied in the merger contract are provisions which indicate that there may have been an unauthorized transfer of control and other violations of the Communications Act and of the rules and policies of the Commission. Telecasting has called attention to various provisions and aspects of the merger agreement which are alleged to be either contrary to law or not in the public interest, and the Broadcast Bureau has detailed the objectionable nature of certain of the contractural provisions. In reply, WWSW and Pittsburgh Radio Supply have stated that certain of the aforementioned provisions have been deleted by amendment and that the remaining provisions furnish no ground for rehearing.

[1] Petition protesting grant and for reconsideration or rehearing filed by Telecasting August 22, 1955; Broadcast Bureau Comment filed September 1, 1955; Motion to dismiss and opposition filed by Pittsburgh Radio Supply House, Inc., on September 1, 1955; Motion to dismiss filed by WWSW, Inc., on August 23, 1955; Brief in support of motion to dismiss re petition for rehearing filed by WWSW, Inc., on August 24, 1955; Reply to motion to dismiss filed by Telecasting on September 6, 1955; Reply to Broadcast Bureau comment filed by Pittsburgh Radio Supply House and WWSW on September 6, 1955; Response to comments of Broadcast Bureau filed by Telecasting on September 7, 1955.

[2] In this Opinion we are not considering the Supplement to Petition for Reconsideration and Petition to Designate BMPCT-3486 For Hearing, filed by Telecasting on November 3, 1955.

3. The parties to the June 2, 1955, merger contract are P. G. Publishing Company (hereinafter sometimes referred to as P. G. Publishing) which owns all the capital stock of WWSW; WWSW, Inc.; Pittsburgh Radio Supply House, Inc. (hereinafter sometimes referred to as Supply House); and the Supply House Stockholders (H. Kenneth Brennen, Margaret M. Brennen and Mary Thelma Bregenser) who own 55 percent of the stock of Supply House. In broad terms, the merger agreement contemplates equal ownership in WWSW television station by P. G. Publishing and the Supply House group. The present broadcast operations of WWSW are to be transferred to a new corporation still under the control of P. G. Publishing, and Supply House is to dispose of WJAS (AM) and FM, its stations.

4. In the reorganization of WWSW which is specified by the agreement various corporate actions in addition to transfer of the existing WWSW broadcast operations are to be taken by WWSW preparatory to consummation of the merger. Notes in the amount of $500,000 are to be issued in the form specified by an exhibit to the contract and 2,500 shares each of Class A and Class B stock ($100 par value) are to be authorized. P. G. Publishing will buy all of the notes, all of the Class B stock, and 1,500 of the 2,500 shares of Class A,[2] depositing in escrow the purchase price of $900,000 ($500,000 for the notes, $250,000 for the Class B shares, and $150,000 for the 1,500 shares of Class A). The 2,500 Class B shares and $250 000 of the notes are also to be deposited in escrow to be held in trust for the Supply House stockholders. Ten days after deposit of the sum of $900,000 by P. G. Publishing, Supply House is to deposit with the escrow agent $500,000 for the stock and notes being held in trust for Supply House by the escrow agent. Upon transfer of specified assets and liabilities of WWSW (primarily those reflecting existing broadcast operations) to the new corporation to be formed, the $900,000 deposit made by P. G. Publishing is to be delivered by the escrow agent to WWSW in full payment for the subscription to the Class A and Class B stock and the notes. This sum is to finance construction of the television station. However, the $500,000 deposited by Supply House and the stock and notes held by the escrow agent for Supply House are not to be transferred at this time.

5. Supply House's anticipated disposition of WJAS (AM) and FM requires Commission approval, and upon the filing of an application covering such a transfer P. G. Publishing is to file an application to permit the sale and transfer to the Supply House stockholders of the stock and notes held in escrow. Approval for the latter transfer must be secured within three years. When disposition of WJAS (AM) and FM and transfer of the stock and notes have been approved by the Commission, the escrow agent will deliver the stock and notes to the Supply House stockholders and the $500,000 to P. G. Publishing.

6. Although approval of the transfer of the stock and notes may be delayed as much as three years from the date of the agreement (i. e., until June 1958), several provisions of the June 2 contract suggest the exercise of a degree of control by Supply House stockholders before then. Section 3.03 of the contract states that upon transfer of WWSW's existing broadcast assets to the new corporation, WWSW will enter into employment contracts with six named persons at specified salaries. Three of these persons appear to be presently affiliated with Supply House as directors, officers or stockholders. The contract with H. Kenneth Brennen, who is president, assistant treasurer, director and stockholder of Supply House, provides for five years employment at a minimum annual salary of $25,000, although his employment is not to commence until final consummation of the merger agreement. Two of the contracts are to take effect upon final consummation of the merger "or the time when WWSW begins transmitting regular television programs, whichever is earlier." The two persons involved are H. H. Stehman who is vice president, secretary and director of Supply House and who is to be employed for four years at an annual salary of $11,000 and Caley Augustine who is a director of Supply House and is to be paid $10,000 a year. The merger contract makes no provision for severance by these three individuals of their connections with Supply House.

7. The merger agreement contemplates amendment of WWSW's by-laws to provide for seven directors, three of whom are to be elected by Supply House after the merger is consummated. In the interim, other arrangements are prescribed. Immediately after Supply House has deposited $500,000 with the escrow agent,[4] P. G. Publishing is to cause the WWSW board of directors to be increased to seven. Four vacancies are to be created, and three of these four vacancies are to be filled by specifically named persons who appear to be nominees of Supply House and will act as if they were the owners of the Class B stock to which Supply House is entitled upon consummation of the merger. P. G. Publishing promises that during the interim period it will vote its stock in favor of the three named persons or their nominees.

8. By terms of the agreement, restrictions are placed upon the activities which may be conducted by WWSW prior to consummation of the merger. Until the interim directors are elected, WWSW may conduct no business and will incur no liabilities other than those provided for or contemplated by the agreement. During the same period Supply House stockholders are to have access to the books, records and accounts of WWSW in order to assure themselves that the provisions of the agreement have been and are being met. From the date of agreement until consummation, no amendments to the articles of incorporation or by-laws of WWSW other than those provided for in the contract shall be made without the prior written consent of the Supply House stockholders. The corporate proceedings whereby the by-laws are amended to provide for additional directors shall be in a form and substance satisfactory to counsel for the Supply House stockholders.

9. In the foregoing discussion it has been noted that the occurrence of one or the other of two events is the condition precedent to the ripening of various rights and obligations of the parties. One of these events, designated in the agreement as the first effective date, is the date when the transfer of existing station assets and liabilities of WWSW to the new corporation takes place. On July 13, 1955, the Commission consented to the assignment of licenses from WWSW, Inc. to WWSW Radio, Inc. According to advice received from WWSW, the actual transfer took place on August 1, 1955. The other conditioning event is the deposit in escrow of $500,000 by Supply House within ten days after deposit in escrow of $900,000 by P. G. Publishing. The latter deposit was to take place within 10 days after WWSW had amended its articles of incorporation to provide for recapitalization in the manner heretofore described. This amendment was to take place within 10 days after the date of the agreement, June 2, 1955. Thus, by July 2 at the latest the $500,000 deposit should have been made, this date being prior to finalization of the grant to WWSW.

10. One further matter related to the foregoing concerns the possibility of overlap between WWSW and WHJB. Supply House is the licensee of the latter station which is situated at Greensburg, Pennsylvania. According to data in the Commission's files, there appears to be a substantial daytime overlap of the 2.0 mv/m contours of WWSW and WHJB as well as some overlap of primary nighttime service areas of the two.

11. From the foregoing discussion it appears not only that the agreement contains provisions which may involve unauthorized transfer of control of WWSW to Supply House, violation of Section 3.35 of the Rules, and violations of Commission policy, but also that by the terms of the agreement various of these provisions are now operative. That some of them became effective prior to the time our finalization of the grant took place is also apparent. The Commission's attention has been directed to the fact that on or about August 31, 1955, amendments to the contract were filed by the parties thereto, the purport of which was to delete the provision for the selection by Supply House of some of the interim directors of WWSW and to alter the employment contract provisions so that no person involved in any potential employment agreement may simultaneously be connected with WWSW and Supply House. Nevertheless, the Commission is not satisfied that the problems described above have been resolved altogether by the submission of the amendments. The latter are not part of the record in the case; the amendments were not filed until nearly two months after several of the questionable provisions could have gone into effect; and even with the elimination of the provisions which were the subject of amendment, there are other provisions, such as those giving veto power to Supply House, which raise questions of the degree of control exercised by Supply House. Having the foregoing in mind, it is our considered opinion that a rehearing is necessary to determine all the facts and circumstances relative to the possible unauthorized transfer of control to Supply House and to the possible violations of Section 3.35 of the Rules and of Commission policy.

12. Problems concerning financial qualification also arise. In the amendment to its application which WWSW filed in February 1954, a total estimated cost of construction of $1,909,348.70 was stated, this sum to be financed out of $350,000 of existing WWSW capital, a loan from the New York Trust Company in the amount of $1,500,000 guaranteed by P. G. Publishing, and $520,000 in deferred credit payments to RCA. Our examination of the record has revealed no change in the estimated cost of construction although the new financing arrangement described in the merger agreement shows financing of $1,000,000. This sum plus the $520,000 of deferred payments (assuming these to be still available) leaves a shortage in finances of $389,348.70. Whereas prior to merger WWSW planned to rely upon existing capital of $350,000, that sum, except for $100,000 included in the $1,000,000 figure above, is no longer available, having been transferred to the new corporation to which the AM and FM licenses were assigned. No indication is given that any funds will now be supplied by New York Trust, and the changes in financing anticipated by the merger agreement leave it unclear how the sums for which each party is obligated will be raised. Thus, an issue on financial qualifications must be included in the rehearing hereinafter to be ordered.

13. Telecasting's petition for rehearing contains allegations and proposed issues on various other matters, but our appraisal of them persuades us that their consideration in the hearing is not warranted. Thus, no new arguments are offered which require that we disturb our previous action in dismissing the Supply House application. Likewise, we are not moved by Telecasting's reiterated contention that the policy we have followed in this and other merger cases of retaining the remaining television applicant in hearing status is incorrect. The reasons why we refused to designate Telecasting's application for the same channel for a comparative hearing against the remaining WWSW application after Supply House was dismissed have not been attacked by any new arguments not previously weighed and rejected by the Commission.

14. Telecasting asserts that the Commission should specify an issue in the further hearing to determine whether "it is in the public interest to grant an additional VHF channel in Pittsburgh until pending de-intermixture rule-making proceedings have been decided and the future policy of the Commission on de-intermixture has been enunciated." A related issue concerning the effect a second VHF commercial grant in Pittsburgh will have on existing UHF operations is also requested.

15. In view of the actions taken by us on November 10, 1955 in connection with the de-intermixture rule-making proceedings and petitions,[5] we believe inclusion of the requested issue is clearly inappropriate. To add such issue could lead to an inappropriate interposition in an adjudicatory proceeding of matters essentially rule-making in nature. Moreover, if such an intermingling of rule-making matters with adjudicatory matters were appropriate, Telecasting's request for an issue in these regards is tardy. Unlike the questions raised by the merger agreement, questions which could not be raised earlier because the facts of the agreement were not previously known, the UHF–VHF problem and the related possibility of economic injury to UHF stations in Pittsburgh have been known for some time. No showing has been made by Telecasting why inclusion of issues relating to these matters was not sought by appropriate petition filed at an earlier stage of the proceeding in the manner provided by the Commission's Rules.[6] The tardiness of the request is particularly applicable to the proposed "economic injury" issue, for the fact that Telecasting would ultimately be subjected to the economic effects of competition from an additional VHF station in Pittsburgh has been apparent for at least as long as the applications for the instant television channel have been on file.

16. Telecasting has requested that it be made a party to any rehearing ordered. With respect to those matters which are being placed in issue hereinafter participation is warranted. Petitioner called these matters to the Commission's attention thereby raising the questions as to the propriety of the grant to WWSW. It is apparent that it was not possible for petitioner to raise these matters until the final stages of the proceeding. Thus, good cause for allowing Telecasting to participate in this phase of the proceeding has been shown.

17. The issuance of an order temporarily staying the effectiveness of the grant to WWSW until completion of the rehearing proceeding is not, in our opinion, desirable. It has not been shown how the public interest would be injured by allowing construction authorized by the permit to continue, for the use of the material and equipment so constructed, of course, will be subject to the outcome of the rehearing. No irreparable injury to petitioner has been shown to justify the stay.

18. In view of the foregoing: *It is ordered*, This 25th day of November 1955, that to the extent hereinafter indicated by the issues specified the petition for rehearing and reconsideration is granted, that Telecasting, Inc., is made a party to the rehearing ordered, that the petition for stay of the effective date of the grant to WWSW is denied, and that the record is reopened and designated for further hearing on the following issues:

1. To ascertain the effect of the June 2, 1955 agreement, the provisions of any amendments thereto either formal or informal and their effect if any upon such agreement, and whether there are any understandings between the parties to the agreement affecting said agreement.

2. To determine the extent to which the terms and provisions of the June 2 agreement have been or will be effectuated and the dates upon which such effectuations have taken or will take place.

3. To determine whether implementation of the terms of the June 2 agreement or any amendments or understandings in relation thereto have resulted or will result in transfer of control from WWSW to Supply House and whether such transfer of control, if any, is contrary to the provisions of section 310 (b) of the Communications Act of 1934, as amended, and the Commission's rules and policies thereunder.

4. To determine whether, pending disposition of WJAS (AM) and FM by Supply House, the relationship of the parties to the June 2 agreement as expressed in said agreement and any amendments or understandings with respect thereto results in a violation of Commission policy expressed in Macon Television Co., 7 Pike & Fischer RR 703 and 897.

5. To determine the extent of overlap between Station WWSW and Station WHJB and whether such overlap results or will result in a violation of Commission policy expressed in Macon Television Co., supra.

6. To determine the effect of the June 2 agreement upon WWSW's financial qualifications and whether WWSW remains financially qualified to construct, own and operate the station as proposed in its application as amended.

7. To determine in the light of the evidence adduced under the foregoing issues whether the grant to WWSW, Inc. should be set aside.

Released: November 28, 1955.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

[F. R. Doc. 55-9711; Filed, Dec. 2, 1955; 8:49 a. m.]

[2] WWSW retains 1,000 shares of Class A stock.

[4] See paragraph 4, supra.

[5] (a) In the Matter of Amendment of Section 3.606, Dockets Nos. 11238 et al., (FCC 55-1125); (b) Notice of Proposed Rule Making, Docket No. 11532 (FCC 55-1124); and (c) In the Matter of Amendment of Part 3 of the Commission's Rules (FCC 55-1126).

[6] Telecasting's reliance on isolated language in the Notice of Further Rule Making in Docket No. 11238 (Vail Mills-Albany) released April 21, 1955 (FCC 55-492) is no excuse for Telecasting's delay.

GENERAL SERVICES ADMINISTRATION

CHINESE HOG BRISTLES

DISPOSITION OF THOSE HELD IN NATIONAL STOCK PILE

Pursuant to the provisions of section 3 (e) of the Strategic and Critical Materials Stock Piling Act, 60 Stat. 597, 50 U. S. C. 98b (e), notice is hereby given of a proposed disposition of approximately 2,000,000 pounds of Chinese hog

bristles now held in the National Stock Pile.

This quantity of Chinese hog bristles is no longer needed in the Stock Pile because of a revised determination by the Office of Defense Mobilization that Chinese hog bristles are obsolescent for use in time of war because of the development of new non-strategic substitute materials.

The Chinese hog bristles to be disposed of will be offered for sale in lots of the quantity and composition sold in the usual markets. It is believed that this plan will protect the United States againt avoidable loss and also protect producers, processors and consumers against avoidable disruption of their usual markets.

This material will be available for disposition on and after June 4, 1956.

Dated: November 29, 1955.

R. A. HEDDLESTON,
Acting Commissioner,
Emergency Procurement Service.

FEDERAL REGISTER

VOLUME 20 NUMBER 236

Washington, Tuesday, December 6, 1955

UNIV. OF MICHIGAN DEC 9 1955 MAIN READING ROOM

TITLE 12—BANKS AND BANKING

Chapter I—Federal Deposit Insurance Corporation

PART 329—PAYMENT OF DEPOSITS AND INTEREST THEREON BY INSURED NONMEMBER BANKS

MISCELLANEOUS AMENDMENTS

Effective December 7, 1955, the amendment of § 329.0 of the rules and regulations of the Corporation which was published in the FEDERAL REGISTER of October 25, 1955 (20 F. R. 8019), under Notice of Proposed Rule Making, is adopted, after consideration of all relevant matter presented by interested persons on the proposed amendment, with further amendment by deleting the words "the United States of America and the District of Columbia" therein and substituting therefor the words "the States of the United States and the District of Columbia".

The amendment of paragraph (e) of § 329.1, providing for the renumbering thereof, as set forth below, is adopted effective December 7, 1955, and, as this change does not diminish the rights of insured banks, notice of it as a proposed rule is found to be unnecessary.

The amendments of the regulations, as adopted, are as follows:

1. Section 329.0 is amended by deleting the last sentence thereof and by substituting in lieu thereof the following sentence: "The provisions of this part do not apply to mutual savings banks, or to guaranty savings banks operating in the State of New Hampshire so long as said guaranty savings banks operate substantially under and pursuant to the laws of the State of New Hampshire pertaining to mutual savings banks and do not engage in commercial banking, or to any deposit in a bank located outside of, or payable only at a bank's office which is located outside of, the States of the United States and the District of Columbia."

2. Paragraph (e) of § 329.1 is amended to read as follows:

(e) *Savings deposits.* (1) The term "savings deposit" means a deposit evidenced by a pass book consisting of funds (i) deposited to the credit of one or more individuals or of a corporation, association, or other organization operated primarily for religious, philanthropic, charitable, educational, fraternal, or other similar purposes and not operated for profit,[4] or (ii) in which the entire beneficial interest is held by one or more individuals or by such a corporation, association, or other organization and in respect to which:

(*a*) The depositor is required, or may at any time be required, by the bank to give notice in writing of an intended withdrawal not less than thirty (30) days before such withdrawal is made; or the bank consistently continues to adhere to a practice existing prior to January 23, 1936, of requiring notice of at least fifteen (15) days before permitting withdrawal;

(*b*) Withdrawals are permitted in only two ways, either upon presentation of the pass book through payment to the person presenting the pass book, or without presentation of the pass book, through payment to the depositor himself but not to any other person, whether or not acting for the depositor.[5]

(2) The provisions of subparagraph (1) (i) and (ii) of this paragraph limiting savings deposits to funds of certain classes of persons, shall not be applicable to deposits received and credited on or before February 1, 1936, to accounts evidenced by pass books in insured nonmember banks and these deposits, together with interest subsequently payable on such deposits, less any withdrawals from such accounts, may be classed by insured nonmember banks as savings deposits under the terms of this paragraph, even though such deposits belong to an association, organization, or corporation organized for profit. The said provisions of subparagraph (1) (i)

[4] Deposits in joint accounts of two or more individuals may be classified as savings deposits if they meet the other requirements of the above definition, but deposits of a partnership operated for profit may not be so classified. Deposits to the credit of an individual of funds in which any beneficial interest is held by a corporation, partnership, association, or other organization operated for profit or not operated primarily for religious, philanthropic, charitable, educational, fraternal, or other similar purposes may not be classified as savings deposits.

[5] Presentation of a pass book may be made over the counter or through the mails; and payment may be made over the counter, through the mails or otherwise, subject to the limitations contained herein as to the person to whom such payment may be made.

and (ii) of this paragraph, however, shall be applicable to deposits received subsequently to February 1, 1936, whether or not such deposits are credited to an account existing prior to February 1, 1936.

(3) The presentation by any officer, agent or employee of the bank of a pass book or a duplicate thereof retained by the bank of by any of its officers, agents or employees is not a presentation of the pass book within the meaning of this part except where the pass book is held by the bank as a part of an estate of which the bank is a trustee or other fiduciary, or where the pass book is held by the bank as security for a loan. If a pass book is retained by the bank, it may not be delivered to any person other than the depositor for the purpose of enabling such person to present the pass book in order to make a withdrawal, although the bank may deliver the pass book to a duly authorized agent of the depositor for transmittal to the depositor.

(4) Every withdrawal made upon presentation of a pass book shall be entered in the pass book at the time of the withdrawal, and every other withdrawal shall be entered in the pass book as soon as practicable after the withdrawal is made.

(5) The term "savings deposit" also means a deposit evidenced by a written receipt or agreement although not by a pass book, consisting of funds of the kind described above in this paragraph and in respect to which deposit the depositor is required, or may at any time be required, by the bank to give notice in writing of an intended withdrawal not less than thirty (30) days before such withdrawal is made, and withdrawals are permitted only through payment to the depositor himself but not to any other person whether or not acting for the depositor.[5a]

[5a] Payment may be made to the depositor over the counter, through the mails or otherwise.

TITLE 7—AGRICULTURE

Chapter VII—Commodity Stabilization Service (Farm Marketing Quotas and Acreage Allotments), Department of Agriculture

[Amdt. 2]

PART 722—COTTON

ACREAGE ALLOTMENTS FOR 1956 CROP OF UPLAND COTTON

Basis and purpose. The purpose of this amendment is to establish the county acreage allotments for the 1956 crop of upland cotton in the State of Texas pursuant to section 344 (e) of the Agricultural Adjustment Act of 1938, as amended. Notice of the proposed establishment of such allotments was given on August 31, 1955 (20 F. R. 6387), pursuant to section 4 of the Administrative Procedure Act (5 U. S. C. 1003), and in the regulations issued pursuant to said notice it was provided in § 722.716 (e) that that paragraph would be amended at a later date to include the county acreage allotment established for each county. Furthermore, farmers engaged in the production of upland cotton in 1955 will determine in a referendum to be held on December 13, 1955, whether marketing quotas will be in effect on the 1956 crop of upland cotton. In order that county acreage allotments may be apportioned to farms and notices of individual farm acreage allotments mailed, insofar as practicable, so as to be received by farmers prior to the referendum, as required by section 362 of the Agricultural Adjustment Act of 1938, as amended, it is essential that this amendment be made effective as soon as possible. Accordingly, it is hereby determined and found that compliance with the notice and public procedure thereon and the 30-day effective date requirements of section 4 of the Administrative Procedure Act is impracticable, unnecessary, and contrary to the public interest, and the county acreage allotments contained herein shall be effective upon filing of this document with the Director, Division of the Federal Register.

The State Agricultural Stabilization and Conservation Committee for the State of Texas has established under section 344 (e) of the act and § 722.716 of the regulations a reserve of 10 percent of the State acreage allotment for 1956 of 7,410,893 acres, or 741,089 acres, and determined that said reserve should be used as follows:

	Percent	Acres
(a) To adjust computed county acreage allotments for trends in the acreage of cotton	0.000	0
(b) To adjust computed county acreage allotments for counties adversely affected by abnormal conditions affecting plantings of cotton	.085	633
(c) To make adjustment in acreage allotments for small farms	34.718	255,063
(d) To establish 1956 acreage allotments for new cotton farms	2.689	19,928
(e) To correct inequities in farm allotments and to prevent hardship	62.808	465,465

The acreage available for adjusting county acreage allotments for counties adversely affected by abnormal conditions affecting plantings has been allocated by the State committee to Ector County (27 acres), Loving County (19 acres), and Ward County (587 acres), and such acreage adjustments are included in the county acreage allotments hereinafter set forth for these counties. Initial allocations of the reserve to make adjustments in acreage allotments for small farms and to correct inequities in farm allotments and to prevent hardship have been made by the State committee to the counties as follows:

County	To make adjustments in acreage allotments for small farms	To correct inequities in farm allotments and to prevent hardship
Anderson	4,287	1,229
Andrews	16	337
Angelina	1,121	339
Aransas	7	40
Archer	198	125
Armstrong	33	384

The foregoing actions of the State committee are hereby approved, and § 722.716 (e) is amended as hereinafter set forth.

Section 722.716 (e) of the Regulations Pertaining to Acreage Allotments for the 1956 Crop of Upland Cotton (20 F. R. 8247), as amended, is further amended by adding between the county acreage allotments for Tennessee and those for Virginia the county acreage allotments for counties in Texas as follows:

TITLE 14—CIVIL AVIATION

Chapter I—Civil Aeronautics Board

Subchapter B—Economic Regulations

PART 207—CHARTER TRIPS AND SPECIAL SERVICES

TEMPORARY AUTHORIZATION FOR NATIONAL DEFENSE TRANSPORTATION

By order of the Board, No. E-9756, dated November 18, 1955, the effectiveness of the provisions of § 207.11 was further extended to December 1, 1956.

(Sec. 205, 52 Stat. 984; 49 U. S. C. 425)

Dated: November 30, 1955.

By the Civil Aeronautics Board.

[SEAL] M. C. MULLIGAN,
Secretary.

[F. R. Doc. 55-9778; Filed, Dec. 5, 1955; 8:51 a. m.]

TITLE 32A—NATIONAL DEFENSE, APPENDIX

Chapter XVI—Agricultural Marketing Service, Department of Agriculture

[Defense Food Order 2, as Amended, Termination]

DFO 2—PROCESSED FRUITS AND VEGETABLES: SET ASIDE REQUIREMENTS

TERMINATION

It is hereby found and determined that the provisions of Defense Food Order 2, as amended (16 F. R. 3345, 4981; 19 F. R. 58) are at this time not necessary to promote the national defense; therefore, the order is hereby terminated effective December 1, 1955:

Provided, That with respect to violations, rights accrued, liabilities incurred, or appeals taken with respect to said Defense Food Order No. 2, as amended, prior to the effective date of the provisions hereof, all provisions of said Defense Food Order No. 2, as amended, shall be deemed to continue in full force and effect for the purpose of sustaining any proper suit, action, or other proceeding with respect to any such violation, right, liability, or appeal.

Defense Food Order 2 essentially is a Delegation of Authority and no set aside requirements are in effect under its provisions. Further, military requirements are being obtained under procurement other than through set asides. Since the termination of this order is a matter of internal management, industry consultation is not necessary with respect to this action.

(Sec. 704, 64 Stat. 816 as amended; 50 U. S. C. App. 2154)

[SEAL] ROY W. LENNARTSON,
Deputy Administrator.

[F. R. Doc. 55-9782; Filed, Dec. 5, 1955; 8:51 a. m.]

[Defense Food Order 4, as Amended, Termination]

DFO 4—REGULATIONS GOVERNING FILING OF AND ACTIONS ON PETITIONS FOR RELIEF FROM HARDSHIP AND OTHER ADJUSTMENTS AND EXCEPTIONS AND APPEALS

TERMINATION

It is hereby found and determined that the provisions of Defense Food Order 4, as amended (16 F. R. 7568; 19 F. R. 57, 59), do not now appear necessary or appropriate and this termination order is hereby made effective. Defense Food Order 2, as amended (16 F. R. 3345, 4981) has been terminated and no other defense food orders are in effect. In view of the foregoing, consultation with industry representatives, including trade association representatives, in the formulation of this termination order has been rendered impracticable and unnecessary.

Summary of termination order. The effect of this action is to terminate the regulations governing the filing of, and actions on, petitions for relief from hardship and appeals therefrom.

Regulatory provisions. Defense Food Order 4, as amended (16 F. R. 7568; 19 F. R. 57, 59) is hereby terminated effective December 1, 1955: *Provided*, That with respect to rights accrued, liabilities incurred, and petitions and appeals taken under the provisions of said Defense Food Order 4, as amended, the provisions of said Defense Food Order 4, as amended, shall be deemed to continue in full force and effect for the purpose of sustaining any proper suit, action, or other proceeding with respect to any such right, liability, petition, or appeal.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. 2154)

Done at Washington, D. C., this 1st day of December 1955.

[SEAL] TRUE D. MORSE,
Acting Secretary of Agriculture.

[F. R. Doc. 55-9783; Filed, Dec. 5, 1955; 8:51 a. m.]

TITLE 43—PUBLIC LANDS: INTERIOR

Chapter I—Bureau of Land Management, Department of the Interior

Appendix—Public Land Orders

[Public Land Order 1228, Correction]

IDAHO

RESERVING LANDS WITHIN NATIONAL FORESTS FOR USE OF THE FOREST SERVICE AS ADMINISTRATIVE SITES, RECREATION AREAS, OR FOR OTHER PUBLIC PURPOSES

NOVEMBER 30, 1955.

In Federal Register Document 55-7925, appearing at page 7335 of the issue for Saturday, October 1, 1955, the name of the forest under Idaho 05282 should read: "Challis National Forest".

The Indian Creek Landing Field, Lake Creek Patrol Station, and Little Creek Patrol Station are all in the Challis National Frest.

EDWARD WOOZLEY,
Director.

[F. R. Doc. 55-9743; Filed, Dec. 5, 1955; 8:45 a. m.]

TITLE 49—TRANSPORTATION

Chapter I—Interstate Commerce Commission

[S. O. 909-A]

PART 95—CAR SERVICE

SUBSTITUTION OF REFRIGERATOR CARS FOR BOX CARS, TO TRANSPORT FRUIT AND VEGETABLE CONTAINERS AND BOX SHOOKS

At a session of the Interstate Commerce Commission, Division 3, held at

its office in Washington, D. C., on the 30th day of November A. D. 1955.

Upon further consideraiton of Service Order No. 909 (20 F. R. 7370) and good cause appearing therefor:

It is ordered, that:

Section 95.909 *Substitution of refrigerator cars for box cars, to transport fruit and vegetable containers and box shooks,* be and it is hereby vacated and set aside.

It is further ordered, that this order shall become effective at 11:59 p. m., December 2, 1955; that a copy of this order shall be served upon the State railroad regulatory bodies of each State, and upon the Association of American Railroads, Car Service Division, as agent of the railroads subscribing to the car service and per diem agreement under the terms of that agreement; and that notice of this order be given to the general public by depositing a copy in the office of the Secretary of the Commission at Washington, D. C., and by filing it with the Director, Division of the Federal Register.

(Sec. 12, 24 Stat. 383, as amended; 49 U. S. C. 12)

By the Commission, Division 3.

[SEAL] HAROLD D. McCOY, *Secretary.*

[F. R. Doc. 55-9768; Filed, Dec. 5, 1955; 8:49 a. m.]

PROPOSED RULE MAKING

DEPARTMENT OF THE TREASURY

Internal Revenue Service

[26 CFR (1954) Part 200]

RULES OF PRACTICE IN PERMIT PROCEEDINGS

NOTICE OF PROPOSED RULE MAKING

Notice is hereby given, pursuant to the Administrative Procedure Act (5 U. S. C. 1001, et seq.), approved June 11, 1946, that the regulations set forth in tentative form below are proposed to be prescribed by the Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury. Prior to the final adoption of such regulations, consideration will be given to any data, views, or arguments pertaining thereto which are submitted in writing, in duplicate, to the Director, Alcohol and Tobacco Tax Division, Internal Revenue Service, Washington 25, D. C., within the period of 30 days from the date of publication of this notice in the FEDERAL REGISTER. The proposed regulations are to be issued under the authority contained in section 7805 of the Internal Revenue Code of 1954 (68A Stat. 917; 26 U. S. C. 7805) and the Federal Alcohol Administration Act (49 Stat. 977; 27 U. S. C. 201, et seq.).

[SEAL] PAUL K. WEBSTER, *Acting Commissioner of Internal Revenue.*

Preamble. 1. The regulations in this part shall supersede Regulations 123 (26 CFR (1939) Part 200; 19 F. R. 8502).

2. These regulations shall not affect any act done or any liability or right accruing or accrued, or any suit or proceeding had or commenced, before the effective date of these regulations.

Subpart A—Scope and Construction of Regulations

200.82 Stipulation at hearing.
200.83 Evidence.
200.84 Closing of hearing; arguments, briefs and proposed findings.
200.85 Reopening of the hearing.

RECORD OF TESTIMONY

200.86 Stenographic record.
200.87 Oath of reporter.

Subpart G—Hearing Examiners

200.95 Responsibilities of examiners.
200.96 Disqualification.
200.97 Powers.
200.98 Separation of functions.
200.99 Conduct of hearing.
200.100 Unavailability of examiner.

Subpart H—Decisions

200.105 Examiner's findings and decision or recommended decision.
200.106 Certification and transmittal of record and decision.

ACTION BY ASSISTANT REGIONAL COMMISSIONER

200.107 Initial application proceedings.
200.108 Suspension, revocation, annulment or renewal application proceedings.
200.109 Notice to Director, Alcohol and Tobacco Tax Division.
200.110 Proceedings involving violations not within region of issuance of permit.

Subpart I—Review

200.115 Appeal on petition to the Director, Alcohol and Tobacco Tax Division.
200.116 Review by Director, Alcohol and Tobacco Tax Division.
200.117 Permit privileges, exceptions.
200.118 Court review; permits under the Internal Revenue Code.
200.119 Court review; FAA permits.

Subpart J—Miscellaneous

200.125 Depositions.
200.126 Subpoenas.
200.127 Witnesses and fees.

RECORD

200.128 What constitutes record.
200.129 Availability.

AUTHORITY: §§ 200.1 to 200.129 issued under 68A Stat. 917, 49 Stat. 977; 26 U. S. C. 7805, 27 U. S. C. 201 et seq.

SUBPART A—SCOPE AND CONSTRUCTION OF REGULATIONS

§ 200.1 *Scope of part.* The rules in this part govern the procedure and practice in connection with the disapproval of applications for basic permits, and for the suspension, revocation and annulment of such permits under sections 3 and 4 of the Federal Alcohol Administration Act (27 U. S. C. 201 et seq.) and disapproval, suspension, and revocation of basic permits under the Internal Revenue Code (26 U. S. C.). The rules in this part shall also govern, insofar as applicable, any adversary proceeding involving adjudication required by statute to be determined on the record, after opportunity for hearing, under laws administered by the Alcohol and Tobacco Tax Division, Internal Revenue Service.

§ 200.2 *Liberal construction.* The rules in this part shall be liberally construed to secure just, expeditious, and efficient determination of the issues presented. The Rules of Civil Procedure for the District Courts of the United States, where applicable, shall be a guide in any situation not provided for or controlled by this part, but shall be liberally construed, or relaxed when necessary.

§ 200.3 *Forms prescribed.* The Director, Alcohol and Tobacco Tax Division, is authorized to prescribe all forms required by this part. Information called for shall be furnished in accordance with the instructions on the form or issued in respect thereto.

SUBPART B—DEFINITIONS

§ 200.5 *Meaning of terms.* As used in this part, unless the context otherwise requires, terms shall have the meanings ascribed in this subpart.

§ 200.6 *Applicant.* "Applicant" shall mean any person who has filed an initial application for a permit under the Federal Alcohol Administration Act or Internal Revenue Code.

§ 200.7 *Application.* "Application" shall mean any application for a permit under the Federal Alcohol Administration Act or Internal Revenue Code. The term "initial application" shall mean an application for an original permit for operations not covered by an existing permit. The term "renewal application" shall mean an application timely filed for the renewal of an existing permit.

§ 200.8 *Assistant regional commissioner.* "Assistant regional commissioner" shall mean the Assistant Regional Commissioner, Alcohol and Tobacco Tax, who is responsible to, and functions under the direction and supervision of the regional commissioner.

§ 200.9 *Attorney for the government.* The attorney for the Government shall mean the attorney in the office of the chief counsel (assigned to the National or regional office) authorized to represent the assistant regional commissioner in the proceeding.

§ 200.10 *Citation.* "Citation" shall include any notice contemplating the disapproval of an application (whether initial or renewal) or any order to show cause why a permit should not be suspended, revoked or annulled.

§ 200.11 *Commissioner.* "Commissioner" shall mean the Commissioner of Internal Revenue.

§ 200.12 *Director, Alcohol and Tobacco Tax Division.* "Director, Alcohol and Tobacco Tax Division" shall mean the Director, Alcohol and Tobacco Tax Division, Internal Revenue Service, Washington, D. C.

§ 200.13 *Examiner.* "Examiner" shall mean the examiner appointed pursuant to section 11 of the Administrative Procedure Act, designated to preside over any administrative proceeding under this part.

§ 200.14 *Initial decision.* "Initial decision" shall mean the decision (order) of the assistant regional commissioner in any proceeding on an initial application for a permit, and the decision of the examiner in any proceeding on the suspension, revocation or annulment of a permit or on the disapproval of a renewal application.

§ 200.15 *I. R. C.* "I. R. C." shall mean the Internal Revenue Code.

§ 200.16 *Other terms.* Any other term defined in the Federal Alcohol Administration Act (27 U. S. C. 201), the Internal Revenue Code (26 U. S. C.) or the Administrative Procedure Act (5 U. S. C. 1001) where used in the regulations in this part shall have the meaning assigned to it therein.

§ 200.17 *Permit.* "Permit" shall mean a formal document issued under the Federal Alcohol Administration Act or the Internal Revenue Code, authorizing the person named therein to engage in the activities described. "FAA permit" shall mean a basic permit under the provisions of the Federal Alcohol Administration Act. "Alcohol permit" shall mean a basic permit under the provisions of the Internal Revenue Code relating to alcohol, whether industrial, taxfree, or denatured. "Container permit" shall mean a permit under the provisions of the Internal Revenue Code relating to the regulation of the traffic in containers of distilled spirits. "Tobacco permit" shall mean a permit under the provisions of the Internal Revenue Code relating to tobacco materials, tobacco, cigars, cigarettes, and cigarette papers and tubes.

§ 200.18 *Permittee.* "Permittee" shall mean any person holding a basic permit under the Federal Alcohol Administration Act or the Internal Revenue Code, as aforesaid.

§ 200.19 *Person.* "Person" shall mean an individual, partnership, joint stock company, business trust, association, corporation or other form of business enterprise including receivers, trustees, or liquidating agents.

§ 200.20 *Recommended decision.* "Recommended decision" shall mean the advisory decision of the examiner in any proceeding on an initial application for a permit.

§ 200.21 *Regional Commissioner.* "Regional Commissioner" shall mean the Regional Commissioner of Internal Revenue of an internal revenue region.

§ 200.22 *Respondent.* "Respondent" shall mean any person holding a permit against which an order has been issued to show cause why such permit should not be suspended, revoked or annulled, or against the renewal of which a notice of contemplated disapproval has been issued.

SUBPART C—GENERAL

§ 200.25 *Communications and pleadings.* All communications to the Government regarding the procedures set forth in this part and all pleadings, such as answers, motions, requests, or other papers or documents required or permitted to be filed under this part, relating to a proceeding pending before an examiner, shall be addressed to the examiner at his post of duty or to the examiner in care of the assistant regional commissioner of the region in which the business of the applicant or respondent is operated or proposed to be operated to be forwarded to the examiner. Communications concerning proceedings not pending before an examiner should be addressed to the Assistant Regional Commissioner or Director, Alcohol and Tobacco Tax Division, as the case may be. All pleadings should be filed in quadruplicate.

§ 200.26 *Service on applicant or respondent.* All orders, notices, citations, motions and other formal documents, except subpoenas, required to be served under the regulations in this part may be served by mailing a signed duplicate original copy thereof to the permittee or applicant by registered mail, with request for return receipt card, at the address stated in his permit or application or at his last known address, or by delivery of such original copy to the permittee or applicant personally, or in the case of a corporation, partnership, or other unincorporated association, by delivering the same to an officer, or manager, or general agent thereof, or to its attorney of record. Such personal service may be made by any employee of the Internal Revenue Service or by any employee of the Treasury Department designated by the Secretary. A certificate of mailing, and the return receipt card, or certificate of service signed by the person making such service, shall be filed as a part of the record.

§ 200.27 *Service on the assistant regional commissioner or Director.* Pleadings, motions, notices, and other formal

documents, except subpoenas, may be served, by registered mail or personally, on the assistant regional commissioner (or upon the attorney for the Government on behalf of the assistant regional commissioner), or on the Director, Alcohol and Tobacco Tax Division if the proceeding is before him for review on appeal.

TIME

§ 200.28 *Computation.* In computing any period of time prescribed or allowed by this part, the day of the act, event or default after which the designated period of time is to run, is not to be included. The last day of the period to be computed is to be included, unless it be a Saturday, Sunday or legal holiday, in which event the period runs until the next day which is neither a Saturday, Sunday or legal holiday. Pleadings, requests, or other papers or documents required or permitted to be filed under this part must be received for filing at the appropriate office within the time limits, if any, for such filing.

§ 200.29 *Continuances and extensions.* For good cause shown, the Commissioner, Director, Alcohol and Tobacco Tax Division, Assistant Regional Commissioner, or the examiner, as the case may be, may grant continuances and as to all matters pending before him extend any time limit prescribed by the rules in this part (except where the time limit is statutory).

REPRESENTATION AT HEARINGS

§ 200.30 *Personal representation.* Any individual or member of a partnership may after adequate identification, appear for himself, or such partnership, and a corporation or association may be represented by a bona fide officer of such corporation or association, upon showing of adequate authorization.

§ 200.31 *Attorneys.* A respondent or applicant may be represented by an attorney: *Provided,* That such attorney is duly enrolled to practice before the Treasury Department under the provisions of 31 CFR Part 10 (Treasury Department Circular No. 230),[1] and files in the proceeding a duly executed power of attorney to represent the applicant or respondent. See Conference and Practice Requirements, Internal Revenue Service, §§ 601.501–601.511 of this chapter. The assistant regional commissioner shall be represented in proceedings under this part by the attorney for the Government who is authorized to execute and file motions, briefs and other papers in the proceeding, on behalf of the assistant regional commissioner, in his own name as "Attorney for the Government".

§ 200.32 *Authority of Commissioner.* The Commissioner shall have all the authority granted by this part to examiners, assistant regional commissioners, and the Director, Alcohol and Tobacco Tax Division, and may exercise any of the functions prescribed in this part.

[1] See also 31 CFR Part 14.

SUBPART D—COMPLIANCE AND SETTLEMENT

§ 200.35 *Opportunity for compliance.* Except in proceedings involving willfulness or those in which the public interest requires otherwise, and the assistant regional commissioner so alleges in his citation, stating his reasons therefor, no permit shall be suspended, revoked or annulled, or application for renewal disapproved, unless, prior to the institution of proceedings, facts or conduct warranting such action shall have been called to the attention of the permittee, or applicant for renewal, by the assistant regional commissioner, in writing, and the permittee shall have been accorded an opportunity to demonstrate or achieve compliance with all lawful requirements, as set forth in section 9 (b) of the Administrative Procedure Act. If the permittee fails to meet the requirements of the law and regulations within such reasonable time as may be specified by the assistant regional commissioner, proceedings for suspension, revocation or annulment of the permit, or disapproval of the renewal application, shall be initiated.

INFORMAL SETTLEMENT

§ 200.36 *General.* In all proceedings in which a permittee is cited to show cause why his permit should not be suspended, revoked or annulled, or his application for renewal disapproved, he shall be afforded opportunity for the submission and consideration of facts, arguments, offers of settlement, or proposals of adjustment, where time, the nature of the proceeding, and the public interest permit, in accordance with section 5 (b) of the Administrative Procedure Act. Such submittals should be made to the assistant regional commissioner, but may be made through the attorney for the Government. Where necessary, the date of the hearing may be postponed, pending consideration of such proposals, when they are made in good faith and not for the purpose of delay. If proposals of settlement are submitted, and they are considered unsatisfactory, the assistant regional commissioner may reject the proposals and may, either directly or through the attorney for the Government, inform the permittee of any conditions on which the alleged violations may be settled. If the proposals of settlement are considered satisfactory to the assistant regional commissioner, he shall notify the permittee thereof and the attorney for the Government shall move the dismissal of the proceedings, unless such proposals of settlement include a monetary offer in compromise, in which event he shall advise the hearing examiner that the offer has been made and is under consideration and the hearing examiner may, in his discretion, continue the proceeding pending final action on such monetary offer in compromise or he may proceed with the hearing and his consideration of the matter pending final action, but in no event shall he render his decision until final action on such offer in compromise.

§ 200.37 *Notice of contemplated action.* Where the assistant regional commissioner believes that the matter may be settled informally, i. e., without formal administrative proceedings, he shall, in accordance with section 5 (b) of the Administrative Procedure Act, prior to the issuance of a citation, inform the permittee of the contemplated issuance of an order to show cause why his permit should not be suspended, revoked or annulled, or his application for renewal thereof be disapproved, and that he is being given an opportunity for the submission and consideration of facts, arguments, offers of settlement, or proposals of adjustment. The notice should inform the permittee of the charges on which the citation would be based, if issued, and afford him a period of 10 days from the date of the notice, or such longer period as the assistant regional commissioner deems necessary, in which to submit proposals of settlement to the assistant regional commissioner. Where informal settlement is not reached promptly because of the inaction of the permittee, or proposals are made for the purpose of delay, citation shall issue in accordance with §§ 200.55 and 200.56, and the hearing shall be held in accordance with the rules in this part.

§ 200.38 *Limitation on informal settlement.* Where the evidence is conclusive and the nature of the violation is such as to preclude any settlement short of suspension, revocation or annulment, or disapproval of renewal application, or the violation is of a continuing character that necessitates immediate action to protect the public interest, or where the assistant regional commissioner believes that any informal settlement of the alleged violation will not insure future compliance with the laws and regulations, or in any similar case where the circumstances are such as to clearly preclude informal settlement, and the assistant regional commissioner so finds and states his reasons therefor as provided in § 200.35, he may restrict settlement to that provided in § 200.71.

SUBPART E—GROUNDS FOR CITATION

§ 200.45 *FAA permits.* Whenever the assistant regional commissioner has reason to believe that any person has willfully violated any of the conditions of his FAA permit, or has not in fact or in good faith engaged in the operations authorized by such permit for a period of more than two years, or that such permit was procured through fraud, misrepresentation or concealment of material facts, he shall issue a citation for the suspension, revocation or annulment of such permit, as the case may be.

§ 200.46 *Tobacco permits.* Whenever the assistant regional commissioner has reason to believe that any person has not in good faith complied with any of the provisions of Chapter 52 or regulations issued thereunder, or has not complied with any provision of the Internal Revenue Code which involves intent to defraud, or has violated any of the conditions of his permit, or has failed to disclose any material information required, or has made any materially false statement, in the application for his permit, or has failed to maintain his premises in such manner as to protect the revenue, the assistant regional commissioner shall issue a citation for the revocation or suspension of such permit.

§ 200.47 *Container permits.* Whenever the assistant regional commissioner has reason to believe that the permittee has violated any of the provisions of the Internal Revenue Code regulating the traffic in containers of distilled spirits, the regulations thereunder, or any of the terms or conditions of his permit, the assistant regional commissioner shall issue a citation for the revocation or suspension of such permit.

§ 200.48 *Alcohol permits.* If at any time there shall be filed with the assistant regional commissioner a complaint under oath setting forth facts showing, or if the assistant regional commissioner has reason to believe, that any person who has an alcohol permit is not in good faith conforming to the provisions of law applicable to such permit or has violated the terms of such permit, or has made any false statement in the application therefor, or has willfully failed to disclose any information required by regulation to be furnished, or has violated any law of the United States, or any State or any Territory or possession of the United States or of the District of Columbia relating to intoxicating liquor, he shall issue a citation for the revocation of such permit.

§ 200.49 *Applications.* If, upon examination of any application (including a renewal application) for a permit, the assistant regional commissioner has reason to believe that the applicant is not entitled to such permit he shall issue a citation for the contemplated disapproval of the application.

§ 200.50 *Expiration of permit.* In any case where a permittee has, in accordance with the law and regulations, made timely and sufficient application for a renewal of its permit, such permit shall not expire until such application shall have been finally determined.

SUBPART F—HEARING PROCEDURE

CITATIONS

§ 200.55 *Content.* Citations for the suspension, revocation or annulment of a permit shall be issued by the assistant regional commissioner and shall set forth (a) the sections of law and regulations relied upon for authority and jurisdiction of the hearing, (b) in separate paragraphs, the matters of fact constituting the violations specified, dates, places, sections of law and regulations violated, and (c) the time (in alcohol permit proceedings not more than 30 and not less than 15 days from date of service of citation) and place and nature of the hearing. Citations for the disapproval of an application for an initial or renewal permit shall set forth (1) the sections of law and regulations relied upon for authority and jurisdiction, (2) in separate paragraphs, the matters of fact and law relied upon for the contemplated disapproval of the application, and (3) that the application will be disapproved unless within 15 days a hearing thereon is requested.

§ 200.56 *Form.* Citations shall be issued on the following forms:

(a) Form 1430, "Order To Show Cause Why Permit Should Not Be Revoked," shall be used where citations are issued against alcohol permittees on complaint, under oath, of persons other than the assistant regional commissioner, and there shall be attached thereto a copy of the complaint.

(b) Form 1430–A, "Order To Show Cause," shall be used for all other citations for the suspension, revocation, or annulment, as the case may be, of permits under the Internal Revenue Code or the Federal Alcohol Administration Act.

(c) Form 1430–C, "Notice of Contemplated Disapproval of Application For Basic Permit," shall be used to issue notice of contemplated disapproval of applications for permit, whether initial or renewal.

§ 200.57 *Execution and disposition.* Forms 1430, 1430–A and 1430–C shall be executed in quintuplicate. A signed duplicate original shall be served on the permittee, one copy shall be sent to the examiner designated to conduct the hearing, the original copy, containing the certificate of service, shall be placed in the official record of the proceeding, and the remaining copies shall be retained for the assistant regional commissioner's office.

§ 200.58 *Designated place of hearing.* The designated place of hearing, (a) in the case of alcohol permits, shall be within the same Federal judicial district and within fifty miles of the place wherein the acts constituting the violations are alleged to have occurred unless the parties agree on a different place; and (b) in the case of all other permits, shall be such as meets the convenience or necessity of the parties.

REQUEST FOR HEARING

§ 200.59 *Application cases.* If the applicant for an initial or renewal permit desires a hearing, he shall file a request therefor, in writing, with the assistant regional commissioner within fifteen days after receipt of notice of the contemplated disapproval, in whole or in part, of his application.

§ 200.60 *Suspension, revocation or annulment cases.* No request for a hearing is necessary on citations for suspension, revocation or annulment, since the order to show cause sets forth on its face the date the respondent is to appear to show cause why his permit should not be suspended, revoked or annulled.

§ 200.61 *Notice of hearing.* In case a request for a hearing is filed by the applicant within the required time, the assistant regional commissioner shall refer the matter to the examiner and the examiner shall set a time and place for a hearing and shall serve notice thereof upon the parties at least ten days in advance of the hearing date.

NON-REQUEST FOR HEARING

§ 200.62 *Initial application.* In the case of an initial application, if the applicant does not request a hearing within the time specified in § 200.59, or within such further time as the assistant regional commissioner may in his discretion allow, the assistant regional commissioner will by order, stating the findings upon which it is based, disapprove the application, and will serve signed duplicate original of such order on the applicant.

§ 200.63 *Renewal application.* In the case of a renewal application, if the applicant does not request a hearing within the time specified in § 200.59, the assistant regional commissioner shall immediately refer the matter to the examiner who shall set it down for hearing as if such hearing had been requested.

ANSWERS

§ 200.64 *When required.* After service of a citation upon the respondent, ordering him to appear and show cause why his permit shall not be suspended, revoked or annulled, if he desires to contest the proceedings he shall, within 15 days from service of the order to show cause, file with the examiner and serve on the assistant regional commissioner an answer, in writing, to the allegations set forth therein. Such answer shall contain a concise statement of the facts that constitute his grounds of defense. Evidence to be introduced upon such hearing may be limited to the issues contained in the order to show cause and answers filed thereto: *Provided, however,* That where justice demands, the examiner shall waive any of the requirements of this section. Answers need not be filed ni application proceedings.
be filed in application proceedings.

§ 200.65 *Answer admitting facts.* If the respondent desires to waive the hearing on the allegations of fact set forth in the order to show cause, and does not contest the facts, the answer may consist of a statement that the respondent admits all material allegations of fact charged in the citation to be true. The examiner shall thereupon base his findings on the citation and such answer: *Provided, however,* That nothing herein contained shall affect the respondent's right to submit proposed findings and conclusions of fact or law and his right of appeal.

§ 200.66 *Prehearing conferences.* In any proceeding the hearing examiner may, upon his own motion or upon the motion of one of the parties or their qualified representatives, in his discretion direct the parties or their qualified representatives to appear at a specified time and place for a conference to consider:

(a) The simplifications of the issues;

(b) The necessity of amendments to the pleadings;

(c) The possibility of obtaining stipulations, admissions of facts and of documents;

(d) The limitation of the number of expert witnesses; and

(e) Such other matters as may aid in the disposition of the proceeding.

As soon as practicable after such conference, the hearing examiner shall issue an order which recites the action taken thereat, the amendments allowed

to the pleadings and the agreements made by the parties or their qualified representatives as to any of the matters considered, and which limits the issues for hearing to those not disposed of by admission or agreement; and such order shall control the subsequent course of the proceedings, unless modified for good cause by a subsequent order.

FAILURE TO APPEAR

§ 200.67 *Initial applications.* Where the applicant on an initial application for a permit has requested a hearing and does not appear at the appointed time and place, and evidence has not been offered to refute or explain the grounds upon which disapproval of the application is contemplated, this shall be construed as a waiver of the hearing, a default will be entered and the examiner shall recommend disapproval of said application.

§ 200.68 *Renewal applications.* Where the applicant on an application for a renewal permit has requested a hearing, or hearing has been set as provided in § 200.63, and no evidence is offered as stated, the attorney for the Government will proceed ex parte as set forth in § 200.69.

§ 200.69 *Suspension, revocation or annulment.* If on the date set for the hearing respondent does not appear and no evidence has been offered, the attorney for the Government will proceed ex parte and offer for the record sufficient evidence to make a prima facie case. At such hearing, documents, statements and affidavits may be submitted in lieu of testimony of witnesses.

WAIVER OF HEARING

§ 200.70 *Application proceedings.* At any time prior to final action thereon the applicant may, by filing written notice with the assistant regional commissioner, withdraw his application. If such a notice is filed after referral to the hearing examiner of a proceeding on an application for an initial or renewal permit and prior to issuance of his recommended decision or decision thereon, the assistant regional commissioner shall move the examiner to dismiss the proceedings as moot. If such a notice is filed while the proceeding is before the assistant regional commissioner and prior to final action thereon, that is, either (a) after issuance of a notice of contemplated disapproval and before referral of the proceeding to the hearing examiner or (b) after issuance by the hearing examiner of his recommended decision and prior to the assistant regional commissioner's order disapproving the application, the assistant regional commissioner shall, by order, dismiss the proceeding.

§ 200.71 *Suspension, revocation or annulment proceedings.* After the service of a citation for the suspension, revocation or annulment of a basic permit, the permittee may, if he so desires, waive the taking of evidence, but such waiver shall be accepted only if he stipulates that the examiner may enter an appropriate decision sustaining the charges and suspending, revoking or annulling the permit.

SURRENDER OF PERMIT

§ 200.72 *Before citation.* If a respondent surrenders his permit before citation, the assistant regional commissioner may accept the surrender. But if the evidence, in the opinion of the assistant regional commissioner, warrants citation for suspension, revocation or annulment, he shall refuse to accept such surrender and shall issue the citation notifying the permittee at the same time that he may file a formal waiver as provided in § 200.71. Should such waiver not be filed after notice, the examiner will proceed with the hearing on the citation.

§ 200.73 *After citation.* If a respondent surrenders his permit after citation and prior to the decision of the examiner, the assistant regional commissioner may accept the surrender of the permit and move the examiner to dismiss the proceeding as moot. If, however, in the opinion of the assistant regional commissioner the evidence is such as to warrant suspension, revocation or annulment, as the case may be, he shall refuse to accept the surrender of the permit and shall notify the respondent that he may file a formal waiver as provided in § 200.71. Should such formal waiver not be filed after notice, the examiner will proceed with the hearing on the citation.

MOTIONS

§ 200.74 *General.* All motions shall be made and addressed to the officer before whom the proceeding is pending, and copies of all motion papers shall be served upon the other party or parties. Such officer may dispose of any motion without oral argument, but he may, if he so desires, set it down for hearing and request argument. He may dispose of such motion prior to the hearing on the merits or he may postpone the disposition until the hearing on the merits. No appeal may be taken from any ruling on a motion until the whole record is certified for review. Examples of typical motions may be found in the Rules of Civil Procedure referred to in § 200.2.

§ 200.75 *Prior to hearing.* All motions which should be made prior to the hearing, such as motions directed to the sufficiency of the pleadings or of preliminary orders, shall be filed in writing with the assistant regional commissioner issuing the citation or the examiner if the matter has been referred to him, and shall briefly state the order or relief applied for and the grounds for such motion, and shall be filed within 15 days after service of the citation.

§ 200.76 *At hearing.* Motions at the hearing may be made in writing to the examiner, or stated orally on the record.

HEARING

§ 200.77 *General.* Unless the hearing is waived by the applicant or permittee, or postponed, or transferred to another place, by a written agreement signed by the applicant or permittee, or his attorney, and the attorney for the Government and approved and filed with the examiner, or unless the hearing is postponed, or transferred (subject to statutory limitations) by order of the examiner for good cause shown by either party, it shall be held at the time and place stated in the citation, by the examiner named in the citation, or in the notice of hearing as the case may be, or any other duly designated and appointed examiner assigned to hold such hearing.

§ 200.78 *Initial applications.* The examiner who presides at the hearing on initial applications shall recommend a decision to the assistant regional commissioner who shall make the initial decision as provided in § 200.107. The applicant may be directed by the assistant regional commissioner to produce such records as may be deemed necessary for examination. All hearings on initial applications shall be open to the public subject to such restrictions and limitations as may be consistent with orderly procedure.

§ 200.79 *Suspension, revocation, annulment or renewal.* The examiner who presides at the hearing in proceedings on applications for renewal permits and in proceedings for the suspension, revocation and annulment of permits shall make the initial decision.

BURDEN OF PROOF

§ 200.80 *Initial applications.* In hearings on the contemplated disapproval of initial applications there may be incorporated in the record sufficient testimony, reports, affidavits and other documents to be considered only for the limited purpose of establishing probable cause for the issuance of the notice of contemplated disapproval by showing that the assistant regional commissioner had reason to believe that the applicant is not entitled to a permit. The burden of proof shall be upon the applicant to produce evidence to show he is entitled to a permit. The assistant regional commissioner may, instead of following the aforementioned procedure, assume the burden of going forward.

§ 200.81 *Suspension, revocation, annulment or renewal.* In hearings on the contemplated disapproval of renewal applications, or on the suspension, revocation or annulment of permits, the burden of proof is on the Government.

GENERAL

§ 200.82 *Stipulations at hearing.* If there has been no prehearing conference under § 200.66, the examiner shall at the beginning of the hearing, require that the parties attempt to arrive at such stipulations as will eliminate the necessity of taking evidence with respect to allegations of fact concerning which there is no substantial dispute. The examiner should take similar action, where it appears appropriate, throughout the hearing and should call and conduct any conferences which he deems advisable with a view to the simplification, clarification, and disposition of any of the issues involved.

§ 200.83 *Evidence.* Any evidence which would be admissible under the rules of evidence governing proceedings in matters not involving trial by jury in the

Courts of the United States, shall be admissible and controlling as far as possible: *Provided*, That the examiner may relax such rules in any hearing when in his judgment such relaxation would not impair the rights of either party and would more speedily conclude the hearing, or would better serve the ends of justice. Except as provided in § 200.81, the proponent of an order shall have the burden of proof. Every party shall have the right to present his case or defense by oral or documentary evidence, depositions, duly authenticated copies of records and documents, to submit rebuttal evidence, and to conduct such reasonable cross-examination as may be required for a full and true disclosure of the facts. The examiner shall have the right in his discretion to limit the number of witnesses whose testimony may be merely cumulative and shall, as a matter of policy, not only exclude irrelevant, immaterial, or unduly repetitious evidence but shall also limit the cross-examination of witnesses to reasonable bounds so as not to unnecessarily prolong the hearing and unduly burden the record. Material and relevant evidence shall not be excluded, because it is not the best evidence, unless its authenticity is challenged, in which case reasonable time shall be given to establish its authenticity. When portions only of a document are to be relied upon, the offering party shall prepare the pertinent excerpts, adequately identified, and shall supply copies of such excerpts, together with a statement indicating the purpose for which such materials will be offered, to the hearing examiner and to the other parties. Only the excerpts, so prepared and submitted, shall be received in the record. However, the whole of the original document should be made available for examination and for use by opposing counsel for purposes of cross-examination. Compilations, charts, summaries of data and photostatic copies of documents may be admitted in evidence if the proceedings will thereby be expedited, and if the material upon which they are based is available for examination by the parties. Objections to the evidence shall be in short form, stating the grounds relied upon. The transcript shall not include argument or debate on objections, except as ordered by the examiner, but shall include the rulings thereon.

§ 200.84 *Closing of hearing; arguments, briefs and proposed findings.* Before closing a hearing, the examiner shall inquire of each party whether he has any further evidence to offer, which inquiry and the response thereto shall be shown in the record. The examiner may hear arguments of counsel and may limit the time of such arguments at his discretion, and may, in his discretion, allow briefs to be filed on behalf of either party but shall closely limit the time within which the briefs for both parties shall be filed, so as to avoid unreasonable delay. The examiner shall also ascertain whether the parties desire to submit proposed findings and conclusions, together with supporting reasons, and if so a period of not more than 15 days (unless extended by the examiner)—after the close of the hearing or receipt of a copy of the record, if one is requested—will be allowed for such purpose.

§ 200.85 *Reopening of the hearing.* The Commissioner, the Director, Alcohol and Tobacco Tax Division, the assistant regional commissioner or the examiner, as the case may be, may, as to all matters pending before him, in his discretion reopen the hearing (a) in case of default where applicant failed to request a hearing or to appear after one was set, upon petition setting forth reasonable grounds for such failure, and (b) in case any party desires leave to adduce additional evidence upon petition summarizing such evidence, establishing its materiality and stating reasonable grounds why such party with due diligence was unable to produce such evidence at the hearing.

RECORD OF TESTIMONY

§ 200.86 *Stenographic record.* A stenographic record shall be made of the testimony and proceedings, including stipulations and admissions of fact (but not arguments of counsel unless otherwise ordered by the examiner) in all proceedings. A transcript of the evidence and proceedings at the hearing shall be made in all cases.

§ 200.87 *Oath of reporter.* The reporter making the stenographic record shall subscribe an oath before the examiner, to be filed in the record of the case, that he will truly and correctly report the oral testimony and proceedings at such hearing and accurately transcribe the same to the best of his ability.

SUBPART G—HEARING EXAMINERS

§ 200.95 *Responsibilities of examiners.* Examiners shall be under the administrative control of the Commissioner. They shall be responsible for the conduct of hearings and shall render their decisions as soon as is reasonably possible after the hearing is closed. Examiners shall also be responsible for the preparation, certification and forwarding of reports of hearings, and the administrative work relating thereto, and, by arrangement with assistant regional commissioners and representatives of the Chief Counsel, shall have access to facilities and temporary use of personnel at such times and places as are needed in the prompt dispatch of official business.

§ 200.96 *Disqualification.* An examiner shall, at any time, withdraw from any proceeding if he deems himself disqualified; and upon the filing in good faith by the applicant or respondent, or by the attorney for the Government, of a timely and sufficient affidavit of facts showing personal bias or otherwise warranting the disqualification of any examiner, the Director, Alcohol and Tobacco Tax Division, shall upon appeal as provided in § 200.115, if the examiner fails to disqualify himself, determine the matter as a part of the record and decision in the proceeding. If he decides the examiner should have declared himself disqualified, he will remand the record for hearing de novo before another examiner. If the Director, Alcohol and Tobacco Tax Division, should decide against the disqualification of the examiner, the proceeding will be reviewed on its merits.

§ 200.97 *Powers.* Examiners shall have authority to (a) administer oaths and affirmations; (b) issue subpoenas authorized by law; (c) rule upon offers of proof and receive relevant evidence; (d) take or cause depositions to be taken whenever the ends of justice would be served thereby; (e) regulate the course of the hearing; (f) hold conferences for the settlement or simplification of the issues by consent of the parties; (g) dispose of procedural requests or similar matters; (h) render recommended decisions in proceedings on initial applications for permits, and initial decisions in renewal applications for permits and in suspension, revocation, or annulment proceedings against permits; (i) call, examine and cross-examine witnesses, including hostile or adverse witnesses when he deems such action to be necessary to a just disposition of the cause, and introduce into the record documentary or other evidence; and (j) take any other action authorized by rule of the Internal Revenue Service consistent with the Administrative Procedure Act.

§ 200.98 *Separation of functions.* Examiners shall perform no duties inconsistent with their duties and responsibilities as such. Examiners may be assigned duties not inconsistent with the performance of their functions as examiners. Save to the extent required for the disposition of ex parte matters as required by law, no examiner shall consult any person or party as to any fact in issue unless upon notice and opportunity for all parties to participate. The functions of the examiner shall be entirely separated from the general investigative functions of the agency. No officer, employee, or agent engaged in the performance of investigative or prosecuting functions in any proceeding shall, in that or a factually related proceeding, participate or advise in the examiner's or Commissioner's decision, or in the agency review on appeal, except as a witness or counsel in the proceedings. The examiner may not informally obtain advice or opinions from the parties or their counsel, or from any officer or employee of the Internal Revenue Service, as to the facts or the weight or interpretation to be given to the evidence. He may, however, informally obtain advice on matters of law from officers or employees who were not engaged in the performance of investigative or prosecuting functions in that or a factually related proceeding. This limitation does not apply to the Commissioner, and the examiner may, at any time, consult with and obtain instructions from him on questions of law and policy.

§ 200.99 *Conduct of hearing.* The examiner is charged with the duty of conducting a fair and impartial hearing and of maintaining order in form and manner consistent with dignity. In the event that counsel or any person or witness in any proceeding shall refuse to obey the orders of the examiner, or be

guilty of disorderly or contemptuous language or conduct in connection with any hearing, the examiner may, for good cause stated in the record, suspend the hearing, and, in the case of an attorney, recommend that the Commissioner report the matter to the Director of Practice for disciplinary action. The refusal of a witness to answer any question which has been ruled to be proper shall be considered by the examiner in determining the weight to be given all the testimony of that witness.

§ 200.100 *Unavailability of examiner.* In the event that the examiner designated to conduct a hearing becomes unavailable before the filing of his findings and decision or recommended decision, the Commissioner may assign the case to another examiner for the continuance of the proceeding, in accordance with the regulations in this part in the same manner as if he had been designated examiner at the commencement of the proceeding.

SUBPART H—DECISIONS

§ 200.105 *Examiner's finding and decision or recommended decision.* Within a reasonable time after the conclusion of the hearing, and as expeditiously as possible, the examiner shall render his decision or recommended decision, as the case may be. All decisions shall become a part of the record and, if proposed findings and conclusions have been filed, shall show the examiner's ruling upon each of such proposed findings and conclusions. Decisions shall consist of (a) a brief statement of the issues of fact involved in the proceeding; (b) the examiner's findings and conclusions, as well as the reasons or basis therefor with record references, upon all the material issues of fact, law or discretion presented on the record (including, when appropriate, comment as to the credibility and demeanor of the witnesses); and (c) the examiner's determination or recommended determination on the record. Where the examiner determines that the imposition of a period of suspension of the permit is appropriate, his decision shall state the length of such period of suspension, to commence at such time as the assistant regional commissioner shall specify.

§ 200.106 *Certification and transmittal of record and decision.* After reaching his decision, the examiner shall certify to the complete record of the proceeding before him and (a), in proceedings on initial application, shall immediately forward the complete certified record together with four copies of his recommended decision to the assistant regional commissioner for initial decision, or (b), in proceedings on renewal applications and revocation, suspension or annulment proceedings, shall immediately forward the complete certified record, together with two copies of his decision, to the assistant regional commissioner, serve one copy of his decision on the respondent or his counsel and transmit a copy of his decision to the attorney for the Government.

ACTION BY ASSISTANT REGIONAL COMMISSIONER

§ 200.107 *Initial application proceedings.* If, upon receipt of the record and the recommended decision of the examiner, the assistant regional commissioner decides that the permit should be issued, he shall thereupon approve the application briefly stating, for the record, his reasons therefor, but if he contemplates the disapproval of the application he shall serve a copy of the examiner's recommended decision on the applicant, informing the applicant of his contemplated action and affording the applicant not more than 10 days in which to submit proposed findings and conclusions or exceptions to the recommended decision with reasons in support thereof. If the assistant regional commissioner, after consideration of the record of the hearing and of any proposed findings, conclusions or exceptions filed with him by the applicant, approves the findings, conclusions and recommended decision of the examiner, he shall by order approve or disapprove of the application in accordance therewith. If, after such consideration, he disapproves of the findings, conclusions and recommended decision of the examiner, in whole or in part, he shall by order make such findings and conclusions as in his opinion are warranted by the law and facts in the record. Any decision of the assistant regional commissioner ordering the disapproval of an initial application for a permit shall state the findings and conclusions upon which it is based, including his ruling upon each proposed finding, conclusion and exception to the examiner's recommended decision, together with a statement of his findings and conclusions, and reasons or basis therefor, upon all material issues of fact, law or discretion presented on the record. A signed duplicate original of the decision shall be served upon the applicant and the original copy containing certificate of service shall be placed in the official record of the proceeding.

§ 200.108 *Suspension, revocation, annulment or renewal application proceedings.* Upon receipt of the complete certified record of the hearing the assistant regional commissioner shall enter an order suspending, revoking or annulling the permit (on Form 1430–B) disapproving the application or dismissing the proceedings in accordance with the examiner's findings and decision, unless he disagrees with such findings and decision and files a petition with the Director, Alcohol and Tobacco Tax Division, for review thereof, as provided in § 200.115. If the assistant regional commissioner files such petition, he shall withhold issuance of the order, pending the decision of the Director, Alcohol and Tobacco Tax Division, upon receipt of which he shall issue the order in accordance therewith. A signed duplicate original of the order of the assistant regional commissioner shall be served upon the respondent and the original copy containing certificate of service shall be placed in the official record of the proceeding. In all proceedings in which a suspension is imposed, the assistant regional commissioner's order shall state the time when the suspension period set forth in the examiner's decision shall commence and terminate.

§ 200.109 *Notice to Director, Alcohol and Tobacco Tax Division.* When the assistant regional commissioner makes an order suspending, revoking or annulling a permit or disapproving a renewal application, he will furnish a copy of the order and of the decision on which it is based to the Director, Alcohol and Tobacco Tax Division. Should such order be subsequently set aside on review by the courts, the assistant regional commissioner will so advise the Director, Alcohol and Tobacco Tax Division.

§ 200.110 *Proceedings involving violations not within region of issuance of permit.* In the event that a citation covers violations which occurred at a place not within the region of issuance of the permit involved, the assistant regional commissioner of such region may (and, in the case of alcohol permits, shall) set the matter for hearing. In all such cases the hearing examiner shall forward the complete and duly certified transcript of the entire record of such proceeding and a copy of his decision to the assistant regional commissioner of the region in which the basic permit was issued who shall take appropriate action in accordance with § 200.108.

SUBPART I—REVIEW

§ 200.115 *Appeal on petition to the Director, Alcohol and Tobacco Tax Division.* An appeal is not required prior to application to the Federal Courts for review. An appeal may be taken by the applicant or respondent to the Director, Alcohol and Tobacco Tax Division, from an examiner's decision suspending, revoking or annulling a permit or disapproving a renewal application, and from an order disapproving an initial application for a permit. Similarly, an appeal may be taken by the assistant regional commissioner from an examiner's decision. Such appeal shall be taken by filing a petition for review on appeal with the Director, Alcohol and Tobacco Tax Division, within 15 days of the service of the order or examiner's decision. The petition must set forth facts tending to show (a) action of an arbitrary nature, (b) action without reasonable warrant in fact, or (c) action contrary to law and regulations. A copy of the petition shall be filed with the assistant regional commissioner or served on the respondent, as the case may be. In the event of such appeal, the assistant regional commissioner shall immediately forward the complete original record, by registered mail, to the Director, Alcohol and Tobacco Tax Division, for his consideration and review.

§ 200.116 *Review by Director, Alcohol and Tobacco Tax Division.* The Director, Alcohol and Tobacco Tax Division, on appeal on petition for review, shall afford a reasonable opportunity for the submission of proposed findings, conclusions or exceptions with reasons in support thereof and an opportunity for oral argument. He may alter or modify any finding of the examiner (or of the assistant regional commissioner in initial application proceedings) and may affirm, reverse, or modify the decision of the examiner (or of the assistant regional commissioner in initial application proceedings), or he may remand the case for further hearing, but he shall not consider evidence which is not a part of the record. Appeals and petitions for review shall not be decided by the Director, Alcohol and Tobacco Tax Division, in any proceeding in which he has engaged in investigation or prosecution, and in such event he shall so state his disqualification in writing and refer the record to the Commissioner for appropriate action. The Commissioner may designate an Assistant Commissioner or one of his principal aides to consider any proceeding instead of the Director, Alcohol and Tobacco Tax Division. The original copy of the decision on review shall be placed in the official record of the proceeding, a signed duplicate original shall be served upon the applicant or respondent and a copy shall be transmitted to the assistant regional commissioner. When, on appeal, the Director, Alcohol and Tobacco Tax Division, affirms the decision of the assistant regional commissioner or the examiner, as the case may be, disapproving an application or suspending, revoking or annulling a permit, such action shall not supersede the decision of the assistant regional commissioner or the examiner and such decision shall be final.

§ 200.117 *Permit privileges, exceptions.* Pending final determination of any timely appeal in revocation, suspension, annulment or renewal application proceedings to the Director, Alcohol and Tobacco Tax Division, the permit involved shall continue in force and effect except that, in the case of alcohol permits, any time after a citation has been issued withdrawals of alcohol or specially denatured alcohol by such permittee may, in the discretion of the assistant regional commissioner or Director, Alcohol and Tobacco Tax Division, be restricted to the quantity which, together with the quantity then on hand, is necessary to carry on legitimate operations under such permit. The assistant regional commissioner may, in restricting the permittee to his legitimate needs, refuse to issue any purchase or withdrawal permit.

§ 200.118 *Court review; permits under the Internal Revenue Code.* If an applicant or respondent desires to have a decision of the examiner, or a final order of the assistant regional commissioner or of the Director, Alcohol and Tobacco Tax Division, reviewed on appeal by the Federal court, the assistant regional commissioner or the Director, Alcohol and Tobacco Tax Division, upon notification that such an appeal has been taken shall have prepared in triplicate a complete transcript of the record of the proceeding. The assistant regional commissioner or the Director, Alcohol and Tobacco Tax Division, as the case may be, will certify to the correctness of such transcript of the record, forward one copy to the attorney for the Government in the review of the case, and file the original record of the proceedings with the original certificate in the district court.

§ 200.119 *Court review; FAA permits.* If an applicant or respondent desires to have a decision of the examiner or a final order of the assistant regional commissioner, or the Director, Alcohol and Tobacco Tax Division, reviewed on appeal by the United States Circuit Court of Appeals, as provided by law, the Director, Alcohol and Tobacco Tax Division, upon notification of the filing of the petition for review, shall have prepared, in triplicate, a complete transcript of the record of the proceeding. The assistant regional commissioner or Director, Alcohol and Tobacco Tax Division, as the case may be, will certify to the correctness of the record and file the original certificate with the original record in the Circuit Court of Appeals.

SUBPART J—MISCELLANEOUS

§ 200.125 *Depositions.* The examiner may take or order the taking of depositions by either party to the proceeding at such time and place as he may designate before a person having the power to administer oaths, upon application therefor and notice to the parties to the action. The testimony shall be reduced to writing by the person taking the deposition, or under his direction, and the deposition shall be subscribed by the deponent unless subscribing thereof is waived in writing by the parties. Any person may be subpoenaed to appear and depose and to produce documentary evidence in the same manner as witnesses at hearings.

§ 200.126 *Subpoenas.* Where authorized by law, upon written application by a party to a proceeding, the attendance and testimony of any person, or the production of documentary evidence in proceedings instituted under this part may be required by personal subpoena (Form 1644) or by subpoena duces tecum (Form 1645). Application should be addressed to, and subpoenas should be issued by, the examiner before whom the proceedings are pending, but may be issued by the assistant regional commissioner or by the Director, Alcohol and Tobacco Tax Division, if the examiner is unavailable. Both the application and the subpoena shall set forth the title of the proceedings, the name and address of the person whose attendance is required, the date and place of his attendance and, if documents are to be produced, a description thereof; and the application must have reasonable scope and specify as exactly as possible the documents required, if any, and show their general relevance. Subpoenas shall be served in person. When issued on behalf of the United States, service shall be made by an officer, employee, or agent of the Treasury Department; when issued on behalf of a permittee or applicant, service shall be made by any person who is not a party to the proceeding and is not less than 18 years of age.

§ 200.127 *Witnesses and fees.* Witnesses summoned before the examiner may be paid the same fees and mileage that are paid witnesses in the courts of the United States, and witnesses whose depositions are taken and the persons taking the same shall severally be entitled to the same fees as are paid for like services in the courts of the United States. Witness fees and mileage shall be paid by the party at whose instance the witnesses appear and the person taking the deposition shall be paid by the party at whose instance the deposition is taken.

RECORD

§ 200.128 *What constitutes record.* The transcript of testimony, pleadings and exhibits, all papers and requests filed in the proceeding, together with all findings, decisions and orders, shall constitute the exclusive record. Where the decision rests on official notice of material fact not appearing in the record, the examiner shall so state in his findings and any party shall, on timely request, be afforded an opportunity to show facts to the contrary.

§ 200.129 *Availability.* A copy of the record shall be available for inspection by the parties to the proceedings during business hours at the office of the examiner or the assistant regional commissioner or, pending administrative review, at the office of the Director, Alcohol and Tobacco Tax Division. Copies of the record desired by the respondent or applicant may be purchased from the contract reporter, or, if the hearing was reported by a Government employee, a charge will be made for the copies at the lowest prevailing rates charged by public reporters in the region where the hearing is held, and in the case of photostats or copies of other documents in accordance with the provisions of Com-Mim. A. T. No. 719, dated January 3, 1952.

CIVIL AERONAUTICS BOARD

[14 CFR Part 226]

[Economic Regulations, Draft Release 78A]

FREE AND REDUCED-RATE TRANSPORTATION TO BOARD EMPLOYEES TRAVELING ON OFFICIAL BUSINESS

SUPPLEMENTAL NOTICE OF RULE MAKING

DECEMBER 1, 1955.

If the notice of proposed rule making on this matter, published in the FEDERAL REGISTER on November 9, 1955 (20 F. R. 8390), it was stated that the Board would cosider all relevant matter in communications received on or before December 9, 1955. The Air Transport Association of America, acting on behalf of itself and its members, has requested the Board to extend the date by which comments must be filed for a minimum additional period of 14 days. This request was predicated upon the need for careful study of the subject proposal and a desire for mutual consultation between the managements of various interested airlines.

The draft release proposed to clarify the legal status of a voluntary offer,

made by any air carrier engaged in interstate air transportation, to furnish free or reduced-rate transportation to Board personnel traveling on official business and also to include such personnel in the category of persons to whom preferential rate overseas or foreign air transportation may be furnished under the provisions of section 403 (b) of the act. Since these proposals are matters of substantial concern to the industry, the Board finds that the date presently set for return of comment should be extended to December 20, 1955.

Accordingly, the second sentence of the last paragraph of the aforementioned notice is amended to read as follows: "All relevant matter in communications received on or before December 20, 1955, will be considered by the Board before taking final action on the proposed rule."

(Sec. 205, 52 Stat. 984; 49 U. S. C. 425. Interpret or apply secs. 403, 404, 405, 52 Stat. 992, 993, 994; 49 U. S. C. 483, 484, 485)

By the Civil Aeronautics Board.

[SEAL] M. C. MULLIGAN, *Secretary.*

DEPARTMENT OF AGRICULTURE

Agricultural Research Service

[7 CFR Part 52]

FROZEN GRAPE JUICE CONCENTRATE FOR GRAPE BEVERAGE[1]

U. S. STANDARDS FOR GRADES

Subsequent to publication on October 20, 1954 (19 F. R. 6773), of a proposed United States Standards for Grades of Frozen Grape Juice Concentrate for Grape Beverage, views and arguments were received from interested persons indicating a need for further study relative to the proposed grade standards. After such study, this second notice is hereby given that the U. S. Department of Agriculture is considering the issuance of United States Standards for Grades of Frozen Grape Juice Concentrate for Grape Beverage pursuant to the authority contained in the Agricultural Marketing Act of 1946, (60 Stat. 1087 et seq.; 7 U. S. C. 1621 et seq.). This issuance, if made effective, will be the first issue by the Department of grade standards for this product.

All persons who desire to submit written data, views or arguments for consideration in connection with the proposed standards should file same with the Chief, Processed Products Standardization and Inspection Branch, Fruit and Vegetable Division, Agricultural Marketing Service, U. S. Department of Agriculture, Washington 25, D. C., not later than 60 days after publication hereof in the FEDERAL REGISTER.

The proposed standards are as follows:

[1] Compliance with these standards does not excuse failure to comply with the provisions of the Federal Food, Drug, and Cosmetic Act. The product covered by these standards is essentially sweetened concentrated grape juice usually with acid added but is generally marketed under the name "Frozen Concentrated Grape Juice."

SCORE SHEETS

52.2464 Score sheet for frozen grape juice concentrate for grape beverage.

AUTHORITY: §§ 52.2451 to 52.2464 issued under sec. 205, 60 Stat. 1090, as amended; 7 U. S. C. 1624.

PRODUCT DESCRIPTION, TYPES, STYLES, AND GRADES

§ 52.2451 *Product description.* Frozen grape juice concentrate for grape beverage is the frozen product of concentrated, unfermented juice obtained from sound properly matured, fresh grapes. The product is prepared from unfermented single-strength grape juice, which, with or without aging, or depectinization, is then concentrated. Single-strength grape juice, or a combination of single-strength grape juice and natural grape essence is then mixed to the concentrate and packed with the addition of nutritive sweetening ingredient and with or without ascorbic acid. Fruit acid may be added to adjust the flavor. The product is then frozen in accordance with good commercial practice and maintained at temperatures necessary for the preservation of the product.

§ 52.2452 *Types of frozen grape juice concentrate for grape beverage*—(a) *Type I.* Frozen grape juice concentrate for grape beverage prepared from grapes of the slip-skin varieties of the Concord type of the Labrusca species. Not less than 50 percent of the total soluble solids of the finished concentrate shall be derived from the grapes.

(b) *Type II.* Frozen grape juice concentrate for grape beverage (prepared from a single variety of grapes other than Concord type). Not less than 75 percent of the total soluble solids of the finished concentrate shall be derived from the grapes.

(c) *Type III.* Frozen grape juice concentrate for grape beverage prepared from a mixture of Type I and Type II or a mixture of Type II varieties. Not less than 60 percent of the total soluble solids of the finished concentrate shall be derived from the grapes.

§ 52.2453 *Style of frozen grape juice concentrate for grape beverage.* Brix value of the finished concentrate (including added sweetening ingredient) shall be not less than the following for the respective dilution factor of frozen grape juice concentrate for grape beverage:

Dilution factor	Minimum Brix value of finished concentrate including added sweetening ingredient
	Degrees
1 plus 1	24.6
1 plus 2	35.5
1 plus 3	43.4
1 plus 4	54.5
1 plus 5	62.6
1 plus 6	70.7

§ 52.2454 *Grades of frozen grape juice concentrate for grape beverage.* (a) "U. S. Grade A" or "U. S. Fancy" is the quality of frozen grape juice concentrate for grape beverage which reconstitutes properly and of which the reconstituted product possesses a good color; is practically free from defects; possesses a good flavor; and scores not less than 85 points when scored in accordance with the scoring system outlined in this subpart.

(b) "U. S. Grade B" or "U. S. Choice" is the quality of frozen grape juice concentrate for grape beverage which reconstitutes properly and of which the reconstituted product possesses a reasonably good color; is reasonably free from defects; possesses a reasonably good flavor; and scores not less than 70 points when scored in accordance with the scoring system outlined in this subpart.

(c) "Substandard" is the quality of frozen grape juice concentrate for grape beverage that fails to meet the requirements of U. S. Grade B or U. S. Choice.

FILL OF CONTAINER

§ 52.2455 *Recommended fill of container.* The recommended fill of container is not incorporated in the grades of the finished product since fill of container, as such, is not a factor of quality for the purpose of these grades. It is recommended that the container be filled with frozen grape juice concentrate for grape beverage as full as practicable without impairment of quality.

FACTORS OF QUALITY

§ 52.2456 *Ascertaining the grade.* (a) The grade of frozen grape juice concentrate for grape beverage is ascertained by considering the factors of quality which are not scored and those which are scored as follows:

(1) *Factors which are not scored.* Ease of mixing into grape beverage.

(2) *Factors which are scored.* The relative importance of each factor which is scored is expressed numerically on the scale of 100. The maximum number of points that may be given such factors are:

Factors:	Points
Color	40
Defects	20
Flavor	40
Total score	100

(b) The scores for the factors of color, defects, and flavor are determined immediately after the beverage has been prepared by thoroughly mixing the frozen grape juice concentrate with a specific volume of water as directed by the manufacturer.

§ 52.2457 *Ascertaining the rating for the factors which are scored.* The essential variations within each factor which is scored are so described that the value may be ascertained for each factor and expressed numerically. The numerical range within each factor which is scored is inclusive. (For example, "17 to 20 points" means 17, 18, 19, or 20 points.)

§ 52.2458 *Color*—(a) *(A) classification.* Frozen grape juice concentrate for grape beverage of which the prepared beverage possesses a good color may be given a score of 34 to 40 points. "Good color" has the following meanings with respect to the types of frozen grape juice concentrate for grape beverage.

(1) *Type I.* A bright purple or bright reddish-purple color characteristic of a beverage properly prepared from Concord type grape juice and, in addition, the beverage prepared conforms to the following requirements:

Minimum absorbancy at 520 millimicrons	[2] 4.5
Minimum absorbancy ratio	[2] 2.0

[2] Determined according to § 52.2462.

(2) *Types II and III.* A bright color characteristic of a beverage properly prepared from juice of any varietal type of varietal types of grapes from which prepared.

(b) *(B) classification.* If the prepared beverage possesses a reasonably good color a score of 28 to 33 points may be given. Frozen grape juice concentrate for grape beverage that falls into this classification shall not be graded above U. S. Grade B or U. S. Choice regardless of the total score for the product, (this is a limiting rule). "Reasonably good color" has the following meanings with respect to the types of frozen grape juice concentrate for grape beverage.

(1) *Type I.* A purple or reddish-purple color characteristic of a beverage prepared from Concord type grape juice and which color may be slightly dull purple, slightly dull bluish-purple, or slightly dull reddish-purple but which is not off-color for any reason.

(2) *Types II and III.* A color that reflects to a reasonable extent the appearance characteristic of a beverage prepared from juice of any varietal type or varietal types of grapes from which prepared and which color may be slightly dull but not off-color for any reason.

(c) *(SStd.) classification.* Frozen grape juice concentrate for grape beverage that fails to meet the requirements of paragraph (b) of this section may be given a score of 0 to 27 points and shall not be graded above Substandard regardless of the total score for the product (this is a limiting rule).

§ 52.2459 *Defects*—(a) *General.* The factor of defects refers to the degree of freedom from sediment and other residue, from tartrate crystals, from particles of skin, particles of seed, and from other defects.

(b) *(A) classification.* Frozen grape juice concentrate for grape beverage of which the prepared beverage is practically free from defects may be given a score of 17 to 20 points. "Practically free from defects" means that there may be present not more than a slight amount of sediment and residue; is practically free from tartrate crystals; and is free from particles of skin, particles of seed, and from other defects.

(c) *(B) classification.* If the prepared beverage is fairly free from defects a score of 14 to 16 points may be given. Frozen grape juice concentrate for grape beverage that falls into this classification shall not be graded above U. S. Grade B or U. S. Choice regardless of the total score for the product, (this is a limiting rule). "Reasonably free from defects" means that there may be present not more than a slight amount of sediment and residue; may possess a slight amount of tartrate crystals; may possess not more than a trace of particles of skin, particles of seed, and other defects.

(d) *(SStd.) classification.* If the prepared beverage fails to meet the requirements of paragraph (c) of this section a score of 0 to 13 points may be given. Frozen grape juice concentrate for grape beverage that falls into this classification shall not be graded above Substandard regardless of the total score for the product, (this is a limiting rule).

§ 52.2460 *Flavor*—(a) *(A) classification.* Frozen grape juice concentrate for grape beverage of which the prepared beverage possesses a good flavor may be given a score of 34 to 40 points. "Good flavor" means that the flavor is a fine distinct and normal flavor, typical of well-matured grapes for the variety or varieties and is free from any objectionable flavors and objectionable odors of any kind. To score in this classification the prepared beverage and concentrate shall meet the following additional requirements:

(1) *Type I*—(i) *Brix.* Not less than 13.0 degrees.

(ii) *Acid.* Not less than 0.40 gram per 100 milliliters nor more than 0.60 gram per 100 milliliters, calculated as tartaric acid.

(iii) *Brix-acid ratio.* The ratio of Brix value to acid is not less than 20 to 1 nor more than 32 to 1.

(iv) *Concentrate.* Methyl anthranilate (naturally occurring)—not less than the following for the respective dilution factor of frozen grape juice concentrate for grape beverage.

Dilution factor	Minimum methyl anthranilate (naturally occurring) (mg./l.)
1 plus 1	0.4
1 plus 2	.8
1 plus 3	1.2
1 plus 4	1.6
1 plus 5	2.0
1 plus 6	2.4

(2) *Types II and III*—(i) *Brix.* Not less than 19.0 degrees.

(ii) *Acid.* Not less than 0.40 gram per 100 milliliters nor more than 0.75 gram per 100 milliliters, calculated as tartaric acid.

(iii) *Brix-acid ratio.* The ratio of Brix value to acid is not less than 24 to 1 nor more than 40 to 1.

(b) *(B) classification.* If the prepared beverage possesses a fairly good flavor a score of 28 to 33 points may be given. Frozen grape juice concentrate for grape beverage that falls into this classification shall not be graded above U. S. Grade B or U. S. Choice regardless of the total score for the product (this is a limiting rule). "Reasonably good flavor" means a reasonably typical flavor of reasonably well matured grapes for the varietal type or varietal types and is free from objectionable flavors and objectionable odors of any kind. To score in this classification the prepared beverage shall meet the following additional requirements:

(1) *Type I*—(i) *Brix.* Not less than 13.0 degrees.

(ii) *Acid.* Not less than 0.30 gram per 100 milliliters nor more than 0.60 gram per 100 milliliters, calculated as tartaric acid.

(iii) *Brix-acid ratio.* The ratio of Brix value to acid is not less than 18 to 1 nor more than 36 to 1.

(2) *Types II and III*—(i) *Brix.* Not less than 18.0 degrees.

(ii) *Acid.* Not less than 0.30 gram per 100 milliliters nor more than 0.75 gram per 100 milliliters, calculated as tartaric acid.

(iii) *Brix acid ratio.* The ratio of Brix value to acid is not less than 22 to 1 nor more than 42 to 1.

(c) *(SStd.) classification.* If the frozen grape juice concentrate for grape beverage fails to meet the requirements of paragraph (b) of this section a score of 0 to 27 points may be given. Frozen grape juice concentrate for grape beverage that falls into this classification shall not be graded above Substandard regardless of the total score for the product, (this is a limiting rule).

EXPLANATIONS AND METHODS OF ANALYSIS

§ 52.2461 *Definition of terms used in these standards.* (a) "Brix" means the degrees Brix of the reconstituted grape beverage when tested with a Brix hydrometer calibrated at 20 degrees C. (68 degrees F.). If used in testing grape beverage at a temperature other than 20 degrees C. (68 degrees F.), the applicable temperature correction shall be made to the reading of the scale as prescribed in "Official Methods of Analysis of the Association of Official Agricultural Chemists." The degrees Brix of grape beverage may be determined by any other method which gives equivalent results.

(b) "Acid" means the grams of acid (calculated as tartaric acid) per 100 milliliters of the reconstituted grape beverage determined by titration with standard sodium hydroxide solution using phenolphthalein as an indicator.

(c) "Brix-acid ratio" means the ratio between the degrees Brix as determined

in this section and the acid in grams per 100 milliliters of reconstituted grape beverage.

(d) "Dilution factor" is the ratio of the volumes of water to the volume of concentrate. This factor is provided by the manufacturer's directions for preparing the desired grape beverage (i. e., 3 plus 1 implies 3 volumes of water to 1 volume of concentrate).

(e) "Absorbancy ratio" means the ratio of absorbancy reading at 520 millimicrons to the absorbancy reading at 430 millimicrons.

§ 52.2462 *Methods of analysis*—(a) *Methyl anthranilate*—(1) *Reagents.* (i) Hydrochloric acid—dilute 81 milliliters (ml.) of HCL to 100 ml. with H_2O.

(ii) Sodium nitrite solution—dissolve 3 grams (gm.) of $NaNO_2$ in 200 ml. of H_2O.

(iii) Hydrazine sulfate solution—dissolve 5 gm. of $N_2H_4 \cdot H_2SO_4$ in 200 ml. of H_2O.

(iv) Sodium carbonate solution—dissolve 50 gm. of Na_2CO_3 in 150 ml. of H_2O.

(v) Sodium - a - naphthol-2-sulfonate solution—dissolve 4.7 gm. of the sulfonate in 100 ml. of H_2O.

(vi) Standard solution of methyl anthranilate—dissolve 0.25 gm. of methyl anthranilate in 60 ml. of 95 percent ethyl alcohol and dilute with H_2O to 500 ml.

(2) *Apparatus.* Modified Pregl Micro Kjeldahl distilling apparatus (steam distilling apparatus, catalogue No. 22500, Central Scientific Co., Chicago, Ill., or equal, may be used).

(3) *Standard curve.* (i) Dilute 20 ml. of standard solution of methyl anthranilate to 1 liter with H_2O (equivalent to 10 micrograms per ml.).

(ii) Prepare series of solution for standard curve by transferring 0–5 ml. of solution (i) into 100 ml. volumetric flask. Dilute to ca. 80 ml. with H_2O.

(iii) Then add as follows:

(*a*) 1 ml. HCl and 1 ml. sodium nitrite solution. Let stand 2 minutes.

(*b*) 3 ml. hydrazine sulfate solution. Let stand 1 minute.

(*c*) 2 ml. sodium-a-naphthol-2-sulfonate solution.

(*d*) Immediately add 3 ml. sodium carbonate solution, dilute to 100 ml. volume with H_2O, let stand 10 minutes.

(*e*) Read absorbancy at 490 millimicrons, in a spectrophotometer or colorimeter, against a blank, carried through entire procedure, set at zero absorbancy.

(iv) Plot standard curve of concentration (microgram per 100 ml. of final solution) of methyl anthranilate against absorbancy of solutions.

(4) *Determination.* Use a 100 ml. volumetric flask as receiver. Add 5 ml. of water to just cover or seal end of extended condenser tube. Transfer 15–25 ml. of sample concentrate into distillation flask. Collect about (ca.) 80 ml. of distillate. Treat as under subparagraph (3) (iii) of this paragraph. Obtain concentration (micrograms/100 ml. of final solution) of methyl anthranilate from standard curve, (see subparagraph (3) (iv) of this paragraph).

$$\frac{\text{mgs.}}{\text{liter of concentrate}} = \frac{\text{microgram 100 ml. of final solutions}}{\text{ml. of sample taken}}$$

(b) *Absorbancy and absorbancy ratio.* Absorbancy and absorbancy ratio shall be obtained as follows:

(1) The concentrate shall be diluted at 25 degrees C., using MacIlvaine's pH 3.2 buffer as the liquid.

(2) 5 ml. aliquot of diluted sample shall be further diluted to 100 ml. with MacIlvaine's pH 3.2 buffer.

(3) Filter 50 ml. of solution through sintered glass crucible 4-cm. diameter, 4.5-cm. height, medium porosity.

(4) Read absorbancy of filtrate on a spectrophotometer at 520 millimicron wavelength with a 0.05 mm. width slit and at 430 millimicron wavelength with a 0.025 mm. width slit.

$$\text{Absorbancy} = 2 - \log T, \text{ where } T = \text{percentage transmittancy}$$

$$\text{Corrected absorbancy} = \text{observed absorbancy} \times \frac{20}{\text{thickness of cell in cm.}}$$

$$\text{Absorbancy ratio} = \frac{\text{corrected absorbancy at 520 millimicrons}}{\text{corrected absorbancy at 430 millimicrons}}$$

LOT CERTIFICATION TOLERANCES

§ 52.2462 *Tolerances for certification of officially drawn samples.* (a) When certifying samples that have been officially drawn and which represent a specific lot of frozen grape juice concentrate for grape beverage the grade for such lot will be determined by averaging the total scores of the containers comprising the sample, if, (1) all containers comprising the sample meet all applicable standards of quality promulgated under the Federal Food, Drug, and Cosmetic Act and in effect at the time of the aforesaid certification; and (2) with respect to those factors which are scored:

(i) Not more than one-sixth of the containers fails to meet the grade indicated by the average of such total scores;

(ii) None of the containers falls more than 4 points below the minimum score for the grade indicated by the average of such total scores;

(iii) None of the containers falls more than one grade below the grade indicated by the average of such total scores; and

(iv) The average score of all containers for any factor subject to a limiting rule is within the score range of that factor for the grade indicated by the average of the total scores of the containers comprising the sample.

SCORE SHEET

§ 52.2463 *Score sheet for frozen grape juice concentrate for grape beverage.*

Size and kind of container	
Container mark or identification	
Label (including dilution factor)	
Net contents (fluid ounces)	
Type (Concord, other, blended)	
Brix of the reconst. beverage	
Acid (as tartaric) grams/100 ml.	
Brix-acid ratio	

Factors		Score points

INTERSTATE COMMERCE COMMISSION

[49 CFR Part 125]

RAILROAD ACCIDENTS; REPORTS AND CLASSIFICATION

MONTHLY REPORTS

DECEMBER 1, 1955.

Notice to all Common Carriers within the scope of the Accident Reports Act, approved May 6, 1910.

The Commission having under consideration the Rules Governing the Monthly Reports of Railway Accidents, effective by its Order of December 31, 1921, as amended, has approved the revised rules set forth below. An appendix listing the causes and codes to be used in classifying railroad accidents will be provided when the revised rules are printed.

Any interested party may, on or before 30 days after the date of this notice, file with the Commission a written statement of reasons why the rules set forth below should not be made effective, and may request oral argument thereon. Unless otherwise decided, after consideration of objections so filed, an order will be entered making them effective January 1, 1956.

[SEAL] HAROLD D. McCOY,
Secretary.

RULES GOVERNING MONTHLY REPORTS OF RAILROAD ACCIDENTS

AUTHORITY

These rules are issued by authority of the Accident Reports Act approved May 6, 1910, section 1 of which requires "that it shall be the duty of the general manager, superintendent, or other proper officer of every common carrier engaged in interstate or foreign commerce by railroad to make to the Interstate Commerce Commission, at its office in Washington, District of Columbia, a monthly report under oath, of all collisions, derailments, or other accidents resulting in injury to persons, equipment, or roadbed arising from the operation of such railroad under such rules and regulations as may be prescribed by the said Commission, which report shall state the nature and causes thereof and the circumstances connected therewith."

PURPOSE

The purpose of reporting accidents arising from the operation of a railroad to this Commission is to carry out the intent of the Congress as expressed in the Accident Reports Act approved May 6, 1910, namely, the disclosure of the hazards inherent in the provision of common carrier transportation by railroad insofar as such disclosure may appear from accident experience. Accident reporting, therefore, being in the interest of the remedial and regulatory process, its requirements apply exclusively to collisions, derailments, and other accidents arising from the actual operation of a railroad.

GENERAL INSTRUCTIONS

1. *Definition of "arising from the operation of a railroad".* The term is limited to the physical operation and maintenance of equipment, track, and roadbed of a railroad and includes only the:

(a) Operation of trains, locomotives, or cars.

(b) Transportation in railroad cars of persons, freight, mail, baggage, express, or other material including loading and unloading of such cars.

(c) Any necessary handling and care, by railroad employees, of persons and lading on cars in transit.

(d) Work performed on railroad property (except as indicated in section 5 (a)) by railroad employees who in the course of their regular duty are engaged in the operation, construction, servicing, or maintenance of existing lines, as follows:

(1) Construction, servicing, or maintenance of locomotives or cars or of any of the facilities used for doing this work.

(2) Construction, installation, or repair of tracks or roadbed or of any of the facilities used for doing this work.

(3) Construction, installation, servicing, or maintenance of signal structures or equipment including highway crossing protection or of any of the facilities used for doing this work.

(4) Construction, installation, servicing, or maintenance of communication structures or equipment or of any of the facilities used for doing this work.

(5) Construction, installation, servicing, or maintenance of other fixed railroad structures, including signs, under, over, or beside tracks.

(6) Physical operation of all railroad facilities and equipment which includes those acts which are performed in and about freight houses and passenger stations (including the loading and unloading of cars), yard offices, car dumpers, or storehouses or any other facilities used for providing railroad service.

2. *Definition of "accidents".* (a) An accident is an occurrence arising from a collision, derailment or other happening incurred in the physical operation of a railroad as herein defined in section 1 above.

(b) The Accident Reports Act requires the reporting of collisions, derailments or other accidents resulting in injury to persons, equipment or roadbed, arising from the operation of a railroad. As used in the act, the term "other accidents" requires that said accidents should include only such accidents as involve the physical movement and maintenance of trains, locomotives, or cars, and the maintenance and use of tracks and roadbed.

(c) An "accident" as herein used which results in external or internal injury to a person presupposes an occurrence, such as a blow, impact of a locomotive, car, machinery, equipment, tool, material or other object, a slip, a trip or fall, or any mishap, usually unforeseen, resulting from an action arising in the operation of a railroad as defined in section 1 above.

(d) The act makes clear that "accident" and "injury" are not synonymous terms, and, therefore an injury must be the result of an accident, or in other words, some physical agency arising from the operation of a railroad as herein defined in section 1 above must inflict injury as defined in paragraph 2 (c) above.

3. *Occurrences not to be classed as "Accidents Arising from the Operation of a Railroad".* (a) In the absence of any such mishap as mentioned in section 2 (c), the application of physical exertion alone shall not be classed as an accident.

(b) Disability through aggravation of an unfavorable physical condition in connection with a mishap as defined in section 2 (c) shall not be classed as a reportable accident if all of the evidence is nonconflicting and clearly indicates that such mishap of itself would have been insufficient to cause reportability.

(c) Disability resulting alone from the accentuation of an unfavorable physical condition, in the absence of a mishap, shall not be classed as an accident.

(d) Disability resulting from illness or disease shall not be classed as an accident.

(e) Disability representing the cumulative effect of repetitive use of tools or appliances or repetitive exposure to the elements or to chemicals, fumes, gases and the like, shall not be classed as an accident. This limitation does not apply to disability arising from a single exposure to chemicals, fumes, gases and the like.

(f) Disability resulting from contact with animals, insects, reptiles, poisonous weeds or leaves, or like objects not arising from the operation of a railroad as herein defined in section 1 above.

(g) Occurrences determined to be suicides by a coroner or other public authority.

4. *"Accidents" to be reported.* A reportable accident is an accident arising from the operation of a railroad as herein defined in section 1 above that results in one of more of the following circumstances:

(a) Death of a person: A death resulting from an accident within 24 hours following its occurrence is reportable as a fatality; if death occurs after the expiration of the 24-hour period, the casualty is reportable as an injury and also as a subsequent fatality.

(b) Injury to an employee sufficient to incapacitate him from performing fully and acceptably and without extra assistance all of the duties customarily included in the assignment of the employee at the time of injury for more than three days (72 hours) in the aggregate during the ten days (240 hours) immediately following the accident. This rule applies to employees on duty, and to those classed as not on duty, but does not apply to employees classed as passengers or trespassers.

Incapacitation, which includes Sundays, holidays, and lay-off days, begins: Whenever the pain or inconvenience resulting from the accident becomes so serious that it would prevent the injured person from performing all of his duties whether or not there is necessity or opportunity for him to do so at the time, and

Incapacitation ends: Whenever the injured person has recovered sufficiently to be able to resume performance of all of his duties whether or not there is necessity or opportunity for him to do so at the time.

(c) Injury to a person other than an employee if the injury is sufficient to incapacitate the injured person from following his customary vocation or mode of life for a period of more than one day. This rule applies also to employees classed as passengers or trespassers.

(d) Damage to equipment, tracks, and roadbed amounting to more than $750 which also results in a reportable casualty, a collision, or a derailment.

When there is uncertainty as to the extent of disability, all the circumstances surrounding an injury will be thoroughly investigated, including any medical attention rendered, which will be submitted to the chief medical officer of the carrier, and in the light of all such circumstances and medical attention the professional opinion of the chief medical officer will govern the determination and duration of physical incapacitation under these rules.

An accident to be reportable must be established directly or indirectly as having occurred at a specified place and date.

5. *"Accidents" not to be reported.* (a) No accident shall be considered as arising from the operation of a railroad as herein defined in section 1 above which occurs off owned or leased railroad property or on that part of railroad property not directly used in transportation, except when occurring in train or switching operations by a reporting carrier on industrial or private premises, or on public or private property adjacent to the railroad right-of-way which is caused by an agency arising from the operation of a railroad on railroad property.

(b) No accident resulting in damage to property or a personal casualty is reportable if it arises from some agency located either on or off railroad premises which agency is not an employee then engaged in, or a part of the railroad used in, transportation. However, any resultant collision or derailment which causes a reportable casualty or damage of more than $750 to a moving train, locomotive, or car must be considered as arising from the operation of a railroad as herein defined in section 1 above.

(c) No accidents and resulting casualties are reportable when caused by an extraordinary force of nature as defined by the United States Weather Bureau (for example, such as floods, earthquakes, hurricanes, tornadoes, and electrical storms). However, any resultant collision or derailment which causes a reportable casualty or damage of more than $750 to a moving train, locomotive, or car must be considered as arising from the operation of a railroad as herein defined in section 1 above.

(d) The consequences of horseplay or assault by persons upon one another on railroad trains or off that part of a railroad used in transportation are not considered as arising from the operation of a railroad as herein defined in section 1 above.

(e) Unless caused by moving trains, locomotives, or cars, or the action of railroad employees on duty engaged in the operation of a railroad as herein defined in section 1 above, accidents to all classes of non-employees either lawfully or unlawfully on railroad property are not reportable, except accidents resulting in casualties to passengers boarding or alighting from passenger trains at passenger stations.

(f) Accidents at highway or street crossings, or on parts of highways within railroad right-of-way, not involving the presence or operations of trains, locomotives, cars, track cars, or similar equipment and not involving employees then engaged in the operation of a railroad as herein defined in section 1 above.

(g) Accidents in or about living quarters not arising from the operation of a railroad as herein defined in section 1 above.

6. *Doubtful cases.* The reporting officer of a railroad will ordinarily determine the reportability or nonreportability of a casualty after an examination of all the evidence available to the railroad. The Commission, however, cannot delegate authority to private parties to decide matters of judgment where facts are in dispute. In all such instances, the decision must be that of the Commission alone. The reporting railroad may directly request a ruling as to reportability or it may report the case as "claimed but not admitted by carrier". These cases are given special examination by this Commission. Facts stated by a railroad which tend to refute the claim of an injured person are given consideration. When all the facts available to the Commission are found to be insufficient to prove the claim, the case will not be allocated to the reporting railroad. Such cases will be eliminated from the I. C. C. records and the reporting officer of the carrier advised of the action taken in the matter.

7. *Joint operations.* "Joint operations" is a term intended to cover operations conducted on terminal or other tracks used jointly or in common by two or more reporting carriers, or where the equipment of one carrier moves as its own train over the track of another carrier.

Locomotives, with or without crews, if loaned or leased by one carrier to another, are not thereby made subject to the rules relative to "joint oprations".

Trains or locomotives of a nonreporting carrier which may become involved in reportable accidents on the line of a reporting carrier do not fall under the rules pertaining to "joint operations"; such accidents, however, should be included in the report of the reporting carrier.

If a reportable accident occurs on a private siding or track of like character, it should be reported by the carrier having possession of the locomotive concerned or employing the persons involved, but not as a joint-operation accident.

The question of responsibility among carriers for accidents classifiable under the rules applicable to joint operations is not to be considered in relation to the making of reports concerning them, but all carriers involved should make reports as respectively required.

(a) Train accidents resulting in casualties and damage to equipment, track, or roadbed, in excess of $750 or collisions and derailments with damage to equipment, track, or roadbed in excess of $750, occurring on tracks used by two or more reporting carriers should be severally reported by the carrier or carriers whose equipment or employees are involved and the carrier whose superintendent is in immediate charge of the track on which the accident occurs. Each carrier concerned in such an accident should report the casualties, if any, and the damage to its equipment and other items of expense as provided in the report form and state (estimating, if unknown) the casualties, if any, and the amount of damage sustained by the other carriers involved, the names of which should be respectively indicated before casualties and the items of damage.

If a reportable train accident, though occurring on jointly used track, involves only the equipment and employees of the carrier whose superintendent is in immediate charge of such track, the accident need be reported only by the carrier concerned.

(b) Train-service accidents occurring on terminal or other tracks used jointly or in common by two or more reporting carriers involving employees on duty should be reported by each of the carriers concerned. Casualties to other persons should be reported by the carrier whose equipment is involved.

(c) Casualties to railroad employees on an adjacent track of another railroad should be reported by both railroads, whether or not a joint operation is involved.

(d) In all cases involving joint operation, whether one or more trains are involved, each carrier will be allocated casualties to all persons on its own train. Casualties to employees not on train, whether on or off duty, will be allocated to the employing railroad. Casualties to all other classes of persons not on train will be allocated to the railroad on whose tracks the accident occurred.

CLASSIFICATION OF RAILROAD ACCIDENTS

8. *Primary groups and their definitions.* Reportable railroad accidents are divided into three groups which are:

Group I. Train accidents,
Group II. Train-service accidents, and
Group III. Nontrain accidents.

Group I. Train accidents are those arising directly from the operation or movement of trains, locomotives, or cars which result in:

(1) A reportable casualty with more than $750 damage to equipment, track, or roadbed;[1] or

(2) Collisions or derailments with more than $750 damage to equipment, track, or roadbed.[1]

Group II. Train-service accidents are those arising directly from the operation or movement of trains, locomotives, or cars which result in a reportable casualty but not more than $750 damage to equipment, track or roadbed.[1]

Group III. Nontrain accidents are those which do not result directly from the operation or movement of trains, locomotives, or cars. They include those specific reportable casualties resulting from movements of locomotives or cars made by shop employees on shop tracks as well as all reportable casualties that occur where no locomotive or car operation or movement was involved but which are includible under section 1.

GROUP I—TRAIN ACCIDENTS

9. Train accidents should be classified as:

(a) A collision (class C) which is a violent impact of a train, locomotive, or car with some other train, locomotive, or car while both are on rails. Accidents, however, in which cars, not in suitable condition to withstand common train usage, that, when coupled in trains, may be damaged through ordinary train movements, should be classified as other train accidents, and not as collisions. (Accidents caused by trains, etc., striking bumping posts, or track motor cars and like roadway machines not equipped with A. A. R. couplers except when operating under train rules and subject to the protection afforded to trains, are not classifiable as collisions.)

Reports of collisions, in addition to furnishing the information required by sections of these rules having general application, should describe briefly the method of operation in use for the track involved, stating whether a signal system was in use, and, if in use, whether it was manual, controlled manual or automatic block; interlocking or C. T. C.; cab signals or automatic train control.

For collisions involving any question of train orders, the information should show whether they were on Form "19" or

[1] Excluding cost of clearing wreck.

Form "31" (A. A. R. Standard Code of Train Rules).

In the case of a collision, the number of main tracks in use in the locality of the accident should be stated.

Collisions should be classified as follows:

(1) Rear-end collisions: A rear-end collision is a collision in which the trains or locomotives involved are bound in the same direction on the same track.[2] Collisions in which all of the equipment involved is employed in a switching movement are to be included in 9 (a–7).

(2) Head-on collisions: A head-on collision is a collision in which the trains or locomotives involved are bound in opposite directions on the same track.[2] Collisions in which all of the equipment involved is employed in a switching movement are to be included in 9 (a–7).

(3) Broken-train collisions: A broken-train collision is a collision in which a moving train breaks into parts and a violent impact of two or more of the uncoupled parts of the same train occurs, or one or more of the parts collide with another train, locomotive, or car. Collisions in which all of the equipment involved is employed in a switching movement are to be included in 9 (a-7).

(4) Side or raking collisions: This class does not include collisions of trains with cars classifiable under 9 (a-6) or collisions of equipment employed in switching movements classifiable under 9 (a-7). An accident caused by parts of equipment on one track coming in contact with equipment on a separate track as a result of a derailment should be classified as a derailment while one due to bulging equipment or improper loading of cars, unless a derailment occurs, should be classified as an other train accident.

(5) Crossing collisions at railroad crossings: The term "crossing collisions at railroad crossings" is used herein to mean collisions occurring at crossings or junctions involving trains, locomotives, or cars operated on intersecting tracks.[2] This class does not include accidents due to striking automobiles or other highway vehicles.

(6) Collisions of trains with cars not in trains: This class does not include collisions of trains with cars, operating under train rules and subject to the protection afforded to trains, which should be classified as (1), (2), (3), (4), or (5) in accordance with the circumstances of the particular cases.

(7) Switching collisions: The term "switching collisions" is used herein to mean collisions occurring to equipment being switched, as in making up or breaking up trains, shifting or setting out cars, etc., including accidents to locomotives involved in such service. A collision should not receive this classification when two or more locomotives, trains, or cuts of cars are involved unless both or all such units of equipment are employed in switching movements at the time of accident, but it should be classified as 9 (a–1), 9 (a–2), 9 (a–3), 9 (a–4), 9 (a–5), 9 (a–6), or 9 (a–8), in accordance with the circumstances of the particular case.

(8) Collisions not elsewhere classifiable: This class includes collisions between locomotives and cars when engaged in switching movements as described in paragraph 9 (a–7).

(b) A derailment (class D) is a failure of the tread of any wheel of a locomotive or car to set on the rail of the track the locomotive or car is intended to be on. (Does not include derailments of track motor cars and like roadway machines not equipped with A. A. R. couplers.) In reporting derailments the information required by provisions of these rules having general application should be furnished, and there should be indicated in particular, by initials and number, or name, the equipment causing the derailment.

If a derailment is the result of a public highway grade-crossing accident, a supplement to a Form T, in addition to a Form T, should be supplied.

If a derailment is the result of the breaking of a rail, a Form R, in addition to a Form T, should be supplied.

(c) Other train accidents (class O) include all train accidents other than collisions and derailments.

If any such other train accident is the result of a public highway grade-crossing accident, a supplement to a Form T, in addition to a Form T, should be supplied.

GROUP II—TRAIN-SERVICE ACCIDENTS

10. Train-service accidents (class S) include all other accidents of trains.

If a train-service accident is the result of a public highway grade-crossing accident, a supplement to a Form T, in addition to a Form T, should be supplied.

GROUP III—NONTRAIN ACCIDENTS

11. Nontrain accidents should include those casualties which are outlined above in section 8. The classification of persons to whom reportable casualties occur in nontrain accidents and the classification of such accidents should be in accordance with the "Instructions" given in "Form V".

FORM AND ARRANGEMENT OF REPORTS

12. *Forms used and duplicate reports.* Monthly reports of railroad accidents should be made on forms provided by the Interstate Commerce Commission or on forms identical therewith in arrangement, size, and in color and weight of paper, and every reporting carrier is required to retain in its files a duplicate of each report rendered to the Commission. For the reporting railroads' files, this duplicate should also show the name or names of the casualty or casualties reported and the precise location at which the accident occurred.

The forms provided, which are of five kinds, are designated as Form V, T, Supplement to T, R, and F.

Each sheet of each report should show in the appropriate place the name of the company for which it is filed, the month and year to which the report relates, and all other particulars called for by the form. Each sheet of each report following Form V should bear the autograph signature of a responsible officer or employee.

13. *Form V (verification).* A report should be made on this form each month, even though no reportable (train, train-service, or nontrain) accident occurred during the month covered. Such report should include an oath or verification, made by the proper officer of the reporting carrier, as provided for attestation on Form V, which should show the number of train and train-service accidents that occurred during the month for which the report is made, and the number of sheets, inclusive of Form V. If no reportable accident occurred during the month, that fact should be stated on this form. Form V should also show the total number of locomotive and motor-train miles run during the month, computed in accordance with Train-Mile, Locomotive-Mile and Car-Mile accounts in the Uniform System of Accounts for Railroad Companies prescribed by the Interstate Commerce Commission. If any reportable nontrain accidents occurred during the month, they should be reported in the tables provided on Form V, but if none occurred, that fact should be stated as required.

14. *Form T (train and train-service accidents).* A separate Form T sheet should be used for each reportable train accident or train-service accident and should show the required particulars concerning the accident.

Information called for by each of the questions shown on T sheets should be supplied except in the instance of questions the answers to which would not be significant in which case the space provided for the answer should be blanked out.

15. A supplement to each Form T sheet also should be used for each reportable:

(a) Derailment due to highway grade-crossing accident.

(b) Other train accident due to a highway grade-crossing accident.

(c) Train-service accident due to a highway grade-crossing accident.

16. *Form R (rail failures).* In case of reportable train accidents resulting from rail failures, particulars of the failures should be reported on Form R, and all the information called for on that form should be furnished additionally to that required on Form T.

17. *Form F (subsequent fatalities).* If, as the result of an injury, a person dies more than 24 hours after the occurrence of the accident the casualty should be reported as an injury and, in addition, a memorandum of the death should be given on Form F in accordance with the requirements of that form. This ad-

[1] The time-table or schedule direction should govern the classification of collisions in classes 9 (a–1) and 9 (a–2) if at the time of the accident either of the trains or locomotives is at rest, or if its incidental movement temporarily differs from its schedule direction.

[2] Crossing collisions covered should be reported by each carrier affected. Casualties to persons and items of damage should be reported in the same manner as described in connection with "joint operation" accidents.

ditional report is to be made in connection with the report for the month in which the accident occurred, if practicable, otherwise it should separately accompany the first monthly report filed after the death has come to the knowledge of the carrier. A single Form F may contain reports of more than one such fatality, provided all persons included therein were injured during the same month.

18. *Classification symbols.* Symbols indicating the class of train accidents or of train-service accidents and the class of persons involved should be entered in the appropriate spaces on Form T as follows:

Class of accident: Sheets carrying reports of collisions are to be marked C; those relating to derailments, D; those relating to other train accidents, O; and those relating to train-service accidents, S.

Class of person: The designation of the class of person should include the applicable capital letter preceding the name of the class, to which should be added the number of the "Reporting Division" with such other descriptive detail as may be appropriate.

19. *Arrangement and numbering of sheets.* All the forms in a monthly report should be arranged in the order V, T, R, and F. Supplements to T sheets should follow the T sheet to which each refers. All Forms T should be further grouped in accordance with the character of the accidents and arranged in the order C, D, O, and S. Collisions should be subgrouped in order by subclasses; as, for example, all of C–1, followed by all of C–2, followed in turn by all of C–3, etc., throughout the series. All sheets are to be numbered consecutively, beginning with No. 1 for Form V each month. When properly arranged and numbered, all sheets, including Form V, should be securely fastened.

In no case should the report for any month include a Form T sheet completed for an accident that did not occur during the month covered by the report. Should it be discovered by a carrier that the report of a particular accident on a Form T has, through mistake or otherwise, been improperly omitted from its regular monthly accident report, the sheet covering such accident should be separately transmitted to the Bureau of Transport Economics and Statistics, with a suitable letter of explanation.

PARTICULARS TO BE REPORTED

20. *General.* The codes shown in the index have been designed, so far as that is practicable, to indicate the primary causes of the accidents reported. As to each specific reportable accident, the Reporting Officer should first examine all the evidence available to the railroad from which he should determine the cause of accident. He will, except in those instances referred to in the following paragraph, then find the number of the code which should be used listed under the alphabetical index of causes. The code number there shown should be entered on the Form T sheet to be sent to the Interstate Commerce Commission.

In instances where the specific cause of an accident cannot be found in the index, the code number of that particular miscellaneous cause which most nearly corresponds with the details of the particular accident being reported should be used. The miscellaneous causes will be found in the Supplementary Index.

In addition to reporting the number of the code under which each accident should be classified, the Reporting Officer should supply sufficient information to not only enable the Interstate Commerce Commission to verify the code number selected but also to classify all other data called for as they pertain to each of the accidents reported.

21. *Yard.* A system of tracks within defined limits provided for the making up or breaking up of trains, for the storing of cars, and for other purposes over which movements not authorized by timetable, or by train order, may be made, subject to prescribed signals and rules or under special instructions.

22. *Train, locomotives and cars.* For the purpose of reporting railroad accidents, a train is defined as a unit of equipment, or a combination of units of equipment (exclusive of light locomotives), in condition for movement over tracks by self-contained motor equipment. A locomotive is a self-propelled unit of equipment designed solely for moving other equipment. A light locomotive is a locomotive in condition for movement by its own motor equipment, uncoupled to cars, work equipment, or dead locomotives. A motor car is a self-propelled unit of equipment designed to carry freight or passenger traffic, and is not to be considered a locomotive. (Train or train-service accidents may result from the movement of cars without the use of a locomotive.) Track motor cars and like roadway machines not equipped with A. A. R. couplers are not regarded as "cars" within the meaning here used.

In reporting accidents involving trains, locomotives, or cars, sufficient particulars should be given to show definitely to which of the four classes of service described below the equipment was assigned. Definite information is required in this respect and descriptive terms of local application, such as "milk", "transfer", "mine", etc., should not be used to designate classes of trains. In connection with this matter, a light engine involved in an accident should be classified as belonging to that class of service to which its assignment at the time of the accident was related.

(a) Transportation service: Freight includes trains run between terminals or stations containing loaded or empty freight-train cars and trains consisting of a locomotive and caboose running light in connection with such service. Trains which contain passenger-train cars shall be classed as freight trains whenever the number of freight-train cars is in excess of the number of passenger-train cars in them.[4]

(b) Transportation service: Passenger includes trains run between terminals or stations containing loaded or empty passenger-train cars. Trains which contain freight-train cars shall be classed as passenger trains whenever the number of passenger-train cars is in excess of the number of freight-train cars in them.[4]

(c) Work service includes nonrevenue trains run in the administration and upkeep service of the railroad, such as official trains, inspection trains, pay trains, special trains running with company fire apparatus to save the railroad's property from destruction, and trains run for the purpose of transporting the railroad's employees to and from work when no transportation charge is made; wrecking trains; construction and upkeep trains run in connection with maintenance and improvement work, the cost of operating such trains being chargeable to the appropriate capital or maintenance accounts for rail-line operations; and material and supply trains run in connection with operation.

Work service trains do not include solid fuel trains and other freight trains laden with company material and running from station to station under the same operating conditions as ordinary revenue freight trains.

(d) Yard service includes the handling of equipment being switched or used in switching other equipment, as for example, in making up or breaking up trains, serving industrial tracks, storing, weighing, or classifying cars, and other like operations. Operations incidental to a road run when performed by a road train crew are not included.

When significant, state the number of cars in the train; where and when locomotives, cars, and brakes were last inspected; and under what orders the train was moving and what were its rights of track at the particular time and place of the accident.

23. *Negligence of employees.* All of the codes of causes numbered between 1000 and 1999, and some but not all of those numbered between 6000 and 6999, refer to those situations in which it is known that the direct or immediate cause of the train or train-service accident was the negligence, mistake, or misconduct of railroad employees. These include such matters as, for example, improper handling of switches, misunderstanding of or error in giving signals, excessive speed in violation of instructions, failure of trackmen to protect while replacing rails, etc.

All of the codes of causes not specifically referred to in the preceding paragraph refer to those situations in which it is known that the direct or immediate cause of the accident was not the negligence, mistake, or misconduct of railroad employees. In these instances there may or may not be present an indirect negligence of railroad employees which contributed to the accident. These include such matters as, for example, the failure of inspectors or maintenance men to discover defects in equipment, track, and roadbed. Because a complete knowledge of these matters cannot be acquired, it is not practicable to place such accidents in usable categories which would indicate contributary negligence. Therefore they should be reported in their proper codes as defects.

[4] Passenger-equipped box or refrigerator cars are counted as passenger-train cars.

There is another form of contributory negligence which is brought about by a prior direct negligence. For example, the prior negligence of a first crew in running through a switch may be the contributing cause of a following train being derailed. But to the crew of the following train, this accident was due to a defective switch and not necessarily its own negligence. Such an accident should be reported under the proper one of the cause codes which go to defective track.

24. *Defective equipment.* All of the codes of causes numbered 2000 to 2999, and some but not all of those numbered between 6000 and 6999, refer to those situations in which it is known that defects in or failure of equipment were the direct or immediate cause of the train or train-service accident. The report should show, whenever significant, details as to:

Number and initials of locomotive or car.

Manufacturer and type of equipment or part.

Weight, number and other identifying marks.

Year of manufacture and year of placing in service.

When, where, and by what class of employees the equipment was last inspected, whether any defects were noted, and, if any, what remedies were applied.

The following relates to explanation of certain specific codes:

(a) On locomotives other than steam, Code 2110, relates only to fires in wiring connecting electrical apparatus. Fires within electrical apparatus should be listed under the respective kinds of electrical equipment involved (see Codes 2103 to 2107, inclusive).

(b) Fires caused by steam generating boiler or appurtenances should be coded under that equipment in Code 2109 and not in Code 2112.

(c) Body center plate should be coded in Code 2212 along with truck center plate and not in car structure Code 2703.

(d) Body side bearings should be coded in Code 2215 and not in Code 2703.

(e) Modified friction type journal bearing assemblies, referred to in Codes 2206, 2319, and 2322, are intended to cover all forms of improvements in A. A. R. standard oil and waste friction bearing assemblies which utilize the friction bearing, (as contrasted with roller bearings, Codes 2207, 2320 and 2323) and include such features as waste retainers, sealed journal boxes, fitted bearings, iron bearings, pads, rings or other non-waste lubrication, etc., or a combination of these features.

(f) Axle journals broken "cold", referred to in Codes 2318, 2319, and 2320, are intended to refer to axle journals which have been subjected to burning by previous hot boxes, including those which were reclaimed by turning off the burned portion and restored to service.

(g) Accidents caused by wheels broken or rendered otherwise defective as a result of defective or improperly operated brakes should be coded under the proper wheel codes, numbered 2301 to 2316, rather than under codes relating to brakes in the 2400 or 2500 series or under negligence codes. Where a wheel causes an accident due to being unable to rotate because of, for example, a seized armature bearing or a seized journal roller bearing, the accident should be coded under the proper defective part which seized, namely Codes 2104 or 2207.

(h) Couplers pulled out or down by defective sills (Code 2615) relate to defects in that portion of the center sills between the bolster and the end of the car. Other sills, such as end or side sills may be incidentally damaged thereby, but all accidents caused by defective side sills, end sills and the portion of the center sill between bolsters not involving a pulled-out coupler should be coded under Code 2701.

25. *Defective way and structures.* All of the codes of causes numbered 3000 to 3999, and some but not all of those numbered between 6000 and 6999, refer to those situations in which it is known that defects in or improper maintenance of way and structures were the direct or immediate cause of the train or train-service accident, including accidents which occur as the result of ordinary wear and weather conditions. This category does not, however, include accidents due to such conditions as are named in section 26 below. The report should show, whenever significant:

Manufacture and type of apparatus or part.

Weight, number, and other identifying marks.

Year of manufacture and year of placing in service.

When and by what class of employee inspected, whether any defects were noted, and, if any, what remedies were applied.

The following relates to explanation of certain specific codes:

(a) Rail with welded joints, Codes 3202, 3204, 3302, 3307, and 3308 relate to track where at least one end of each rail is welded to the adjoining rail.

(b) All Codes 3400 to 3499 covering special work, namely switches, crossings, derails, etc., should have failure or absence of bolts, nuts, lockwashers, etc., holding the respective parts coded under the part indicated. For example, switch lug bolt defects should be classified under Code 3413 Switch lug or rod.

(c) The codes provided for signal failures are substantially the same as the causes specified by the Interstate Commerce Commission, Bureau of Safety and Service, except that "Undetermined" causes should not be included under Codes 3500 to 3599 but should be classified as "Unascertained Causes" under the 4900 to 4999 series.

(d) Mules (sometimes called barney cars), referred to in Code 3914 are car pushers operated by cables on narrow gage track between standard gage track to lift cars up an incline for unloading. This code covers all related parts including the operating cables. Winches and similar car moving devices are also included in Code 3914.

(e) Train accidents caused by mechanical locomotive or car washing machines should be classified in Code 3918.

26. *Accidents due to miscellaneous causes.* Included in this category are train accidents in codes of causes numbered 4000 to 4899 and train-service accidents in codes of causes numbered 6900 to 6999.

Train accidents which are reportable under sections 5 (b) or 5 (c) and are due to extraordinary forces of nature, as defined by the U. S. Weather Bureau, should be classified in the codes of causes numbered 4300 to 4399 and include such causes as obstructions of track due to floods, earthquakes, hurricanes, tornadoes, and electrical storms, in contrast to causes involving defective maintenance of way and structures, and wear and tear due to use and ordinary weather conditions, which are classified by codes numbered 3000 to 3999 (see section 25 above). An exception is that all signal or interlocking apparatus failures caused by lightning are classifiable under appropriate Codes 3505, 3515 or 3535 respectively and not in the 4300 to 4399 series. Also classifiable under 4300 to 4399 codes are accidents, such as those caused by destruction or damage of bridges or timber tunnel linings by accidental fires, which are reportable under sections 5 (b) and 5 (c).

To be included in this category also are accidents caused by coal, ballast or parts of equipment or lading of another train falling on or afoul of track, throwing track out of alignment or wedging in switch, and other unforeseen happenings or obstructions of similar character. Parts of the equipment or lading of a train which, by falling on or afoul of the track, cause an accident to the same train, are not to be regarded as obstructions classifiable under 4300 to 4399 codes, but should be properly classified under other appropriate codes.

27. *Casualties.* In reporting casualties to persons, personal injuries should be sufficiently described to indicate:

(a) The part of body injured and the specific nature and extent of the injury received which should be reported in sufficient detail to enable the Interstate Commerce Commission to classify the injury. Indefinite terms such as "mashed", "crushed", "injured", "hurt", etc., should not be used. In case of loss of any part, the extent should be indicated, as, for example, tip of index finger of right hand, two middle fingers to second joint of left hand, left arm to elbow, loss of right eye, etc.

(b) The actual number of days of disability if ascertained at the time the report is made but, if the disability has not terminated by that time or is not ascertainable, an estimate of the number should be shown in the appropriate column on Form T, or the absence of an estimate fully explained. When the injury is of a permanent nature, that fact may be stated in lieu of the number of days' disability.

(c) The degree to which the person is maimed, if at all.

28. *Damage.* The question on Form T which calls for the amount of damage occasioned by an accident should be answered only in the case of train acci-

dents. The question should not be answered as to train-service or nontrain accidents.

Amounts of damage should not only include damage to equipment (including damage to foreign cars), track, or roadbed of the reporting railroad but should include comparable expenses of all reporting railroads. Other expenses of reporting railroads occasioned by the accident (such as overhead, cost of clearing wrecks, loss and damage, etc.), all expenses of nonreporting railroads, and contingent expenses because of personal injuries are not to be included. If the amount of damage is not known at the time the report is filed, it should be estimated as accurately as practicable and the fact that it is estimated should be stated.

CLASSIFICATION OF PERSONS

29. *Classification.* For the purpose of permitting an appropriate classification, sufficient particulars of each person involved in a train or train-service accident should be given on Form T. The aggregate of all persons of each class involved in all railway accidents should be given on Form V.

The classes "employees" (A and B) apply to any person having such classification or relationship to a reporting railroad. As used herein, it is intended to include every person in the service of the reporting carrier who is subject to its continuing authority to supervise and direct the manner of rendering his service.

When a casualty is known or believed to be an employee of another reporting railroad that fact should be stated and appropriate class symbols indicating the customary occupation of the employee, with the name of the railroad by which he is employed, should be entered.

(A) Employees on duty are those persons who are engaged in the operation of a railroad, as herein defined in section 1 above, or who are customarily engaged in other work than that defined in section 1 above but who, in the course of duty, may be required to engage in some of the work herein defined in section 1 above; or on occasion be exposed, in the performance of required duty, to the operation of a railroad as herein defined in section 1 above.

Ordinarily the fact that the employee is or is not under pay will determine whether he is or is not "on duty". There may, however, be exceptions such as employees "trading time" or doing work which they are expected to do but actually perform before pay starts or after pay stops. Such persons must be considered as "employees on duty".

(B) Employees not on duty are those persons who are on railroad property, before and after duty: for purposes connected with their employment; or with other railroad permission. An employee is "not on duty" until he actually begins duty in the operation of a railroad as herein defined in section 1 above; while he has been relieved from the performance of any and all service for a definite time; when he has wilfully left the vicinity of his post of duty contrary to accepted or tolerated practice; or when he has completed his duty.

Employees (including members of train and engine crews deadheading between terminals) on trains for the purpose of travel and riding in that part of the train assigned to the use of passengers should be included in class (C) as passengers. Employees trespassing should be included in class (F) as trespassers.

The following list of 128 Reporting Divisions into which all the distinctive classes of railroad positions are grouped is derived from the "Rules Governing the Classification of Steam Railroad Employees and Reports of Their Service and Compensation" prescribed by the Interstate Commerce Commission to be effective on January 1, 1951. The returns on all accident report forms should, with respect to the classification of employees, be made in conformity with these Reporting Divisions. For each employee reported on Form T as killed or injured there should be given the correct number of the Reporting Division to which the employee is properly assignable, and also the pay-roll or distinctive class title of his occupational position. The letter (A) or (B) should be used to indicate respectively whether he was on or off duty at the time of accident. Abbreviations or contractions may be used in the indication of position titles if their meaning is sufficiently clear. For example, to indicate a casualty sustained by a road freight brakeman (through freight) on duty, the proper designation of class of person on Form T should be A–117, Road freight brakemen and flagmen (through freight), while that of a casualty incurred in a train or train-service accident by a train attendant on duty would be A–101, Train attendants.

LIST OF REPORTING DIVISIONS FOR EMPLOYEES

Division No.	Reporting Division
	I—EXECUTIVES, OFFICIALS, AND STAFF ASSISTANTS
1	Executives, general officers, and assistants.
2	Division officers, assistants, and staff assistants.
	II—PROFESSIONAL, CLERICAL, AND GENERAL
3	Professional and subprofessional assistants.
4	Supervisory or chief clerks (major departments).
5	Chief clerks (minor departments) and assistant chief clerks and supervising cashiers.
6	Clerks and clerical specialists (A).
7	Clerks (B) and (C).
8	Mechanical device operators (office).
9	Stenographers and secretaries (A).
10	Stenographers and typists (B).
11	Storekeepers, sales agents, and buyers.
12	Ticket agents and assistant ticket agents.
13	Traveling auditors or accountants.
14	Telephone switchboard operators and office assistants.
15	Messengers and office boys.
16	Elevator operators and other office attendants.
17	Lieutenants and sergeants of police.
18	Patrolmen and watchmen.
19	Traffic and various other agents, inspectors, and investigators.
20	Claim agents or investigators.
	REPORTING DIVISION—Continued
	II—PROFESSIONAL, CLERICAL, AND GENERAL—continued
21	Freight claim agents or investigators.
22	Chief claim agents or investigators.
23	Miscellaneous trade workers (other than plumbers).
24	Motor vehicle and motor car operators.
25	Teamsters and stablemen.
26	Janitors and cleaners.
	III—MAINTENANCE OF WAY AND STRUCTURES
27	Roadmasters, general foremen, and assistants.
28	Maintenance of way and scale inspectors.
29	Bridge and building gang foremen (skilled labor).
30	Bridge and building carpenters.
31	Bridge and building ironworkers.
32	Bridge and building painters.
33	Masons, bricklayers, plasterers, and plumbers.
34	Maintenance of way and structures helpers and apprentices.
35	Portable steam equipment operators.
36	Portable steam equipment operator helpers.
37	Pumping equipment operators.
38	Gang foremen (extra gang and work-train laborers).
39	Gang foremen (bridge and building, signal and telegraph laborers).
40	Gang or section foremen.
41	Extra gang men.
42	Section men.
43	Maintenance of way laborers (other than track and roadway) and gardeners and farmers.
44	General and assistant general foremen and inspectors (signal, telegraph, and electrical transmission).
45	Gang foremen (signal and telegraph skilled trades labor).
46	Signalmen and signal maintainers.
47	Linemen and groundmen.
48	Assistant signalmen and assistant signal maintainers.
49	Signalman and signal maintainer helpers.
	IV—MAINTENANCE OF EQUIPMENT AND STORES
50	General, assistant general, and department foremen.
51	General and assistant general foremen (stores).
52	Equipment, shop, electrical, material and supplies inspectors.
53	Gang foremen and gang leaders (skilled labor).
54	Blacksmiths.
55	Boilermakers.
56	Carmen (A and B).
57	Carmen (C and D).
58	Electrical workers (A).
59	Electrical workers (B).
60	Electrical workers (C).
61	Machinists.
62	Molders.
63	Sheet-metal workers.
64	Skilled trades helpers (M. of E. and stores).
65	Helper apprentices (M. of E. and stores).
66	Regular apprentices (M. of E. and stores).
67	Coach cleaners.
68	Gang foremen (shops, engine houses, and power plants).
69	Gang foremen (stores and ice, reclamation, and timber-treating plants).
70	Classified laborers (shops, engine houses, and power plants).
71	General laborers (shops, engine houses, and power plants).
72	General laborers (stores and ice, reclamation, and timber-treating plants).
73	Stationary engineers (steam).
74	Stationary firemen, oilers, coal passers, and water tenders.

REPORTING DIVISION—Continued

Division No.	Reporting Division
	V—TRANSPORTATION (OTHER THAN TRAIN, ENGINE, AND YARD)
75	Chief train dispatchers.
76	Train dispatchers.
77	Train directors.
78	Station agents (supervisory, major stations, nontelegraphers).
79	Station agents (smaller stations, nontelegraphers).
80	Station agents (telegraphers and telephoners).
81	Chief telegraphers and telephoners or wire chiefs.
82	Clerk-telegraphers and clerk-telephoners.
83	Telegraphers, telephoners, and towermen.
84	Stationmasters and assistants.
85	Supervising baggage agents.
86	Baggage agents and assistants.
87	Baggage, parcel room, and station attendants.
88	General foremen (freight stations, warehouses, grain elevators, and docks).
89	Assistant general foremen (freight stations, warehouses, grain elevators, and docks).
90	Gang foremen (freight station, warehouse, grain elevator, and dock labor).
91	Callers, loaders, sealers, scalers, and perishable-freight inspectors.
92	Truckers (stations, warehouses, and platforms).
93	Laborers (coal and ore docks and grain elevators).
94	Common laborers (stations, warehouses, platforms, and grain elevators).
95	Stewards, restaurant and lodging-house managers, and dining-car supervisors.
96	Chefs and cooks (restaurants or dining cars).
97	Waiters, camp cooks, kitchen helpers, etc.
98	Officers, workers, and attendants on barges, launches, ferry boats, towing vessels, steamers, and shore workers.
	REPORTING DIVISION—Continued
	V—TRANSPORTATION (OTHER THAN TRAIN, ENGINE, AND YARD)—CON.
99	Transportation and dining-service inspectors.
100	Parlor and sleeping car conductors.
101	Train attendants.
102	Bridge operators and helpers.
103	Crossing and bridge flagmen and gatemen.
104	Foremen (laundry) and laundry workers.
	VI (A)—TRANSPORTATION (YARDMASTERS, SWITCHTENDERS, AND HOSTLERS)
105	Yardmasters.
106	Asisstant yardmasters.
107	Switch tenders.
108	Outside hostlers.
109	Inside hostlers.
110	Outside hostler helpers.
	VI (B)—TRANSPORTATION (TRAIN AND ENGINE)
111	Road passenger conductors.
112	Assistant road passenger conductors and ticket collectors.
113	Road freight conductors (through freight).
114	Road freight conductors (local and way freight).
115	Road passenger baggagemen.
116	Road passenger brakemen and flagmen.
117	Road freight brakemen and flagmen (through freight).
118	Road freight brakemen and flagmen (local and way freight).
119	Yard conductors and yard foremen.
120	Yard brakemen and yard helpers.
121	Road passenger engineers and motormen.
122	Road freight engineers and motormen (through freight).
123	Road freight engineers and motormen (local and way freight).
124	Yard engineers and motormen.
125	Road passenger firemen and helpers.
126	Road freight firemen and helpers (through freight).
	REPORTING DIVISION—Continued
	VI (B)—TRANSPORTATION (TRAIN AND ENGINE)—continued
127	Road freight firemen and helpers (local and way freight).
128	Yard firemen and helpers.

(C) Passengers on trains are those persons who are on, or boarding, or alighting from, railroad cars for the purpose of travel.

(D) Nontrespassers are those persons who are lawfully on that part of railroad property which is used in railroad operation, as herein defined in section 1 above, other than those herein defined as employees, passengers, or trespassers, and persons adjacent to railroad premises when injured as the result of the operation of a railroad.

(E) Trespassers are those persons who are on that part of railroad property which is used in railroad operation, as herein defined in section 1 above, whose presence is prohibited, or forbidden, or unlawful.

Whenever persons are classed as "trespassers" the report should state the circumstances that warrant such a classification and, if possible, the regular occupation of such persons killed or injured.

A person should not be classed as a trespasser on a highway grade crossing unless the crossing is protected by gates, or other similar barriers, which were closed when the person went on the crossing, or unless the person attempted to pass over or under trains or cars at the crossing.

SURGICAL STOCKINGS

TARIFF CLASSIFICATION

NOVEMBER 29, 1955.

It appears probable that certain surgical stockings in chief value of cotton and in part of rubber are properly classifiable under the provision for articles wholly or in part of net or netting under paragraph 1529 (a) [18], Tariff Act of 1930, at a rate of duty higher than that heretofore assessed under an established and uniform practice.

Pursuant to section 16.10a (d) of the Customs Regulations, notice is hereby given that the existing uniform practice of classifying such merchandise as knit cotton articles under paragraph 917, Tariff Act of 1930, is under review in the Bureau of Customs.

Consideration will be given to any relevant data, views, or arguments pertaining to the correct classification of this merchandise which are submitted to the Bureau of Customs, Washington 25, D. C., in writing. To assure consideration, such communications must be received in the Bureau not later than 30 days from the date of publication of this notice. No hearings will be held.

[SEAL] D. B. STRUBINGER,
Acting Commissioner of Customs.

Office of Alien Property

JULIUS FRANZ ZIEGLER

NOTICE OF INTENTION TO RETURN VESTED PROPERTY

Pursuant to section 32 (f) of the Trading With the Enemy Act, as amended, notice is hereby given of intention to return, on or after 30 days from the date of publication hereof, the following property located in Washington, D. C., including all royalties accrued thereunder and all damages and profits recoverable for past infringement thereof, after adequate provision for taxes and conservatory expenses:

Claimant, Claim No., and Property

Julius Franz Ziegler, Vienna, Austria, Claim No. 62811; property described in Vesting Order No. 201 (8 F. R. 625, January 16, 1943) relating to United States Letters Patent Nos. 1,915,481 and 1,979,184.

Executed at Washington, D. C., on November 29, 1955.

For the Attorney General.

[SEAL] DALLAS S. TOWNSEND,
Assistant Attorney General,
Director, Office of Alien Property.

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

ALASKA

NOTICE OF PROPOSED WITHDRAWAL AND RESERVATION OF LANDS

NOVEMBER 25, 1955.

The Alaska Native Service has filed an application, Serial No. Fairbanks 011951,

for the withdrawal of the lands described below, from all forms of appropriation including the mining and mineral leasing laws. The applicant desires the land for school purposes.

For a period of 60 days from the date of publication of this notice, persons having cause may present their objections in writing to the undersigned official of the Bureau of Land Management, Department of the Interior, Box 480, Anchorage, Alaska.

If circumstances warrant it, a public hearing will be held at a convenient time and place, which will be announced.

The determination of the Secretary on the application will be published in the FEDERAL REGISTER. A separate notice will be sent to each interested party of record.

The lands involved in the application are: A parcel of land located in the vicinity of Tanana, Alaska, and more particularly described as follows:

Beginning at a point located westerly 100 feet from the southeast corner of the abandoned Fort Gibbon Military Reservation boundary at a point on the right bank of the Yukon River; thence N. 0° 41' W., 280 feet to a point; thence N. 89° 19' E., 100 feet to a point; thence S. 0° 41' E., 106 feet to a point; thence N. 89° 19' E., 75 feet to a point; thence S. 0° 41' E., approximately 175 feet to a point on the right bank of the Yukon River; thence westerly 75 feet to the point of beginning.

Containing approximately 0.95 acres.

ROGER R. ROBINSON,
Acting Area Administrator.

DEPARTMENT OF LABOR

Office of the Secretary

[Gen. Order 56, Revised]

ASSIGNMENT OF FUNCTIONS

By virtue of and pursuant to the authority vested in me by R. S. 161 (5 U. S. C. sec. 22), Reorganization Plan No. 2 of 1949 (14 F. R. 5225, 63 Stat. 1065), Reorganization Plan No. 6 of 1950 (15 F. R. 3174, 64 Stat. 1263), Title V of the Agricultural Act of 1949 (7 U. S. C. sec. 1461 et seq.), as amended, Regulations issued by the Attorney General in accordance therewith (17 F. R. 11562 et seq.) and the Migrant Labor Agreement of 1951, as amended, it is hereby ordered as follows:

1. Subject to the general direction and control of the Assistant Secretary of Labor for Employment and Manpower, and subject to applicable General Orders and Secretary's Instructions, the Director of the Bureau of Employment Security, or, under his direction and control, such other person or persons as he may designate, is hereby authorized to perform all functions vested in the Secretary of Labor by the Migrant Labor Agreement of 1951, as amended (including all determinations to be made by Regional Representatives or representatives of the Secretary of Labor pursuant to Articles 7 and 30 of such agreement), and by Title V of the Agricultural Act of 1949, as amended; except

(a) Rendering final determinations pursuant to paragraph 2 (e) of Article 7 and paragraphs (e) and (f) of Article 30 of the Migrant Labor Agreement of 1951, as amended, which function shall be performed by David E. Christian, Office of the Secretary, who in connection with the performance of such function shall be directly responsible to the Secretary of Labor; and

(b) Cooperating with the Secretary of State in negotiating agreements or arrangements relating to the employment in the United States of agricultural workers from the Republic of Mexico, pursuant to section 506 (3) of Title V of the Agricultural Act of 1949, as amended.

2. This order shall become effective immediately and shall supersede all prior orders or regulations of the Secretary of Labor or of any officer of the Department of Labor inconsistent herewith.

ARTHUR LARSON,
Acting Secretary of Labor.

NOVEMBER 30, 1955.

Highmount Knitting Co., 309-11 Putnam Street, West Hazelton, Pa., effective 11-14-55 to 11-13-56; 5 learners for normal labor turnover purposes (knitted infant and children's outerwear).

Reidler Knitting Mills, Inc., 757 West Broad Street, Hazleton, Pa., effective 11-24-55 to 11-23-56; 5 percent of the total number of factory production workers for normal labor turnover purposes (cotton knit underwear).

Shoe Industry Learner Regulations (29 CFR 522.50 to 522.55, as amended April 19, 1955, 20 F. R. 2304).

Casey Manufacturing Co., East Main, Casey, Ill., effective 11-16-55 to 11-15-56; 10 percent of the number of productive factory workers in the plant, for normal labor turnover purposes.

Ettelbrick Shoe Co., Sole Department, Casey, Ill., effective 11-16-55 to 11-15-56; 5 learners for normal labor turnover purposes.

Greenup Manufacturing Co., Greenup, Ill., effective 11-16-55 to 11-15-56; 10 percent of the number of productive factory workers in the plant, for normal labor turnover purposes.

Regulations Applicable to the Employment of Learners (29 CFR 522.1 to 522.12, as amended February 28, 1955, 20 F. R. 645).

Naylor Marine Products, 3616 Curlow Street, San Diego, Calif., effective 11-21-55 to 2-29-56; 2 learners for normal labor turnover purposes in the occupations of hand and machine operating for 240 hours at 65 cents per hour (shell novelties and marine scientific specimens).

The following special learner certificate was issued in Puerto Rico to the company hereinafter named. The effective and expiration dates, the number of learners, the learner occupations, the length of the learning periods and the learner wage rates are indicated, respectively.

Regina Apparel Co., Mayaguez, P. R., effective 11-3-55 to 5-2-56; 14 learners to be employed in the occupations hereinafter listed: sewing machine operating, for 160 hours at 30 cents an hour; 160 hours at 35 cents an hour; and 160 hours at 40 cents an hour; stamping and cleaning, each 160 hours at 35 cents an hour (blouses and silk, rayon and nylon underwear).

Each certificate has been issued upon the employer's representation that employment of learners at subminimum rates is necessary in order to prevent curtailment of opportunities for employment, and that experienced workers for the learner occupations are not available. The certificates may be canceled in the manner provided in the regulations and as indicated in the certificates. Any person aggrieved by the issuance of any of these certificates may seek a review or reconsideration thereof within fifteen days after publication of this notice in the FEDERAL REGISTER pursuant to the provisions of Part 522.

Signed at Washington, D. C., this 22d day of November 1955.

MILTON BROOKE,
Authorized Representative of the Administrator.

Inc., Blue Ball, Pa., effective 11-22-55 to 11-21-56; 10 percent of the total number of factory production workers engaged in the production of slips and nightgowns of woven fabrics for normal labor turnover purposes (ladies' and children's slips and nightgowns (woven).)

The Warner Brothers Co., Moultrie, Ga., effective 11-24-55 to 2-29-56; 25 learners for plant expansion purposes (corsets and brassieres).

Knitted Wear Industry Learner Regulations (29 CFR 522.30 to 522.35, as amended April 19, 1955, 20 F. R. 2304).

Terre Hill Manufacturing Co., Inc., Blue Ball, Pa., effective 11-22-55 to 11-21-56; 5 percent of the total number of factory production workers engaged in the production of slips and nightgowns of knitted fabrics, for normal labor turnover purposes (ladies', children's slips and nightgowns).

Independent Telephone Industry Learner Regulations (29 CFR 522.70 to 522.74, as amended April 19, 1955, 20 F. R. 2304).

Chambers County Telephone Co., Inc., Winnie, Tex., effective 11-28-55 to 11-27-56.

Iowa-Illinois Telephone Co., New London, Iowa, effective 12-1-55 to 11-30-56.

Regulations Applicable to the Employment of Learners (29 CFR 522.1 to 522.12, as amended February 28, 1955, 20 F. R. 645).

The following special learner certificates were issued in Puerto Rico to the companies hereinafter named. The effective and expiration dates, the number of learners, the learner occupations, the length of the learning periods and the learner wage rates are indicated, respectively.

Nassau Mills, Inc., Caguas Puerto Rico, effective 11-14-55 to 5-13-56; 30 learners to be employed in the occupations hereinafter listed; sewing machine operating, for 480 hours at 30 cents an hour; pressing and examining, each 160 hours at 30 cents an hour (sleeping wear).

Proctor Manufacturing Corp., Sabana Llana, Rio Piedras, P. R., effective 11-16-55 to 11-15-56; 10 learners to be employed in the occupations hereinafter listed; assemblers and machine operators, each 160 hours at 50 cents an hour (assembly of electric irons and electric toaster elements).

Stadium Manufacturing Co. of Puerto Rico, Inc., Villalba, P. R., effective 11-16-55 to 5-15-56; 35 learners to be employed in the occupations hereinafter listed; sewing machine operating and pressing-folding, each 160 hours at 30 cents an hour; 160 hours at 36 cents an hour; 160 hours at 42 cents an hour (men's pajamas).

Each certificate has been issued upon the employer's representation that employment of learners at subminimum rates is necessary in order to prevent curtailment of opportunities for employment, and that experienced workers for the learner occupations are not available. The certificates may be cancelled in the manner provided in the regulations and as indicated in the certificates. Any person aggrieved by the issuance of any of these certificates may seek a review or reconsideration thereof within fifteen days after publication of this notice in the FEDERAL REGISTER pursuant to the provisions of Part 522.

Signed at Washington, D. C., this 28th day of November 1955.

MILTON BROOKE,
Authorized Representative of the Administrator.

FEDERAL POWER COMMISSION

[Docket No. G-8380]

A. F. CHISHOLM

NOTICE OF APPLICATION AND DATE OF HEARING

NOVEMBER 30, 1955.

Take notice that A. F. Chisholm (Applicant), an individual whose address is P. O. Box 625, Laurel, Mississippi, filed on January 19, 1955, an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act authorizing Applicant to render service as hereinafter described, subject to the jurisdiction of the Commission, all as more fully represented in the application which is on file with the Commission and open for public inspection.

Applicant proposes to sell natural gas in interstate commerce from production of certain mineral and lease interests in Maxie Field, Forrest County, Mississippi, to United Gas Pipe Line Company for resale.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on Monday, January 9, 1956, at 9:50 a. m., e. s. t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such application: *Provided, however,* That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of section 1.30 (c) (1) or (c) (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before December 19, 1955. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

[SEAL] LEON M. FUQUAY,
Secretary.

[F. R. Doc. 55-9752; Filed, Dec. 5, 1955; 8:47 a. m.]

[Docket No. G-8455]

DURBIN BOND

NOTICE OF APPLICATION AND DATE OF HEARING

NOVEMBER 30, 1955.

Take notice that Durbin Bond (Applicant), an individual whose address is Union National Bank Building, Little Rock, Arkansas, filed as nonoperator on February 7, 1955, an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, authorizing Applicant to render service as hereinafter described, subject to the jurisdiction of the Commission, all as more fully represented in the application which is on file with the Commission and open for public inspection.

Applicant proposes to sell natural gas in interstate commerce from production of a 3.6456 percent working interest in a 318.74 acre Unit, Pistol Ridge Field, Lamar, Pearl and Forrest Counties, Mississippi, to United Gas Pipe Line Company for resale.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on Tuesday, January 10, 1956, at 9:30 a. m., e. s. t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such application: *Provided, however,* That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of section 1.30 (c) (1) or (c) (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before December 20, 1955. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

[SEAL] LEON M. FUQUAY,
Secretary.

[Docket No. G-8592]

SUN OIL CO. (SOUTHWEST DIVISION)

NOTICE OF APPLICATION AND DATE OF HEARING

NOVEMBER 30, 1955.

Take notice that Sun Oil Company (Southwest Division), Applicant, a New Jersey corporation whose address is P. O. Box 2880, Dallas, Texas, filed on March 16, 1955, an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, authorizing Applicant to render service as hereinafter described, subject to the jurisdiction of the Commission, all as more fully represented in the application which is on file with the Commission and open for public inspection.

Applicant proposes to sell natural gas in interstate commerce from production of certain lands and leaseholds, Pistol Ridge Field, Forrest, Lamar and Pearl River Counties, Mississippi, to United Gas Pipe Line Company for resale.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on Tuesday, January 10, 1956, at 9:40 a. m., e. s. t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such application: *Provided, however,* That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of section 1.30 (c) (1) or (c) (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before December 20, 1955. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

[Docket No. G-8854 etc.]

C. R. RIDGWAY ET AL.

NOTICE OF APPLICATIONS AND DATE OF HEARING

NOVEMBER 30, 1955.

In the matters of C. R. Ridgway and W. B. Ridgway, Docket Nos. G-8854-8864, inclusive; Granite Oil Trust No. 2 of Oklahoma, Docket No. G-8915; A. J. Hodges Industries, Inc., Docket No. G-8975; States Oil Company et al., Docket No. G-8992; Robert B. Prentice et al., Docket No. G-9018; W. Earl Rowe et al., Docket No. G-9026; Sunray Mid-Continent Oil Company, Docket No. G-9043; Flanders Gas & Oil Company, Docket No. G-9052; J. C. Vaughan, Jr., Docket No. G-9160; A. E. Coutant, Docket No. G-9167.

There have been filed with the Federal Power Commission applications, pursuant to section 7 of the Natural Gas Act, for certificates of public convenience and necessity as hereinafter specified:

Docket No.; Applicant; Address; and Date Filed

G-8854-8864, inclusive; C. R. Ridgway & W. B. Ridgway; P. O. Box 472, Jackson, Mississippi; 5-4-55.

G-8915; Granite Oil Trust No. 2 of Oklahoma; Box 1961, Wichita Falls, Texas; 5-16-55.

G-8975; A. J. Hodges Industries, Inc.; 604 Johnson Building, Shreveport, Louisiana; 5-23-55.

G-8992; States Oil Company et al.; 131 East Main Street, Benton Harbor, Michigan; 6-2-55.

G-9018; Robert B. Prentice et al.; Houma, Louisiana; 6-8-55.

G-9026; W. Earl Rowe et al.; 1409 Milam Building, San Antonio, Texas; 6-10-55.

G-9043; Sunray Mid-Continent Oil Company; P. O. Box 2039, Tulsa, Oklahoma; 6-16-55.

G-9052; Flanders Gas & Oil Company; Dallas, Texas; 6-20-55.

G-9160; J. C. Vaughan, Jr.; P. O. Box 1674, Jackson, Mississippi; 7-20-55.

G-9167; A. E. Coutant; 505 Standard Life Building, Jackson, Mississippi; 7-22-55.

Each of the foregoing Applicants seeks authorization to render services as hereinafter described, subject to the jurisdiction of the Commission, all as more fully represented in the applications which are on file with the Commission and open for public inspection.

Applicants, producers of natural gas in Texas, Louisiana, and Mississippi, propose to deliver and to sell natural gas to United Gas Pipe Line Company for transportation in interstate commerce for resale as indicated below:

Docket No.; Applicant; and Location of Field

G-8854; C. R. Ridgway and W. B. Ridgway; Boone-Clark Unit, Pistol Ridge Field, Forrest and Pearl River Counties, Mississippi.

G-8855; C. R. Ridgway and W. B. Ridgway; Creosote Unit, Pistol Ridge Field.

G-8856; C. R. Ridgway and W. B. Ridgway; Southern Mineral Corporation "A" Unit, Pistol Ridge Field.

G-8857; C. R. Ridgway and W. B. Ridgway; Creosote Oil Corporation Unit, Pistol Ridge Field.

G-8858; C. R. Ridgway and W. B. Ridgway; Southern Mineral Corporation "B" Unit, Pistol Ridge Field.

G-8859; C. R. Ridgway and W. B. Ridgway; Crosby Forest B-1 Unit, Pistol Ridge Field.

G-8860; C. R. Ridgway and W. B. Ridgway; Crosby Forest et al. "A" Unit, Pistol Ridge Field.

G-8861; C. R. Ridgway and W. B. Ridgway; N. D. Entriken Unit, Pistol Ridge Field.

G-8862; C. R. Ridgway and W. B. Ridgway; Gulf Reid Unit, Pistol Ridge Field.

G-8863; C. R. Ridgway and W. B. Ridgway; Southern Mineral Corporation "C" Unit, Pistol Ridge Field.

G-8864; C. R. Ridgway and W. B. Ridgway; McCardle Clark Unit, Pistol Ridge Field.

G-8915; Granite Oil Trust No. 2 of Oklahoma; Albrecht Field, Goliad County, Texas.

G-8975; A. J. Hodges, Industries, Inc.; North Cotton Valley Field, Webster Parish, Louisiana.

G-8992; States Oil Company et al.; Greenwood-Waskom Field, Caddo Parish, Louisiana.

G-9018; Robert B. Prentice et al.; North Houma Field, Terrebonne Parish, Louisiana.

G-9026; W. Earl Rowe et al.; Boyce Field, Goliad County, Texas.

G-9043; Sunray Mid-Continent Oil Company; Pistol Ridge and Maxie Fields, Forrest, Lamar, and Pearl River Counties, Mississippi.

G-9052; Flanders Gas & Oil Company; Sibley Field, Webster Parish, Louisiana.

G-9160; J. V. Vaughan, Jr.; Pistol Ridge and Maxie Fields, Forrest and Pearl River Counties, Mississippi.

G-9167; A. E. Coutant; Pistol Ridge and Maxie Fields, Forrest and Pearl River Counties, Mississippi.

These related matters should be heard on a consolidated record and disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on December 20, 1955, at 9:30 a. m., e. s. t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such applications: *Provided, however,* That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of section 1.30 (c) (1) or (c) (2) of the Commission's rules of practice and procedure.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before December 15, 1955. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for the applicants to be represented at the hearing.

SINCLAIR OIL & GAS CO.

ORDER SUSPENDING PROPOSED CHANGES IN RATES

Sinclair Oil & Gas Company (Applicant), on November 1, 1955, tendered for filing proposed changes in presently effective rate schedules for sales subject to the jurisdiction of the Commission. The proposed changes, which constitute increased rates and charges are contained in the following designated filings which are proposed to become effective on the date shown:

Description	Purchaser	Rate schedule designation	Effective date [1]
Contract dated Aug. 4, 1955.	Frank C. Henderson and Elizabeth P. Henderson Trust No. 2.	Applicant's FPC Gas Rate Schedule No. 79.	Dec. 2, 1955
Notice of change dated Oct. 28, 1955.	....do....	Supplement No. 1 to Applicant's FPC Gas Rate Schedule No. 79.	Do.

[1] The stated effective date is the first day after expiration of the required 30 days notice, or the effective date proposed by Applicant if later.

The increased rates and charges proposed in the aforesaid filings have not been shown to be justified, and may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds: It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing concerning the lawfulness of the said proposed changes, and that the above-designated rate schedule and supplement be suspended and the use thereof deferred as hereinafter ordered.

The Commission orders:

(A) Pursuant to the authority contained in sections 4 and 15 of the Natural Gas Act and the Commission's general rules and regulations (18 CFR, Chapter I), a public hearing be held upon a date to be fixed by notice from the Secretary concerning the lawfulness of said proposed changes in rates and charges; and, pending such hearing and decision thereon, the above-designated rate schedule and supplement be and the same hereby are suspended and the use thereof deferred until May 2, 1956, and until such further time as they are made effective in the manner prescribed by the Natural Gas Act.

(B) Interested State commissions may participate as provided by sections 1.8 and 1.37 (f) (18 CFR 1.8 and 1.37 (f)) of the Commission's rules of practice and procedure.

Adopted: November 23, 1955.

Issued: November 30, 1955.

By the Commission.

[Docket No. G-9718]

SINCLAIR OIL & GAS CO.

ORDER SUSPENDING PROPOSED CHANGES IN RATES

Sinclair Oil & Gas Company (Applicant), on November 1, 1955, tendered for filing proposed changes in presently effective rate schedules for sales subject to the jurisdiction of the Commission. The proposed changes, which constitute increased rates and charges, are contained in the following designated filings which are proposed to become effective on the date shown:

Description	Purchaser	Rate schedule designation	Effective date [1]
Contract, dated Aug. 16, 1955.	Frank C. Henderson and Elizabeth P. Henderson Trust No. 2.	Applicant's FPC Gas Rate Schedule No. 81.	Dec. 2, 1955
Notice of change, dated Oct. 28, 1955.	----do----------	Supplement No. 1 to Applicant's FPC Gas Rate Schedule No. 81.	Do.

[1] The stated effective date is the first day after expiration of the required 30 days' notice, or the effective date proposed by Applicant if later.

The increased rates and charges proposed in the aforesaid filings have not been shown to be justified, and may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds: It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing concerning the lawfulness of the said proposed changes, and that the above-designated rate schedule and supplement be suspended and the use thereof deferred as hereinafter ordered.

The Commission orders:

(A) Pursuant to the authority contained in sections 4 and 15 of the Natural Gas Act and the Commission's general rules and regulations (18 CFR, Chapter I), a public hearing be held upon a date to be fixed by notice from the Secretary concerning the lawfulness of said proposed changes in rates and charges; and, pending such hearing and decision thereon, the above-designated rate schedule and supplement be and the same hereby are suspended and the use thereof deferred until May 2, 1956, and until such further time as they are made effective in the manner prescribed by the Natural Gas Act.

(B) Interested State commissions may participate as provided by sections 1.8 and 1.37 (f) (18 CFR 1.8 and 1.37 (f)) of the Commission's rules of practice and procedure.

Adopted: November 23, 1955.

Issued: November 30, 1955.

By the Commission.

SECURITIES AND EXCHANGE COMMISSION

(24FW-973)

PITTMAN DRILLING AND OIL CO.

ORDER TEMPORARILY DENYING EXEMPTION, STATEMENT OF REASONS THEREFOR, AND NOTICE OF OPPORTUNITY FOR HEARING

NOVEMBER 30, 1955.

I. Pittman Drilling and Oil Company, 420 Citizens National Bank Building, Independence, Kansas, having filed with the Commission on September 6, 1955, a Notification on Form 1-A and an offering circular, and subsequently filed amendments thereto, relating to a proposed public offering of 60,000 shares of 6 percent non-cumulative $4 par preferred stock and 60,000 shares of 10 cents par common stock in units of 1 share of preferred and 1 share of common at $5 per unit, for the purpose of obtaining an exemption from the registration requirements of the Securities Act of 1953, as amended, pursuant to the provisions of section 3 (b) thereof and Regulation A promulgated thereunder; and

II. The Commission having reasonable cause to believe:

A. That the terms and conditions of Regulation A have not been complied with in respect of such Notification and the offering circular filed as a part thereof, in that:

1. The aggregate offering price of the securities proposed to be offered and the stock purchase warrants to the underwriter or his nominees, exceed the $300,000 limitation prescribed by Rule 217 (a);

2. The Notification fails to disclose the section of the Act or rule or regulation of the Commission under which exemption is claimed for the issuance of 940,000 shares of common stock to Harry M. Pittman or his nominees, as required by Item 3 of Form 1-A; and

3. The offering circular fails to disclose the interests in the issuer of Eugene Bernard Runyan, secretary-treasurer and director, by security holdings or otherwise; the purposes, amounts and priority of use of the proceeds of the offering; and financial statements, as required by Rules 219 (c) (2), (5) and (6);

B. That the offering circular omits to state material facts necessary in order to make the statements made, in light of the circumstances under which they are made, not misleading, particularly with respect to whether the company has any drilling contracts, oil or gas leases or properties; the age and date of acquisition of each drilling rig and the depths to which each will drill; the fact that the drilling contracting business is not generally profitable; the salaries to be paid; and the fact that if all the shares were sold, the public would have contributed $300,000 in cash for preferred and common stock representing only 6 percent of the voting stock, while the promoters would hold 94 percent of the voting stock and a demand note of the issuer in the amount of $126,000 for which they gave certain assets;

C. That the use of the offering circular with respect to the securities proposed to be offered thereunder would operate as a fraud or deceit upon the purchasers.

III. *It is ordered*, Pursuant to Rule 223 (a) of the General Rules and Regulations under the Securities Act of 1933, as amended, that the exemption under Regulation A be, and it hereby is, temporarily denied.

Notice is hereby given that any person having any interest in the matter may file with the Secretary of the Commission a written request for hearing; that, within 20 days after receipt of such request, the Commission will, or at any time upon its own motion may, set the matter down for a hearing at a place to be designated by the Commission for the purpose of determining whether this order of denial should be vacated or made permanent, without prejudice, however, to the consideration and presentation of additional matters at the hearing; and that notice of the time and place for said hearing will be promptly given by the Commission.

It is further ordered, That this order and notice shall be served upon Pittman Drilling and Oil Company and Dewitt Investment Company, 912 West Street, Wilmington 1, Delaware, personally or by registered mail or by confirmed telegraphic notice, and shall be published in the FEDERAL REGISTER.

By the Commission.

[File No. 812-965]

VENCAP, INC.

NOTICE OF FILING OF APPLICATION FOR EXEMPTION OF CLOSED-END INVESTMENT COMPANY

NOVEMBER 30, 1955.

Notice is hereby given that VenCap, Inc. ("VenCap"), a corporation organized under the laws of the Commonwealth of Massachusetts, has filed an application pursuant to section 6 (d) of the Investment Company Act of 1940 ("act"), and Rule N-6D-1 thereunder for an order of the Commission exempting it from the provisions of the act. In an amendment to the application VenCap has agreed that it will accept and be subject to any specified provisions of the act if the Commission deems it necessary or appropriate in the public interest or for the protection of investors that it should be so subject.

VenCap is a closed-end non-diversified management investment company as defined in the Act and was organized on September 9, 1955. Its authorized capital consists of 4,500 shares of no par value common stock. The company proposes to offer such shares to residents of the Commonwealth of Massachusetts at an aggregate public offering price of $90,000.

It is stated to be a fundamental policy of the company that its principal and primary activities will consist of investigation, research, and analysis with respect to new or existing enterprises, processes or products, and of furnishing capital to or purchasing securities of other companies primarily and principaly engaged in the conduct or development of new enterprises, processes or products or the development of existing processes or products.

At the present time VenCap has outstanding 19 shares of stock, representing one share purchased by each of the eleven members of the company's board of directors and one share sold to each of the eight other persons who were instrumental in the formation of the company.

Section 6 (d) of the act provides in substance that the Commission by order upon application shall exempt a closed-end investment company from any or all provisions of the act, but subject to such terms and conditions as may be necessary or appropriate in the public interest or for the protection of investors, if the aggregate sums received from the sale of all its securities, outstanding and proposed to be offered, do not exceed $100,000, and if the sale of its securities is restricted to the residents of the state of its organization.

Section 6 (e) of the act provides that if, in connection with any order exempting any investment company from any provisions of section 7, the Commission deems it necessary or appropriate in the public interest or for the protection of investors that certain specified provisions of the act pertaining to registered investment companies shall be applicable in respect of such company, the provisions so specified shall apply to such company, and to other persons in their transactions and relations with such company, as though such company were a registered investment company.

The Division of Corporate Regulation has recommended that exemption be granted from the following provisions of the act and the respective rules and regulations promulgated under each of such provisions:

Section 7; section 8 (b), except the requirement to file the information required by Items 3, 4 and 5 of Form N-8B-1 and to report to the Commission any changes thereafter in respect thereof; section 14; section 20 (a); section 23 (c); section 24 (d) insofar as such section makes inapplicable the provisions of section 3 (a) (11) of the Securities Act of 1933 to any securities of a registered investment company; section 30 (a); section 30 (b), except that VenCap shall, pursuant to section 30 (b) (2), file with the Commission copies of all reports sent to stockholders pursuant to section 30 (d) which reports to stockholders shall be accompanied by a certificate of independent public accountants pursuant to section 30 (e); section 30 (f), to the extent that the subject persons shall not be required to file reports more than once each six months; and section 32 (a): *Provided*, That the applicant shall continue to comply with the provisions of sections 6 (d) (1) and 6 (d) (2) of the act and shall at all times maintain its classification as a closed-end company as defined in section 5 (a) (2) of the act.

Notice is further given that any interested person may, not later than December 13, 1955, at 5:30 p. m., submit to the Commission in writing any facts bearing upon the desirability of a hearing on the matter and may request that a hearing be held, such request stating the nature of his interest, the reasons for such request and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission should order a hearing thereon. Any such communication or request should be addressed: Secretary, Securities and Exchange Commission, Washington 25, D. C. At any time after said date, the application may be granted as provided in Rule N-5 of the rules and regulations promulgated under the act.

By the Commission.

ORVAL L. DUBOIS, *Secretary.*

RAILROAD RETIREMENT BOARD

SURETY COMPANIES

SEALED PROPOSALS FOR POSITION SCHEDULE SURETY BOND

The Railroad Retirement Board will receive sealed proposals for a position schedule surety bond covering certain federal employee positions in various locations throughout the Continental United States. Bidding will be limited to corporate surety companies holding certificates of authority from the Secretary of the Treasury under the act of

July 30, 1947 (6 U. S. C. 1–15), as acceptable sureties on Federal bonds. Approximately seventy (70) positions are to be bonded in penalty amounts ranging from $5,000 to $25,000, most of which fall into the former category. The bond will be conditioned upon the faithful performance of the duties of the individuals occupying the positions bonded and will run solely in favor of the United States. The effective date of the bond will be January 1, 1956, and the term will be one year.

Requests for Invitation to Bid and Specifications should be directed to the Director of Supply and Service, Railroad Retirement Board, 844 Rush Street, Chicago 11, Illinois. Bids will be opened at 2 o'clock p. m., c. s. t., on December 20, 1955, in Room 1200, 844 Rush Street, Chicago, Illinois.

Date approved: November 29, 1955.

By direction of the Board.

MARY B. LINKINS,
Secretary of the Board.

[F. R. Doc. 55–9749; Filed, Dec. 5, 1955; 8:46 a. m.]

RAILROAD UNEMPLOYMENT INSURANCE ACCOUNT

PROCLAMATION WITH RESPECT TO BALANCE OF CREDIT

In pursuance of the requirement contained in section 8 (a) of the Railroad Unemployment Insurance Act, as amended, 62 Stat. 577 (45 U. S. C. 1952 ed., section 358 (a)), the Railroad Retirement Board has determined, and hereby proclaims, that the balance to the credit of the Railroad Unemployment Insurance Account in the Treasury of the United States as of the close of business on September 30, 1955, was $395,271,701.75.

In witness whereof the members of the Railroad Retirement Board have hereunto set their hands and caused its seal to be affixed.

Done at Chicago, Illinois, this 29th day of November 1955.

UNITED STATES TARIFF COMMISSION

[Investigation 6]

MONTAN WAX IN ITS CRUDE FORM

NOTICE OF HEARING

The United States Tariff Commission announces a public hearing, to begin at 10 a. m. on January 10, 1956, in the hearing room of the Tariff Commission, Eighth and E Streets NW., Washington, D. C., in connection with Investigation No. 6 under section 201 (a) of the Anti-dumping Act, 1921, as amended, with respect to montan wax in its crude form. Public notice of Investigation No. 6 has been previously given (20 F. R. 8278).

Request to appear at hearing. Parties interested will be given opportunity to appear and to be heard at the above-mentioned hearing. Such parties desiring to appear at the hearing should notify the Secretary of the Commission, in writing, three days in advance of the date of the hearing.

By order of the United States Tariff Commission, the 30th day of November 1955.

Issued: December 1, 1955.

DONN N. BENT,
Secretary.

FOURTH SECTION APPLICATIONS FOR RELIEF

NOVEMBER 30, 1955.

Protests to the granting of an application must be prepared in accordance with Rule 40 of the General Rules of Practice (49 CFR 1.40) and filed within 15 days from the date of publication of this notice in the FEDERAL REGISTER.

LONG-AND-SHORT HAUL

FSA No. 31370: *Lubricating oil—Eastern points to North Carolina.* Filed by C. W. Boin, Agent, for interested rail carriers. Rates on lubricating oil, tank-car loads from specified points in Delaware, Maryland, New Jersey and Pennsylvania to Charlotte, Friendship, Greensboro, and Thrift, N. C.

Grounds for relief: Truck competition and circuity.

Tariff: Supplement 6 to Agent Boin's I. C. C. A–1035.

FSA No. 31371: *Brass, bronze, copper, and silver articles in Official Territory.* Filed jointly by C. W. Boin, and O. E. Swenson, Agents, for interested rail carriers. Rates on brass, bronze, copper and cupron-nickle-silver articles, carloads between points in official territory, as described in the application.

Grounds for relief: Motor-truck competition and circuity.

Tariff: Agent Boin's I. C. C. No. A–1080.

FSA No. 31372: *Asphalt filler—Alpine, Ala., to Official Territory.* Filed by R. E. Boyle, Jr., Agent, for interested rail carriers. Rates on asphalt filler namely soapstone, pulverized and talc tailings, pulverized, carloads from Alpine, Ala., to specified points in official territory.

Grounds for relief: Short-line distance formula and circuity.

Tariffs: Supplement 174 to Agent Spaninger's I. C. C. 1351; Supplement 158 to Agent Spaninger's I. C. C. 1324.

FSA No. 31373: *Synthetic rubber—Charleston, S. C., to Chicago, Ill.* Filed by R. E. Boyle, Jr., Agent, for interested rail carriers. Rates on rubber synthetic, coprecipitated with lignin pitch, carloads from Charleston, S. C., to Chicago, Ill.

Grounds for relief: Circuitous routes.

Tariff: Supplement 174 to Agent Spaninger's I. C. C. 1351.

FSA No. 31374: *Hides, pelts or skins—Beckville, Miss., to Eastern Points.* Filed by R. E. Boyle, Jr., Agent, for interested rail carriers. Rates on hides, pelts or skins, carloads from Beckville, Miss., to specified points in Delaware, Maine, New Hampshire and New Jersey.

Grounds for relief: Modified short-line distance formulas and circuity.

Tariff: Supplement 158 to Agent Spaninger's I. C. C. 1324.

FSA No. 31375: *Pressure pipe—Columbia, S. C., to Southern Points.* Filed by R. E. Boyle, Jr., Agent, for interested rail carriers. Rates on reinforced concrete pressure pipe, carloads from Columbia, S. C., to specified points in southern territory.

Grounds for relief: Short-line distance formula and circuity.

Tariff: Supplement 145 to Agent Spaninger's I. C. C. 1251 and two other tariffs.

FSA No. 31376: *Sugar—Gulf Ports to Alabama and Georgia.* Filed by R. E. Boyle, Jr., Agent, for interested rail carriers. Rates on sugar, carloads from New Orleans, Three Oaks, Gramercy, and Reserve, La., Gulfport, Miss., Mobile, Ala., and Pensacola, Fla., to Atlanta, LaGrange, Newnan, and West Point, Ga., Lanett, Opelika, Auburn, Franklin and Montgomery, Ala.

Grounds for relief: Circuitous routes.

Tariff: Supplement 280 to Agent W. P. Emerson, Jr.'s I. C. C. 380.

FSA No. 31377: *Sugar—Western Louisiana to Birmingham, Ala., and Group.* Filed by J. H. Marque, Alternate Agent, for interested rail carriers. Rates on sugar, carloads, from specified points in Louisiana west of the Mississippi River to Birmingham, Ala., and points grouped with and taking Birmingham rates.

Grounds for relief: Market competition, differential origin relations, and circuity.

Tariff: Supplement 281 to Alternate Agent Marque's I. C. C. 380.

FSA No. 31378: *Caustic soda—Evans City, Ala., to Houston, Tex.* Filed by F. C. Kratzmeir, Agent, for interested rail carriers. Rates on liquid caustic soda, tank-car loads from Evans City, Ala., to Houston, Tex.

Grounds for relief: Truck-barge competition and circuity.

Tariff: Supplement 97 to Agent Kratzmeir's I. C. C. 4115.

FSA No. 31379: *Clay between points in Southern Territory.* Filed by R. E. Boyle, Jr., Agent, for interested rail carriers. Rates on clay, kaolin or pyrophyllite, carloads from specified points in Alabama, Florida, Georgia, North Carolina and South Carolina to McIntyre, Ga., also from Attapulgus, Ga., to Miami, Fla.

Grounds for relief: Short-line distance formula and circuity.

Tariff: Supplement 3 to Agent Spaninger's I. C. C. 1491.

FSA No. 31380: *Grain and grain products to Gulf Ports.* Filed by W. J. Prueter, Agent, for interested rail carriers. Rates on grain, grain products and related articles, also seeds, carloads from specified points named in Chicago, Burlington and Quincy Railroad Tariff I. C. C. No. 20396, to gulf ports for coastwise movement.

Grounds for relief: Carriers competition, grouping and circuity.

FSA No. 31381: *Malt liquors and containers to and from the South.* Filed by R. G. Raasch, Agent, for interested rail carriers. Rates on malt liquors, carloads, and empty returned carriers (beverage packages) carloads from Burlington, Wis., Joliet and Thornton, Ill., to specified points in southern territory, and in the reverse direction on the containers.

Grounds for relief: Market competition, modified short-line distance formula, and circuity.

Tariff: Agent Raasch's I. C. C. No. 850.

By the Commission.

FEDERAL REGISTER

Published daily, except Sundays, Mondays, and days following official Federal holidays, by the Federal Register Division, National Archives and Records Service, General Services Administration, pursuant to the authority contained in the Federal Register Act, approved July 26, 1935 (49 Stat. 500, as amended; 44 U. S. C., ch. 8B), under regulations prescribed by the Administrative Committee of the Federal Register, approved by the President. Distribution is made only by the Superintendent of Documents, Government Printing Office, Washington 25, D. C.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $1.50 per month or $15.00 per year, payable in advance. The charge for individual copies (minimum 15 cents) varies in proportion to the size of the issue. Remit check or money order, made payable to the Superintendent of Documents, directly to the Government Printing Office, Washington 25, D. C.

The regulatory material appearing herein is keyed to the CODE OF FEDERAL REGULATIONS, which is published, under 50 titles, pursuant to section 11 of the Federal Register Act, as amended August 5, 1953. The CODE OF FEDERAL REGULATIONS is sold by the Superintendent of Documents. Prices of books and pocket supplements vary.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER, or the CODE OF FEDERAL REGULATIONS.

- *Proposed rules* — 8991
- Part 14 (proposed) — 8992

11. Subdivision (iii) of subparagraph (7) of paragraph (c), relating to Plymouth County in Massachusetts, is deleted.

12. New subdivisions (vi) and (vii) are added to subparagraph (4) of paragraph (d), relating to Burlington County in New Jersey, to read.

(vi) That part of Evesham Township lying west of Taunton Road, south of Deerfield Road and northeast of Kettle Run Road; and

(vii) That part of South Hampton Township lying south of New Jersey State Highway No. 70, west of Whippoorwill Road, and northeast of Little Creek.

13. New subdivisions (xxii) and (xxiii) are added to subparagraph (8) of paragraph (d), relating to Gloucester County in New Jersey, to read:

(xxii) Lots No. 16 and No. 17 in Block 398, in Deptford Township, owned by James J. Scanlon; and

(xxiii) Lot No. 1 in Block 2, in Deptford Township, owned by Dominick Besogni.

14. New subdivisions (xv), (xvi), (xvii) and (xviii), are added to subparagraph (11) of paragraph (d), relating to Monmouth County in New Jersey, to read:

(xv) That part of Howell Township lying south of the Adelphia-Farmingdale Road, east of Havens-Bridge Road, north of the Manasquan River and west of Ketchum Road;

(xvi) Those parts of Manalapan and Marlboro Townships lying south of Gordons Corner-Wickatunk Road, west of Robertsville-Freehold Road, north of Milford Brook and east of U. S. Route No. 9;

(xvii) That part of Wall Township lying south of Farmingdale-Hurley's Pond Road, west of Glendola-Allenwood Road, north of New Jersey State Highway No. 38 and east of the Garden State Parkway; and

(xviii) Lot No. 17 in Block No. 1, in Ocean Township, owned by Amos Tatum.

Effective date. The foregoing amendment shall become effective upon issuance.

The amendment excludes certain areas in Massachusetts and New Jersey from the areas heretofore quarantined because of vesicular exanthema. Hereafter, the restrictions pertaining to the interstate movement of swine, and carcasses, parts and offal of swine, from or through quarantined areas, contained in 9 CFR, 1954 Supp., Part 76, Subpart B, as amended, will not apply to such areas. However, the restrictions pertaining to such movement from non-quarantined areas, contained in said Subpart B, as amended, will apply thereto.

The amendment relieves certain restrictions presently imposed, and must be made effective immediately to be of maximum benefit to persons subject to the restrictions which are relieved. Accordingly, under section 4 of the Administrative Procedure Act (5 U. S. C. 1003), it is found upon good cause that notice and other public procedure with respect to the amendment are impracticable and contrary to the public interest, and the amendment may be made effective less than 30 days after publication in the FEDERAL REGISTER.

(Sec. 2, 32 Stat. 792, as amended; 21 U. S. C. 111. Interpret or applies secs. 4, 5, 23 Stat. 32, sec. 1, 32 Stat. 791; 21 U. S. C. 120)

Done at Washington, D. C., this 2d day of December 1955.

[SEAL] B. T. SHAW,
Administrator,
Agricultural Research Service.

TITLE 7—AGRICULTURE

Chapter IX—Agricultural Marketing Service (Marketing Agreements and Orders), Department of Agriculture

[Navel Orange Reg. 62, Amdt. 1]

PART 914—NAVEL ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

LIMITATION OF HANDLING

Findings. 1. Pursuant to the marketing agreement, as amended, and Order No. 14, as amended (7 CFR Part 914; 19 F. R. 2941), regulating the handling of navel oranges grown in Arizona and designated part of California, effective September 22, 1953, under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and upon the basis of the recommendation and information submitted by the Navel Orange Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such navel oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

2. It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this amendment until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this amendment is based became available and the time when this amendment must become effective in order to effectuate the declared policy of the act is insufficient, and this amendment relieves restrictions on the handling of navel oranges grown in Arizona and designated part of California.

Order, as amended. The provisions in paragraph (b) (1) (i) of § 914.362 (Navel Orange Regulation 62; 20 F. R. 8686) are hereby amended to read as follows:

(i) District 1: Unlimited movement;

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Dated: December 2, 1955.

[SEAL] S. R. SMITH,
Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[F. R. Doc. 55-9816; Filed, Dec. 6, 1955; 8:51 a. m.]

[957.313 Amdt. 5]

PART 957—IRISH POTATOES GROWN IN CERTAIN DESIGNATED COUNTIES IN IDAHO AND MALHEUR COUNTY, OREG.

LIMITATION OF SHIPMENTS

Findings. (a) Pursuant to Marketing Agreement No. 98 and Order No. 57, as amended (7 CFR Part 957), regulating the handling of Irish potatoes grown in certain designated counties in Idaho and Malheur County, Oregon, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (48 Stat. 31, as amended; 7 U. S. C. 601 et seq.), and upon the basis of the recommendation and information submitted by the Idaho-Eastern Oregon Potato Committee, established pursuant to said marketing agreement and order, as amended, and upon other available information, it is hereby found that the amendment to the limitation of shipments, as hereinafter provided, will tend to effectuate the declared policy of the act.

(b) It is hereby found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this amendment until 30 days after publication in the FEDERAL REGISTER (5 U. S. C. 1001 et seq.) in that (i) the time intervening between the date when information upon which this amendment is based became available and the time when this amendment must become effective in order to effectuate the declared policy of the act is insufficient, (ii) more orderly marketing in the public interest, than would otherwise prevail, will be promoted by regulating the shipment of potatoes, in the manner set forth below, on and after the effective date of this amendment, (iii) compliance with this amendment will not require any special preparation on the part of handlers which cannot be completed by the effective date, (iv) reasonable time is permitted, under the circumstances, for such preparation, (v) information regarding the committee's recommendations has been made available to producers and handlers in the production area, and (vi) this amendment relieves restrictions on the handling of potatoes grown in the production area.

Order, as amended. The provisions of paragraph (b) (5) and (6) of § 957.313, as amended (20 F. R. 4794, 5807, 6075, 6729, 7325), are hereby amended to read as follows:

(5) The limitations set forth in subparagraphs (1) and (2) of this paragraph shall not be applicable to shipments of potatoes for the following purposes: (i) Seed, (ii) export, (iii) canning, dehydration, or manufacture or conversion into starch, flour, meal, or alcohol, (iv) charity, and (v) potato chippings: *Provided,* That shipments of potatoes for potato chipping shall meet the requirements of U. S. No. 2 or better grade, 2 inches minimum diameter or 4 ounces minimum weight.

(6) Each handler making shipments of potatoes pursuant to subparagraph (5) of this paragraph (i) shall first obtain, in accordance with §§ 957.130 to 957.133, inclusive, from the committee a Certificate of Privilege for such handling, (ii) shall have each of such shipments (except shipments for seed) inspected pursuant to § 957.65, (iii) shall pay assessments on such shipments pursuant to § 957.42, (iv) shall, with respect to each shipment made pursuant to subdivision (ii), (iii), (iv), or (v) of subparagraph (5) of this paragraph, furnish a copy of the bill of lading applicable thereto to the committee, (v) shall, with respect to each shipment made pursuant to subdivision (ii) of subparagraph (5) of this paragraph, include in his application for the Certificate of Privilege therefor the export license number and shall enter such number on the Federal-State inspection certificate and bill of lading applicable to such shipment or, in the event no export license is required on such shipment, the handler shall furnish the committee with a copy of the Department of Commerce Shippers Export Declaration Form No. 7525-V applicable to such shipment, and (vi) shall, with respect to each application for a Certificate of Privilege to ship potatoes pursuant

to subdivision (iii), (iv), or (v) of subparagraph (5) of this paragraph submit the applicant handler's certification and the buyer's certification that the potatoes to be so shipped are to be used for the purposes stated in the application.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Done at Washington, D. C., this 2d day of December 1955 to become effective December 8, 1955.

[SEAL] S. R. SMITH,
Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[F. R. Doc. 55-9819; Filed, Dec. 6, 1955; 8:51 a. m.]

[Lime Order 2, Amdt. 1]

PART 1001—LIMES GROWN IN FLORIDA

CONTAINER REGULATION

Findings. On September 30, 1955, notice of proposed rule making was published in the FEDERAL REGISTER (20 F. R. 7313) regarding proposed further limitations on the containers used for the handling of limes pursuant to the Marketing Agreement and Order No. 101 (7 CFR Part 1001; 20 F. R. 4179) regulating the handling of limes grown in Florida, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.; 68 Stat. 906, 1047).

After consideration of all relevant matters presented including the proposals set forth in the aforesaid notice which were submitted by the Florida Lime Administrative Committee (established pursuant to the said marketing agreement and order), it is hereby found that the amended regulation hereinafter set forth is in accordance with the provisions of the said marketing agreement and order and will tend to effectuate the declared policy of the act.

Order. (1) The provisions of paragraph (b) § 1001.302 (20 F. R. 5627) are hereby terminated as of the effective time of this order;

(2) Beginning at the effective time of this order no handler shall handle any variety of limes grown in the production area, covered by the aforesaid marketing agreement and order, in containers having a capacity of more than 2 pounds unless such limes are handled in the following containers:

(i) Containers with inside dimensions 11 by 16¾ by 10 inches: *Provided,* That any such container shall contain not less than 40 pounds net weight of limes;

(ii) Containers with inside dimensions 11½ by 7½ by 5 inches: *Provided,* That any such container shall contain not less than 10 pounds net weight of limes; or

(iii) Containers with inside dimensions 12 by 9⅝ by 3¾ inches: *Provided,* That any such container shall contain not less than 10 pounds net weight of limes.

(3) The limitations set forth in subparagraph (2) of this order shall not apply to master containers for individual cartons, each of which does not contain more than 2 pounds of limes.

(4) As used herein, "production area," "handler," and "handle" shall have the same meaning as when used in said marketing agreement and order.

Effective time. The provisions of this regulation shall become effective at 12:01 a. m., e. s. t., February 1, 1956.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Dated: December 1, 1955.

[SEAL] S. R. SMITH,
Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[F. R. Doc. 55-9807; Filed, Dec. 6, 1955; 8:48 a. m.]

TITLE 16—COMMERCIAL PRACTICES

Chapter I—Federal Trade Commission

[Docket 6365]

PART 13—DIGEST OF CEASE AND DESIST ORDERS

NATONE CO. ET AL.

Subpart—*Advertising falsely or misleadingly:* § 13.170 *Qualities or properties of product or service.* Subpart—*Misrepresenting oneself and goods*—Goods: § 13.1710 *Qualities or properties.*

(Sec. 6, 38 Stat. 721; 15 U. S. C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended; 15 U. S. C. 45) [Cease and desist order, E. Manuel Stolaroff (Los Angeles, Calif.) et al. trading as Natone Company, Docket 6365, November 17, 1955]

In the Matter of E. Manuel Stolaroff, Individually, and E. Manuel Stolaroff, Irving Grath and Moe A. Lesser, Individually and as Trustees, All Trading as Copartners Under the Name of Natone Company

This proceeding was heard by J. Earl Cox, hearing examiner, upon the complaint of the Commission—which charged three copartners with disseminating advertisements in newspapers and periodicals and other advertising literature which represented falsely that their "Talika Eye Lash Creme" cosmetic product, when applied to the eyelashes, would make them grow longer and thicker—and an agreement between counsel for both parties providing for the entry of a consent order in accordance with § 3.25 of the Commission's rules of practice.

Upon this basis, the hearing examiner made his initial decision and order to cease and desist, which by the Commission's order of November 17, 1955, became, pursuant to § 3.21 of the rules of practice, the "Decision of the Commission".

The order to cease and desist is as follows:

It is ordered, That respondents E. Manuel Stolaroff, individually, and E. Manuel Stolaroff, Irving Graff and Moe A. Lesser, individually and as trustees, all trading as copartners under the name of Natone Company, and their agents, representatives, and employees, directly or through any corporate or other device, in connection with the offering for sale, sale or distribution of a preparation designated as Talika Eyelash Creme, or any other cosmetic product of composition substantially similar thereto, do forthwith cease and desist from:

1. Disseminating or causing to be disseminated, by means of the United States mails or by any means in commerce, as "commerce" is defined in the Federal Trade Commission Act, any advertisement which represents, directly or through implication:

a. That the use of said product will cause the eyelashes to grow longer or thicker;

2. Disseminating or causing to be disseminated, by any means, any advertisement for the purpose of inducing or which is likely to induce, directly or indirectly, the purchase in commerce, as "commerce" is defined in the Federal Trade Commission Act, of such product, which advertisement contains any of the representations prohibited in paragraph 1. a. of this order.

By said "Decision of the Commission", report of compliance was required as follows:

It is ordered, That respondents E. Manuel Stolaroff, individually, and E. Manuel Stolaroff, Irving Graff (erroneously named in the complaint as Irving Grath) and Moe A. Lesser, individually and as trustees, all trading as copartners under the name of Natone Company, shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with the order to cease and desist.

Issued: November 17, 1955.

By the Commission.

[SEAL] ROBERT M. PARRISH,
Secretary.

[F. R. Doc. 55-9805; Filed, Dec. 6, 1955; 8:48 a. m.]

TITLE 17—COMMODITY AND SECURITIES EXCHANGES

Chapter II—Securities and Exchange Commission

PART 239—FORMS PRESCRIBED UNDER THE SECURITIES ACT OF 1933

FORMS FOR REGISTRATION STATEMENTS

On August 31, 1955, the Securities and Exchange Commission published notice that it had under consideration a proposal to adopt Form S–12 (17 CFR 239.19), a new registration form under the Securities Act of 1933 for American Depositary Receipts against outstanding foreign securities. All interested persons were invited to comment upon the proposed form. The Commission has considered the comments received and has determined to adopt Form S–12.[1]

Purpose of Form S–12. The purpose of Form S–12 is to provide a simple procedure for the registration of American Depositary Receipts issued against outstanding foreign securities where the issuer is the entity resulting from the

[1] Filed as part of original document.

agreement pursuant to which the receipts are issued, or a corporation or trust organized to act only as a conduit in connection with the deposit of the underlying securities and there is no person who performs the acts and assumes the duties of depositor or manager. The form proposes that the prospectus information, which consists of only four items, might be embodied in the receipts. The form may be used, provided (1) that the holder of the receipts may withdraw the deposited securities at any time, subject to temporary delays of a specified nature, the payment of fees, taxes and similar charges and to compliance with any laws or governmental regulations relating to the withdrawal of deposited securities and (2) that the deposited securities, if sold in the United States or its territories, would not be subject to the registration provisions of the Securities Act of 1933.

Statutory basis. This action is taken pursuant to the Securities Act of 1933, particularly sections 7, 10 and 19 (a) thereof, the Commission deeming such action necessary and appropriate in the public interest and for the protection of investors and necessary to carry out the provisions of the Act.

Effective date. The Commission finds that certain persons may wish to use Form S–12 immediately upon publication and that a deferred effective date would result in unnecessary delay and is not necessary in the public interest or for the protection of investors. Accordingly, the foregoing action shall become effective immediately upon publication November 17, 1955.

(Sec. 19, 48 Stat. 85, as amended; 15 U. S. C. 77s)

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

NOVEMBER 17, 1955.

[F. R. Doc. 55-9804; Filed, Dec. 6, 1955; 8:48 a. m.]

TITLE 32—NATIONAL DEFENSE

Chapter V—Department of the Army

Subchapter A—Aid of Civil Authorities and Public Relations

PART 511—ASSISTANCE TO RELATIVES AND OTHERS IN CONNECTION WITH DECEASED PERSONNEL

MISCELLANEOUS AMENDMENTS

1. In § 511.4, add paragraph (a–1) and amend paragraphs (c) (3) and (4), (f) (1), and (g) (1) (i) and (2), as follows:

§ 511.4 *Effects.* • • •

(a–1) *Responsibility.* The Quartermaster General is responsible for developing, formulating, and promulgating policies, standards, and procedures for exercising staff and technical supervision relating to the handling and disposition of personal effects of deceased Army personnel.

• • • • • •

(c) *Funds, commercial papers, stocks, bonds, etc.* • • •

(3) Commercial papers, bank accounts, stocks, bonds, or negotiable instruments (which include traveler's checks, money orders, etc.) will not be converted into cash but will be forwarded to the next of kin, legal representative, or The Quartermaster General, Department of the Army, Washington 25, D. C., Attn: Memorial Division.

(4) Military payment orders found among the effects of personnel who are deceased, missing, missing in action, or which are otherwise undeliverable, will be forwarded to the Chief of Finance, Department of the Army, Washington 25, D. C., Attn: Advisory Services Division. Letter of transmittal will furnish information showing the source from which the military payment order was received, the status of the payee, and such other information as may be available regarding the issuance and ownership of same. If the payee is deceased, the name and address of the next of kin also will be furnished. Claimants for the proceeds of such military payment orders will be referred to the Chief of Finance, Washington 25, D. C., Attn: Advisory Services Division.

• • • • • •

(f) *Next of kin or legal representative present.* (1) If the next of kin or legal representative is present, the immediate commanding officer of the deceased or missing person will inventory the effects on WD AGO Form 54 (Inventory of Effects), prepared in triplicate, deliver the effects in person, receiving a receipt therefor, or arrange for packing and shipment at Government expense, if requested, and will forward the original and duplicate of the inventory, with the full name and address of the person receiving the effects, to the commanding officer having custody of the individual's records. The commanding officer will indicate his approval of the disposition by signing Form 54 and will forward the original to The Quartermaster General.

• • • • • •

(g) *Next of kin or legal representative not present*—(1) *Legal representative or next of kin known but not present.* (i) The inventory of effects will be prepared in quadruplicate by the immediate commanding officer, and the original and two copies will be delivered with the effects to the summary court appointed to dispose of the effects. If it appears to the interest of both the eventual owner and the Government that certain effects which meet the general description contained in subdivision (iii) of this subparagraph be sold, particularly when the effects are located overseas, the summary court, if the commanding officer approves, will so advise the next of kin or legal representative and ask for a power of attorney to dispose of the effects concerned. Sale, if authorized, may be by public or private sale. A certified copy of the bill of sale will be prepared for the next of kin or legal representative. In addition, the summary court will collect all local debts due the decedent and will pay undisputed local creditors, taking a receipt for such payments to be attached to the inventory. A complete record of all sales and other cash transactions will be entered on Form 54. The summary court will forward the effects and cash from any transactions at Government expense, with original and duplicate of the inventory, with certified bills of sale, to the person eligible to receive the effects, with the request that both copies of the inventory be signed and returned to the summary court. Upon return of both signed copies of the inventory, the summary court will forward both copies to the commanding officer who had custody of the individual's records. The commanding officer will indicate his approval by signing both copies of the inventory and forwarding the original to The Quartermaster General.

• • • • • •

(2) *Legal representative or next of kin not known.* The inventory of effects will be prepared in sextuplicate by the immediate commanding officer, and the original and 4 copies will be delivered with the effects to the summary court appointed to dispose of the effects. The summary court will verify the inventory and receipt therefor on the last copy which will be returned to the organization commander. After collecting from debtors and paying creditors of the individual, the summary court will sell all effects except those articles defined in the Manual for Courts-Martial as valuable chiefly as keepsakes, and stocks, bonds, evidence of bank accounts or other forms of purely commercial paper, and will pay any bona fide creditors of the deceased. Cash or check received from sale of effects will be transmitted to the local disbursing officer, with the original and four copies of the inventory of effects. The original and two copies of the inventory will be forwarded by the summary court to the commanding officer who had custody of the individual's records. Insignia, decorations, medals, and other articles valuable chiefly as keepsakes, and all purely commercial papers, such as stocks, bonds, evidence of bank accounts, etc., will be forwarded to The Quartermaster General, Department of the Army, Washington 25, D. C., Attn: Memorial Division, for transmission to the Soldier's Home under the provisions of the act of 21 February 1931 (46 Stat. 1203; 10 U. S. C. 1584a), as amended. The commanding officer will indicate his approval by signing the inventory and forwarding the original and duplicate to The Quartermaster General with any effects being forwarded to the Department of the Army for further disposition.

• • • • • •

2. In § 511.5, amend the last sentence as follows:

§ 511.5 *Effects of civilian employees not subject to military law.* • • • In all cases receipts will be obtained and forwarded direct to The Quartermaster General with a complete report of action taken.

PART 1461—RECOVERY OF EXCESSIVE PROFITS AFTER DETERMINATION

RECOVERY OF REFUND PURSUANT TO AGREEMENT; RELATION TO INCOME TAX PAYMENTS

This part is amended by deleting in its entirety § 1461.2 (b) *Relation to income tax payments.*

(Sec. 109, 65 Stat. 22; 50 U. S. C. App. 1219)

Dated: December 2, 1955.

THOMAS COGGESHALL,
Acting Chairman.

[F. R. Doc. 55-9808; Filed, Dec. 6, 1955; 8:49 a. m.]

PART 1467—MANDATORY EXEMPTION OF CONTRACTS AND SUBCONTRACTS FOR STANDARD COMMERCIAL ARTICLES OR SERVICES

TIME FOR FILING STANDARD COMMERCIAL ARTICLE REPORTS

Section 1467.4 (d) *Time for filing Standard Commercial Article Report* is amended by deleting the last sentence of subparagraph (2) and inserting in lieu thereof the following: "If the Standard Commercial Article Report is not filed within the time specified in the first sentence of this subparagraph, it should be filed by the contractor with its financial statement for such fiscal year, but in no event later than the date upon which the contractor is required to file such financial statement."

(Sec. 109, 65 Stat. 21; 50 U. S. C. App. 1219)

Dated: December 2, 1955.

THOMAS COGGESHALL,
Acting Chairman.

TITLE 33—NAVIGATION AND NAVIGABLE WATERS

Chapter II—Corps of Engineers, Department of the Army

PART 203—BRIDGE REGULATIONS

MISCELLANEOUS AMENDMENTS

Pursuant to the provisions of section 5 of the River and Harbor Act of August 18, 1894 (28 Stat. 362; 33 U. S. C. 499), § 203.762 is hereby revoked; § 203.810 governing the operation of bridges across navigable waters of the United States within the State of Washington where constant attendance of draw tenders is not required, is hereby amended by numbering existing subparagraphs and adding subparagraph (8) to paragraph (f), to govern the operation of the Union Pacific Railroad Company bridge across the Snake River at Riparia, and the Idaho-Washington highway bridge across the Snake River at Clarkston; and § 203.760 is revised throughout to provide for changes in operation of the Union Pacific Railroad Company bridge across the Columbia River below the mouth of the Snake River and Northern Pacific Railway Company bridges across the Columbia River at Pasco and across the Snake River at Burbank, as follows:

§ 203.760 *Columbia and Snake Rivers in vicinity of Pasco, Wash.; bridges*—(a) *Bridges covered by the regulations of this section.* (1) The Union Pacific Railroad Company bridge across the Columbia River about 5 miles downstream from Pasco, Washington.

(2) The Northern Pacific Railway Company bridge across the Columbia River between Pasco and Kennewick, Washington.

(3) The Northern Pacific Railway Company bridge across the Snake River at Burbank, Washington.

(b) *Posting of regulations.* The owner of or agency controlling each bridge shall keep conspicuously posted on the bridge a copy of the regulations of this section together with a notice stating exactly how the representative stated below may be reached. The regulations of this section and notice shall be posted on both the upstream and downstream sides of the bridge and in such a manner that they can be easily read at all times. The names, addresses, and telephone numbers of the bridge representatives are as follows:

(1) For the Union Pacific Railroad Company bridge—The Chief Dispatcher, Spokane, Washington, telephone Main 4121.

(2) For the Northern Pacific Railway Company bridges—The General Yardmaster, Clark and Tacoma Streets, Pasco, Washington, telephone 6242 or 4401.

(c) *Advance notification.* The owners or operators of vessels requiring that the drawspan of either of the bridges owned by the Northern Pacific Railway Company referred to above, be opened between the hours of 4:00 p. m. and 8:00 a. m., will notify the representative of the bridge owner at least 2 hours in advance of the estimated time of arrival of the vessel at the bridge.

(d) *Signals.* (1) *Call signals for opening of draw.* The following signals shall be given by vessels as notice to bridge tender to open the draw, or in case the draw is already open, that they intend to pass through.

(i) *Danger signals.* Shall consist of a series of short blasts, at least four, given in rapid succession, and repeated if necessary, or a red flag during the day or a red light at night swung in full circles in full sight of the vessel. The signals will be used in answering the call signal of a vessel to indicate that the draw cannot or will not be opened at once, or, when vessels are waiting in the vicinity, that the draw, if open is about to be closed. It is also to be used in emergency to revoke an acknowledging signal.

(ii) *Rescinding signals.* Shall be the reverse of the call signal for each bridge. The signal will be used by a vessel to cancel a previous call signal, and to indicate that the vessel does not intend to pass through and that the draw need not be opened, or may be closed.

(iii) Answer by the bridge tender to a rescinding signal shall be the danger signal.

NOTE: The term "long blast" means a distinct blast of approximately five seconds' duration and the term "short blast" means a distinct blast of approximately two seconds' duration. Visual signals are to be used in conjunction with sound signals when conditions are such that sound signals may not be heard.

(a) For the Union Pacific Railroad Company bridge, 2 long blasts and 1 short blast, sounded at least 10 minutes and not more than 30 minutes before passage is desired.

(b) For the Northern Pacific Railway Company bridges, 1 long blast and 2 short blasts, sounded at least 10 minutes and not more than 30 minutes before passage is desired.

(ii) *Visual signals.* A white flag by day or a white light at night, swung in full circles at arm's length in full sight of the bridge and facing the draw.

(2) *Answering signals*—(i) *Acknowledging signals.* Shall be the same as the call signal for each bridge. The purpose of the signal is to ackowledge the call signal of a vessel and to indicate that the bridge tender intends to open the draw as soon as practicable, or that he will hold the draw open.

(e) All bridges to which the regulations of this section apply shall be equipped with a whistle or horn of sufficient size and range that signals sounded on same shall be distinctly audible up and down stream on a still day for a distance of approximately 2.5 miles.

(f) A vessel, desiring to pass through any of the above bridges, under which it cannot pass with the draw closed, except when advance notice is required by paragraph (c) of this section, shall sound the call signal for such bridge as prescribed and shall repeat such signal at intervals until it is answered by the draw tender. In case two vessels approaching from opposite directions would meet at or near the bridge, the vessel bound downstream shall be considered as having the right of way. When either vessel waits for the passage of the other, the vessel shall again give the call signal for the bridge and receive an acknowledging signal from the draw tender before proceeding. It is incumbent upon navigators to make sure that their signals are understood before proceeding through a drawspan, and when approaching bridges, vessels should be kept under control, with a view to stopping, if necessary, before reaching the bridge.

(g) All vessels when passing any bridge shall be moved as expeditiously as is consistent with safe navigation, and all towboats engaged in towing barges or other craft through any of the bridges shall be of sufficient power to handle the tow without unduly delaying the closing of the drawspan.

(h) Vessels with hinged or adjustable masts or booms projecting above their fixed structure shall lower the same and pass under the bridges, if practicable, without signaling for the draw to open.

(i) If the bridge can be opened, or is already open, when a call signal is given, the draw tender shall promptly answer the vessel calling by giving the acknowledging signal and promptly open the draw or hold it open, as the case may be, except that the opening of the draw may be delayed until immediately after the passage of any train which will cross the bridge before stopping and which has passed any bridge signal block located not more than two miles from the bridge. Trains shall in no event stand in such location as to prevent operation of the draw when a vessel desiring passage through the bridge has signaled for the draw to be opened.

(j) In case the draw cannot be opened at once when the call signal is given, the draw tender shall promptly answer the vessel calling by giving the danger signal and shall repeat the same, if necessary. As soon as the exigency which prevented opening has been removed the bridge tender shall promptly sound the regular acknowledging signal for the bridge to advise vessels that the draw can be opened at once, and he shall thereupon proceed to open same if there is a vessel waiting to pass through.

(k) When two vessels arrive at a bridge at or near the same time and blow the call signal, the lift span, when opened, shall be raised high enough to clear the taller vessel. If either vessel at any drawbridge waits for passage of the other and again gives the call signal, the bridge tender shall promptly answer with the acknowledging signal and shall hold the span open. In case the intentions of a waiting vessel are not fully understood by a draw tender, when the draw is open he shall sound the danger signal as a warning to vessels that he is about to close the draw.

(l) If a rescinding signal is given by a vessel to cancel a previously given call signal, and it is evident the vessel does not intend to pass through, the draw tender shall answer with the danger signal and may close the draw, or need not open the draw.

§ 203.762 *Snake River; Union Pacific Railroad Company bridge at Riparia, Wash., and highway bridge of States of Washington and Idaho at Lewiston, Idaho.* [Revoked.]

§ 203.810 *Navigable waters in the State of Washington; bridges where constant attendance of draw tenders is not required.*

• • • • •

(f) The bridges to which this section applies, and the regulations applicable in each case, are as follows:

(1) Puyallup Waterway and River, Tacoma Harbor; • • •
(2) South Fork, Skagit River; • • •
(3) Skagit River; • • •
(4) Wishkah River; • • •
(5) (Reserved)
(6) (Reserved)
(7) (Reserved)
(8) Snake River; Union Pacific Railroad Company bridge at Riparia, and Idaho-Washington Department of Highway bridge at Clarkston. The draws need not be opened for the passage of vessels, and paragraphs (b) to (e), inclusive, of this section shall not apply to these bridges.

TITLE 43—PUBLIC LANDS: INTERIOR

Chapter I—Bureau of Land Management, Department of the Interior

Appendix—Public Land Orders

[Public Land Order 1259]

[New Mexico 020728]

NEW MEXICO

WITHDRAWING PUBLIC LANDS FOR USE OF THE DEPARTMENT OF THE AIR FORCE FOR MILITARY PURPOSES IN CONNECTION WITH WALKER AIR FORCE BASE

By virtue of the authority vested in the President and pursuant to Executive Order No. 10355 of May 26, 1952, it is ordered as follows:

Subject to valid existing rights, the following-described public lands in New Mexico are hereby withdrawn from all forms of appropriation under the public-land laws, including the mining and the mineral-leasing laws, and reserved for use of the Department of the Air Force for military purposes in connection with Walker Air Force Base:

NEW MEXICO PRINCIPAL MERIDIAN

T. 9 S., R. 25 E.,
Sec. 20, S½NW¼SW¼NE¼.

The tract described contains 5 acres.

This order shall take precedence over but not otherwise affect the Departmental order of April 8, 1935, establishing New Mexico Grazing District No. 6.

WESLEY A. D'EWART,
Assistant Secretary of the Interior.

NOVEMBER 30, 1955.

[F. R. Doc. 55-9786; Filed, Dec. 6, 1955; 8:45 a. m.]

[Public Land Order 1260]

[Washington 02135]

WASHINGTON

WITHDRAWING PUBLIC LANDS FOR USE OF THE DEPARTMENT OF THE ARMY IN CONNECTION WITH THE DALLES DAM PROJECT

By virtue of the authority vested in the President and pursuant to Executive Order No. 10355 of May 26, 1952, it is ordered as follows:

Subject to valid existing rights, the following-described public lands in Washington are hereby withdrawn from all forms of appropriation under the public-land laws, including the mining and the mineral-leasing laws, and reserved for use of the Department of the Army in connection with The Dalles Dam Project:

WILLAMETTE MERIDIAN

T. 2 N., R. 14 E.,
Sec. 16, lot 3, that portion of the southeast quarter of northwest quarter, lying southerly of the north boundary of the existing right of way of the Spokane, Portland and Seattle Railway Company, and lot 4 (now inundated by the Columbia River).

The tract described contains 8.10 acres.

Sec. 17, lot 2, all that portion lying southeasterly of a line that is 100 feet distant northwesterly, when measured at right angles, from the center line survey for the relocation of the railroad of the Spokane, Portland and Seattle Railway Company, said center line being more particularly described as follows:

Beginning at Engineer's Station L 760+00 P. O. T., from which station the southwest corner of Section 17 in said township and range bears S. 66° 19' 09" W. a distance of 2,874.6 feet; thence N. 71° 47' 30" E. 527.32 feet to Station L 765+27.32 B. S.; thence northeasterly, on an increasing Talbot spiral to the left (a=0.5172), a distance of 290.00 feet through an angle of 2° 10' 30" to Station L 768+17.32 B. M. C.; thence northeasterly, on a curve to the left having a radius of 3,819.75 feet, a distance of 170.56 feet through an angle of 2° 33' 30" to Station L 769+87.88 E. M. C.; thence northeasterly, on a decreasing Talbot spiral to the left (a=0.5172), a distance of 290.00 feet through an angle of 2° 10' 30" to Station L 772+77.88 E. S.; thence N. 64° 53' 00" E. 420.83 feet to Station L 776+98.71 B. S.

The tract described contains 5.90 acres.

Sec. 19, NW¼NW¼, all that portion of the east 11.70 chains lying southerly of the south boundary of the right of way of Washington State Highway No. 8 (U. S. No. 830).

The tract described contains 8.30 acres.

T. 2 N., R. 15 E.,
Sec. 14, lots 6, 7, 8 and 9, all those portions lying between the line of ordinary high water of the Columbia River and a contour line 178.0 feet above mean sea level, as determined by reference to the United States Coast and Geodetic Survey datum.

The tract described contains 9.00 acres.

This order shall take precedence over but not otherwise affect Power Site Classification No. 378 of February 10, 1948, so far as it affects any of the lands.

[SEAL] WESLEY A. D'EWART,
Assistant Secretary of the Interior.

DECEMBER 1, 1955.

[F. R. Doc. 55-9787; Filed, Dec. 6, 1955; 8:45 a. m.]

TITLE 47—TELECOMMUNICATION

Chapter I—Federal Communications Commission

[Docket Nos. 11181, 11532; FCC 55-1198]

[Rules Amdts. 3-62, 3-3]

PART 3—RADIO BROADCAST SERVICES

TELEVISION BROADCAST STATIONS; POWER AND ANTENNA HEIGHT REQUIREMENTS; MAXIMUM POWER

In the matter of amendment of § 3.614 (b) of the rules governing Tele-

vision Broadcast Stations; Docket No. 11181; amendment of Part 3 of the Commission's rules and regulations governing Television Broadcast Stations; Docket No. 11532.

1. In a report and order adopted on July 20, 1955, under the above-entitled Docket No. 11181 the Commission announced an amendment to § 3.614 (b) of the rules which would permit VHF television stations in Zone 1 to use maximum power at antenna heights up to 1,250 feet, instead of up to 1,000 feet as previously provided in the rules. The effective date for this amendment was designated as August 31, 1955.

2. Prior to August 31, 1955, Elm City Broadcasting Corporation, licensee of Station WNHC–TV on Channel 8 in New Haven, Connecticut, the Air Transport Association of America and the Ultra High Frequency Industry Coordinating Committee filed with the Commission petitions for reconsideration of this action and for stay of the effectiveness of the new rule pending such reconsideration. Also prior to August 31, 1955, the Commission received written requests from Mr. T. P. Pike, Assistant Secretary of Defense and Mr. F. B. Lee, Administrator of Civil Aeronautics Administration, asking that the Commission postpone the effective date of the amendment until the completion of certain studies of the Air Coordinating Committee and the release of findings of the Joint Industry Governmental Tall Structure Committee. In an Order adopted on August 31, 1955, the Commission announced that in its opinion the public interest would be served by staying the effectiveness of the amendment in order that it might afford consideration to the foregoing requests; and the effective date of the foregoing amendment was accordingly extended to October 1, 1955. In subsequent Orders adopted on September 28, 1955, October 21, 1955, and November 16, 1955, the effective date was further extended. Under the last mentioned Order the effective date was designated as January 9, 1956.

3. On November 10, 1955, the Commission issued a Notice of Proposed Rule Making in the above entitled Docket No. 11532, looking toward possible revision of the Table of Assignments or television standards. In this Notice the Commission invited proposals and comments of all interested parties on such modifications of the present nationwide allocations plan as might help to reduce the existing barriers to the fuller expansion of the Nation's television services. In paragraph 8 of the Notice the Commission requested comments on the nature and the extent of departures, if any, from the present standards as adopted in the Sixth Report and Order, with respect to a series of factors basic to the present television system. Among the factors so specified were the "Minimum and maximum limitations on powers and antenna heights".

4. Thus the foregoing amendment to § 3.614 (b) of the rules concerns only one of a considerable number of closely interrelated features of the present system. The Commission has announced its intention in evaluating the merits of proposals submitted under Docket 11532, to consider their bearing on all the factors mentioned in paragraph 8 of the Notice of Proposed Rule Making. This, in the Commission's opinion, will facilitate, and in fact is indispensable to, its quest for adequate solutions to the allocations problem now before it.

5. Also on November 10, 1955, the Ultra High Frequency Industry Coordinating Committee filed a petition requesting that the Commission vacate the above-referenced Report and Order of July 20, 1955, and deny the petitions in the instant proceeding (Docket No. 11181) for amendment of § 3.614 (b). The Committee contended that there are strong public interest considerations which require denial of the petitions of amendment of § 3.614 (b) on their merits and that denial is required for consistency with the Commission's actions of November 10, 1955, in initiating the subject rule making proceeding looking toward possible revision of the Table of Assignment (Docket No. 11532) and in adopting its Memorandum Opinion and Order of November 10, 1955 in which the Commission denied a number of petitions for basic revisions to the present Table of Assignments and television standards. On November 23, 1955, Sarkes Tarzian, Inc. filed a reply and opposition to the petition the Coordinating Committee filed on November 10, 1955. In this pleading Sarkes Tarzian requested that the petition of the Coordinating Committee be denied on the basis of a distinction it suggests between deintermixture proposals which have not been adopted and "the so-called 1,250' rule" which it states has already been adopted in a rule making proceeding. Sarkes Tarzian also contended that the subject amendment would have different effect in the Indianapolis-Bloomington area than in other areas such as New England, and stated that UHF stations which may be affected by the amendment could submit their objections when VHF stations file applications looking toward the use of higher towers with maximum powers in Zone I. On November 28, 1955 WSAZ, Inc., licensee of Station WSAZ-TV at Huntington, West Virginia, and participant in the proceedings under Docket 11181, filed an Opposition to the petition filed by the Coordinating Committee on November 10, 1955. In this Opposition WSAZ argued that the Commission, in taking its actions of November 10, 1955 relating to deintermixture without taking corollary action in the instant proceeding under Docket 11181, had correctly determined that the latter proceeding was independent of the matters on which the Commission acted on November 10, 1955.

6. The subject amendment to § 3.614 (b), although it would not have nationwide effect, would apply to a very significant segment of the television industry. Zone I comprehends almost half the population of the United States and approximately a third of all existing television stations. The amendment concerns factors—maximum antenna heights and powers—which are basic to the structure of the present television system. In these circumstances the Commission believes that it would be preferable not to attempt to dispose of the basic questions remaining in Docket No. 11181 without reference to such decisions as it may reach in the general rule making proceeding under Docket No. 11532 on numerous matters which are interrelated with and have direct bearing on antenna heights and powers. Accordingly, the Commission has decided to consider the basic questions remaining under Docket No. 11181, in the rule making proceeding under Docket No. 11532. The Commission is not in agreement with the contention that it would be appropriate to dispose of the issues in Docket 11181 without reference to such decisions as it may take in the rule making proceeding under Docket 11532.

7. On November 17, 1954, Northern Pacific TV Corporation of Spokane, Washington, filed a petition requesting amendment of § 3.614 (b) so as to permit stations operating on Channels 2 to 6 in Zone II to operate with maximum powers of 100 kw irrespective of antenna height. For reasons similar to those already discussed, the Commission believes it will be desirable to consider this petition also, under the rule making proceeding in Docket No. 11532.

8. There is, however, one limited circumstance concerning which the Commission feels no useful purpose would be served by deferring its decision or consolidating the matter with Docket No. 11532. On March 22, 1951, during the general rule making proceeding in Docket 8736, et al., looking toward revision of the existing system of television allocations and standards the Commission issued its Third Notice of Rule making in which it announced inter alia, proposed increased maximum antenna heights and powers. In its Sixth Report and Order issued on April 14, 1952 in the same proceeding the Commission finally adopted maximum limitations on antenna heights and powers which were more restrictive than those stated in the Third Notice. In the instant proceedings under Docket 11181 there has been called to the Commission's attention a circumstance in which the Commission's authorization to relocate an antenna site to a point farther distant from the principal city to be served was issued by the Commission and acted upon after the issuance of the Third Notice and before issuance of the Sixth Report and Order. To apply the maximum heights and powers adopted in the Sixth Report and Order to a station whose transmitter site was relocated, by authorization of the Commission, at a time when the licensee's choice of a new site was influenced by the maximum heights and powers announced in the Third Notice, would, in the opinion of the Commission, work undue and unnecessary hardship on such a station. For this reason, the Commission is of the view that considerations of equity justify permitting utilization of present maximum powers at the antenna height specified in such authorization.

9. Authority for the adoption of the amendment herein is contained in sections 303 (a), (b), (c), (d), (e), (f), (g) and (r) and 4 (i) of the Communications Act of 1934, as amended.

10. In view of the foregoing: *It is ordered*, That § 3.614 (b) (1) of the rules, effective January 6, 1956, is amended by the addition of the following note:

NOTE: This limitation shall not apply to any licensee or permittee in Zone I who received an authorization after March 22, 1951, to relocate its transmitter site and construct a new tower and antenna to a height in excess of 1000 feet above average terrain and who constructed or who had substantially completed construction of said tower and antenna prior to April 14, 1952. In such case, maximum power may be utilized at the height above average terrain specified in the authorization. The limitation shall apply, however, where the tower or other principal supporting structure had been constructed prior to the date of such authorization.

11. *It is further ordered*, That the Commission's Report and Order in Docket No. 11181 of July 20, 1955, is vacated, and the record in Docket No. 11181 is made part of the general rule making proceeding in Docket No. 11532; and Docket No. 11181 is hereby terminated.

12. *It is further ordered*, That the petition of Northern Pacific TV Corporation filed November 17, 1954, and requesting amendment of § 3.614 (b) in respect to Zone II will be considered under Docket No. 11532.

(Sec. 4, 48 Stat. 1066 as amended; 47 U. S. C. 154. Interprets or applies sec. 303, 48 Stat. 1082, as amended; 47 U. S. C. 303)

Adopted: November 30, 1955.

Released: December 1, 1955.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

PROPOSED RULE MAKING

FEDERAL COMMUNICATIONS COMMISSION

[47 CFR Part 3]

[Docket No. 11568; FCC 55–1197]

CONELRAD PLAN FOR NONCOMMERCIAL EDUCATIONAL FM AND INTERNATIONAL BROADCAST SERVICES

NOTICE OF PROPOSED RULE MAKING

In the matter of amendments to Part 3 of the Commission's rules to extend CONELRAD to the Noncommercial Educational FM and the International Broadcast Services.

1. The Commission has before it the approved CONELRAD Plan for the Noncommercial Educational FM and the International Broadcast Services. This plan was developed in cooperation with licensees, Department of Defense and Director, Office of Defense Mobilization, and government agencies concerned. In order to put this plan into effect it is necessary to modify Part 3 of the Commission's rules as set forth below. It is proposed to change the title of the present Subpart G of Part 3 of the rules to read, "CONELRAD For Standard, FM and Television Broadcast Stations." It is further proposed to add a new Subpart H to Part 3 of the rules as set forth below.

2. These proposed amendments are promulgated by authority of sections 303 (r) and 606 (c) of the Communications Act of 1934 as amended and Executive Order No. 10312 signed by the President December 10, 1951.

3. Any interested party who is of the opinion that the proposed amendments should not be adopted or should not be adopted in the form set forth herein may file on or before January 3, 1956, a written statement or brief setting forth his comments. Comments in support of the proposed amendments may also be filed on or before the same date. Comments or briefs in reply to the original comments may be filed within one week from the last day for filing said original comments or briefs. No additional comments may be filed unless, (1) specifically requested by the Commission, or (2) good cause for the filing of such additional comments is established. The Commission will consider all such comments that are submitted before taking action in this matter, and, if any comments appear to warrant the holding of a hearing or oral argument, a notice of the time and place of such hearing or oral argument will be given.

4. In accordance with the provisions of § 1.764 of the Commission's rules and regulations, an original and 14 copies of all statements, briefs, or comments shall be furnished the Commission.

Adopted: November 30, 1955.

Released: December 2, 1955.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

1. Change title of Subpart G to read "CONELRAD for Standard, Fm and Television Broadcast Stations."

2. Add a new subpart H as follows:

SUBPART H—CONELRAD FOR NONCOMMERCIAL EDUCATIONAL FM AND INTERNATIONAL BROADCAST STATIONS

§ 3.1001 *Scope and objective.* (a) This subpart applies to all radio stations in the noncommercial educational FM and the international broadcast services located in the Continental U. S., and is for the purpose of providing for the alerting and operation of radio stations in these services during periods of air attack or imminent threat thereof.

(b) The objective of the CONELRAD rules in this subpart is to minimize the navigational aid that an enemy might obtain from the electromagnetic radiations from radio stations in the noncommercial educational FM and international broadcast services, while simultaneously providing for a continued radio service under controlled conditions when such operation is essential to the public welfare.

§ 3.1002 *Alerting.* (a) All radio stations in the noncommercial educational FM and the international broadcast services licensed by the Federal Communications Commission are responsible for making provisions to receive the CONELRAD Radio Alert message and the CONELRAD Radio All Clear. (As used in this subpart the term "licensed by" includes every form of authority issued by FCC pursuant to which a radio station may be operated, including constructions permits, station licenses, temporary authorizations, etc).

(b) The CONELRAD Radio Alert will be initiated by the Commanding Officer of the Air Division (Defense) or higher military authority.

(c) The provision of an adequate receiver, to monitor any standard, FM or TV broadcast station either by aural or by automatic means, during all hours of operation of noncommercial educational FM or international broadcast stations, will be considered as compliance with the requirements of paragraph (a) of this section. Other means of receiving the CONELRAD Radio Alert may be authorized by the Federal Communications Commission in special cases.

NOTE: Every standard, FM and TV broadcast station will be notified of the Radio Alert by telephone calls or by radio broadcasts. Immediately upon receipt of the Radio Alert, each standard, FM and TV broadcast station will proceed as follows on its normally assigned frequency:

(1) Discontinue the normal program in progress.

(2) Cut the transmitter carrier for approximately 5 seconds. (Sound carrier only for television stations.)

(3) Return the carrier to the air for approximately 5 seconds.

(4) Cut transmitter carrier for approximately 5 seconds.

(5) Return carrier to the air.

(6) Broadcast 1,000 cycle (approximately) steady state tone for fifteen seconds.

(7) Broadcast the CONELRAD radio alert message as follows: "We interrupt our normal program to cooperate in security and Civil Defense measures as requested by the United States Government, This is a CONELRAD radio alert. Normal broadcasting will now be discontinued for an indefinite period. Civil Defense information will be broadcast in most areas at 640 and 1240 on your regular radio receiver."

(8) The CONELRAD radio alert message will then be repeated.

§ 3.1003 *Operating during a CONELRAD Radio Alert.* (a) Noncommercial educational FM broadcast stations, upon receipt of a CONELRAD radio alert, will interrupt the program in progress, and broadcast the CONELRAD Radio Alert Message as in § 3.1002 (c) (7) and (8). The station will then discontinue its carrier and maintain radio silence for the duration of the CONELRAD Radio Alert.

(b) International broadcast stations, upon receipt of a CONELRAD radio alert will interrupt the program in progress, may make a brief sign-off announcement not longer than one minute, and, except for those stations specifically authorized by the Federal Communications Commission to continue transmitting, stations in this service will leave the air and maintain radio silence. Stations in the international broadcast service permitted to continue transmitting will be individually authorized to transmit by the Federal Communications Commission with the concurrence of the Secretary of Defense, and the Director, Office of Defense Mobilization, and will transmit only urgent government broadcasts or messages. The stations' carrier must be removed from the air during periods of no broadcast or message transmissions.

§ 3.1004 *Identification.* After receipt of a CONELRAD radio alert, noncommercial educational FM broadcast and international broadcast stations shall make no station identification either by announcement of regularly assigned call signals or by announcement of geographical location.

§ 3.1005 *Radio All Clear.* The radio all clear will be initiated only by the Air Division (Defense) Commander or higher military authority and will be disseminated over the same channels as the CONELRAD radio alert. Radio stations in the noncommercial educational FM and the international broadcast services may resume normal operating schedules when the CONELRAD radio all clear is received, unless otherwise restricted by order of the Commission.

§ 3.1006 *Tests.* Tests of the CONELRAD alerting and operating systems of the noncommercial educational FM and the international broadcast services may be conducted at appropriate intervals. Reports of the results of such tests may be required in a form to be prescribed by the Commission.

§ 3.1007 *Log entries.* Appropriate entries of all CONELRAD tests, drills or operations shall be made in the station log.

[47 CFR Part 14]

[Docket No. 11557; FCC 55-1185]

RADIO STATIONS IN ALASKA (OTHER THAN AMATEUR AND BROADCAST)

AVAILABILITY OF CERTAIN FREQUENCY

In the matter of amendment of Part 14 to make available to Alaska-public fixed stations the frequency 3357 kc for communication with the Alaska Communications System fixed station at Anchorage, Alaska.

1. Notice is hereby given of proposed rule making in the above-entitled matter.

2. The proposed amendment of Part 14 of the Commission's rules makes the frequency 3357 kc available to Alaska-public fixed stations for communication with the Alaska Communications System fixed station at Anchorage, Alaska. This frequency already is available to Alaska-public fixed stations for communication with the ACS fixed stations at Juneau and at Fairbanks, Alaska. The proposed amendment provides that use of 3357 kc must be coordinated as necessary with the use of the frequency 3353 kc by fixed stations of United States Government and with the use of the frequency 3365 kc by other fixed stations in the Alaska area so as to avoid harmful interference.

3. The proposed amendment set forth below is issued under the authority contained in sections 303 (c) (f) and (r) of the Communications Act of 1934, as amended.

4. Any interested person who is of the opinion that the proposed amendment should not be adopted or should not be adopted in the form set forth herein, may file with the Commission on or before January 15, 1956, written data, views or briefs setting forth his comments. Comments in support of the proposed amendment may also be filed on or before the same date. Comments in reply to the original comments may be filed within ten days from the last day for filing said original data, views, or briefs. The Commission will consider all such comments prior to taking final action in this matter.

5. In accordance with the provisions of § 1.764 of the Commission's rules, an original and 14 copies of all statements, briefs or comments should be furnished the Commission.

Adopted: November 30, 1955.

Released: December 2, 1955.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

A. Part 14 is amended as follows:

1. Section 14.206 (a) (9) is amended to read:

(9) 3357 for telegraphy and/or telephony; for communication with ACS stations located at Fairbanks, Anchorage, and Juneau. The use of this frequency for communication with Anchorage shall be coordinated as necessary with use of the frequency 3353 kc by United States Government stations so as to avoid harmful interference to the latter. The use of 3357 kc for communication with Juneau, Fairbanks and Anchorage shall be coordinated as necessary with the use of the frequency 3365 kc by other fixed stations in the Alaska area so as to avoid harmful interference.

NOTE: The ACS station at Anchorage will act as coordinator between the non-Government stations transmitting to Anchorage on 3357 kc and the Government stations operating on 3353 kc.

[F. R. Doc. 55-9814; Filed, Dec. 6, 1955; 8:50 a. m.]

FEDERAL POWER COMMISSION

[18 CFR Part 154]

[Docket No. R-142]

RATES FOR NATURAL GAS SOLD IN INTERSTATE COMMERCE FOR RESALE

ORDER TERMINATING PROCEEDING

The Commission has under consideration in this proceeding principles and methods to be applied in the fixing of just and reasonable rates to be charged by independent producers of natural gas sold in interstate commerce for resale, or transportation in interstate commerce.

General public notice of the proposed rule making in the above-entitled matter was given by publication of notice dated November 17, 1954, in the FEDERAL REGISTER (19 F. R. 7696) and by mailing of notice to natural-gas pipeline companies, State regulatory commissions, independent producers, Federal agencies and others who it was considered would have an interest in the matter. In such notices the Commission invited suggestions as to the principles and methods to be applied by it in its regulation of the rates to be charged by independent producers who are natural-gas companies under the Act for their transportation or sale of natural gas subject to the jurisdiction of the Commission.

In response to such notice, as supplemented by a further notice dated December 2, 1954 (19 F. R. 8107), of an extension of time for submittals and oral argument, several dozen written suggestions, comments, and briefs were filed by interested parties including producers, pipeline companies, distribution companies, State commissions, industry organizations, land and royalty owners' associations and others, respecting the matters involved in this docket. In addition, we heard oral argument on January 11, 12, and 13, 1955, by many of those who had submitted briefs and by the Commission Staff.

However, the information gained in this proceeding convinces us that, on the basis of the record herein, we should not lay down any rules as to what would be necessary or appropriate for consideration in determining the just and reasonable rates of any independent producer subject to our jurisdiction under the Natural Gas Act.

Accordingly, after full consideration of the suggestions, comments, and recommendations submitted, it appears to the Commission that adoption of any standards, principles, or methods respecting the matters and issues involved herein is not appropriate or necessary in carrying out the provisions of the Natural Gas Act. We so find.

The Commission further finds: On the basis of the record herein, the proceeding in this docket should be terminated.

The Commission orders: The proceeding in this docket respecting consideration of principles and methods to be established as a basis for determining just and reasonable rates which may be charged by independent producers for natural gas sold in interstate commerce for resale is terminated.

Adopted: November 30, 1955.

Issued: December 1, 1955.

By the Commission.

[SEAL] LEON M. FUQUAY,
Secretary.

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

ALASKA

NOTICE OF PROPOSED WITHDRAWAL AND RESERVATION OF LANDS

NOVEMBER 29, 1955.

The Bureau of Land Management has filed an application, Serial No. Fairbanks 012695, for the withdrawal of the lands described below, from all forms of appropriation including the grazing, materials, mining and mineral leasing acts. The applicant desires the land for recreational site and landing area for both boats and aircraft.

For a period of 60 days from the date of publication of this notice, persons having cause may present their objections in writing to the undersigned official of the Bureau of Land Management, Department of the Interior, Box 480, Anchorage, Alaska.

If circumstances warrant it, a public hearing will be held at a convenient time and place, which will be announced.

The determination of the Secretary on the application will be published in the FEDERAL REGISTER. A separate notice will be sent to each interested party of record.

The lands involved in the application are:

Beginning at Corner No. 4, U. S. Survey No. 2714, thence N. 40° 51' W. 0.38 chains approximately to a point on the left bank of Hot Springs Slough, thence northeasterly along the left bank of Manley Hot Springs Slough approximately 17.40 chains to a point on the left bank of Hot Springs Slough N. 25° 00' W. approximately 0.30 chains distance from Corner No. 2, U. S. Survey No. 2316, thence S. 25° 00' E. approximately 0.30 chains to Corner No. 2, U. S. Survey No. 2316. Thence S. 74° 30' W. 1.45 chains to Corner No. 1, U. S. Survey No. 2316. Thence S. 13° 00' W. 3.90 chains to Corner No. 7, U. S. Survey No. 2316. Thence S. 70° 34' W. 2.675 chains to Corner No. 3, U. S. Survey No. 2850 on line 7-6, U. S. Survey No. 2316. Thence No. 19° 26' W. 2.475 chains distance to Corner No. 2, U. S. Survey No. 2850. Thence S. 68° 12' W. 3.757 chains to Corner No. 1, U. S. Survey No. 2850, identical with Corner No. 1, U. S. Survey No. 2714. Thence S. 59° 18' W. 6.685 chains to point of beginning, containing 2.85 acres, more or less.

CIVIL AERONAUTICS BOARD

[Docket No. 5564]

TUCSON AIRPORT AUTHORITY

NOTICE OF HEARING ON APPLICATION FOR DESIGNATION AS INTERMEDIATE POINT

In the matter of the application of the Tucson Airport Authority for the designation of Tucson as an intermediate point on route No. 2.

Notice is hereby given, pursuant to the Civil Aeronautics Act of 1938, as amended, particularly sections 205 (a), 401, and 1002 (i) of said act and the applicable regulations thereunder, that a hearing in the above-entitled proceeding is assigned to be held on January 11, 1956, at 10:00 a. m., m. s. t., at the El Conquistador Hotel, Tucson, Arizona, before Examiner William J. Madden.

Without limiting the scope of the issues particular attention will be directed to the following matters and questions:

(1) Whether the public convenience and necessity require that Tucson, Arizona, be designated as an intermediate point on Trans World Airlines, Inc., route No. 2, and that the certificate of public convenience and necessity of said carrier should be amended accordingly, and whether said carrier is fit, willing, and able to perform said air transportation and conform to the provisions of the act and the regulations of the Board thereunder.

Notice is further given that any person not a party of record desiring to be heard in support of or in opposition to questions involved in this proceeding must file with the Board on or before January 11, 1956, a statement setting

forth the matters of fact or law which he desires to advance. Any person filing such a statement may appear at the hearing in accordance with Rule 14 of the Board's Rules of Practice in Economic Proceedings.

Dated at Washington, D. C., December 2, 1955.

By the Civil Aeronautics Board.

[SEAL] FRANCIS W. BROWN,
Chief Examiner.

ILLINOIS BELL TELEPHONE CO.

ORDER ASSIGNING MATTER FOR PUBLIC HEARING

The Commission having under consideration an application filed by Illinois Bell Telephone Company for a certificate under section 221 (a) of the Communications Act of 1934, as amended, that the proposed acquisition by Illinois Bell Telephone Company of certain telephone plant and properties of Fowler Central Telephone Company furnishing telephone service in and around Fowler, Illinois, will be of advantage to the persons to whom service is to be rendered and in the public interest;

It is ordered, This 25th day of November 1955, that pursuant to the provisions of section 221 (a) of the Communications Act of 1934, as amended, the above application is assigned for public hearing for the purpose of determining whether the proposed acquisition will be of advantage to the persons to whom service is to be rendered and in the public interest;

It is further ordered, That the hearing upon said application be held at the offices of the Commission in Washington, D. C., beginning at 10:00 a. m. on the 21st day of December 1955, and that a copy of this order shall be served upon the Governor of Illinois, Illinois Commerce Commission, Illinois Bell Telephone Company, Fowler Central Telephone Company, and the Postmaster of Fowler, Illinois;

It is further ordered, That within ten days after the receipt from the Commission of a copy of this order, the applicant herein shall cause a copy hereof to be published in a newspaper or newspapers having general circulation in Fowler and Adams County, Illinois, and shall furnish proof of such publication at the hearing herein.

SECURITIES AND EXCHANGE COMMISSION

[File No. 70-3427]

CENTRAL PUBLIC UTILITY CORP.

NOTICE OF FILING REGARDING GUARANTEE BY PARENT OF SHORT-TERM NOTE OF SUBSIDIARY AND EXTENSION OF CREDIT TO SUCH SUBSIDIARY

DECEMBER 1, 1955.

Notice is hereby given that Central Public Utility Corporation ("Central"), a registered holding company under the Public Utility Holding Company Act of 1935 ("act") which has disposed of all its public-utility subsidiaries within the United States and which now has an application pending for exemption pursuant to section 3 (a) (5) of the act (File No. 31-626), has filed a declaration pursuant to section 7 of the act and Rule U-45 of the General Rules and Regulations promulgated under the act with respect to the following proposed transactions:

Central states that, although the consolidated earned surplus of its system exceeds $7,500,000, its own cash and corporate earned surplus have been greatly reduced by prior dividend payments to its stockholders (at the semi-annual rate of 40 cents per share), that it does not have sufficient cash or corporate earned surplus for the payment of its next regular dividend, and that it desires to obtain such cash in the form of dividends to increase its earned surplus to enable it to continue dividends to its own stockholders. The filing indicates that Central's wholly-owned subsidiary, The Islands Gas and Electric Company ("Islands"), an intermediate holding company which is exempt from the requirements of the act pursuant to orders heretofore issued by the Commission under sections 3 (a) (5) and 3 (b) thereof, desires to aid Central and is considering the declaration and payment on its common stock of dividends aggregating not more than $5,000,000. It is further indicated that Islands now has about $2,500,000 in cash immediately available for the payment of dividends and it is contemplating a short-term bank loan of $2,500,000. The bank loan in contemplation would be from some New York bank and would be evidenced by Islands' promissory note bearing interest at a rate not to exceed ½ percent more than the prime rate, maturing in less than nine months and secured by Central's guarantee which, in turn, would be secured by the pledge

with the lending bank of a time deposit equivalent to the amount of the loan and (if required by the bank) by Central's subordination of the indebtedness owed to it by Islands.

Declarant states that, if the proposed loan should be made, Islands believes it would have no difficulty in making repayment but even if Islands were unable to repay the loan, Central would pay the loan by using the pledged cash and would become subrogated to the bank's position as creditor of Islands in the amount of the loan.

Central states that the payment of the described dividends to it by Islands would enable Central to continue its regular dividend payments to its own stockholders and that it would invest the bulk of the cash received, thereby carrying on its proper business as a holding company.

Declarant represents that the proposed transactions by Islands are not subject to the jurisdiction of any state commission or any Federal commission, that the proposed transactions by Central are not subject to the jurisdiction of any state commission or any Federal commission other than this Commission, and that the fees and expenses in connection with the transactions are estimated at not in excess of $600, including miscellaneous expenses of $100, and possible fees and expenses of the attorney for the lending bank in an amount not exceeding $1,000.

Notice is further given that any interested person may, not later than December 14, 1955, at 5:30 p. m., request the Commission in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law, if any, raised by said declaration which he desires to controvert, or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington 25, D. C. At any time after said date said declaration, as filed or as amended, may be permitted to become effective as provided in Rule U-23 of the rules and regulations promulgated under the act, or the Commission may grant exemption from its rules as provided in Rules U-20 (a) and U-100, or take such other action as it may deem appropriate.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

[F. R. Doc. 55-9796; Filed, Dec. 6, 1955; 8:46 a. m.]

[File No. 811-300]

TRUSTEE STANDARD OILSHARES, SERIES "A"

NOTICE OF MOTION TO TERMINATE REGISTRATION

DECEMBER 1, 1955.

Notice is hereby given that the Securities and Exchange Commission ("Commission") on its own motion, is proposing to declare by order, pursuant to section 8 (f) of the Investment Company Act of 1940 ("act") that Trustee Standard Oilshares, Series A (the "Trust"), a registered investment company, has ceased to be an investment company.

The Trust was created as a unit investment trust on June 27, 1928, pursuant to a Trust Agreement between Trustee Standard Shares, Inc., Depositor, and Empire Trust Company, New York, New York, Trustee. In accordance with the terms of the Trust Agreement the Trust was terminated as of May 1, 1948.

Following termination of the Trust its assets were sold by the Trustee pursuant to the terms of the Trust Agreement for a net realization of $1,907,963.20, which sum was available for the certificate holders of the Trust.

The Trustee has distributed to certificate holders who surrendered their certificates $9.80 per trust share and holds an aggregate of $53,949 for distribution to the holders of unsurrendered certificates representing 5,505 trust shares. In addition, the Trustee holds $11,038.36 coupon funds covering various maturities of coupons not yet presented for payment, and held for such purpose. The Trustee also holds a cash reserve of $5,066.10 pending final determination of certain claims in litigation. Upon conclusion of the litigation any balance of said reserve will be distributed to or held for certificate holders.

The Trustee represents that the Sponsor [Depositor] of the Trust is no longer in existence and has lost its corporate franchise and that any funds held by the Trustee will be held for the respective certificate holders and if and when such funds become subject to escheat laws, they will be paid to the State of New York.

Section 8 (f) of the act provides, in pertinent part, that whenever the Commission of its own motion finds that a registered investment company has ceased to be an investment company, it shall so declare by order and upon the taking effect of such order the registration of such company shall cease to be in effect.

Notice is further given that any interested person may, not later than December 19, 1955, at 5:30 p. m., submit to the Commission in writing any facts bearing upon the desirability of a hearing on the matter and may request that a hearing be held, such request stating the nature of his interest, the reasons for such request and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission should order a hearing thereon. Any such communication or request should be addressed: Secretary, Securities and Exchange Commission, Washington 25, D. C. At any time after said date, the Commission may, acting on its own motion, declare that Trustee Standard Oilshares, Series A, has ceased to be an investment company, by order as provided in Rule N-5 of the rules and regulations promulgated under the act.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

[F. R. Doc. 55-9797; Filed, Dec. 6, 1955; 8:47 a. m.]

[File No. 811-302]

TRUSTEE STANDARD OILSHARES, SERIES B

NOTICE OF MOTION TO TERMINATE REGISTRATION

DECEMBER 1, 1955.

Notice is hereby given that the Securities and Exchange Commission ("Commission") on its own motion, is proposing to declare by order, pursuant to section 8 (f) of the Investment Company Act of 1940 ("act") that Trustee Standard Oilshares, Series B (the "Trust"), a registered investment company, has ceased to be an investment company.

The Trust was created as a unit investment trust on February 1, 1930, pursuant to a Trust Agreement between Trustee Standard Shares, Inc., Depositor, and Empire Trust Company, New York, New York, Trustee. In accordance with the terms of the Trust Agreement the Trust was terminated as of April 15, 1947.

Following termination of the Trust its assets were sold by the Trustee pursuant to the terms of the Trust Agreement for a net realization of $335,685.44, which sum was available for the certificate holders of the Trust.

The Trustee has distributed to certificate holders who surrendered their certificates $9.40 per trust share and holds an aggregate of $10,528 for distribution to the holders of unsurrendered certificates representing 1,120 trust shares. In addition, the Trustee holds $6,303.30 coupon funds covering various maturities of coupons not yet presented, and held for such purpose. The Trustee also holds a cash reserve of $3,626.16, pending final determination of certain claims in litigation. Upon conclusion of the litigation any balance of said reserve will be distributed to or held for certificate holders.

The Trustee represents that the Sponsor [Depositor] of the Trust is no longer in existence and has lost its corporate franchise and that any funds held by the Trustee will be held for the respective certificate holders, and if and when such funds become subject to escheat laws, they will be paid to the State of New York.

Section 8 (f) of the act provides, in pertinent part, that whenever the Commission on its own motion finds that a registered investment company has ceased to be an investment company, it shall so declare by order and upon the taking effect of such order the registration of such company shall cease to be in effect.

Notice is further given that any interested person may, not later than December 19, 1955, at 5:30 p. m., submit to the Commission in writing any facts bearing upon the desirability of a hearing on the matter and may request that a hearing be held, such request stating the nature of his interest, the reasons for such request and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission should order a hearing thereon. Any such communication or request should be addressed: Secretary, Securities and Exchange

Commission, Washington 25, D. C. At any time after said date, the Commission may, acting on its own motion, declare that Trustee Standard Oilshares, Series B, has ceased to be an investment company, by order as provided in Rule N-5 of the rules and regulations promulgated under the act.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[F. R. Doc. 55-9798; Filed, Dec. 6, 1955; 8:47 a. m.]

[File No. 811-298]

TRUSTEE STANDARD INVESTMENT SHARES, SERIES C

NOTICE OF MOTION TO TERMINATE REGISTRATION

DECEMBER 1, 1955.

Notice is hereby given that the Securities and Exchange Commission ("Commission") on its own motion, is proposing to declare by order, pursuant to section 8 (f) of the Investment Company Act of 1940 ("act") that Trustee Standard Investment Shares, Series C ("the Trust") a registered investment company, has ceased to be an investment company.

The Trust was created as a unit investment trust on July 1, 1930, pursuant to a Trust Agreement between Trustee Standard Shares, Inc., Depositor, and Empire Trust Company, New York, New York, Trustee. In accordance with the terms of the Trust Agreement the Trust was terminated as of November 9, 1949.

Following termination of the Trust its assets were sold by the Trustee pursuant to the terms of the Trust Agreement for a net realization of $165,641.05, which sum was available for the certificate holders of the Trust.

The Trustee has distributed to certificate holders who surrendered their certificate $3.39 per trust share and holds an aggregate of $7,678.35 for distribution to the holders of unsurrendered certificates representing 2,265 trust shares. The Trustee also holds a cash reserve of $1,134.42 pending final determination of certain claims in litigation. Upon conclusion of the litigation any balance of said reserve will be distributed to or held for certificate holders.

The Trustee represents that the Sponsor [Depositor] of the Trust is no longer in existence and has lost its corporate franchise and that any funds held by the Trustee will be held for the respective certificate holders and if and when such funds become subject to escheat laws, they will be paid to the State of New York.

Section 8 (f) of the act provides, in pertinent part, that whenever the Commission on its own motion finds that a registered investment company has ceased to be an investment company, it shall so declare by order and upon the taking effect of such order the registration of such company shall cease to be in effect.

Notice is further given that any interested person may, not later than December 19, 1955, at 5:30 p. m., submit to the Commission in writing any facts bearing upon the desirability of a hearing on the matter and may request that a hearing be held, such request stating the nature of his interest, the reasons for such request and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission should order a hearing thereon. Any such communication or request should be addressed: Secretary, Securities and Exchange Commission, Washington 25, D. C. At any time after said date, the Commission may, acting on its own motion, declare that Trustee Standard Investment Shares, Series C has ceased to be an investment company, by order as provided in Rule N-5 of the rules and regulations promulgated under the act.

By the Commission.

TRUSTEE STANDARD INVESTMENT SHARES, SERIES D

NOTICE OF MOTION TO TERMINATE REGISTRATION

DECEMBER 1, 1955.

Notice is hereby given that the Securities and Exchange Commission ("Commission") on its own motion, is proposing to declare by order, pursuant to section 8 (f) of the Investment Company Act of 1940 ("act") that Trustee Standard Investment Shares, Series D (the "Trust"), a registered investment company, has ceased to be an investment company.

The trust was created as a unit investment trust on July 1, 1930, pursuant to a Trust Agreement between Trustee Standard Shares, Inc., Depositor, and Empire Trust Company, New York, New York, Trustee. In accordance with the terms of the Trust Agreement the Trust was terminated as of November 9, 1949.

Following termination of the Trust its assets were sold by the Trustee pursuant to the terms of the Trust Agreement for a net realization of $216,042.38, which sum was available for the certificate holders of the Trust.

The Trustee has distributed to certificate holders who surrendered their certificates $2.34 per trust share and holds an aggregate of $9,816.30 for distribution to the holders of unsurrendered certificates representing 4,195 trust shares. The Trustee also holds a cash reserve of $12,183.03 pending final determination of certain claims in litigation. Upon conclusion of the litigation any balance of said reserve will be distributed to or held for certificate holders.

The Trustee represents that the Sponsor [Depositor] of the Trust is no longer in existence and has lost its corporate franchise and that any funds held by the Trustee will be held for the respective certificate holders, and if and when such funds become subject to escheat laws, they will be paid to the State of New York.

Section 8 (f) of the act provides, in pertinent part, that whenever the Commission on its own motion finds that a registered investment company has ceased to be an investment company, it shall so declare by order and upon the taking effect of such order the registration of such company shall cease to be in effect.

Notice is further given that any interested person may, not later than December 19, 1955, at 5:30 p. m., submit to the Commission in writing any facts bearing upon the desirability of a hearing on the matter and may request that a hearing be held, such request stating the nature of his interest, the reasons for such request and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission should order a hearing thereon. Any such communication or request should be addressed: Secretary, Securities and Exchange Commission, Washington 25, D. C. At any time after said date, the Commission may, acting on its own motion, declare that Trustee Standard Investment Shares, Series D, has ceased to be an investment company, by order as provided in Rule N-5 of the rules and regulations promulgated under the act.

By the Commission.

UNIVERSAL TRUST SHARES

NOTICE OF MOTION TO TERMINATE REGISTRATION

DECEMBER 1, 1955.

Notice is hereby given that the Securities and Exchange Commission ("Commission") on its own motion, is proposing to declare by order, pursuant to section 8 (f) of the Investment Company Act of 1940 ("act") that Universal Trust Shares (the "Trust"), a registered investment company, has ceased to be an investment company.

The Trust was created as a unit investment trust on July 1, 1930, pursuant to a Trust Agreement between Trustee Standard Shares, Inc., Depositor, and Empire Trust Company, 120 Broadway, New York 5, New York, Trustee. In accordance with the terms of the Trust Agreement the Trust was terminated as of March 3, 1948.

Following termination of the Trust its assets were sold by the Trustee pursuant to the terms of the Trust Agreement for a net realization of $58,990.60, which sum was available for the certificate holders of the Trust.

The Trustee has distributed to certificate holders who surrendered their certificates $4 per trust share and holds an aggregate of $7,140.00 for distribution to the holders of unsurrendered certificates representing 1,785 trust shares. In addition, the Trustee holds $4,765.35 coupon funds covering various maturities of coupons not yet presented for payment, and held for such purpose. The Trustee also holds a cash reserve of $1,103.56 pending final determination of certain claims in litigation. Upon conclusion of the litigation any balance of said reserve will be distributed to or held for certificate holders.

The Trustee represents that the Sponsor [Depositor] of the Trust is no longer in existence and has lost its corporate franchise and that any funds held by the Trustee will be held for the respective certificate holders and if and when such funds become subject to escheat laws, they will be paid to the State of New York.

Section 8 (f) of the act provides, in pertinent part, that whenever the Commission on its own motion finds that a registered investment company has ceased to be an investment company, it shall so declare by order and upon the taking effect of such order the registration of such company shall cease to be in effect.

Notice is further given that any interested person may, not later than December 19, 1955, at 5:30 p. m., submit to the Commission in writing any facts bearing upon the desirability of a hearing on the matter and may request that a hearing be held, such request stating the nature of his interest, the reasons for such request and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission should order a hearing thereon. Any such communication or request should be addressed: Secretary, Securities and Exchange Commission, Washington 25, D. C. At any time after said date, the Commission may, acting on its own motion, declare that Universal Trust Shares has ceased to be an investment company, by order as provided in Rule N-5 of the rules and regulations promulgated under the act.

By the Commission.

GUARDIAN INVESTMENT TRUST

NOTICE OF APPLICATION FOR ORDER DECLARING COMPANY HAS CEASED TO BE AN INVESTMENT COMPANY

DECEMBER 1, 1955.

Notice is hereby given that Guardian Investment Trust ("Guardian") has filed an amended application pursuant to section 8 (f) of the Investment Company Act of 1940 ("act") for an order declaring that Guardian has ceased to be an investment company.

Guardian, a common law trust, is a closed-end management investment company and registered under the act on November 1, 1940.

It is represented that the Trustees of Guardian on July 15, 1954, voted to terminate, dissolve and completely liquidate the trust pursuant to the authority conferred on the Trustee in the Declaration of Trust.

It is further represented that distribution could not be made to holders of the Common Beneficial Ownership Shares of Guardian until its final tax returns had been examined and approved by the Internal Revenue Service.

It is further represented that a closing agreement has been signed, and the funds for payment to the security holders of Guardian have now been set aside irrevocably in trust for that purpose.

Section 8 (f) of the act provides, in pertinent part, that whenever the Commission on application, finds that a registered investment company has ceased to be an investment company, it shall so declare by order and upon the taking effect of such order the registration of such company shall cease to be in effect.

Notice is further given that any interested person may, not later than December 19, 1955, at 5:30 p. m., submit to the Commission in writing any facts bearing upon the desirability of a hearing on the matter and may request that a hearing be held, such request stating the nature of his interest, the reasons for such request and the issues, if any of fact or law proposed to be controverted, or he may request that he be notified if the Commission should order a hearing thereon. Any such communication or request should be addressed: Secretary, Securities and Exchange Commission, Washington 25, D. C. At any time after said date, the application may be granted as provided in Rule N-5 of the rules and regulations promulgated under the act.

By the Commission.

[File No. 811-659]

GOVERNMENT PERSONNEL MUTUAL FUND, INC.

NOTICE OF AND ORDER FOR HEARING CONCERNING CORPORATE NAME

DECEMBER 1, 1955.

Government Personnel Mutual Fund, Inc., a Delaware corporation, with its principal office in Washington, D. C., having filed with the Commission, on November 15, 1954, a notification of registration on Form N-8A, which notification states that the registrant proposes to engage in business as an open-end, diversified, management investment company; having filed a registration statement on Form N-8B-1 under the Investment Company Act of 1940 on January 7, 1955, which was later amended on October 28, 1955; and having filed a registration statement on Form S-5 under the Securities Act of 1933 on November 3, 1955, in which it is represented that such company proposes to make sales of its securities to personnel of the Federal, State, or local governments, including military personnel, or to organizations of such personnel;

An application for an order under section 35 (d) of the Investment Company Act of 1940 having been filed with the Commission on behalf of Government Personnel Mutual Life Insurance Company, a Texas corporation, which application represents, among other things, in substance as follows:

(a) Government Personnel Mutual Life Insurance Company has been engaged in business since 1934 in the writing of life insurance, particularly for personnel in the armed services.

(b) Such applicant insurance company has its principal office in San Antonio, Texas, and is licensed to engage in the life insurance business in Alabama, Arkansas, California, Colorado, the District of Columbia, Florida, Georgia, Louisiana, Maryland, Mississippi, Maine, New Hampshire, New Mexico, Oregon, Pennsylvania, South Carolina, Tennessee, Virginia, Washington, and the Territory of Hawaii.

(c) The applicant company advertises widely in the District of Columbia and elsewhere, does business in the District of Columbia and in the adjoining States of Maryland and Virginia. Its policies are held by many persons, many of whom are in the District of Columbia. It has more than $120,000,000 of life insurance in force.

(d) The applicant company is generally known and commonly referred to by the public, in the District of Columbia and elsewhere, as "Government Personnel Mutual Life Insurance Company" or as "GPM."

(e) Applicant represents that the phrase "Government Personnel" has become generally identified with the applicant in the public mind where it appears in a corporate name or title in the fields of insurance or finance.

(f) The applicant company represents that Government Personnel Mutual Fund, Inc., the registrant herein, has no connection or affiliation of any kind with the applicant, and has not been authorized by it to use such corporate name or title, and that the use of such corporate name and title by the registrant is deceptive and misleading within the prohibition of section 35 (d) of the Investment Company Act of 1940. Applicant represents that the use of the phrase "Government Personnel" in the corporate name of the registrant has caused and will cause the public to be deceived and misled by inducing them to believe erroneously that an affiliation or connection exists between the registrant and the applicant, and that the applicant is engaged in financial ventures and operations beyond the business of life insurance to which the activities of the applicant are strictly confined.

The foregoing application by Government Personnel Mutual Life Insurance Company, having requested that the Commission find and by order declare that the words "Government Personnel" as used by the registrant in its corporate name and title are deceptive and misleading within the meaning of section

35 (d) of the Investment Company Act of 1940; and

It appearing to the Commission that a substantial question may exist as to whether the use of the name "Government Personnel Mutual Fund, Inc." may represent or imply that the securities issued by such company are guaranteed, sponsored, recommended or approved by the United States or any agency or officer thereof, within the meaning of section 35 (a) of said act, and that for such reason or other reasons such name may be deceptive or misleading within the scope of section 35 (d) of the act;

It further appearing to the Commission that it is in the public interest and the interest of investors that a hearing be held with respect to such matter, for the purpose of considering, in connection therewith, the various matters hereinafter set forth, and for the purpose of determining what order, if any, should be issued by the Commission pursuant to section 35 and any other applicable provisions of the Investment Company Act of 1940;

Wherefore it is ordered, That a hearing under the applicable provisions of the Investment Company Act of 1940 and the rules of the Commission thereunder be held on the 21st day of December 1955, at 10:00 a. m., in the offices of the Securities and Exchange Commission, 425 Second Street NW., Washington, D. C. At such time the Hearing Room Clerk will advise as to the room in which such hearing will be held. At such hearing consideration will be given to the following matters and questions, without prejudice, however, to the specification of any additional issues which may be presented by the use of such corporate name:

(1) Whether the use of the name "Government Personnel Mutual Fund, Inc." and specifically the use of the word "Government" or the phrase "Government Personnel" in such name, may have the effect of representing or implying that such registrant, or any securities issued thereby, has been guaranteed, sponsored, recommended, or approved by the United States or any agency or any officer thereof, in violation of section 35 (a) of said act, or, if such representation or implication may exist, whether such representation or implication may render such name deceptive or misleading within the scope of section 35 (d) of the act;

(2) Whether the name "Government Personnel Mutual Fund, Inc." and specifically the phrase "Government Personnel" therein, is deceptive or misleading, within the meaning of section 35 (d) of the act, as leading to confusion between the name of the registrant and the name of the presently existing Government Personnel Mutual Life Insurance Company;

(3) Whether for any other reason such name is inconsistent with the provisions of said act;

(4) What order, if any, should be entered with respect to the use of such name or any words in such name, pursuant to the applicable provisions of the act.

It is further ordered, That James G. Ewell, or any officer or officers of the Commission designated by it for that purpose, shall preside at said hearing. The officer so designated is hereby authorized to exercise all the powers granted to the Commission under sections 41 and 42 (b) of the Investment Company Act of 1940 and to a hearing officer under the Commission's Rules of Practice.

It is further ordered, That notice of such hearing is hereby given to Government Personnel Mutual Fund, Inc., registrant herein, 1033 30th Street NW., Washington, D. C., and to Government Personnel Mutual Life Insurance Company, 505 East Travis Street, San Antonio, Texas, such notice to be given by registered mail and by publication of this notice and order in the FEDERAL REGISTER. Notice is also given to any other person or persons whose participation in such proceedings may be necessary or appropriate in the public interest or for the protection of investors, such notice to be given by publication of this notice and order in the FEDERAL REGISTER and by general release of the Commission, distributed to the press and mailed to the mailing list for release.

It is further ordered, That a copy of the application, filed by Government Personnel Mutual Life Insurance Company shall be served upon the registrant herein, and that the registrant shall file with the Secretary of the Commission, not later than 15 days after the date of this notice, an answer or other pleading with respect to the matters set forth in this notice and order and in such application, such answer to state any facts or other material deemed pertinent by such registrant with respect to the use of such proposed name.

It is further ordered, That any person, other than the registrant or the aforenamed applicants, desiring to be heard in said proceedings, shall file with the Secretary of the Commission his application as provided by Rule XVII of the rules of practice, on or before the date provided in that rule setting forth any issues of law or facts which he desires to controvert or any additional issues which he deems raised by this notice and order or by such application.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[F. R. Doc. 55-9803; Filed, Dec. 6, 1955; 8:47 a. m.]

INTERSTATE COMMERCE COMMISSION

[Notice 89]

MOTOR CARRIER APPLICATIONS

DECEMBER 2, 1955.

Protests, consisting of an original and two copies to the granting of an application must be filed with the Commission within 30 days from the date of publication of this notice in the FEDERAL REGISTER and a copy of such protest served on the applicant. Each protest must clearly state the name and street number, city and state address of each protestant on behalf of whom the protest is filed (49 CFR 1.240 and 1.241). Failure to seasonably file a protest will be construed as a waiver of opposition and participation in the proceeding unless an oral hearing is held. In addition to other requirements of Rule 40 of the General Rules of Practice of the Commission (39 CFR 1.40), protests shall include a request for a public hearing, if one is desired, and shall specify with particularity the facts, matters, and things, relied upon, but shall not include issues or allegations phrased generally. Protests containing general allegations may be rejected. Requests for an oral hearing must be supported by an explanation as to why the evidence cannot be submitted in forms of affidavits. Any interested person, not a protestant, desiring to receive notice of the time and place of any hearing, pre-hearing conference, taking of depositions, or other proceeding shall notify the Commission by letter or telegram within 30 days from the date of publication of this notice in the FEDERAL REGISTER.

Except when the circumstances require immediate action, an application for approval, under Section 210a (b) of the Act, of the temporary operations of Motor Carrier properties sought to be acquired in an application under Section 5 (2) will not be disposed of sooner than 10 days from the date of publication of this notice in the FEDERAL REGISTER. If a protest is received prior to action being taken, it will be considered.

APPLICATIONS OF MOTOR CARRIERS OF PROPERTY

No. MC 1124 Sub 125, filed November 18, 1955, HERRIN TRANSPORTATION COMPANY, 2301 McKinney Ave., Houston, Tex. Applicant's attorney: Leroy Hallman, First National Bank Bldg., Dallas 2, Tex. For authority to operate as a common carrier, transporting: *General commodities, including Class A and B explosives, and commodities requiring special equipment,* but excepting those of unusual value, household goods as defined by the Commission, and commodities in bulk, serving the site of the Texas Butadiene and Chemical Corporation plant and the Community Center adjacent thereto located approximately two and two tenths (2.2) miles south of Sheldon, Tex., a point on U. S. Highway 90 approximately 13 miles east of Houston, Tex., as an off-route point in connection with applicant's authorized regular route operations over U. S. Highway 90 between Houston, Tex. and New Orleans, La. Applicant is authorized to conduct operations in Texas, Louisiana, Arkansas, Tennessee, and Mississippi.

No. MC 1124 Sub 127, filed November 18, 1955, HERRIN TRANSPORTATION COMPANY, 2301 McKinney Ave., Houston, Tex. Applicant's attorney: Leroy Hallman, First National Bank Bldg., Dallas 2, Tex. For authority to operate as a common carrier, transporting: *General commodities, including Class A and B explosives* and *commodities requiring special equipment,* but excepting those of unusual value, household goods as defined by the Commission, and commodities in bulk, serving the site of the Texas Portland Cement Company plant located approximately five (5) miles east of Orange, Tex. as an off-route point in connection with applicant's authorized regular route operations over U. S. Highway 90 between Houston, Tex. and Orange, Tex. Applicant is authorized to conduct operations in Texas, Louisiana, Arkansas, Tennessee, and Mississippi.

No. MC 2304 Sub 22, filed November 25, 1955, THE KAPLAN TRUCKING COMPANY, 1607 Woodland Ave., Cleveland, Ohio. Applicant's attorney: John P. McMahon, 44 East Broad St., Columbus 15, Ohio. For authority to operate as a *common carrier,* over irregular routes, transporting: *Iron and steel; iron and steel products;* and *pallets* and *empty containers* used in the transportation of iron and steel and iron and steel products, between Youngstown, Warren, Niles, Girard, Canton, Lowellville, and Struthers, Ohio, and Sharon, Pa., on the one hand, and, on the other, points in Massachusetts, Rhode Island, and Connecticut. Applicant is authorized to conduct irregular route operations in Illinois, Indiana, Kentucky, Michigan, New Jersey, New York, Ohio, Pennsylvania, and West Virginia.

No. MC 2862 Sub 55, filed November 25, 1955, ARROW TRANSPORTATION COMPANY OF DELAWARE, doing business as ARROW TRANSPORTATION COMPANY, A Corporation, 3125 N. W. 35th Avenue, Portland, Oreg. Applicant's attorney: Wm. P. Ellis, 1102 Equitable Building, Portland 4, Oreg. For authority to operate as a *common carrier,* over irregular routes, transporting: *Cherries,* in brine, in bulk, in tank vehicles, from points in Oregon and Washington to points in California, and *contaminated shipments* of the above-specified commodity on return. Applicant is authorized to conduct operations in California, Oregon and Washington.

No. MC 3986 Sub 2, filed November 21, 1955, S. W. JOHNSON, doing business as JOHNSON'S MOTOR SERVICE, 2 Raleigh St., Hamlet, N. C. Applicant's attorney: Vaughan S. Winborne, Security Bank Bldg., Raleigh, N. C. For authority to operate as a *common carrier,* over irregular routes, transporting: *General Commodities,* including *those of unusual value,* but excluding dangerous explosives, household goods as defined by the Commission, and commodities requiring special equipment, from New York, N. Y., Washington, D. C., Richmond, Va., Manville, N. J., York, Pa., Baltimore, Md., and points within 10 miles of Baltimore, Md., to points in North Carolina in the following counties: Catawba, Cleveland, Gaston, Forsyth, Rockingham, Guilford, Alamance, Durham, Wake, Granville, Vance, Halifax, Edgecombe, Wilson, Wayne, Hertford, Chowan, Pasquotank, Beaufort, Craven and New Hanover and those points in the Counties of Mecklenburg, Cabarrus, Bladen and Columbus not within 50 miles of Hamlet, N. C. Applicant is authorized to conduct irregular route operations in North Carolina, Maryland, South Carolina, New Jersey, New York, Pennsylvania, Virginia and the District of Columbia.

No. MC 4368 Sub 2, filed November 16, 1955, EDWIN L. BOHREN and WARREN FROEHLICH, doing business as BOHREN'S EXPRESS & STORAGE, Princeton-Hightstown Road, (Princeton P. O. Box 15), Princeton Junction, N. J. Applicant's attorney: Henry M. Stratton II, 37 Hulfish St., Princeton, N. J. For authority to operate as a *common carrier,* over irregular routes, transporting: *Household goods,* as defined by the Commission, between Princeton, N. J. and points within 10 miles thereof, on the one hand, and, on the other, points in Massachusetts, Rhode Island, Connecticut, New York, New Jersey, Pennsylvania, Maryland, Delaware, Virginia, and the District of Columbia. Applicant is authorized to conduct operations in Connecticut, Delaware, Maryland, New Jersey, New York, Pennsylvania, and the District of Columbia.

No. MC 4409 Sub 9, filed November 22, 1955, R. & H. CORPORATION, a corporation, 1004 Stanton Ave., New Kensington, Pa. Applicants' attorney: Harold S. Shertz, 811–819 Lewis Tower Building, 225 S. 15th St., Philadelphia 2, Pa. For authority to operate as a *contract carrier,* over irregular routes, transporting: *Glass containers,* returned for replacement, credit, or trade, or as refused, rejected or damaged shipments thereof; and *empty shipping crates or containers,* from points in Alabama, Connecticut, Delaware, the District of Columbia, Florida, Georgia, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, New York, North Carolina, Ohio, Rhode Island, South Carolina, Virginia, Vermont, and West Virginia, to points in Clarion County, Pa. excepting Knox, Pa.

NOTE: This application is in effect a request for authority to transport the specified commodities on return movements in connection with operations under those particular portions of present outstanding authority in Docket No MC 4409 and Subs thereof wherein authorization is not presently held to transport said commodities on return movements. Applicant is authorized to conduct operations in Alabama, Connecticut, Delaware, Florida, Georgia, Indiana, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, New York, North Carolina, Ohio, Pennsylvania, Rhode Island, South Carolina, Vermont, Virginia, West Virginia, and the District of Columbia. The applicant carrier herein is affiliated with Diamond Transfer and Storage Company who holds authority under Certificate issued in Docket No. MC 52290 to perform certain common carrier operations; therefore, Section 210 matters may be involved in this proceeding.

No. MC 7335 Sub 3, filed November 10, 1955, J. M. DONLEY TRUCK SERVICE, INC., 1523 Buchanan St., St. Louis, Mo. Applicant's attorney: Frederic J. Ball, Ring Bldg., Washington 6, D. C. For authority to operate as a *contract carrier,* over irregular routes, transporting: *Such merchandise* as is dealt in by wholesale and retail chain grocery and food business houses, and in connection therewith, *equipment, materials, and supplies* used in the conduct of such business, from St. Louis, Mo. to points in Louisa, Washington, Keokuk, Wapello, Jefferson, Henry, Des Moines, Lee, Van Buren, and Davis Counties, Iowa; and those in that portion of Illinois south of a line beginning at the Illinois-Indiana State line and extending along U. S. Highway 24 to Peoria, Ill., thence along Illinois Highway 116 to junction U. S. Highway 34, and thence along U. S. Highway 34 to the Mississippi River, including points on the indicated portions of the highways specified. Applicant is authorized to transport such merchandise as is usually manufactured or distributed by soap manufacturing or distributing business establishments from St. Louis, Mo. to the above-set-out destination territory.

No. MC 7746 Sub 75, filed October 31, 1955, UNITED TRUCK LINES, INC., E. 915 Springfield Avenue, Spokane 2, Wash. Applicant's attorney: George LaBissoniere, 835 Central Building, Seattle 4, Wash. For authority to operate as a *common carrier,* serving the Ice Harbor Dam site near Pasco, Wash., and points within 15 miles of said damsite, (1) as intermediate and off-route points in connection with carrier's regular route operations between Portland, Oreg., and Spokane, Wash., over U. S. Highways 410 and 395, transporting *General commodities,* except those of unusual value, Class A and B explosives, uncrated household goods and office furniture, commodities in bulk, and those requiring special equipment, and (2) as off-route points in connection with carrier's regular route operations between Tacoma, Wash., and Prosser, Wash., over U. S. Highway 410 transporting, *General commodities,* except those of unusual value, Class A and B explosives, commodities in bulk other than petroleum products, and those requiring special equipment other than petroleum products. Applicant is authorized to conduct operations in Idaho, Montana, Oregon and Washington.

No. MC 19201 Sub 86, filed November 25, 1955, PENNSYLVANIA TRUCK LINES, INC., 110 South Main St., W. E., Pittsburgh 20, Pa. Applicant's attorney: Gilbert Nurick, Commerce Building, P. O. Box 432, Harrisburg, Pa. For authority to operate as a *common carrier,* over regular routes, transporting: *General commodities,* including *those of unusual value, commodities in bulk,* and *those requiring special equipment,* but excluding Class A and B explosives, and household goods as defined by the Commission, in service auxiliary to, or supplemental of, rail service of The Pennsylvania Railroad Company, between (1) Carlisle, Pa., and junction U. S. Highway 11 and Pennsylvania Highway 533 north of Shippensburg, Pa., over U. S. Highway 11, (2) Greencastle, Pa., and Hagerstown, Md., over U. S. Highway 11, and (3) Waynesboro, Pa., and Hagerstown, Md., over Pennsylvania Highway 316 from Waynesboro to the Pennsylvania-Maryland State line, thence over Maryland Highway 60 to Hagerstown, and return over the same route; serving all intermediate points on said routes which are stations on the rail line of The Pennsylvania Railroad Company. Applicant is authorized to conduct operations in Indiana, Michigan, New York, Ohio, Pennsylvania, and West Virginia.

NOTE: The applicant herein is under common control by The Pennsylvania Railroad Company with several other motor carriers one of which, namely, Scott Bros., Incorporated, holds authority under Permit issued by this Commission in Docket No. MC 52405 Sub 1 to perform certain contract carrier operations; therefore, Section 210 matters may be involved in this proceeding.

No. MC 20109 Sub 1, filed November 18, 1955, J. M. TRANSPORTATION COMPANY, INC., 2927 Juniper Street, Philadelphia 48, Pa. Applicant's representative: G. Donald Bullock, Box 146, Wyncote, Pa. For authority to operate as a *common carrier*, over regular routes, transporting: *Malt beverages* and *brewed beverages, empty malt and brewed beverage containers*, and *groceries*, (1) between Philadelphia, Pa., and Swedesboro, N. J., from Philadelphia across the Delaware River to Camden, N. J., thence over New Jersey Highway 45 to Woodbury, N. J., thence over unnumbered highway to Swedesboro, and return over the same route, serving the intermediate point of Camden, N. J.; and (2) between Philadelphia, Pa., and New York, N. Y., (a) from Philadelphia across the Delaware River to Camden, N. J., thence over U. S. Highway 30 to junction unnumbered highway, thence over unnumbered highway to Hammonton, N. J., thence over unnumbered highway to junction U. S. Highway 206, thence over U. S. Highway 206 to junction U. S. Highway 130, thence over U. S. Highway 130 to junction U. S. Highway 1, thence over U. S. Highway 1 to New York; (b) from Philadelphia over U. S. Highway 1 to New York; and (c) from Philadelphia across the Delaware River to Camden, N. J., thence over U. S. Highway 130 to junction U. S. Highway 1, thence over U. S. W., Washington 6, D. C. For authority to operate as a *common carrier*, over regular routes, transporting: *Passengers and their baggage*, and *express, mail*, and *newspapers*, in the same vehicle with passengers, (1) between the Indiana-Ohio State line, near U. S. Highway 20, and the Indiana-Illinois State line, at Hammond, Ind., over the Northern Indiana East-West Toll Road, (also known as the Indiana Turnpike); (2) between junction U. S. Highway 112 and Michigan Highway 103, near White Pigeon, Mich., and the Indiana Turnpike, from junction U. S. Highway 112 and Michigan Highway 103, over Indiana Highway 103 to the Missouri-Indiana State line, thence over Indiana Highway 13 to the Indiana Turnpike; (3) between Elkhart, Ind., and the Indiana Turnpike, from Elkhart over Indiana Highway 120 to junction Indiana Highway 13, thence over Indiana Highway 13 to the Indiana Turnpike; (4) between junction U. S. Highway 20 and Indiana Highway 39 and the Indiana Turnpike, over Indiana Highway 39; (5) between junction Indiana Highway 2 and Indiana Highway 39, at La Porte, Ind., and the Indiana Turnpike, over Indiana Highway 39; and (6) between junction U. S. Highway 30 and Indiana Highway 49, near Valparaiso, Ind., and the Indiana Turnpike, over Indiana Highway 49, and return over the above routes, serving all intermediate points on the Indiana Turnpike. Applicant is authorized to conduct operations throughout the United States.

NOTE: Applicant states that it will serve all intermediate points on the Indiana Turnpike, with the right of access wherever there is an interchange with its regular routes.

No. MC 1800 Sub 22, filed November 15, 1955, ALEXANDRIA, BARCROFT & WASHINGTON TRANSPORT COMPANY, a corporation, doing business as A. B. & W. TRANSIT CO., 611 N. Royal St., Alexandria, Va. Applicant's attorney: S. Harrison Kahn, 726–34 Investment Building, Washington, D. C. For authority to operate as a *common carrier*, over regular routes, transporting: *Passengers and their baggage*, and *express, mail*, and *newspapers*, in the same vehicle with passengers, between points in Virginia as follows: (1) From junction Columbia Pike and Greenbrier Street in Arlington County, Va., over Greenbrier Street to junction 8th Road South, thence over 8th Road South to junction Carlyn Spring Road; (2) From junction 8th Road South and Carlyn Spring Road over Carlyn Spring Rroad to junction 5th Street; (3) From junction Carlyn Spring Road and 5th Street over 5th Street to junction Virginia Highway 7; (4) From junction Virginia Highway 7 and 5th Street over Virginia Highway 7 to junction Virginia Secondary Route 1078; (5) From junction Virginia Highway 7 and Virginia Secondary Route 1078 over Virginia Secondary Route 1078 to junction Virginia Highway 7; (6) From junction Virginia Secondary Route 1078 and Virginia Highway 7 over Virginia Highway 7 to junction U. S. Highway 50; (7) From junction Virginia Highway 7 and U. S. Highway 50 over U. S. Highway 50 to junction Patrick Henry Drive; and (8) from junction U. S. Highway 50 and Patrick Henry Drive over Patrick Henry Drive to junction Virginia Highway 7, and return over the above routes, serving all intermediate points. Applicant is authorized to conduct operations in Virginia and the District of Columbia.

No. MC 53686 Sub 1, filed October 19, 1955, and amended November 23, 1955, published on page 8238, issue of November 2, 1955, HARRY McCLOSKEY, 208 Warren St., Beverly, N. J. Applicant's attorney: Worth and Worth, Riverside, N. J. For authority to operate as a *common carrier*, over irregular routes, transporting: *Passengers and their baggage* in the same vehicle with passengers, in special or charter operations, from Beverly, N. J., and points within 15 miles thereof, and Philadelphia, Pa., to points in New Jersey, New York, Delaware, Maryland, and the District of Columbia, and return. Applicant is authorized to conduct operations in New Jersey, and Pennsylvania.

No. MC 58522 Sub 6, filed November 10, 1955. JOSEPH F. WENZEL, doing business as RIVER TRAILS TRANSIT LINES, 151 Locust St., Dubuque, Iowa. Applicant's attorney: Claude J. Jasper, One West Main St., Madison 3, Wis. For authority to operate as a *common*

carrier, over a regular route, transporting: *Passengers and their baggage*, and *express, mail*, and *newspapers*, in the same vehicle with passengers, between Sabula, Iowa, and Savanna, Ill., over U. S. Highway 52, serving no intermediate points, restricted to transportation of passengers who are at the time moving on railroad tickets in service which is auxiliary to, and supplemental of, rail service of the Chicago, Milwaukee, St. Paul and Pacific Railroad. Applicant is authorized to conduct operations in Iowa, and Wisconsin.

No. MC 58915 Sub 1, filed November 28, 1955. LINCOLN TRANSIT CO., INC., U. S. 46, East Paterson, N. J. Applicant's attorney: Robert E. Goldstein, 24 West 40th St., New York 18, N. Y. J., to Delaware Park, Stanton, Del., Pimlico Race Track, Baltimore, Md., Bowie Race Course, Bowie, Md., and Laurel Race Course, Laurel, Md. Applicant is authorized to conduct operations in New York and New Jersey.

CORRECTIONS

Application of DEALERS TRANSIT, INC., Chicago, Ill., published on page 8796, issue of November 30, 1955. The docket number assigned thereto MC 1405 Sub 271, was in error. The correct docket number assigned is MC 4405 Sub 271.

APPLICATIONS UNDER SECTION 5 (2) AND 210a (b)

No. MC–F 6117, published in the November 2, 1955, issue of the FEDERAL REGISTER on page 8240. Application filed November 9, 1955, for temporary authority under Section 210a (b).

No. MC–F 6141. Authority sought for control by STRICKLAND TRANSPORTATION CO., INC., 3011 Gulden Lane, Dallas, Texas, of the operating rights and property of KELLEHER MOTOR FREIGHT LINES, INC., 3130 Hall St., St. Louis, Mo., and for acquisition by L. R. Strickland, also of Dallas, of control of the operating rights and property through the transaction. Applicant's attorney: W. T. Brunson, 508 Leonhardt Bldg., Oklahoma City 2, Okla. Operating rights sought to be controlled: *General commodities*, with certain exceptions including household goods, as a *common carrier*, over regular routes, between St. Louis, Mo., and Newark, N. J., serving the intermediate points of Chicago, Ill., Cleveland, Ohio, and New York, N. Y.; *general commodities*, with exceptions as noted above, over irregular routes, from New York, N. Y., to Newburgh and Middletown, N. Y., and between points in Bergen, Essex, Hudson, Morris, Passaic, Union, Middlesex, Monmouth, Hunterdon, and Somerset Counties, N. J., on the one hand, and, on the other, New York, N. Y. STRICKLAND TRANSPORTATION CO., INC., is authorized to operate in Texas, Arkansas, Tennessee, Louisiana, Mississippi, Missouri, Illinois, and Oklahoma. Application has been filed for temporary authority under Section 210a (b).

No. MC–F 6142. Authority sought for control and merger by SPECTOR FREIGHT SYSTEM, INC., 3100 S. Wolcott St., Chicago, Ill., of the operating rights and property of BINNS TRUCKING COMPANY, INC., 338 Chestnut St., Passaic, N. J., and for acquisition by SIMON FISHER and W. STANHAUS, both of Chicago, of control of the said operating rights and property through the transaction. Applicant's attorneys: Axelrod, Goodman & Steiner, 39 S. LaSalle St., Chicago 3, Ill., Jack Rinzler, 694 Main Ave., Passaic, N. J., and Maurice P. Golden, 33 N. LaSalle St., Chicago, Ill. Operating rights sought to be controlled and merged: *General commodities*, with certain exceptions including household goods, as a *common carrier* over irregular routes, between New York, N. Y., Newark, N. J., Philadelphia, Pa., points in New Jersey within 25 miles of Newark, and those in New Jersey and Pennsylvania within 20 miles of Philadelphia. SPECTOR FREIGHT SYSTEM, INC., is authorized to operate in Missouri, Massachusetts, Indiana, Pennsylvania, New Jersey, New York, Connecticut, Rhode Island, Illinois, Maryland, Ohio, Wisconsin, Virginia, and the District of Columbia. Application has been filed for temporary authority under Section 210a (b).

No. MC–F 6143. Authority sought for control and merger by TRUCK TRANSPORT COMPANY, 8350 Dix, Detroit, Mich., of the operating rights and property of ROADWAY TRANSIT COMPANY, 3601 Wyoming, Dearborn, Mich., and for acquisition by WALTER A. RONEY, also of Detroit, of control of such operating rights and property through the transaction. Applicant's attorney: Robert A. Sullivan, 2606 Guardian Bldg., Detroit 26, Mich. Operating rights sought to be controlled and merged: *General commodities*, with certain exceptions including household goods, as a *common carrier*, over regular routes, between Detroit, Mich., and Waukegan, Ill., Niagara Falls, N. Y., and Michigan City, Ind., between Flint, Mich., and Toledo, Ohio, between Monroe, Mich., and Cambridge Junction, Mich., between Elkhart, Ind., and Toledo, Ohio, between Nappanee, Ind., and Sandusky, Ohio between Bryan, Ohio, and Columbia, Ohio, between the junction of Business Route U. S. Highway 20 and Ohio Highway 163, and Cleveland, Ohio, between Detroit, Mich., and junction U. S. Highway 23 and Michigan Highway 17, between Detroit, Mich., and the Ford Willow Run Plant, between Flint Mich., and junction U. S. Highway 24 and Michigan Highway 17, and between junction U. S. Highway 112 and Michigan 205, and Michigan City, Ind., serving certain intermediate and off-route points; two alternate routes for operating convenience only. TRUCK TRANSPORT COMPANY is authorized to operate in Michigan, Ohio, and Indiana. Application has not been filed for temporary authority under Section 210a (b).

No. MC–F 6144. Authority sought for control and merger by HOWARD VAN LINES, INCORPORATED, 1617 N. Peak St., Dallas, Texas, of the operating rights and property of McHUGO TRANSFER CO., INC., E. 111 Sprague St., Spokane, Wash., and for acquisition by GEORGE T. HOWARD, also of Dallas, of control of said operating rights and property through the transaction. Applicant's attorney: Burton K. Wheeler, Southern Bldg., 15th & H Sts., N. W., Washington 5, D. C. Operating rights sought to be controlled and merged: *General commodities*, with certain exceptions including household goods, as a *common carrier*, over irregular routes, between Spokane, Wash., and the site of the U. S. Army Air Corps Maintenance and Supply Depot at Galena, Wash.; *general commodities*, with certain exceptions not including household goods, between points within three miles of Spokane, Wash., including Spokane; *household goods*, as defined by the Commission, between points in Washington, Oregon, Idaho, and Montana, between points in Idaho, Montana, Oregon and Washington, on the one hand, and, on the other, points in California, Nevada, and Utah; *machinery, camp supplies, fencing materials, fruit, tires, paper*, and *iron culverts*, between Spokane, Wash., on the one hand, and, on the other, Portland, Oreg., and certain points in Idaho and Montana. HOWARD VAN LINES, INCORPORATED, is authorized to operate in Alabama, Arkansas, California, Colorado, Florida, Georgia, Illinois, Indiana, Kansas, Kentucky, Louisiana, Maryland, Michigan, Mississippi, Missouri, Nebraska, New Jersey, New Mexico, New York, North Carolina, Ohio, Oklahoma, Pennsylvania, South Carolina, Tennessee, Texas, Virginia, West Virginia, Wisconsin, Connecticut, Massachusetts, Rhode Island, Vermont, New Hampshire, Delaware, and the District of Columbia. Application has not been filed for temporary authority under Section 210a (b).

No. MC–F 6145. Authority sought for purchase by V. D. MORGAN VAN SERVICE & STORAGE CO., 819 W. Main St., Louisville 2, Ky., of the operating rights and property of A. R. MORGAN and V. D. MORGAN, doing business as V. D. MORGAN VAN SERVICE & STORAGE COMPANY, 819 W. Main St., Louisville 2, Ky., and for acquisition by V. D. MORGAN, also of Louisville, of control of such rights and property through the purchase. Applicants' attorney: Hubert T. Willis, 501 S. 2nd St., Louisville 2, Ky. Operating rights sought to be transferred: *Household goods*, as defined by the Commission, as a *common carrier*, over irregular routes, between points in Jefferson County, Ky., on the one hand, and, on the other, points in Indiana on and south of U. S. Highway 40. Vandee holds no authority from the Commission, but its controlling stockholder is affiliated with UNITED VAN LINES, INC., which is authorized to operate in all states in the United States, and the District of Columbia. Application has not been filed for temporary authority under Section 210a(b).

No. MC–F 6146. Authority sought for purchase by IRVING KIRSCH CORPORATION, 2011 N. 30th St., Milwaukee, Wis., of the operating rights and property of IRVING A. KIRSCH, IRMA KIRSCH, EXECUTRIX, 2011 N. 30th St., Milwaukee, Wis., and for acquisition by IRVING A. KIRSCH, IRMA KIRSCH, EXECUTRIX, also of Milwaukee, of control of the operating rights and property through the purchase. Person to whom correspondence should be addressed: Clarence Eberl, President, Irving Kirsch Corporation, 2011 N. 30th St., Milwaukee 8, Wis. Operating rights sought to be transferred: *Household goods*, as defined by the Commission, as a *common carrier*, over irregular routes, between Milwaukee, Wis., and points within ten miles of Milwaukee, on the one hand, and, on the other, points in Indiana, Illinois, Iowa, and Minnesota. Vendee holds no authority from the Commission, but its controlling stockholder is affiliated with NORTH AMERICAN VAN LINES, INC., which is authorized to operate in all states in the United States and the District of Columbia. Application has not been filed for temporary authority under Section 210a (b).

No. MC–F 6147. Authority sought for purchase by DENVER-CHICAGO TRUCKING COMPANY, INC., 2501 Blake St., Denver, Colo., of the operating rights of BOULDER TRUCK SERVICE, INC., 1420–33rd St., Denver, Colo., and for acquisition by GEORGE J. KOLOWICH, DETROIT AND CLEVELAND NAVIGATION COMPANY, GRISWOLD BUILDING, INC., and WHITTIER CORPORATION, all of Detroit, Mich., and GEORGE J. KOLOWICH, JR., of Denver, Colo., of control of such operating rights through the purchase. Applicants' attorneys: Axelrod, Goodman & Steiner, 39 S. LaSalle St., Chicago, Ill. Operating rights sought to be transferred: *General commodities*, with certain exceptions including household goods, as a *common carrier*, over irregular routes, between Boulder, Colo., and points within 50 miles thereof, on the one hand, and, on the other, points in Colorado. Vendee is authorized to operate in Colorado, Washington, Wyoming, Utah, Idaho, Oregon, Illinois, Missouri, Kansas, Arizona, California, New Mexico, New York, Massachusetts, Indiana, Connecticut, New Jersey, Pennsylvania, Ohio, and Nebraska. Application has not been filed for temporary authority under Section 210a (b).

NO. MC–F 6148. Authority sought for control and merger by LATTAVO BROTHERS, INC., 1620 Cleveland, Ave., S. W., Canton, Ohio, of the operating rights and property of IRON & STEEL TRANSPORT, INC., 2001 Shepler Church Road, S. W., Canton, Ohio, and for acquisition by O. M. LATTAVO and A. P. LATTAVO, both of Canton, of control of such operating rights and property through the transaction. Applicant's attorney: Noel F. George, 44 E. Broad St., Columbus 15, Ohio. Operating rights sought to be controlled and merged: *Malt beverages, iron and steel, iron and steel articles, conductor pipe, downspouting, brick and other clay building materials, motors, machinery*, and *machinery parts*, as a *common carrier*, over irregular routes, from, to, and between certain points in Indiana, Ohio, Pennsylvania, New York, Illinois, West Virginia, and Michigan. LATTAVO BROTHERS, INC., is authorized to operate in Pennsylvania, Ohio, and West Virginia. Application has not been filed for temporary authority under Section 210 (b).

By the Commission.

Chapter I—Federal Trade Commission

[Docket 6384]

PART 13—DIGEST OF CEASE AND DESIST ORDERS

NOVEL MFG. & DISTRIBUTING CO., INC., ET AL.

Subpart—*Advertising falsely or misleadingly:* § 13.125 *Limited offers or supply;* § 13.135 *Nature:* Product or service; § 13.155 *Prices:* Usual as reduced, special, etc. Subpart—*Misrepresenting oneself and goods*—Goods: § 13.1685 Nature: [*Misrepresenting oneself and goods*]—Prices: § 13.1825 *Usual as reduced or to be increased.* Subpart—*Offering unfair, improper and deceptive inducements to purchase or deal:* § 13.2000 *Limited offers or supply.*

(Sec. 6, 38 Stat. 721; 15 U. S. C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended; 15 U. S. C. 45) [Cease and desist order, Novel Mfg. & Distributing Co., Inc., et al., New York, N. Y., Docket 6384, November 23, 1955]

In the Matter of Novel Mfg. & Distributing Co., Inc., a Corporation; and Sam Weitz and Richard Weith, Individually and as Officers of Said Corporation; and Russell Weith, Individually and as General Manager of Said Corporation

This proceeding was heard by Everett F. Haycraft, hearing examiner, upon the complaint of the Commission—which charged respondent corporation and its officers with advertising falsely in newspapers and other publications that its floral centerpiece known as the "Garden Under Glass" contained natural flowers, that its offer to sell the product at designated prices was for a limited time, and that the prices at which it was offered for sale were reduced—and an agreement between the parties providing for the entry of a consent order in accordance with § 3.25 of the Commission's rules of practice.

Upon this basis, the hearing examiner made his initial decision and order to cease and desist, which by the Commission's order of November 23, 1955, became, pursuant to § 3.21 of the rules of practice, the "Decision of the Commission".

The order to cease and desist is as follows:

It is ordered, That respondents Novel Mfg. & Distributing Co., Inc., a corporation, and its officers, and Sam Weitz and Richard Weith, individually and as officers of said corporation, and Russell Weith, individually and as general manager of said corporation, and respondents' representatives, agents and employees, directly or through any corporate or other device, in connection with the offering for sale, sale or distribution in commerce, as "commerce" is defined in the Federal Trade Commission Act, of a so-called floral centerpiece designated as the "Garden Under Glass," or by any other name or names, or any other merchandise, do forthwith cease and desist from representing, directly or by implication:

1. That any flowers which they sell or offer for sale are natural flowers unless such is the fact.

2. That offers to sell merchandise at designated prices are limited as to time when they are continuous offers.

3. That the usual and customary price of any merchandise is in excess of the price at which said merchandise is regularly and customarily sold in the normal course of business.

By said "Decision of the Commission", report of compliance was required as follows:

It is ordered, That the respondents herein shall within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with the order to cease and desist.

Issued: November 23, 1955.

By the Commission.

TITLE 32A—NATIONAL DEFENSE, APPENDIX

Chapter VI—Business and Defense Services Administration, Department of Commerce

[BDSA Order M–107, Amdt. 1 of December 6, 1955]

M–107—TITANIUM MILL PRODUCTS

LEAD TIME FOR REQUIRED ACCEPTANCE OF RATED ORDERS

This amendment is found necessary and appropriate to promote the national defense and is issued pursuant to the Defense Production Act of 1950, as amended. In the formulation of this amendment, there was consultation with industry representatives, including trade association representatives, and consideration was given to their recommendations.

This amendment affects BDSA Order M–107 by further limiting required acceptance of rated orders for titanium mill products to orders which are received not less than 3 months prior to the first day of the month in which delivery is requested.

Section 4 of BDSA Order M–107 is hereby amended to read as follows:

SEC. 4. *Limitations on required acceptance of rated orders.* (a) Unless specifically directed by BDSA, no producer of titanium mill products shall be required to accept rated orders calling for delivery during any calendar month, commencing with the month of June 1954, of an aggregate quantity of titanium mill products by weight which exceeds 90 percent of his scheduled production of such products for that calendar month: *Provided, however,* That no producer shall cancel or postpone delivery of any rated orders already accepted because such orders exceed 90 percent of his scheduled production for that month.

(b) Unless specifically directed by BDSA, a producer of titanium mill products need not accept a rated order which he receives less than 3 months prior to the first day of the month in which delivery is requested.

(64 Stat. 816, as amended; Pub. Law 295, 84th Cong.; 50 U. S. C. App. 2158)

This amendment shall take effect December 6, 1955.

BUSINESS AND DEFENSE SERVICES ADMINISTRATION,
GEORGE W. AUXIER,
Executive Secretary.

TITLE 20—EMPLOYEES' BENEFITS

Chapter II—Railroad Retirement Board

PART 345—EMPLOYERS' CONTRIBUTIONS AND CONTRIBUTION REPORTS

EMPLOYERS' CONTRIBUTION REPORTS

Pursuant to the general authority contained in section 12 of the act of June 25, 1938 (52 Stat. 1094, 1107; 45 U. S. C. 362) § 345.5 (a) (2) of the Regulations under such act (4 F. R. 4370; 12 F. R. 2327; 17 F. R. 2303) is amended by Board Order 55–325 dated November 21, 1955, to read as follows:

§ 345.5 *Employers' contribution reports*—(a) *General.* • • •

(2) (i) If an employer was covered by the Act during an entire calendar year, and if the creditable compensation reported during such year, multiplied by the contribution rate for the following year produces an amount of less than $100, the employer may elect to make a single contribution report for such following year.

(ii) Except as otherwise provided by agreement with the Board, each employer is required to file a separate contribution report, and consolidated contribution reports of parent and subsidiary corporations are not permitted.

(iii) Contribution reports of employers who are required by State laws to pay compensation on a weekly basis shall include with respect to such compensation all pay roll weeks in which all or the major part of the compensation falls within the period for which the reports are required.

(Sec. 12, 52 Stat. 1107, as amended; 45 U. S. C. 362)

Dated: December 1, 1955.

By authority of the Board.

MARY B. LINKINS,
Secretary of the Board.

TITLE 35—PANAMA CANAL

Chapter I—Canal Zone Regulations

PART 4—OPERATION AND NAVIGATION OF PANAMA CANAL AND ADJACENT WATERS

PASSENGER STEAMERS GIVEN PREFERENCE IN TRANSITING

Pursuant to the authority vested in the Governor by section 4.7 of Title 35, Code of Federal Regulations, as adopted by Canal Zone Order 30, January 6, 1953 (18 F. R. 280), § 4.8 is amended to read as follows:

§ 4.8 *Passenger steamers given preference in transiting.* Regular passenger steamers with accommodations for 50 or more passengers, when carrying mail and running on fixed published schedules, will, to the extent consistent with efficient operation of the Canal, as determined by the Marine Director, be given preference over other vessels in transiting regardless of the number of passengers actually on board. However, as between vessels of this class, special consideration will be given to those vessels which are actually ready for transit at regular fixed hours.

(Sec. 5, 37 Stat. 562, as amended; 2 C. Z. Code 9, 48 U. S. C. 1318. E. O. 9746, 11 F. R. 7329, 3 CFR, 1946 Supp.)

Issued at Balboa Heights, Canal Zone, November 28, 1955.

[SEAL] J. S. SEYBOLD,
Governor.

[F. R. Doc. 55–9855; Filed, Dec. 7, 1955; 8:48 a. m.]

TITLE 43—PUBLIC LANDS: INTERIOR

Chapter I—Bureau of Land Management, Department of the Interior

[Circular 1945]

PART 192—OIL AND GAS LEASES

LEASING OF WILDLIFE REFUGE LANDS

Section 192.9 is amended to read as follows:

§ 192.9 *Leasing of wildlife refuge lands.* (a) Geological and geophysical prospecting permits may be issued by the Fish and Wildlife Service on areas subject to its jurisdiction prior to leasing under such terms and conditions as that Service may prescribe.

(b) (1) Areas determined to be indispensable for the preservation of rare or endangered species, remnant big-game herds, and irreplaceable examples of unique animal or plant ecology are not available for leasing. Areas in this category at present are included in Appendix A. Oil and gas leases may be issued for other lands administered by the Fish and Wildlife Service for wildlife conservation, except that; on those areas designated by the Fish and Wildlife Service as wilderness, recreational, water development, or marsh, with respect to which the Fish and Wildlife Service reports that oil and gas development might seriously impair or destroy the usefulness of the lands for wildlife conservation purposes, no leases will be issued unless a complete and detailed operating program for the area, which will insure full protection of the particular values for which established, is approved by the Director, Fish and Wildlife Service. All pending applications on such excepted wilderness, recreational, water development, and marsh areas will be rejected unless within 6 months the applicant files an operating program sufficient to accomplish these purposes. Areas in this category are listed in Appendix B.

(2) The following conditions shall be expressed in any lease issued under this section:

(i) Geological and geophysical prospecting conducted on the leased premises shall be of a type and at a time satisfactory to the Fish and Wildlife Service.

(ii) No drilling operations shall be conducted under the lease until such lease has been committed to an approved unit plan. However, the Secretary may, in his discretion, permit or require drilling if he determines that a unit plan including the leased area cannot be secured and that drilling is necessary to protect the interests of the United States.

(a) A unit agreement which includes lands administered for wildlife conservation shall contain a provision that no drilling operations may be conducted on the unitized portion of the Government-leased lands administered for wildlife conservation without the consent and approval of the Fish and Wildlife Service as to the time, place, and nature of such operations.

(b) In every instance, a plan of development which includes lands administered for wildlife conservation shall not be approved without the concurrence of the Fish and Wildlife Service.

(iii) Lessees shall observe and comply with all State and Federal laws and regulations relating to wildlife and shall take such action as is necessary to assure observance and compliance with these laws and regulations by lessees, employees and agents.

(Sec. 32, 41 Stat. 450; 30 U. S. C. 189)

DOUGLAS MCKAY,
Secretary of the Interior.

APPENDIX A—FISH AND WILDLIFE SERVICE LANDS NOT AVAILABLE FOR LEASING

Alaska:
Certain of the Aleutian Islands.
Georgia:
Okefenokee.
Hawaii: [1]
Certain of the Hawaiian Islands.
Maryland:
Patuxent.
Montana:
National Bison Range.
Red Rock Lakes.
Nebraska:
Fort Niobrara.
North Dakota:
Sullys Hill.
Oklahoma:
Wichita Mountains.
Texas:
Aransas.
Santa Ana.
Wyoming:
National Elk.

APPENDIX B—FISH AND WILDLIFE SERVICE LANDS AVAILABLE FOR LEASING UNDER A SATISFACTORY DEVELOPMENT AND OPERATING PLAN

Alabama:
Petit Bois (see also Mississippi).
Wheeler.
Alaska:
Chamisso.
Hazen Bay.
Hazy Island.
Kenai: The following areas and all lands within one mile of Tustemena Lake, Skilak Lake, Kenai River, Upper and Lower Russian Lake and River Hidden Lake, Kasilof River, and Chickaloon Flats.
Pribilof Islands.
St. Lazaria.
Semidi.
Arizona:
Cabeza Prieta Game Range.
Havasu Lake (see also California).
Imperial (see also California).
Kofa Game Range: All Range lands in T. 1 N., Rs. 15–18 W.; T. 2 N., Rs. 16 & 17 W.; T. 1 S., Rs. 15–18 W.; T. 2 S., Rs. 15–19 W.; T 3 S, Rs 15, 18, & 19 W.; T. 4 S., R. 17 West ½; T. 5 S., Rs. 17 & 18 W.; T. 4 S., R. 18 W.

[1] The regulations in 43 CFR, Part 192 do not apply to the Territory of Hawaii.

Arkansas:
Big Lake.
White River.
California:
Clear Lake.
Colusa.
Farallon.
Havasu Lake (see also Arizona).
Imperial (see also Arizona).
Lower Klamath (see also Oregon).
Sacramento.
Salton Sea.
Sutter.
Tule Lake.
Colorado:
Monte Vista:
Delaware:
Bombay Hook.
Killcohook (see also New Jersey).
Florida:
Anclote.
Brevard.
Cedar Keys.
Chassahowitzka.
Chinsegut.
Great White Heron.
Key West.
Loxahatchee.
Passage Key.
Pelican Island.
Pinellas.
Sanibel.
St. Marks: All refuge lands in Ts. 4 and 5 S., Rs. 1, 2, and 3 E., T. M., and refuge lands in the Hartsfield Survey.
Georgia:
Blackbeard Island.
Savannah (see also South Carolina).
Tybee.
Wolf Island.
Idaho:
Camas.
Deer Flat.
Minidoka.
Snake River.
Illinois:
Chautauqua.
Crab Orchard.
Lands made available by the Corps of Engineers on the Mississippi River between Rock Island and Alton, Illinois (see also Iowa and Missouri).
Upper Mississippi River Wild Life and Fish Refuge (see also Iowa, Minnesota, and Wisconsin).
Iowa:
Lands made available by the Corps of Engineers on the Mississippi River between Rock Island and Alton, Illinois (see also Illinois and Missouri).
Union Slough.
Upper Mississippi River Wild Life and Fish Refuge (see also Illinois, Minnesota, and Wisconsin).
Kansas:
Kirwin Wildlife Management Area.
Kentucky:
Kentucky Woodlands.
Louisiana:
Lacassine.
Shell Keys.
Maine:
Widow's Island.
Maryland:
Blackwater.
Chincoteague (see also Virginia).
Glenn Martin.
Massachusetts:
Great Meadows.
Monomoy.
Parker River.
Michigan:
Huron.
Michigan Islands.
Seney.
Shiawassee.
Minnesota:
Beltrami Wildlife Management Area.
Mille Lacs.
Mud Lake.
Rice Lake.
Tamarac.
Talcot.
Upper Mississippi River Wild Life and Fish Refuge (see also Illinois, Iowa, and Wisconsin).
Mississippi:
Noxubee: All refuge lands in the following subdivisions: T. 17 N., R. 13 E., secs. 13, 14, 23, 24, 25, 26, and 36; T. 16 N., R. 14 E., secs. 1–4, 9–15, and 21–24; T. 17 N., R. 14 E., secs. 31–35; T. 16 N., R. 15 E., secs. 4–8 and 16–21.
Petit Bois (see also Alabama).
Missouri:
Mingo.
Lands made available by the Corps of Engineers on the Mississippi River between Rock Island and Alton, Illinois.
Missouri Wildlife Management Area.
Squaw Creek.
Swan Lake.
Montana:
Benton Lake.
Bowdoin.
Medicine Lake: All refuge lands in the following subdivisions: T. 30 N., R. 55 E., all; T. 31 N., Rs. 55 and 56 E., all; T. 31 N., R. 57 E., secs. 3–7, inclusive, all; Sec. 8, N½ and SW¼; Sec. 9, W½ NW¼; Sec. 18, N½NE¼, NW¼, N½ SW¼; T. 32 N., Rs. 55, 56, 57, 58 E., all.
Nine-Pipe.
Pablo.
Pishkun.
Willow Creek.
Nebraska:
Crescent Lake: All refuge lands in the following subdivisions: T. 20 N., R. 44 W., secs. 2–7, inclusive, 9, 10, 11, and 18, all; T. 21 N., Rs. 44 and 45 W., all.
North Platte.
Valentine: All refuge lands in the following subdivisions: T. 28 N., R. 27 W., secs. 3–8, inclusive; T. 28 N., R. 28 W., secs. 1 and 12; Ts. 29 and 30 N., Rs. 27, 28, and 29 W., all.
Nevada:
Anaho Island.
Desert Game Refuge: All Range lands in the following subdivisions: Ts. 9–14 S., Rs. 54–62 E., all; T. 15 S., Rs. 56–62 E., all; T. 16 S., Rs. 56, 57, and 58 E., Secs. 1–6, inclusive; Ts. 16 and 17 S., Rs. 59–62 E., inclusive, all; T. 18 S., Rs. 60, 61, and 62 E., all; also all lands above 6,000' elevation in the following area: T. 17 S., Rs. 54 and 55 E.; Ts. 18 and 19 S., Rs. 54, 55, and 56 E.; T. 20 S., Rs. 55, 56, 57, and 58 E.; T. 21 S., Rs. 56, 57, and 58 E.
Sheldon National Antelope Refuge.
Stillwater National Wildlife Management Area.
Stillwater National Wildlife Refuge.
New Jersey:
Brigantine.
Killcohook (see also Delaware).
New Mexico:
Bitter Lake: All of the lands of the refuge west of the Pecos River in the following area: T. 9 S., R. 25 E., secs. 14, 15, 21, 22, 23, 26, 27, 28, 32, 33, 34, and 35; T. 10 S., R. 25 E., secs. 3, 4, 5, 8, 9, 10, 11, 14, 15, 16, 20, 21, 22, 28, and 29.
Bosque del Apache: All refuge lands between the East Side Road and the proposed right-of-way for U. S. Highway No. 85.
New York:
Montezuma.
New York Wildlife Management Area.
Elizabeth Tilton.
Wertheim.
North Carolina:
Mattamuskeet.
Pea Island.
Swanquarter.
North Dakota:
Ardoch.
Arrowwood.
Chase Lake.
Des Lacs.
Lake Ilo.
Kellys Slough.
Lake Zahl.
Long Lake.
Lostwood.
Lower Souris: All refuge lands north of the line common to Townships 158 and 159 North.
Slade.
Stump Lake.
Tewaukon.
Theodore Roosevelt.
Upper Souris.
Ohio:
West Sister Island.
Oklahoma:
Salt Plains.
Oregon:
Cape Meares.
Cold Springs.
Lower Klamath (see also California).
Malheur.
McKay Creek.
Oregon Islands.
Three Arch Rocks.
Upper Klamath.
Puerto Rico:[1]
Culebra.
South Carolina:
Cape Romain.
Santee.
Savannah (see also Georgia).
South Dakota:
Bear Buttee.
Belle Fourche.
Lacreek.
Lake Andes.
Sand Lake.
Waubay.
Tennessee:
Lake Isom.
Reelfoot.
Tennessee.
Texas:
Laguna Atascosa.
Muleshoe.
Utah:
Bear River Migratory Bird Refuge.
Locomotive Springs.
Vermont:
Missisquoi.
Virginia:
Back Bay.
Chincoteague (see also Maryland).
Presquile.
Washington:
Columbia.
Copalis.
Dungeness.
Flattery Rocks.
Jones Island.
Lenore Lake.
Matia Island.
Quillayute Needles.
Smith Island.
Turnbull.
Skagit.
Willapa.
Wisconsin:
Gravel Island.
Green Bay.
Horicon.
Long Tail Point.
Necedah.
Necedah Wildlife Management Area.
Upper Mississippi River Wild Life and Fish Refuge (see also Iowa, Illinois, and Minnesota).
Wyoming:
Hutton Lake.
Pathfinder: All refuge lands in Townships 29 and 30 N., R. 85 W.

[1] The regulations in 43 CFR Part 192 do not apply to Puerto Rico.

TITLE 47—TELECOMMUNICATION

Chapter I—Federal Communications Commission

[Docket No. 11194; FCC 55-1196]

[Rules Amdt. 3-2]

PART 3—RADIO BROADCAST SERVICES

TELEVISION BROADCAST STATIONS; TABLE OF ASSIGNMENTS

In the Matter of amendment of § 3.606 *Table of assignments*, rules governing Television Broadcast Stations.

1. The Commission has under consideration its Notice of Proposed Rule Making issued in this proceeding on October 7, 1954 (FCC 54-1270), and published in the FEDERAL REGISTER on October 13, 1954 (19 F. R. 6587), proposing to assign Channel 9 to either Blossburg, Pennsylvania, or Elmira, New York, in response to petitions filed by Williamsport Radio Broadcasting Associates, Inc., and John S. Both and Thompson K. Cassel, d/b as Elmira Television, respectively.

2. Comments have been filed by Elmira Television, Williamsport Radio Broadcasting Associates, Inc., Sunbury Broadcasting Corporation, WBRE-TV, Inc., Wyoming Valley Broadcasting Company, Scranton Broadcasters, Inc., Copper City Broadcasting Corporation, Lock Haven Broadcasting Corporation, Southern Tier Radio Service, Inc. The contentions of the parties are discussed below.

3. There is a small area in North Central Pennsylvania and South Central New York where Channel 9 may be assigned in accordance with the Commission's minimum separation requirements. Elmira Television requests that we assign Channel 9 to Elmira, New York, and the mutually exclusive request of Williamsport Radio Broadcasting Associates, Inc., seeks Channel 9 for Blossburg, Pennsylvania. Elmira has a population of 49,716 persons and has been assigned UHF Channels 18 and 24. Elmira Television is authorized to operate Station WTVE on Channel 24, but has not been in operation since the fall of 1954 when its antenna was destroyed by Hurricane "Hazel". A station authorized to operate on Channel 18 surrendered its construction permit in September, 1954. Two competing applications for Channel 18 are now pending. Blossburg, a community of 1,933 persons, has no television assignments. Williamsport, the community which Williamsport Radio proposes to serve from Channel 9 in Blossburg, is assigned UHF Channel 36. Station WRAK-TV has been authorized to operate on Channel 36 in Williamsport but is not yet in operation. The assignment of Channel 9 to Elmira or to Blossburg can be accomplished without making any other changes in the Table of Assignments, except for changes in the offset requirements for Channel 9 at Washington, D. C. (WTOP-TV) and Greenville, North Carolina (WNCT).[1]

[1] In a letter dated October 28, 1954, WNCT has informed the Commission that it "has no comments to add to the proposal to change to a minus nine channel."

4. In support of its request Elmira Television urges that assignment of Channel 9 to Elmira would conform to the Commission's rules and will not require any deletions or substitutions of channels in any community. It further urges that the total population of Elmira and the villages immediately surrounding it is 62,164 as compared to a population of 1,954 for the borough of Blossburg which has no other cities, towns or villages in the immediate vicinity—a ratio of approximately 32 to 1. Similarly, it is contended that the population of the the cities and towns over 2,500 within the proposed Grade A contour, a radius of 46 miles from Elmira, amounts to 221,871 and that there are only 188,899 persons within a radius of 46 miles of Blossburg. Elmira Television also contends that the total population of towns within 63.5 miles of Elmira, the proposed Grade B contour, is 357,569 as compared to 318,761 within 63.5 miles of Blossburg. It is therefore, contended that the assignment of Channel 9 to Elmira would provide a more fair, efficient and economical distribution of service among the several states and communities as required by Section 307 of the Communications Act. Elmira Television also points out that Elmira is by far the largest city in the area in which Channel 9 may be employed in this section of the United States and therefore under the principles set forth in previous rule making proceedings Channel 9 must be assigned to Elmira. It is also contended that in light of the distance and terrain involved, the assignment of Channel 9 to Blossburg would not provide a satisfactory signal to Williamsport and hence would not accomplish the stated objective of Williamsport Radio's proposal.

5. In order to remove the conflict between the two requests, Elmira Television suggests that either Channel 11 or Channel 13 could be assigned to the Blossburg area. It states that Channel 11 could be assigned without making any other changes in the table and that Channel 13 could be assigned to the town of Mansfield, Pennsylvania, located about 10 miles north of Blossburg, by making the following changes in the table.

City	Channel No.	
	Delete	Add
Utica-Rome, N. Y.	13	11
Kingston, Ontario, Canada	11	13
Pembroke, Ontario, Canada	13	11

Station WKTV operates on Channel 13 at Utica, and an authorization has been issued for a station on Channel 11 at Kingston, Ontario.

6. Elmira Television further proposes that Channel 24, presently assigned to Elmira, be shifted to Lock Haven, Pennsylvania, and that the Commission Order Elmira Television to Show Cause why its authorization should not be modified to specify operation on Channel 9 in lieu of Channel 24. Elmira submits that it has conferred with Lock Haven Broadcasting Corporation and has agreed that, in the event Channel 9 is authorized to Elmira Television, and Channel 24 is shifted to Lock Haven, its UHF equipment would be made available to Lock Haven. The agreement also contemplates the operation of a station on Channel 24 at Lock Haven as a "satellite" of Station WTVE and provides that Lock Haven will initiate action to acquire the 10,000 converters now in use in the Elmira area. In order to assign Channel 24 to Lock Haven by deleting it from Elmira, it is suggested that Channel 32 be deleted from Lock Haven, that Channel 45 be substituted for Channel 38 at Sunbury, Pennsylvania, and that Channel 60 be substituted for Channel 24 at Baltimore, Maryland.

7. Lock Haven supports the assignment of Channel 9 to Elmira and opposes its assignment to Blossburg. Lock Haven further supports the request of Elmira for a Show Cause Order and the other amendments necessary to make the assignment of Channel 24 feasible in Lock Haven. Sunbury Broadcasting Corporation opposes this phase of the request, urging that it has expended considerable time and money in connection with an application it plans to file for Channel 38 at Sunbury (BPCT-1934, filed December 21, 1954) and opposes the request of Lock Haven for the substitution of Channel 45 for 38 at that city. Sunbury urges that the public interest would not be served by the Lock Haven proposal since there would be no stability in the assignment table if channels were changed at random to serve the private interest of parties.

8. In support of its request to assign Channel 9 to Blossburg, Williamsport Radio urges that since there are no assignments presently in Blossburg, Channel 9 in that community would not create an intermixture problem. Williamsport argues that, on the other hand, since there are two UHF assignments already in Elmira, the assignment of Channel 9 to that city would create such intermixture and could result in the substitution of one VHF service for two possible UHF services. Williamsport Radio submits that the assignment to Blossburg would constitute a more fair and equitable distribution of available facilities since Pennsylvania—excluding Philadelphia—has 1,500,000 more persons than New York—excluding New York City—it has five fewer VHF assignments. Williamsport notes that one of the Commission's objectives in assigning VHF channels is to obtain the broadest possible distribution and that Channel 9 would be further removed from any existing VHF assignment at Blossburg than at Elmira. Williamsport Radio also urges that, assuming operation with 100 kw at 500 feet antenna height, operation at Blossburg would provide a first service to a greater area and population.

9. Elmira Television argues that if the objective of Williamsport Radio is to bring a first television service to Williamsport, the proposed assignment of a channel to Blossburg, a small community of only 1,954 people, would violate good assignment principles since satisfactory service could not be provided to Williamsport and since the Rules require that the main studio of a station be located in the principal community to be served. Elmira Television argues,

further, that virtually all of the "white area" referred to by Williamsport Radio would be served by an operation at Elmira with maximum power and height. In its reply Williamsport Radio submits that assignments of VHF channels have been made to small communities; that need for a first service is greater in Blossburg than need for a third service in Elmira; that no showing of paramount public interest has been made by Elmira Television for a Show Cause Order; that the request of Lock Haven is predicated upon a grant of the assignment of Channel 9 for use by Elmira Television and is without merit; and that, even assuming the use of maximum facilities, a station at Blossburg would provide more of a first VHF service than would one at Elmira. With respect to the proposed assignment of Channel 11 to the Blossburg area in order to remove the conflict, Williamsport Radio points out that the area in which Channel 11 can be assigned is a very small one in which there are no communities and lies closer to Elmira than to Williamsport. This area, about one-half square mile, is situated about 7 miles north of Blossburg and 38 miles from Williamsport. Williamsport Radio further points out that the elevation in the area in question is lower than the surrounding terrain and that a station located there may not provide a satisfactory service to Williamsport. With respect to the proposed assignment of Channel 13 to Mansfield, Williamsport Radio points out that such an assignment would require a change in the channel assignment of one existing United States station and also changes in two Canadian assignments, on one of which there is an outstanding construction permit.

10. WBRE–TV, Inc., permittee of Station WBRE–TV on Channel 28 at Wilkes-Barre, Pennsylvania; Wyoming Valley Broadcasting Company, permittee of Station WILK–TV on Channel 34 at Wilkes-Barre, and Scranton Broadcasters, Inc., permittee of Station WGBI–TV on Channel 22 at Scranton, Pennsylvania, filed a joint comment opposing the proposals of both Elmira and Williamsport Radio. These parties urge that the North Central and North Eastern sections of Pennsylvania and the South Central portion of New York are predominantly UHF areas since only WNBF–TV in Binghamton operates on the sole VHF channel assignment in the area; that they have expended large sums of money in developing the UHF market in the Wilkes-Barre-Scranton area; that the proposed assignment of Channel 9 to either Blossburg or Elmira would create an intermixture of VHF and UHF signals in portions of their present service areas; that UHF cannot effectively compete with VHF; and that this would adversely affect not only the stations of the parties but UHF assignments in other communities and would reduce the number of local stations providing service to the viewing public. These parties request that an oral hearing be held on this matter. Southern Tier Radio Service, Inc., permittee of Station WINR–TV authorized to operate on Channel 40 in Binghamton, opposes the assignment of Channel 9 to Elmira, asserting that it has incurred expenses in excess of $50,000 in the prosecution of its application; that it proposes to bring a second service to the Binghamton area; that the assignment of Channel 9 would have an adverse effect on its UHF station since a VHF station in Elmira would place a Grade B service over the entire Binghamton metropolitan area; that experience has shown that a UHF station cannot survive the competition from two VHF stations in the same area; and that it would tend to discourage the development of UHF in many communities and result in a lesser number of competitive services.

11. In reply to the comments of the UHF permittees, Elmira Television and Williamsport Radio submit that the proposed assignments would increase the VHF service in the service areas of the stations involved by only a negligible amount; that Binghamton is already an intermixed area in view of the operation of a station on Channel 12 in that city and the VHF signals which are received in the area from Syracuse; and that intermixture is an integral part of the assignment plan. Elmira Television opposes the request of these parties for oral hearing, contending that it would serve no useful purpose and would merely delay a final decision in this matter.

12. Copper City Broadcasting Corporation, licensee of Station WKTV on Channel 13 at Utica, New York opposes the proposal of Elmira Television for the assignment of Channel 13 to Mansfield, Pennsylvania, which would require Station WKTV to shift from Channel 13 to Channel 11. Copper City urges that it has provided the only television service to Utica for five years; that the proposed change would cost about $26,000; that it would cost the public about $860,000 to make adjustments or changes in antenna installations; that it would require the station to be off the air for about a two-week period; and that it has expended over $200,000 in promotion and publicity for the operation of the station on Channel 13. Copper City also requests a hearing or oral argument in the instant matter.

13. We are faced in this proceeding with two mutually exclusive proposals: One seeks the assignment of Channel 9 to Elmira, a city of some 50,000 persons; the other requests the assignment of this channel to Blossburg, a community of some 2,000 persons. In either case, Channel 9 would represent the first VHF assignment in the community and could be accomplished in accordance with the Commission's minimum mileage requirements. No channels have been assigned to Blossburg, and while there are two UHF assignments at Elmira, there are no stations presently on the air in that city.

14. UHF permittees in Wilkes-Barre, Scranton and Binghamton oppose the assignment of a VHF channel in either Elmira or Blossburg. We have carefully considered the contentions of the UHF broadcasters opposing the VHF assignment. As we pointed out in the Report and Order adopted November 10, 1955, in which we added a new channel assignment to Vail Mills, New York, the Commission does not believe that it would be in the public interest to withhold valuable frequencies, for which active demand is indicated, when channels can be added to the present Table of Assignments without violating the established minimum separations or other existing television standards, or otherwise departing from the basic structure of the present television allocations plan. While the Commission has, on November 10, 1955, initiated a rule making proceeding to consider proposals for nationwide revision of the present television assignments and standards, we do not believe it would be either justifiable or desirable, pending the outcome of that proceeding, to block the potential expansion of television services in a situation such as this, where a new assignment can be added to the present Table in complete conformity with all existing requirements. Channel 9 is available for assignment under our Rules in the Elmira-Blossburg area. We believe the record in this proceeding supports the assignment of a VHF channel in the area and the public interest, in our view, would be served by the addition.

15. Having determined that the assignment of Channel 9 in the Elmira-Blossburg area would serve the public interest, we must next decide to which community the channel should be assigned since the requests before us are mutually exclusive. Upon our consideration of the record before us, we have determined that the assignment of Channel 9 to Elmira is to be preferred. The need for this assignment in Elmira, in our view, outweighs the comparative need for this frequency in Blossburg. We are not unmindful in reaching this result of the stated objective of Williamsport Radio in seeking Channel 9 for Blossburg to afford a first VHF service to Williamsport, a city of some 45,000 persons. Nevertheless, Channel 9 cannot, under our mileage separation requirements, be assigned to Williamsport directly, and Blossburg is approximately 30 miles distant from Williamsport.

16. While we have determined that Channel 9 should be assigned to Elmira, we are of the view that this assignment should be made available for application by any interested party, and that Elmira Television's request for the issuance of a Show Cause Order to it to enable Station WTVE to operate on this assignment should be rejected. Since the request and counterproposal of Lock Haven relative to shifting Channel 24 to Lock Haven and changing channel assignments at Baltimore and Sunbury are premised upon a grant of a Show Cause Order to Elmira Television, which we have not issued, there is no need to consider its proposals further.

17. We believe Elmira Television's proposals to remove the conflict involving Channel 9 by assigning either Channel 11 or 13 to the area near Blossburg are without merit. Channel 11 may be assigned in a very small area containing no community of any size, with such terrain and at such a distance as to make it infeasible as a location for operation of a television station to serve Williamsport. To assign Channel 13 to Mansfield, changes would be necessitated in the assignment of an existing United States station and two Canadian assignments. The Commission is of the view that such changes may be justified only upon a clear showing that the public interest would be served thereby. No such showing has been made here. Further, the assignment of Channel 13 to Mansfield presents some of the drawbacks which we found in the Channel 11 proposal.

18. Nor do we see any necessity for the holding of an oral hearing or oral argument, as requested by WBRE-TV, Inc., Wyoming Valley Broadcasting Company and Scranton Broadcasters, Inc. Adequate opportunity has been afforded all interested parties to participate in this proceeding, and the lengthy comments submitted provide a sufficient basis for a decision in the matter before us. Oral argument or an oral hearing is unnecessary and would serve no useful purpose.

19. Authority for the adoption of the amendment herein is contained in sections 4 (i), 301, 303 (c), (d), (f), and (r), and 307 (b) of the Communications Act of 1934, as amended.

20. In view of the foregoing: *It is ordered*, That effective January 6, 1956, the Table of Assignments contained in § 3.606 of the Commission's rules and regulations is amended, insofar as the community named is concerned, as follows:

(a)

City:	Channel No.
Elmira, N. Y.	9−, 18+, 24−

(b) Change the offset carrier requirements for Channel 9 at Washington, D. C., from 9 minus to 9 even and in Greenville, North Carolina, from 9 even to 9 minus.

(Sec. 4, 48 Stat. 1066, as amended; 47 U. S. C. 154. Interprets or applies secs. 301, 303, 307, 48 Stat. 1081, 1082, 1084; 47 U. S. C. 301, 303, 307)

Adopted: November 30, 1955.

Released: December 5, 1955.

FEDERAL COMMUNICATIONS COMMISSION,[1]

[SEAL] MARY JANE MORRIS, *Secretary.*

[F. R. Doc. 55-9857; Filed, Dec. 7, 1955; 8:49 a. m.]

PART 7—STATIONS ON LAND IN THE MARITIME SERVICES

MISCELLANEOUS AMENDMENTS

In the matter of amendment of Part 7 of the Commission's rules governing stations on land in the maritime services.

The Commission having under consideration certain editorial changes in Part 7 of its rules and regulations; and

It appearing that the amendments adopted herein are editorial in nature, and, therefore, prior publication of Notice of Proposed Rule Making under the provisions of Section 4 of the Administrative Procedure Act is unnecessary, and the amendments may become effective immediately; and

It further appearing that the amendments adopted herein are issued pursuant to authority contained in sections 4 (i), 5 (d) (1) and 303 (r) of the Communications Act of 1934, as amended, and § 0.341 (a) of the Commission's Statement of Organization, Delegations of Authority and Other Information;

It is ordered, This 5th day of December 1955, that effective immediately, Part 7, Stations on Land in the Maritime Services, is amended to include the editorial changes set forth below.

(Sec. 4, 48 Stat. 1066, as amended; 47 U. S. C. 154. Interprets or applies secs. 5, 303, 66 Stat. 713, 48 Stat. 1082, as amended; 47 U. S. C. 155, 303)

Released: December 5, 1955.

FEDERAL COMMUNICATIONS COMMISSION,

[SEAL] MARY JANE MORRIS, *Secretary.*

A. Part 7 is amended as follows:

1. Section 7.601 (a) is amended as follows:

Change the addresses of the following Radio District Offices:

Radio district	*Address of the engineer in charge*
4.	400 McCawley Building, 400 East Lombard Street, Baltimore 2, Maryland.
5.	(Delete "Ship Office: Room 200, U. S. Post Office Building, Newport News, Virginia" listed under Radio District No. 5.)
6.	718 Atlanta National Building, 50 Whitehall Street SW., Atlanta 3, Georgia. Sub-office: P. O. Box 77, 214 Post Office Building, Savannah, Georgia.
8.	608 Federal Building, 600 South Street, New Orleans 12, Louisiana. Sub-office: 419 U. S. Courthouse and Customhouse, Mobile 10, Alabama.
9.	(NOTE: Main office address unchanged—change Sub-office address to read as follows:) Sub-office: P. O. Box 1527, (329 Post Office Building, 300 Willow Street), Beaumont, Texas.
10.	P. O. Box 5238, 500 U. S. Terminal Annex Building, (Houston and Jackson Streets), Dallas 22, Texas.
12.	323-A Customhouse (555 Battery Street), San Francisco 26, California.
14.	802 Federal Office Building (1st Avenue and Marion), Seattle 4, Washington.
15.	521 New Customhouse (19th between California and Stout Streets), Denver 2, Colorado.
17.	3100 Federal Office Building, 911 Walnut Street, Kansas City 6E, Missouri.
23.	(NOTE: Main office address unchanged—change Sub-office address to read as follows:) Sub-office: P. O. Box 1421, 6 Shattuck Building, Juneau, Alaska.
24.	Briggs Building, 22d and E Streets NW., Washington 25, D. C.

2. Section 7.601 (b) is amended as follows:

Change the addresses of Regional Offices Nos. 1, 2, 3, and 4 to read:

Region No. 2—718 Atlanta National Building, 50 Whitehall Street SW., Atlanta 3, Georgia. To include: Districts Nos. 6, 7, 8, 9, 10 and 22.

Region No. 3—323-A Customhouse (555 Battery Street), San Francisco 26, California. To include: Districts Nos. 11, 12 and 15.

Region No. 4—802 Federal Office Building (First Avenue and Marion), Seattle 4, Washington. To include: Districts Nos. 13, 14 and 23.

3. Section 7.601 (c) is amended to read as follows:

(c) The primary monitoring stations of the Field Engineering and Monitoring Bureau are located at the following addresses:

Federal Communications Commission, Allegan Monitoring Station, P. O. Box 89, Allegan, Michigan.

Federal Communications Commission, Grand Island Monitoring Station, P. O. Box 788, Grand Island, Nebraska.

Federal Communications Commission, Kingsville Monitoring Station, P. O. Box 632, Kingsville, Texas.

Federal Communications Commission, Millis Monitoring Station, P. O. Box 458, Millis, Massachusetts.

Federal Communications Commission, P. O. Box 1142, Lanikai Monitoring Station, Lanikai, Oahu, Hawaii.

Federal Communications Commission, Santa Ana Monitoring Station, P. O. Box 744, Santa Ana, California.

Federal Communications Commission, Laurel Monitoring Station, P. O. Box 31, Laurel, Maryland.

Federal Communications Commission, Livermore Monitoring Station, P. O. Box 989, Livermore, California.

Federal Communications Commission, Portland Monitoring Station, P. O. Box 5165, Portland 16, Oregon.

Federal Communications Commission, Powder Springs Monitoring Station, P. O. Box 98, Powder Springs, Georgia.

4. Section 7.601 (d) is amended to read as follows:

(d) Secondary monitoring stations of the Field Engineering and Monitoring Bureau are located at the following addresses:

Federal Communications Commission, P. O. Box 5098, Fort Lauderdale, Florida.

Federal Communications Commission, P. O. Box 251, Chillicothe, Ohio.

Federal Communications Commission, P. O. Box 1448, Muskogee, Oklahoma.

Federal Communications Commission, Searsport, Maine; P. O. Box 44, Belfast, Maine.

Federal Communications Commission, P. O. Box 191, Spokane, Washington.

Federal Communications Commission, P. O. Box 499, Twin Falls, Idaho.

Federal Communications Commission, P. O. Box 719, Anchorage, Alaska.

Federal Communications Commission, P. O. Box 810, Fairbanks, Alaska.

[F. R. Doc. 55-9858; Filed, Dec. 7, 1955; 8:49 a. m.]

[Rules Amdt. 8-7]

PART 8—STATIONS ON SHIPBOARD IN THE MARITIME SERVICES

MISCELLANEOUS AMENDMENTS

In the matter of amendment of Part 8 of the Commission's rules governing stations on shipboard in the maritime services.

The Commission having under consideration certain editorial changes in Part 8 of its rules and regulations; and

It appearing that the amendments adopted herein are editorial in nature, and, therefore, prior publication of notice of proposed rule making under

the provisions of section 4 of the Administrative Procedure Act is unnecessary and the amendments may become effective immediately; and

It further appearing that the amendments adopted herein are issued pursuant to authority contained in sections 4 (i), 5 (d) (1) and 303 (r) of the Communications Act of 1934, as amended, and § 0.341 (a) of the Commission's Statement of Organization, Delegations of Authority and Other Information;

It is ordered, This 5th day of December 1955, that, effective immediately, Part 8, Stations on Shipboard in the Maritime Services, is amended to include the editorial changes set forth below.

(Sec. 4, 48 Stat. 1066, as amended; 47 U. S. C. 154. Interprets or applies secs. 5, 303, 66 Stat. 713, 48 Stat. 1082, as amended; 47 U. S. C. 155, 303)

Released: December 5, 1955.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

Part 8 is amended as follows:

1. Change the Note following § 8.49 (b) to read as follows:

NOTE: A list of general exemptions is contained in § 8.803.

2. Section 8.554 (b) is amended to read as follows:

(b) Each type of auto alarm approved by the Commission prior to July 23, 1951, is approved as to its type, for use on board ship as provided by Section 353 of the Communications Act or by the applicable provisions of the Safety Convention, until such time as the Commission, in consideration of developments with respect to improved types of autoalarms, may terminate, in accordance with appropriate rule making proceedings, such type approval.

3. Section 8.501 (d) is amended to read as follows:

(d) Safety Certificates, Safety Radiotelegraphy Certificates and Safety Radiotelephony Certificates are required, in accordance with the Safety Convention, to be posted in a permanent and accessible place in the ship.

4. In § 8.801 (a) make the following changes:

a. In the column headed Radio District, insert the numeral 2 opposite the address 748 Federal Building, 641 Washington Street, New York 14, New York.

b. Change the addresses of the following Radio District offices:

Radio district	*Address of the engineer in charge*
4.	400 McCawley Building, 400 East Lombard Street, Baltimore 2, Maryland.
5.	(Delete "Ship Office: Room 200, U. S. Post Office Building, Newport News, Va." listed under Radio District No. 5.)
6.	718 Atlanta National Building, 50 Whitehall Street SW., Atlanta 3, Georgia. Sub-office: P. O. Box 77, 214 Post Office Building, Savannah, Georgia.
8.	608 Federal Building, 600 South Street, New Orleans 12, Louisiana. Sub-office: 419 U. S. Courthouse and Customhouse, Mobile 10, Alabama.
9.	(NOTE: Main office address unchanged—change Sub-office address to read as follows): Sub-office: P. O. Box 1527 (329 Post Office Building, 300 Willow Street), Beaumont, Texas.
10.	P. O. Box 5238, 500 U. S. Terminal Annex Building (Houston and Jackson Streets), Dallas 22, Texas.
12.	323–A Customhouse (555 Battery Street), San Francisco 26, California.
14.	802 Federal Office Building (First Avenue and Marion), Seattle 4, Washington.
15.	521 New Customhouse (19th between California and Stout Streets), Denver 2, Colorado.
17.	3100 Federal Office Building, 911 Walnut Street, Kansas City 6E, Missouri.
18.	826 U. S. Courthouse Building, 219 South Clark Street, Chicago 4, Illinois.
23.	(NOTE: Main office address unchanged—change Sub-office address to read as follows:) Sub-office: P. O. Box 1421, 6 Shattuck Building, Juneau, Alaska.
24.	Briggs Building, 22d and E Streets NW., Washington 25, D. C.

5. Section 8.801 (b) is amended as follows:

Change the addresses of Regional Offices Nos. 1, 2, 3 and 4 to read:

Region No. 1—954 Federal Building, 641 Washington Street, New York 14, New York. To include: Districts Nos. 1, 2, 3, 4, 5, 20 and 24.

Region No. 2—718 Atlanta National Building, 50 Whitehall Street SW., Atlanta 3, Georgia. To include: Districts Nos. 6, 7, 8, 9, 10 and 22.

Region No. 3—323–A Customhouse (555 Battery Street), San Francisco 26, California. To include: Districts Nos. 11, 12 and 15.

Region No. 4—802 Federal Office Building (First Avenue and Marion), Seattle 4, Washington. To include: District Nos. 13, 14 and 23.

6. Section 8.801 (c) is amended to read as follows:

(c) The primary monitoring stations of the Field Engineering and Monitoring Bureau are located at the following addresses:

Federal Communications Commission, Allegan Monitoring Station, P. O. Box 89, Allegan, Michigan.

Federal Communications Commission, Grand Island Monitoring Station, P. O. Box 788, Grand Island, Nebraska.

Federal Communications Commission, Kingsville Monitoring Station, P. O. Box 632, Kingsville, Texas.

Federal Communications Commission, Millis Monitoring Station, P. O. Box 458, Millis, Massachusetts.

Federal Communications Commission, P. O. Box 1142, Lanikai Monitoring Station, Lanikai, Oahu, Hawaii.

Federal Communications Commission, Santa Ana Monitoring Station, P. O. Box 744, Santa Ana, California.

Federal Communications Commission, Laurel Monitoring Station, P. O. Box 31, Laurel, Maryland.

Federal Communications Commission, Livermore Monitoring Station, P. O. Box 989, Livermore, California.

Federal Communications Commission, Portland Monitoring Station, P. O. Box 5165, Portland 16, Oregon.

Federal Communications Commission, Powder Springs Monitoring Station, P. O. Box 98, Powder Springs, Georgia.

7. Section 8.801 (d) is amended to read as follows:

(d) Secondary monitoring stations of the Field Engineering and Monitoring Bureau are located at the following addresses:

Federal Communications Commission, P. O. Box 5098, Fort Lauderdale, Florida.

Federal Communications Commission, P. O. Box 251, Chillicothe, Ohio.

Federal Communications Commission, P. O. Box 1448, Muskogee, Oklahoma.

Federal Communications Commission, Searsport, Maine, P. O. Box 44, Belfast, Maine.

Federal Communications Commission, P. O. Box 191, Spokane, Washington.

Federal Communications Commission, P. O. Box 499, Twin Falls, Idaho.

Federal Communications Commission, P. O. Box 719, Anchorage, Alaska.

Federal Communications Commission, P. O. Box 810, Fairbanks, Alaska.

[Rules Amdt. 10–7]

PART 10—PUBLIC SAFETY RADIO SERVICES

CONELRAD PLAN

In the matter of amendment of Part 10 of the Commission's rules and regulations to effectuate the Commission's CONELRAD Plan for the Public Safety Radio Services.

The Commission has before it for consideration its Notice of Proposed Rule Making in the above captioned matter published January 26, 1955 (20 F. R. 565).

No formal comments have been filed in this matter.

These amendments to Part 10 of the Commission's rules are promulgated under the authority of sections 303 (r) and 606 (c) of the Communications Act as amended and the Executive Order 10312 signed by the President December 10, 1951.

Accordingly, it is ordered, That Part 10 of the Commission's rules and regulations be amended to include the rules set forth below, effective January 2, 1957, or on such earlier date as the Commission, by subsequent order, may designate.

(Sec. 4, 48 Stat. 1066, as amended; 47 U. S. C. 154. Interprets or applies sec. 303, 48 Stat. 1082, as amended, sec. 606, 65 Stat. 4087; 47 U. S. C. 303, 606; E. O. 10312, 16 F. R. 12452; 3 CFR, 1951 Supp.)

Adopted: November 30, 1955.

Released: December 5, 1955.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

The following new section is added to Part 10.

§ 10.166 *CONELRAD rules for the Public Safety Radio Services*—(a) *Scope and objective.* (1) This section applies to all radio stations in the Public Safety Radio Services located within the Continental U. S. and is for the purpose of providing for the alerting and operation of radio stations in these services during periods of air attack or imminent threat thereof. The objective is to minimize

the navigational aid that may be obtained by an enemy from the electromagnetic radiations emanating from radio stations in the Public Safety Radio Services while simultaneously providing for continued radio service under controlled conditions when such operation is essential to the public welfare.

(2) The Commission will release and maintain a CONELRAD Manual which may be used by licensees in the Public Safety Radio Services as a guide in selecting methods of alerting and operating radio stations in these services in order to effect compliance with the requirements of this section.

(b) *General.* All radio stations in the Public Safety Radio Services are required to provide for receiving the Radio Alert and to operate in accordance with this section.

(c) *Definitions.* (1) The term "CONELRAD" is a contraction of the words "Control of Electromagnetic Radiation" and is the general term applied to the controlled operation of radio facilities under the authority of Executive Order 10312 dated December 10, 1951.

(2) CONELRAD Radio Alert is the term applied to the Military Warning that an air attack is probable or imminent which automatically orders the immediate implementation of CONELRAD procedures for all radio stations. The CONELRAD Radio Alert is distinct from the military or Civil Air Defense Warning Yellow or Red, but may be coincidental with such warnings.

(3) An Air Defense Control Center (ADCC) is an air operations center from which an Air Division (Defense) Commander supervises and coordinates air defense activities within an air defense sector, including dissemination of warnings, identification and security of air traffic, and the utilization of available combat forces in support of the National Air Defense effort.

(4) The CONELRAD Radio All Clear is the Department of Defense order to discontinue CONELRAD requirements as imposed by an outstanding CONELRAD Radio Alert. It is initiated only by the Air Division (Defense) Commander or higher military authority.

(5) As used in this section the term "licensee" means the holder of any form of authority issued by the Federal Communications Commission pursuant to which a radio station may be operated including construction permits, station licenses, temporary authorizations, etc.

(d) *Alerting.* The licensee of a radio station in the Public Safety Radio Services will be responsible for making provisions to receive the CONELRAD Radio Alert and for receiving the CONELRAD Radio Alert. Public Safety Radio systems comprised of one or more base and/or fixed stations with associated mobile units may, if desired, be alerted at only one point, normally the control point of the primary base station. The control point receiving the Alert will be responsible for the dissemination of the CONELRAD Radio Alert to all stations integrated into the single radio system and insuring that all such associated stations execute CONELRAD requirements immediately. Base fixed or mobile stations not directly receiving the CONELRAD Radio Alert must use caution after an "out of service" period to insure that a CONELRAD Radio Alert is not in progress before making any transmissions. Radio stations in the Public Safety Radio Services will immediately comply with CONELRAD rules and regulations upon receipt of one or more of the following alerts:

(1) Initiation of CONELRAD plans by Standard, FM and TV broadcast stations.

(2) Receipt of a CONELRAD Radio Alert or Civil Defense Warning Yellow if no CONELRAD Radio Alert is issued, or Civil Defense Warning Red if neither a CONELRAD Radio Alert nor a Warning Yellow is issued, from a Civil Air Defense Warning Network or extension thereof.

(3) By other means, if so authorized by the Federal Communications Commission.

(e) *Operation during a CONELRAD Radio Alert.* Immediately upon receipt of a CONELRAD Radio Alert all radio stations in the Public Safety Radio Services will operate in accordance with the following limitations unless specifically directed otherwise by the Federal Communications Commission:

(1) No transmissions shall be made unless they are of extreme emergency affecting the national safety or the safety of people and property.

(2) Transmissions shall be as short as possible. The station carrier shall be removed from the air during periods of no message transmission.

(3) No station identification shall be given either by announcement of FCC Assigned Call Signals or announcement of station location. If identification is necessary to carry on the service, special station or unit identifiers may be used in accordance with § 10.152 (b).

(f) *Special limitations.* In addition to limitations specified in this section, it may be necessary for the Commission to require that some radio stations in the Public Safety Radio Services remain silent or operate under special limitations during the CONELRAD Radio Alert. Such decision shall be made after a special investigation and the specific station shall be notified if special limitations are required. Special limitation requirements generally will be necessary for radio stations in the Public Safety Radio Services operating below 3200 kc.

(g) *All clear.* At the conclusion of the CONELRAD Radio Alert and when the CONELRAD All Clear is issued, each Standard, FM and TV broadcast station will broadcast an All Clear message. Radio stations in the Public Safety Radio Services may resume normal operation when the CONELRAD Radio All Clear message is transmitted by Standard, FM or TV broadcast stations unless otherwise restricted by the Federal Communications Commission.

(h) *Alerting system test.* Tests of the Public Safety Radio Services alerting system may be conducted from time to time to insure proper compliance with alerting requirements.

(i) *CONELRAD operating plan tests.* Tests of the Public Safety Radio Services CONELRAD operating plan may be conducted whenever such tests are determined to be necessary or desirable.

(j) *Log entries.* Appropriate records of all CONELRAD tests and operation shall be maintained as a part of the log of radio stations in the Public Safety Radio Services.

(k) *Special operation.* In certain cases the Commission may authortze specific stations to operate during a CONELRAD Radio Alert in a manner not covered by this section; provided, such operation is determined to be necessary in the interest of National Defense or the public welfare.

[F. R. Doc. 55–9860; Filed, Dec. 7, 1955; 8:49 a. m.]

[Docket 11488; FCC 55–1183]

[Rules Amdt. 12–16]

PART 12—AMATEUR RADIO SERVICE

CONELRAD PLAN

In the matter of amendment to Part 12 of the Commission's rules and regulations to effectuate the Commisson's CONELRAD Plan for the Amateur Service.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 30th day of November 1955;

The Commission has before it its Notice of Proposed Rule Making in the above captioned matter published September 7, 1955 (20 F. R. 6565), and the comments that were filed.

It appearing that all comments received were favorable and supported the Proposed Rules; and

It further appearing that at the present time all radio services with the exception of the Amateur Radio Service operate under mandatory or voluntary CONELRAD Rules; and

It further appearing that it would be in the public interest for all amateur licensees to voluntarily comply with these Rules until the date on which the rules become mandatory; and

It further appearing that these amendments to Part 12 are promulgated under the authority of sections 303 (r) and 606 (c) of the Communications Act and the Executive Order 10312 signed by the President December 10, 1951;

It is ordered, That Part 12 of the Commission's rules and regulations be amended to include the rules set forth below, effective January 2, 1957, or on such earlier date as the Commission by subsequent order, may designate.

(Sec. 4, 48 Stat. 1066, as amended; 47 U. S. C. 154. Interprets or applies sec. 303, 48 Stat. 1082, as amended, sec. 606, 65 Stat. 4087; 47 U. S. C. 303, 606; E. O. 10312, 16 F. R. 12452; 3 CFR, 1951 Supp.)

Released: December 5, 1955.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

Part 12 of the Commission's rules is amended by adding the following new sections:

NOTE: These rules apply to Continental U. S. only.

CONELRAD

§ 12.190 *Scope and objective of CONELRAD.* Control of Electromagnetic Radiation applies to all radio stations in the Amateur Radio Service and is for the purpose of providing for the alerting and operation of radio stations in this service during periods of air attack or imminent threat thereof. The objective is to minimize the navigational aid that may be obtained by an enemy from the electromagnetic radiations emanating from radio stations in the Amateur Radio Service while simultaneously providing for a continued service under controlled conditions when such operation is essential to the public welfare.

§ 12.191 *CONELRAD Radio Alert.* The CONELRAD Radio Alert is the term applied to the Military Warning that an air attack is probable or imminent and which automatically orders the immediate implementation of CONELRAD procedures for all radio stations. The CONELRAD Radio Alert is distinct from the military or Civil Air Defense warnings yellow or red, but may be coincidental with such warnings.

§ 12.192 *Reception of Radio Alert.* (a) The licensee of a station in the Amateur Radio Service is required to provide a means for reception of the CONELRAD Radio Alert or a means for the determination that such alert is in force.

(b) All operators of stations in the Amateur Radio Service will be responsible for the reception of the CONELRAD Radio Alert or indication that such alert is in force by:

(1) Reception of a CONELRAD Radio Alert message which will be broadcast by each standard, FM and TV broadcast station on its regular assigned frequency before they leave the air; or

(2) Reception of standard broadcast stations operating under CONELRAD requirements during the period of the alert on 640 or 1240 kc; or

(3) Determining that an alert is in force by lack of normal broadcast station operation (observations made before amateur station operation is begun and at least once every ten minutes during operation thereafter will be considered as sufficient for compliance with this section); or

(4) Other means if so authorized by the Federal Communications Commission.

§ 12.193 *Operation during an alert.* During a CONELRAD Radio Alert the operation of all amateur radio stations, except stations in the Radio Amateur Civil Emergency Services (RACES) and stations specifically authorized otherwise, will be immediately discontinued until the Radio All Clear is issued. Stations in the RACES and such others as are specifically authorized to operate during the alert will conduct operation under the following restrictions.

(a) No transmission shall be made unless it is of extreme emergency affecting the national safety or the safety of life and property.

(b) Transmissions shall be as short as possible.

(c) No station identification shall be given, either by transmission of call letters or by announcement of location (if station identification is necessary to carry on the service, tactical calls or other means of identification will be utilized in accordance with § 12.246).

(d) The radio station carrier shall be discontinued during periods of no message transmission.

§ 12.194 *Special operation.* In certain cases, the Federal Communications Commission may authorize specific stations to operate during a CONELRAD Radio Alert in a manner not governed by §§ 12.190 to 12.196, provided, such operation is determined to be necessary in the interest of National Defense or the public welfare.

§ 12.195 *Resumption of normal operation.* At the conclusion of a CONELRAD Radio Alert, each standard, FM and TV broadcast station will broadcast a CONELRAD Radio All Clear Message. Unless otherwise restricted by order of the Federal Communications Commission, normal operation of stations in the Amateur Radio Service may be resumed upon reception of the CONELRAD Radio All Clear. Only the CONELRAD Radio All Clear will authorize termination of the CONELRAD Radio Alert.

§ 12.196 *CONELRAD tests.* So far as practicable, tests and practice operation will be conducted at appropriate intervals.

[F. R. Doc. 55-9861; Filed, Dec. 7, 1955; 8:50 a. m.]

[Rules Amdt. 14-4]

PART 14—PUBLIC FIXED STATIONS AND STATIONS OF THE MARITIME SERVICES IN ALASKA

MISCELLANEOUS AMENDMENTS

In the matter of amendment of Part 14 of the Commission's rules governing public fixed stations and stations of the maritime services in Alaska.

The Commission having under consideration certain editorial changes in Part 14 of its rules and regulations; and

It appearing that the amendments adopted herein are editorial in nature, and, therefore, prior publication of Notice of Proposed Rule Making under the provisions of section 4 of the Administrative Procedure Act is unnecessary, and the amendments may become effective immediately; and

It further appearing that the amendments adopted herein are issued pursuant to authority contained in sections 4 (i), 5 (d) (1) and 303 (r) of the Communications Act of 1934, as amended, and § 0.341 (a) of the Commission's Statement of Organization, Delegations of Authority and Other Information;

It is ordered, This 5th day of December 1955, that effective immediately, Part 14, Public Fixed Stations and Stations of the Maritime Services in Alaska, is amended to include the editorial changes set forth below.

(Sec. 4, 48 Stat. 1066, as amended; 47 U. S. C. 154. Interprets or applies secs. 5, 303, 66 Stat. 713, 48 Stat. 1082, as amended; 47 U. S. C. 155, 303)

Released: December 5, 1955.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

A. Part 14 is amended as follows:

1. Section 14.25 (a) is amended to read as follows:

(a) The rules relating to applications set forth in the rules and regulations governing stations in the maritime services (Subparts B of Parts 7 and 8 of this chapter) shall apply to stations of these services in the Alaska area so far as they are consistent with this part.

2. Section 14.106 is amended by deleting the note at the end of the section.

3. Section 14.107 is amended by deleting the note at the end of the section.

4. Section 14.108 is amended by deleting the note at the end of the section.

5. In § 14.204 (a), delete the text of subparagraph (6) and insert in lieu thereof the word [Reserved].

6. Section 14.263 is amended as follows:

a. Delete subparagraphs (1) (2) and (3) of paragraph (a).

b. Delete paragraph (b) and subparagraphs (1) and (2) thereof.

c. Section 14.263 as amended reads as follows:

§ 14.263 *Frequencies for temporary use in all zones.* (a) Each of the following frequencies in kilocycles is authorized as an assigned frequency for use, in accordance with Subpart E of this part, temporarily for a limited period as designated herewith; for public coast stations in Alaska and for ship stations in Alaskan waters employing primarily telephony (telegraphy also is permissible) for ship-shore and ship-to-ship communication upon the condition that no interference will result to other services:

(1) 1660 and 3201—available for maritime mobile service (on a shared basis with fixed service) under the respective provisions of subparagraphs (2) and (3) of this paragraph until not later than January 1, 1957, only to ship and coast stations licensed to transmit on the respective frequency before June 20, 1955;

(2) Use of the frequency 1660 kc shall be coordinated as necessary with use of the frequency 1666 kc by fixed stations in the Alaska area so as to avoid harmful interference;

(3) At locations where use of the frequency 1660 kc or 3201 kc for maritime mobile service after September 15, 1955, causes harmful interference to the service of a licensed fixed station or stations operating in accordance with applicable provisions of this part, or to any authorized government service, the station using either of these frequencies for maritime mobile service shall, except in an emergency involving the immediate safety of life or property, limit its transmissions to such periods of time as will not cause such interference.

[F. R. Doc. 55-9862; Filed, Dec. 7, 1955; 8:50 a. m.]

PROPOSED RULE MAKING

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Part 51]

SWEET CHERRIES [1]

U. S. STANDARDS

Notice is hereby given that the United States Department of Agriculture is considering the revision of United States Standards for Sweet Cherries pursuant to the authority contained in the Agricultural Marketing Act of 1946 (60 Stat. 1087 et seq., as amended; 7 U. S. C. 1621 et seq.).

All persons who desire to submit written data, views or arguments for consideration in connection with the proposed standards should file the same with the Chief, Fresh Products Standardization and Inspection Branch, Fruit and Vegetable Division, Agricultural Marketing Service, United States Department of Agriculture, South Building, Washington 25, D. C., not later than 30 days after publication hereof in the FEDERAL REGISTER.

The proposed standards are as follows:

GRADES

Sec.
51.1337 U. S. No. 1.
51.1338 U. S. Commercial.

UNCLASSIFIED

51.1339 Unclassified.

APPLICATION OF TOLERANCES

51.1340 Application of tolerances.

DEFINITIONS

51.1341 Similar varietal characteristics.
51.1342 Mature.
51.1343 Fairly well colored.
51.1344 Well formed.
51.1345 Clean.
51.1346 Damage.
51.1347 Diameter.
51.1348 Serious damage.

AUTHORITY: §§ 51.1337 to 51.1348 issued under sec. 205, 60 Stat. 1090, as amended; 7 U. S. C. 1624.

GRADES

§ 51.1337 *U. S. No. 1.* "U. S. No. 1" consists of cherries of similar varietal characteristics which are mature, but not soft, overripe, or shriveled, and which are fairly well colored, well formed, clean, and free from decay, worms or worm holes, undeveloped doubles and sun scald and free from damage caused by bruises, cracks, disease, hail, other insects, limbrubs, pulled stems, russeting, scars, skin breaks, sunburn, sutures, or mechanical or other means.

(a) Unless otherwise specified, the minimum diameter of each cherry shall be not less than three-fourth inch. The maximum diameter of the cherries in any lot may be specified in accordance with the facts.

(b) In order to allow for variations incident to proper grading and handling, not more than 5 percent, by count, of the cherries in any lot may fail to meet the specified minimum diameter and not more than 10 percent, by count, may fail to meet any specified maximum diameter. In addition, not more than a total of 10 percent, by count, of the cherries in any lot may fail to meet the remaining requirements of the grade: *Provided*, That not more than one-half of this amount, or 5 percent, shall be allowed for defects causing serious damage, including therein not more than 1 percent for cherries affected by decay. (See § 51.1340.)

[1] Packing of the product in conformity with the requirements of these standards shall not excuse failure to comply with the provisions of the Federal Food, Drug, and Cosmetic Act.

§ 51.1338 *U. S. Commercial.* "U. S. Commercial" consists of cherries which meet the requirements of U. S. No. 1 grade except for minimum diameter and except for the increased tolerances specified in this section.

(a) Unless otherwise specified, the diameter of each cherry shall be not less than five-eighths inch. The maximum diameter of the cherries in any lot may be specified in accordance with the facts.

(b) In order to allow for variations incident to proper grading and handling, not more than 5 percent, by count, of the cherries in any lot may fail to meet the specified minimum diameter and not more than 10 percent, by count, may fail to meet any specified maximum diameter. In addition, not more than a total of 20 percent, by count, of the cherries in any lot may fail to meet the remaining requirements of the grade: *Provided*, That not more than one-fourth of this amount, or 5 percent, shall be allowed for defects causing serious damage, including therein not more than 1 percent for cherries affected by decay. (See § 51.1340.)

UNCLASSIFIED

§ 51.1339 *Unclassified.* "Unclassified" consists of cherries which have not been classified in accordance with either of the foregoing grades. The term "unclassified" is not a grade within the meaning of these standards, but is provided as a designation to show that no grade has been applied to the lot.

APPLICATION OF TOLERANCES

§ 51.1340 *Application of tolerances.* (a) The contents of individual packages in the lot, based on sample inspection, are subject to the following limitations: *Provided*, That the averages for the entire lot are within the tolerances specified for the grade:

(1) For a tolerance of 10 percent or more, individual packages in any lot may contain not more than one and one-half times the tolerance specified, except that when the package contains one pound or less, individual packages may contain not more than double the tolerance specified; and,

(2) For a tolerance of less than 10 percent, individual packages in any lot may contain not more than double the tolerance specified, except that at least one defective and one off-size specimen may be permitted in any package.

DEFINITIONS

§ 51.1341 *Similar varietal characteristics.* "Similar varietal characteristics" means that the cherries in any container are similar in color and shape.

§ 51.1342 *Mature.* "Mature" means that the cherries have reached the stage of growth which will insure the proper completion of the ripening process.

§ 51.1343 *Fairly well colored.* "Fairly well colored" means that the cherries show characteristic color for mature cherries of the variety.

§ 51.1344 *Well formed.* "Well formed" means that the cherry has the normal shape characteristic of the variety, except that mature well developed doubles shall be considered well formed when each of the halves is approximately evenly formed.

§ 51.1345 *Clean.* "Clean" means that the cherries are practically free from dirt, dust, spray residue, or other foreign material.

§ 51.1346 *Damage.* "Damage" means any defect which materially affects the appearance, or the edible or shipping quality of the individual cherry or the general appearance of the cherries in the container. Any one of the following defects, or any combination of defects the seriousness of which exceeds the maximum allowed for any one defect, shall be considered as damage:

(a) Cracks within the stem cavity when deep or not well healed, or when the appearance is affected to a greater extent than that of a cherry which has a superficial well healed crack one-sixteenth inch in width extending one-half the greatest circumference of the stem cavity;

(b) Cracks outside of the stem cavity when deep or not well healed, or when the crack has weakened the cherry to the extent that it is likely to split or break in the process of proper grading, packing and handling, or when materially affecting the appearance;

(c) Hail injury when deep or not well healed, or when the aggregate area exceeds the area of a circle three-sixteenths inch in diameter;

(d) Insects when scale or more than one scale mark is present, or when the appearance is materially affected by any insect;

(e) Limbrubs when affecting the appearance of the cherry to a greater extent than the amount of scarring permitted;

(f) Pulled stems when the skin or flesh is torn, or when the cherry is leaking;

(g) Russeting when affecting the appearance of the cherry to a greater extent than the amount of scarring permitted;

(h) Scars when excessively deep or rough or dark colored and the aggregate area exceeds the area of a circle three-sixteenths inch in diameter, or when smooth or fairly smooth, light colored

and superficial and the aggregate area exceeds the area of a circle one-fourth inch in diameter;

(i) Skin breaks when not well healed or when the appearance of the cherry is materially affected; and,

(j) Sutures when excessively deep or when affecting the shape of the cherry to the extent that it is not well formed.

§ 51.1347 *Diameter.* "Diameter" means the greatest dimension measured at right angles to a line from the stem to the blossom end of the cherry.

§ 51.1348 *Serious damage.* "Serious damage" means any defect which seriously affects the appearance, or the edible or shipping quality of the cherry. Seriously damaged cherries include the following:

(a) Decay;

(b) Wormy cherries or cherries with worm holes;

(c) Skin breaks which are not well healed;

(d) Cracks which are not well healed; and,

(e) Pulled stems with skin or flesh of cherry torn or which causes the cherry to leak.

Dated: December 5, 1955.

CANNED ORANGE JUICE [1]

U. S. STANDARDS FOR GRADES

Notice is hereby given that the United States Department of Agriculture is considering the revision of United States Standards for Grades of Canned Orange Juice (§§ 52.1551–52.1553) pursuant to the authority contained in the Agricultural Marketing Act of 1946 (60 Stat. 1087 et seq., 7 U. S. C. 1621 et seq.). This revision, if made effective, will be the seventh issue by the Department of grade standards for this product.

All persons who desire to submit written data, views, or arguments for consideration in connection with the proposed revision should file the same with the Chief, Processed Products Standardization and Inspection Branch, Fruit and Vegetable Division, Agricultural Marketing Service, United States Department of Agriculture, Washington 25, D. C., not later than 30 days after publication hereof in the FEDERAL REGISTER.

The proposed revision is as follows:

PRODUCT DESCRIPTION, STYLES, AND GRADES

Sec.
52.1551 Product description.
52.1552 Styles of canned orange juice.
52.1553 Grades of canned orange juice.

FILL OF CONTAINER

52.1554 Recommended fill of container.

[1] Compliance with the requirements of these standards shall not excuse failure to comply with the provisions of the Federal Food, Drug, and Cosmetic Act, or with applicable State laws and regulations.

FACTORS OF QUALITY

Sec.
52.1555 Ascertaining the grade.
52.1556 Ascertaining the rating for the factors which are scored.
52.1557 Color.
52.1558 Absence of defects.
52.1559 Flavor.

EXPLANATIONS AND METHODS OF ANALYSES

52.1560 Definitions of terms and methods of analyses.

LOT CERTIFICATION TOLERANCES

52.1561 Tolerances for certification of officially drawn samples.

SCORE SHEET

52.1562 Score sheet for canned orange juice.

AUTHORITY: §§ 52.1551 to 52.1562 issued under sec. 205, 60 Stat. 1090, as amended; 7 U. S. C. 1624.

PRODUCT DESCRIPTION, STYLES, AND GRADES

§ 52.1551 *Product description.* Canned orange juice is the undiluted, unconcentrated, unfermented juice obtained from mature fresh fruit of the sweet orange group (Citrus sinensis) and Mandarin group (Citrus reticulata), except tangerines, which fruit has been properly washed; is packed with or without the addition of a non-liquid nutritive sweetening ingredient or sweetening ingredients; and is sufficiently processed by heat to assure preservation of the product in hermetically-sealed containers.

§ 52.1552 *Styles of canned orange juice.* (a) Style I, Unsweetened (or natural juice).

(b) Style II Sweetened (or with added sweetening ingredient). Canned orange juice of this style shall have been processed with the addition of sufficient nutritive sweetening ingredient or sweetening ingredients to produce a Brix measurement of not less than 10.5°: *Provided,* That if the acidity of the canned orange juice is 0.90 gram or more per 100 ml. of juice, the Brix shall be not less than 11.5°.

§ 52.1553 *Grades of canned orange juice.* (a) "U. S. Grade A" or "U. S. Fancy" is the quality of canned orange juice that shows no coagulation; that possesses a very good color; that is practically free from defects; that possesses a very good flavor; and that for those factors which are scored in accordance with the scoring system outlined in this subpart the total score is not less than 85 points.

(b) "U. S. Grade C" or "U. S. Standard" is the quality of canned orange juice that may show slight coagulation; that possesses a good color; that is fairly free from defects; that possesses a good flavor; and that for those factors which are scored in accordance with the scoring system outlined in this subpart the total score is not less than 70 points.

(c) "Substandard" is the quality of canned orange juice that fails to meet the requirements of U. S. Grade C or U. S. Standard.

FILL OF CONTAINER

§ 52.1554 *Recommended fill of container.* The recommended fill of container is not incorporated in the grades of the finished product since fill of container, as such, is not a factor of quality for the purposes of these grades. It is recommended that the container be as full of orange juice as practicable and that the product occupy not less than 90 percent of the volume capacity of the container.

FACTORS OF QUALITY

§ 52.1555 *Ascertaining the grade.* In addition to considering other requirements outlined in the standards the following quality factors are evaluated:

(a) *Factor not rated by score points.* (1) Degree of coagulation.

(b) *Factors rated by score points.* The relative importance of each factor which is scored is expressed numerically on the scale of 100. The maximum number of points that may be given such factors are:

	Points
(i) Color	40
(ii) Absence of defects	20
(iii) Flavor	40
Total score	100

§ 52.1556 *Ascertaining the rating for the factors which are scored.* The essential variations within each factor which is scored are so described that the value may be ascertained for each factor and expressed numerically. The numerical range within each factor which is scored is inclusive (for example, "17 to 20 points" means 17, 18, 19, or 20 points).

§ 52.1557 *Color*—(a) *(A) classification.* Canned orange juice that possesses a very good color may be given a score of 34 to 40 points. "Very good color" means that the orange juice possesses a bright yellow to yellow-orange color typical of freshly extracted juice and is free from browning due to scorching, oxidation, caramelization, or other causes.

(b) *(C) classification.* If the canned orange juice possesses a good color, a score of 28 to 33 points may be given. Canned orange juice that falls into this classification shall not be graded above U. S. Grade C or U. S. Standard, regardless of the total score for the product (this is a limiting rule). "Good color" means that the orange juice may be slightly amber or very light in color but is typical of canned orange juice and may show evidence of slight browning, but is not off-color.

(c) *(SStd) classification.* Canned orange juice that for any reason fails to meet the requirements of paragraph (b) of this section may be given a score of 0 to 27 points and shall not be graded above Substandard, regardless of the total score for the product (this is a limiting rule).

§ 52.1558 *Absence of defects*—(a) *General.* The factor of absence of defects refers to the degree of freedom from recoverable oil; from particles of membrane, core, or skin; from seeds or seed particles; and from other defects.

(b) *(A) classification.* Canned orange juice that is practically free from defects may be given a score of 17 to 20 points. "Practically free from defects" means that there may be present not more than 0.030 percent by volume of recoverable oil and that the juice does not contain particles of membrane, core, or skin, seeds or seed particles, or other defects that affect more than slightly the appearance of the product.

(c) *(C) classification.* If the canned orange juice is fairly free from defects, a score of 14 to 16 points may be given. Canned orange juice that falls into this classification shall not be graded above U. S. Grade C or U. S. Standard, regardless of the total score for the product (this is a limiting rule). "Fairly free from defects" means that there may be present not more than 0.050 percent by volume of recoverable oil and that the juice does not contain particles of membrane, core, or skin, seed or seed particles, or other defects that affect materially the appearance of the product.

(d) *(SStd) classification.* Canned orange juice that fails to meet the requirements of paragraph (c) of this section may be given a score of 0 to 13 points and shall not be graded above Substandard, regardless of the total score for the product (this is a limiting rule).

§ 52.1559 *Flavor*—(a) *(A) classification.* Canned orange juice that possesses a very good flavor may be given a score of 34 to 40 points. "Very good flavor" means a fine, distinct canned orange juice flavor which is free from traces of scorching, caramelization, oxidation, or terpene; is free from off flavors of any kind; and meets the following requirements for the respective style:

(1) *Style I, Unsweetened (or natural juice)*—(i) *Brix.* Not less than 10.5°;

(ii) *Acid.* Not less than 0.75 gram nor more than 1.45 grams per 100 ml. of juice: *Provided,* That when the canned orange juice has a color that scores 38 to 40 points, the acidity may be not less than 0.70 gram per 100 ml. of juice; and

(iii) *Brix-acid ratio.* Not less than 9 to 1 if the Brix is 11.5° or more; not less than 10 to 1 if the Brix is less than 11.5°; and not more than 18 to 1.

(2) *Style II, Sweetened (or with added sweetening ingredient)*—(i) *Brix.* Not less than 10.5°: *Provided,* That, if the acidity is 0.90 gram or more per 100 ml. of juice, the Brix shall be not less than 11.5°.

(ii) *Acid.* Not less than 0.75 gram nor more than 1.45 grams per 100 ml. of juice: *Provided,* That when the canned orange juice has a color that scores 38 to 40 points, the acidity may be not less than 0.70 gram per 100 ml. of juice; and

(iii) *Brix-acid ratio.* Not less than 11 to 1 if the Brix is 12.5° or more; not less than 12 to 1 if the Brix is less than 12.5°; and not more than 18 to 1: *Provided,* That when the Brix is 15° or more, the Brix-acid ratio may be less than 11 to 1.

(b) *(C) classification.* If the canned orange juice possesses a good flavor, a score of 28 to 33 points may be given. Canned orange juice that falls into this classification shall not be graded above U. S. Grade C or U. S. Standard, regardless of the total score for the product (this is a limiting rule). "Good flavor" means a good, normal canned orange juice flavor which may have a slightly carmelized or slightly oxidized flavor but is free from off flavors of any kind and meets the following requirements for the respective style:

(1) *Style I, Unsweetened (or natural juice)*—(i) *Brix.* Not less than 10.0°;

(ii) *Acid.* Not less than 0.55 gram nor more than 1.60 grams per 100 ml. of juice; and

(iii) *Brix-acid ratio.* Not less than 9.0 to 1.

(2) *Style II, Sweetened (or with added sweetening ingredient)*—(i) *Brix.* Not less than 10.5°: *Provided,* That if the acidity is 0.90 gram or more per 100 ml. of juice, the Brix shall be not less than 11.5°.

(ii) *Acid.* Not less than 0.65 gram nor more than 1.65 grams per 100 ml. of juice; and

(iii) *Brix-acid ratio.* Not less than 11 to 1 if the Brix is 12.5° or more; not less than 12 to 1 if the Brix is less than 12.5°: *Provided,* That when the Brix is 15° or more, the Brix-acid ratio may be less than 11 to 1.

(c) *(SStd) classification.* Canned orange juice that fails to meet the requirements of paragraph (b) of this section, or is off flavor for any reason, may be given a score of 0 to 27 points and shall not be graded above Substandard, regardless of the total score for the product (this is a limiting rule).

EXPLANATIONS AND METHODS OF ANALYSES

§ 52.1560 *Definitions of terms and methods of analyses*—(a) *Brix.* "Brix" means the degrees Brix of canned orange juice when tested with a Brix hydrometer calibrated at 20 degrees C. (68 degrees F.). If used in testing juice at a temperature other than 20 degrees C. (68 degrees F.) the applicable temperature correction shall be made to the reading of the scale as prescribed in the "Official Methods of Analysis of the Association of Official Agricultural Chemists." The degrees Brix of canned orange juice may be determined by any other method which gives equivalent results.

(b) *Acid.* "Acid" means the grams of total acidity, calculated as anhydrous citric acid, per 100 ml. of canned orange juice. Total acidity is determined by titration with standard sodium hydroxide solution using phenolphthalein as indicator.

(c) *Recoverable Oil.* "Recoverable oil" in canned orange juice is determined by the following method:

(1) *Equipment.* Oil separatory trap similar to either of those illustrated in Figure 1 or Figure 2.[1]

Gas burner or hot plate.
Ringstand and clamps.
Rubber tubing.
3-liter narrow-neck flask.

(2) *Procedure.* (i) Exactly 2 liters of juice are placed in a 3-liter flask. Close the stopcock, place distilled water in the graduated tube, run cold water through the condenser from bottom to top, and bring the juice to a boil. Boiling is continued for one hour at the rate of approximately 50 drops per minute.

(ii) By means of the stopcock, lower the oil into the graduated portion of the separatory trap, remove the trap from the flask, allow it to cool, and record the amount of oil recovered.

(iii) The number of milliliters of oil recovered divided by 20 equals the percent by volume of recoverable oil.

[1] Filed as part of the original document.

LOT CERTIFICATION TOLERANCES

§ 52.1561 *Tolerances for certification of officially drawn samples.* (a) When certifying samples that have been officially drawn and which represent a specific lot of canned orange juice the grade for such lot will be determined by averaging the total scores of the containers comprising the sample, if, (1) all containers comprising the sample meet all applicable standards of equality promulgated under the Federal Food, Drug, and Cosmetic Act and in effect at the time of the aforesaid certification; and (2) with respect to those factors which are scored:

(i) Not more than one-sixth of the containers fails to meet the grade indicated by the average of such total scores;

(ii) None of the containers falls more than 4 points below the minimum score for the grade indicated by the average of such total scores;

(iii) None of the containers falls more than one grade below the grade indicated by the average of such total scores; and

(iv) The average score of all containers for any factor subject to a limiting rule is within the score range of that factor for the grade indicated by the average of the total scores of the containers comprising the sample.

SCORE SHEET

DEHYDRATED GRAPEFRUIT JUICE [1]

U. S. STANDARDS FOR GRADES

Notice is hereby given that the United States Department of Agriculture is considering the issuance of United States Standards for Grades of Dehydrated Grapefruit Juice pursuant to the authority contained in the Agricultural Marketing Act of 1946 (60 Stat. 1087 et seq.; 7 U. S. C. 1621 et seq.). This issuance, if made effective, will be the first issue by the Department of grade standards for this product.

All persons who desire to submit written data, views or arguments for consideration in connection with the proposed standards should file same with the Chief, Processed Products Standardization and Inspection Branch, Fruit and Vegetable Division, Agricultural Marketing Service, U. S. Department of Agriculture, Washington 25, D. C., not later than 30 days after publication hereof in the FEDERAL REGISTER.

The proposed standards are as follows:

PRODUCT DESCRIPTION, STYLES, AND GRADES

Sec.
52.3021 Product description.
52.3022 Styles of dehydrated grapefruit juice.
52.3023 Grades of dehydrated grapefruit juice.

FACTORS OF QUALITY

52.3024 Ascertaining the grade.
52.3025 Ascertaining the rating for the factors which are scored.
52.3026 Color.
52.3027 Defects.
52.3028 Flavor.

EXPLANATIONS AND METHODS OF ANALYSES

52.3029 Definition of terms.
52.3030 Methods of analyses.

LOT CERTIFICATION TOLERANCES

52.3031 Tolerances for certification of officially drawn samples.

SCORE SHEET

52.3032 Score sheet for dehydrated grapefruit juice.

AUTHORITY: §§ 52.3021 to 52.3032 issued under sec. 205, 60 Stat. 1090, as amended; 7 U. S. C. 1624.

PRODUCT DESCRIPTION, STYLES, AND GRADES

§ 52.3021 *Product description.* Dehydrated grapefruit juice (Crystals) is the product initially obtained from clean, sound, mature fruit of the grapefruit tree (Citrus paradisi). The fruit is prepared by sorting and by washing prior to extraction of the juice; the extracted juice is concentrated and single-strength grapefruit juice extracted from sorted and washed fruit may or may not be admixed to the concentrate. The concentrated grapefruit juice is processed in accordance with good commercial practice and may be dehydrated immediately or frozen and stored at suitable temperatures. The concentrated grapefruit juice to which an amount of sodium bisulfite may have been added is dehydrated in accordance with good commercial practice. Cold-pressed grapefruit oil, granules of sorbitol, or other nutritive sweetening ingredients may be added to the product in such amounts as to provide a proper flavor to the reconstituted product. The product thus prepared is packaged with a desiccant in hermetically sealed containers and held at proper temperatures to assure stabilization of the product. The dehydrated grapefruit juice reconstitutes into single-strength grapefruit juice. The sulfur dioxide content of the dehydrated grapefruit juice is not less than 100 p. p. m. nor more than 250 p. p. m.

§ 52.3022 *Styles of dehydrated grapefruit juice.* (a) Style I (unsweetened) contains no added sweetening ingredients except sorbitol. Dehydrated grapefruit juice of this style tests not less than 9 degrees Brix when properly reconstituted.

(b) Style II (sweetened) contains sufficient nutritive sweetening ingredient or sweetening ingredients to produce a Brix measurement of not less than 11.5 degrees Brix when properly reconstituted

§ 52.3023 *Grades of dehydrated grapefruit juice.* (a) "U. S. Grade A" or "U. S. Fancy" is the quality of dehydrated grapefruit juice that contains not more than 3 percent, by weight, of moisture; has a porous open structure free from lumps or other signs of caking; and which dissolves readily in water to produce a grapefruit juice that is reasonably characteristic in appearance to fresh grapefruit juice. The reconstituted juice possesses a very good color; is practically free from defects; possesses a good flavor; and scores not less than 85 points when scored in accordance with the scoring system outlined in this subpart.

(b) "U. S. Grade B" or "U. S. Choice" is the quality of dehydrated grapefruit juice that contains not more than 3 percent, by weight, of moisture; has a reasonably porous open structure free from lumps; and which dissolves reasonably readily in water to produce a grapefruit juice that is fairly characteristic in appearance to fresh grapefruit juice. The reconstituted juice possesses a good color; is reasonably free from defects; possesses a reasonably good flavor; and scores not less than 70 points when scored in accordance with the scoring system outlined in this subpart.

FACTORS OF QUALITY

§ 52.3024 *Ascertaining the grade*—(a) *General.* In addition to considering other requirements outlined in the standards, the following quality factors are evaluated:

(1) *Factors not rated by score points.* (i) Moisture content.

(ii) Physical condition and faculty of dissolving readily in water.

(2) *Factors rated by score points.* The relative importance of each factor which is scored is expressed numerically on the scale of 100. The maximum number of points that may be given each such factor is:

Factors:	Points
Color	40
Defects	20
Flavor	40
Total score	100

§ 52.3025 *Ascertaining the rating for the factors which are scored.* The essential variations within each factor which is scored are so described that the value may be ascertained for such factors and expressed numerically. The numerical range within each factor which is scored is inclusive. (For example, "17 to 20 points" means 17, 18, 19, or 20 points). The rating is ascertained immediately after the product has been reconstituted to single-strength grapefruit juice.

§ 52.3026 *Color*—(a) *(A) classification.* Dehydrated grapefruit juice of which the reconstituted juice possesses a very good color may be given a score of 34 to 40 points. "Very good color" means that the color is bright and typical of juice freshly extracted from properly matured grapefruit and is free from discoloration of any kind.

(b) *(B) classification.* If the reconstituted juice possesses a good color a score of 28 to 33 points may be given. Dehydrated grapefruit juice that falls into this classification shall not be graded above U. S. Grade B or U. S. Choice regardless of the total score for the product, (this is a limiting rule), "Good color" means that the color is fairly typical of juice extracted from properly matured grapefruit which juice may be dull but is not off-color for any reason.

(c) *(SStd) classification.* If the reconstituted juice fails to meet the requirements of paragraph (b) of this section a score of 0 to 27 points may be given and the product shall not be graded above Substandard regardless of the total score for the product, (this is a limiting rule).

§ 52.3027 *Defects*—(a) *General.* The factor of defects refers to the degree of freedom from seeds or portions thereof, pulp, dark specks, improperly rehydrated grapefruit material, or other defects that affect the appearance or drinking quality of the reconstituted juice.

(b) *(A) classification.* Dehydrated grapefruit juice of which the reconstituted juice is practically free from defects may be given a score of 17 to 20 points. "Practically free from defects" means that the appearance and drinking quality of the juice is not materially affected by defects.

(c) *(B) classification.* If the reconstituted juice is only reasonably free from defects a score of 14 to 16 points may be given. Dehydrated grapefruit juice that falls into this classification shall not be graded above U. S. Grade B or U. S. Choice regardless of the total score for the product (this is a limiting rule). "Reasonably free from defects" means that the appearance and drinking quality of the juice is not seriously affected by defects.

(d) *(SStd) classification.* Dehydrated grapefruit juice that fails to meet the requirements of paragraph (c) of this section may be given a score of 0 to 13 points and shall not be graded above Substandard regardless of the total score for the product (this is a limiting rule).

§ 52.3028 *Flavor*—(a) *(A) classification.* Dehydrated grapefruit juice of which the reconstituted juice possesses a good flavor may be given a score of 34 to 40 points. "Good flavor" means that the reconstituted dehydrated grapefruit juice has a flavor typical of properly processed, good canned grapefruit juice which is free from off-flavors of any kind. To score in this classification the reconstituted juice shall meet the following requirements:

(1) Recoverable oil—not less than 0.006 nor more than 0.012 milliliters per 100 ml.

(2) Acid—not less than 0.85 gram per 100 milliliters.

(3) Brix-acid ratio for the respective style:

(i) Style I (unsweetened)—not less than 8 to 1 nor more than 14 to 1;

(ii) Style II (sweetened)—not less than 11.0 to 1 nor more than 14 to 1.

(b) *(B) classification.* If the reconstituted juice possesses a reasonably good flavor a score of 28 to 33 points may be given. Dehydrated grapefruit juice that falls into this classification shall not be graded above U. S. Grade B or U. S. Choice regardless of the total score for the product (this is a limiting rule). "Reasonably good flavor" means that the reconstituted dehydrated grapefruit juice has a flavor reasonably typical of canned grapefruit juice and is free from off-flavors of any kind. To score in this classification the reconstituted juice shall meet the following requirements:

(1) Recoverable oil—not less than 0.008 nor more than 0.020 ml. per 100 ml.

(2) Acid—not less than 0.70 gram per 100 ml.

(3) Brix-acid ratio for the respective styles:

(i) Style I (unsweetened)—not less than 7 to 1 nor more than 14 to 1.

(ii) Style II (sweetened)—not less than 11 to 1 nor more than 14 to 1.

(c) *(SStd) classification.* Dehydrated grapefruit juice that fails to meet the requirements of paragraph (b) of this section may be given a score of 0 to 27 points and shall not be graded above U. S. Grade C or U. S. Choice regardless of the total score for the product (this is a limiting rule).

EXPLANATIONS AND METHODS OF ANALYSES

§ 52.3029 *Definition of terms.* (a) "Reconstituted juice" means the product obtained by dissolving an entire package of dehydrated grapefruit juice in the volume of water specified by the manufacturer.

(b) "Dissolves readily" means that (1) the product dissolves readily in the prescribed amount of cold water with only a reasonable amount of stirring, (2) the fruit particles rehydrate readily, and (3) there is no rapid separation of colloidal or suspended matter.

(c) "Dissolves reasonably readily" means that (1) the product may require excessive stirring, beating or whipping to dissolve the solids, (2) fruit particles may not rehydrate readily, and/or (3) colloidal or other suspended material is not held in suspension for a reasonable length of time.

(d) "Acid" means the percent, by weight, of acid (calculated as anhydrous citric acid) in the reconstituted grapefruit juice and is determined by titration with standard sodium hydroxide solution using phenolphthalein as indicator.

(e) The "Brix" of the reconstituted juice means the degree Brix as determined by the Brix hydrometer calibrated at 20 degrees Centigrade (68 degrees Fahrenheit) and to which any applicable temperature correction has been applied.

§ 52.3030 *Methods of analyses.* (a) "Recoverable oil" is determined by the following method:

(1) *Equipment.* Oil separatory trap similar to either of these illustrated in Figure 1 and Figure 2.[1]

Gas burner or hot plate.
Ringstand and clamps.
Rubber tubing.
Three-liter narrow-neck flask.

(2) *Procedure.* Place exactly 2 liters of the reconstituted juice in a 3-liter flask. Close the stopcock, place distilled water in the graduated tube, run cold water through the condenser from bottom to top, and bring the mixture to a boil. Continue boiling for one hour at the rate of approximately 50 drops per minute. By means of the stopcock, lower the oil into the graduated portion of the separatory trap, remove the trap from the flask; allow it to cool, and record the amount of oil recovered. The number of milliliters of oil recovered divided by 20 is equivalent to the number of milliliters of oil per 100 milliliters of the reconstituted juice.

(b) The "moisture content" of the dehydrated grapefruit juice is determined as follows:

(1) A 3- to 5-gram sample is weighed into an aluminum weighing dish 1½ to 2 inches in diameter, having a tight-fitting cover. The samples are dried in a vacuum oven for 30 hours at a temperature of 60 degrees centigrade (140 degrees F.) and a pressure not exceeding 100 mm of mercury. During the drying period air is passed through H_2SO_4 and admitted through the release cock at the rate of approximately two bubbles per second. At the end of the drying period the dishes are removed from the oven, the covers are placed on immediately and the dishes allowed to cool in a desiccator prior to final weighing. Sampling and weighing is carried out as rapidly as possible under low humidity conditions.

(c) The "sulfur dioxide" content of the dehydrated grapefruit juice is determined by the following method:

(1) The Monier-Williams method for total sulfurous acid as approved by the Association of Official Agricultural Chemists and using a 50-gram sample of the dehydrated grapefruit juice.

LOT CERTIFICATION TOLERANCES

§ 52.3031 *Tolerances for certification of officially drawn samples.* (a) When certifying samples that have been officially drawn and which represent a specific lot of dehydrated grapefruit juice the grade for such lot will be determined by averaging the total scores of the containers comprising the sample, if, (1) all containers comprising the sample meet all applicable standards of quality promulgated under the Federal Food, Drug, and Cosmetic Act and in effect at the time of the aforesaid certification; and (2) with respect to those factors which are scored;

(i) Not more than one-sixth of the containers fails to meet the grade indicated by the average of such total scores;

(ii) None of the containers falls more than 4 points below the minimum score for the grade indicated by the average of such total scores;

(iii) None of the containers falls more than one grade below the grade indicated by the average of such total scores; and

(iv) The average score of all containers for any factor subject to a limiting rule is within the score range of that factor for the grade indicated by the average of the total scores of the containers comprising the sample.

SCORE SHEET

§ 52.3032 *Score sheet for dehydrated grapefruit juice.*

Size and kind of container	
Container mark or identification	
Label (including dilution factor)	
Net weight	
Brix of the reconstituted juice	
Anhydrous citric acid (grams per 100 milliliters in the reconstituted juice)	
Brix-acid ratio	
Recoverable oil (ml./100 ml. of the reconstituted juice)	
Reconstitutes properly: (Yes) (No).	

Factors		Score points	
Color	40	(A)	34–40
		(B) [1]	28–33

[7 CFR Part 730]

RICE

NOTICE OF DETERMINATIONS TO BE MADE WITH RESPECT TO MARKETING QUOTAS, NATIONAL, STATE, AND COUNTY ACREAGE ALLOTMENTS, AND FORMULATION OF REGULATIONS PERTAINING TO FARM ACREAGE ALLOTMENTS AND NORMAL YIELDS FOR 1956 CROP

Pursuant to the authority contained in applicable provisions of the Agricul-

tural Adjustment Act of 1938, as amended (7 U. S. C. 1301, 1352, 1353, 1354), the Secretary of Agriculture is preparing to determine whether marketing quotas are required to be proclaimed for the 1956 crop of rice, to determine and proclaim the national acreage allotment for the 1956 crop of rice, to apportion among States and counties the national acreage allotment for the 1956 crop of rice, and to formulate regulations for establishing farm acreage allotments and normal yields for the 1956 crop of rice.

Section 354 of the act provides that whenever in the calendar year 1955 the Secretary determines that the total supply of rice for the 1955–56 marketing year will exceed the normal supply for such marketing year by more than 10 per centum, the Secretary shall, not later than December 31, 1955, proclaim such fact and marketing quotas shall be in effect for the crop of rice produced in 1956.

Section 352 of the act, as amended, provides that the national acreage allotment of rice for any calendar year shall be that acreage which the Secretary determines will, on the basis of the national average yield of rice for the five calendar years immediately preceding the calendar year for which such national acreage allotment is determined, produce an amount of rice adequate, together with the estimated carry-over from the marketing year ending in such calendar year, to make available a supply for the marketing year commencing in such calendar year not less than the normal supply but that the national allotment for 1956 may not be established at less than 85 per centum of the final allotment established for 1955. The Secretary is required under this section of the act to proclaim such national acreage allotment not later than December 31 of each year.

As defined in Section 301 of the act, for purposes of these determinations, "total supply" for any marketing year is the carryover of rice for such marketing year, plus the estimated production of rice in the United States during the calendar year in which such marketing year begins and the estimated imports of rice into the United States during such marketing year; "normal supply" for any marketing year is the estimated domestic consumption of rice for the marketing year ending immediately prior to the marketing year for which normal supply is being determined, plus the estimated exports of rice for the marketing year for which normal supply is being determined, plus 10 per centum of such consumption and exports, with adjustments for current trends in consumption and for unusual conditions as deemed necessary; and "marketing year" for rice is the period August 1–July 31.

Section 353 (a) of the act requires that the national acreage allotment of rice for the 1956 crop, less a reserve of not to exceed one per centum thereof, be apportioned among the several States in which rice is produced in proportion to the average number of acres of rice in each State during the 5-year period, 1951–1955 (plus, in applicable years, the acreage diverted under previous agricultural adjustment and conservation programs) with adjustments for trends in acreage during such period. Section 353 (b) of the act requires that the State acreage allotment of rice for the 1956 crop, less a reserve not to exceed three per centum thereof, be apportioned to farms owned or operated by persons who have produced rice in any one of the five calendar years, 1951 through 1955, on the basis of past production of rice in the State by the producer on the farm taking into consideration the acreage allotments previously established in the State for such owners or operators; abnormal conditions affecting acreage; land, labor, and equipment available for the production of rice; crop-rotation practices; and the soil and other physical factors affecting the production of rice. Provision is made that if the State committee recommends such action and the Secretary determines such action will facilitate the effective administration of the act, he may provide for the apportionment of the State acreage allotment to farms on which rice has been produced during any one of such period of years on the basis of the foregoing factors, using past production of rice on the farm and the acreage allotments previously established for the farm in lieu of past production of rice by the producer and the acreage allotments previously established for such owners or operators.

Section 353 (c) of the act provides that if farm acreage allotments are established by using past production of rice on the farm and the acreage allotments previously established for the farm in lieu of past production of rice by the producer and the acreage allotments previously established for owners or operators, the State acreage allotment shall be apportioned among counties in the State on the same basis as the national acreage allotment is apportioned among the States and the county allotments shall be apportioned to farms on the basis of applicable factors set forth in subsection (b) of Section 353.

Section 301 (b) (13) (D) of the act provides that the "normal yield" for any land planted to rice in 1956 shall be the average yield per acre thereof during the five calendar years 1951 through 1955. Provision is made that if for any reason there is no actual yield or the data therefor is not available for any year, an appraised yield for such year, determined in accordance with regulations of the Secretary, shall be used.

It is expected that the regulations pertaining to farm acreage allotments and normal yields for the 1956 crop of rice will be substantially the same as those for the 1955 crop of rice (20 F. R. 385), with the following exceptions:

1. In States where farm acreage allotments are established on the basis of the past production of rice in the State by producers on the farm, only the past production of rice by the producer in the particular State will be considered in establishing 1956 allotments. Similarly, only rice acreage allotments previously established for producers in the State will be given consideration in lieu of rice acreage allotments previously established for producers wherever situated. These changes are required by Public Law 292, 84th Congress (69 Stat. 578).

2. In accordance with Public Law 28, 84th Congress (69 Stat. 45), in States where farm acreage allotments are established on the basis of the past production of rice by producers on the farm in determining such past production, the acreage of rice on the farm for any year for which farm acreage allotments were in effect will be divided among the producers thereon in the same proportion in which they contributed to the farm acreage allotment.

Prior to making any of the foregoing determinations with respect to marketing quotas and national, State, and county acreage allotments for the 1956 crop of rice and the formulation of regulations for the establishment of farm acreage allotments and normal yields for the 1956 crop of rice consideration will be given to data, views, and recommendations pertaining thereto which are submitted in writing to the Director, Grain Division, Commodity Stabilization Service, United States Department of Agriculture, Washington 25, D. C. All written submissions must be postmarked not later than fifteen days after the date of publication of this notice in the FEDERAL REGISTER.

Issued at Washington, D. C., this 5th day of December 1955.

[SEAL] EARL M. HUGHES,
Administrator.

FEDERAL COMMUNICATIONS COMMISSION

[47 CFR Part 3]

[Docket No. 11559; FCC 55-1188]

ALASKA

FREQUENCY ALLOCATIONS

In the matter of Amendment of Parts 2 and 3 of the Commission's rules and regulations to revise frequency allocations in the Territory of Alaska in the band 72–100 Mc.

1. Notice is hereby given of rule making in the above-entitled matter.

2. On September 7, 1955, the Commission adopted an order (FCC 55-931), effective October 12, 1955, in this proceeding, which, in part, amended Part 2 and Part 3 of the Commission's rules so as to reallocate in the Territory of Alaska only the frequency band 76–100 Mc for the exclusive use of Government radio services and the non-Government fixed service. Prior to the adoption of the above order, this band of frequencies was available for assignment to FM and TV broadcast stations in the Territory of Alaska.

3. Among the amendments adopted in the above order, §§ 3.203 and 3.204 of the rules were revised so as to prohibit the assignment of frequencies for FM broadcast stations in the 88.1 Mc through 99.9 Mc band (Channels 201 through 260) in the Territory of Alaska. Since the only frequencies allocated for noncommercial educational FM broadcasting in § 3.501 of the rules are 88.1 Mc through 91.9 Mc, and these frequencies are among those which have been reallocated in Alaska, there are now no frequencies available for noncommercial educational FM broadcast use in Alaska.

4. The Commission proposes to conform § 3.501 with Part 2 and §§ 3.203 and 3.204, as revised, and also to provide therein that the frequencies allotted for commercial FM broadcast use in the 100.1–107.9 Mc band (Channels 261 through 300) will also be available for noncommercial educational FM broadcasting in Alaska. To date, no FM broadcast assignments have been made in Alaska, and we are of the view that this band of frequencies can accommodate all the commercial and noncommercial educational FM broadcast assignments which may be required in Alaska in the future.

5. In view of the foregoing, it is proposed to amend § 3.501 of the Commission's rules as follows:

a. Insert the paragraph designator (a) after the title of § 3.501.

b. Add a new paragraph (b) to read as follows:

(b) In the Territory of Alaska, the frequency band 88–100 Mc is allocated to Government radio services and the non-Government fixed service only. The frequencies 88.1 Mc through 91.9 Mc (Channels 201 through 220, inclusive) will not be assigned in the Territory of Alaska for use by noncommercial educational FM broadcast stations; however, frequencies in the 100.1–107.9 Mc band (Channels 261 through 300, inclusive) will be assigned for such use.

6. Authority for the issuance of the proposed amendment is contained in sections 4 (i), 303 (c), (g) and (r) of the Communications Act of 1934, as amended.

7. Any interested party who is of the opinion that the amendment proposed should not be adopted, or should not be adopted in the form set forth herein, may file with the Commission on or before January 2, 1956, a written statement or brief setting forth his comments. Comments in support of the proposed amendments may also be filed on or before the same date. Comments or briefs in reply to the original comments may be filed within 10 days from the last day for filing said original comments or briefs. No additional comments may be filed unless (1) specifically requested by the Commission or (2) good cause for the filing of such additional comments is established. The Commission will consider such comments before taking final action in this matter, and if any comments appear to warrant the holding of a hearing or oral argument, notice of the time and place of such hearing or oral argument will be given.

8. In accordance with the provisions of § 1.764 of the Commission's rules and regulations, an original and 14 copies of all statements, briefs, or comments shall be furnished the Commission.

Adopted: November 30, 1955.

Released: December 5, 1955.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

[F. R. Doc. 55-9863; Filed, Dec. 7, 1955; 8:50 a. m.]

[47 CFR Part 16]

[Docket No. 11558; FCC 55-1186]

LAND TRANSPORTATION RADIO SERVICES

AUTOMOBILE EMERGENCY RADIO SERVICE

Amendment of Subpart K of Part 16 of the Commission's Rules Governing the Land Transportation Radio Services.

1. Notice is hereby given of proposed rule making in the above-entitled matter.

2. The provisions governing permissible communications in the Automobile Emergency Radio Service are contained in § 16.502 (a) and (b) of Part 16 of the Commission's rules. At present, only the two following types of communications are authorized:

a. Any communications related to the safety of life or the protection of important property.

b. Communications required for dispatching repair trucks to disabled vehicles.

A petition filed by the American Automobile Association requests that automobile clubs authorized in the Automobile Emergency Radio Service be permitted to use their licensed radio facilities to observe and report traffic conditions from the air. The purpose of this proposed use of radio is described as to improve the safety of vehicular traffic and avoid unnecessary arterial congestion on holidays, weekends and other occasions of abnormal vehicular traffic movement.

3. It is believed that the above petition warrants the institution of a rule making proceeding looking toward modification of the existing rules governing the Automobile Emergency Radio Service, to provide for the limited use of radio by associations of owners of private automobiles for the secondary purpose of reporting on traffic conditions both from aircraft and from vehicles on the ground. Accordingly, it is proposed to amend the appropriate sections of Subpart K, Part 16, of the Commission's Rules governing the Land Transportation Radio Services to provide for the secondary usage of certain frequencies by associations of owners of private automobiles for the purpose of reporting on traffic conditions during periods of abnormal traffic movement. In the case of mobile units aboard aircraft, it is proposed to permit the use of the frequencies 452.55 or 457.55 Mc only. The proposed amendments are as follows:

1. Amend § 16.502 *Permissible communications* by the addition of a new paragraph (c) to read as follows:

(c) Associations of owners of private automobiles which provide emergency road service may, on a secondary basis, transmit communications for the purpose of reporting traffic conditions on occasions of abnormal vehicular congestion. Such communications are authorized only on a non-interference basis to those authorized in paragraphs (a) and (b) of this section.

2. Delete the present § 16.503 *Frequencies available for base and mobile stations* and substitute a new section to read as follows:

§ 16.503 *Frequencies available for base and mobile stations.* (a) The frequencies 35.70 and 35.98 Mc are primarily available for assignment to Base Stations and to Mobile Stations, other than those aboard aircraft, which are operated by public garages. In addition, at the discretion of the Commission, these frequencies may be assigned to Base Stations and to Mobile Stations other than those aboard aircraft, which are operated by or on behalf of associations of owners of private automobiles, upon a showing that: (1) The same applicant has previously held an authorization for the operation of a station or stations in the same area on that frequency, or (2) one or both of the frequencies specified in paragraph (b) of this section are currently assigned to stations operated in the same area by or on behalf of another such association with which the applicant is not directly affiliated.

(b) For the purpose of developmental operations, the following frequencies are available for assignment to Base Stations and to Mobile Stations, including those aboard aircraft, which are operated by or on behalf of associations of owners of private automobiles:

Base and Mobile	*Mobile*
Mc	*Mc*
452.55	457.55

4. Petitioner has indicated that close cooperation will be maintained with the police authorities in all areas where the airborne scheme is put into operation. However, the proposed rules do not now include any specific requirement in this regard. The Commission would appreciate the views of police departments, particularly with regard to this aspect of the proposal.

5. Authority for this proposed amendment is contained in sections 4 (i), 303 (b), (f) and (r) of the Communications Act of 1934, as amended.

6. Any interested person who is of the opinion that the proposed amendment should not be adopted, or should not be adopted in the form set forth herein, may file with the Commission on or before December 30, 1955, written data, views or arguments setting forth his comments. Comments in support of the proposed amendment may also be filed on or before the same date. Comments in reply to the original comments may be filed 10 days from the last day for filing the said original data, views or arguments. No additional comments may be filed unless (1) specifically re-

quested by the Commission or (2) good cause for the filing of such additional comments is established. The Commission will consider all such comments prior to taking final action in this matter, and if comments are submitted warranting oral argument, notice of the time and place of such oral argument will be given.

7. In accordance with the provisions of § 1.764 of the Commission's rules and regulations an original and 14 copies of all statements, briefs or comments filed shall be furnished the Commission.

Adopted: November 30, 1955.

Released: December 5, 1955.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

NOTICES

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[Document 72]

ARIZONA

NOTICE OF PROPOSED WITHDRAWAL AND RESERVATION OF LANDS

DECEMBER 1, 1955.

The Bureau of Public Roads has filed an application, Serial No. Arizona 06615, for the withdrawal of the lands described below, from all forms of appropriation including the mining and mineral leasing laws. The applicant desires the land for road construction materials for use on a portion of Arizona Forest Highway Route 19, near Beaverhead Lodge.

For a period of 30 days from the date of publication of this notice, persons having cause may present their objections in writing to the undersigned official of the Bureau of Land Management, Department of the Interior, 233–A Main Post Office Building, Phoenix, Arizona.

If circumstances warrant it, a public hearing will be held at a convenient time and place, which will be announced.

The determination of the Secretary on the application will be published in the FEDERAL REGISTER. A separate notice will be sent to each interested party of record.

The lands involved in the application are:

GILA AND SALT RIVER MERIDIAN

T. 8½ N., R. 30 E., unsurveyed,
Sec. 14: S½SE¼NE¼SW¼, S½SW¼NE¼SW¼, N½NE¼SE¼SW¼, N½NW¼SE¼SW¼.

The area described totals 20 acres in the Apache National Forest.

E. R. TRAGITT,
State Lands and Minerals, Staff Officer.

NOTICE OF PROPOSED WITHDRAWAL AND RESERVATION OF LANDS

DECEMBER 1, 1955.

The Bureau of Public Roads has filed an application, Serial No. Arizona 08965, for the withdrawal of the lands described below, from all forms of appropriation including the mining and mineral leasing laws. The applicant desires the land for a source of materials for construction of Forest Highway 3 on the Flagstaff-Clints Well Route.

For a period of 30 days from the date of publication of this notice, persons having cause may present their objections in writing to the undersigned official of the Bureau of and Management, Department of the Interior, 233–A Main Post Office Building, Phoenix, Arizona.

If circumstances warrant it, a public hearing will be held at a convenient time and place, which will be announced.

The determination of the Secretary on the application will be published in the FEDERAL REGISTER. A separate notice will be sent to each interested party of record.

The lands involved in the application are:

GILA AND SALT RIVER MERIDIAN

T. 19 N., R. 9 E.,
Sec. 28: S½NE¼SW¼, N½SE¼SW¼, SW¼NW¼SE¼, NW¼SW¼SE¼.

The area described totals 60 acres in the Coconino National Forest.

E. R. TRAGITT,
State Lands and Minerals, Staff Officer.

[Doc. 10, California State Office]

CALIFORNIA

RESTORATION ORDER UNDER FEDERAL POWER ACT

DECEMBER 1, 1955.

Pursuant to determination DA–887–California, of the Federal Power Commission, and in accordance with Order No. 541, section 2.5 of the Director, Bureau of Land Management, approved April 21, 1954 (19 F. R. 2473–2476), *It is ordered* as follows:

The lands hereinafter described, so far as they are reserved for power purposes, are hereby restored to disposition under the public land laws subject to provisions of section 24 of the Federal Power Act of June 10, 1920 (41 Stat. 1075; 16 U. S. C. 818), as amended.

MOUNT DIABLO MERIDIAN

T. 35 N., R. 9 W.,
Section 28, E½E½NE¼SW¼.

The area described totals 10 acres of land within the boundaries of the Trinity National Forest.

The land was withdrawn pursuant to the filing on September 13, 1921, of an application for a preliminary permit under the Federal Power Act for proposed water-power Project No. 247.

Any disposition of the lands described herein shall be subject to the stipulation that if and when the land is required in whole or in part for power development purposes, any structures or improvements placed thereon which may be found to obstruct or interfere with such development, shall without cost, expense, or delay to the United States, its licensees or permittees, be removed or relocated insofar as may be necessary to eliminate interference with such power development.

The lands described shall be subject to application by the State of California for a period of 90 days from the date of publication of this order in the FEDERAL REGISTER for right-of-way for public highways or as a source of material for construction and maintenance of such highways, in accordance with and subject to the provisions of section 24 of the Federal Power Act, as amended, and the special stipulation provided in the preceding paragraph. Upon publication of this order in the FEDERAL REGISTER, the land described shall be subject to operation of the public land laws relating to National Forests, subject to the right of the State of California, as provided in this paragraph.

The land is within the exterior limits of the Trinity National Forest, and is therefore not subject to the provisions of the Act of September 27, 1944 (58 Stat. 747; 43 U. S. C. 279–284), as amended, granting preference rights to veterans of World War II, and others.

Inquiries relating to these lands shall be addressed to the Manager, Land Office, Room 352 New Federal Building, Sacramento, California.

R. R. BEST,
State Supervisor.

[Wisc. 61340]

WISCONSIN

NOTICE OF FILING OF PLAT OF SURVEY AND ORDER PROVIDING FOR OPENING OF PUBLIC LANDS

1. Plats of survey of omitted lands described below will be officially filed in the Eastern States Land Office, Washington, D. C., effective at 10:00 a. m., on January 6, 1956.

FOURTH PRINCIPAL MERIDIAN, WISCONSIN

T. 37 N., R. 10 E.,
Sec. 29, lot 5;
Sec. 30, lot 9.

The area described aggregates 34.49 acres.

2. Available information indicates that the lands are of a sandy loam formation reaching an elevation of 25 feet above the level of Snowden Lake; that the timbered portion has a cover of second growth spruce, balsam, cedar and white pine, with an alder undergrowth.

3. The above-described lands are hereby opened to disposal only under the Act of February 27, 1925 (43 Stat. 1013, 43 U. S. C. 994) and the Act of August 24, 1954 (68 Stat. 789). Claimants under the 1925 act, supra, have a preferred right of application for a period of 90 days from January 6, 1956. Applications for public lands under the 1954 act, supra, must be filed within one year from January 6, 1956. No patents will be issued for the above-described lands prior to January 7, 1957.

4. Any of the above-described lands not patented under the acts of 1925 and 1954, supra, shall not become subject to disposal under the general public land laws until it is so provided by an appropriate order.

5. Inquiries concerning the above-described lands shall be addressed to the Acting Manager, Eastern States Land Office, Bureau of Land Management, Department of the Interior, Washington 25, D. C.

CHARLES P. MEAD,
Acting Manager.

[F. R. Doc. 55–9838; Filed, Dec. 7, 1955; 8:46 a. m.]

COLORADO

NOTICE OF PROPOSED WITHDRAWAL AND RESERVATION OF LANDS

DECEMBER 2, 1955.

The Department of Agriculture, U. S. Forest Service, has filed an application, serial No. Colorado 012292, for the withdrawal from location and entry, under the General Mining Laws, subject to existing valid claims, of the lands described below.

The applicant desires the land for use as public service sites along Colorado Highways No. 7, 14, 119, and 160, and Brainard Lake Truck Trail No. 462.

For a period of 30 days from the date of publication of this notice, persons having cause may present their objections in writing to the undersigned official of the Bureau of Land Management, Department of the Interior, 357 New Custom House, Box 1018, Denver 1, Colorado.

If circumstances warrant it, a public hearing will be held at a convenient time and place, which will be announced.

The determination of the Secretary on the application will be published in the FEDERAL REGISTER. A separate notice will be sent to each interested party of record.

The lands involved in the application are:

SIXTH PRINCIPAL MERIDIAN, COLORADO

CENTRAL NEW YORK BROADCASTING CORP.

ORDER ADVANCING HEARING DATE

In re application of Central New York Broadcasting Corporation, Elmira, New York, Docket No. 11533, File No. BPCT-2000; for construction permit for new television broadcast station (Channel 18).

The Hearing Examiner having under consideration a motion to advance hearing date filed November 28, 1955, on behalf of Central New York Broadcasting Corporation, requesting (1) an advancement of the date for commencement of the hearing from January 3, 1956, to December 13, 1955; (2) a waiver of the prehearing conference and other prehearing procedures provided for by sections 1.813 and 1.841 of the Commission's rules; and (3) the scheduling of December 5, 1955, as the date for the applicant to exchange its written direct affirmative case exhibits; and

It appearing that another application that had been designated for comparative hearing in this proceeding (Docket Number 11534) was dismissed by order dated November 30, 1955; and

It further appearing that the motion is supported by good cause, that a grant thereof will conduce to the orderly dispatch of the Commission's business, and that Bureau counsel has informally expressed consent to waiver of time and to a grant of the instant motion; now therefore

It is ordered, This 1st day of December 1955, that the motion to advance hearing date is granted, that applicant's written direct affirmative case exhibits shall be exchanged on or before December 5, 1955, and that the date for the commencement of the hearing in this proceeding is advanced from January 3, 1956, to December 13, 1955.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

[Docket No. 11560, etc.; FCC 55-1192]

OLE MISSISSIPPI BROADCASTING CO. (WSUH) ET AL.

ORDER DESIGNATING APPLICATIONS FOR CONSOLIDATED HEARING ON STATED ISSUES

In re applications of E. O. Roden, W. I. Dove and G. A. Pribbenow d/b as Ole Mississippi Broadcasting Company (WSUH), Oxford, Mississippi, Docket No. 11560, File No. BP-9847; East Arkansas Broadcasters, Inc., Wynne, Arkansas, Docket No. 11561, File No. BP-9872; Warren L. Moxley, Blytheville, Arkansas, Docket No. 11562, File No. BP-9922; Sam C. Phillips, Clarence A. Camp and James C. Connolly d/b as Tri-State Broadcasting Service (WHER), Memphis, Tennessee, Docket No. 11563, File No. BMP-6837; for construction permits.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 30th day of November 1955;

The Commission having under consideration the above-entitled applications of the Ole Mississippi Broadcasting Company to change the frequency of Station WSUH, Oxford, Mississippi, from 1420 kilocycles to 1430 kilocycles with a power of one kilowatt, daytime only (contingent on the grant of the application of the Tri-State Broadcasting Service for a change in frequncy of Station WHER); East Arkansas Broadcasters, Inc., for a construction permit for a new standard broadcast station to operate on 1400 kilocycles with a power of 250 watts, unlimited time, at Wynne, Arkansas; Warren L. Moxley for a construction permit for a new standard broadcast station to operate on 1410 kilocycles with a power of 500 watts, daytime only, at Blytheville, Arkansas; and the Tri-State Broadcasting Service to change the frequency and increase the power of Station WHER, Memphis, Tennessee, from 1430 kilocycles with a power of one kilowatt, daytime only, to 1410 kilocycles with a power of 5 kilowatts, daytime only (contingent on the grant of the application of the Ole Mississippi Broadcasting Company for a change in frequency of Station WSUH);

It appearing that each of the applicants is legally, technically, financially and otherwise qualified, except as may appear from the issues specified below, to operate its proposed station but that the proposed operations of Warren L. Moxley and Station WHER would result in mutually destructive interference; that the applications of WSUH and WHER are contingent on each other; and that the proposed operations of East Arkansas Broadcasters, Inc., and Tri-State Broadcasting Service would cause interference to each other to the extent that more than 10 percent of the population within the proposed normally protected primary service areas of both operations would be affected in violation of section 3.28 (c) of the Commission's rules; and

It further appearing that pursuant to section 309 (b) of the Communications Act of 1934, as amended, the subject applicants were advised by letter dated September 23, 1955, of the aforementioned deficiencies and that the Commission was unable to conclude that a grant of any of the applications would be in the public interest; and

It further appearing that a timely reply was filed by each of the applicants, and each of the applicants recognized the mutual interference problems involved; and

It further appearing that the East Arkansas Broadcasters, Inc., in a letter dated October 21, 1955, requested an extension of time in which to file an amendment specifying a different frequency, but that the Commission is of the opinion that it would be expeditious to deny the request for extension, as leave to amend may be granted for good cause shown after designation for hearing; and

It further appearing that the Commission, after consideration of the above replies, is of the opinion that a hearing is necessary;

It is ordered, That, pursuant to section 309 (b) of the Communications Act of 1934, as amended, the said applications are designated for hearing in a consolidated proceeding, at a time and place to be specified in a subsequent order, upon the following issues:

1. To determine the areas and populations which would receive primary service from the proposed operations of East Arkansas Broadcasters, Inc., and Warren L. Moxley, and the availability of other primary service to such areas and populations.

2. To determine areas and populations that would gain or lose primary service from the proposed operations of Stations WSUH and WHER, and the availability of other primary service to such areas and populations.

3. To determine whether the operations proposed by East Arkansas Broadcasters, Inc. and Tri-State Broadcasting Service would cause objectionable interference to each other; and, if so, the nature and extent thereof, the areas and populations affected thereby, and whether, because of the said interference, the proposed operations would comply with section 3.28 (c) of the Commission's rules.

4. To determine in the light of section 307 (b) of the Communications Act of 1934, as amended, which of the operations proposed in the above-entitled applications would better provide a fair, efficient and equitable distribution of radio service.

5. To determine, in the light of the evidence adduced pursuant to the foregoing issues, which, if any, of the applications should be granted.

It is further ordered, That the issues in the above-entitled proceeding may be enlarged by the Examiner on his own motion or on petition properly filed by a party to the proceeding and upon sufficient allegations of fact in support thereof, by the addition of the following issue:

To determine whether funds available to the applicant will give reasonable assurance that the proposal set forth in the application will be effectuated.

It is further ordered, That the request of East Arkansas Broadcasters, Inc. for additional time to amend its application is denied.

Released: December 2, 1955.

[Docket No. 11564 etc., FCC 55-1194]

MINERS BROADCASTING SERVICE, INC., ET AL.

ORDER DESIGNATING APPLICATIONS FOR CONSOLIDATED HEARING ON STATED ISSUES

In re applications of Miners Broadcasting Service, Inc., West Chester, Pennsylvania, Docket No. 11564, File No. BP-8925; Rollins Broadcasting of Delaware, Inc., Philadelphia, Pennsylvania, Docket No. 11565, File No. BP-9500; Lawrence M. C. Smith, d/b as Franklin Broadcasting Company, Philadelphia, Pennsylvania, Docket No. 11566, File No. BP-9633; for construction permits.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 30th day of November 1955;

The Commission having under consideration the above-entitled applications for construction permits for new standard broadcast stations to operate on 900 kilocycles, daytime only, by Miners Broadcasting Service, Inc., at West Chester, Pennsylvania, with a power of 500 watts; by Rollins Broadcasting of Delaware, Inc., and by Lawrence M. C. Smith, d/b as Franklin Broadcasting Company at Philadelphia, Pennsylvania, each with a power of 1 kilowatt employing a directional antenna; and pleadings filed by Miners Broadcasting Service, Inc., on November 5, 1954, entitled, "Petition to Reinstate Application and to Modify License of WJWL and Request for Comparative Hearing" wherein it is requested that the Commission direct Rollins Broadcasting, Inc., to show cause why the license of Station WJWL, Georgetown, Delaware, should not be modified so as to specify operation on 1250 kc in lieu of 900 kc; by Rollins Broadcasting of Delaware, Inc., on August 2, 1955, entitled, "Petition to Dismiss Applications of Miners Broadcasting Service, Inc., and Franklin Broadcasting Company and Immediate Grant of Rollins' Pending Application"; and by Wm. Penn Broadcasting Company, licensee of Station WPEN, Philadelphia, Pennsylvania, on December 14, 1955, entitled, "Petition to Designate [Rollins] Application for Hearing";

It appearing that each applicant is legally, technically, financially and otherwise qualified, except as may appear from the issues below, to operate its proposed station but that operation by all stations as proposed would result in mutually destructive interference; and

It further appearing that the proposal of Rollins Broadcasting of Delaware, Inc., would not provide satisfactory service to the city of Philadelphia since the 5 mv/m contour would not encompass the entire residential area of the city as required by the Commission's Standards of Good Engineering Practice; that a grant of the Rollins application might be in contravention of the provisions of section 3.35 of the Commission's rules on multiple ownership because of overlap with the service areas of Stations WJWL, Georgetown, Delaware, and WAMS, Wilmington, Delaware, which stations are licensed to Rollins; and

It further appearing that the proposal of Miners Broadcasting Service, Inc., would involve interference to and from Station WJWL to the extent that the interference received by this proposal would affect more than 10 percent of the population within its primary service area in contravention of section 3.28 (c) of the Commission's rules and that the interference received by WJWL would affect more than 10 percent of the population it now serves; and

It further appearing that pursuant to section 309 (b) of the Communications Act of 1934, as amended, the applicants were notified by letters dated April 22, 1955, and August 23, 1955, of the aforementioned deficiencies and that the Commission was unable to conclude that a grant of any of the applications would serve the public interest; and

It further appearing that a timely reply was filed by each of the applicants; and

It further appearing that in its petition filed on November 4, 1954, Miners requested reinstatement of its application, which was dismissed without prejudice on August 19, 1954, at the applicant's request; that originally the application was filed on a site-to-be-determined basis under the Commission's rules at that time; that Rollins opposes reinstatement on the grounds that dismissal left Miners with no rights to reinstatement on a site-to-be-determined basis now precluded by the rules; that on May 23, 1955, Miners tendered an amendment to its application specifying a site; that no reason now obtains for denying the request for reinstatement since the application as amended

could be filed de novo and receive consideration with the other subject applications; and

It further appearing, that in the above-described petition of Miners Broadcasting Service, Inc., requesting the Commission to issue an order requiring Rollins Broadcasting of Delaware, Inc., to show cause why the license of Station WJWL, Georgetown, Delaware, should not be modified to specify operation on 1250 kc instead of 900 kc, it is contended that the public interest would be served by making the 900 kilocycle channel available for assignment to West Chester because no other frequency is available for use in West Chester and because 900 kc is "peculiarly susceptible for assignment" to that city; that Rollins admitted the feasibility of WJWL's operation on 1250 kc when it filed contingent applications on September 24, 1954, for moving WJWL on 900 kc to Philadelphia and for a new standard broadcast station to operate on 1250 kc in Georgetown, Delaware, File Nos. BP-9500 and BP-9501; that in oppositions filed on December 6, 1954, and January 27, 1955, Rollins contended that it should not be subjected to the expense of changing the frequency of WJWL to 1250 kc because in order to maintain its present coverage it would have to increase power on 1250 kc and the estimated cost would approximate $50,000; and

It further appearing that the Commission believes that, as a matter of general policy, show cause orders requiring existing stations to defend their licensed assignments should be issued only under circumstances in which the advantages of the proposed change with respect to an efficient utilization of the frequencies involved are obvious and in which the public interest aspects are clearly defined; that a satisfactory showing has not been made by Miners Broadcasting Service, Inc., that there exists a public need sufficient to warrant the drastic action it seeks; that West Chester, Pennsylvania, is not an underserved area and presently receives primary service from ten existing stations; that the burden of a licensees compliance with a show cause order of this nature is substantial; that a satisfactory showing has not been made by Miners Broadcasting Service, Inc., that the ultimate advantages to the public in requiring WJWL to change its facilities to accommodate the establishment of an additional broadcast service for West Chester have not been demonstrated; and

It further appearing that in a petition filed on August 2, 1955, Rollins Broadcasting of Delaware, Inc., requested that the applications of Miners Broadcasting Service, Inc., and the Franklin Broadcasting Company be dismissed on the grounds that the operation proposed by each would cause extensive interference to WJWL and that, therefore, neither proposal could possibly be granted; that although said proposals may cause interference to WJWL, both applicants are entitled to a hearing on their respective applications with the question of interference to WJWL as one of the issues in the hearing; and

It further appearing that in its petition filed on December 4, 1954, the Wm. Penn Broadcasting Company, licensee of Station WPEN, Philadelphia, Pennsylvania, requested that the application of Rollins Broadcasting of Delaware, Inc. be designated for hearing on an issue designed to determine whether a grant of the Rollins application would be in contravention of section 3.35 of the Commission's rules; and

It further appearing that in an amendment dated October 26, 1955, the Franklin Broadcasting Company changed the location of its proposed station from Ardmore, Pennsylvania, to Philadelphia, Pennsylvania; that the amended proposal, as in the case of the Rollins proposal, would not provide satisfactory service to the city of Philadelphia since the 5 mv/m contour would not encompass the entire residential area of the city as required by the Commission's engineering standards; and that it has not yet been determined whether the antenna system proposed by the Franklin Broadcasting Company in its latest amendment would constitute a hazard to air navigation; and

It further appearing that the Commission, after consideration of the foregoing, is of the opinion that a consolidated hearing is necessary;

It is ordered, That the petition of Miners Broadcasting Service, Inc., for reinstatement of its application is granted and the amendment to the application filed on May 23, 1955, is accepted; and

It is further ordered, That the petition of Miners Broadcasting Service, Inc., requesting the Commission to direct Rollins Broadcasting of Delaware, Inc., to show cause why the frequency of Station WJWL should not be changed from 900 kilocycles to 1250 kilocycles is denied; and

It is further ordered, That the petition of Rollins Broadcasting of Delaware, Inc., requesting the Commission to dismiss the applications of Miners Broadcasting Service, Inc., and the Franklin Broadcasting Company is denied; and

It is further ordered, That, pursuant to section 309 (b) of the Communications Act of 1934, as amended, the above-entitled applications are designated for hearing in a consolidated proceeding, at a time and place to be specified in a subsequent order, upon the following issues:

1. To determine the areas and populations which would receive primary service from each of the proposed operations, and the availability of other primary service to such areas and populations.

2. To determine whether the proposals of Rollins Broadcasting of Delaware, Inc., and Franklin Broadcasting Company would provide satisfactory service to the city sought to be served as recommended by the Commission Standards of Good Engineering Practice.

3. To determine whether a grant of the application of Rollins Broadcasting of Delaware, Inc., would be in contravention of the provisions of section 3.35 of the Commission's rules on multiple ownership.

4. To determine whether the antenna system proposed by the Franklin Broadcasting Company would constitute a hazard to air navigation.

5. To determine whether the operations proposed by Miners Broadcasting Service, Inc., Rollins Broadcasting of Delaware, Inc., and the Franklin Broadcasting Company would involve objectionable interference with Station WJWL, or any other existing broadcast stations, and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other primary service to such areas and populations.

6. To determine, in light of Issue 5 whether, because of the interference received from Station WJWL, the proposal of Miners Broadcasting Service, Inc., would comply with the provisions of section 3.28 (o) of the Commission's rules.

7. To determine in light of section 307 (b) of the Communications Act of 1934, as amended, which of the operations proposed in the above-entitled applications would best provide a fair, efficient and equitable distribution of radio service.

8. To determine, on a comparative basis, which of the stations proposed in the above-entitled applications of Miners Broadcasting Service, Inc.; Rollins Broadcasting of Delaware, Inc.; and Franklin Broadcasting Company would best serve the public interest, convenience or necessity in the light of the evidence adduced under the foregoing issues and the record made with respect to the significant differences between the applicants as to:

(a) The background and experience of each of the above-named applicants to own and operate the proposed stations.

(b) The proposals of each of the above-named applicants with respect to the management and operation of the proposed stations.

(c) The programming service proposed in each of the above-mentioned applications.

It is further ordered, That the issues in the above-entitled proceeding may be enlarged by the Examiner on his own motion or on petition properly filed by a party to the proceeding and upon sufficient allegations of fact in support thereof, by the addition of the following issue:

To determine whether funds available to the applicant will give reasonable assurance that the proposal set forth in the application will be effectuated.

It is further ordered, That the Wm. Penn Broadcasting Company, licensee of Station WPEN, Philadelphia, Pennsylvania, is made a party to the proceeding.

Released: December 2, 1955.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

[F. R. Doc. 55-9867; Filed, Dec. 7, 1955; 8:50 a. m.]

[Docket No. 11567; FCC 55-1195]

CHARLES W. STONE

ORDER DESIGNATING APPLICATION FOR HEARING ON STATED ISSUES

In re application of Charles W. Stone, Fort Lauderdale, Florida, Docket No. 11567, File No. BP-9626; for construction permit.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 30th day of November 1955;

The Commission having under consideration the above-entitled application of Charles W. Stone for a construction permit for a new standard broadcast station to operate on 1470 kilocycles with a power of 1 kilowatt, daytime only, at Fort Lauderdale, Florida; and

It appearing that the applicant is legally, technically and otherwise qualified, except as may appear from the issues specified below, to operate the proposed station, but that the proposed operation may involve interference with Stations WWPB, Miami, Florida, and WAHR, Miami Beach, Florida; and that insufficient information has been submitted to determine whether the applicant is financially qualified; and

It further appearing that, pursuant to section 309 (b) of the Communications Act of 1934, as amended, the subject applicant was advised by letter dated August 16, 1955, of the aforementioned deficiencies and that the Commission was unable to conclude that a grant of the application would be in the public interest; and

It further appearing that a timely reply was filed by the applicant; and

It further appearing that Stations WWPB and WAHR in letters dated August 23 and August 31, 1955, respectively requested that the subject aplication be designated for hearing on the grounds of the above-described interference and that they be made parties to the hearing; and

It further appearing that the Commission, after consideration of the replies, is of the opinion that a hearing is necessary;

It is ordered, That, pursuant to section 309 (b) of the Communications Act of 1934, as amended, the said application is designated for hearing, at a time and place to be specified in a subsequent order, upon the following issues:

1. To determine whether Charles W. Stone is financially qualified to construct and operate the proposed station.

2. To determine the areas and populations which would receive primary service from the proposed operation, and the availability of other primary service to such areas and populations.

3. To determine whether the proposed operation would involve objectionable interference with Stations WWPB, Miami, Florida, and WAHR, Miami Beach, Florida, or any other existing standard broadcast station, and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other primary service to such areas and populations.

4. To determine whether in the light of the evidence adduced under the foregoing issues, a grant of the proposed operation would be in the public interest.

It is further ordered, That Paul Brake, licensee of Station WWPB, Miami, Florida; and Alan Henry Rosenson, licensee of Station WAHR, Miami Beach, Florida, are made parties to the proceeding.

Released: December 2, 1955.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

FEDERAL POWER COMMISSION

[Docket Nos. G-2569, G-2570]

CITIES SERVICE GAS CO., AND SIGNAL OIL AND GAS COMPANY

NOTICE OF OPINION NO. 288 AND ORDER

DECEMBER 1, 1955.

Notice is hereby given that on November 28, 1955, the Federal Power Commission issued its opinion and order adopted November 23, 1955, issuing certificates of public convenience and necessity under section 7 (c) of the Natural Gas Act in the above-entitled matters.

[SEAL] LEON M. FUQUAY,
Secretary.

[F. R. Doc. 55-9843; Filed, Dec. 7, 1955; 8:47 a. m.]

[Docket No. G-9504]

KANSAS-NEBRASKA NATURAL GAS CO., INC.

NOTICE OF APPLICATION

DECEMBER 2, 1955.

Take notice that Kansas-Nebraska Natural Gas Company, Inc. (Applicant), a Kansas corporation with its principal place of business at Phillipsburg, Kansas, filed an application on October 18, 1955, pursuant to section 7 (c) of the Natural Gas Act, authorizing the construction and operation of natural gas facilities and to render service as hereinafter described subject to the jurisdiction of the Commission, all as more fully represented in the application which is on file with the Commission and open to public inspection.

Applicant proposes to construct and operate approximately 9 miles of 8-inch gas pipeline and a measuring station and to serve Central Nebraska Public Power & Irrigation District its entire fuel requirements for the operation of its proposed 100,000 kw electric generating plant to be located approximately 5 miles southeast of Lexington, Nebraska.

The estimated third year requirement of the plant is 5,000,000 Mcf, which Applicant states will be delivered on an interruptible basis, subject to curtailment during peak winter operations or emergencies and therefore such service will neither affect the capacity of Applicant's system nor service to any of its firm customers.

Applicant states that its system primarily serves an agricultural area wherein there are a limited number of industrial customers which consequently reduces the opportunity for Applicant to operate its facilities at a high load factor. Providing gas service to the proposed electric generating plant will increase Applicant's present load factor of about 52 percent to an estimated 59 percent.

The estimated cost of the proposed facilities is $177,000 and Applicant states that no major financing will be required.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) on or before December 22, 1955.

[SEAL] LEON M. FUQUAY,
Secretary.

[F. R. Doc. 55-9839; Filed, Dec. 7, 1955; 8:47 a. m.]

[Docket No. G-9721]

REBSTOCK & REEVES DRILLING CO.

ORDER SUSPENDING PROPOSED CHANGES IN RATES

Rebstock & Reeves Drilling Company (Applicant), on November 2, 1955, tendered for filing proposed changes in presently effective rate schedules for sales subject to the jurisdiction of the Commission. The proposed changes, which constitute increased rates and charges, are contained in the following designated filing, which is proposed to become effective on the date shown:

Description	Purchaser	Rate schedule designation	Effective date [1]
Notice of change, dated Oct. 28, 1955.	United Fuel Gas Co	Supplement No. 2 to Applicant's FPC Gas Rate Schedule No. 1.	Dec. 3, 1955

[1] The stated effective date is the first day after expiration of the required 30 days' notice, or the effective date proposed by Applicant if later.

The increased rates and charges proposed in the aforesaid filing have not been shown to be justified, and may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds: It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing concerning the lawfulness of the said proposed changes, and that the above-designated supplement be suspended and the use thereof deferred as hereinafter ordered.

The Commission orders:

(A) Pursuant to the authority contained in sections 4 and 15 of the Natural Gas Act and the Commission's general rules and regulations (18 CFR, Chapter I), a public hearing be held upon a date to be fixed by notice from the Secretary concerning the lawfulness

of said proposed changes in rates and charges; and, pending such hearing and decision thereon, the above-designated supplement be and the same hereby is suspended and the use thereof deferred until May 3, 1956, and until such further time as it is made effective in the manner prescribed by the Natural Gas Act.

(B) Interested State Commissions may participate as provided by sections 1.8 and 1.37 (f) of the Commission's rules of practice and procedure (18 CFR 1.8 and 1.37 (f)).

Adopted: November 30, 1955.

Issued: December 2, 1955.

By the Commission.[1]

[SEAL] LEON M. FUQUAY, *Secretary.*

[F. R. Doc. 55-9840; Filed, Dec. 7, 1955; 8:47 a. m.]

[Docket No. G-9451 etc.]

MIDWESTERN GAS TRANSMISSION CO. AND TENNESSEE GAS TRANSMISSION CO.

NOTICE OF APPLICATIONS

DECEMBER 2, 1955.

In the matters of Midwestern Gas Transmission Company, Docket Nos. G-9451, G-9452, and G-9453; Tennessee Gas Transmission Company, Docket Nos. G-9454, G-9448, G-9449, G-9450, and G-1922.

Take notice that Midwestern Gas Transmission Company (Midwestern), a Delaware corporation, having its principal place of business in the Commerce Building, Houston, Texas, filed on October 10, 1955, in Docket No. G-9451, an application for a certificate of public convenience and necessity, pursuant to section 7 of the Natural Gas Act, authorizing the construction and operation of certain transmission pipeline facilities, as supplemented on November 3, 1955, and further supplemented on December 1, 1955.

Midwestern proposes to construct and operate approximately 1,760 miles of pipelines and five compressor stations totaling 25,520 horsepower, with a daily sales capacity of 401,574 Mcf of gas per day. The transmission system will extend from a point of interconnection near Portland, Tennessee, with the existing natural gas pipeline system of Tennessee Gas Transmission Company, in a northerly direction through the States of Tennessee, Kentucky, Indiana, Illinois, Wisconsin, and Minnesota, to a point on the United States-Canadian International Boundary near Emerson, Manitoba. Midwestern proposes to obtain at the border up to 204,000 Mcf of natural gas per day from Trans-Canada Pipe Lines, Limited, and up to 204,000 Mcf per day from Tennessee Gas Transmission Company at the proposed point of interconnection near Portland, Tennessee.

Midwestern proposes to transport and sell natural gas to the following, for resale: City of Ada, Minnesota; Central Wisconsin Gas Company; City Gas Company; Consumers Gas Company; City of Duluth, Minnesota; Iron Ranges Natural Gas Company; Merrill Gas Company; Minnesota Valley Natural Gas Company; Montana-Dakota Utilities Company; Northern States Power Company; Northwest Gas and Power Company; Peoples Gas Company; Towns of Shawano and Clintonville, Wisconsin; Superior Water, Light and Power Company; City of Wadena, Minnesota; Wisconsin Fuel and Light Company; Wisconsin Hydro-Electric Company; Wisconsin Public Service Corporation; Wisconsin Rapids Gas and Electric Company; and to Michigan-Wisconsin Pipe Line Company for resale in Wisconsin, to Northern Natural Gas Company for resale in Minnesota, to Natural Gas Pipeline Company of America, and to Texas Illinois Natural Gas Pipeline Company for resale; and if such companies do not purchase that gas, Applicant proposes to sell the gas directly to the distribution customers of such companies and to industries located within economic reach of Applicant's lines in such respective states. Midwestern's proposed tariff provides a base rate of a monthly demand charge of $3.75 times the specified contract demand and a commodity charge of 22 cents per Mcf of firm gas delivered. In addition, a rate for overrun, or interruptible gas, of 28 cents per Mcf is provided. The estimated cost of the proposed facilities is $97,988,000. The proposed financing includes the issuance of bonds, bank loans, and common stock.

Take further notice that Midwestern filed on October 10, 1955, in Docket No. G-9452, an application for authorization to import natural gas from Canada, pursuant to Section 3 of the Natural Gas Act, and in Docket No. G-9453 an application for a Presidential Permit, pursuant to Executive Order No. 10485, to construct, operate, and maintain facilities at the International Boundary to be used for the importation of natural gas from Canada.

The applications in Docket Nos. G-9452 and G-9453 complement Midwestern's above-mentioned application in Docket No. G-9451 and seek authorization to import up to 204,000 Mcf of natural gas per day to be purchased from Trans-Canada Pipe Lines, Limited, at the International Boundary near Emerson, in the Province of Manitoba. The facilities to be used for such importation of gas will consist of a 24-inch diameter pipeline to connect with the main transmission pipeline of Midwestern and with the facilities to be constructed by Trans-Canada in the Dominion of Canada.

Tennessee Gas Transmission Company. Take notice that Tennessee Gas Transmission Company (Tennessee), a Delaware corporation, having its principal place of business in the Commerce Building, Houston, Texas, filed on October 10, 1955, in Docket No. G-9454, an application for a certificate of public convenience and necessity, pursuant to Section 7 of the Natural Gas Act, authorizing the construction and operation of certain transmission pipeline facilities.

Tennessee proposes to construct and operate additions to its existing transmission system of approximately 190 miles of 8-inch equivalent miscellaneous gathering lines in the States of Texas and Louisiana, and seeks herein authorization to construct and operate five new compressor stations and additions to four existing compressor stations, totaling 42,140 compressor horsepower. These facilities are designed to increase the capacity of Tennessee's system to permit the sale and delivery of up to 204,000 Mcf of natural gas per day to Midwestern Gas Transmission Company at a proposed interconnection in the State of Tennessee, such gas to be sold under Tennessee's General Service G-1 (Southern Zone) Rate Schedule at an average charge of 23.40 cents per Mcf of natural gas delivered. The ability of Tennessee to deliver this gas to Midwestern depends on facilities proposed by Tennessee in Docket No. G-9448. The estimated cost of the proposed facilities is $18,615,000, which will be met out of a financing program by Tennessee involving the issuance of bonds, debentures, preferred stock, and common stock.

Take further notice that Tennessee filed on October 10, 1955, in Docket No. G-9448, an application for a certificate of public convenience and necessity, pursuant to section 7 of the Natural Gas Act, authorizing the construction and operation of certain transmission pipe line facilities. Tennessee proposes to construct and operate additions to its existing transmission system of approximately 162 miles of main line loops, two new compressor stations, and additions to four existing compressor stations, totaling 13,940 compressor horsepower. In addition, Tennessee proposes to construct approximately 75 miles of additional gathering lines on its supply system in Texas and Louisiana. These facilities are designed to increase Tennessee's average day system capacity by 64,000 Mcf.

Tennessee proposes by this application in Docket No. G-9448 to sell and deliver additional gas to: Iroquois Gas Corporation; The Manufacturers Light and Heat Company; National Gas and Oil Corporation; Pennsylvania Gas Company; United Natural Gas Company; Alabama-Tennessee Natural Gas Company; City of Batesville, Mississippi; Berkshire Gas Company; Blackstone Valley Gas & Electric Company; Town of Bolivar, Tennessee; Town of Chatham, Louisiana; Concord Natural Gas Corporation; Connecticut Gas Company; Connecticut Power Company; Town of Dickson, Tennessee; Fitchburg Gas & Electric Light Co.; Greenwich Gas Company; Haverhill Gas Company; Holyoke Gas & Electric Department; Housatonic Public Service Company; Lynn Gas & Electric Company; Manchester Gas Company; City of New Albany, Mississippi; New Britain Gas Light Company; City of Portland, Tennessee; Cities of Ripley, Booneville, and Baldwin, Mississippi; Springfield Gas Light Company; Tennessee Natural Gas Lines, Inc.; United Gas Pipe Line Company; Westfield Gas and Electric Light Department; Worcester Gas Light Company. The estimated cost of the proposed facilities is $24,319,000, which will be met out of a financing program by Tennessee, involving the issuance of bonds, debentures, preferred stock, and common stock.

Take further notice that Tennessee filed on October 10, 1955, in Docket No. G-9449, an application for a certificate of public convenience and necessity, pursuant to section 7 of the Natural Gas Act, authorizing the operation of certain transmission pipe line facilities for the purpose of selling a maximum daily quantity of 86,755 Mcf of natural gas to Trans-Canada Pipe Lines, Limited, at the International Boundary near Niagara Falls, New York, for resale in Montreal, Canada, and environs. The sale is proposed only for a period of three years after the date of initial delivery or until Trans-Canada Pipe Lines, Limited, is ready to commence natural gas deliveries in eastern Canada through its proposed all-Canadian line, whichever shall first occur. Tennessee proposes to transport such gas through its presently unused capacity in existing facilities.

Take further notice that Tennessee filed on October 10, 1955, in Docket No. G-9450, an application to export natural gas to Canada, pursuant to section 3 of the Natural Gas Act, and in Docket No. G-1922 an application for an amendment to a Presidential Permit issued on September 11, 1953, to permit the operation and maintenance of existing facilities at the International Boundary near Niagara Falls as therein requested. The above applications in Docket Nos. G-9450 and G-1922 complement Tennessee's above-mentioned application in Docket No. G-9449, and seek authorization to export up to maximum daily quantity of 86,755 Mcf, and an annual quantity of approximately 14,000,000 Mcf, for sale to Trans-Canada Pipe Lines, Limited, at the International Boundary near Niagara Falls, New York.

This gas will be sold under Tennessee's G-5 Rate Schedule at an average charge of 39.3 cents per Mcf.

No additional facilities are proposed to be constructed at the International Boundary near Niagara Falls.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before December 27, 1955.

[SEAL] LEON M. FUQUAY, *Secretary.*

[Docket No. G-9722]

J. E. MARSHALL ET AL.

ORDER SUSPENDING PROPOSED CHANGES IN RATES

J. E. Marshall et al. (Applicant), on November 16, 1955, tendered for filing proposed changes in presently effective rate schedules for sales subject to the jurisdiction of the Commission. The proposed changes, which constitute increased rates and charges, are contained in the following designated filing, which is proposed to become effective on the date shown:

Description	Purchaser	Rate schedule designation	Effective date[1]
Notice of change, dated Nov. 15, 1955.	Hassie Hunt Trust.....	Supplement No. 4 to Applicant's FPO Gas Rate Schedule No. 1.	Dec. 17, 1955

[1] The stated effective date is the first day after expiration of the required 30 days' notice, or the effective date proposed by Applicant if later.

The increased rates and charges proposed in the aforesaid filing have not been shown to be justified, and may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds: It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing concerning the lawfulness of the said proposed changes, and that the above-designated supplement be suspended and the use thereof deferred as hereinafter ordered.

The Commission orders:

(A) Pursuant to the authority contained in sections 4 and 15 of the Natural Gas Act and the Commission's general rules and regulations (18 CFR, Chapter I), a public hearing be held upon a date to be fixed by notice from the Secretary concerning the lawfulness of said proposed changes in rates and charges; and, pending such hearing and decision thereon, the above-designated supplement be and the same hereby is suspended and the use thereof deferred until May 17, 1956, and until such further time as it is made effective in the manner prescribed by the Natural Gas Act.

(B) Interested State commissions may participate as provided by sections 1.8 and 1.37 (f) of the Commission's rules of practice and procedure (18 CFR 1.8 and 1.37 (f)).

Adopted: November 30, 1955.

Issued: December 2, 1955.

By the Commission.

[SEAL] LEON M. FUQUAY, *Secretary.*

[Docket No. G-5199]

THOMAS JORDAN, INC.

NOTICE OF APPLICATION AND DATE OF HEARING

DECEMBER 1, 1955.

Take notice that Thomas Jordan, Incorporated (Applicant), a Delaware corporation whose address is 404 St. Charles St., New Orleans, Louisiana, filed on November 22, 1954, an application for a certificate of public convenience and necessity, pursuant to section 7 of the Natural Gas Act, authorizing Applicant to render service as hereinafter described, subject to the jurisdiction of the Commission, all as more fully represented in the application which is on file with the Commission and open for public inspection.

Applicant proposes to sell natural gas in interstate commerce from production of the Kessler-Sternfels No. 1 Well, located on the Kessler-Sternfels Lease, Napoleonville Field, Assumption Parish, Louisiana, to United Gas Pipe Line Company for resale.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on January 10, 1956, at 9:50 a. m., e. s. t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such application: *Provided, however,* That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of section 1.30 (c) (1) or (c) (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before December 20, 1955. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

[Docket Nos. G-8235, G-8290]

MICHEL T. HALBOUTY AND HARRY B. SIMS

NOTICE OF APPLICATIONS AND DATE OF HEARING

DECEMBER 1, 1955.

Take notice that Michel T. Halbouty, a sole proprietorship, whose address is 323 Shell Building, Houston, Texas, filed as operator[1] on December 16, 1954, an application, and that Harry B. Sims, a sole proprietorship whose address is 401 Mellie Esperson Building, Houston, Texas, filed as non-operator[1] on December 22, 1954, an application, each for a certificate of public convenience and necessity pur-

[1] Michel T. Halbouty is operator and owns a ¾ interest in the Sims (Lessor)-Halbouty (Lessee) Lease. Harry B. Sims is a non-operator and owns the remaining ¼ interest in the lease.

[1] Commissioner Digby dissenting.

suant to section 7 of the Natural Gas Act, authorizing Applicants (hereinafter referred to as Applicant) to render service as hereinafter described, subject to the jurisdiction of the Commission, all as more fully represented in each application which is on file with the Commission and open for public inspection.

Applicant proposes to sell natural gas in interstate commerce from production of an oil, gas and mineral lease comprising a 616 acre tract and a 269.3 acre tract, Pelican Field, Liberty County, Texas, to Tennessee Gas Transmission Company for resale.

These related matters should be heard on a consolidated record and disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on Wednesday, January 11, 1956, at 9:30 a. m., e. s. t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such applications: *Provided, however,* That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of section 1.30 (c) (1) or (c) (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before December 21, 1955. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

[Docket No. IT-5891]

BUREAU OF RECLAMATION, DEPARTMENT OF THE INTERIOR, FORT PECK PROJECT, MONTANA

NOTICE OF REQUEST FOR CONFIRMATION AND APPROVAL OF SUPPLEMENTAL RATE SCHEDULE FOR SALE OF POWER

DECEMBER 1, 1955.

Notice is hereby given that the Commissioner of the Bureau of Reclamation, Department of the Interior, has filed with the Federal Power Commission for confirmation and approval, pursuant to the provisions of the Fort Peck Act (52 Stat. 403), a modification of Rate Schedule No. R6-F4 heretofore approved by the Commission, which reads as follows:

General rate schedule provisions. Service under the rate, terms and conditions specified on Rate Schedule No. R6-F4 shall be subject to the following additional terms and conditions which may be stated as contract provisions in lieu of incorporation in printed rate schedules:

1. Electric service to be furnished. Auxiliary service limitation. (For use in contracts involving firm power sales.)

(c) Service hereunder may be used auxiliary to other sources of supply, and when so used, a minimum amount of firm energy shall be deemed to have been taken by the Contractor and shall be paid for under the rate schedule provided herein. Such minimum amount of firm energy in any billing period shall be the Contractor's total system energy requirements in the billing period times the ratio of the then existing contract rate of delivery for firm power to the Contractor's maximum 30-minute integrated system demand occurring during the billing period or in the eleven months preceding, but such ratio shall not be greater than one nor shall such minimum amount of energy in any billing month be more than such maximum taking of energy for said month as may be established by the contracting officer pursuant to section (d) following. The Contractor shall promptly furnish to the contracting officer at the end of each billing period the data required by him for the necessary computations hereunder.

(d) When an auxiliary source of supply is available the Contractor may take energy hereunder in excess of the amount represented by the contract rate of delivery for firm power at the Contractor's normal average load factor except that when as conclusively determined by the contracting officer there is an insufficient supply of energy available to permit the Contractor to take energy in such excess amounts, the contracting officer shall have the right to restrict the taking of energy to conform with the Contractor's hourly load pattern and to an amount which will not exceed the normal average load factor of the Contractor applied to the then existing contract rate of delivery for firm power. Such restriction shall not be considered to be a curtailment of electric service which is subject to billing adjustment. For the purpose of this contract normal average load factor shall mean the load factor which may reasonably be expected for the billing period in which the restriction is effective and shall be estimated by the contracting officer from load factors of similar periods in previous years or from such other data as may be made available by the Contractor.

2. Schedule of rates. Wheeling charges. (For use in contracts involving wheeling.)

(b) In addition to the charges payable under the rate schedule provided herein, when the United States utilizes transmission facilities other than its own in providing service under this contract, and costs are incurred by the United States for the use of such facilities, the Contractor;

(1) shall pay all such costs, including transmission losses, incurred in the delivery of secondary and dump energy; and

(2) shall pay that portion of such costs, including transmission losses, incurred in the delivery of firm energy which is in excess of a one-mill per kilowatt-hour transmission charge and related transmission losses. Related transmission losses are that portion of the total transmission losses for firm power and energy determined by multiplying the total of such transmission losses by the ratio of the one-mill transmission charge to the total transmission charge involved.

The transmission losses chargeable to the Contractor shall, for billing purposes, be added to the meter readings of the power and energy delivered to the Contractor. If increases in the rate of charge for transmission service and for transmission losses are made during the term of this contract, or the United States notifies the Contractor that an increase will be made, the Contractor at any time not later than sixty (60) days (Upon request by the customer the notification period may be changed to 180 days) after the effective date of any such increase, but not thereafter, may terminate this contract by written notice to the United States, said termination to be effective as of such subsequent date as the Contractor shall therein designate. For the purpose of this section (b), firm energy shall be all energy delivered up to but not exceeding the number of kilowatts on which the demand or capacity charge will apply times the hours in the billing period times the Contractor's system load factor in the billing period. The remainder of the energy furnished shall be considered as energy which shall be subject to the charges specified in (1) of this section (b).

Any person desiring to make comments or suggestions for Commission consideration with respect to the foregoing should submit the same on or before December 28, 1955, to the Federal Power Commission, Washington 25, D. C.

UNITED GAS PIPE LINE CO.

NOTICE SCHEDULING HEARING

DECEMBER 1, 1955.

Take notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 4, 5, and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on February 6, 1956, at 10:00 a. m., e. s. t., in a hearing room of the Federal Power Commission, 441 G Street N.W., Washington, D. C., concerning the lawfulness of the rates and charges contained in United Gas Pipe Line Company's FPC Gas Tariff, and the changes proposed in its filing of September 30, 1955, part of which filing was suspended by order of the Commission issued October 26, 1955.

Protests or petitions to intervene shall be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before January 16, 1956.

SECURITIES AND EXCHANGE COMMISSION

[File No. 812-974]

FINANCIAL INDUSTRIAL FUND, INC.

NOTICE OF FILING OF APPLICATION PERMITTING CERTAIN REINVESTMENTS OF DIVIDEND DISTRIBUTIONS AT NET ASSET VALUE

DECEMBER 2, 1955.

Notice is hereby given that Financial Industrial Fund, Inc. ("Financial"), a registered open-end management investment company, has filed an application pursuant to section 6 (c) of the Investment Company Act of 1940 ("act") for an order of the Commission exempting from the provisions of section 22 (d) of the act the offering of certain shares of Financial at net asset value where such shares represent investments of dividends paid under the company's proposed Periodic Withdrawal Plan described below.

Financial has at the present time a dividend reinvestment plan under which holders of shares of Financial may reinvest distributions representing capital gains in additional shares at net asset value and reinvest other dividends in additional shares at the public offering price.

Financial now proposes to establish a Periodic Withdrawal Plan under which any holder of $10,000, or more of its shares at the public offering price may request Financial to pay the shareholder $50 or more, either monthly or quarterly. All shares owned by such shareholders will be credited to his Periodic Withdrawal Account, and sufficient full and fractional shares redeemed to meet the requested withdrawal payments. Under such plan all distributions, whether from capital gains or income, will be automatically reinvested in additional shares at net asset value and credited to the account. It is contemplated that the amount of periodic withdrawals under such plan will be in excess of dividends from income.

Among other things, section 22 (d) of the act, with certain exceptions not applicable here, prohibits a principal underwriter of a registered investment company from selling redeemable securities of such registered investment company except at a curent public offering price described in the prospectus. Since the proposal set forth above may involve the offering of shares of Financial below the normal public offering price thereof described in the prospectus in contravention of the provisions of section 22 (d) of the act, Financial seeks an order pursuant to section 6 (c) of the act exempting such transactions from the provisions of section 22 (d) of the act.

Section 6 (c) of the act authorizes the Commission, by order upon application, to exempt conditionally or unconditionally, any transaction from any provision of the act or of any rule or regulation thereunder, if and to the extent that the Commission finds that such exemption is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the act.

Notice is further given that any interested person may, not later than December 16, 1955, at 5:30 p. m., submit to the Commission in writing any facts bearing upon the desirability of a hearing on the matter and may request that a hearing be held, such request stating the nature of his interest, the reason for such request and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission should order a hearing thereon. Any such communication or request should be addressed: Secretary, Securities and Exchange Commission, Washington 25, D. C. At any time after said date, the application may be granted as provided in Rule 5-N of the rules and regulation promulgated under the act.

By the Commission.

Washington, Friday, December 9, 1955

UNIVERSITY OF MICHIGAN
DEC 12 1955
MAIN READING ROOM

TITLE 14—CIVIL AVIATION

Chapter I—Civil Aeronautics Board

Subchapter A—Civil Air Regulations

[Supps. 19, 22, 31]

PART 40—SCHEDULED INTERSTATE AIR CARRIER CERTIFICATION AND OPERATIONS RULES

PART 41—CERTIFICATION AND OPERATION RULES FOR SCHEDULED AIR CARRIER OPERATIONS OUTSIDE THE CONTINENTAL LIMITS OF THE UNITED STATES

PART 42—IRREGULAR AIR CARRIER AND OFF-ROUTE RULES

OPERATIONAL USE OF WEATHER REPORTS FOR INSTRUMENT APPROACH, LANDING, OR TAKEOFF

The air carrier operating rules of the Civil Air Regulations provide in part that no instrument approach, landing, or takeoff shall be made when the latest weather report furnished by the U. S. Weather Bureau or a source approved by the Weather Bureau indicates a ceiling or visibility below authorized minimums. Current CAA rules (§§ 40.406–1, 41.119–2, and 42.56–2) apply this requirement to a runway weather observation contained in the official weather report for a particular runway.

At airports where runway weather observations are made, when reporting runway visibility to a pilot conducting an instrument approach, the tower controller obtains the runway visibility from a direct reading visibility meter in the tower. This meter is electronically geared to an instrument in the Weather Bureau for graphically recording the runway visibility value measured by the transmissometer instrument. A repeater visibility meter for indicating runway visibility in fractional increments is also located in the Weather Bureau office. Since minimums for instrument approach according to the regulation are predicated on the latest weather report, the tower controller cannot report immediately to a pilot any substantial visibility change observed on the tower visibility meter without coordination with the Weather Bureau, which must issue a special observation report for each such change in visibility value observed. Particularly under variable visibility conditions, this prevents maximum utilization of the instrumentation used for measuring runway visibility. It also places an additional burden on the controller, which is undesirable under instrument weather conditions because his full attention should be directed to the control of air traffic. Also due to the various duties of the Weather Bureau observer, he may be preoccupied in performing some other function. For this reason the control tower operator is in a far better position to continually observe any change in visibility value indicated on the visibility meter and should be able to report such change in visibility to the pilot conducting an instrument approach as the official runway visibility without recording the observation or advising the Weather Bureau. In case any question should later arise as to the official runway visibility at any particular time, this information can be obtained from the Weather Bureau where it is continually recorded on graph recording. However, such visibility data may not be contained in the sequence weather report because of the time interval between the hourly and special observations made and recorded by the weather observer.

In view of the foregoing, the Administrator hereby adopts the following revisions to §§ 40.406–1, 41.119–2, and 42.56–2 of this subchapter. The proposed rules were published on October 1, 1955, in 20 F. R. 7338–9. Interested persons were afforded an opportunity to submit written views, data or arguments. Consideration has been given to all relevant comments presented.

1. Section 40.406–1 is revised to read as follows:

§ 40.406–1 *Takeoff and landing weather minimums (CAA rules which apply to § 40.406 (b))—(a) General.* The ceiling and visibility contained in the main body of the latest weather report furnished by the U. S. Weather Bureau or a source approved by the Weather Bureau shall be used for instrument approach and landing or takeoff for all runways of an airport except as provided in paragraph (b) of this section.

(b) *Runway visibility.* Whenever the latest weather report furnished by the U. S. Weather Bureau or a source approved by the Weather Bureau, including an aural report from the control tower, contains a visibility value specified as a runway visibility for a particular

OPERATIONAL USE OF WEATHER REPORTS FOR INSTRUMENT APPROACH, LANDING, OR TAKEOFF

The air carrier operating rules of the Civil Air Regulations provide in part that no instrument approach, landing, or takeoff shall be made when the latest weather report furnished by the U. S. Weather Bureau or a source approved by the Weather Bureau indicates a ceiling or visibility below authorized minimums. Current CAA rules (§§ 40.406–1, 41.119–2, and 42.56–2) apply this requirement to a runway weather observation contained in the official weather report for a particular runway.

At airports where runway weather observations are made, when reporting runway visibility to a pilot conducting an instrument approach, the tower controller obtains the runway visibility from a direct reading visibility meter in the tower. This meter is electronically geared to an instrument in the Weather Bureau for graphically recording the runway visibility value measured by the transmissometer instrument. A repeater visibility meter for indicating runway visibility in fractional increments is also located in the Weather Bureau office. Since minimums for instrument approach according to the regulation are predicated on the latest weather report, the tower controller cannot report immediately to a pilot any substantial visibility change observed on the tower visibility meter without coordination with the Weather Bureau, which must issue a special observation report for each such change in visibility value observed. Particularly under variable visibility conditions, this prevents maximum utilization of the instrumentation used for measuring runway visibility. It also places an additional burden on the controller, which is undesirable under instrument weather conditions because his full attention should be directed to the control of air traffic. Also due to the various duties of the Weather Bureau observer, he may be preoccupied in performing some other function. For this reason the control tower operator is in a far better position to continually observe any change in visibility value indicated on the visibility meter and should be able to report such change in visibility to the pilot conducting an instrument approach as the official runway visibility without recording the observation or advising the Weather Bureau. In case any question should later arise as to the official runway visibility at any particular time, this information can be obtained from the Weather Bureau where it is continually recorded on graph recording. However, such visibility data may not be contained in the sequence weather report because of the time interval between the hourly and special observations made and recorded by the weather observer.

In view of the foregoing, the Administrator hereby adopts the following revisions to §§ 40.406–1, 41.119–2, and 42.56–2 of this subchapter. The proposed rules were published on October 1, 1955, in 20 F. R. 7338–9. Interested persons were afforded an opportunity to submit written views, data or arguments. Consideration has been given to all relevant comments presented.

1. Section 40.406–1 is revised to read as follows:

§ 40.406–1 *Takeoff and landing weather minimums (CAA rules which apply to § 40.406 (b))*—(a) *General.* The ceiling and visibility contained in the main body of the latest weather report furnished by the U. S. Weather Bureau or a source approved by the Weather Bureau shall be used for instrument approach and landing or takeoff for all runways of an airport except as provided in paragraph (b) of this section.

(b) *Runway visibility.* Whenever the latest weather report furnished by the U. S. Weather Bureau or a source approved by the Weather Bureau, including an aural report from the control tower, contains a visibility value specified as a runway visibility for a particular

REVISION OF REGULATIONS

In the matter of revision of Part 3 (Radio Broadcast Services) and the Standards of Good Engineering Practice Concerning Standard Broadcast Stations.

1. The Commission has under consideration the desirability of codification of its Standards of Good Engineering Practice Concerning Standard Broadcast Stations, making certain editorial changes therein and making certain editorial changes in Part 3 of its rules and regulations.

2. The AM Standards are contained in Title 47 of the Code of Federal Regulations as an Appendix to Subpart A of Part 3 of Chapter I, but are not codified the same as the other subdivisions of Title 47. The Commission has been requested by the Federal Register Division, National Archives and Records Service, General Services Administration to codify its Standards. The Commission is of the view that the public interest would be served by such a codification. Therefore, section and paragraph designators have been assigned to the Standards; and for the sake of convenience, the title has been changed to Standard Broadcast Technical Standards.

3. The codification of the Standards requires changing certain section numbers in Part 3 of the rules. Certain other editorial changes have been made in the Standards and Part 3 to change footnote to notes or parenthetical expressions to avoid confusion. The following is a table indicating both the new and old section numbers:

New Section No.	*Old Section No.*
3.39	13 AM Standards
3.40	12 AM Standards
3.49	21 AM Standards
3.50	22 AM Standards
3.89	3.153
3.91–3.97	3.163–3.169
3.111–3.122	3.181–3.192
3.131–3.139	3.101–3.109
3.181	Introduction to AM Standards
3.182	1 AM Standards
3.183	Annex I AM Standards
3.184	Appendix AM Standards
3.185	Annex II AM Standards
3.186	2 AM Standards
3.188	4 AM Standards
3.189	5 AM Standards
3.190	Figures in AM
3.301–3.332	FM Standards

4. The amendments adopted herein are editorial in nature and, therefore, prior publication of Notice of Proposed Rule Making under the provisions of section 4 of the Administrative Procedure Act is unnecessary.

5. The amendments adopted herein are issued pursuant to the authority contained in sections 4 (i) and 5 (d) (1) and 303 (r) of the Communications Act of 1934, as amended, and section 0.341 of the Commission's Statement of Organization, Delegations of Authority and Other Information.

6. *It is ordered,* That effective January 2, 1956, Part 3 and the Standards of Good Engineering Practice of Standard Broadcast Stations of the Commission's rules and regulations are revised as set forth below to include the editorial changes herein and all outstanding amendments adopted as of this date.

Adopted: November 3, 1955.

Released: November 4, 1955.

FEDERAL COMMUNICATIONS COMMISSION,[1]
[SEAL] MARY JANE MORRIS,
Secretary.

Subpart A—Standard Broadcast Stations

DEFINITIONS

Sec.
3.1 Standard broadcast station.
3.2 Standard broadcast band.
3.3 Standard broadcast channel.
3.4 Dominant station.
3.5 Secondary station.
3.6 Daytime.
3.7 Nighttime.
3.8 Sunrise and sunset.
3.9 Broadcast day.
3.10 Experimental period.
3.11 Service areas.
3.12 Portable transmitter.
3.13 Auxiliary transmitter.
3.14 Technical definitions.

ALLOCATION OF FACILITIES

3.21 Three classes of standard broadcast channels.
3.22 Classes and power of standard broadcast stations.
3.23 Time of operation of the several classes of stations.
3.24 Broadcast facilities; showing required.
3.25 Clear channels; Classes I and II stations.
3.26 Regional channels; Classes III–A and III–B stations.
3.27 Local channels; Classes IV stations.
3.28 Assignment of stations to channels.
3.29 Class IV stations on regional channels.
3.30 Station location and program origination.
3.31 Authority to move main studio.
3.32 Special experimental authorizations.
3.33 Antenna systems; showing required.
3.34 Normal license period.
3.35 Multiple ownership.
3.36 Special field test authorization.
3.37 Minimum separation between stations.

EQUIPMENT

3.39 Indicating instruments — specifications.
3.40 Transmitter; design, construction, and safety of life requirements.
3.41 Maximum rated carrier power; tolerances.
3.42 Maximum rated carrier power; how determined.
3.43 Changes in equipment; authority for.
3.44 Other changes in equipment.
3.45 Radiating system.
3.46 Transmitter.
3.47 Equipment performance measurements.
3.48 Acceptability of broadcast transmitters for licensing.
3.49 Requirements for approval of frequency monitors.
3.50 Requirements for approval of modulation monitors.

TECHNICAL OPERATION

3.51 Operating power; how determined.
3.52 Operating power; indirect measurement.
3.53 [Reserved.]
3.54 Operating power; direct measurement.
3.55 Modulation.
3.56 Modulation monitors.
3.57 Operating power; maintenance of.
3.58 Indicating instruments.
3.59 Frequency tolerance.
3.60 Frequency monitor.
3.61 New equipment; restrictions.
3.62 Automatic frequency control equipment; authorization required.
3.63 Auxiliary transmitter.
3.64 Alternate main transmitters.
3.65 Antenna structure, marking and lighting.
3.66 Remote control operation.

OPERATION

3.71 Minimum operating schedule.
3.72 Operation during experimental period.
3.73 Specified hours.
3.74 Sharing time.
3.75 Sharing time; equivalence of day and night hours.
3.76 Sharing time; experimental period.
3.77 Sharing time; departure from regular schedule.
3.78 Sharing time stations; notification to Commission.
3.79 License to specify sunrise and sunset hours.
3.80 Secondary station; filing of operating schedule.
3.81 Secondary station; failure to reach agreement.
3.82 Departure from schedule; material violation.
3.83 Local standard time.
3.84 Daylight saving time.
3.85 Changes in time; agreement between licensees.
3.86 Local standard time; license provisions.
3.87 Program transmissions prior to local sunrise.
3.88 Blanketing interference.
3.89 Use of frequency and modulation monitors at auxiliary transmitters.
3.90 [Reserved.]
3.91 Discontinuance of operation.
3.92 Station and operator licenses; posting of.
3.93 Operator requirements.
3.94 Period of construction.
3.95 Equipment tests.
3.96 Program tests.
3.97 Station inspection.

OTHER OPERATING REQUIREMENTS

3.111 Logs.
3.112 Logs; retention of.
3.113 Logs; by whom kept.
3.114 Log form.
3.115 Correction of logs.
3.116 Rough logs.
3.117 Station identification.
3.118 Mechanical records.
3.119 Sponsored programs; announcement of.
3.120 Broadcasts by candidates for public office.
3.121 Rebroadcast.
3.122 Lotteries.

LICENSING POLICIES

3.131 Exclusive affiliation of station.
3.132 Territorial exclusivity.
3.133 Term of affiliation.
3.134 Option time.
3.135 Right to reject programs.
3.136 Network ownership of stations.
3.137 Dual network operation.
3.138 Control by networks of station rates.
3.139 Special rules relating to contracts providing for reservation of time upon sale of a station.

DATA AND MEASUREMENTS

3.150 Data required with applications for directional antenna systems.

[1] Commissioner Bartley not participating.

Sec.
3.151 Field intensity measurements to establish performance of directional antennas.
3.152 Field intensity measurements in support of applications or evidence at hearings.

STANDARD BROADCAST TECHNICAL STANDARDS

3.181 Introduction.
3.182 Engineering standards of allocation.
3.183 Groundwave signals.
3.184 Groundwave field intensity charts.
3.185 Computation of interfering signal from a directional antenna.
3.186 Field intensity measurements in allocation; establishment of effective field at one mile.
3.187 [Reserved.]
3.188 Location of transmitters.
3.189 Minimum antenna heights or field intensity requirements.
3.190 Engineering charts.

Subpart B—FM Broadcast Stations

CLASSIFICATION OF FM BROADCAST STATIONS AND ALLOCATION OF FREQUENCIES

3.201 Numerical designation of FM broadcast channels.
3.202 Areas of the United States.
3.203 Class A stations.
3.204 Class B stations.
3.205 Station location and program origination.

ADMINISTRATIVE PROCEDURE

3.211 Application for FM broadcast stations.
3.212 Full disclosures.
3.213 Installation of apparatus.
3.214 Period of construction.
3.215 Forfeiture of construction permits: Extension of time.
3.216 Equipment tests.
3.217 Program tests.
3.218 Normal license period.
3.219 License, simultaneous modification and renewal.
3.220 Renewal of license.
3.221 [Reserved]
3.222 Repetitious applications.
3.223 Assignment or transfer of control.

LICENSING POLICIES

3.231 Exclusive affiliation of station.
3.232 Territorial exclusivity.
3.233 Term of affiliation.
3.234 Option time.
3.235 Right to reject programs.
3.236 Network ownership of stations.
3.237 Dual network operation.
3.238 Control by networks of station rates.
3.239 Use of common antenna site.
3.240 Multiple ownership.
3.241 Special rules relating to contracts providing for reservation of time upon sale of a station.

EQUIPMENT

3.250 Acceptability of broadcast transmitters for licensing.
3.251 Transmitter power.
3.252 Frequency monitor.
3.253 Modulation monitor.
3.254 Required transmitter performance.
3.255 Auxiliary transmitter.
3.256 Alternate main transmitters.
3.257 Changes in equipment and antenna system.
3.258 Indicating instruments.

TECHNICAL OPERATION

3.261 Time of operation.
3.262 Experimental operation.
3.263 Station inspection.
3.264 Station and operator licenses; posting of.
3.265 Operator requirements.
3.266 Facsimile broadcasting and multiplex transmission.
3.267 Operating power; determination and maintenance of.
3.268 Modulation.
3.269 Frequency tolerance.
3.270 Antenna structure, marking and lighting.
3.271 Discontinuance of operation.
3.272 Field intensity measurements.
3.273 Emergency antenna.
3.274 Remote control operation.

OTHER OPERATING REQUIREMENTS

3.281 Logs.
3.282 Logs; retention of.
3.283 Logs; by whom kept.
3.284 Log form.
3.285 Correction of logs.
3.286 Rough logs.
3.287 Station identification.
3.288 Mechanical records.
3.289 Sponsored programs; announcement of.
3.290 Broadcasts by candidates for public office.
3.291 Rebroadcast.
3.292 Lotteries.
3.293 Subsidiary Communications Authorization.
3.294 Nature of the SCA.
3.295 Operation under the SCA.

FM TECHNICAL STANDARDS

3.301 Introduction.
3.310 Definitions.
3.311 Engineering standards of allocation.
3.312 Topographic data.
3.313 Interference standards.
3.314 Field intensity measurements in allocation.
3.315 Transmitter location.
3.316 Antenna systems.
3.317 Transmitters and associated equipment.
3.318 Facsimile; engineering standards.
3.319 Subsidiary communications multiplex operations; engineering standards.
3.320 Indicating instruments — specifications.
3.321 Auxiliary transmitters.
3.330 Frequency and modulation monitors at auxiliary transmitters.
3.331 Requirements for type approval of frequency monitors.
3.332 Requirements for type approval of modulation monitors.
3.333 Engineering charts.

Subpart C—Noncommercial Educational FM Broadcast Stations

CLASSIFICATION OF STATIONS AND ALLOCATION OF FREQUENCIES

3.501 Channels available for assignment.
3.502 State-wide plans.
3.503 Licensing requirements and service.
3.504 Frequency, power and service area.
3.505 Standards of good engineering practice.

ADMINISTRATIVE PROCEDURE

3.511 Application for noncommercial educational FM broadcast stations.
3.512 Full disclosures.
3.513 Installation of apparatus.
3.514 Period of construction.
3.515 Forfeiture of construction permits; extension of time.
3.516 Equipment tests.
3.517 Program tests.
3.518 Normal license period.
3.519 License, simultaneous modification and renewal.
3.520 Renewal of license.
3.521 [Reserved]
3.522 Repetitious applications.
3.523 Assignment or transfer of control.

EQUIPMENT

3.550 Acceptability of broadcast transmitters for licensing.
3.551 Transmitter power.
3.552 Frequency monitor.
3.553 Modulation monitor.
3.554 Transmitter performance.
3.555 Auxiliary transmitter.
3.556 Alternate main transmitters.
3.557 Changes in equipment and antenna system.
3.558 Indicating instruments.

TECHNICAL OPERATION

3.561 Operating schedule.
3.562 Experimental operation.
3.563 Station inspection.
3.564 Station and operator licenses; posting of.
3.565 Operator requirements.
3.566 Facsimile broadcasting and multiplex transmission.
3.567 Operating power; determination and maintenance of.
3.568 Modulation.
3.569 Frequency tolerance.
3.570 Antenna structure, marking and lighting.
3.571 Discontinuance of operation.
3.572 Remote control operation.

OTHER OPERATING REQUIREMENTS

3.581 Logs.
3.582 Logs; retention of.
3.583 Logs; by whom kept.
3.584 Log form.
3.585 Correction of logs.
3.586 Rough logs.
3.587 Station identification.
3.588 Mechanical records.
3.589 [Reserved]
3.590 Broadcasts by candidates for public office.
3.591 Rebroadcast.

Subpart D—[Reserved]

Subpart E—Television Broadcast Stations

GENERAL

3.601 Scope of subpart.
3.602 Other pertinent rules.
3.603 Numerical designation of television channels.

CHANNEL UTILIZATION

3.606 Table of Assignments.
3.607 Availability of channels.
3.608 International agreements.
3.609 Zones.
3.610 Separations.
3.611 Reference points and distance computations.
3.612 Protection from interference.
3.613 Main studio location.
3.614 Power and antenna height requirements.
3.615 Administrative changes in authorizations.

APPLICATIONS AND AUTHORIZATIONS

3.621 Noncommercial educational stations.
3.622 Applications for television stations.
3.623 Full disclosures.
3.624 Repetitious applications.
3.625 Installation of apparatus.
3.626 Period of construction.
3.627 Forfeiture of construction permits; extension of time.
3.628 Equipment tests.
3.629 Program tests.
3.630 Normal license period.
3.631 Renewal of license.
3.632 [Reserved]
3.633 License, simultaneous modification and renewal.
3.634 Assignment or transfer of control.
3.635 Use of common antenna site.
3.636 Multiple ownership.
3.637 Alternate main transmitters.
3.638 Auxiliary transmitter.
3.639 Changes in equipment and antenna system.
3.640 Acceptability of broadcast transmitters for licensing.

GENERAL OPERATING REQUIREMENTS

Sec.
3.651 Time of operation.
3.652 Station identification.
3.653 Mechanical reproductions.
3.654 Sponsored programs, announcement.
3.655 Rebroadcast.
3.656 Lotteries
3.657 Broadcasts by candidates for public office.
3.658 Affiliation agreements.
3.659 Special rules relating to contracts providing for reservation of time upon sale of a station.
3.660 Station license, posting of.
3.661 Operator requirements.
3.662 Antenna structure, marking and lighting.
3.663 Logs; maintenance of.
3.664 Logs; retention of, etc.
3.665 Station inspection.
3.666 Experimental operation.
3.667 Discontinuance of operation.
3.668 Frequency tolerance.

TV TECHNICAL STANDARDS

3.681 Definitions.
3.682 Transmission standards and changes.
3.683 Field intensity contours.
3.684 Prediction of coverage.
3.685 Transmitter location and antenna system.
3.686 Measurements for rule making purposes and upon request of the Commission.
3.687 Transmitters and associated equipment.
3.688 Indicating instruments.
3.689 Operating power.

MONITORING EQUIPMENT

3.690 Frequency monitors.
3.691 Modulation monitors.
3.692 General requirements for type approval of frequency and modulation monitors.
3.693 Requirements for type approval of frequency monitors.
3.694 Requirements for type approval of aural modulation monitors.
3.695–3.697 [Reserved.]
3.698 Tables.
3.699 Engineering charts.

Subpart F—International Broadcast Stations

DEFINITIONS AND ALLOCATION OF FACILITIES

3.701 Definitions.
3.702 Assignment and use of frequencies.
3.703 Latitude and longitude of areas used for field intensity calculations.
3.704 Daily frequency hour availability table.

ADMINISTRATIVE PROCEDURE

3.711 Application for international broadcast stations.
3.712 Full disclosures.
3.713 Installation of apparatus.
3.714 Period of construction.
3.715 Forfeiture of construction permits; extension of time.
3.716 Equipment tests.
3.717 [Reserved.]
3.718 Normal license period.
3.719 License; simultaneous modification and renewal.
3.720 Renewal of license.
3.721 [Reserved.]
3.722 Repetitious applications.
3.723 Assignment or transfer of control.

LICENSING POLICIES

3.731 Licensing requirements; necessary showing.

EQUIPMENT

3.751 Power requirement.
3.752 Frequency control.
3.753 Antenna.
3.754 Frequency monitors.
3.755 Modulation monitors.
3.756 Required transmitter performance.
3.757 Auxiliary transmitters.
3.758 Alternate main transmitters.
3.759 Changes in equipment and antenna system.

TECHNICAL OPERATION

3.761 Time of operation.
3.762 Station inspection.
3.763 Station license, posting of.
3.764 Operator requirements.
3.765 Operating power; how determined.
3.766 Modulation.
3.767 Frequency tolerance.
3.768 Antenna structure, marking and lighting.
3.769 Discontinuance of operation.

OTHER OPERATING REQUIREMENTS

3.781 Logs.
3.782 Logs; retention of.
3.783 Logs; by whom kept.
3.784 Log form.
3.785 Correction of logs.
3.786 Rough logs.
3.787 Station identification.
3.788 Service; commercial or sponsored programs.
3.789 Sponsored programs; announcement of.
3.790 Rebroadcast.
3.791 Supplemental report with renewal application.
3.792 Engineering chart.

Subpart G—CONELRAD

SCOPE AND OBJECTIVES

3.901 Scope of subpart.
3.902 Object of plan.

DEFINITIONS

3.910 CONELRAD.
3.911 Air Defense Control Center (ADCC).
3.912 Basic key station.
3.913 Relay key station.
3.914 Skywave key station.
3.915 Radio alert.
3.916 Radio all clear.
3.917 Cluster.
3.918 Sequential control lines.
3.919 CONELRAD manual.

SUPERVISION

3.920 Zones.
3.921 Divisions.

RADIO ALERTS

3.930 Notification of a radio alert.
3.931 Reception of a radio alert.
3.932 Operation during a radio alert.

RADIO ALL CLEAR

3.940 Notification of a radio all clear.

SYSTEM OPERATION

3.950 Procedure.
3.951 Participation.

TESTS

3.960 Alerting system.
3.961 Sequential control lines.
3.962 Entire system.
3.963 Equipment.
3.964 Log entries.

DRILLS

3.970 Notification of a drill.
3.971 Operation during a drill.

AUTHORITY: §§ 3.1 to 3.971 issued under sec. 4, 48 Stat. 1066, as amended; 47 U. S. C. 154.

SUBPART A—STANDARD BROADCAST STATIONS

DEFINITIONS

§ 3.1 *Standard broadcast station.* The term "standard broadcast station" means a broadcasting station licensed for the transmission of radiotelephone emissions primarily intended to be received by the general public and operated on a channel in the band 535–1605 kilocycles.

§ 3.2 *Standard broadcast band.* The term "standard broadcast band" means the band of frequencies extending from 535 to 1605 kilocycles.

§ 3.3 *Standard broadcast channel.* The term "standard broadcast channel" means the band of frequencies occupied by the carrier and two side bands of a broadcast signal with the carrier frequency at the center. Channels shall be designated by their assigned carrier frequencies. The 107 carrier frequencies assigned to standard broadcast stations shall begin at 540 kilocycles and be in successive steps of 10 kilocycles.

§ 3.4 *Dominant station.* The term "dominant station" means a Class I station, as hereinafter defined, operating on a clear channel.

§ 3.5 *Secondary station.* The term "secondary station" means any station except a Class I station operating on a clear channel.

§ 3.6 *Daytime.* The term "daytime" means that period of time between local sunrise and local sunset.

§ 3.7 *Nighttime.* The term "nighttime" means that period of time between local sunset and 12 midnight local standard time.

§ 3.8 *Sunrise and sunset.* The terms "sunrise and sunset" mean, for each particular location and during any particular month, the time of sunrise and sunset as specified in the instrument of authorization.

§ 3.9 *Broadcast day.* The term "broadcast day" means that period of time between local sunrise and 12 midnight local standard time.

§ 3.10 *Experimental period.* The term "experimental period" means that time between 12 midnight and local sunrise. This period may be used for experimental purposes in testing and maintaining apparatus by the licensee of any standard broadcast station on its assigned frequency and with its authorized power, provided no interference is caused to other stations maintaining a regular operating schedule within such period. No station licensed for "daytime" or "specified hours" of operation may broadcast any regular or scheduled program during this period.

§ 3.11 *Service areas.* (a) The term "primary service area" of a broadcast station means the area in which the groundwave is not subject to objectionable interference or objectionable fading.

(b) The term "secondary service area" of a broadcast station means the area served by the skywave and not subject to objectionable interference. The signal is subject to intermittent variations in intensity.

(c) The term "intermittent service area" of a broadcast station means the area receiving service from the groundwave but beyond the primary service

area and subject to some interference and fading.

§ 3.12 *Portable transmitter.* The term "portable transmitter" means a transmitter so constructed that it may be moved about conveniently from place to place, and is in fact so moved about from time to time, but not ordinarily used while in motion. In the standard broadcast band, such a transmitter is used in making field intensity measurements for locating a transmitter site for a standard broadcast station. A portable broadcast station will not be licensed in the standard broadcast band for regular transmission of programs intended to be received by the public.

§ 3.13 *Auxiliary transmitter.* The term "auxiliary transmitter" means a transmitter maintained only for transmitting the regular programs of a station in case of failure of the main transmitter.

§ 3.14 *Technical definitions*—(a) *Combined audio harmonics.* The term "combined audio harmonics" means the arithmetical sum of the amplitudes of all the separate harmonic components. Root sum square harmonic readings may be accepted under conditions prescribed by the Commission.

(b) *Effective field.* The term "effective field" or "effective field intensity" is the root-mean-square (RMS) value of the inverse distance fields at a distance of 1 mile from the antenna in all directions in the horizontal plane.

(c) *Operating power.* "Operating power" is the power that is actually supplied to the radio station antenna.

(d) *Maximum rated carrier power.* "Maximum rated carrier power" is the maximum power at which the transmitter can be operated satisfactorily and is determined by the design of the transmitter and the type and number of vacuum tubes used in the last radio stage.

(e) *Plate input power.* "Plate input power" means the product of the direct plate voltage applied to the tubes in the last radio stage and the total direct current flowing to the plates of these tubes, measured without modulation.

(f) *Antenna power.* "Antenna input power" or "antenna power" means the product of the square of the antenna current and the antenna resistance at the point where the current is measured.

(g) *Antenna current.* "Antenna current" means the radio-frequency current in the antenna with no modulation.

(h) *Antenna resistance.* "Antenna resistance" means the total resistance of the transmitting antenna system at the operating frequency and at the point at which the antenna current is measured.

(i) *Modulator stage.* "Modulator stage" means the last amplifier stage of the modulating wave which modulates a radio-frequency stage.

(j) *Modulated stage* "Modulated stage" means the radio-frequency stage to which the modulator is coupled and in which the continuous wave (carrier wave) is modulated in accordance with the system of modulation and the characteristics of the modulating wave.

(k) *Last radio stage.* "Last radio stage" means the oscillator or radio-frequency-power amplifier stage which supplies power to the antenna.

(l) *Percentage modulation (amplitude).* "Percentage modulation" with respect to an amplitude modulated wave means the ratio of half the difference between the maximum and minimum amplitudes of the amplitude modulated wave to the average amplitude expressed in percentage.

(m) *Maximum percentage of modulation.* "Maximum percentage of modulation" means the greatest percentage of modulation that may be obtained by a transmitter without producing in its output harmonics of the modulating frequency in excess of those permitted by these regulations.

(n) *High level modulation.* "High level modulation" is modulation produced in the plate circuit of the last radio stage of the system.

(o) *Low level modulation.* "Low level modulation" is modulation produced in an earlier stage than the final.

(p) *Plate modulation.* "Plate modulation" is modulation produced by introduction of the modulating wave into the plate circuit of any tube in which the carrier frequency wave is present.

(q) *Grid modulation.* "Grid modulation" is modulation produced by introduction of the modulating wave into any of the grid circuits of any tube in which the carrier frequency wave is present.

(r) *Blanketing.* Blanketing is that form of interference which is caused by the presence of a broadcast signal of 1 v/m or greater intensity in the area adjacent to the antenna of the transmitting station. The 1 v/m contour is referred to as the blanket contour and the area within this contour is referred to as the blanket area.

ALLOCATION OF FACILITIES

§ 3.21 *Three classes of standard broadcast channels*—(a) *Clear channel.* A clear channel is one on which the dominant station or stations render service over wide areas and which are cleared of objectionable interference within their primary service areas and over all or a substantial portion of their secondary service areas.

(b) *Regional channel.* A regional channel is one on which several stations may operate with powers not in excess of 5 kilowatts. The primary service area of a station operating on any such channel may be limited as a consequence of interference to a given field intensity contour.

(c) *Local channel.* A local channel is one on which several stations may operate with powers not in excess of 250 watts. The primary service area of a station operating on any such channel may be limited as a consequence of interference to a given field intensity contour.

§ 3.22 *Classes and power of standard broadcast stations*—(a) *Class I station.* A Class I station is a dominant station operating on a clear channel and designed to render primary and secondary service over an extended area and at relatively long distances. Its primary service area is free from objectionable interference from other stations on the same and adjacent channels, and its secondary service area free from interference except from stations on the adjacent channel, and from stations on the same channel in accordance with the channel designation in § 3.25 or § 3.182. The operating power shall be not less than 10 kilowatts nor more than 50 kilowatts. (Also see § 3.25 (a) for further power limitation.)

(b) *Class II station.* A Class II station is a secondary station which operates on a clear channel (see § 3.25) and is designed to render service over a primary service area which is limited by and subject to such interference as may be received from Class I stations. A station of this class shall operate with power not less than 0.25 kilowatt nor more than 50 kilowatts. Whenever necessary a Class II station shall use a directional antenna or other means to avoid interference with Class I stations and with other Class II stations, in accordance with § 3.182.

(c) *Class III station.* A Class III station is a station which operates on a regional channel and is designed to render service primarily to a metropolitan district and the rural area contiguous thereto. Class III stations are subdivided into two classes. (The term "metropolitan district" as used in this paragraph is not limited in accordance with the definition given by the Bureau of the Census but includes any principal center of population in any area.)

(1) *Class III–A station.* A Class III–A station is a Class III station which operates with power not less than 1 kilowatt nor more than 5 kilowatts and the service area of which is subject to interference in accordance with § 3.182.

(2) *Class III–B station.* A Class III–B station is a Class III station which operates with a power not less than 0.5 kilowatt, and not more than 1 kilowatt night and 5 kilowatts daytime, and the service area of which is subject to interference in accordance with § 3.182.

(d) *Class IV station.* A Class IV station is a station operating on a local channel and designed to render service primarily to a city or town and the suburban and rural areas contiguous thereto. The power of a station of this class shall not be less than 0.1 kilowatt nor more than 0.25 kilowatt, and its service area is subject to interference in accordance with § 3.182.

§ 3.23 *Time of operation of the several classes of stations.* The several classes of standard broadcast stations may be licensed to operate in accordance with the following:

(a) Unlimited time permits operation without a maximum limit as to time.

(b) Limited time is applicable to Class II (secondary stations) operating on a clear channel only. It permits operation of the secondary station during daytime, and until local sunset if located west of the dominant station on the channel, or if located east thereof, until sunset at the dominant station, and in addition during night hours, if any, not used by the dominant station or stations on the channel.

(c) Daytime permits operation during the hours between average monthly local sunrise and average monthly local sunset. Daytime stations operating on local channels may, upon notification to the Commission and the Engineer in Charge of the radio district in which they are located, operate at hours beyond those specified in their license.

(d) Sharing time permits operation during hours which are so restricted by the station license as to require a division of time with one or more other stations using the same channel.

(e) Specified hours means that the exact operating hours are specified in the license. (The minimum hours that any station shall operate are specified in § 3.71.) Specified hours stations operating on local channels except those sharing time with other stations may, upon notification to the Commission and the Engineer in Charge of the radio district in which they are located, operate at hours beyond those specified in their license.

§ 3.24 *Broadcast facilities; showing required.* (a) Applications for new stations or for modifications of existing authorizations shall be filed on FCC Form 301; for licenses, on FCC Form 302; for renewal of licenses, on FCC Form 303.

(b) An authorization for a new standard broadcast station or increase in facilities of an existing station will be issued only after a satisfactory showing has been made in regard to the following, among others:

(1) That the proposed assignment will tend to effect a fair, efficient, and equitable distribution of radio service among the several states and communities.

(2) That objectionable interference will not be caused to existing stations or that if interference will be caused the need for the proposed service outweighs the need for the service which will be lost by reason of such interference. That the proposed station will not suffer interference to such an extent that its service would be reduced to an unsatisfactory degree. (For determining objectionable interference, see §§ 3.182 and 3.186.)

(3) That the applicant is financially qualified to construct and operate the proposed station.

(4) That the applicant is legally qualified. That the applicant (or the person or persons in control of an applicant corporation or other organization) is of good character and possesses other qualifications sufficient to provide a satisfactory public service.

(5) That the technical equipment proposed, the location of the transmitter, and other technical phases of operation comply with the regulations governing the same, and the requirements of good engineering practice. (See technical regulations of this subpart and § 3.188.)

(6) That the facilities sought are subject to assignment as requested under existing international agreements and the rules and regulations of the Commission.

(7) That the population within the 1 v/m contour does not exceed 1.0 percent of the population within the 25 mv/m contour: *Provided, however,* That where the number of persons within the 1 v/m contour is 300 or less the provisions of this subparagraph are not applicable.

(8) That the public interest, convenience, and necessity will be served through the operation under the proposed assignment.

§ 3.25 *Clear channels; Class I and II stations.* The frequencies in the following tabulations are designated as clear channels and assigned for use by the Classes of stations given:

(a) To each of the channels below there will be assigned one Class I station and there may be assigned one or more Class II stations within the continental limits of the United States operating limited time or daytime only: 640, 650, 660, 670, 700, 720, 750, 760, 770, 780, 820, 830, 840, 870, 880, 890, 1020, 1040, 1100, 1120, 1160, 1180, 1200, and 1210 kilocycles. There also may be assigned to these frequencies Class II stations operating unlimited time in Alaska, Hawaii, Virgin Islands and Puerto Rico which will not deliver over 5 microvolts per meter groundwave day or night or 25 microvolts per meter 10 percent time skywave at night at any point within the continental limits of the United States. The power of the Class I stations on these channels shall not be less than 50 kilowatts.

(b) To each of the channels below there may be assigned Class I and Class II stations: 680, 710, 810, 850, 940, 1000, 1030, 1060, 1070, 1080, 1090, 1110, 1130, 1140, 1170, 1190, 1500, 1510, 1520, 1530, 1540, 1550, and 1560 kilocycles.

NOTE: Class I and II stations on 1540 kc shall deliver not over 5 microvolts per meter groundwave or 25 microvolts per meter 10 percent time skywave at any point of land in the Bahama Islands, and such stations operating nighttime (1. e., sunset to sunrise at the location of the Class II station) shall be located not less than 650 miles from the nearest point of land in the Bahama Islands.

(c) For Class II stations which will not deliver over 5 microvolts per meter groundwave or 25 microvolts per meter 10 percent time skywave at any point on the Canadian border and provided that such stations operating nighttime (1. e., sunset to sunrise at the location of the Class II station) are located not less than 650 miles from the nearest Canadian border, 540, 690, 740, 860, 990, 1010, and 1580 kilocycles.

NOTE 1: See § 2.104 (a) of this chapter with respect to use of 540 kc.

NOTE 2: A station on 1010 kilocycles shall also protect a Class I–B station at Havana, Cuba.

(d) In continenal United States, for Class II stations which operate daytime only with power not in excess of 1 kilowatt and which will not deliver over 5 microvolts per meter groundwave at any point on the Mexican border, and in Alaska, Hawaii, Puerto Rico, and the Virgin Islands, for Class II stations which will not deliver over 5 microvolts per meter groundwave or 25 microvolts per meter 10 percent time skywave at any point on the said border: 730, 800, 900, 1050, 1220 and 1570 kilocycles.

NOTE 1: See North American Regional Broadcasting Agreement, Havana, 1937 (Appendix I, Table IV) for use of 1050 kc by a station in New York.

NOTE 2: See agreement with Mexico for further use of 1220 kc.

§ 3.26 *Regional channels: Classes III–A and III–B stations.* The following frequencies are designated as regional channels and are assigned for use by Class III–A and III–B stations: 550, 560, 570, 580, 590, 600, 610, 620, 630, 790, 910, 920, 930, 950, 960, 970, 980, 1150, 1250, 1260, 1270, 1280, 1290, 1300, 1310, 1320, 1330, 1350, 1360, 1370, 1380, 1390, 1410, 1420, 1430, 1440, 1460, 1470, 1480, 1590, and 1600 kilocycles.

NOTE: See North American Regional Broadcasting Agreement for special provisions concerning the assigning of Class II stations in other countries of North America to 560, 570, 590, 630, and 1270 kcs. Such stations shall be protected from interference in accordance with appendix II, table I, of said agreement.

§ 3.27 *Local channels: Class IV stations.* The following frequencies are designated as local channels and are assigned for use by Class IV stations: 1230, 1240, 1340, 1400, 1450, and 1490 kilocycles.

§ 3.28 *Assignment of stations to channels.* (a) The individual assignments of stations to channels which may cause interference to other United States stations only, shall be made in accordance with the provisions of this part for the respective classes of stations involved. (For determining objectionable interference, see §§ 3.182 and 3.186.)

(b) In all cases where an individual station assignment may cause interference with or may involve a channel assigned for priority of use by a station in another North American country, the classifications, allocation requirements and engineering standards set forth in the North American Regional Broadcasting Agreement shall be observed.

NOTE: Pending action with respect to ratification and entry into force of the North American Regional Broadcasting Agreement, Washington, 1950 (referred to herein as NARBA), no assignment for a standard broadcast station will be made which would be inconsistent with the terms of that agreement.

On an interim basis while protection by countries not signatory to the NARBA continues for assignments in the United States, no assignment for a standard broadcast station will be made which would cause objectionable interference to a duly notified station in a North American country which is not signatory to the NARBA (1. e., Mexico and Haiti). For purposes of this paragraph, interference will in general be determined, in accordance with the engineering standards in use at the time of the expiration of the Interim Agreement (Modus Vivendi), Treaties and Other International Acts Series 1553. In particular, the existence or absence of interference resulting from skywave signal transmission will be determined by the use of Figures 1 and 6 (a) of § 3.190 and the "50 per cent exclusion" method of calculating RSS interference described in § 3.182. Figure 1 of § 3.190 will be utilized in connection with curve #1 of Figure 6 (a) of § 3.190 in the determination of 50 percent skywave signals. Figure 1 of § 3.190, converted for radiation of 100 mv/m at angles above the horizontal by the use of curve #1 of Figure 6 (a) of § 3.190 and the vertical radiation pattern for a 0.311 λ antenna in Figure 5 of § 3.190, will be used with the highest value of antenna radiation occurring at any pertinent angle between the limits described by curves #4 and #5 of Figure 6 (a)

of § 3.190 in the determination of 10% skywave signals. The Mexican and Haitian stations considered to be duly notified will be those notified and accepted in accordance with past agreements, and those subsequently notified in substantial accordance with the procedures and understandings that have pertained thus far.

Engineering standards now in force domestically differ in some respects from those specified for international purposes and must be observed in appropriate cases. For example, the engineering standards specified for international purposes will be used to determine (1) the extent to which interference might be caused by a proposed station in the United States to a station in another North American country and (2) whether the United States should register an objection to any new or changed assignment notified by another North American country. The domestic standards in effect in the United States will be used to determine the extent to which interference exists or would exist from a foreign station where the value of such interference (1) enters into a calculation of the service to be rendered by a proposed operation in the United States or (2) enters into the calculation of the permissible interfering signal from one station in the United States towards another United States station.

In general, an application for a standard broadcast station assignment the grant of which would be consistent with provisions of the NARBA and would not cause objectionable interference to a duly notified station in a North American country not signatory to the NARBA, will be considered and acted upon by the Commission in accordance **with the established procedure for action upon such applications even though the NARBA may not yet have entered into force. However, in particular cases such applications may also present considerations of an international nature which require that a different procedure be followed. In such cases the procedure to be followed will be determined by the Commission in the light of the special considerations involved.**

Special provisions of a procedural nature respecting the consideration of applications for standard broadcast station assignments pending action with respect to ratification and entry into force of NARBA, 1950, and respecting the consideration of applications the grant of which would cause objectionable interference to duly notified stations in countries not signatory to the NARBA, are set out in a note to Part 1 of this chapter, Subparts D and G.

(c) Upon showing that a need exists, a Class II, III, or IV station may be assigned to a channel available for such class, even though interference will be received within its normally protected contour; *Provided:* (1) No objectionable interference will be caused by the proposed station to existing stations or that if interference will be caused, the need for the proposed service outweighs the need for the service which will be lost by reason of such interference; and (2) primary service will be provided to the community in which the proposed station is to be located; and (3) the interference received does not affect more than 10 percent of the population in the proposed station's normally protected primary service area. However, in the event that the nighttime interference received by the proposed station would exceed this amount, then an assignment may be made if the proposed station would provide either a standard broadcast nighttime facility to a community not having such a facility or if 25 percent or more of the nighttime primary service area of the proposed station is without primary nighttime service.

§ 3.29 *Class IV stations on regional channels.* No license will be granted for the operation of a Class IV station on a regional channel: *Provided, however,* That Class IV stations presently authorized to operate on regional channels will not be required to change frequency, or power but will not be protected against interference from Class III stations.

§ 3.30 *Station location and program origination.* (a) Except as provided in paragraph (b) of this section, each standard broadcast station will be licensed to serve primarily a particular city, town, or other political subdivision which will be specified in the station license and the station will be considered to be located in such place. Unless licensed as a synchronous amplifier transmitter, each station shall maintain a studio, which will be known as the main studio, in the place where the station is located provided that the main studio may be located at the transmitter site whether or not the transmitter site is in the place where the station is located. A majority (computed on the basis of duration and not number) of a station's programs or in the case of a station affiliated with a network ⅔ of such station's non-network programs, whichever is smaller, shall originate from the main studio or from other studios or remote points situated in the place where the station is located.

(b) Stations will be licensed to serve more than one city, town, or other political subdivision only where a satisfactory showing is made that each such place meets all the requirements of the rules and regulations of this subpart with respect to the location of main studios; that the station can and will originate a substantial number of local live programs from each such place; and that the requirements as to origination of programs contained in paragraph (a) of this section would place an unreasonable burden on the station if it were licensed to serve only one city, town, or other political sub-division. A station licensed to serve more than one place shall be considered to be located in and shall maintain main studios in each such place. With respect to such station the requirements as to origination of programs contained in paragraph (a) of this section shall be satisfied by the origination of programs from any or all of the main studios or from other studios and remote points situated in any or all of the places in which the main studios are located.

(c) The transmitter of each standard broadcast station shall be so located that primary service is delivered to the borough or city in which the main studio is located in accordance with the rules and regulations of this subpart.

§ 3.31 *Authority to move main studio.* The licensee of a station shall not move its main studio outside the borders of the borough or city, state, district, territory, or possession in which it is located, unless such move is to the location of the station's transmitter, without first securing a modification of construction permit or license. The licensee shall promptly notify the Commission of any other change in location of the main studio.

§ 3.32 *Special experimental authorizations.* (a) Special experimental authorization may be issued to the licensee of a standard broadcast station in addition to the regular license upon informal application therefor and upon a satisfactory showing in regard to the following, among others:

(1) That the applicant has a program of research and experimentation which indicates reasonable promise of contribution to the development and practical application of broadcasting, and will be in addition to and advancement of the work that can be accomplished under its regular license.

(2) That the experimental operation and experimentation will be under the direct supervision of a qualified engineer with an adequate staff of engineers qualified to carry on the program of research and experimentation.

(3) That the public interest, convenience, and necessity will be served by granting the authorization requested.

(b) In case a special experimental authorization permits additional hours of operation, no licensee shall transmit any commercial or sponsored program or make any commercial announcement during such time of operation. In case of other additional facilities, no additional charge shall be made by reason of transmission with such facilities.

(c) A special experimental authorization will not be extended after the actual experimentation is concluded.

(d) The program of research and experimentation as outlined in the application for a special experimental authorization shall be adhered to in the main unless the licensee is authorized to do otherwise by the Commission.

(e) The Commission may require from time to time a broadcast station holding such experimental authorization to conduct experiments that are deemed desirable and reasonable.

(f) A supplemental report shall be filed with and made a part of each application for an extension of a special experimental authorization and shall include statements of the following:

(1) Comprehensive summary of all research and experimentation conducted.

(2) Conclusions and outline of proposed program for further research and development.

(3) Comprehensive summary and conclusions as to the social and economic effects of its use.

§ 3.33 *Antenna systems; showing required.* (a) An application for authority to install a broadcast antenna shall specify a definite site and include full details of the antenna design and expected performance. (Site-to-be-determined applications which were on file prior to October 28, 1953, may be granted conditioned upon the filing within 60 days of such grant of an application for modification of permit specifying a site conforming to Commission's rules and standards.)

(b) All data necessary to show compliance with the terms and conditions of the construction permit must be filed with the license application. If the station is using a directional antenna, a proof of performance must also be filed.

§ 3.34 *Normal license period.* (a) All standard broadcast station licenses will be issued for a normal license period of three years. Licenses will be issued to expire at the hour of 3:00 a. m., e. s. t., in accordance with the following schedule and at three-year intervals thereafter.

(1) For stations located in Delaware and Pennsylvania, August 1, 1957.

(2) For stations located in Maryland, District of Columbia, Virginia, West Virginia, October 1, 1957.

(3) For stations located in North Carolina, South Carolina, December 1, 1957.

(4) For stations located in Florida, Puerto Rico and Virgin Islands, February 1, 1958.

(5) For stations located in Alabama and Georgia, April 1, 1958.

(6) For stations located in Arkansas, Louisiana and Mississippi, June 1, 1958.

(7) For stations located in Tennessee, Kentucky and Indiana, August 1, 1958.

(8) For stations located in Ohio and Michigan, October 1, 1958.

(9) For stations located in Illinois and Wisconsin, December 1, 1958.

(10) For stations located in Iowa and Missouri, February 1, 1956.

(11) For stations located in Minnesota, North Dakota, South Dakota, Montana and Colorado, April 1, 1956.

(12) For stations located in Kansas, Oklahoma, Nebraska, June 1, 1956.

(13) For stations located in Texas, August 1, 1956.

(14) For stations located in Wyoming, Nevada, Arizona, Utah, New Mexico and Idaho, October 1, 1956.

(15) For stations located in California, December 1, 1956.

(16) For stations located in Washington, Oregon, Alaska, Guam and Hawaii, February 1, 1957.

(17) For stations located in Connecticut, Maine, Massachusetts, New Hampshire, Rhode Island and Vermont, April 1, 1957.

(18) For stations located in New Jersey and New York, June 1, 1957.

(b) When an application is granted by the Commission necessitating the issuance of a modified license less than 60 days prior to the expiration date of the license sought to be modified, and an application for renewal of said license is granted subsequent or prior thereto (but within 30 days of expiration of the present license) the modified license as well as the renewal license shall be issued to conform to the combined action of the Commission.

§ 3.35 *Multiple ownership.* No license for a standard broadcast station shall be granted to any party (including all parties under common control.) if:

(a) Such party directly or indirectly owns, operates or controls another standard broadcast station, a substantial portion of whose primary service area would receive primary service from the station in question, except upon a showing that public interest, convenience and necessity will be served through such multiple ownership situation; or

(b) Such party, or any stockholder, officer or director of such party, directly or indirectly owns, operates, controls, or has any interest in, or is an officer or director of any other standard broadcast station if the grant of such license would result in a concentration of control of standard broadcasting in a manner inconsistent with public interest, convenience, or necessity. In determining whether there is such a concentration of control, consideration will be given to the facts of each case with particular reference to such factors as the size, extent and location of areas served, the number of people served, classes of stations involved and the extent of other competitive service to the areas in question. The Commission, however, will in any event consider that there would be such a concentration of control contrary to the public interest, convenience or necessity for any party or any of its stockholders, officers or directors to have a direct or indirect interest in, or be stockholders, officers, or directors of, more than seven standard broadcast stations.

NOTE: 1. The word "control" as used herein is not limited to majority stock ownership, but includes actual working control in whatever manner exercised.

2. In applying the foregoing provisions to the stockholders of a corporation which has more than 50 voting stockholders, only those stockholders need be considered who are officers or directors or who directly or indirectly own 1 percent or more of the outstanding voting stock.

§ 3.36 *Special field test authorization.* (a) Upon a showing that a need exists, a special test authorization to operate a portable or regularly authorized transmitter may be issued to persons desiring to make field intensity surveys to determine values of soil conductivity, or other factors influencing radio wave propagation, in particular areas or paths for the period necessary to conduct the survey. Such authorizations may be granted upon the following conditions:

(1) No objectionable interference will result to the operation of other authorized radio services; in this connection, the power requested shall not exceed that necessary for the purposes of the test.

(2) The carrier will be unmodulated except for half-hourly voice identification.

(3) The plate power ($E_p \times I_p$) of the final stage of the transmitter shall not exceed authorized test power and the antenna current shall be maintained at a constant value for each phase of the test.

(4) The test equipment shall not be permanently installed, unless such installation has been separately authorized. Mobile units shall not be deemed permanent installations.

(5) The equipment must be operated by or under the personal direction of either a licensed radiotelephone first-class or second-class operator.

(6) A report, under oath, containing the measurements, their analysis and other results of the survey shall be filed with the Commission within sixty (60) days from the termination of the test authorization. The measurements taken shall be sufficiently complete, in accordance with § 3.186, so as to permit a determination of the inverse distance field at 1 mile in pertinent directions.

(7) The plate voltage (E_p) and plate current (I_p) of the final stage of the transmitter shall be logged at half-hour intervals and at any time that such power is changed. Certified copies of such log notations shall be submitted to the Commission with the required report.

(8) Operation shall conform to the requirements of Subpart G of this part.

(b) The test equipment, installation and operation thereof need not comply with the requirements of Commission rules and standards except as specified in this section: *Provided however,* That the equipment, installation and operation shall be consistent with good engineering principles and practices.

(c) No authorization shall be issued unless the applicant for such authorization is determined to be legally qualified. Requests for authorizations to operate a transmitter under this section shall be made in writing, signed by the applicant under oath or affirmation (with no special form provided, however), and shall set forth the following information:

(1) Purpose, duration and need for the survey.

(2) Frequency, plate power and time of operation.

(3) A brief description of the test antenna system and its estimated effective field and its proposed location.

(4) In the case of a directional test antenna, an estimate of the maximum fields expected to be radiated in the direction of pertinent broadcast stations.

(5) In the case of a person who is not a licensee or permittee of this Commission the information required by section II of FCC Form 301.

(d) The authorization may be modified or terminated by notification from the Commission if in its judgment such action will promote the public interest, convenience or necessity.

§ 3.37 *Minimum separation between stations.* A license will not be granted for a station on a frequency of ±30 kc from that of another station if the area enclosed by the 25 mv/m groundwave contours of the two stations overlap, nor will a license be granted for the operation of a station on a frequency ±20 kc or ±10 kc from the frequency of another station if the area enclosed by the 25 mv/m groundwave contour of either one overlaps the area enclosed by the 2 mv/m groundwave contour of the other.

EQUIPMENT

§ 3.39 *Indicating instruments—specifications.*

(a) Instruments indicating the plate current or plate voltage of the last radio stage (linear scale instruments), shall meet the following specifications:

(1) Length of scale shall be not less than 2$\frac{3}{4}$ inches.

(2) Accuracy shall be at least 2 percent of the full scale reading.

(3) The maximum rating of the meter shall be such that it does not read off scale during modulation.

(4) Scale shall have at least 40 divisions.

(5) Full scale reading shall not be greater than five times the minimum normal indication.

(b) Instruments indicating the antenna current shall meet the following specifications:

(1) Instruments having logarithmic or square law scales.

(i) Shall meet same requirements as paragraph (a) (1), (2) and (3) of this section for linear scale instruments.

(ii) Full scale reading shall not be greater than three times the minimum normal indication.

(iii) No scale division above one-third full scale reading (in amperes) shall be greater than one-thirtieth of the full scale reading. (Example: An ammeter meeting requirement (i) having full scale reading of 6 amperes is acceptable for reading currents from 2 to 6 amperes, provided no scale division between 2 and 6 amperes is greater than one-thirtieth of 6 amperes, 0.2 ampere.)

(2) Radio frequency instruments having expanded scales.

(i) Shall meet same requirements as paragraph (a) (1), (2) and (3) of this section for linear scale instruments.

(ii) Full scale reading shall not be greater than five times the minimum normal indication.

(iii) No scale division above one-fifth full scale reading (in amperes) shall be greater than one-fiftieth of the full scale reading. (Example: An ammeter meeting the requirement (i) is acceptable for indicating currents from 1 to 5 amperes, provided no division between 1 and 5 amperes is greater than one-fiftieth of 5 amperes, 0.1 ampere.)

(iv) Manufacturers of instruments of the expanded scale type must submit data to the Commission showing that these instruments have acceptable expanded scales, and the type number of these instruments must include suitable designation.

(c) A thermocouple type ammeter meeting the requirements of paragraph (b) of this section shall be permanently installed in the antenna circuit. (This thermocouple ammeter may be so connected that it is short circuited or open circuited when not actually being read. If open circuited, a make-before-break switch must be employed.)

(d) Remote reading antenna ammeters may be employed and the indications logged as the antenna current in accordance with the following:

(1) Remote reading antenna ammeters may be provided by:

(i) Inserting second thermocouple directly in the antenna circuit with remote leads to the indicating instrument.

(ii) Inductive coupling to thermocouple or other device for providing direct current to indicating instrument.

(iii) Capacity coupling to thermocouple or other device for providing direct current to indicating instrument.

(iv) Current transformer connected to second thermocouple or other device for providing direct current to indicating instrument.

(v) Using transmission line current meter at transmitter as remote reading ammeter. See subparagraph (7) of this paragraph.

(vi) Using indications of phase monitor for determining the ratio of antenna currents in the case of directional antennas, provided the indicating instruments in the unit are connected directly in the current sampling circuits with no other shunt circuits of any nature.

(2) The remote ammeter shall be connected at the same point in the antenna circuit as the thermocouple ammeter and shall be so connected and calibrated as to read in amperes within 2 percent of this meter over the entire range above one-third or one-fifth full scale. See paragraphs (b) (1) (i), (iii) and (b) (2) (i), (iii) of this section.

(3) The regular antenna ammeter shall be above the coupling to the remote meter in the antenna circuit so it does not read the current to ground through the remote meter.

(4) All remote meters shall meet the same requirements as the regular antenna ammeter with respect to scale accuracy, etc.

(5) Calibration shall be checked against the regular meter at least once a week.

(6) All remote meters shall be provided with shielding or filters as necessary to prevent any feed-back from the antenna to the transmitter.

(7) In the case of shunt excited antennas, the transmission line current meter at the transmitter may be considered as the remote antenna ammeter provided the transmission line is terminated directly into the excitation circuit feed line, which shall employ series tuning only (no shunt circuits of any type shall be employed), and insofar as practicable, the type and scale of the transmission line meter should be the same as those of the excitation circuit feed line meter (meter in slant wire feed line or equivalent).

(8) Remote reading antenna ammeters employing vacuum tube rectifiers are acceptable provided:

(i) The indicating instruments shall meet all the above requirements for linear scale instruments.

(ii) Data are submitted under oath showing the unit has an over-all accuracy of at least 2 percent of the full scale reading.

(iii) The installation, calibration, and checking are in accordance with the requirements of this paragraph.

(9) In the event there is any question as to the method of providing or the accuracy of the remote meter, the burden of proof of satisfactory performance shall be upon the licensee and the manufacturer of the equipment.

(e) Statons determining power by the indirect method may log the transmission line current in lieu of the antenna current provided the instrument meets the above requirements for antenna ammeters, and further provided that the ratio between the transmission line current and the antenna current is entered each time in the log. In case the station is authorized for the same operating power for both day and nighttime operation, this ratio shall be checked at least once daily. Stations which are authorized to operate with nighttime power different from the daytime power shall check the ratio for each power at least once daily.

(f) No instrument, the seal of which has been broken, or the accuracy of which is questionable, shall be employed. Any instrument which was not originally sealed by the manufacturer that has been opened shall not be used until it has been recalibrated and sealed in accordance with the following: Repairs and recalibration of instruments shall be made by the manufacturer, by an authorized instrument repair service of the manufacturer or by some other properly qualified and equipped instrument repair service. In either case the instrument must be resealed with the symbol or trade-mark of the repair service and a certificate of calibration supplied therewith.

(g) Since it is usually impractical to measure the actual antenna current of a shunt excited antenna system, the current measured at the input of the excitation circuit feed line is accepted as the antenna current.

(h) Recording instruments may be employed in addition to the indicating instruments to record the antenna current and the direct plate current and direct plate voltage of the last radio stage provided that they do not affect the operation of the circuits or accuracy of the indicating instruments. If the records are to be used in any proceedings before the Commission as representation of operation with respect to plate or antenna current and plate voltage only, the accuracy must be the equivalent of the indicating instruments and the calibration shall be checked at such intervals as to insure the retention of the accuracy.

(i) The function of each instrument shall be clearly and permanently shown on the instrument itself or on the panel immediately adjacent thereto.

§ 3.40 *Transmitter; design, construction, and safety of life requirements.*

(a) *Design.* The general design of standard broadcast transmitting equipment [main studio microphone (including telephone lines, if used, as to performance only) to antenna output] shall be in accordance with the following specifications. (In cases where telephone lines are not available to give the performance as required in these specifications a relay transmitter may be authorized to supersede the lines.) For the points not specifically covered below, the principles set out shall be followed: The equipment shall be so designed that:

(1) The maximum rated carrier power (determined by § 3.42) is in accordance with the requirements of § 3.41.

(2) The equipment is capable of satisfactory operation at the authorized operating power or the proposed operating power with modulation of at least 85 to 95 percent with no more distortion than given in (3) below.

(3) The total audio frequency distortion from microphone terminals, including microphone amplifier, to antenna output does not exceed 5 percent harmonics (voltage measurements of arithmetical sum or r. s. s.) when modulated from 0 to 84 percent, and not over 7.5 percent harmonics (voltage measurements of arithmetical sum or r. s. s.) when modulating 85 percent to 95 percent (distortion shall be measured with modulating frequencies of 50, 100, 400, 1000, 5000 and 7500 cycles up to tenth harmonic or 16000 cycles, or any intermediate frequency that readings on these frequencies indicate is desirable).

(4) The audio frequency transmitting characteristics of the equipment from the microphone terminals (including microphone amplifier unless microphone frequency correction is included in which event proper allowance shall be made accordingly) to the antenna output does not depart more than 2 decibels from that at 1000 cycles between 100 and 5000 cycles.

(5) The carrier shift (current) at any percentage of modulation does not exceed 5 percent.

(6) The carrier hum and extraneous noise (exclusive of microphone and studio noises) level (unweighted r. s. s.) is at least 50 decibels below 100 percent modulation for the frequency band of 150 to 5000 cycles and at least 40 decibels down outside this range.

(7) The transmitter shall be equipped with suitable indicating instruments in accordance with the requirements of § 3.58 and any other instruments necessary for the proper adjustment and operation of the equipment.

(8) Adequate provision is made for varying the transmitter power output between sufficient limits to compensate for excessive variations in line voltage, or other factors which may affect the power output.

(9) The transmitter is equipped with automatic frequency control equipment capable of maintaining the operating frequency within the limit specified by § 3.59.

(i) The maximum temperature variation at the crystal from the normal operating temperature shall not be greater than,

Plus or minus 0.1° C. when an *X* or *Y* cut crystal is employed, or

Plus or minus 1.0° C. when low temperature coefficient crystal is employed.

(ii) Unless otherwise authorized, a thermometer shall be installed in such manner that the temperature at the crystal can be accurately measured within 0.05° C. for *X* or *Y* cut crystal or 0.5° for low temperature coefficient crystal.

(iii) It is preferable that the tank circuit of the oscillator tube be installed in the temperature controlled chamber.

NOTE: Explanations of excessive frequency deviations will not be accepted when temperature variations are in excess of the values specified.

(10) Means are provided for connection and continuous operation of approved modulation monitor and approved frequency monitor.

(i) The radio frequency energy for operation of the approved frequency monitor shall be obtained from a radio-frequency stage prior to the modulated stage unless the monitor is of such design as to permit satisfactory operation when otherwise connected and the monitor circuits shall be such that the carrier is not heterodyned thereby.

(11) Adequate margin is provided in all component parts to avoid overheating at the maximum rated power output.

(b) *Construction.* In general, the transmitter shall be constructed either on racks and panels or in totally enclosed frames protected as required by article 810 of the National Electrical Code and as set forth in this paragraph and paragraph (c) of this section.

NOTE 1. The final stages of high power transmitters may be assembled in open frames provided the equipment is enclosed by a protective fence.

NOTE 2. The pertinent sections of article 810 of the National Electrical Code read as follows:

"8191. *General*—Transmitters shall comply with the following:

"*a. Enclosing*—The transmitter shall be enclosed in a metal frame or grille, or separated from the operating space by a barrier or other equivalent means, all metallic parts of which are effectually connected to ground.

"*b. Grounding of controls*—All external metallic handles and controls accessible to the operating personnel shall be effectually grounded. No circuit in excess of 150 volts shall have any parts exposed to direct contact. A complete dead-front type of switchboard is preferred.

"*c. Interlocks on doors*—All access doors shall be provided with interlocks which will disconnect all voltages in excess of 350 volts when any access door is opened."

(1) Means shall be provided for making all tuning adjustments, requiring voltages in excess of 350 volts to be applied to the circuit, from the front of the panels with all access doors closed.

(2) Proper bleeder resistors or other automatic means shall be installed across all the condenser banks to remove any charge which may remain after the high voltage circuit is opened (in certain instances the plate circuit of the tubes may provide such protection; however, individual approval of such shall be obtained by the manufacturer in case of standard equipment, and the licensee in case of composite equipment).

(3) All plate supply and other high voltage equipment, including transformers, filters, rectifiers and motor generators, shall be protected so as to prevent injury to operating personnel.

(i) Commutator guards shall be provided on all high voltage rotating machinery (coupling guards on motor generators, although desirable, are not required).

(ii) Power equipment and control panels of the transmitter shall meet the above requirements (exposed 220 volt AC switching equipment on the front of the power control panels is not recommended; however, is not prohibited).

(iii) Power equipment located at a broadcast station but not directly associated with the transmitter (not purchased as part of same), such as power distribution panels, control equipment on indoor or outdoor stations and the substations associated therewith, are not under the jurisdiction of the Commission; therefore, § 3.46 does not apply.

(iv) It is not necessary to protect the equipment in the antenna tuning house and the base of the antenna with screens and interlocks, provided the doors to the tuning house and antenna base are fenced and locked at all times, with the keys in the possession of the operator on duty at the transmitter. Ungrounded fencing or wires should be effectively grounded, either directly or through proper static leaks. Lighting protection for the antenna system is not specifically required but should be installed.

(v) The antenna, antenna lead-in, counterpoise (if used), etc., shall be installed so as not to present a hazard. The antenna may be located close by or at a distance from the transmitter building. A properly designed and terminated transmission line should be used between the transmitter and the antenna when located at a distance.

(4) Metering equipment. (In addition to the following requirements, instruments shall meet the requirements of §§ 3.39 and 3.58.)

(i) All instruments having more than 1,000 volts potential to ground on the movement shall be protected by a cage or cover in addition to the regular case. (Some instruments are designed by the manufacturer to operate safely with voltages in excess of 1,000 volts on the movement. If it can be shown by the manufacturer's rating that the instrument will operate safely at the applied potential, additional protection is not necessary.)

(ii) In case the plate voltmeter is located on the low potential side of the multiplier resistor with one terminal of the instrument at or less than 1,000 volts above ground, no protective case is required. However, it is good practice to protect voltmeters subject to more than 5,000 volts with suitable over-voltage protective devices across the instrument terminals in case the winding opens.

(iii) The antenna ammeters (both regular and remote and any other radio frequency instrument which it is necessary for the operator to read) shall be so installed as to be easily and accurately read without the operator having to risk contact with circuits carrying high potential radio frequency energy.

(c) *Wiring and shielding.* (1) The transmitter panels or units shall be wired in accordance with standard switchboard practice, either with insulated leads properly cabled and supported or with rigid bus bar properly insulated and protected.

(2) Wiring between units of the transmitter, with the exception of circuits carrying radio frequency energy, shall be installed in conduits or approved fiber or metal raceways to protect it from mechanical injury.

(3) Circuits carrying low level radio frequency energy between units shall be either concentric tube, two wire balanced lines, or properly shielded to prevent the pickup of modulated radio frequency energy from the output circuits.

(4) Each stage (including the oscillator) preceding the modulated stage shall be properly shielded and filtered to prevent unintentional feedback from any circuit following the modulated stage (an exception to this requirement may be made in the case of high level modulated transmitters of approved manufacture which have been properly engineered to prevent reaction).

(5) The crystal chamber, together with the conductor or conductors to the oscillator circuit shall be totally shielded.

(6) The monitors and the radio frequency lines to the transmitter shall be thoroughly shielded.

(d) *Installation.* (1) The installation shall be made in suitable quarters.

(2) Since an operator must be on duty at the transmitter control point during operation, suitable facilities for his wel-

fare and comfort shall be provided at the control point.

(e) *Spart tubes.* A spare tube of every type employed in the transmitter and frequency and modulation monitors shall be kept on hand. When more than one tube of any type are employed, the following table determines the number of spares of that type required:

Number of each type employed:	Spares required
1 or 2	1
3 to 5	2
6 to 8	3
9 or more	4

(f) *Studio equipment.* (1) The studio equipment shall be subject to all the above requirements where applicable except as follows:

(i) If it is properly covered by an underwriter's certificate, it will be considered as satisfying the safety requirements.

(ii) Section 8191 of article 810 of the National Electrical Code shall apply for voltages only when in excess of 500 volts.

(2) No specific requirements are made relative to the design and acoustical treatment. However, the studios and particularly the main studio should be in accordance with the standard practice for the class of station concerned, keeping the noise level as low as reasonably possible.

§ 3.41 *Maximum rated carrier power; tolerances.* The maximum rated carrier power of a transmitter shall be an even power step as recognized by the Commission's plan of allocation (100 watts, 250 watts, 500 watts, 1 kw., 5 kw., 10 kw., 25 kw., 50 kw.) and shall not be less than the authorized power nor shall it be greater than the value specified in the following table:

Class of station	Maximum power authorized to station	Maximum rated carrier power permitted to be installed
		Watts
Class IV	100 or 250 watts	250
Class III	500 or 1,000 watts	1,000
	5,000 watts	5,000
Class II	250, 500, or 1,000 watts	1,000
	5,000 or 10,000 watts	10,000
	25,000 or 50,000 watts	50,000
Class I	10,000 watts	10,000
	25,000 or 50,000 watts	50,000

§ 3.42 *Maximum rated carrier power; how determined.* The maximum rated carrier power of a standard broadcast transmitter shall be determined as the sum of the applicable power ratings of the vacuum tubes employed in the last radio stage.

§ 3.43 *Changes in equipment; authority for.* No licensee or permittee shall change, in the last radio stage, the number of vacuum tubes, nor change to vacuum tubes of different power rating or class of operation, nor shall it change the system of modulation, without authority of the Commission.

§ 3.44 *Other changes in equipment.* Other changes except as provided for in this subpart which do not affect the maximum power rating or operating power of the transmitter or the operation or precision of the frequency control equipment may be made at any time without authority of the Commission, but in the next succeeding application for renewal of license such changes which affect the information already on file shall be shown in full.

§ 3.45 *Radiating system.* (a) All applicants for new, additional, or different broadcast facilities and all licensees requesting authority to change the transmitter site of an existing station shall specify a radiating system the efficiency of which complies with the requirements of good engineering practice for the class and power of the station. (See §§ 3.186 and 3.189.)

(b) No broadcast station licensee or permittee shall change the physical height of the transmitting antenna, or supporting structures, or make any changes in the radiating system which will measurably alter the radiation patterns, except upon application to and authority from the Commission.

(c) Should any changes occur which would alter the resistance of the antenna system, the licensee shall immediately make a new determination of the antenna resistance (see § 3.54) and shall submit application for authority to determine power by the direct method on the basis of the new measurements.

(d) The antenna and/or supporting structure shall be painted and illuminated in accordance with the specifications supplied by the Commission pursuant to section 303 (q) of the Communications Act of 1934 as amended. (See Part 17 of this chapter; Rules Concerning the Construction Marking, and Lighting of Antenna Structures.)

(e) The simultaneous use of a common antenna or antenna structure by more than one standard broadcast station, or by one or more standard broadcast stations and one or more stations of any other class or service may be authorized provided:

(1) Complete verified engineering data are submitted showing that satisfactory operation of each station will be obtained without adversely affecting the operation of the other station.

(2) The minimum antenna height or field intensity for each standard broadcast station concerned complies with paragraph (a) of this section.

(3) Complete responsibility for maintaining the installation and for painting and illuminating the structure in accordance with the pertinent provisions of Part 17 of this chapter is assumed by one of the licensees.

§ 3.46 *Transmitter.* (a) The transmitter proper and associated transmitting equipment of each broadcast station shall be designed, constructed, and operated in accordance with good engineering practice in all phases not otherwise specifically included in the regulations in this subpart.

(b) The transmitter shall be wired and shielded in accordance with good engineering practice and shall be provided with safety features in accordance with the specifications of article 810 of the current National Electrical Code as approved by the American Standards Association.

(c) The station equipment shall be so operated, tuned, and adjusted that emissions are not radiated outside the authorized band which cause or are capable of causing interference to the communications of other stations. Spurious emissions, including radio frequency harmonics, and audio frequency harmonics, shall be maintained at as low a level as practicable at all times in accordance with good engineering practice. In the event interference is caused to other stations by modulating frequencies in excess of 7500 cycles or spurious emissions, including radio frequency harmonics and audio frequency harmonics outside the band plus or minus 7500 cycles of the authorized carrier frequency, the licensee or permittee small install equipment or make adjustments which limit the emissions to within this band or to such an extent above 7500 cycles as to reduce the interference to where it is no longer objectionable.

(d) The audio distortion, audio frequency response, carrier hum, noise level, and other essential phases of the operation which control the external effects shall at all times conform to the requirements of good engineering practice.

§ 3.47 *Equipment performance measurements.* (a) The licensee of each standard broadcast station shall make the following equipment performance measurements at yearly intervals. One such set shall be made during the four-month period preceding the date of filing application for renewal of station license:

(1) Data and curves showing over-all audio frequency response from 30 to 7500 CPS for approximately 25, 50, 85, and 100 (if obtainable) percent modulation. Family of curves should be plotted (one for each percentage above) with DB above and below a reference frequency of 1000 CPS as ordinate and audio frequency as abscissa.

(2) Data and curves showing audio frequency harmonic content for 25, 50, 85, and 100 percent modulation for fundamental frequencies of 50, 100, 400, 1000, 5000, and 7500 CPS (either arithmetical or root sum square values up to the tenth harmonic or 16000 CPS). Plot family of curves (one for each percentage above) with percent distortion as ordinate and audio frequency as abscissa.

(3) Data showing percentage carrier shift for 25, 50, 85, and 100 percent modulation with 400 CPS tone.

(4) Carrier hum and extraneous noise generated within the equipment and measured as the level below 100 percent modulation throughout the audio spectrum or by bands.

(5) Measurements or evidence showing that spurious radiations including radio frequency harmonics are suppressed or are not present to a degree capable of causing objectionable interference to other radio services. Field intensity measurements are preferred but observations made with a communications type receiver may be accepted. However, in particular cases involving interference or controversy, the Commission may require actual measurements. Measurements shall be made with the equipment adjusted for normal program operation and shall include all circuits between main studio amplifier input and antenna output including equalizer or correction circuits normally employed, but without compression if such amplifier is employed.

(b) The data required by paragraph (a) of this section together with a description of instruments and procedure, signed by the engineer making the measurements, shall be kept on file at the transmitter and retained for a period of two years and on request shall be made available during that time to any duly authorized representative of the Federal Communications Commission.

§ 3.48 *Acceptability of broadcast transmitters for licensing.* (a) In order to facilitate the filing of, and action on applications for station authorizations, transmitters will be accepted for licensing by the Commission under one of the following conditions:

(1) A transmitter may be Type-Accepted upon the request of any manufacturer of transmitters built in quantity by following the type acceptance procedure set forth in Part 2 of this chapter, provided that the data and information submitted indicates that the transmitter meets the requirements of § 3.40. If accepted, such transmitter will be included on the Commission's "Radio Equipment List, Part B, Aural Broadcast Equipment". Applicants specifying transmitters included on such a list need not submit detailed descriptions and diagrams where the correct type number is specified, provided that the equipment proposed is identical with that accepted. Copies of this list are available for inspection at the Commission's office in Washington, D. C., and at each of its field offices.

(2) An application specifying a transmitter not included on the Radio Equipment List, Part B may be accepted upon the request of a prospective licensee submitting with the application for construction permit a complete description of the transmitter, including the circuit diagram, listing of all tubes used, function of each, multiplication in each stage, plate current and voltage applied to each tube, a description of the oscillator circuit together with any devices installed for the purpose of frequency stabilization and the means of varying output power to compensate for power supply voltage variations. However, if this data has been filed with the Commission by a manufacturer in connection with a request for type acceptance, it need not be submitted with the application for construction permit but may be referred to as "on file". Measurement data for type acceptance made in accordance with subparagraph (1) of this paragraph shall be submitted with the license application.

(3) A transmitter shown on an instrument of authorization by manufacturer and type number, or as a composite, and which was in use prior to June 30, 1955 may continue to be used by the licensee, his successors or assignees, provided such transmitter continues to comply with the rules and regulations.

(b) Additional rules with respect to withdrawal of type-acceptance, modification of type-accepted equipment and limitations on the findings upon which type acceptance is based are set forth in Part 2 of this chapter.

§ 3.49 *Requirements for approval of frequency monitors*—(a) *General requirements and approval.* (1) There are several ways or means by which it can be determined whether the frequency of the emitted carrier wave is within the required limits of the assigned frequency. However, one of the commonest ways is by means of a local piezo oscillator of known frequency producing a beat with the emitted wave used in conjunction with an instrument to indicate the resultant beat frequency. The visual indicator is the only method now in common use by which it is considered that the frequency of the beat may be determined with the required degree of accuracy. Approval of a frequency monitor will be given based upon data taken by the Laboratory Division of the F. C. C. Any manufacturer desiring to submit a monitor for approval shall supply the Commission with full details. If the specifications appear to meet the requirements, the Commission will authorize the Laboratory Division to issue shipping instructions. The shipping charges to and from the Laboratory Division at Laurel, Md., shall be paid by the manufacturer.

(2) In approving a frequency monitor, based upon the tests by the Laboratory, the Commission merely recognizes that the type of monitor has the inherent capability of functioning in compliance with § 3.60, if properly constructed, maintained, and operated. The Commission accepts no responsibility beyond this and further realizes that these monitors may have a limited range over which the visual indicator will determine deviations. Accordingly, it is necessary that adjunct equipment be used to determine major deviations.

NOTE: In addition to the visual indicator, the range of which is necessarily limited in order to obtain the required accuracy, an aural indicator should also be employed to indicate frequency deviations beyond the range of the visual indicator, particularly where the visual indicator is so designed that the indication becomes zero when the deviations become considerably greater than the range of the instrument. When it is desired to make any change, either mechanical or electrical, the details shall be submitted to the Commission for its consideration.

(3) No change whatsoever will be permitted in the monitors sold under approval number issued by the Commission except when the licensee or the manufacturer is specifically authorized to make such changes.

(4) When it is desired to make any change, either mechanical or electrical, the details shall be submitted to the Commission for its consideration.

(5) Approval is given subject to withdrawal if the unit proves defective in service and cannot be relied upon under usual conditions of maintenance and operation encountered in the average standard broadcast station. Withdrawal of approval means that no further units may be installed by standard broadcast stations for the purpose of complying with § 3.60, but will not affect units already sold, unless it is found that there has been an unauthorized change in design or construction, or the material or workmanship is defective.

(b) *General specifications.* The general specifications that frequency monitors shall meet before they will be approved by the Commission are as follows:

(1) The unit shall have an accuracy of at least five parts per million under ordinary conditions (temperature, humidity, power supply, and other conditions which may affect its accuracy) encountered in standard broadcast stations throughout the United States.

(2) The range of the indicating device shall be at least from 20 cycles below to 20 cycles above the assigned frequency.

(3) The scale of the indicating device shall be so calibrated as to be accurately read within at least 1 cycle.

(4) The unit shall be equipped with an automatic temperature control chamber (preferably enclosing the tank circuits of the oscillator) such that the maximum temperature variation at the crystal from the normal operating temperature shall not be greater than,

Plus or minus 0.05° C. when *X* or *Y* cut crystal is employed, or

Plus or minus 0.5° C. when low temperature coefficient crystal is employed.

(5) Unless otherwise specifically authorized, the instrument shall be equipped with a thermometer such that the temperature can be accurately measured within 0.025° C. for *X* or *Y* cut crystal or 0.25° C. for low temperature coefficient crystal.

(6) The monitor circuit shall be such that it may be continuously operated and the emitted carrier of the station is not heterodyned thereby.

(7) Means shall be provided for adjustment of the temperature or other means for correction of the indications of the monitor to agree with the external standard.

(c) *Tests to be made by the Laboratory Division of the F. C. C.* The tests to be made at the Laboratory will include the determination of the following:

(1) *Accuracy.* (i) Oscillator frequency, as received.

(ii) Constancy of oscillator frequency, as measured several times in 1 month.

(iii) Accuracy of readings of frequency-difference instrument.

(iv) Functioning of frequency adjustment device.

(v) Effects on frequency of changing tubes and of voltage variations.

(2) *Temperature control stability.* Effect on frequency of variation of room temperature through a range not to exceed 10° to 35° C.

(3) *Sensitivity.* Response of indicating instrument to small changes of frequency.

(4) *General construction.* (i) Inspection to determine ability to stand shipment and service.

(ii) Special tests to determine quality of construction, such as effect of tilting or tipping on frequency.

(5) *Miscellaneous performance.* (a) Various, depending on character of apparatus (e. g., changes after stopping and starting, effect of varying coupling with transmitter, etc.).

(d) The equipment will be operated in a test in the same way and the same conditions under which it will be used in service as specified by the manufacturer. The manufacturer shall supply to the Laboratory Division all instructions or services which will be supplied to the purchaser of the equipment. The equipment, as submitted, shall be adjusted for operation in connection with broadcast stations operating on 1600 kilocycles.

§ 3.50 *Requirements for approval of modulation monitors.* (a) Approval will be given based on the test data taken at the Laboratory Division of the F. C. C. Any manufacturer desiring to submit a monitor for approval shall supply the Commission with full details and if the specifications appear to meet the requirements, the Commission will authorize the Laboratory Division to issue shipping instructions. The shipping charges to and from Laurel, Md., shall be paid by the manufacturer.

(b) The specifications that the modulation monitor shall meet before it will be approved by the Commission are as follows:

(1) A DC meter for setting the average rectified carrier at a specific value and to indicate changes in carrier intensity during modulation.

(2) A peak indicating light or similar device that can be set at any predetermined value from 50 to 120 percent modulation to indicate on positive peaks, and/or from 50 to 100 percent negative modulation.

(3) A semi-peak indicator with a meter having the characteristics given below shall be used with a circuit such that peaks of modulation of duration between 40 and 90 milliseconds are indicated to 90 percent of full value and the discharge rate adjusted so that the pointer returns from full reading to 10 percent of zero within 500 to 800 milliseconds. A switch shall be provided so that this meter will read either positive or negative modulation and, if desired, in the center position it may read both in a full-wave circuit. The characteristics of the indicating meter are as follows:

(i) The time for one complete oscillation of the pointer shall be 290 to 350 milliseconds. The damping factor shall be between 16 and 200. The useful scale length shall be at least 2.3 inches. The meter shall be calibrated for modulation from 0 to 110 percent and in decibels below 100 percent with 100 percent being 0 DB.

(ii) The accuracy of the reading on percentage of modulation shall be ±2 percent for 100 percent modulation, and ±4 percent of full scale reading at any other percentage of modulation.

(4) The frequency characteristics curve shall not depart from a straight line more than ±½ DB from 30 to 10000 cycles. The amplitude distortion or generation of audio harmonics shall be kept to a minimum.

(5) The modulation meter shall be equipped with appropriate terminals so that an external peak counter can be readily connected.

(6) Modulation will be tested at 115 volts ±5 percent and 60 cycles, and the above accuracies shall be applicable under these conditions.

(7) All specifications not already covered above, and the general design, construction, and operation of these units must be in accordance with good engineering practice.

TECHNICAL OPERATION

§ 3.51 *Operating power; how determined.* (a) Except as provided in paragraph (b) of this section, the operating power shall be determined by the direct method (the square of the antenna current times the antenna resistance at the point where the current is measured and at the operating frequency).

(b) Operating power shall be determined on a temporary basis by the indirect method: (1) In case of an emergency where the licensed antenna system has been damaged by causes beyond the control of the licensee (see § 3.45), or (2) Pending completion of authorized changes in the antenna system, or (3) If any change is made in the antenna system or any other change is made which may affect the antenna system. (See § 3.45.)

§ 3.52 *Operating power; indirect measurement.* (a) The operating power determined by indirect measurement from the plate input power of the last radio stage is the product of the plate voltage (Ep), the total plate current of the last radio stage (Ip), and the proper factor (F) given in paragraph (b) of this section: That is

$$\text{Operating power} = Ep \times Ip \times F$$

(b) Factor to be used.

Factor (F)	Method of modulation	Maximum rated carrier power	Class of amplifier
0.70	Plate	0.1–1.0 kw	
.80	Plate	5 kw and over	
.35	Low Level	0.1 kw and over	B
.65	Low Level	0.1 kw and over	BC [1]
.35	Grid	0.1 kw and over	

[1] All linear amplifier operation where efficiency approaches that of Class C operation.

(c) In computing operating power by the indirect method, the factor in paragraph (b) of this section shall apply in all cases, and no distinction will be recognized due to the operating power being less than the maximum rated carrier power.

§ 3.53 [Reserved.]

§ 3.54 *Operating power; direct measurement.* (a) Applications to determine the operating power by the direct method shall be made on FCC Form 302.

(b) The resistance variation method, substitution method and bridge method are acceptable methods of measuring the total antenna resistance.

(c) A determination of the resistance of an omni-directional antenna shall be made by taking a series of measurements at 5, 10, 15, and 20 kc on each side of the operating frequency. The values measured should be plotted with frequency as abscissa and resistance in ohms as ordinate and a smooth curve drawn. The point on the ordinate where this curve intersects the operating frequency gives the value of the antenna resistance.

(d) Antenna resistance for a directional antenna system shall be measured at the point of common radio frequency input to the directional antenna system. The following conditions shall obtain:

(1) The antenna shall be finally adjusted for the required pattern.

(2) The reactance at the operating frequency and at the point of measurement shall be adjusted to zero or as near thereto as practical.

(3) Suitable radio-frequency bridge or other method shall be employed to determine the resistance and reactance at the point of common radio frequency input.

(4) Resistance and reactance measurements at approximately 5, 10, 15, and 20 kc. on each side of the operating frequency shall be made. The values measured shall be plotted and the resistance at the operating frequency determined in the same manner as set forth in paragraph (c) of this section.

(5) A permanently installed antenna ammeter shall be placed in each element of the system as well as at the point of measurement of resistance.

(e) The license for a station of power of 5 kw or under which employs a directional antenna will specify the antenna resistance as 92.5 percent of that determined at the point of common input. The resistance specified for stations of a power over 5 kw will be 95 percent of that determined at the point of common input.

§ 3.55 *Modulation.* The percentage of modulation shall be maintained as high as possible consistent with good quality of transmission and in no case less than 85 percent on peaks nor more than 100 percent on negative peaks of frequent recurrence during any selection which is transmitted at the highest level of the program under consideration.

§ 3.56 *Modulation monitors.* (a) Each station shall have in operation, either at the transmitter or at the place the transmitter is controlled, a modulation monitor of a type approved by the Commission.

NOTE: Approved modulation monitors are included on the Commission's "Radio Equipment List, Part B, Aural Broadcast Equipment". Copies of this list are available for inspection at the Commission's office in Washington, D. C. and at each of its field offices.

(b) In the event that the modulation monitor becomes defective the station may be operated without the monitor pending its repair or replacement for a period not in excess of 60 days without further authority of the Commission: *Provided,* That:

(1) Appropriate entries shall be made in the operating log of the station showing the date and time the monitor was removed from and restored to service.

(2) The Engineer in Charge of the radio district in which the station is located shall be notified both immediately after the monitor is found to be defective and immediately after the repaired or replacement monitor has been installed and is functioning properly.

(3) The degree of modulation of the station shall be monitored with a cathode ray oscilloscope or other acceptable means.

(c) If conditions beyond the control of the licensee prevent the restoration of the monitor to service within the above allowed period, informal request may be filed with the Engineer in Charge of the radio district in which the station is operating for such additional time as may be required to complete repairs of the defective instrument.

§ 3.57 *Operating power; maintenance of.* (a) The operating power of each station shall be maintained as near as practicable to the licensed power and shall not exceed the limits of 5 percent above and 10 percent below the licensed power, except that in an emergency when due to causes beyond control of the licensee it becomes impossible to operate with full licensed power, the station may be operated with reduced power for a period not to exceed 10 days, provided the Commission and the Engineer in Charge of the radio district in which the station is located shall be notified immediately after the emergency develops and also upon the resumption of licensed power.

(b) In addition to maintaining the operating power within the above limitations, stations employing directional antenna systems shall maintain the ratio of the antenna currents in the elements of the system within 5 percent of that specified by the terms of the license or other instrument of authorization.

§ 3.58 *Indicating instruments.* (a) Each standard broadcast station shall be equipped with indicating instruments which conform with the specifications set forth in § 3.39 for measuring the DC plate circuit current and voltage of the last radio frequency amplifier stage; the radio frequency base current of each antenna element; and, for stations employing directional antenna systems, the radio frequency current at the point of common input to the directional antenna.

(b) In the event that any one of these indicating instruments becomes defective when no substitute which conforms with the required specifications is available, the station may be operated without the defective instrument pending its repair or replacement for a period not in excess of 60 days without further authority of the Commission: *Provided,* That:

(1) Appropriate entries shall be made in the operating log of the station showing the date and time the meter was removed from and restored to service.

(2) The Engineer in Charge of the radio district in which the station is located shall be notified both immediately after the instrument is found to be defective and immediately after the repaired or replacement instrument has been installed and is functioning properly.

(3) If the defective instrument is the antenna current meter of a nondirectional station which does not employ a remote antenna ammeter, or if the defective instrument is the common point meter of a station which employs a directional antenna, and does not employ a remote common point meter, the operating power shall be determined by the indirect method in accordance with § 3.52 during the entire time the station is operated without the antenna current meter or common point meter. However, if a remote antenna ammeter or a remote common point meter is employed and the antenna current meter or common point meter becomes defective, the remote meter may be used in determining operating power by the direct method pending the return to service of the regular meter, provided other meters maintained at same value previously employed.

(c) If conditions beyond the control of the licensee prevent the restoration of the meter to service within the above allowed period, informal request in accordance with § 1.332 (d) of this chapter may be filed with the Engineer in Charge of the radio district in which the station is located for such additional time as may be required to complete repairs of the defective instrument.

(d) Remote antenna ammeters and remote common point meters are not required therefore authority to operate without them is not necessary. However if a remote antenna ammeter or common point meter is employed and becomes defective, the antenna base currents may be read and logged once daily for each mode of operation, pending the return to service of the regular remote meter.

§ 3.59 *Frequency tolerance.* The operating frequency of each station shall be maintained within 20 cycles of the assigned frequency.

§ 3.60 *Frequency monitor.* (a) The licensee of each station shall have in operation, either at the transmitter or at the place where the transmitter is controlled, a frequency monitor of a type approved by the Commission which shall be independent of the frequency control of the transmitter.

NOTE: Approved frequency monitors are included on the Commission's "Radio Equipment List, Part B, Aural Broadcast Equipment". Copies of this list are available for inspection at the Commission's office in Washington, D. C. and at each of its field offices.

(b) In the event that the frequency monitor becomes defective the station may be operated without the monitor pending its repair or replacement for a period not in excess of 60 days without further authority of the Commission: *Provided,* That:

(1) Appropriate entries shall be made in the operating log of the station showing the date and time the monitor was removed from and restored to service.

(2) The Engineer in Charge of the radio district in which the station is located shall be notified both immediately after the monitor is found to be defective and immediately after the repaired or replacement monitor has been installed and is functioning properly.

(3) The frequency of the station shall be measured by an external source at least once each seven days and the results entered in the station log.

(c) If conditions beyond the control of the licensee prevent the restoration of the monitor to service within the above allowed period, informal request in accordance with § 1.332 (d) of this chapter may be filed with the Engineer in Charge of the radio district in which the station is located for such additional time as may be required to complete repairs of the defective instrument.

§ 3.61 *New equipment; restrictions.* The Commission will authorize the installation of new transmitting equipment in a broadcast station or changes in the frequency control of an existing transmitter only if such equipment is so designed that there is reasonable assurance that the transmitter is capable of maintaining automatically the assigned frequency within the limits specified in § 3.59.

§ 3.62 *Automatic frequency control equipment; authorization required.* New automatic frequency control equipment and changes in existing automatic frequency control equipment that may affect the precision of frequency control or the operation of the transmitter shall be installed only upon authorization from the Commission.

§ 3.63 *Auxiliary transmitter.* Upon showing that a need exists for the use of an auxiliary transmitter in addition to the regular transmitter of a broadcast station, a license therefor may be issued: *Provided,* That:

(a) An auxiliary transmitter may be installed either at the same location as the main transmitter or at another location.

(b) A licensed operator shall be in control whenever an auxiliary transmitter is placed in operation.

(c) The auxiliary transmitter shall be maintained so that it may be put into immediate operation at any time for the following purposes:

(1) The transmission of the regular programs upon the failure of the main transmitter.

(2) The transmission of regular programs during maintenance or modification work on the main transmitter necessitating discontinuance of its operation for a period not to exceed five days. Where such operation is required for periods in excess of five days an informal application shall be made.

(3) Upon request by a duly authorized representative of the Commission.

(d) The auxiliary transmitter shall be tested at least once each week to determine that it is in proper operating condition and that it is adjusted to the proper frequency, except that in the case of operation in accordance with paragraph (c) of this section during any week, the test in that week may be omitted provided the operation under paragraph (c) of this section is satisfactory. Tests shall be conducted only between midnight and 9 a. m., local standard time. A record shall be kept of the time and result of each test. Such records shall be retained for a period of two years.

(e) The auxiliary transmitter shall be equipped with satisfactory control equip-

ment which will enable the maintenance of the frequency emitted by the station within the limits prescribed by the regulations in this part.

(f) An auxiliary transmitter which is licensed at a geographical location different from that of the main transmitter shall be equipped with a frequency control which will automatically hold the frequency within the limits prescribed by the regulations in this part without any manual adjustment during operation or when it is being put into operation.

(g) The operating power of an auxiliary transmitter may be less than the authorized power, but in no event shall it be greater than such power.

(h) All regulations as to safety requirements and spurious emissions applying to broadcast transmitting equipment shall apply also to an auxiliary transmitter.

§ 3.64 *Alternate main transmitters.* The licensee of a standard broadcast station may be licensed for alternate main transmitters provided that a technical need for such alternate transmitters is shown, such as licensees maintaining 24-hour schedule and needing alternate operations for maintenance, or where developmental work requires alternate operation, and that the following conditions are met:

(a) Both transmitters are located at the same place.

(b) The transmitters have the same power rating except at stations operating with different daytime and nighttime power when it shall be permissible to employ transmitters of power ratings appropriate to either the licensed daytime or nighttime power.

(c) The external effects from both transmitters are substantially the same as to frequency stability, reliability of operation, radio harmonics and other spurious emissions, audio frequency range and audio harmonic generation in the transmitter.

§ 3.65 *Antenna structure, marking and lighting.* Where an antenna structure(s) is required to be painted or lighted see § 17.37, *Inspection of tower lights and associated control equipment;* § 17.39, *Cleaning and repainting;* § 17.40, *Time when lights shall be exhibited;* § 17.41, *Spare lamps;* and § 17.42, *Lighting equipment;* of Part 17 of this chapter (Construction, Marking and Lighting of Antenna Structures).

§ 3.66 *Remote control operation.* (a) A station which is authorized for nondirectional operation with power of 10 kilowatts or less may, upon prior authorization from the Commission, be operated by remote control at the point(s) which shall be specified in the station license. An application for authorization to operate by remote control may be made as a part of an application for construction permit or license, or modification thereof by specifying the proposed remote control point(s). Operation by remote control shall be subject to the following conditions:

(1) The equipment at the operating and transmitting positions shall be so installed and protected that it is not accessible to or capable of operation by persons other than those duly authorized by the licensee.

(2) The control circuits from the operating position to the transmitter shall provide positive on and off control and shall be such that open circuits, short circuits, grounds or other line faults will not actuate the transmitter and any fault causing loss of such control will automatically place the transmitter in an inoperative condition.

(3) Control and monitoring equipment shall be installed so as to allow the licensed operator either at the remote control point or at the transmitter, to perform all of the functions in a manner required by the Commission's rules.

OPERATION

§ 3.71 *Minimum operating schedule.* Except Sundays, the licensee of each standard broadcast station shall maintain a minimum operating schedule of two-thirds of the total hours that it is authorized to operate between 6 a. m. and 6 p. m., local standard time, and two-thirds of the total hours it is authorized to operate between 6 p. m. and midnight, local standard time, except that in an emergency when, due to causes beyond the control of the licensee, it becomes impossible to continue operating, the station may cease operation for a period of not to exceed 10 days, provided that the Commission and the Engineer in Charge of the radio district in which the station is located shall be notified in writing immediately after the emergency develops.

§ 3.72 *Operation during experimental period.* The licensee of each standard broadcast station shall operate or refrain from operating its station during the experimental period as directed by the Commission in order to facilitate frequency measurement or for the determination of interference.

§ 3.73 *Specified hours.* If the license of a station specifies the hours of operation, the schedule so specified shall be adhered to except as provided in §§ 3.71 and 3.72.

§ 3.74 *Sharing time.* If the licenses of stations authorized to share time do not specify hours of operation, the licensees shall endeavor to reach an agreement for a definite schedule of periods of time to be used by each. Such agreement shall be in writing and each licensee shall file the same in triplicate original with each application to the Commission for renewal of license. If and when such written agreements are properly filed in conformity with this section the file mark of the Commission will be affixed thereto, one copy will be retained by the Commission, one copy forwarded to the Engineer in Charge of the radio district in which the station is located, and one copy returned to the licensee to be posted with the station license and considered as a part thereof. If the license specifies a proportionate time division, the agreement shall maintain this proportion. If no proportionate time division is specified in the license, the licensees shall agree upon a division of time. Such division of time shall not include simultaneous operation of the stations unless specifically authorized by the terms of the license.

§ 3.75 *Sharing time; equivalence of day and night hours.* For the purpose of determining the proportionate division of time of the broadcast day for sharing time stations 1 night hour shall be considered the equivalent of 2 day hours.

§ 3.76 *Sharing time; experimental period.* If the license of a station authorized to share time does not specify the hours of operation, the station may be operated for the transmission of regular programs during the experimental period provided an agreement thereto is reached with the other stations with which the broadcast day is shared and further provided such operation is not in conflict with § 3.72. Time-sharing agreements for operation during the experimental period need not be submitted to the Commission.

§ 3.77 *Sharing time; departure from regular schedule.* A departure from the regular operating schedule set forth in a time-sharing agreement will be permitted only in cases where an agreement to that effect is reduced to writing, is signed by the licensees of the stations affected thereby and filed in triplicate by each licensee with the Commission prior to the time of the proposed change. If time is of the essence, the actual departure in operating schedule may precede the actual filing of written agreement, provided appropriate notice is sent to the Commission and the Engineer in Charge of the radio district in which the station is located.

§ 3.78 *Sharing time stations; notification to Commission.* If the licensees of stations authorized to share time are unable to agree on a division of time, the Commission shall be so notified by statement to that effect filed with the applications for renewals of licenses. Upon receipt of such statement the Commission will designate the applications for a hearing and, pending such hearing, the operating schedule previously adhered to shall remain in full force and effect.

§ 3.79 *License to specify sunrise and sunset hours.* If the licensee of a broadcast station is required to commence or cease operation, or to change the mode of operation of the station at the times of sunrise and sunset at any particular location, the controlling times for each month of the year are set forth in the station's instrument of authorization. Uniform sunrise and sunset times are specified for all of the days of each month, based upon the actual times of sunrise and sunset for the fifteenth day of that month adjusted to the nearest quarter hour. In accordance with a standardized procedure described therein, actual sunrise and sunrise and sunset times are derived by interpolation in the tables of the 1946 American Nautical Almanac, issued by the Nautical Almanac Office of the United States Naval Observatory.

§ 3.80 *Secondary station; filing of operating schedule.* The licensee of a secondary station authorized to operate limited time and which may resume operation at the time the dominant station (or stations) on the same channel ceases operation shall, with each application for renewal of license, file in triplicate a copy of its regular operating schedule, bearing a signed notation by the licensee of the dominant station of its objection or lack of objection thereto. Upon approval of such operating schedule, the Commission will affix its file mark and return one copy to the licensee authorized to operate limited time, which shall be posted with the station license and considered as a part thereof. Departure from said operating schedule will be permitted only in accordance with the procedure set forth in § 3.77.

§ 3.81 *Secondary station; failure to reach agreement.* If the licensee of a secondary station authorized to operate limited time and a dominant station on a channel are unable to agree upon a definite time for resumption of operation by the station authorized limited time, the Commission shall be so notified by the licensee of the station authorized limited time. After receipt of such statement the Commission will designate for hearing the applications of both stations for renewal of license, and pending the hearing the schedule previously adhered to shall remain in full force and effect.

§ 3.82 *Departure from schedule; material violation.* In all cases where a station licensee is required to prepare and file an operating schedule, any deviation or departure from such schedule, except as herein authorized, shall be considered as a violation of a material term of the license.

§ 3.83 *Local standard time.* All references herein to standard time or local standard time refer to local standard time as determined and fixed by the Interstate Commerce Commission.

§ 3.84 *Daylight saving time.* If local time is changed from standard time to daylight saving time at the location of all stations sharing time on the same channel, the hours of operation of all such stations on that channel shall be understood to refer to daylight saving time, and not standard time, as long as daylight saving time is observed at such locations. This provision shall govern when the time is changed by provision of law or general observance of daylight saving time by the various communities, and when the time of operation of such stations is specified in the license or is mutually agreed upon by the licensees: *Provided, however,* That when the license specifies average time of sunrise and sunset, local standard time shall be observed. In no event shall a station licensed for daytime only operate on regular schedule prior to local sunrise, or shall a station licensed for greater daytime power than nighttime power or for a different radiation pattern for daytime operation than for nighttime operation operate with the daytime power or radiation pattern prior to local sunrise.

§ 3.85 *Changes in time; agreement between licensees.* Where the local time is not changed from standard time to daylight saving time at the location of all stations sharing time on the same channel, the hours of operation of such stations shall be understood to have reference to standard time, and not daylight saving time, unless said licensees mutually agree upon a new schedule which shall be effective only while daylight saving time is observed at the location of some of these stations.

§ 3.86 *Local standard time; license provisions.* The time of operation of any broadcast station which does not share time with other stations on the same channel shall be understood to have reference to local standard time unless modification of such license with respect to hours of operation is authorized by the Commission.

§ 3.87 *Program transmissions prior to local sunrise.* (a) The provisions of §§ 3.6, 3.8, 3.9, 3.10, 3.23, 3.79, and 3.84 shall not prevent the transmission of programs between 4 o'clock a. m., local standard time, and local sunrise, of standard broadcast stations with their authorized daytime facilities: *Provided,* That the provisions of this section shall not extend to:

(1) Stations regularly sharing time during daytime hours either under licenses pursuant to which time-sharing agreements have been entered into or licenses specifying hours of operation, unless time-sharing agreements have been reached covering such operation prior to local sunrise. Sections 3.74, 3.77, and 3.78 shall be applicable to such agreements.

(2) Any Class II station causing interference, as determined by the standard broadcast Technical Standards of this subpart, by use of its daytime facilities within the 0.5 mv/m 50 percent skywave contour of any Class I station either of the United States or of any country party to the North American Regional Broadcasting Agreement, except (i) where the Class I station is located east of the Class II station in which case operation may begin at local sunrise at the Class I station; (ii) where an agreement has been reached with the Class I station to begin operation prior to local sunrise.

(3) Operation by use of its daytime facilities of any Class II station on any Class I–A channel not assigned to the United States under the North American Regional Broadcasting Agreement.

(b) Any station operating during such hours receiving notice from the Commission that undue interference is caused shall refrain from such operation during such hours pending further notice from the Commission.

(c) Nothing contained in outstanding instruments of authorization for such stations shall prohibit such operation except as herein provided.

(d) The period 4 a. m. to 6 a. m., local standard time, shall not be included in determining compliance with § 3.71.

§ 3.88 *Blanketing interference.* The licensee of each broadcast station is required to satisfy all reasonable complaints of blanketing interference within the 1 v/m contour.

§ 3.89 *Use of frequency and modulation monitors at auxiliary transmitters.* (a) The following shall govern the installation of approved frequency and modulation monitors at auxiliary transmitters:

(1) In case the auxiliary transmitter location is at a site different from that of the main transmitter, an approved frequency monitor shall be installed at the auxiliary transmitter, except when the frequency of the auxiliary transmitter can be monitored by means of the frequency monitor at the main transmitter.

(2) The provision that the frequency monitor may be located at the site of the main transmitter shall not relieve the obligation that the frequency deviation of the auxiliary transmitter shall be maintained within 20 cycles.

(3) Installation of an approved modulation monitor at the location of the auxiliary transmitter, when different from that of the main transmitter, is optional with the licensee. However, when it is necessary to operate the auxiliary transmitter beyond 2 calendar days, a modulation monitor shall be installed and operated at the auxiliary transmitter. The monitor (if taken from the main transmitter) shall be reinstalled at the main transmitter immediately upon resumption of operation of the main transmitter.

(4) In all cases where the auxiliary transmitter and the main transmitter have the same location, the same frequency and modulation monitor may be used for monitoring both transmitters, provided they are so arranged as to be switched readily from one transmitter to the other.

§ 3.90 [Reserved.]

§ 3.91 *Discontinuance of operation.* The licensee of each station shall notify the Commission in Washington, D. C., and the Engineer in Charge of the radio district where such station is located of permanent discontinuance of operation at least two days before operation is discontinued. The licensee, shall, in addition, immediately forward the station license and other instruments of authorization to the Washington, D. C., office of the Commission for cancellation.

§ 3.92 *Station and operator licenses; posting of.* (a) The station license and any other instrument of station authorization shall be posted in a conspicuous place and in such manner that all terms are visible, at the place the licensee considers to be the principal control point of the transmitter. At all other control points listed on the station authorization, a photocopy of the station license and other instruments of station authorization shall be posted.

(b) The original operator license, or FCC Form 759, of each station operator shall be posted at the place where he is on duty as an operator.

§ 3.93 *Operator requirements.* (a) One or more radio operators holding a valid radiotelephone first-class operator license, except as provided below, shall be in actual charge of the transmitting apparatus and shall be on duty either at the transmitter location or remote control point.

(b) A station which is authorized for non-directional operation with power of 10 kilowatts or less may be operated by

persons holding commercial radio operator license of any class, except an aircraft radiotelephone operator authorization or a temporary limited radiotelegraph second-class operator license, when the equipment is so designed that the stability of the frequency is maintained by the transmitter itself within the limits of tolerance specified, and none of the operations, except those specified in subparagraphs (1) through (4) of this paragraph, necessary to be performed during the course of normal operation may cause off-frequency operation or result in any unauthorized radiation. (A person holding any class of radio operator license or permit who is authorized thereunder to perform limited operation of a standard broadcast station may, when a Conelrad Radio Alert is called, make adjustments necessary to effect operation on a Conelrad authorization: *Provided*, That the station's full-time radiotelephone firstclass operator shall have previously instructed such person in the adjustments to the transmitter which are necessary to accomplish Conelrad operation.) Adjustments of transmitting equipment by such operators, except when under the immediate supervision of a radiotelephone first-class operator, shall be limited to the following:

(1) Those necessary to commence or terminate transmitter emissions as a routine matter.

(2) Those external adjustments that may be required as a result of variations of primary power supply.

(3) Those external adjustments which may be necessary to insure modulation within the limits required.

(4) Those adjustments necessary to effect any change in operating power which may be required by the station's instrument of authorization.

Should the transmitting apparatus be observed to be operating in a manner inconsistent with the station's instrument of authorization and none of the above adjustments are effective in bringing it into proper operation, a person holding other than a radiotelephone first-class operator license and not acting under the immediate supervision of radiotelephone first-class operator, shall be required to terminate the station's emissions.

(c) The licensee of a station which is operated by one or more operators holding other than a radiotelephone first-class operator license shall have one or more operators holding a radiotelephone first-class operator license in regular full-time employment at the station whose primary duties shall be to effect and insure the proper functioning of the transmitting equipment. In the event that the licensee also operates an FM broadcast station in the same community, a regular full-time radiotelephone first-class operator or operators employed in connection with the standard broadcast station may concurrently be employed to satisfy the requirements of § 3.265 (c) or § 3.565 (c): *Provided*, That the duties of such operator or operators concerning the FM broadcast transmitting equipment shall in nowise interfere with the proper performance of his duties with respect to the standard broadcast transmitter.

(d) The licensed operator on duty and in charge of a standard broadcast transmitter may, at the discretion of the licensee, be employed for other duties or for the operation of another radio station or stations in accordance with the class of operator's license which he holds and the rules and regulations governing such other stations: *Provided, however*, That such duties shall in nowise interfere with the proper operation of the standard broadcast transmitter.

§ 3.94 *Period of construction.* Each construction permit for a radio station in the standard broadcast service will specify a maximum of 60 days from the date of granting thereof as the time within which construction of the station shall begin, and a maximum of six months thereafter as the time within which construction shall be completed and with the station ready for operation, unless otherwise determined by the Commission upon proper showing in any particular case.

§ 3.95 *Equipment tests.* (a) During the process of construction of a standard broadcast station, the permittee, after notifying the Commission and Engineer in Charge of the radio district in which the station is located, may without further authority of the Commission, conduct equipment tests during the experimental period for the purpose of such adjustments and measurements as may be necessary to assure compliance with the terms of the construction permit, the technical provisions of the application therefor, the rules and regulations, and the applicable engineering standards. In addition, the Commission may authorize equipment tests other than during the experimental period if such operation is shown to be desirable to the proper completion of construction and adjustment of the transmitting equipment and antenna system. An informal application for such authority, giving full details regarding the need for such tests, shall be filed with the Commission at least two (2) days (not including Sundays and Saturdays and legal holidays when the offices of the Commission are not open) prior to the date on which it is desired to begin such operation.

(b) The Commission may notify the permittee to conduct no tests or may cancel, suspend, or change the date for the beginning of equipment tests as and when such action may appear to be in the public interest, convenience, and necessity.

(c) Equipment tests may be continued so long as the construction permit shall remain valid and shall be conducted only during the experimental period (12 midnight to local sunrise) unless otherwise specifically authorized.

(d) Inspection of a station will ordinarily be required during the equipment test period and before the commencement of program tests. After construction and after adjustments and measurements have been completed to show compliance with the terms of the construction permit, the technical provisions of the application therefor, the rules and regulations and the applicable engineering standards, the permittee should notify the Engineer in Charge of the radio district in which the station is located that it is ready for inspection.

(e) The authorization for tests embodied in this section shall not be construed as constituting a license to operate but as a necessary part of construction.

§ 3.96 *Program tests.* (a) Upon completion of construction of a standard broadcast station in accordance with the terms of the construction permit, the technical provisions of the application therefor, and the rules and regulations and applicable engineering standards and when an application for station license has been filed showing the station to be in satisfactory operating condition, the permittee may request authority to conduct program tests: *Provided*, That such request shall be filed with the Commission at least ten (10) days prior to the date on which it is desired to begin such operation and that the Engineer in Charge of the radio district in which the station is located is notified. All data necessary to show compliance with the terms and conditions of the construction permit must be filed with the license application. If the station is using a directional antenna, a proof of performance must also be filed as required by § 3.33 (b).

(b) Program tests shall not commence until specific Commission authority is received. The Commission reserves the right to change the date of the beginning of such tests or to suspend or revoke the authority for program tests as and when such action may appear to be in the public interest, convenience, and necessity.

(c) Unless sooner suspended or revoked program test authority continues valid during Commission consideration of the application for license and during this period further extension of the construction permit is not required. Program test authority shall be automatically terminated by final determination upon the application for station license.

(d) All operation on program test authority shall be in strict compliance with the rules governing standard broadcast stations and in strict accordance with representations made in the application for license pursuant to which the tests were authorized.

(e) The granting of program test authority shall not be construed as approval by the Commission of the application for station license.

§ 3.97 *Station inspection.* The licensee of any radio station shall make the station available for inspection by representatives of the Commission at any reasonable hour.

OTHER OPERATING REQUIREMENTS

§ 3.111 *Logs.* The licensee or permittee of each standard broadcast station shall maintain program and operating logs and shall require entries to be made as follows:

(a) In the program log:

(1) An entry of the time each station identification announcement (call letters and location) is made.

(2) An entry briefly describing each program broadcast, such as "music," "drama," "speech," etc., together with the name or title thereof, and the sponsor's name, with the time of the beginning and ending of the complete program. If a mechanical record is used, the entry shall show the exact nature thereof, such as "record," "transcription," etc., and the time it is announced as a mechanical record. If a speech is made by a political candidate, the name and political affiliations of such speaker shall be entered.

(3) An entry showing that each sponsored program broadcast has been announced as sponsored, paid for, or furnished by the sponsor.

(4) An entry showing, for each program of network origin, the name of the network originating the program.

(b) In the operating log:

(1) An entry of the time the station begins to supply power to the antenna, and the time it stops.

(2) An entry of the time the program begins and ends.

(3) An entry of each interruption to the carrier wave, its cause, and duration.

(4) An entry of the following each 30 minutes:

(i) Operating constants of last radio stage (total plate current and plate voltage).

(ii) Antenna current.

(iii) Frequency monitor reading.

(iv) Temperature of crystal control chamber if thermometer is used.

(5) Log of experimental operation during experimental period. (If regular operation is maintained during this period, the above logs shall be kept.)

(i) A log must be kept of all operation during the experimental period. If the entries required above are not applicable thereto, then the entries shall be made so as to fully describe the operation.

(c) Where an antenna structure(s) is required to be illuminated see § 17.38, *Recording of tower light inspections in the station record*, of Part 17 of this chapter (Construction, Marking and Lighting of Antenna Structures).

§ 3.112 *Logs; retention of.* Logs of standard broadcast stations shall be retained by the licensee or permittee for a period of two years: *Provided, however*, That logs involving communications incident to a disaster or which include communications incident to or involved in an investigation by the Commission and concerning which the licensee or permittee has been notified, shall be retained by the licensee or permittee until he is specifically authorized in writing by the Commission to destroy them: *Provided, further*, That logs incident to or involved in any claim or complaint of which the licensee or permittee has notice shall be retained by the licensee or permittee until such claim or complaint has been fully satisfied or until the same has been barred by statute limiting the time for the filing of suits upon such claims.

NOTE: Application forms for licenses and other authorizations require that certain operating and program data be supplied. It is suggested that these application forms be kept in mind in connection with maintenance of station program and operating records.

§ 3.113 *Logs; by whom kept.* Each log shall be kept by the person or persons competent to do so, having actual knowledge of the facts required, who shall sign the log when starting duty and again when going off duty. The logs shall be made available upon request by an authorized representative of the Commission.

§ 3.114 *Log form.* The log shall be kept in an orderly manner, in suitable form, and in such detail that the data required for the particular class of station concerned are readily available. Key letters or abbreviations may be used if proper meaning or explanation is contained elsewhere in the log.

§ 3.115 *Correction of logs.* No log or portion thereof shall be erased, obliterated, or willfully destroyed within the period of retention provided by the rules. Any necessary correction may be made only by the person originating the entry who shall strike out the erroneous portion, initial the correction made, and indicate the date of correction.

§ 3.116 *Rough logs.* Rough logs may be transcribed into condensed form, but in such case the original log or memoranda and all portions thereof shall be preserved and made a part of the complete log.

§ 3.117 *Station identification.* (a) A licensee of a standard broadcast station shall make station identification announcement (call letters and location) at the beginning and ending of each time of operation and during operation (1) on the hour and (2) either on the half hour or at the quarter hour following the hour and at the quarter hour preceding the next hour: *Provided*,

(b) Such identification announcement need not be made on the hour when to make such announcement would interrupt a single consecutive speech, play, religious service, symphony concert, or operatic production of longer duration than 30 minutes. In such cases the identification announcement shall be made at the beginning of the program, at the first interruption of the entertainment continuity, and at the conclusion of the program.

(c) Such identification announcement need not be made on the half hour or quarter hours when to make such announcement would interrupt a single consecutive speech, play, religious service, symphony concert, or operatic production. In such cases an identification announcement shall be made at the first interruption of the entertainment continuity and at the conclusion of the program: *Provided*, That an announcement within 5 minutes of the times specified in paragraph (a) (2) of this section will satisfy the requirements of identification announcements.

(d) In the case of variety show programs, baseball game broadcasts, or similar programs of longer duration than 30 minutes, the identification announcement shall be made within 5 minutes of the hour and of the times specified in paragraph (a) (2) of this section.

(e) In the case of all other programs the identification announcement shall be made within 2 minutes of the hour and of the times specified in paragraph (a) (2) of this section.

(f) In making the identification announcement the call letters shall be given only on the channel of the station identified thereby, except as otherwise provided in § 3.287 of the Commission's rules governing FM broadcast stations.

§ 3.118 *Mechanical records.* (a) Each program broadcast which consists in whole or in part of one or more mechanical reproductions shall be announced in the manner and to the extent set out in this section.

(1) Each such program of longer duration than 30 minutes, consisting in whole or in part of one or more mechanical reproductions, shall be identified by appropriate announcement at the beginning of the program, at each 30-minute interval and at the conclusion of the program: *Provided, however*, That the identifying announcement at each 30-minute interval is not required in case of a mechanical reproduction consisting of a continuous uninterrupted speech, play, religious service, symphony concert, or operatic production of longer than 30 minutes.

(2) Each such program of a longer duration than 5 minutes and not in excess of 30 minutes, consisting in whole or in part of one or more mechanical reproductions, shall be identified by an appropriate announcement at the beginning and end of the program.

(3) Each such program of 5 minutes or less, consisting in whole or in part of mechanical reproductions, shall be identified by appropriate announcement immediately preceding the use thereof: *Provided, however*, That each such program of one minute or less need not be announced as such.

(4) In case a mechanical reproduction is used for background music, sound effects, station identification, program identification (theme music of short duration) or identification of the sponsorship of the program proper, no announcement of the mechanical reproduction is required.

(5) The exact form of identifying announcement is not prescribed, but the language shall be clear and in terms commonly used and understood. A licensee shall not attempt affirmatively to create the impression that any program being broadcast by mechanical reproduction consists of live talent.

(6) During the annual periods in which daylight saving time will be effective the requirements of this section are waived with respect to network programs, transcribed and rebroadcast one hour later because of the time differential resulting from the adoption of daylight saving time in some areas, this waiver being applicable whether the off-the-line recording is made by the network itself at one of its key stations or by an individual station, but only when the off-the-line recording is for broadcast one hour later by those stations which operate on standard time. Furthermore, each station which broadcasts network programs one hour later in accordance with this waiver shall make an appropriate announcement at least once each day between the hours of 10 a. m.

and 10 p. m., stating that some or all of the network programs which are broadcast by that station are delayed broadcasts by means of transcription, and indicating whether the transcriptions have been made by the network or the individual station. A network organization or individual station taking advantage of this waiver should so advise the Commission.

§ 3.119 *Sponsored programs; announcement of.* (a) In the case of each program for the broadcasting of which money, services, or other valuable consideration is either directly or indirectly paid or promised to, or charged or received by, any radio broadcast station, the station broadcasting such program shall make, or cause to be made, an appropriate announcement that the program is sponsored, paid for, or furnished, either in whole or in part.

(b) In the case of any political program or any program involving the discussion of public controversial issues for which any records, transcriptions, talent, scripts, or other material or services of any kind are furnished, either directly or indirectly, to a station as an inducement to the broadcasting of such program, an announcement shall be made both at the beginning and conclusion of such program on which such material or services are used that such records, transcriptions, talent, scripts, or other material or services have been furnished to such station in connection with the broadcasting of such program: *Provided, however,* That only one such announcement need be made in the case of any such program of 5 minutes' duration or less, which announcement may be made either at the beginning or the conclusion of the program.

(c) The announcement required by this section shall fully and fairly disclose the true identity of the person or persons by whom or in whose behalf such payment is made or promised, or from whom or in whose behalf such services or other valuable consideration is received, or by whom the material or services referred to in paragraph (b) of this section are furnished. Where an agent or other person contracts or otherwise makes arrangements with a station on behalf of another, and such fact is known to the station, the announcement shall disclose the identity of the person or persons in whose behalf such agent is acting instead of the name of such agent.

(d) In the case of any program, other than a program advertising commercial products or services, which is sponsored, paid for or furnished, either in whole or in part, or for which material or services referred to in paragraph (b) of this section are furnished, by a corporation, committee, association or other unincorporated group, the announcement required by this section shall disclose the name of such corporation, committee, association or other unincorporated group. In each such case the station shall require that a list of the chief executive officers or members of the executive committee or of the board of directors of the corporation, committee, association or other unincorporated group shall be made available for public inspection at one of the radio stations carrying the program.

(e) In the case of programs advertising commercial products or services, an announcement stating the sponsor's corporate or trade name or the name of the sponsor's product, shall be deemed sufficient for the purposes of this section and only one such announcement need be made at any time during the course of the program.

§ 3.120 *Broadcasts by candidates for public office*—(a) *Definitions.* A "legally qualified candidate" means any person who has publicly announced that he is a candidate for nomination by a convention of a political party or for nomination or election in a primary, special, or general election, municipal, county, State or national, and who meets the qualifications prescribed by the applicable laws to hold the office for which he is a candidate, so that he may be voted for by the electorate directly or by means of delegates or electors, and who:

(1) Has qualified for a place on the ballot or

(2) Is eligible under the applicable law to be voted for by sticker, by writing in his name on the ballot, or other method, and (i) has been duly nominated by a political party which is commonly known and regarded as such, or (ii) makes a substantial showing that he is a bona fide candidate for nomination or office, as the case may be.

(b) *General requirements.* No station licensee is required to permit the use of its facilities by any legally qualified candidate for public office, but if any licensee shall permit any such candidate to use its facilities, it shall afford equal opportunities to all other such candidates for that office to use such facilities: *Provided,* That such licensee shall have no power of censorship over the material broadcast by any such candidate.

(c) *Rates and practices.* (1) The rates, if any, charged all such candidates for the same office shall be uniform and shall not be rebated by any means direct or indirect. A candidate shall, in each case, be charged no more than the rate the station would charge if the candidate were a commercial advertiser whose advertising was directed to promoting its business within the same area as that encompassed by the particular office for which such person is a candidate. All discount privileges otherwise offered by a station to commercial advertisers shall be available upon equal terms to all candidates for public office.

(2) In making time available to candidates for public office no licensee shall make any discrimination between candidates in charges, practices, regulations, facilities, or services for or in connection with the service rendered pursuant to this part, or make or give any preference to any candidate for public office or subject any such candidate to any prejudice or disadvantage; nor shall any licensee make any contract or other agreement which shall have the effect of permitting any legally qualified candidate for any public office to broadcast to the exclusion of other legally qualified candidates for the same public office.

(d) *Records; inspection.* Every licensee shall keep and permit public inspection of a complete record of all requests for broadcast time made by or on behalf of candidates for public office, together with an appropriate notation showing the disposition made by the licensee of such requests, and the charges made, if any, if request is granted. Such records shall be retained for a period of two years.

§ 3.121 *Rebroadcast.* (a) The term "rebroadcast" means reception by radio of the program of a radio station, and the simultaneous or subsequent retransmission of such program by a broadcast station.

NOTE 1: As used in § 3.121, program includes any complete program or part thereof, or any signals if other than A–3 emission.

NOTE 2: In case a program is transmitted from its point of origin to a broadcast station entirely by telephone facilities in which a section of such transmission is by radio, the broadcasting of this program is not considered a rebroadcast.

(b) The licensee of a standard broadcast station may, without further authority of the Commission, rebroadcast the program of a United States standard or FM broadcast station, provided the Commission is notified of the call letters of each station rebroadcast and the licensee certifies that express authority has been received from the licensee of the station originating the program.

NOTE: The notice and certification of consent shall be given within 3 days of any single rebroadcast, but in case of the regular practice of rebroadcasting certain programs of a standard broadcast station several times during a license period, notice and certification of consent shall be given for the ensuing license period with the application for renewal of license, or at the beginning of such rebroadcast practice if begun during a license period.

(c) (1) The licensee of the standard broadcast station located within a state or the District of Columbia, may, without further authority of the Commission rebroadcast on a noncommercial basis a noncommercial program of a United States international broadcast station.

(2) The licensee of a standard broadcast station located in any territory or insular possession of the United States may, without further authority of the Commission, rebroadcast any program of a United States international broadcast station.

(3) In the case of any rebroadcast under the provisions of this paragraph, the Commission shall be notified of the call letters of each station whose programs are rebroadcast and the licensee shall certify that express authority has been received from the licensee of the station originating the program.

(d) No licensee of a standard broadcast station shall rebroadcast the program of any other class of United States radio station without written authority having first been obtained from the Commission upon application accompanied by written consent or certification of consent of the licensee of the station originating the program.

NOTE 1: The broadcasting of a program relayed by a remote pick-up broadcast station (§ 4.401 of this chapter) is not considered a rebroadcast.

NOTE 2: Informal application may be employed.

NOTE 3: By Order No. 82, dated and effective June 24, 1941, until further order of the Commission, § 3.121 (d) is suspended only insofar as it requires prior written authority of the Commission for the rebroadcasting of programs originated for that express purpose by United States Government radio stations.

(e) In case of a program rebroadcast by several standard broadcast stations, such as a chain rebroadcast, the person legally responsible for distributing the program or the network facilities may obtain the necessary authorization for the entire rebroadcast both from the Commission and from the person or licensee of the station originating the program.

(f) Attention is directed to section 325 (b) of the Communications Act of 1934, which reads as follows:

No person shall be permitted to locate, use, or maintain a radio broadcast studio or other place or apparatus from which or whereby sound waves are converted into electrical energy, or mechanical or physical reproduction of sound waves produced, and caused to be transmitted or delivered to a radio station in a foreign country for the purpose of being broadcast from any radio station there, having a power output of sufficient intensity, and/or being so located geographically that its emissions may be received consistently in the United States, without first obtaining a permit from the Commission upon proper application therefor. (See § 1.327 of this chapter.)

§ 3.122 *Lotteries.* (a) An application for construction permit, license, renewal of license, or any other authorization for the operation of a broadcast station, will not be granted where the applicant proposes to follow or continue to follow a policy or practice of broadcasting or permitting "the broadcasting of, any advertisement of or information concerning any lottery, gift enterprise, or similar scheme, offering prizes dependent in whole or in part upon lot or chance, or any list of the prizes drawn or awarded by means of any such lottery, gift enterprise, or scheme, whether said list contains any part or all of such prizes." (See 18 U. S. C. 1304.)

(b) The determination whether a particular program comes within the provisions of paragraph (a) of this section depends on the facts of each case. However, the Commission will in any event consider that a program comes within the provisions of paragraph (a) of this section if in connection with such program a prize consisting of money or thing of value is awarded to any person whose selection is dependent in whole or in part upon lot or chance, if as a condition of winning or competing for such prize, such winner or winners are required to furnish any money or thing of value or are required to have in their possession any product sold, manufactured, furnished or distributed by a sponsor of a program broadcast on the station in question.

LICENSING POLICIES

§ 3.131 *Exclusive affiliation of station.* No license shall be granted to a standard broadcast station having any contract, arrangement, or understanding, express or implied, with a network organization under which the station is prevented or hindered from, or penalized for, broadcasting the programs of any other network organization. (The term "network organization" as used herein includes national and regional network organizations. See ch. VII, J, of Report on Chain Broadcasting.)

§ 3.132 *Territorial exclusivity.* No license shall be granted to a standard broadcast station having any contract, arrangement, or understanding, express or implied, with a network organization which prevents or hinders another station serving substantially the same area from broadcasting the network's programs not taken by the former station, or which prevents or hinders another station serving a substantially different area from broadcasting any program of the network organization. This section shall not be construed to prohibit any contract, arrangement, or understanding between a station and a network organization pursuant to which the station is granted the first call in its primary service area upon the programs of the network organization.

§ 3.133 *Term of affiliation.* No license shall be granted to a standard broadcast station having any contract, arrangement, or understanding, express or implied, with a network organization which provides, by original term, provisions for renewal, or otherwise for the affiliation of the station with the network organization for a period longer than 2 years: *Provided,* That a contract, arrangement, or understanding for a period up to 2 years, may be entered into within six months prior to the commencement of such period.

§ 3.134 *Option time.* No license shall be granted to a standard broadcast station which options for network programs any time subject to call on less than 56 days' notice, or more time than a total of 3 hours within each of four segments of the broadcast day, as herein described. The broadcast day is divided into four segments, as follows: 8 a. m. to 1 p. m.; 1 p. m. to 6 p. m.; 6 p. m. to 11 p. m.; 11 p. m. to 8 a. m. (These segments are to be determined for each station in terms of local time at the location of the station but may remain constant throughout the year regardless of shifts from standard to daylight saving time or vice versa.) Such option may not be exclusive as against other network organizations and may not prevent or hinder the station from optioning or selling any or all of the time covered by the option, or other time, to other network organizations.

NOTE 1: As used in this section, an option is any contract, arrangement, or understanding, express or implied, between a station and a network organization which prevents or hinders the station from scheduling programs before the network agrees to utilize the time during which such programs are scheduled, or which requires the station to clear time already scheduled when the network organization seeks to utilize the time.

NOTE 2: All time options permitted under this section must be for specified clock hours, expressed in terms of any time system set forth in the contract agreed upon by the station and network organization. Shifts from daylight saving to standard time or vice versa may or may not shift the specified hours correspondingly as agreed by the station and network organization.

§ 3.135 *Right to reject programs.* No license shall be granted to a standard broadcast station having any contract, arrangement, or understanding, express or implied, with a network organization which (a) with respect to programs offered pursuant to an affiliation contract, prevents or hinders the station from rejecting or refusing network programs which the station reasonably believes to be unsatisfactory or unsuitable; or which (b) with respect to network programs so offered or already contracted for, prevents the station from rejecting or refusing any program which, in its opinion, is contrary to the public interest, or from substituting a program of outstanding local or national importance.

§ 3.136 *Network ownership of stations.* No license shall be granted to a network organization, or to any person directly or indirectly controlled by or under common control with a network organization, for more than one standard broadcast station where one of the stations covers substantially the service area of the other station, or for any standard broadcast station in any locality where the existing standard broadcast stations are so few or of such unequal desirability (in terms of coverage, power, frequency, or other related matters) that competition would be substantially restrained by such licensing. (The word "control" as used herein is not limited to full control but includes such a measure of control as would substantially affect the availability of the station to other networks.)

NOTE: Effective date of this section with respect to any station may be extended from time to time in order to permit the orderly disposition of properties; and it shall be suspended indefinitely with respect to regional network organizations.

§ 3.137 *Dual network operation.* No license shall be issued to a standard broadcast station affiliated with a network organization which maintains more than one network: *Provided,* That this section shall not be applicable if such networks are not operated simultaneously, or if there is no substantial overlap in the territory served by the group of stations comprising each such network.

§ 3.138 *Control by networks of station rates.* No license shall be granted to a standard broadcast station having any contract, arrangement, or understanding, express or implied, with a network organization under which the station is prevented or hindered from, or penalized for, fixing or altering its rates for the sale of broadcast time for other than the network's programs.

§ 3.139 *Special rules relating to contracts providing for reservation of time upon sale of a station.* (a) No license, renewal of license, assignment of license, or transfer of control of a corporate licensee shall be granted or authorized to a standard broadcast station which has

a contract, arrangement or understanding, express or implied, pursuant to which, as consideration or partial consideration for the assignment of license or transfer of control, the assignor of a station license or the transferor of stock, where transfer of a corporate licensee is involved, or the nominee of such assignor or transferor retains any right of reversion of the license or any right to the reassignment of the license in the future, or reserves the right to use the facilities of the station for any period whatsoever.

(b) In the case of assignment of license or transfer of control of a corporate licensee approved by the Commission before the effective date of this section, February 15, 1949, involving a contract, arrangement or understanding of the type covered by paragraph (a) of this section and the existence and terms of which were fully disclosed to the Commission at the time of execution, the Commission will give consideration to the issuance of a license despite the existence of such contract, arrangement or understanding, if the parties thereto modify such contract within 6 months from the effective date of this section. Such modifications will be considered on the facts of each case but no such modification will be approved unless the modified contract contains at least the following provisions:

(1) A maximum limitation of the time subject to reservation so that no more than 12 hours per week shall be subject to reservation, of which no more than 4 hours shall be on any given day.

(2) A clause providing that the licensee reserves the right to reject or refuse programs which he reasonably believes to be unsatisfactory or unsuitable or for which, in his opinion, a program of outstanding local or national importance should be substituted, but provision may be made for the substitution of other radio time for programs so rejected or for the payment at the station card rate for the time made unavailable.

(3) A prohibition against the resale or reassignment of any of the broadcast time reserved by such modified contract.

(4) An express negation of any right with respect to reversion or reassignment of license.

(5) An express provision setting forth a definite expiration date of the contract, arrangement or understanding. Such expiration date shall not extend beyond February 15, 1964 and shall in no event extend beyond the expiration date originally provided for in any such contract, agreement or understanding, in the event that such expiration date is a date prior to February 15, 1964.

(6) An express provision giving to the licensee the right to terminate the contract, arrangement or understanding for substantial cause, including, but not limited to, the assignment of license or the transfer of control of a corporate licensee, consistent disagreement over programs between the parties, or the acquisition of a network affiliation by the licensee, upon the payment of a lump sum or periodic payments, and providing that the amount initially fixed shall thereafter decrease as the amount of time reserved is decreased by performance of the contract. Any such payment should not be so unduly large as to constitute in practice an effective deterrent to the licensee exercising the right of termination. In determining whether the amount is unduly large, the Commission will consider the amount by which consideration in return for the transfer of the station was decreased by reason of the reservation of time or the present value of the radio time still reserved and unused as of the date of the exercise of the right of termination.

DATA AND MEASUREMENTS

§ 3.150 *Data required with applications for directional antenna systems.* (a) The following engineering data shall be submitted with the application for authority to install a directional antenna:

(1) Complete description of the proposed system showing:

(i) Number of elements,

(ii) Type of each element (i. e., guyed or self-supporting, uniform cross section or tapered (specifying base width), grounded or insulated, etc.),

(iii) Complete engineering details of top loading or sectionalizing, if any,

(iv) Height of vertical lead of each element in feet (height above base insulator or base, if grounded),

(v) Overall height in feet of each element above ground,

(vi) Details including sketches of ground system for each element (length and number of radials, dimensions of ground screen, if used, and depth buried) and outlines of property,

(vii) Ratio of fields from elements (identifying elements).

(2) Calculated horizontal (ground) plane field intensity patterns for each mode of operation plotted to the largest scale possible on standard letter-size polar coordinate paper (main engraving approximately 7'' x 10'') using only scale divisions and subdivisions having values of 1, 2, 2.5, or 5 times 10^{n}th and showing:

(i) Inverse field intensity at 1 mile and effective field intensity (RMS).

(ii) Direction true north shall be shown at zero azimuth.

(iii) Direction and distance to each existing station with which interference may be involved. (All directions shall be determined by accurate calculation or from Lambert Conformal Conic Projection Map such as United States Coast and Geodetic Survey Map, No. 3060a, or map of equal accuracy, and all distances shall be determined by accurate calculation or from United States Albers Equal Area Projection Map scale 1/2,500,000 or map of equal accuracy. These may be obtained from the United States Coast and Geodetic Survey and the United States Department of Interior, Geological Survey.)

(iv) Orientation of array with respect to true north and time phasing of fields from elements (specifying degrees leading [+] or lagging [−]) and space phasing of elements (identifying elements). (Space phasing should be given in feet as well as in degrees.)

(v) The location of all the minima in the pattern.

(3) Calculated field intensity vs. azimuth patterns for every 5 degrees of elevation through 60 degrees in those instances where radiation at angles above the horizontal plane is a pertinent factor in station allocation. These patterns may be plotted in polar or rectangular coordinates but shall be submitted one to a page. Minor lobe and null detail occurring between the 5 degree intervals need not be submitted.

(4) Data used in computing the patterns in subparagraphs (2) and (3) of this paragraph including:

(i) Formula used for calculating the horizontal patterns, sample calculations. (Derivation of formula if other than standard is used.)

(ii) All assumptions made and basis therefor, including electrical height, current distribution and efficiency of each element, and ground conductivity.

(iii) Complete tabulation of final calculated data used in plotting patterns, including data for determination of RMS value of pattern.

(5) Values of field intensity less than 10 percent of the effective field intensity of the patterns in subparagraphs (2) and (3) of this paragraph shown on an enlarged scale.

(6) In the event actual inverse distance field intensities expected to be determined in practice (that is, the values determined from actual measurements, particularly in sharp nulls) are different from the calculated values in subparagraphs (2) and (3) of this paragraph, the maximum expected operating values (MEOV) as well as the calculated values shall be shown on both the full patterns and the enlarged sections.

(7) Any additional information required by the application form.

§ 3.151 *Field intensity measurements to establish performance of directional antennas.* (a) In addition to the information required by the license application form, the following showing must be submitted to indicate that the pattern obtained for each mode of directional operation is essentially the same as that predicted by the application and required by terms of the authorization and that any specific requirements set out are fully met:

(1) Horizontal field intensity pattern(s) showing the inverse field intensity at 1 mile and effective field intensity (RMS) as determined from field intensity measurements taken and analyzed in accordance with § 3.186 in at least the following directions:

(i) Those specified in the instrument of authorization.

(ii) In major lobes. Generally at least three radials are necessary to establish a major lobe; however, additional radials may be required.

(iii) Along sufficient number of other radials to establish the effective field. In the case of a relatively simple directional antenna pattern, approximately five radials in addition to those in subdivisions (i) and (ii) of this subparagraph are sufficient. However, when more complicated patterns are involved, that is, patterns having several or sharp lobes or nulls, measurements shall be taken along as many radials as may be necessary, to definitely establish the pattern(s).

(2) Pattern(s) plotted with direction true north as zero azimuth and showing the orientation of array with respect to true north, time and space phasing of elements, and both calculated and measured parameters. (Specify degrees leading [+] or lagging [−] and space phasing in feet as well as in degrees.)

(3) Pattern(s) plotted to the largest scale possible on standard letter-size polar coordinate paper (main engraving approximately 7'' x 10'') using divisions and subdivisions having values of 1, 2, 2.5, or 5 times 10^{n}th (no other values shall be used). All values of field intensity less than 10 percent of the RMS field intensity of the pattern shown on an enlarged scale.

(4) Complete tabulation of all data used in plotting the above pattern(s).

(5) The 25 and 5 mv/m field intensity contours and the nighttime interference-free contour, when the pattern is for nighttime operation, as well as any other contours specified by the instrument of authorization, plotted on a map which has the largest practical scale. These contours need not be shown for distances greater than 20 miles from the antenna except that the field intensity contours on the far side of the business and residential areas of the city in which the main studio is located shall be shown. When the station is limited by interference within the 5 mv/m contour the latter contour need not be shown. In the event the 5 mv/m contour includes and extends beyond the city and beyond 20 miles, the highest signal intensity contour that entirely includes the city may be plotted in lieu of the 5 mv/m contour; in the event that the 5 mv/m contour does not include the city, the contour of highest signal intensity encompassing the city shall be plotted in addition to the 5 mv/m contour.

(6) The actual field intensity measured at each monitoring point established in the various directions for which a limiting field was specified in the instrument of authorization together with accurate and detailed description of each monitoring point together with ordinary snapshots, clear and sharp, taken with the field intensity meter in its measuring position and with the camera so located that its field of view takes in as many pertinent landmarks as possible. In addition, the directions for proceeding to each monitoring point together with a rough sketch or map upon which has been indicated the most accessible approaches to the monitoring points should be submitted.

§ 3.152 *Field intensity measurements in support of applications or evidence at hearings.* In the determination of interference, groundwave field intensity measurements will take precedence over theoretical values, provided such measurements are properly taken and presented. When measurements of groundwave signal intensity are presented, they shall be sufficiently complete in accordance with § 3.186 to determine the field intensity at 1 mile in the pertinent directions for that station.

NOTE: The antenna resistance measurements required by § 3.186 need not be taken or submitted.

STANDARD BROADCAST TECHNICAL STANDARDS

§ 3.181 *Introduction.* (a) There are presented herein the Technical Standards giving interpretations and further considerations concerning the rules and regulations of the Federal Communications Commission governing standard broadcast stations. While rules and regulations form the basis of good engineering practice, these standards may go beyond the rules and regulations and set up engineering principles for consideration of various allocation problems. These standards have been approved by the Commission and thus are considered as reflecting the opinion of the Commission in all matters involved.

(b) The Technical Standards set forth herein are those deemed necessary for the construction and operation of standard broadcast stations to meet the requirements of technical regulations and for operation in public interest along technical lines not specifically enunciated in the regulations. These standards are based on the best engineering data available from evidence supplied in formal and informal hearings and extensive surveys conducted in the field by the Commission's personnel. Numerous informal conferences have been held with radio engineers, manufacturers of radio equipment and others for the guidance of the Commission in the formulation of these standards.

(c) These standards are complete in themselves and supersede any previous announcements or policies which may have been enunciated by the Commission on engineering matters concerning standard broadcast stations.

(d) While these standards provide for flexibility and set forth the conditions under which they are applicable, it is not expected that material deviation therefrom as to fundamental principles will be recognized unless full information is submitted as to the reasonableness of such departure and the need therefor.

(e) These standards will necessarily change as progress is made in the art, and accordingly it will be necessary to make revisions from time to time. The Commission will accumulate and analyze engineering data available as to the progress of the art so that its standards may be kept current with the developments.

§ 3.182 *Engineering standards of allocation.* (a) Sections 3.21 to 3.34, inclusive, govern allocation of facilities in the standard broadcast band of 535 to 1605 kc. Section 3.21 establishes three classes of channels in this band, namely, clear channels for the use of high-powered stations, regional channels for the use of medium-powered stations, and local channels for the use of low-powered stations. The classes and power of standard broadcast stations which will be assigned to the various channels are set forth in § 3.22. The classification of the standard broadcast stations are as follows:

(1) Class I stations are dominant stations operating on clear channels with powers of not less than 10 or more than 50 kw. These stations are designed to render primary and secondary service over an extended area and at relatively long distances, hence have their primary service areas free from objectionable interference from other stations on the same and adjacent channels and secondary service areas free from objectionable interference from stations on the same channels. (The secondary service area of a Class I station is not protected from adjacent channel interference. However, if it is desired to make a determination of the area in which adjacent channel groundwave interference (10 kc removed) to skywave service exists, it may be considered as the area where the ratio of the desired 50% skywave of the Class I station to the undesired groundwave of a station 10 kc removed is 1 to 4.) From an engineering point of view, Class I stations may be divided into two groups and, hereafter, for the purpose of convenience, the two groups of Class I stations will be termed Class I–A or I–B in accordance with the assignment to channels allocated by § 3.25 (a) or (b).

(i) The Class I stations in group I–A are those assigned to the channels allocated by § 3.25 (a), on which duplicate nighttime operation is not permitted, that is, no other station is permitted to operate on a channel with a Class I station of this group within the limits of the United States (the Class II stations assigned the channels operate limited time or daytime only), and during daytime the Class I station is protected to the 100 uv/m ground wave contour. Protection is given this class of station to the 500 uv/m ground wave contour from adjacent channel stations for both day and nighttime operations. The power of each such Class I station shall not be less than 50 kw.

(ii) The Class I stations in group I–B are those assigned to the channels allocated by § 3.25 (b), on which duplicate operation is permitted, that is, other Class I or Class II stations operating unlimited time may be assigned to such channels. During nighttime hours of operation a Class I station of this group is protected to the 500 uv/m 50 percent sky wave contour and during daytime hours of operation to the 100 uv/m ground wave contour from stations on the same channel. Protection is given to the 500 uv/m groundwave contour from stations on adjacent channels for both day and nighttime operation. The operating powers of Class I stations on these frequencies shall be not less than 10 kw nor more than 50 kw.

(2) Class II stations are secondary stations which operate on clear channels with powers not less than 0.25 kw. or more than 50 kw. These stations are required to use a directional antenna or other means to avoid causing interference within the normally protected service areas of Class I stations or other Class II stations. These stations normally render primary service only, the area of which depends on the geographical location, power, and frequency. This may be relatively large but is limited by and subject to such interference as may be received from Class I stations. However, it is recommended that Class

II stations be so located that the interference received from other stations will not limit the service area to greater than the 2500 uv/m ground wave contour nighttime and 500 uv/m groundwave contour daytime, which are the values for the mutual protection of this class of stations with other stations of the same class.

(3) Class III stations operate on regional channels and normally render primary service to the larger cities and the rural area contiguous thereto, and are subdivided into two classes:

(i) Class III–A stations which operate with powers not less than 1 kw or more than 5 kw are normally protected to the 2500 uv/m groundwave contour nighttime and the 500 uv/m groundwave contour daytime.

(ii) Class III–B stations which operate with powers not less than 0.5 kw, or more than 1 kw nighttime and 5 kw daytime are normally protected to the 4000 uv/m groundwave contour nighttime and 500 uv/m groundwave contour daytime.

(iii) Class IV stations operate on local channels normally rendering primary service only to a city or town and the surburban and rural areas contiguous thereto with powers not less than 0.1 kw or more than 0.25 kw. The stations are normally protected to 500 uv/m groundwave contour daytime. On local channels the separation required for the daytime protection shall also determine the nighttime separation. The actual nighttime limitation will be calculated.

NOTE: The following approximate method may be used. It is based on the assumption of 0.25 wavelength antenna height and 88 mv/m at one mile effective field for 250 watts power, using the 10% skywave field intensity curve of Figure 2 of § 3.190. Zones defined by circles of various radii specified below are drawn about the desired station and the interfering 10% skywave signal from each station in a given zone is considered to be the value tabulated below. The effective interfering 10% skywave signal is taken to be the RSS value of all signals originating within these zones. (Stations beyond 500 miles are not considered.)

Zone	Inner radius	Outer radius	10 percent skywave signal (mv/m)
A	----------	60	0.10
B	60	80	.12
C	80	100	.14
D	100	250	.16
E	250	350	.14
F	350	450	.12
G	450	500	.10

Where the power of the interfering station is not 250 watts, the 10% skywave signal should be adjusted by the square root of the ratio of the power to 250 watts.

(b) The class of any station is determined by the channel assignment, the power, and the field intensity contour to which it renders service free of interference from other stations as determined by these standards. No station will be permitted to change to a class normally protected to a contour of less intensity than the contour to which the station actually renders interference-free service. Any Station of a class normally protected to a contour of less intensity than that to which the station actually renders interference-free service, will be automatically reclassified according to the class normally protected, the minimum consistent with its power and channel assignment. Likewise, any station to which the interference is reduced so that service is rendered to a contour normally protected for a higher class will be automatically changed to that class if consistent with its power and channel assignment.

(c) When it is shown that primary service is rendered by any station, beyond the normally protected contour, and when primary service to approximately 90 percent of the population (population served with adequate signal) of the area between the normally protected contour and the contour to which such station actually serves, is not supplied by any other station or stations carrying the same general program service, the contour to which protection may be afforded in such cases will be determined from the individual merits of the case under consideration.

(d) When a station is already limited by interference from other stations to a contour of higher value than that normally protected for its class, this contour shall be the established standard for such station with respect to interference from all other stations.

(e) The several classes of broadcast stations have in general three service areas; namely, primary, secondary, and intermittent service areas. (See § 3.11 for the definitions of primary, secondary, and intermittent service areas.) Class I stations render service to all three service areas. Class II stations render service to a primary area but the secondary and intermittent service areas may be materially limited or destroyed due to interference from other stations depending on the station assignments involved. Class III and IV stations usually have only primary service areas as interference from other stations generally prevents any secondary service and may limit the intermittent service area. However, complete intermittent service may be obtained in many cases depending on the station assignments involved.

(f) The signals necessary to render primary service to different types of service areas are as follows:

Area:	Field intensity groundwave [1]
City business or factory areas	10 to 50 mv/m
City residential areas	2 to 10 mv/m
Rural—all areas during winter or northern areas during summer	0.1 to 0.5 mv/m
Rural—southern areas during summer	0.25 to 1.0 mv/m

[1] See § 3.184 for curves showing distance to various ground wave field intensity contours for different frequency and ground conductivities and § 3.183.

All these values are based on an absence of objectionable fading, either in changing intensity or selective fading, the usual noise level in the areas, and an absence of limiting interference from other broadcast stations. The values apply both day and night but generally fading or interference from other stations limits the primary service at night in all rural areas to higher values of field intensity than the values given. The Commission will not authorize a directive antenna for a Class IV station assigned a local channel.

NOTE: Standards have not been established for interference from atmospherics or man-made electric noise as no uniform method of measuring noise or static has been established. In any individual case objectionable interference from any source, except other broadcast signals, may be determined by comparing the actual noise interference reproduced during reception of a desired broadcast signal to the degree of interference that would be caused by another broadcast signal within 20 cycles of the desired signal and having a carrier ratio of 20 to 1 with both signals modulated 100 percent on peaks of usual programs. Standards of noise measurements and interference ratio for noise are now being studied.

(g) In determining the population of the primary service area, it may be considered that the following signals are satisfactory to overcome man-made noise in towns of the population given.

Population:	Field intensity groundwave
Up to 2,500	0.5 mv/m
2,500 to 10,000	2.0 mv/m
10,000 and up	Values given in paragraph (f) of this section

These values are subject to wide variations in individual areas and especial attention must be given to interference from other stations. The values are not considered satisfactory in any case for service to the city in which the main studio of the station is located. The values in paragraph (f) of this section shall apply except as individual consideration may determine.

(h) All classes of broadcast stations have primary service areas subject to limitation by fading and noise, and interference from other stations to the contours set out for each class of station.

(i) Secondary service is delivered in the areas where the sky wave for 50 percent or more of the time has a field intensity of 500 uv/m or greater. (The secondary service area of a Class I-A station should be considered as having this limit only for determination of service in comparison with other stations.) It is not considered that satisfactory secondary service can be rendered to cities unless the sky wave approaches in value the ground wave required for primary service. The secondary service is necessarily subject to some interference and extensive fading whereas the primary service area of a station is subject to no objectionable interference or fading. Class I stations only are assigned on the basis of rendering secondary service.

NOTE: Standards have not been established for objectionable fading as such standards would necessarily depend on the receiver characteristics which have been changed considerably in this regard during the last several years. Selective fading causing audio distortion and the signal fading below the noise level are the objectionable characteristics of fading on modern design receivers. The AVC circuits in the better designed modern receivers in general maintain the audio output sufficiently constant to be satisfactory during most fading.

(j) The intermittent service is rendered by the groundwave and begins at the outer boundary of the primary service area and extends to the value of signal

where it may be considered as having no further service value. This may be down to only a few microvolts in certain areas and up to several millivolts in other areas of high noise level, interference from other stations, or objectionable fading at night. The intermittent service area may vary widely from day to night and generally varies from time to time as the name implies. Only Class I stations are assigned for protection from interference from other stations into the intermittent service area.

(k) Section 3.23 provides that the several classes of broadcast stations may be licensed to operate unlimited time, limited time, daytime, sharing time, and specified hours, with full explanation given in the section.

(l) Section 3.24 sets out the general requirements for obtaining an increase in facilities of a licensed station and for a new station. Section 3.24 (b) concerns the matter of interference that may be caused by a new assignment or increase in facilities of an existing assignment.

(m) [Reserved.]

(n) [Reserved.]

(o) Objectionable interference from another broadcast station is the degree of interference produced when, at a specified field intensity contour with respect to the desired station, the field intensity of an undesired station (or the root-sum-square value of field intensities of two or more stations on the same frequency) exceeds for ten (10) percent or more of the time the values set forth in these standards. (The secondary service area of a Class I–A station should be considered as having this limit only for determination of service in comparison with other stations.)

(1) With respect to the root-sum-square values of interfering field intensities referred to herein, except in the case of Class IV stations on local channels, calculation is accomplished by considering the signals in order of decreasing magnitude, adding the squares of the values and extracting the square root of the sum, excluding those signals which are less than 50% of the RSS value of the higher signals already included.

(2) The RSS value will not be considered to be increased when a new interfering signal is added which is less than 50% of the RSS value of the interference from existing stations, and which at the same time is not greater than the smallest signal included in the RSS value of interference from existing stations.

(3) It is recognized that application of the above "50% exclusion" method of calculating the RSS interference may result in some cases in anomalies wherein the addition of a new interfering signal or the increase in value of an existing interfering signal will cause the exclusion of a previously included signal and may cause a decrease in the calculated RSS value of interference. In order to provide the Commission with more realistic information regarding gains and losses in service (as a basis for determination of the relative merits of a proposed operation) the following alternate method for calculating the proposed RSS values of interference will be employed wherever applicable.

(4) In the cases where it is proposed to add a new interfering signal which is not less than 50% of the RSS value of interference from existing stations or which is greater than the smallest signal already included to obtain this RSS value, the RSS limitation after addition of the new signal shall be calculated without excluding any signal previously included. Similarly, in cases where it is proposed to increase the value of one of the existing interfering signals which has been included in the RSS value, the RSS limitation after the increase shall be calculated without excluding the interference from any source previously included.

(5) If the new or increased signal proposed in such cases is ultimately authorized, the RSS values of interference to other stations affected will thereafter be calculated by the "50% exclusion" method without regard to this alternate method of calculation.

(6) Examples of RSS interference calculations:

(i) Existing interferences:

Station No. 1—1.0 mv/m.
Station No. 2—0.60 mv/m.
Station No. 3—0.59 mv/m.
Station No. 4—0.58 mv/m.

The RSS value from Nos. 1, 2 and 3 is 1.31 mv/m: therefore interference from No. 4 is excluded for it is less than 50% of 1.31 mv/m.

(ii) Station A receives interference from:

Station No. 1—1.0 mv/m.
Station No. 2—0.60 mv/m.
Station No. 3—0.59 mv/m.

It is proposed to add a new limitation—0.68 mv/m. This is more than 50% of 1.31 mv/m, the RSS value of Nos. 1, 2 and 3. The RSS value of Station No. 1 and of the proposed station would be 1.21 mv/m which is more than twice as large as the limitation from Station No. 2 or No. 3. However, under the above provision the new signal and the three existing interferences are nevertheless calculated for purposes of comparative studies, resulting in an RSS value of 1.47 mv/m. However, if the proposed station is ultimately authorized, only No. 1 and the new signal are included in all subsequent calculations for the reason that Nos. 2 and 3 are less than 50% of 1.21 mv/m, the RSS value of the new signal and No. 1.

(iii) Station A receives interference from:

Station No. 1—1.0 mv/m.
Station No. 2—0.60 mv/m.
Station No. 3—0.59 mv/m.

No. 1 proposes to increase the limitation it imposes on Station A to 1.21 mv/m. Although the limitations from stations Nos. 2 and 3 are less than 50% of the 1.21 mv/m limitation, under the above provision they are nevertheless included for comparative studies, and the RSS limitation is calculated to be 1.47 mv/m. However, if the increase proposed by Station No. 1 is authorized, the RSS value then calculated is 1.21 mv/m because Stations Nos. 2 and 3 are excluded in view of the fact that the limitations they impose are less than 50% of 1.21 mv/m.

(p) Objectionable interference from a station on the same channel shall be considered to exist to a station when, at the field intensity contour specified in paragraph (v) of this section with respect to the class to which the station belongs, the field intensity of an interfering station (or the root-sum-square value of the field intensities of two or more interfering stations) operating on the same channel, exceeds for ten (10) percent or more of the time the value of the permissible interfering signal set forth opposite such class in paragraph (v) of this section.

(q) Objectionable interference from a station on an adjacent channel shall be considered to exist to a station when, at the normally protected contour of a desired station, the field intensity of the ground wave of an undesired station operating on an adjacent channel (or the root-sum-square value of the field intensities of two or more such undesired stations operating on the same adjacent channel) exceeds a value specified in paragraph (w) of this section.

(r) For the purpose of estimating the coverage and the interfering effects of stations in the absence of field intensity measurements, use shall be made of Figure 8 of § 3.190 which describes the estimated effective field for one kilowatt power input of simple vertical omnidirectional antennas of various heights with ground systems of at least 120 one-quarter wavelength radials. Certain approximations, based on the curve or other appropriate theory, may be made when other than such antennas and ground systems are employed, but in any event the effective field to be employed shall not be less than given in the following:

Class of station:	Effective field
I	225 mv/m
II and III	175 mv/m
IV	150 mv/m

In case a directional antenna is employed, the interfering signal of a broadcasting station will vary in different directions, being greater than the above values in certain directions and less in others, depending upon the design and adjustment of the directional antenna system. To determine the interference in any direction the measured or calculated radiated field (unabsorbed field intensity at 1 mile from the array) must be used in conjunction with the appropriate propagation curves. (See § 3.185 for further discussion and solution of a typical directional antenna case.)

(s) The existence or absence of objectionable groundwave interference from stations on the same or adjacent channels shall be determined by actual measurements made according to the method hereinafter described, or, in the absence of such measurements, by reference to the propagation curves of § 3.184. The existence or absence of objectionable interference due to skywave propagation shall be determined by reference to the appropriate propagation curves in Figure 1 or Figure 2 of § 3.190.

(t) In computing the fifty (50) percent skywave field intensity values and the ten (10) percent skywave field intensity values of a station on a clear channel, use shall be made of the appropriate graph set forth in Figure 1 of § 3.190 entitled "Average Skywave Field Inten-

sity" (corresponding to the second hour after sunset at the recording station). These graphs are drawn for a radiated field of 100 mv/m at 1 mile in the horizontal plane from a 0.311 wavelength antenna. In computing the ten (10) percent skywave field intensity of a regional channel station, use shall be made of the appropriate curve in Figure 2 of § 3.190 entitled "10 percent Skywave Signal Range." This graph is drawn for a radiated field of 100 mv/m at 1 mile at the vertical angle pertinent to transmission by one reflection. This curve supersedes the ten (10) percent skywave curve of Figure 1 of § 3.190, only for regional and local channels at the present time. Adoption of revised skywave curves for use on clear channels will await the outcome of the Clear Channel Hearing (Docket No. 6741).

(u) The distance to any specified groundwave field intensity contour for any frequency may be determined from the appropriate curves in § 3.184 entitled "Ground Wave Field Intensity vs. Distance."

(v) Protected service contours and permissible interference signals for broadcast stations are as follows:

Class of station	Class of channel used	Permissible power	Signal intensity contour of area protected from objectionable interference [1]		Permissible interfering signal on same channel [2]	
			Day [3]	Night	Day [3]	Night [4]
I-A	Clear	50 kw	SC 100 uv/m.. AC 500 uv/m..	Not duplicated	5 uv/m..	Not duplicated.
I-B	Clear	10 kw. to 50 kw	SC 100 uv/m.. AC 500 uv/m..	500 uv/m (50% skywave).	5 uv/m..	25 uv/m.
II	Clear	0.25 kw. to 50 kw	500 uv/m	2500uv/m [5] (groundwave)	25uv/m..	125 uv/m.
III-A	Regional	1 kw. to 5 kw	500 uv/m	2500 uv/m (groundwave)	25uv/m..	125 uv/m.
III-B	Regional	0.5 to 1 kw. night and 5 kw. day.	500 uv/m	4000 uv/m (groundwave)	25 uv/m.	200 uv/m.
IV	Local	0.1 kw. to 0.25 kw.	500 uv/m	Not prescribed [6]	25 uv/m.	Not prescribed. [6]

[1] When it is shown that primary service is rendered by any of the above classes of stations, beyond the normally protected contour, and when primary service to approximately 90 percent of the population (population served with adequate signal) of the area between the normally protected contour and the contour to which such station actually serves, is not supplied by any other station or stations, the contour to which protection may be afforded in such cases will be determined from the individual merits of the case under consideration. When a station is already limited by interference from other stations to a contour of higher value than that normally protected for its class, this contour shall be the established standard for such station with respect to interference from all other stations.
[2] For adjacent channels see paragraph (w) of this section.
[3] Ground wave.
[4] Skywave field intensity for 10 percent or more of the time.
[5] These values are with respect to interference from all stations except Class I-B, which stations may cause interference to a field intensity contour of higher value. However, it is recommended that Class II stations be so located that the interference received from Class I-B stations will not exceed these values. If the Class II stations are limited by Class I-II stations to higher values, then such values shall be the established standard with respect to protection from all other stations.
[6] See paragraph (a) (4) of this section.

SC=Same channel.
AC=Adjacent channel.

(w) The following ratios are to be used for determining the minimum ratio of the field intensity of a desired to an undesired signal for interference free service. In the case of a desired groundwave signal interfered with by two or more skywave signals on the same frequency, the RSS value of the latter is used.

Frequency separation of desired to undesired signals—	Desired groundwave to—		Desired 50 percent skywave to undesired 10 percent skywave
	Undesired groundwave	Undesired 10 percent skywave	
0 kc	20:1	20:1	20:1
10 kc	1:1	1:5	(1)
20 kc	1:30		

[1] The secondary service area of a Class I station is not protected from adjacent channel interference. However, if it is desired to make a determination of the area in which adjacent channel groundwave interference (10 kc. removed) to skywave service exists, it may be considered as the area where the ratio of the desired 50 percent skywave of the Class I station to the undesired groundwave of a station 10 kc. removed is 1 to 4.

From the above, it is apparent that in many cases stations operating on channels 10 and 20 kilocycles apart may be operated with antenna systems side by side or otherwise in proximity without any indications of interference if the interference is defined only in terms of permissible ratios listed in this paragraph. As a practical matter, serious interference problems may arise when two or more stations with the same general service area are operated on channels 10, 20 and 30 kilocycles apart.

(x) Two stations, one with a frequency twice that of the other, should not be assigned in the same groundwave service area unless special precautions are taken to avoid interference from the second harmonic of the lower frequency. In selecting a frequency, consideration should be given to the fact that occasionally the frequency assignment of two stations in the same area may bear such a relation to the intermediate frequency of some broadcast receivers as to cause so-called "image" interference. However, since this can usually be rectified by readjustment of the intermediate frequency of such receivers, the Commission in general will not take this kind of interference into consideration in allocation problems.

(y) Two stations operating with synchronized carriers and carrying the identical program will have their groundwave service subject to some distortion in areas where the signals from the two stations are of comparable intensity. For the purpose of estimating coverage of such stations areas in which the signal ratio is between 1 to 2 and 2 to 1 will not be considered as having satisfactory service.

NOTE: Two stations are considered to be operated synchronously when the carriers are maintained within one-fifth of a cycle per second of each other and they transmit identical programs.

§ 3.183 *Groundwave signals.* (a) Interference that may be caused by a proposed assignment or an existing assignment during day time should be determined, when possible, by measurements on the frequency involved or on another frequency over the same terrain and by means of the curves in § 3.184 entitled "Ground Wave Field Intensity versus Distance."

(b) In determining interference based upon field intensity measurements, it is necessary to do the following: First, establish the outer boundary of the protected service area of the desired station in the direction of the station that may cause interference to it. Second, at this boundary, measure the interfering signal from the undesired station. The ratio of the desired to the undesired signal given in § 3.182 (w) should be applied to the measured signals and if the required ratio is observed, no objectionable interference is foreseen. When measurements of both the desired and undesired stations are made in one area to determine the point where objectionable interference from groundwave signals occur or to establish other pertinent contours, several measurements of each station shall be made within a few miles of this point or contour. The effective field of the antennas in the pertinent directions of the stations must be established and all measurements must be made in accordance with § 3.186.
